FILING OF INTERNATIONAL APPLICATIONS CONTAINING LARGE NUCLEOTIDE AND/OR AMINO ACID SEQUENCE LISTINGS AND/OR TABLES RELATING THERETO**Note prepared by the International Bureau**

From 6 September 2002, it will be possible for applicants—who have been able, since 11 January 2001, to file the nucleotide and/or amino acid sequence listings part of the description of their international applications in computer readable form under Section 801 of the Administrative Instructions (for background information, see PCT Gazette No. 02/2001 dated 11 January 2001)—to also file tables relating to those sequence listings in computer readable form. Part 8 of the Administrative Instructions has been modified to extend its scope to such tables and Sections 801 to 806 have all been modified so as to introduce, where appropriate, a reference to such tables.

Section 803 has been modified to clarify that the current fee incentive will apply also to international applications containing tables, regardless of the length of such tables and regardless of the fact that the tables may be filed in addition to sequence listings, noting that all such sequence listings and tables would have had to be filed under modified Section 801(a).

Section 806 has been further modified to clarify that any designated Office is entitled, for the purposes of the national phase, to require from the applicant in certain cases a translation of any text matter contained in tables.

Furthermore, because Annex C of the Administrative Instructions (“Standard for the Presentation of nucleotide and/or amino acid sequence listings in international patent applications under the PCT”) deals only with the presentation of sequence listings themselves and does not cover sequence listing-related tables, a new Annex *C-bis* has been introduced, which contains the technical requirements with which such tables must comply.

Finally, the French version of Section 802(c)(iii) has been corrected so as to remove inconsistencies compared with the English version.

Modification of the Administrative Instructions

After consultation with the interested Offices and Authorities pursuant to Rule 89.2(b), a modified Part 8 of the Administrative Instructions, comprising Sections 801 to 806, and a new Annex *C-bis*, as set out on the following pages, are promulgated, pursuant to Rules 89*bis* and 89*ter*, with effect from 6 September 2002.

The present text of the Administrative Instructions is set out in PCT Gazette Special Issue No. S-03/2001 dated 30 August 2001, with subsequent modifications relating to new Part 7 and new Annex F, as set out in PCT Gazette Special Issue No. S-04/2001 dated 27 December 2001 and relating to Section 404 in PCT Gazette No. 47/2001 dated 22 November 2001, page 21586.

DÉPÔT DE DEMANDES INTERNATIONALES CONTENANT DE VOLUMINEUX LISTAGES DES SÉQUENCES DE NUCLÉOTIDES OU D'ACIDES AMINÉS, OU DES TABLEAUX Y RELATIFS**Note du Bureau international**

À compter du 6 septembre 2002, les personnes qui ont pu, depuis le 11 janvier 2001, déposer la partie de la description réservée au listage des séquences de nucléotides ou d'acides aminés de leurs demandes internationales sous forme déchiffrable par ordinateur en vertu de l'instruction administrative 801 (pour l'historique, se référer à la Gazette du PCT n° 02/2001 du 11 janvier 2001), pourront aussi déposer des tableaux relatifs à ces listages des séquences sous forme déchiffrable par ordinateur. Le champ d'application de la huitième partie des instructions administratives a été élargi à de tels tableaux et les instructions 801 à 806 ont toutes été modifiées pour introduire, le cas échéant, une référence à de tels tableaux.

L'instruction 803 a été modifiée pour préciser le fait que l'avantage sur le plan des taxes s'appliquera aussi aux demandes internationales contenant des tableaux, quelle que soit la longueur de tels tableaux et sans tenir compte du fait que les tableaux peuvent être déposés en plus des listages des séquences, étant entendu que de tels listages des séquences et de tels tableaux devraient avoir été déposés en vertu de l'instruction 801.a) modifiée.

L'instruction 806 a été encore modifiée pour préciser le fait qu'un office désigné peut, aux fins de la phase nationale, exiger que le déposant lui fournisse dans certains cas une traduction de tout élément de texte contenu dans les tableaux.

En outre, en raison du fait que l'annexe C des instructions administratives ("Norme relative à la présentation du listage des séquences de nucléotides et d'acides aminés dans les demandes internationales de brevet déposées selon le PCT") ne traite que de la présentation des listages des séquences eux-mêmes et ne couvre pas les tableaux relatifs aux listages des séquences, une nouvelle annexe *C-bis* a été introduite, qui contient les exigences techniques auxquelles doivent satisfaire de tels tableaux.

Enfin, la version française de l'instruction 802.c)iii), contenant des erreurs de concordance avec la version anglaise, a été également corrigée.

Modification des instructions administratives

Après consultation des offices et des administrations intéressés, conformément à la règle 89.2.b) du PCT, une huitième partie modifiée des instructions administratives, comprenant les instructions 801 à 806 et une nouvelle annexe *C-bis*, telles qu'elles figurent sur les pages suivantes, sont promulguées, conformément aux règles 89*bis* et 89*ter*, avec effet au 6 septembre 2002.

Le texte actuel des instructions administratives figure dans le numéro spécial de la Gazette du PCT n° S-03/2001 du 30 août 2001, avec modifications ultérieures relatives à la nouvelle septième partie et à la nouvelle annexe F dans le numéro spécial de la Gazette du PCT n° S-04/2001 du 27 décembre 2001, et relatives à l'instruction 404 dans la Gazette du PCT n° 47/2001 du 22 novembre 2001, page 21587.

ANNEX C-*bis*
TECHNICAL REQUIREMENTS
FOR THE PRESENTATION OF TABLES RELATED TO
NUCLEOTIDE AND AMINO ACID SEQUENCE LISTINGS
IN INTERNATIONAL PATENT APPLICATIONS UNDER THE PCT

Introduction

1. These technical requirements have been elaborated so as to provide standardization of the presentation of tables related to nucleotide and amino acid sequence listings in international patent applications. These technical requirements are intended to allow the applicant to draw up such tables in a manner which is acceptable to all receiving Offices, International Searching Authorities, International Preliminary Examining Authorities and to the International Bureau for the purposes of the international phase and to all designated and elected Offices for the purposes of the national phase.

Definition

2. For the purposes of these technical requirements, “competent Authority” is the International Searching Authority that is to carry out the international search on the international application, or the International Preliminary Examining Authority that is to carry out the international preliminary examination on the international application, or the designated/elected Office before which the processing of the international application has started.

Tables related to sequence listings

3. Tables filed in computer readable form under Section 801(a) shall comply with one of the following character formats:

- (i) UTF-8-encoded Unicode 3.0; or
- (ii) XML format conforming to the “Application-Body” Document Type Definition referred to in Appendix I of Annex F;

at the option of the competent Authority.

4. The spatial relationships (e.g., columns and rows) of the table elements shall be maintained.

5. At the option of the competent Authority, file compression is acceptable, so long as the compressed file is in a self-extracting format that will decompress on a Personal Computer Operating system that is acceptable to the competent Authority and to the International Bureau.

6. Each table shall be contained within a separate electronic file on any electronic medium that is acceptable to the competent Authority. The file recorded on the electronic medium that is acceptable to the competent Authority shall be encoded using IBM Code Page 437, IBM Code Page 932 or a compatible code page. A compatible code page, as would be required for, for example, Japanese, Chinese, Cyrillic, Arabic, Greek or Hebrew characters, is one that assigns the Roman alphabet and numerals to the same hexadecimal positions as do the specified code pages.

7. Tables filed in computer readable form may be created by any means, as long as the table on an electronic medium that is acceptable to the competent Authority is readable under a Personal Computer Operating system that is acceptable to the competent Authority and to the International Bureau.

8. If the electronic medium that is acceptable to the competent Authority is submitted after the date of filing of an application, the labels shall also include the filing date of the application and the application number.

ANNEXE C-bis
EXIGENCES TECHNIQUES RELATIVES À
LA PRÉSENTATION DES TABLEAUX RELATIFS AUX
LISTAGES DES SÉQUENCES DE NUCLÉOTIDES ET D'ACIDES AMINÉS
DANS LES DEMANDES INTERNATIONALES DE BREVET DÉPOSÉES SELON LE PCT

Introduction

1. Les présentes exigences techniques ont été élaborées pour normaliser la présentation des tableaux relatifs aux listages des séquences de nucléotides et d'acides aminés dans les demandes internationales de brevet. Elles visent à permettre au déposant d'établir des tableaux d'une manière qui soit acceptable pour tous les offices récepteurs, toutes les administrations chargées de la recherche internationale et les administrations chargées de l'examen préliminaire international et pour le Bureau international aux fins de la phase internationale, ainsi que pour tous les offices désignés et élus aux fins de la phase nationale.

Définition

2. Aux fins des présentes exigences techniques, l'expression "administration compétente" désigne l'administration chargée de la recherche internationale ou l'administration chargée de l'examen préliminaire international pour la demande internationale en question, ou encore l'office désigné ou élu au sein duquel le traitement de la demande internationale a commencé.

Tableaux relatifs aux listages des séquences

3. Les tableaux déposés sous forme déchiffrable par ordinateur en vertu de l'instruction 801.a) doivent respecter l'un des formats de caractères suivants :

- i) format de caractères Unicode 3.0, codage UTF-8; ou
- ii) format XML conforme à la définition de type de document "corps de la demande" visé à l'appendice I de l'annexe F;

au choix de l'administration compétente.

4. L'agencement (par exemple, colonnes et rangées) entre les éléments d'un tableau doit être maintenu.

5. Au choix de l'administration compétente, la compression d'un fichier est admise, dans la mesure où le fichier compressé se présente sous un format auto-extractible qui se décompressera sur un système d'exploitation d'ordinateur personnel admis par l'administration compétente et par le Bureau international.

6. Chaque tableau doit figurer dans un seul fichier électronique sur un support électronique admis par l'administration compétente. Le fichier enregistré sur le support électronique admis par l'administration compétente doit être codé selon la page de code IBM 437, la page de code IBM 932 ou une page de code compatible. Une page de code compatible (requis pour les caractères japonais, chinois, cyrilliques, arabes, grecs, hébraïques, etc.) est une page de code qui attribue les lettres de l'alphabet romain et les chiffres aux mêmes positions hexadécimales que les pages de code indiquées.

7. Les tableaux déposés sous forme déchiffrable par ordinateur peuvent être créés par tout moyen dans la mesure où le tableau figurant sur le support électronique qui est admis par l'administration compétente est déchiffrable sous un système d'exploitation d'ordinateur individuel lui aussi admis par l'administration compétente et par le Bureau international.

8. Si le support électronique admis par l'administration compétente est fourni après la date de dépôt de la demande, cette date et le numéro de la demande doivent aussi figurer sur les étiquettes.

**MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION—ASSEMBLY
(THIRTY-FIRST (18TH EXTRAORDINARY) SESSION)¹—FIRST PART****Reduction of the International Fee for International Applications Filed in Electronic Form:
Note prepared by the International Bureau**

The Assembly of the International Patent Cooperation Union (PCT Union) held its thirty-first (18th extraordinary) session in Geneva from 23 September to 1 October 2002, in conjunction with the thirty-seventh series of meetings of the Assemblies of the Member States of the World Intellectual Property Organization (WIPO). All documents discussed during the session are available from WIPO free of charge and can also be found on WIPO's Internet site, at the following address:

http://www.wipo.int/eng/document/govbody/wo_pct/index_31.htm

Note that the final report (document PCT/A/31/10) generally becomes available in the weeks following the closure of the meetings.

Amendment of the Schedule of Fees annexed to the PCT Regulations

The Assembly decided, with effect from 17 October 2002, to amend item 4 of the Schedule of Fees annexed to the PCT Regulations by including a new sub-item (b) to provide a basis for the reduction of the total amount of the international fee (that is, the basic fee and designation fee) by 200 Swiss francs if the international application, in accordance with and to the extent provided for in the Administrative Instructions, is filed in electronic form. The Assembly also decided that the amended Schedule of Fees, as in force from 17 October 2002, will apply only in respect of international applications whose date of receipt is on or after 17 October 2002.

The text of the amended Schedule of Fees, as in force from 17 October 2002, is reproduced on page 21000.

It is recalled that, following the coming into effect on 7 January 2002 of new Part 7 and new Annex F of the Administrative Instructions under the PCT containing, respectively, the legal framework and technical standard necessary to enable the implementation of electronic filing and processing of international applications under the PCT, as provided for by Rule 89bis.1 (see PCT Gazette Special Issue No. S-04/2001 (E) (27 December 2001)), any receiving Office having the necessary technical systems in place may decide to accept the filing of international applications in electronic form in accordance with Part 7 and Annex F. The receiving Office must, under the provisions of Section 710 of the Administrative Instructions under the PCT, notify the International Bureau of its requirements, and any such notification must then be promptly published by the International Bureau in the Gazette.

While no receiving Office has yet made such a notification, and it is therefore not yet possible for international applications to be filed in electronic form with any receiving Office pursuant to the new provisions, it is expected that certain receiving Offices will soon make such a notification and that it will therefore soon be possible for international applications to be filed in electronic form with such receiving Offices.

Modifications of the Administrative Instructions

After consultation with the interested Offices and Authorities pursuant to Rule 89.2(a), Sections 102bis and 707 of the Administrative Instructions have been modified as set out on page 21002 and are promulgated, pursuant to Rule 89bis and item 4 of the Schedule of Fees, with effect from 17 October 2002. Modified Section 102bis(c) now contains an express reference to renumbered item 4(a) of the Schedule of Fees (rather than item 4 as previously); modified Section 707 now contains a new paragraph (b) which refers to new item 4(b) of the Schedule of Fees and the title of the Section includes a reference to fee reduction.

The present text of the Administrative Instructions is as set out in PCT Gazette Special Issue No. S-03/2001 (E) dated 30 August 2001, with subsequent modifications relating to new Part 7 and new Annex F, as set out in PCT Gazette No. S-04/2001 dated 27 December 2001, relating to Section 404 as set out in PCT Gazette No. 47/2001 dated 22 November 2001, page 21586, and relating to modified Sections 801 to 806 and to new Annex C-bis as set out in PCT Gazette No. 36/2002 dated 6 September 2002, page 17632.

¹ A comprehensive note prepared by the International Bureau relating to all the matters that were on the agenda of the session of the Assembly will be published in due course in the PCT Gazette.

RÉUNIONS DE L'UNION INTERNATIONALE DE COOPÉRATION EN MATIÈRE DE BREVETS – ASSEMBLÉE (TRENTE-ET-UNIÈME SESSION (18^e SESSION EXTRAORDINAIRE))¹ – PREMIÈRE PARTIE

**Réduction de la taxe internationale pour les demandes internationales déposées sous forme électronique :
Note du Bureau international**

L'Assemblée de l'Union internationale de coopération en matière de brevets (Union du PCT) a tenu sa trente-et-unième session (18^e session extraordinaire) à Genève, du 23 septembre au 1^{er} octobre 2002, dans le cadre de la trente-septième série de réunions des Assemblées des États membres de l'Organisation Mondiale de la Propriété Intellectuelle (OMPI). Tous les documents qui ont fait l'objet de discussions durant la session sont disponibles gratuitement auprès de l'OMPI et peuvent être également consultés sur le site Internet de l'OMPI à l'adresse suivante : http://www.wipo.int/fre/document/govbody/wo_pct/index_31.htm

Il convient de noter que le rapport final (document PCT/A/31/10) est, en règle générale, disponible dans les semaines qui suivent la clôture des réunions.

Modification du barème de taxes annexé au règlement d'exécution du PCT

L'assemblée a décidé, avec effet à compter du 17 octobre 2002, de modifier le point 4 du barème de taxes annexé au règlement d'exécution du PCT en incluant un nouvel alinéa b) pour fournir une base à la réduction du montant total de la taxe internationale (c'est-à-dire la taxe de base et la taxe de désignation) de 200 francs suisses si la demande internationale, conformément aux instructions administratives et dans la mesure prévue par celles-ci, est déposée sous forme électronique. L'assemblée a également décidé que le barème révisé de taxes, en vigueur à compter du 17 octobre 2002, s'appliquera uniquement en ce qui concerne les demandes internationales dont la date de réception est le 17 octobre 2002 ou une date ultérieure.

Le texte du barème révisé de taxes, tel qu'il entre en vigueur à compter du 17 octobre 2002, est reproduit à la page 21001.

Il est rappelé que, suite à l'entrée en vigueur, le 7 janvier 2002, de la nouvelle septième partie et de la nouvelle annexe F des instructions administratives du PCT contenant respectivement le cadre juridique et la norme technique nécessaires pour la mise en œuvre du dépôt et du traitement électroniques des demandes internationales selon le PCT, tel que prévu à la règle 89bis.1 (voir le numéro spécial de la Gazette du PCT n° S-04/2001 (F) (27 décembre 2001)), tout office récepteur ayant mis en place les systèmes techniques nécessaires peut décider d'accepter le dépôt des demandes internationales sous forme électronique conformément à la septième partie et à l'annexe F. L'office récepteur doit, selon les dispositions de l'instruction administrative 710, notifier au Bureau international ses exigences et toute notification de ce type est publiée à bref délai dans la gazette par le Bureau international.

A ce jour, aucun office récepteur n'a fait une telle notification, et il n'est donc pas encore possible de déposer des demandes internationales sous forme électronique auprès d'un office récepteur conformément aux nouvelles dispositions. Il est cependant prévu que certains offices récepteurs enverront d'ici peu une telle notification et il sera alors possible de déposer auprès d'eux des demandes internationales sous forme électronique.

Modification des instructions administratives

Après consultation des offices et des administrations intéressés conformément à la règle 89.2.a), les instructions administratives 102bis et 707 ont été modifiées, telles qu'elles figurent à la page 21003, et sont promulguées, conformément à la règle 89bis et au point 4 du barème de taxes, avec effet à compter du 17 octobre 2002. L'instruction 102bis.c) modifiée contient désormais une référence expresse au point 4.a) renuméroté du barème de taxes (plutôt qu'au point 4 comme précédemment); l'instruction 707 modifiée contient désormais un nouvel alinéa b) qui se réfère au nouveau point 4.b) du barème de taxes et le titre de l'instruction inclut une référence à la réduction de taxe.

Le texte actuel des instructions administratives figure dans le numéro spécial de la Gazette du PCT n° S-03/2001 (F) du 30 août 2001, avec modifications ultérieures relatives à la nouvelle septième partie et à la nouvelle annexe F dans le numéro spécial de la Gazette du PCT n° S-04/2001 (F) du 27 décembre 2001, relatives à l'instruction 404 dans la Gazette du PCT n° 47/2001 du 22 novembre 2001, page 21587, et relatives aux instructions modifiées 801 à 806 et à la nouvelle annexe C-bis dans la Gazette du PCT n° 36/2002 du 6 septembre 2002, page 17633.

¹ Une note exhaustive du Bureau international relative à toutes les questions qui étaient à l'ordre du jour de la session de l'assemblée sera publiée en temps voulu dans la Gazette.

ELECTRONIC FILING AND PROCESSING OF INTERNATIONAL APPLICATIONS**EP European Patent Organisation (EPO)****JP Japan****US United States of America**

On 7 January 2002, new Part 7 and Annex F to the Administrative Instructions under the PCT relating to, respectively, the legal framework and the technical standard for the electronic filing and processing of international applications came into force. In April 2002, the Offices of Australia, Canada, Japan and the United States of America notified the International Bureau under Section 703(f) of the incompatibility of their applicable national law and technical systems with some of the requirements of Annex F under items (ii) to (iv) of Section 703(b) (for further details, see PCT Gazette No. 18/2002 dated 2 May 2002, page 8974).

In order to clarify their position, the Trilateral Offices (European Patent Office, Japan Patent Office and United States Patent and Trademark Office) have requested the publication of the following statement in the Gazette:

“In PCT Gazette No. 18/2002 of May 2, 2002, on page 8974, a notice was published entitled ‘Filing of international applications in electronic form: notifications by receiving Offices of incompatibility with national laws and technical systems (Section 703(f) of the Administrative Instructions under the PCT)’. The notice indicated that Australia, Canada, Japan and the United States notified the International Bureau under Administrative Instruction Section 703(f) concerning their current systems being incompatible with the International E-Filing Standard. This document is a further clarification of that notice.

Part 7 of the Administrative Instructions and Annex F established a new standard for electronic filing and processing of international applications, including provisions concerning document formatting, signal packaging, transmission protocols, electronic records management, electronic signatures, security and many other issues. The new International E-Filing Standard, promulgated December 27, 2001, was discussed for over two years, and benefited from the experiences of the Trilateral Offices (EPO, JPO and USPTO) and other automated Intellectual Property Offices throughout the world. It appears that it will be a much-needed and workable standard, and help advance practical electronic communications among Applicants, Offices, Authorities and the International Bureau. The provisions of the standard will maintain the authenticity, integrity and confidentiality of records filed and transferred in electronic form or by electronic means. The Standard also contains a deliberative change procedure that will keep the standard up-to-date as technology and laws evolve over time.

The provisions of the International E-Filing Standard are different and incompatible with some electronic submission systems currently being used by some Offices in their day-to-day activities. Those operational systems are essential for the work of their respective Offices; they cannot simply be turned off. Rather they must be carefully replaced by Standard-compatible substitute systems. In appreciation of the fact that complicated electronic systems cannot be modified overnight, Section 703(f) of the Administrative Instructions was promulgated as part of the Standard. This “grandfather clause” grants a temporary waiver from many provisions of the E-Filing Standard so Offices may continue using their legacy electronic filing systems until new systems, compatible with the Standard, can be developed.

DÉPÔT ET TRAITEMENT ÉLECTRONIQUES DES DEMANDES INTERNATIONALES**EP Organisation européenne des brevets (OEB)****JP Japon****US États-Unis d'Amérique**

Le 7 janvier 2002, la nouvelle septième partie et la nouvelle annexe F des Instructions administratives du PCT relatives, respectivement, au cadre juridique et à la norme technique pour le dépôt et le traitement électroniques des demandes internationales sont entrées en vigueur. En avril 2002, les offices de l'Australie, du Canada, du Japon et des États-Unis d'Amérique ont notifié au Bureau international, conformément à l'instruction administrative 703.f), l'incompatibilité de leur droit national applicable et de leurs systèmes techniques avec certaines des exigences de l'annexe F en vertu des points ii) à iv) de l'instruction 703.b) (pour plus de précisions, voir la Gazette du PCT n° 18/2002 du 2 mai 2002, page 8975).

Afin de préciser leur position, les offices engagés dans la coopération tripartite (Office européen des brevets, Office des brevets du Japon et Office des brevets et des marques des États-Unis d'Amérique) ont demandé la publication dans la Gazette d'une déclaration dont le texte original anglais figure à la page 21568 et dont la traduction française, établie par le Bureau international, figure ci-après :

“Dans la Gazette du PCT n° 18/2002 du 2 mai 2002, à la page 8975, a été publiée une notification intitulée ‘Dépôt de demandes internationales sous forme électronique : notifications des offices récepteurs relatives à l'incompatibilité de leur droit national et de leurs systèmes techniques (instruction 703.f) des Instructions administratives du PCT)’. Cette notification indique que l'Australie, le Canada, le Japon et les États-Unis d'Amérique ont informé le Bureau international, conformément à l'instruction administrative 703.f), que les systèmes actuellement en place dans leurs offices ne sont pas compatibles avec la norme internationale de dépôt électronique. La présente déclaration vise à préciser cette notification.

La septième partie des instructions administratives et l'annexe F ont mis en place une nouvelle norme de dépôt et de traitement électroniques des demandes internationales, y compris des dispositions concernant le format des documents, leur emballage, les protocoles de transmission, la gestion électronique des dossiers, les signatures électroniques, la sécurité et de nombreuses autres questions. La nouvelle norme internationale de dépôt électronique, promulguée le 27 décembre 2001, a fait l'objet de plus de deux années de discussions et a bénéficié de l'expérience acquise par les offices engagés dans la coopération tripartite (Office européen des brevets, Office des brevets du Japon et Office des brevets et des marques des États-Unis d'Amérique) et par d'autres offices de propriété intellectuelle dans le monde dont les systèmes sont automatisés. Il semble que cette norme sera réellement nécessaire et utile et qu'elle aidera les déposants, les offices, les administrations et le Bureau international à utiliser davantage en pratique la communication par voie électronique. Les dispositions de la norme permettront de préserver l'authenticité, l'intégrité et le caractère confidentiel des dossiers déposés et communiqués sous forme électronique ou par des moyens électroniques. De plus, la norme contient une procédure de modification ouverte à discussion qui permettra une mise à jour en fonction de l'évolution de la technologie et des législations.

Les dispositions de la norme internationale de dépôt électronique sont différentes et incompatibles avec certains systèmes de dépôt électronique utilisés actuellement par certains offices dans leurs activités de tous les jours. Ces systèmes opérationnels sont essentiels pour le travail des offices qui les utilisent et ne peuvent donc pas être facilement arrêtés. Il convient plutôt de les remplacer, en prenant toutes les précautions voulues, par des systèmes de substitution qui soient compatibles avec la norme. Tenant compte du fait que des systèmes électroniques complexes ne peuvent pas être modifiés du jour au lendemain, l'instruction administrative 703.f) a été promulguée comme partie intégrante de la norme. Cette “clause de l'antériorité” accorde une dérogation temporaire vis-à-vis de nombreuses dispositions de la norme internationale de dépôt électronique afin que les offices puissent continuer à utiliser leurs anciens systèmes de dépôt électronique jusqu'à ce que de nouveaux systèmes, compatibles avec la norme, soient mis au point.

ELECTRONIC FILING AND PROCESSING OF INTERNATIONAL APPLICATIONS (Cont'd)

The Trilateral Offices support the International E-Filing Standard, and share an intention to build their newer systems to comply with its requirements. Although some of the Trilateral Offices have submitted notifications under Section 703(f) to allow continued use of their present e-filing systems, the Trilateral Offices all have plans for future implementations of electronic filing consistent with the Standard. The notifications submitted under Section 703(f) allow this transition to be performed in an orderly and business-like manner.

Electronic filing systems are seen as critical to address increasing workloads of the international applications. The International E-Filing Standard will foster the smooth transfer of documents throughout the PCT offices. As the Patent Law Treaty comes into effect, any national application compliant with the Standard should be received as well. The Trilateral Offices support this increasing standardization, and welcome the ability to transfer electronic documents in seamless and secure electronic communications.”

DÉPÔT ET TRAITEMENT ÉLECTRONIQUES DES DEMANDES INTERNATIONALES (suite)

Les offices engagés dans la coopération tripartite soutiennent la norme internationale de dépôt électronique et ont tous l'intention de développer leurs nouveaux systèmes pour les mettre en conformité avec les exigences de cette norme. Bien que certains de ces offices aient présenté des notifications conformément à l'instruction 703.f) afin de continuer à utiliser leurs systèmes de dépôt électronique actuels, les offices engagés dans la coopération tripartite ont tous des projets de mise en œuvre du dépôt électronique qui sont en conformité avec la norme. Les notifications présentées conformément à l'instruction 703.f) permettent d'organiser une transition ordonnée et cohérente.

Les systèmes de dépôt électronique sont perçus comme étant un élément de réponse adéquat à l'accroissement de la charge de travail due aux demandes internationales. La norme internationale de dépôt électronique favorisera un échange en douceur des documents dans tous les offices du PCT. Lorsque le traité sur le droit des brevets entrera en vigueur, toute demande nationale en conformité avec la norme devrait également pouvoir être reçue ainsi sous forme électronique. Les offices engagés dans la coopération tripartite soutiennent la présente tendance à la normalisation et se réjouissent de la possibilité d'échanger des documents électroniques par des voies de communication directes et sécurisées."

FILING OF INTERNATIONAL APPLICATIONS WITH INTERNATIONAL BUREAU AS RECEIVING OFFICE UNDER THE “PCT-SAFE” PILOT TESTING PROGRAM

An extended version of the PCT-EASY software made available by the International Bureau is, as indicated in Annex F, Section 6, of the Administrative Instructions under the PCT (see PCT Gazette Special Issue No. S-04/2001 (E) (27 December 2001)), being developed by the International Bureau. The new software, known as “PCT-SAFE” (Secure Applications Filed Electronically), when fully deployed, will enable the filing of international applications in electronic form in accordance with Rule 89*bis* of the Regulations under the PCT and Part 7 and Annex F of the Administrative Instructions. It will support all requirements of the basic common standard for electronic filing of international applications under Sections 701(v) and 703(b) and (c) and Annex F, Appendix III, of the Administrative Instructions, and will also support certain alternatives available under Annex F. The software will enable applicants to file international applications in electronic form if the receiving Office is prepared to accept such filings. Under the PCT-SAFE high-level project plan, the software is expected to be available for deployment in March 2003.

The use of PCT-EASY for preparing international applications has been possible, where the receiving Office is prepared to accept such applications, since 1 January 1999, following a pilot program conducted in 1998 (see PCT Gazette No. 08/1998, page 4849, No. 48/1998, page 16556 and No. 51/1998, page 17330). PCT-EASY produces the request part of the international application as a computer print-out which is filed together with the rest of the application on paper and with a diskette, also prepared using PCT-EASY, containing a copy in electronic form of the request and the abstract. Use of PCT-EASY has increased to the point where 68 receiving Offices, including the International Bureau as receiving Office, now accept the filing of international applications prepared using it, and it has been used in the preparation of nearly 40% of all international applications filed so far during 2002.

A limited pilot testing program for the PCT-SAFE software is expected to commence in November 2002. During the pilot program, applicants who have been registered by the International Bureau as participants in the program will be entitled to file, with the International Bureau as receiving Office, international applications prepared using the software. Such applications will be prepared as computer print-outs using PCT-SAFE and filed together with a copy of the application in electronic form, also prepared using PCT-SAFE, on a computer diskette or CD-R or transmitted online. The format of the print-out of the request prepared using PCT-SAFE is the same as that produced by the existing version of PCT-EASY, and in general the processing of international applications filed under the pilot program will be the same as is presently the case for PCT-EASY filings. However, the print-out prepared using PCT-SAFE will consist of the entire international application, and not just the request as in the case of PCT-EASY.

The PCT-SAFE pilot testing program provides only for the filing of an international application on paper together with a copy in electronic form; the application on paper will be the legally determinative version of the application, and the date of receipt of the application on paper will be the basis for according an international filing date. The International Bureau as receiving Office does not, as yet, accept the filing of international applications in (fully) electronic form. Only pilot participants registered as such by the International Bureau as receiving Office will be able to take part in the pilot program, and it will not be possible under the program to file international applications with any receiving Office other than the International Bureau as receiving Office.

DÉPÔT DE DEMANDES INTERNATIONALES AUPRÈS DU BUREAU INTERNATIONAL AGISSANT EN TANT QU'OFFICE RÉCEPTEUR DANS LE CADRE DU PROJET PILOTE DU LOGICIEL "PCT-SAFE"

Comme indiqué dans la section 6 de l'annexe F des Instructions administratives du PCT (voir le numéro spécial S-04/2001 (F) de la Gazette du PCT (27 décembre 2001)), le Bureau international développe actuellement une version avancée du logiciel PCT-EASY – mis à disposition des utilisateurs par le Bureau international. Dans sa version définitive, le nouveau logiciel, connu sous le nom de "PCT-SAFE" (Secure Applications Filed Electronically), permettra de déposer des demandes internationales sous forme électronique conformément à la règle 89*bis* du règlement d'exécution du PCT et à la septième partie et à l'annexe F des instructions administratives. Il répondra à toutes les exigences de la norme commune de base relative au dépôt électronique des demandes internationales, conformément aux instructions 701.v) et 703.b) et c) et à l'appendice III de l'annexe F des instructions administratives. Il sera également conforme à certaines des options répertoriées dans l'annexe F. Le logiciel permettra aux déposants de déposer des demandes internationales sous forme électronique lorsque l'office récepteur est disposé à accepter de tels dépôts. Selon le projet de haut niveau du logiciel PCT-SAFE, le logiciel devrait pouvoir être utilisé en mars 2003.

Après qu'un projet pilote ait été mené en 1998 (voir la Gazette du PCT n° 08/1998, page 4859, n° 48/1998, page 16557 et n° 51/1998, page 17331), le logiciel PCT-EASY, qui sert à préparer les demandes internationales, a pu être utilisé depuis le 1^{er} janvier 1999 lorsque l'office récepteur est disposé à accepter de telles demandes. Le logiciel PCT-EASY permet de préparer la partie requête de la demande internationale sous la forme d'un imprimé d'ordinateur qui est remis avec le reste de la demande sous forme papier et avec une disquette, également produite à l'aide de ce logiciel, qui contient une copie sous forme électronique de la requête et de l'abrégé. L'utilisation du logiciel PCT-EASY s'est tellement étendue que 68 offices récepteurs, y compris le Bureau international agissant en tant qu'office récepteur, acceptent maintenant le dépôt de demandes internationales préparées à l'aide de ce logiciel. Celui-ci a été utilisé dans la préparation de près de 40% des demandes internationales déposées depuis le début de l'année 2002.

Un projet pilote restreint du logiciel PCT-SAFE devrait débuter en novembre 2002. Pendant la durée du projet pilote, les déposants enregistrés auprès du Bureau international en tant que participants au projet pourront déposer auprès du Bureau international agissant en tant qu'office récepteur des demandes internationales préparées à l'aide de ce logiciel. Ces demandes seront préparées sous forme d'imprimés d'ordinateur à l'aide du logiciel PCT-SAFE et déposées avec une copie de la demande sous forme électronique, également préparée à l'aide du logiciel PCT-SAFE, sur une disquette d'ordinateur ou sur un CD-R, ou transmises en ligne. Le format de l'imprimé de la requête préparé à l'aide du logiciel PCT-SAFE est le même que celui qui est préparé à l'aide de la version actuelle du logiciel PCT-EASY et, d'une façon générale, le traitement des demandes internationales déposées dans le cadre du projet pilote sera le même que celui des dépôts PCT-EASY actuels. Cependant, l'imprimé préparé à l'aide du logiciel PCT-SAFE contiendra l'ensemble de la demande internationale, et non pas seulement la requête comme c'est le cas pour les dépôts PCT-EASY.

Le projet pilote du logiciel PCT-SAFE concerne uniquement le dépôt de demandes internationales sous forme papier avec une copie sous forme électronique; la demande sous forme papier sera la copie de la demande qui fait foi, et c'est la date de réception de la demande sous forme papier qui sera déterminante aux fins de l'attribution d'une date de dépôt international. Le Bureau international agissant en tant qu'office récepteur n'accepte pas encore le dépôt de demandes internationales (entièrement) sous forme électronique. Seuls les participants au projet pilote enregistrés auprès du Bureau international agissant en tant qu'office récepteur pourront prendre part à l'exercice et il ne sera pas possible, dans le cadre de ce projet, de déposer des demandes internationales auprès d'autres offices que le Bureau international agissant en tant qu'office récepteur.

FILING OF INTERNATIONAL APPLICATIONS WITH INTERNATIONAL BUREAU AS RECEIVING OFFICE UNDER THE “PCT-SAFE” PILOT TESTING PROGRAM (Cont’d)

The presentation of the request as a computer print-out prepared using the PCT-SAFE software, where the application concerned is filed with the International Bureau as receiving Office by a participant registered under the pilot program, is permitted under Section 102(i) of the Administrative Instructions. The following arrangements will apply in such cases in respect of the fees payable for the benefit of the International Bureau:

- (i) the international fee will be subject to a reduction of 200 Swiss francs (or 137 euros or 125 US dollars), as under item 4(a) of the Schedule of Fees annexed to the Regulations and Section 102*bis*(c) of the Administrative Instructions; and
- (ii) no transmittal fee will be payable under Rule 14 to the International Bureau as receiving Office.

Further developments in relation to the use of the PCT-SAFE software and, in particular, to the introduction of the possibility of (fully) electronic filing of international applications with the International Bureau as receiving Office are expected to be notified in the Gazette in the coming months.

**ELECTRONIC FILING AND PROCESSING OF INTERNATIONAL APPLICATIONS:
NOTIFICATION BY RECEIVING OFFICES****EP European Patent Office (EPO)**

Following the promulgation at the end of 2001 of the necessary legal and technical standards to enable the electronic filing of international applications under the PCT, the Trilateral Offices (the European Patent Office (EPO), the Japan Patent Office and the United States Patent and Trademark Office) and the International Bureau of WIPO have been working on creating compliant implementations. With effect from 1 November 2002, the EPO has launched its PCT service for European applicants who wish to use the EPO as receiving Office. As a result of the cooperation between the Trilateral Offices and the International Bureau, the possibility for users to be able to file applications with different receiving Offices using the same software (such as *epoline*® or PCT-SAFE) is becoming a reality. While the EPO is the only receiving Office to presently accept PCT filings in electronic form, further possibilities are expected to be announced in the Gazette in the near future.

Following the coming into effect on 7 January 2002, of new Part 7 and new Annex F of the Administrative Instructions containing, respectively, the legal framework and technical standard necessary to enable the implementation of electronic filing and processing of international applications under the PCT, as provided for by Rule 89*bis*.1, any receiving Office having the necessary technical systems in place is able to decide to accept the filing of international applications in electronic form in accordance with Part 7 and Annex F.

Pursuant to PCT Rule 89.1(d), no national Office or intergovernmental organization is obliged to receive or process international applications filed in electronic form or by electronic means unless it has notified the International Bureau that it is prepared to do so in compliance with the applicable provisions of the Administrative Instructions. Any such notification shall be promptly published by the International Bureau in the Gazette, including information on the receiving Offices' requirements and practices with regard to the filing of international applications in electronic form (see Section 710 of the Administrative Instructions).

On 31 October 2002, the European Patent Office, in its capacity as a receiving Office, notified the International Bureau under Rule 89*bis*.1(d) that it is prepared to receive and process international applications in electronic form with effect from 1 November 2002. The European Patent Office transmitted the following "Decision of the President of the European Patent Office dated 29 October 2002 on the electronic filing of patent applications and other documents" and the following "Notice dated 29 October 2002 concerning the electronic filing of patent applications and other documents" to the International Bureau:

"Decision of the President of the European Patent Office dated 29 October 2002 on the electronic filing of patent applications and other documents"

The President of the European Patent Office (EPO), having regard to Rule 24(1) and Rule 36(5) EPC and Rule 89*bis*.1 and 2 PCT, has decided as follows:

**Article 1
Filing of patent applications**

(1) European patent applications and international (PCT) applications may be filed with the EPO in electronic form.

**DÉPÔT ET TRAITEMENT ÉLECTRONIQUES DES DEMANDES INTERNATIONALES :
NOTIFICATION DES OFFICES RÉCEPTEURS****EP Office européen des brevets (OEB)**

Suite à la promulgation, à la fin de l'année 2001, du cadre juridique et de la norme technique nécessaires à la mise en œuvre du dépôt électronique des demandes internationales selon le PCT, les offices engagés dans la coopération tripartite (l'Office européen des brevets (OEB), l'Office des brevets du Japon et l'Office des brevets et des marques des États-Unis d'Amérique) et le Bureau international de l'OMPI ont travaillé ensemble à mettre en place des mesures qui respectent ce cadre et cette norme. Avec effet à compter du 1^{er} novembre 2002, l'OEB a lancé son service PCT à l'attention des déposants européens qui souhaitent utiliser l'OEB en qualité d'office récepteur. Grâce à la coopération des offices engagés dans la coopération tripartite et du Bureau international, le dépôt des demandes par les utilisateurs auprès de différents offices récepteurs en utilisant le même logiciel (tel que epoline® ou PCT-SAFE) est devenu une réalité. Bien que l'OEB soit le seul office récepteur actuellement en mesure de recevoir des dépôts PCT sous forme électronique, d'autres possibilités de dépôt feront l'objet d'ici peu de notifications dans la Gazette.

Suite à l'entrée en vigueur, le 7 janvier 2002, de la nouvelle septième partie et de la nouvelle annexe F des instructions administratives contenant respectivement le cadre juridique et la norme technique nécessaires pour la mise en œuvre du dépôt et du traitement électroniques des demandes internationales selon le PCT, tel que prévu à la règle 89*bis*.1, tout office récepteur ayant mis en place les systèmes techniques nécessaires est en mesure d'accepter le dépôt des demandes internationales sous forme électronique conformément à la septième partie et à l'annexe F.

Conformément à la règle 89.1.d) du PCT, aucun office national ni aucune organisation internationale ne doit recevoir ou procéder au traitement des demandes internationales déposées sous forme électronique ou par des moyens électroniques à moins qu'il ait notifié au Bureau international qu'il est prêt à le faire conformément aux instructions administratives applicables. Toute notification de ce type est publiée à bref délai par le Bureau international dans la gazette, y compris les informations relatives aux exigences et à la pratique suivie par les offices récepteurs en matière de dépôt des demandes internationales sous forme électronique (voir l'instruction 710).

Le 31 octobre 2002, l'Office européen des brevets, agissant en sa qualité d'office récepteur, a notifié au Bureau international selon la règle 89*bis*.1.d) qu'il était prêt à recevoir et à procéder au traitement des demandes internationales sous forme électronique à compter du 1^{er} novembre 2002. L'Office européen des brevets a transmis au Bureau international la "Décision du Président de l'Office européen des brevets en date du 29 octobre 2002, relative au dépôt électronique de demandes de brevet et de documents produits ultérieurement" et le "Communiqué du 29 octobre 2002, relatif au dépôt électronique de demandes de brevet et de documents produits ultérieurement" suivants:

"Décision du Président de l'Office européen des brevets en date du 29 octobre 2002, relative au dépôt électronique de demandes de brevet et de documents produits ultérieurement"

Le Président de l'Office européen des brevets (OEB), vu les règles 24(1) et 36(5) CBE ainsi que la règle 89*bis*.1 et 2 PCT, décide :

Article premier**Dépôt de demandes de brevet**

(1) Les demandes de brevet européen et les demandes internationales (demandes PCT) peuvent être déposées sous forme électronique auprès de l'OEB.

**ELECTRONIC FILING AND PROCESSING OF INTERNATIONAL APPLICATIONS:

(2) European patent applications may also be filed in electronic form with the competent national authorities of those contracting states which so permit.

(3) Electronic filing may be effected online or on electronic data carriers in accordance with the notice¹ issued in connection with the present decision.

Article 2**Filing of other documents**

Article 3**Preparation of documents**

The documents referred to in Articles 1 and 2 shall be prepared using the software provided free of charge by the EPO, unless the use of other software is permitted.

Article 4**Illegible or incomplete documents; infected files**

(1) Where a filed document is illegible or incomplete, that part of it which is illegible or incomplete shall be regarded as not having been received.

(2) If a filed document is infected with a computer virus or contains other malicious software, it shall be deemed to be illegible. The Office shall not be obliged to either open it or process it.

Article 2**Dépôt d'autres pièces**

Article 3**Établissement des pièces**

Les pièces citées aux articles premier et 2 doivent être établies à l'aide du logiciel fourni gratuitement par l'OEB, dans la mesure où l'utilisation d'un autre logiciel n'est pas autorisée.

Article 4**Documents illisibles ou incomplets et fichiers infectés**

(1) Si les documents déposés ont été transmis sous une forme illisible ou incomplète, la partie des documents qui a été transmise sous forme illisible ou incomplète est réputée ne pas avoir été déposée.

(2) Si les documents déposés sont infectés par un virus informatique ou qu'ils contiennent d'autres logiciels nuisibles, ils sont réputés illisibles. L'Office n'est pas tenu d'ouvrir ni de traiter ces documents.

(3) S'il s'avère que les documents déposés présentent les défauts visés aux paragraphes 1 ou 2, l'expéditeur en est immédiatement avisé, dans la mesure où il peut être identifié.

Article 5**Confirmation sur papier**

Il n'est pas exigé de confirmation sur papier pour les documents déposés conformément aux articles premier et 2.

Article 6**Annulation de décisions antérieures**

The EPO will make every effort to accept an international application in electronic form. Only if the application is not sent in accordance with the E-filing interoperability protocol (see Annex F, section 5.1) or if the package submitted does not contain any files, will a notification or confirmation of receipt not be generated. Other errors, such as the use of outdated certificates (see Annex F, Appendix II, section 4.4.7), applications infected by viruses or other forms of malicious logic (see Section 708(b)) or missing files are notified to the applicant by inclusion in the notification of receipt.

Where it appears that the notification of receipt sent to the applicant by electronic means of transmittal was not successfully transmitted, the European Patent Office will promptly retransmit the notification of receipt by mail (see Section 709(b)).

As to kinds of documents transmitted to the Office on-line (Section 710(a)(iii)):

INFORMATION ON CONTRACTING STATES AND INTERGOVERNMENTAL ORGANIZATIONS**SI Slovenia****EP European Patent Organisation (EPO)**

Slovenia deposited, on 18 September 2002, its instrument of accession to the European Patent Convention (EPC) and will therefore become bound by that Convention on **1 December 2002**. Moreover, it will no longer be possible in an international application to designate Slovenia for a national patent. Therefore, in international applications filed on or after 1 December 2002, Slovenia—like Belgium, Cyprus, France, Greece, Ireland, Italy, Monaco and the Netherlands—may be designated only for a European patent and not for a national patent. In addition, the extension of European patents to Slovenia will cease to be available as from the same date.

A purported designation of Slovenia for a national patent in an international application filed on or after 1 December 2002, will be corrected *ex officio* by the receiving Office to indicate a designation of Slovenia for a European patent. Where Slovenia is designated both for a European patent and a national patent in an international application filed on or after 1 December 2002, the purported designation for a national patent will be deleted *ex officio*.

As from 1 December 2002, nationals and residents of **Slovenia** will be able to file international applications with the European Patent Office as receiving Office.

La **Slovénie** a déposé, le 18 septembre 2002, son instrument d'adhésion à la Convention sur le brevet européen (CBE) et deviendra ainsi liée par cette convention le **1^{er} décembre 2002**. De plus, il ne sera plus possible de désigner la Slovénie dans une demande internationale en vue de la délivrance d'un brevet national. Par conséquent, la Slovénie – à l'instar de la Belgique, de Chypre, de la France, de la Grèce, de l'Irlande, de l'Italie, de Monaco et des Pays-Bas – ne pourra être désignée dans les demandes internationales déposées le 1^{er} décembre 2002 ou après cette date qu'en vue de la délivrance d'un brevet européen, à l'exclusion d'un brevet national. De plus, l'extension de brevets européens à la Slovénie cessera d'être possible à compter de la même date.

Si la Slovénie est désignée en vue de la délivrance d'un brevet national dans une demande internationale déposée le 1^{er} décembre 2002 ou après cette date, l'office récepteur procédera d'office à la correction nécessaire pour indiquer que cette désignation vise la délivrance d'un brevet européen. Si la Slovénie est désignée en vue de la délivrance d'un brevet européen ainsi que d'un brevet national dans une demande internationale déposée le 1^{er} décembre 2002 ou après cette date, la désignation visant la délivrance d'un brevet national sera supprimée d'office.

À compter du 1^{er} décembre 2002, les nationaux de la **Slovénie**, et les personnes domiciliées dans ce pays, pourront déposer des demandes internationales auprès de l'Office européen des brevets agissant en qualité d'office récepteur.

NOTES TO THE REQUEST FORM (PCT/RO/101)

These Notes are intended to facilitate the filling in of the request form. For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the Patent Cooperation Treaty (PCT), the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the request form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the PCT Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with black ink (Rule 11.9(a) and (b)).

The request form and these Notes may be downloaded from WIPO's Website at the address given above.

WHERE TO FILE THE INTERNATIONAL APPLICATION

The international application (request, description, claims, abstract and drawings, if any) must be filed with a competent receiving Office (Article 11(1)(i))—that is, subject to any applicable prescriptions concerning national security, at the choice of the applicant, either:

(i) the receiving Office of, or acting for, a PCT Contracting State of which the applicant or, if there are two or more applicants, at least one of them, is a resident or national (Rule 19.1(a)(i) or (ii) or (b)), or

(ii) the International Bureau of WIPO in Geneva, Switzerland, if the applicant or, if there are two or more applicants, at least one of the applicants is a resident or national of any PCT Contracting State (Rule 19.1(a)(iii)).

APPLICANT'S OR AGENT'S FILE REFERENCE

A **file reference** may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded by the receiving Office or any International Authority (Rule 11.6(f) and Section 109).

BOX No. I

Title of Invention (Rules 4.3 and 5.1(a)): The title must be short (preferably two to seven words when in English or translated into English) and precise. It must be identical with the title heading the description.

BOXES Nos. II AND III

General: At least one of the applicants named must be a resident or national of a PCT Contracting State for which the receiving Office acts (Articles 9 and 11(1)(i) and Rules 18 and 19). If the international application is filed with the International Bureau under Rule 19.1(a)(iii), at least one of the applicants must be a resident or national of any PCT Contracting State.

If the United States of America is designated, all of the inventors must be named also as applicants for the purposes of that designation (see "Different Applicants for Different Designated States", below).

Indication Whether a Person is Applicant and/or Inventor (Rules 4.5(a) and 4.6(a) and (b)):

Check-box "This person is also inventor" (Box No. II): Mark this check-box if the applicant named is also the inventor or one of the inventors; do not mark this check-box if the applicant is a legal entity.

Check-box "applicant and inventor" (Box No. III): Mark this check-box if the person named is both applicant and inventor; do not mark this check-box if the person is a legal entity.

Check-box "applicant only" (Box No. III): Mark this check-box if the person named is a legal entity or if the person named is not also inventor.

Check-box "inventor only" (Box No. III): Mark this check-box if the person named is inventor but not also applicant; do not mark this check-box if the person is a legal entity.

In Box No. III, one of the three check-boxes must always be marked for each person named.

A person must not be named more than once in Boxes Nos. II and III, even where that person is both applicant and inventor.

Names and Addresses (Rule 4.4): The family name (preferably in capital letters) must be indicated before the given name(s). Titles and academic degrees must be omitted. Names of legal entities must be indicated by their full official designations.

The address must be indicated in such a way that it allows prompt postal delivery; it must consist of all the relevant administrative units (up to and including the indication of the house number, if any), the postal code (if any), and the name of the country.

Only one address may be indicated per person. For the indication of a special "address for correspondence", see the notes to Box No. IV.

Telephone, Facsimile and/or Teleprinter Numbers should be indicated for the person named in Box No. II in order to allow rapid communication with the applicant. Any such number should include the applicable country and area codes.

Applicant's registration number with the Office (Rule 4.5(e)): Where the applicant is registered with the national or regional Office acting as receiving Office, the request may indicate the number or other indication under which the applicant is so registered.

Nationality (Rules 4.5(a) and (b) and 18.1): For each applicant, the nationality must be indicated by the name or two-letter code of the State (that is, country) of which the person is a national. A legal entity constituted according to the national law of a State is considered a national of that State. The indication of the nationality is not required where a person is inventor only.

Residence (Rules 4.5(a) and (c) and 18.1): For each applicant, the residence must be indicated by the name or two-letter code of the State (that is, country) of which the person is a resident. If the State of residence is not indicated, it will be assumed to be the same as the State indicated in the address. Possession of a real and effective industrial or commercial establishment in a State is considered residence in that State. The indication of the residence is not required where a person is inventor only.

NOTES RELATIVES AU FORMULAIRE DE REQUÊTE (PCT/RO/101)

Ces notes sont destinées à faciliter l'utilisation du formulaire de requête. On peut aussi trouver de plus amples renseignements dans le *Guide du déposant du PCT*, publié par l'OMPI, qui est disponible, de même que d'autres documents relatifs au PCT, sur le site Internet de l'OMPI à l'adresse suivante : www.OMPI.int/pct/fr/index.html. Les notes sont fondées sur les exigences du Traité de coopération en matière de brevets (PCT), du règlement d'exécution et des Instructions administratives du PCT. En cas de divergence entre les présentes notes et ces exigences, ce sont ces dernières qui priment.

Dans le formulaire de requête et dans les présentes notes, les termes "article", "règle" et "instruction" renvoient aux dispositions du traité, de son règlement d'exécution et des Instructions administratives du PCT, respectivement.

Prière de remplir le formulaire à la machine à écrire; les cases appropriées peuvent être cochées à la main, à l'encre noire (règle 11.9.a) et b)).

Le formulaire de requête et les présentes notes peuvent être téléchargés depuis le site Internet de l'OMPI à l'adresse donnée ci-dessus.

OÙ DÉPOSER LA DEMANDE INTERNATIONALE

Il faut que la demande internationale (requête, description, revendications, abrégé et, le cas échéant, dessins) soit déposée auprès d'un office récepteur compétent (article 11.1)i)), c'est-à-dire sous réserve des dispositions applicables en matière de défense nationale et au choix du déposant,

i) l'office récepteur d'un État contractant du PCT ou l'office agissant pour un tel État, dans lequel le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié ou dont il a la nationalité (règle 19.1.a)i) ou ii) ou b)), ou

ii) le Bureau international de l'OMPI à Genève (Suisse) si le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié dans l'un quelconque des États contractants du PCT ou a la nationalité d'un tel État (règle 19.1.a)iii)).

RÉFÉRENCE DU DOSSIER DU DÉPOSANT OU DU MANDATAIRE

Il est possible d'indiquer, à titre facultatif, une telle **référence de dossier**. Celle-ci ne devrait pas dépasser 12 caractères. L'office récepteur ou toute administration internationale peut ne pas tenir compte des caractères en sus du douzième (règle 11.6.f) et instruction 109).

CADRE N° I

Titre de l'invention (règles 4.3 et 5.1.a)) : le titre doit être bref (de préférence de deux à sept mots lorsqu'il est établi ou traduit en anglais) et précis. Il doit être identique à celui qui figure en tête de la description.

CADRES N°s II ET III

Remarques générales : l'un au moins des déposants mentionnés doit être domicilié dans un État contractant du PCT pour lequel l'office récepteur agit, ou avoir la nationalité d'un tel État (articles 9 et 11.1)i) et règles 18 et 19). Si la demande internationale est déposée auprès du Bureau international en vertu de la règle 19.1.a)iii)), l'un au moins des déposants doit être domicilié dans un État contractant du PCT ou avoir la nationalité d'un tel État.

Si les États-Unis d'Amérique sont désignés, tous les inventeurs doivent être mentionnés également comme déposants pour cette désignation (voir, ci-après, "Déposants différents pour différents États désignés").

Indication visant à établir si une personne est déposant ou inventeur, ou les deux à la fois (règles 4.5.a) et 4.6.a) et b)) :

Case "Cette personne est aussi inventeur" (cadre n° II) : cocher cette case si la personne mentionnée est aussi l'inventeur ou l'un des inventeurs; ne pas la cocher si le déposant est une personne morale.

Case "déposant et inventeur" (cadre n° III) : cocher cette case si la personne mentionnée a les deux qualités, celle de déposant et celle d'inventeur; ne pas la cocher si cette personne est une personne morale.

Case "déposant seulement" (cadre n° III) : cocher cette case si la personne mentionnée est une personne morale ou si elle n'a pas aussi la qualité d'inventeur.

Case "inventeur seulement" (cadre n° III) : cocher cette case si la personne mentionnée a la qualité d'inventeur mais pas celle de déposant; ne pas la cocher si cette personne est une personne morale.

Dans le cadre n° III, il faut que l'une des trois cases soit cochée pour chaque personne mentionnée.

Une personne ne doit être mentionnée qu'une seule fois dans les cadres n° II et III, même si elle est à la fois déposant et inventeur.

Noms et adresses (règle 4.4) : le nom de famille (de préférence en lettres majuscules) doit précéder le ou les prénoms. Les titres et les diplômes universitaires ne doivent pas être mentionnés. Les personnes morales doivent être nommées par leurs désignations officielles complètes.

L'adresse doit être indiquée de manière à permettre une distribution postale rapide; elle doit comprendre toutes les unités administratives pertinentes (jusques et y compris le numéro de la maison, s'il y en a un), le code postal, s'il y en a un, et le nom du pays.

Il ne peut être indiqué qu'une seule adresse par personne. En ce qui concerne l'indication d'une adresse spéciale pour la correspondance, voir les notes relatives au cadre n° IV.

Pour permettre une communication rapide avec le déposant, il y a lieu d'indiquer les **numéros de téléphone, de télécopieur ou de téléimprimeur** de la personne mentionnée dans le cadre n° II. Tout numéro de ce type doit comporter les indicatifs de pays et de zone en vigueur.

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 4.5.e)) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Nationalité (règles 4.5.a) et b) et 18.1) : la nationalité de chaque déposant doit être indiquée au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) dont l'intéressé

Names of States (Section 115): For the indication of names of States, the two-letter codes appearing in WIPO Standard ST.3 and in the *PCT Applicant's Guide*, Volume I/B, Annex K, may be used.

Different Applicants for Different Designated States (Rules 4.5(d), 18.3 and 19.2): It is possible to indicate different applicants for the purposes of different designated States. At least one of all the applicants named must be a national or resident of a PCT Contracting State for which the receiving Office acts, irrespective of the designated State(s) for the purposes of which that applicant is named. *Where the United States of America is one of the designated States, all of the inventors must be named also as applicants for the United States of America and the check-boxes "This person is also inventor" (in Box No. II) and/or "applicant and inventor" (in Box No. III) must be marked.*

For the indication of the designated States for which a person is applicant, mark the applicable check-box (only one for each person). The check-box "the States indicated in the Supplemental Box" must be marked where none of the other three check-boxes fits the circumstances; in such a case, the name of the person must be repeated in the Supplemental Box with an indication of the States for which that person is applicant (see item 1(ii) in that Box).

Naming of Inventor (Rule 4.1(a)(v) and (c)(i)): The inventor's name and address must be indicated where the national law of at least one of the designated States requires that the name of the inventor be furnished at the time of filing; for details, see the *PCT Applicant's Guide*, Volume I/A, Annexes B1 and B2. It is strongly recommended to always name the inventor.

Different Inventors for Different Designated States (Rule 4.6(c)): Different persons may be indicated as inventors for different designated States (for example, where, in this respect, the requirements of the national laws of the designated States are not the same); in such a case, the Supplemental Box must be used (see item 1(iii) in that Box). In the absence of any indication, it will be assumed that the inventor(s) named is (are) inventor(s) for all designated States.

BOX No. IV

Who Can Act as Agent (Article 49 and Rule 83.1bis): For each of the receiving Offices, information as to who can act as agent is given in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Agent or Common Representative (Rules 4.7, 4.8, 90.1 and 90.2 and Section 108): Mark the applicable check-box in order to indicate whether the person named is (or has been) appointed as "agent" or "common representative" (the "common representative" must be one of the applicants). For the manner in which name(s) and address(es) (including names of States) must be indicated, see the notes to Boxes Nos. II and III. Where several agents are listed, the agent to whom correspondence should be addressed is to be listed first. If there are two or more applicants but no common agent is appointed to represent all of them, one of the applicants who is a national or resident of a PCT Contracting State may be appointed by the other applicants as their common representative. If this is not done, the applicant first named in the request who is entitled to file an international application with the receiving Office concerned will automatically be considered to be the common representative.

Manner of Appointment of Agent or Common Representative (Rules 90.4 and 90.5 and Section 106): Any such appointment may be made by designating the agent(s) or the common representative in the request or in one or more separate powers of attorney. Each applicant must sign either the request or a separate power of attorney. Where the

international application is filed with reference to a general power of attorney, a copy thereof must be attached to the request. Any applicant who did not sign the general power of attorney must sign either the request or a separate power of attorney.

Agent's registration number with the Office (Rule 4.7(b)): Where the agent is registered with the national or regional Office that is acting as receiving Office, the request may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. IV will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II or III, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address must be indicated in Box No. IV instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. IV must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" has been marked).

BOX No. V

Designation of States (Rules 4.1(a)(iv) and 4.9(a)): The Contracting States in which protection is desired must be designated under Rule 4.9(a) in the request by marking the applicable check-boxes. At least one check-box effecting a specific designation must be marked. *While the general rule is that designations cannot be added after the filing of the international application, it is possible to make a precautionary designation under Rule 4.9(b) covering all other designations which would, as at the international filing date, be permitted under the PCT (see "Precautionary Designation of States Subject to Confirmation", below).*

Where regional (ARIPO, Eurasian, European and/or OAPI) patents are desired, only one PCT designation fee must be paid for each regional designation made, independently of how many States are covered by each such designation.

AP ARIPO Patent: Note that **SZ Swaziland** can only be designated for the purposes of an ARIPO patent and not for the purposes of a national patent. All other PCT Contracting States which are also party to the Harare Protocol can be designated either for a national or an ARIPO patent, or both a national and an ARIPO patent.

EA Eurasian Patent: All PCT Contracting States which are also party to the Eurasian Patent Convention can be designated either for a national or a Eurasian patent, or both a national and a Eurasian patent. Note, however, that it is not possible to designate only some of these States for a Eurasian patent and that any designation of one or more States for a Eurasian patent will be treated as a designation of all the States which are party to both the Convention and the PCT for a Eurasian patent.

EP European Patent: Note that **BE Belgium, CY Cyprus, FR France, GR Greece, IE Ireland, IT Italy, MC Monaco, NL Netherlands and SI Slovenia** can only be designated for the purposes of a European patent and not for the purposes of a national patent. All other PCT Contracting States which are

est ressortissant. Une personne morale constituée conformément à la législation d'un État contractant est considérée comme ayant la nationalité de cet État. L'indication de la nationalité n'est pas exigée lorsqu'une personne est inventeur seulement.

Domicile (règles 4.5.a) et c) et 18.1) : le domicile de chaque déposant doit être indiqué au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) où l'intéressé a son domicile. Si, cependant, le domicile n'est pas indiqué, l'État du domicile sera présumé être le même que celui qui est indiqué dans l'adresse. La possession d'un établissement industriel ou commercial effectif et sérieux dans un État est considérée comme constituant domicile dans cet État. L'indication du domicile n'est pas exigée lorsqu'une personne est inventeur seulement.

Nom des États (instruction 115) : pour indiquer le nom des États, on peut utiliser le code à deux lettres qui figure dans la norme ST.3 de l'OMPI et dans le *Guide du déposant du PCT*, volume I/B, annexe K.

Dépôts différents pour différents États désignés (règles 4.5.d), 18.3 et 19.2) : il est possible d'indiquer des dépôts différents pour différents États désignés. L'un au moins des déposants indiqués – quels que soient l'État ou les États désignés pour lesquels il est indiqué – doit être ressortissant d'un État contractant du PCT pour lequel l'office récepteur agit ou avoir son domicile dans un tel État. *Lorsque les États-Unis d'Amérique sont l'un des États désignés, tous les inventeurs doivent être indiqués comme déposants pour les États-Unis d'Amérique et les cases "Cette personne est aussi inventeur" (dans le cadre n° II) ou "déposant et inventeur" (dans le cadre n° III) doivent être cochées.*

Afin d'indiquer les États désignés pour lesquels une personne est déposant, il y a lieu de cocher la case appropriée (une seule case par personne). La case "les États indiqués dans le cadre supplémentaire" doit être cochée lorsque aucune des trois autres cases ne convient; en pareil cas, le nom de la personne doit être repris dans le cadre supplémentaire et assorti de l'indication des États pour lesquels cette personne est déposant (voir le point 1.ii) de ce cadre).

Mention de l'inventeur (règle 4.1.a)v) et c)i)) : le nom et l'adresse de l'inventeur doivent être indiqués lorsque la législation nationale d'un État désigné au moins exige la communication du nom de celui-ci lors du dépôt; pour plus de précisions, voir le *Guide du déposant du PCT*, volume I/A, annexes B1 et B2. Il est vivement recommandé de toujours indiquer le nom de l'inventeur.

Inventeurs différents pour différents États désignés (règle 4.6.c)) : des personnes différentes peuvent être indiquées en tant qu'inventeurs pour différents États désignés (par exemple, lorsque, en la matière, les exigences des législations nationales des États désignés diffèrent); en pareil cas, il y a lieu d'utiliser le cadre supplémentaire (voir le point 1.iii) de ce cadre). En l'absence d'indication, il sera supposé que l'inventeur ou les inventeurs mentionnés ont la qualité d'inventeur pour tous les États désignés.

CADRE N° IV

Qui peut agir en qualité de mandataire ? (article 49 et règle 83.1bis) : pour chacun des office récepteurs, on trouvera, dans le *Guide du déposant du PCT*, volume I/B, annexe C, des informations sur le point de savoir qui peut agir en qualité de mandataire.

Mandataire ou représentant commun (règles 4.7, 4.8, 90.1 et 90.2 et instruction 108) : cocher la case appropriée pour indiquer si la personne mentionnée est (ou a été) désignée comme "mandataire" ou "représentant commun" (le

"représentant commun" doit être l'un des déposants). Pour ce qui est de la façon d'indiquer les noms et adresses (y compris le nom des États), il convient de se reporter aux notes relatives aux cadres n°s II et III. Lorsque plusieurs mandataires sont indiqués, il faut mentionner en premier lieu celui à qui la correspondance doit être adressée. S'il y a plusieurs déposants mais aucun mandataire commun désigné pour les représenter tous, l'un des déposants qui est ressortissant d'un État contractant du PCT ou qui a son domicile dans un tel État peut être désigné par les autres comme leur représentant commun. A défaut, le déposant nommé en premier lieu dans la requête qui est autorisé à déposer une demande internationale auprès de l'office récepteur en question sera automatiquement considéré comme le représentant commun.

Mode de désignation d'un mandataire ou d'un représentant commun (règles 90.4 et 90.5 et instruction 106) : la désignation du ou des mandataires ou du représentant commun peut être effectuée dans la requête ou dans un ou plusieurs pouvoirs distincts. Chaque déposant doit signer la requête ou un pouvoir distinct. Si la demande internationale déposée fait état d'un pouvoir général, une copie de celui-ci doit être jointe à la requête. Tout déposant n'ayant pas signé le pouvoir général doit signer soit la requête soit un pouvoir distinct.

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 4.7.b)) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° IV sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II ou III – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, cette adresse doit être indiquée dans le cadre n° IV, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas, et seulement dans ce cas, qu'il y a lieu de cocher la dernière case du cadre n° IV (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° V

Désignation d'États (règles 4.1.a)iv) et 4.9.a)) : pour désigner conformément à la règle 4.9.a), dans la requête, les États contractants où la protection est demandée, il faut cocher les cases appropriées. Il faut qu'au moins une case, correspondant à une désignation expresse, soit cochée. *Bien que la règle générale soit qu'aucune désignation ne peut être ajoutée après le dépôt de la demande internationale, il est possible d'effectuer une désignation de précaution conformément à la règle 4.9.b) pour couvrir toutes les autres désignations qui, à la date du dépôt international, seraient autorisées selon le PCT (voir ci-après la rubrique "Désignation d'États à titre de précaution sous réserve de confirmation").*

Lorsque des brevets régionaux (ARIPO, eurasiatique, européen ou OAPI) sont demandés, une seule taxe de désignation du PCT est due pour chaque désignation régionale effectuée, quel que soit le nombre d'États couverts par celle-ci.

also party to the European Patent Convention can be designated either for a national or a European patent, or both a national and a European patent.

If an ARIPO or a European patent is desired for only some of the Contracting States of the Harare Protocol or the European Patent Convention, respectively, the names of those States for which a regional patent is not desired may be deleted by striking them out. However, it is recommended that the applicant always designate for the purposes of a regional patent all PCT Contracting States which are also Contracting States of the Protocol or the Convention, respectively. A decision to proceed with only some of those designations need not be made until entry into the regional phase, at which stage the corresponding regional designation fees must be paid.

Where any of the Contracting States of the Harare Protocol, the Eurasian Patent Convention or the European Patent Convention and the PCT is designated twice, namely *both* for the purposes of an ARIPO, a Eurasian or a European patent *and* for the purposes of national protection, the applicant must pay one designation fee in respect of the regional patent and as many designation fees as there are national patents or other titles of protection sought (Rule 15.1(ii) and Section 210).

Extension of EP European Patent to Certain States: If it is intended, at the time of entry into the European regional phase, to request the extension of the subsequently granted European patent to AL Albania, LT Lithuania, LV Latvia, MK The former Yugoslav Republic of Macedonia and/or RO Romania (and/or to any other PCT Contracting State for which, on the date of filing of the international application, an extension agreement with the European Patent Organisation is in force), Box No. V must contain *both* a designation of the State concerned for the purposes of a national patent and *also* a designation, for the purposes of obtaining a European patent, of at least one PCT Contracting State party to the European Patent Convention.

OA OAPI Patent: The designation of States members of OAPI and party to the PCT can only be made for the purposes of an OAPI patent (no national protection is available); furthermore, it is not possible to designate only some of them.

Choice of Certain Kinds of Protection or Treatment (Rules 4.12 to 4.14 and Section 202): Where, in any country where it is possible, a kind of protection other than a patent is desired, write the name or two-letter code of that country followed by the name of the title; that is, “patent for utility solution” (available in VN Viet Nam), “petty patent” (available in YU Yugoslavia), “provisional patent” (available in AM Armenia, KG Kyrgyzstan, KZ Kazakhstan, TM Turkmenistan), “utility model” (available in AE United Arab Emirates, AL Albania, AM Armenia, AP ARIPO, AT Austria, AZ Azerbaijan, BG Bulgaria, BR Brazil, BY Belarus, BZ Belize, CN China, CR Costa Rica, CZ Czech Republic, DE Germany, DK Denmark, EC Ecuador, EE Estonia, ES Spain, FI Finland, GE Georgia, HU Hungary, JP Japan, KE Kenya, KG Kyrgyzstan, KR Republic of Korea, KZ Kazakhstan, LS Lesotho, MD Republic of Moldova, MX Mexico, MZ Mozambique, PH Philippines, PL Poland, PT Portugal, RU Russian Federation, SK Slovakia, SL Sierra Leone, TJ Tajikistan, TR Turkey, UA Ukraine, UZ Uzbekistan, OA OAPI), “consensual patent” (available in HR Croatia), “utility certificate” (available in GH Ghana, TT Trinidad and Tobago, UG Uganda) or “inventor’s certificate” (available in CU Cuba and KP Democratic People’s Republic of Korea). Where, in AP ARIPO, AT Austria, CZ Czech Republic, DE Germany, DK Denmark, EE Estonia, FI Finland or SK Slovakia (the only countries in which this possibility exists), in addition to a patent, a utility model is also desired, write after the name of that country “and utility model”.

Where, in respect of any country where it is possible, it is desired that the international application be treated as an application for a certain title “of addition” or as an application for a “continuation” or a “continuation-in-part”, write after the

name of that country the appropriate words; that is, “patent of addition” (available in AE United Arab Emirates, AT Austria, AU Australia, BA Bosnia and Herzegovina, CU Cuba, DE Germany, ES Spain, IL Israel, IN India, MK The former Yugoslav Republic of Macedonia, MW Malawi, NZ New Zealand, PL Poland, TR Turkey, YU Yugoslavia, ZA South Africa, ZW Zimbabwe), “certificate of addition” (available in BR Brazil, DZ Algeria, MA Morocco, MG Madagascar, OA OAPI), “inventor’s certificate of addition” (available in CU Cuba), “continuation” or “continuation-in-part” (both available in US United States of America). If any of these indications is used, also indicate in the Supplemental Box the State for which such treatment is desired, the number of the parent title or parent application, and the date of the grant of the parent title or the date of filing of the parent application, as the case may be (see item 1(v) in that Box).

If, in Box No. V, the check-boxes for making designations are marked with consecutive Arabic numerals, those indications will be taken to express the applicant’s *choice of the order of the designations*; if another form of marking is used, the order will be taken as that in which the marked check-boxes appear on the form. This order will only have any significance if the amount received for the designation fees is insufficient to cover all the designations and remains insufficient after the applicant has been invited to pay the balance due; in that case, the amount received will be applied in payment of the fees for the designations following the said order (Rule 16bis.1(c) and Section 321).

The check-boxes located towards the bottom of Box No. V are reserved for designating, for the purposes of a national patent, States which have become party to the PCT after the date appearing at the bottom of the second sheet of the request form; in such a case, the name of the State, preferably preceded by the two-letter code, must be indicated on the dotted line and the corresponding check-box must be marked (together with an indication, where applicable, whether a special kind of protection or treatment is desired).

Precautionary Designation of States Subject to Confirmation (Rules 4.9(b) and (c) and 15.5): For the applicant’s safeguard, the lower part of Box No. V contains a statement (“Precautionary Designation Statement”) indicating the applicant’s wish to make, as a matter of precaution, in addition to the specific designations made by marking the check-boxes in the upper part of Box No. V (at least one such designation must be made), a precautionary designation of all other PCT Contracting States which are not specifically designated.

If the applicant does not wish to avail himself of this safeguard and does not want to make any such precautionary designations, the statement must be crossed out.

If the applicant wishes to expressly exclude a certain State from such precautionary designation so that the international application does not have any effect in that State, the name or two-letter code of that State should be indicated in the Supplemental Box. In no other case is it necessary to make use of this possibility.

If, after filing the international application, the applicant notices that there are any omissions and/or mistakes in respect of the specific designations made, it will be possible to rectify the situation by confirming the precautionary designations concerned. The confirmation of any precautionary designation is possible before the expiration of 15 months from the (earliest) priority date indicated in Box No. VI or, where no priority is claimed, the international filing date. To effect such confirmation, the applicant must file with the receiving Office a written notice specifying the name of each State the designation of which is confirmed (with, where applicable, an indication of the kind of treatment or protection desired) and pay to the receiving Office, for each such designation, a designation fee (even where five designation fees have already been paid) together with a confirmation fee

AP brevet ARIPO : il est à noter que **SZ Swaziland** ne peut être désigné que pour un brevet ARIPO et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties au Protocole de Harare peuvent être désignés soit aux fins d'un brevet national ou d'un brevet ARIPO, soit à la fois aux fins d'un brevet national et d'un brevet ARIPO.

EA brevet eurasién : tous les États contractants du PCT qui sont aussi parties à la Convention sur le brevet eurasién peuvent être désignés soit aux fins d'un brevet national ou d'un brevet eurasién, soit à la fois aux fins d'un brevet national et d'un brevet eurasién. Cependant, il est à noter qu'il n'est pas possible de désigner seulement certains de ces États aux fins d'un brevet eurasién et que toute désignation d'un ou de plusieurs États aux fins d'un brevet eurasién sera traitée comme une désignation aux fins d'un brevet eurasién de tous les États qui sont parties à la fois à la Convention et au PCT.

EP brevet européen : il est à noter que **BE Belgique, CY Chypre, FR France, GR Grèce, IE Irlande, IT Italie, MC Monaco, NL Pays-Bas et SI Slovénie** ne peuvent être désignés que pour un brevet européen et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties à la Convention sur le brevet européen peuvent être désignés soit aux fins d'un brevet national ou d'un brevet européen, soit à la fois aux fins d'un brevet national et d'un brevet européen.

Si un brevet ARIPO ou un brevet européen est demandé pour certains seulement des États contractants du Protocole de Harare ou de la Convention sur le brevet européen, respectivement, le nom des États pour lesquels un brevet régional n'est pas demandé peut être biffé. Il est cependant recommandé de toujours désigner aux fins d'un brevet régional tous les États contractants du Protocole ou de la Convention, respectivement. Ce n'est que lorsqu'il s'agira d'aborder la phase régionale et de payer les taxes de désignation régionales que la décision de ne poursuivre la procédure d'obtention de brevet que pour certaines des désignations devra être prise.

Lorsqu'un ou plusieurs États parties au Protocole de Harare, à la Convention sur le brevet eurasién ou à la Convention sur le brevet européen et au PCT sont désignés deux fois, une fois aux fins d'un brevet ARIPO, d'un brevet eurasién ou d'un brevet européen et une autre fois aux fins d'une protection nationale, le déposant doit acquitter une taxe de désignation pour le brevet régional et autant de taxes de désignation qu'il y a de brevets ou autres titres de protection nationaux demandés (règle 15.1.ii) et instruction 210).

Extension du brevet européen (EP) à certains États : s'il est envisagé de demander, au moment de l'ouverture de la phase régionale européenne, l'extension du brevet européen qui sera obtenu ultérieurement à AL Albanie, LT Lituanie, LV Lettonie, MK Ex-République yougoslave de Macédoine ou RO Roumanie (ou à tout autre État contractant du PCT pour lequel, à la date du dépôt de la demande internationale, un accord d'extension conclu avec l'Organisation européenne des brevets est en vigueur), le cadre n° V doit contenir **à la fois** la désignation de l'État concerné en vue de l'obtention d'un brevet national *et* la désignation, en vue de l'obtention d'un brevet européen, d'au moins un État contractant du PCT partie à la Convention sur le brevet européen.

OA brevet OAPI : la désignation des États membres de l'OAPI qui sont parties au PCT ne peut être effectuée qu'aux fins d'un brevet OAPI (aucune protection nationale n'est offerte); de plus, il n'est pas possible de ne désigner que certains de ces États.

Choix de certaines formes de protection ou de traitement (règles 4.12 à 4.14 et instruction 202) : si, dans un pays, il est possible de demander une forme de protection autre qu'un brevet, écrire le nom de ce pays, ou le code à deux lettres, suivi du nom du titre en question, c'est-à-dire "brevet pour solution

d'utilité" (pour VN Viet Nam), "petty patent" (pour YU Yougoslavie), "brevet provisoire" (pour AM Arménie, KG Kirghizistan, KZ Kazakhstan, TM Turkménistan), "modèle d'utilité" (pour AE Émirats arabes unis, AL Albanie, AM Arménie, AP ARIPO, AT Autriche, AZ Azerbaïdjan, BG Bulgarie, BR Brésil, BY Bélarus, BZ Belize, CN Chine, CR Costa Rica, CZ République tchèque, DE Allemagne, DK Danemark, EC Équateur, EE Estonie, ES Espagne, FI Finlande, GE Géorgie, HU Hongrie, JP Japon, KE Kenya, KG Kirghizistan, KR République de Corée, KZ Kazakhstan, LS Lesotho, MD République de Moldova, MX Mexique, MZ Mozambique, PH Philippines, PL Pologne, PT Portugal, RU Fédération de Russie, SK Slovaquie, SL Sierra Leone, TJ Tadjikistan, TR Turquie, UA Ukraine, UZ Ouzbékistan, OA OAPI), "brevet consensuel" (pour HR Croatie), "certificat d'utilité" (pour GH Ghana, TT Trinité-et-Tobago, UG Ouganda), ou "certificat d'auteur d'invention" (pour CU Cuba et KP République populaire démocratique de Corée). Si, pour AP ARIPO, AT Autriche, CZ République tchèque, DE Allemagne, DK Danemark, EE Estonie, FI Finlande ou SK Slovaquie (seuls pays où cela est possible), un modèle d'utilité est demandé en plus d'un brevet, écrire après le nom de ce pays "et modèle d'utilité".

Si, pour un pays où cela est possible, il est souhaité que la demande internationale soit traitée comme une demande d'obtention d'un certain titre "d'addition" ou comme une demande de "continuation" ou de "continuation-in-part", écrire après le nom de ce pays la mention appropriée, c'est-à-dire "brevet d'addition" (pour AE Émirats arabes unis, AT Autriche, AU Australie, BA Bosnie-Herzégovine, CU Cuba, DE Allemagne, ES Espagne, IL Israël, IN Inde, MK Ex-République yougoslave de Macédoine, MW Malawi, NZ Nouvelle-Zélande, PL Pologne, TR Turquie, YU Yougoslavie, ZA Afrique du Sud, ZW Zimbabwe), "certificat d'addition" (pour BR Brésil, DZ Algérie, MA Maroc, MG Madagascar, OA OAPI), "certificat d'auteur d'invention additionnel" (pour CU Cuba), "continuation" ou "continuation-in-part" (pour US États-Unis d'Amérique). Si l'une de ces mentions est utilisée, indiquer également dans le cadre supplémentaire l'État pour lequel ce traitement est demandé, le numéro du titre principal ou de la demande principale et la date de délivrance du titre principal ou du dépôt de la demande principale, selon le cas (voir le point 1.v) de ce cadre).

L'indication, dans les cases du cadre n° V correspondant aux désignations, de numéros d'ordre en chiffres arabes sera considérée comme reflétant l'ordre des désignations choisi par le déposant; si les cases sont cochées d'une autre manière, l'ordre considéré sera celui dans lequel les cases cochées apparaissent sur le formulaire. Cet ordre n'aura de signification que si le montant reçu pour les taxes de désignation n'est pas suffisant pour couvrir l'ensemble des désignations et reste insuffisant après que le déposant a été invité à acquitter le solde débiteur; dans ce cas, le montant reçu sera affecté au paiement des taxes pour les désignations dans l'ordre en question (règle 16bis.1.c) et instruction 321).

Les cases situées en bas des colonnes sont réservées à la désignation, aux fins d'un brevet national, d'États qui sont devenus partie au PCT après la date qui figure au bas de la deuxième feuille du formulaire de requête; dans ce cas, il faut mentionner sur la ligne pointillée le nom de l'État, précédé de préférence du code à deux lettres, et cocher la case correspondante (en indiquant, le cas échéant, si une forme particulière de protection ou de traitement est souhaitée).

Désignation d'États à titre de précaution sous réserve de confirmation (règles 4.9.b) et c) et 15.5) : dans l'intérêt du déposant, le cadre n° V comporte, en bas, une déclaration ("Déclaration concernant les désignations de précaution") indiquant que le déposant souhaite, en sus des désignations expresses effectuées en cochant les cases de la première partie de ce cadre (il doit y avoir au moins une désignation de ce type), désigner à titre de précaution tous les autres États contractants du PCT qui n'ont pas été désignés expressément.

corresponding to 50% of the designation fee.

The receiving Office will not send to the applicant any reminder or invitation to confirm precautionary designations.

If no precautionary designation is to be confirmed, no action is required by the applicant, and the precautionary designations will then be automatically regarded as withdrawn by the applicant at the expiration of 15 months from the priority date.

BOX No. VI

Priority Claim(s) (Rule 4.10): If the priority of an earlier application is claimed, the declaration containing the priority claim must be made in the request.

The request must indicate the *date* on which the earlier application from which priority is claimed was filed and the *number* it was assigned. Note that that date must fall within the period of 12 months preceding the international filing date.

Where the earlier application is a national application, the *country* party to the Paris Convention for the Protection of Industrial Property, or the *Member* of the World Trade Organization that is not a party to that Convention, in which that earlier application was filed must be indicated. Where the earlier application is a regional application, the *regional Office* concerned must be indicated. Where the earlier application is an international application, the *receiving Office* with which that earlier application was filed must be indicated.

Where the earlier application is a regional application (other than an ARIPO application), or an international application, the priority claim may also, if the applicant so wishes, indicate one or more countries party to the Paris Convention for which that earlier application was filed (Rule 4.10(b)(i)); such an indication is not, however, mandatory. Where the earlier application is an ARIPO application, at least one country party to the Paris Convention or one Member of the World Trade Organization for which that earlier application was filed must be indicated (Rule 4.10(b)(ii)).

As to the possibility of correcting or adding a priority claim, see Rule 26*bis* and the *PCT Applicant's Guide*, Volume I/A, General Part.

Certified Copy of Earlier Application (Rule 17.1): A certified copy of each earlier application the priority of which is claimed (priority document) must be submitted by the applicant, irrespective of whether that earlier application is a national, regional or international application. The priority document must be submitted to the receiving Office or to the International Bureau before the expiration of 16 months from the (earliest) priority date or, where an early start of the national phase is requested, not later than at the time such request is made. Any priority document received by the International Bureau after the expiration of the 16-month time limit but before the date of international publication shall be considered to have been received on the last day of that time limit (Rule 17.1(a)).

Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office (not later than 16 months after the priority date) to prepare and transmit the priority document to the International Bureau (Rule 4.1(c)(ii)). Such request may be made by marking the applicable check-boxes which identify the respective documents. *Attention:* where such a request is made, the applicant must, where applicable, pay to the receiving Office the *fee for priority document*, otherwise, the request will be considered not to have been made (see Rule 17.1(b)).

Dates (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such

indication, the date should be repeated in parentheses, using two-digit Arabic numerals for the number of the day, the number of the month and the last two digits of the year, in that order and separated by periods, slants or hyphens, for example, “20 March 2001 (20.03.01)”, “20 March 2001 (20/03/01)” or “20 March 2001 (20-03-01)”.

BOX No. VII

Choice of International Searching Authority (ISA) (Rules 4.1(b)(vi) and 4.14*bis*): If two or more International Searching Authorities are competent for carrying out the international search in relation to the international application—depending on the language in which that application is filed and the receiving Office with which it is filed—the name of the competent Authority chosen by the applicant must be indicated in the space provided, either by its full name or two-letter code.

Request to Use Results of Earlier Search; Reference to that Search (Rules 4.11 and 4.1.1): The earlier search, if any, must be identified in such a manner that the ISA can retrieve the results easily. Where those results can be used, the ISA may refund the international search fee or a portion thereof.

BOX No. VIII

Declarations Containing Standardized Wording (Rules 4.1(c)(iii) and 4.17): At the option of the applicant, the request may, for the purposes of the national law applicable in one or more designated States, contain one or more of the following declarations:

- (i) declaration as to the identity of the inventor;
- (ii) declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent;
- (iii) declaration as to the applicant's entitlement, as at the international filing date, to claim the priority of the earlier application;
- (iv) declaration of inventorship (only for the purposes of the designation of the United States of America);
- (v) declaration as to non-prejudicial disclosures or exceptions to lack of novelty;

which must conform to the standardized wording provided for in Sections 211 to 215, respectively, and which must be set forth in Boxes Nos. VIII (i) to (v), as detailed below. Where any such declarations are included, the appropriate check-boxes in Box No. VIII should be marked and the number of each type of declaration should be indicated in the right-hand column. As to the possibility of correcting or adding a declaration, see Rule 26*ter*, Section 216 and the *PCT Applicant's Guide*, Volume I/A, General Part.

If the circumstances of a particular case are such that the standardized wordings are not applicable, the applicant should not attempt to make use of the declarations provided for in Rule 4.17 but rather will have to comply with the national requirements concerned upon entry into the national phase.

The fact that a declaration is made under Rule 4.17 does not of itself establish the matters declared; the effect of those matters in the designated States concerned will be determined by the designated Offices in accordance with the applicable national law.

Even if the wording of a declaration does not conform to the standardized wording provided for in the Administrative Instructions pursuant to Rule 4.17, any designated Office may accept that declaration for the purposes of the applicable national law, but is not required to do so.

Details as to National Law Requirements: For information on the declarations required by each designated Office, see the

Si le déposant ne souhaite pas faire usage de cette mesure de sécurité ni ne veut faire de désignations de précaution, la déclaration doit être biffée.

Si le déposant souhaite expressément exclure tel ou tel État d'une telle désignation faite à titre de précaution afin que la demande internationale ne produise aucun effet dans cet État, il y aura lieu d'indiquer le nom ou le code à deux lettres de cet État dans le cadre supplémentaire. Cette mention n'est nécessaire dans aucun autre cas.

Si le déposant constate, après le dépôt de la demande internationale, qu'il y a des erreurs ou des omissions en ce qui concerne les désignations faites expressément, il pourra rectifier les erreurs ou corriger les omissions en confirmant les désignations de précaution en question. Il est possible de confirmer une désignation de précaution jusqu'à l'expiration d'un délai de 15 mois à compter de la date de priorité (la plus ancienne) indiquée dans le cadre n° VI ou, si aucune priorité n'est revendiquée, de la date du dépôt international. Pour confirmer une telle désignation, il faut déposer auprès de l'office récepteur une déclaration écrite contenant l'indication du nom de chaque État dont la désignation est confirmée (avec, le cas échéant, une indication de la forme de traitement ou de protection souhaitée) et payer à l'office récepteur, pour chaque désignation ainsi confirmée, une taxe de désignation (même lorsque cinq taxes de désignation ont déjà été payées) ainsi qu'une taxe de confirmation correspondant à 50 % de la taxe de désignation.

L'office récepteur n'enverra au déposant aucun rappel ni invitation à confirmer des désignations de précaution.

Le déposant ne doit rien faire s'il ne veut confirmer aucune désignation de précaution; les désignations de précaution seront alors automatiquement considérées comme retirées par le déposant à l'expiration d'un délai de 15 mois à compter de la date de priorité.

CADRE N° VI

Revendication(s) de priorité (règle 4.10) : si la priorité d'une demande antérieure est revendiquée, la déclaration contenant la revendication de priorité doit figurer dans la requête.

La requête doit indiquer la *date* du dépôt de la demande antérieure dont la priorité est revendiquée et son *numéro*. Cette date doit tomber dans la période de 12 mois précédant la date du dépôt international.

Lorsque la demande antérieure est une demande nationale, il faut indiquer le *pays* partie à la Convention de Paris pour la protection de la propriété industrielle, ou le *membre* de l'Organisation mondiale du commerce qui n'est pas partie à ladite convention, où elle a été déposée; lorsque la demande antérieure est une demande régionale, l'*office régional* concerné; et lorsque la demande antérieure est une demande internationale, l'*office récepteur* auprès duquel elle a été déposée.

Lorsque la demande antérieure est une demande régionale (autre qu'une demande ARIPO) ou une demande internationale, la revendication de priorité peut aussi, si le déposant le souhaite, indiquer un ou plusieurs pays parties à la Convention de Paris pour lesquels cette demande a été déposée (règle 4.10.b)i); cette indication n'est cependant pas obligatoire. Lorsque la demande antérieure est une demande ARIPO, il faut indiquer au moins un pays partie à la Convention de Paris ou un membre de l'Organisation mondiale du commerce pour lequel cette demande a été déposée (règle 4.10.b)ii).

En ce qui concerne les possibilités de correction ou d'adjonction d'une revendication de priorité, voir la règle 26*bis* et le *Guide du déposant du PCT*, volume I/A, partie générale.

Copie certifiée conforme de la demande antérieure (règle 17.1) : le déposant doit présenter une copie certifiée conforme de chaque demande antérieure dont la priorité est

revendiquée (document de priorité), que la demande antérieure soit une demande nationale, régionale ou internationale. Le document de priorité doit être présenté à l'office récepteur ou au Bureau international avant l'expiration d'un délai de 16 mois à compter de la date de priorité (la plus ancienne) ou, lorsque l'ouverture anticipée de la phase nationale est demandée, au plus tard à la date à laquelle est faite cette demande. Tout document de priorité qui parvient au Bureau international après l'expiration du délai de 16 mois mais avant la date de publication internationale est réputé avoir été reçu le dernier jour de ce délai (règle 17.1.a)).

Lorsque le document de priorité est délivré par l'office récepteur, le déposant peut, au lieu de présenter ce document, demander à l'office récepteur (au plus tard dans le délai de 16 mois à compter de la date de priorité) de l'établir et de le transmettre au Bureau international (règle 4.1.c)ii). Pour effectuer une requête à cet effet, il faut cocher la case appropriée comportant les indications qui permettent d'identifier le document. **Important** : lorsqu'une telle requête est présentée, le déposant doit, le cas échéant, verser à l'office récepteur la *taxe afférente au document de priorité*; à défaut, cette requête sera considérée comme n'ayant pas été présentée (voir la règle 17.1.b)).

Dates (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples : "20 mars 2001 (20.03.01)", "20 mars 2001 (20/03/01)" ou "20 mars 2001 (20-03-01)".

CADRE N° VII

Choix de l'administration chargée de la recherche internationale (ISA) (règles 4.1.b)vi) et 4.14*bis*) : si plusieurs administrations chargées de la recherche internationale sont compétentes pour procéder à la recherche internationale concernant la demande internationale – en fonction de la langue dans laquelle cette demande est déposée et de l'office récepteur auprès duquel elle est déposée – le nom de l'administration compétente choisie par le déposant doit être indiqué dans l'espace prévu, soit en clair soit au moyen du code à deux lettres correspondant.

Demande d'utilisation des résultats d'une recherche antérieure; mention de cette recherche (règles 4.11 et 41.1) : la mention de la recherche antérieure éventuelle doit comporter des indications qui permettent à l'administration chargée de la recherche internationale d'en retrouver aisément les résultats. Si ces résultats sont utilisables, l'administration en question pourra rembourser la taxe de recherche internationale ou une fraction de celle-ci.

CADRE N° VIII

Déclarations comportant un libellé standard (règles 4.1.c)iii) et 4.17) : au choix du déposant, la requête peut, aux fins de la législation nationale applicable dans un ou plusieurs États désignés, contenir une ou plusieurs des déclarations suivantes :

- i) une déclaration relative à l'identité de l'inventeur;
- ii) une déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet;
- iii) une déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure;
- iv) une déclaration relative à la qualité d'inventeur (seulement aux fins de la désignation des États-Unis d'Amérique);
- v) une déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté;

PCT Applicant's Guide, Volume II, in the relevant National Chapter.

Effect in Designated Offices (Rule 51bis.2): Where the applicant submits any of the declarations provided for in Rule 4.17(i) to (iv) containing the required standardized wording (either with the international application, or to the International Bureau within the relevant time limit under Rule 26ter, or directly to the designated Office during the national phase), the designated Office may not, in the national phase, require further documents or evidence on the matter to which the declaration relates, unless that designated Office may reasonably doubt the veracity of the declaration concerned.

Incompatibility of Certain Items of Rule 51bis.2(a) with National Laws (Rule 51bis.2(c)): The designated Offices listed below have informed the International Bureau that the applicable national law is not compatible in respect of the following declarations provided in Rule 4.17(i), (ii) and (iii). Those designated Offices are therefore entitled to require further documents or evidence on the matters to which those declarations relate.

Declaration as to the identity of the inventor (Rules 4.17(i) and 51bis.1(a)(i)): The respective national laws of CH Switzerland, DK Denmark and SE Sweden are not compatible with Rule 51bis.2(a)(i).

Declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51bis.1(a)(ii)): The respective national laws of CA Canada, CH Switzerland, DK Denmark, HU Hungary and SE Sweden are not compatible with Rule 51bis.2(a)(ii).

Declaration as to the applicant's entitlement as at the international filing date, to claim the priority of the earlier application (Rules 4.17(iii) and 51bis.1(a)(iii)): The respective national laws of CH Switzerland and DK Denmark are not compatible with Rule 51bis.2(a)(iii).

BOXES Nos. VIII (i) to (v) (IN GENERAL)

Different Declaration Boxes: There are six different declaration boxes in the pre-printed request form—one box for each of the five different types of declarations provided for in Rule 4.17 (Box No. VIII (i) to Box No. VIII (v)) and a continuation sheet (Continuation of Box No. VIII (i) to (v)) to be used in case any single declaration does not fit in the corresponding box. The title of each type of declaration which is found in the standardized wording provided for in the Administrative Instructions is pre-printed on the appropriate sheet of the request.

Separate Sheet for Each Declaration: Each declaration must start on a separate sheet of the request form in the appropriate Declaration Box.

Titles, Items, Item Numbers, Dotted Lines, Words in Parentheses and Words in Brackets: The prescribed standardized wording of the declarations includes titles, various items, item numbers, dotted lines, words in parentheses and words in brackets. Except for Box No. VIII (iv) which contains the pre-printed standardized wording, only those items which are applicable should be included in a declaration where necessary to support the statements in that declaration (that is, omit those items which do not apply) and item numbers need not be included. Dotted lines indicate where information is required to be inserted. Words in parentheses are instructions to applicants as to the information which may be included in the declaration depending upon the factual circumstances. Words in brackets are optional and should appear in the declaration without the brackets if they apply; if they do not apply, they should be omitted together with the corresponding brackets.

Naming of Several Persons: More than one person may be named in a single declaration. In the alternative, with one exception, a separate declaration may be made for each person. With respect to the declaration of inventorship set forth in Box No. VIII (iv), which is applicable only for the purposes of the designation of the United States of America, all inventors must be indicated in a single declaration (see Notes to Box No. VIII (iv), below). The wording of declarations to be set forth in Boxes Nos. VIII (i), (ii), (iii) and (v) may be adapted from the singular to the plural as necessary.

Designated States to Which the Declarations Apply: Each declaration must indicate the designated States to which it applies. In this regard, the standardized wording of the declaration of inventorship (Box No. VIII (iv); see also Rule 4.17(iv) and Section 214) indicates in the title that it is for the purposes of the designation of the United States of America. The other declarations include prescribed wording to indicate whether the declaration is made for all designations or specific designations; one of these choices should always be included in the declaration. Where the declaration is for more than one person, the declaration may include separate statements indicating whether the declaration is made for all designations or specific designations with respect to each separate applicant. For example, this may be expected to occur where the request indicates different applicants for different States in accordance with Rule 4.5(d). However, in such a case, it is advisable to include a separate declaration for each person.

BOX No. VIII (i)

Declaration as to the Identity of the Inventor (Rule 4.17(i) and Section 211): The declaration must be worded as follows:

“Declaration as to the identity of the inventor (Rules 4.17(i) and 51bis.1(a)(i)):

in relation to [this] international application [No. PCT/...],

- (i) ... (*name*) of ... (*address*) is the inventor of the subject matter for which protection is sought by way of [the] [this] international application
- (ii) this declaration is made for the purposes of (*include as applicable*):
 - (a) all designations [except the designation of the United States of America]
 - (b) the following designations for national and/or regional patents: ...”

Such a declaration is not necessary in respect of any inventor who is indicated as such (either as inventor only or applicant and inventor) in Box No. II or No. III in accordance with Rule 4.5 or 4.6. However, where the inventor is indicated as applicant in Box No. II or No. III in accordance with Rule 4.5, a declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)) may be appropriate for the purposes of all designated States except the United States of America. Where indications regarding the inventor in accordance with Rule 4.5 or 4.6 are not included in Box No. II or No. III, this declaration may be combined with the prescribed wording of the declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)). For details on such a combined declaration, see Notes to Box No. VIII (ii), below. For details as to the declaration of inventorship for the purposes of the designation of the United States of America, see Notes to Box No. VIII (iv), below.

BOX No. VIII (ii)

Declaration as to the Applicant's Entitlement to Apply for and Be Granted a Patent (Rule 4.17(ii) and Section 212): The declaration must be worded as follows, with such inclusion, omission, repetition and re-ordering of the matters listed as items (i) to (viii) as is necessary to explain the applicant's entitlement:

qui doivent être conformes au libellé standard fixé dans les instructions 211 à 215, respectivement, et qui doivent être présentées dans les cadres n^{os} VIII.i) à v), comme précisé ci-après. Lorsque de telles déclarations sont incluses, il convient de cocher les cases appropriées dans le cadre n^o VIII et d'indiquer dans la colonne de droite le nombre de déclarations de chaque type. En ce qui concerne les possibilités de correction ou d'adjonction d'une déclaration, voir la règle 26ter, l'instruction 216 et le *Guide du déposant du PCT*, volume I/A, partie générale.

Si les circonstances d'un cas particulier sont telles que les libellés standard ne sont pas applicables, le déposant s'abstiendra de faire les déclarations prévues à la règle 4.17, mais il devra satisfaire aux exigences de la législation nationale concernée lors de l'entrée dans la phase nationale.

Le fait qu'une déclaration soit faite en vertu de la règle 4.17 ne suffit pas à prouver les points sur lesquels elle porte; il appartient aux offices désignés de statuer sur l'effet de ces points dans les États désignés en fonction de la législation nationale applicable.

Même si le texte d'une déclaration ne respecte pas le libellé standard fixé dans les instructions administratives en vertu de la règle 4.17, tout office désigné est libre d'accepter ou non cette déclaration aux fins de la législation nationale applicable.

Précisions quant aux exigences des législations nationales : pour des précisions concernant les déclarations qui sont exigées par chaque office désigné, voir les chapitres nationaux pertinents dans le volume II du *Guide du déposant du PCT*.

Effets dans les offices désignés (règle 51bis.2) : lorsqu'un déposant remet l'une des déclarations visées à la règle 4.17.i) à iv) comportant le libellé standard exigé (soit avec la demande internationale, soit au Bureau international dans le délai applicable en vertu de la règle 26ter, ou directement à l'office désigné durant la phase nationale), l'office désigné ne peut, pendant la phase nationale, exiger d'autres documents ou preuves relatifs à l'objet auquel se rapporte la déclaration, à moins qu'il puisse raisonnablement douter de la véracité de la déclaration en question.

Incompatibilité de certains points de la règle 51bis.2.a) avec les législations nationales (règle 51bis.2.c) : les offices désignés dont la liste figure ci-après ont informé le Bureau international que la législation nationale qui leur est applicable n'est pas compatible en ce qui concerne les déclarations suivantes visées à la règle 4.17.i), ii) et iii). Ces offices désignés pourront donc exiger des documents ou des preuves supplémentaires relatifs aux objets auxquels se rapportent ces déclarations.

Déclaration relative à l'identité de l'inventeur (règles 4.17.i) et 51bis.1.a)i) : les législations nationales respectives de CH Suisse, DK Danemark et SE Suède ne sont pas compatibles avec la règle 51bis.2.a)i).

Déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet (règles 4.17.ii) et 51bis.1.a)ii) : les législations nationales respectives de CA Canada, CH Suisse, DK Danemark, HU Hongrie et SE Suède ne sont pas compatibles avec la règle 51bis.2.a)ii).

Déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure (règles 4.17.iii) et 51bis.1.a)iii) : les législations nationales respectives de CH Suisse et DK Danemark ne sont pas compatibles avec la règle 51bis.2.a)iii).

CADRES N^{os} VIII i) à v) (GÉNÉRALITÉS)

Différent cadres pour déclarations : le formulaire pré-imprimé contient six cadres différents pour déclarations, un pour chacun des cinq types de déclarations prévues selon la règle 4.17 (du cadre n^o VIII.i) au cadre n^o VIII.v)) et une feuille annexe (Suite du cadre n^o VIII.i) à v)) à utiliser dans le cas où une des déclarations ne tient pas dans le cadre approprié. Le titre de chaque déclaration qui figure dans le libellé standard prévu dans les instructions administratives est pré-imprimé sur la feuille correspondante de la requête.

Feuille distincte pour chaque déclaration : chaque déclaration doit commencer sur une feuille distincte de la requête et dans le cadre pour déclaration approprié.

Titres, éléments, numéros d'éléments, lignes pointillées, mots entre parenthèses et mots entre crochets : le libellé standard fixé pour les déclarations comporte un titre, différents éléments, des numéros d'éléments, des lignes pointillées, des mots entre parenthèses et des mots entre crochets. Sauf en ce qui concerne le cadre n^o VIII.iv) dans lequel le libellé standard est pré-imprimé, seuls les éléments pertinents doivent figurer dans une déclaration lorsque cela est nécessaire à l'énoncé des faits invoqués dans cette déclaration (en d'autres termes, il y a lieu d'omettre les éléments non pertinents) et il n'est pas nécessaire d'inclure les numéros d'éléments. Les lignes pointillées signalent les endroits où il y a lieu d'indiquer les renseignements demandés. Les mots entre parenthèses indiquent au déposant quels renseignements peuvent être inclus dans la déclaration selon la situation de fait. Les mots entre crochets sont facultatifs; s'ils sont applicables, ils doivent figurer dans la déclaration sans les crochets; s'ils ne sont pas applicables, il convient de les omettre ainsi que les crochets.

Mention de plusieurs personnes : plusieurs personnes peuvent être mentionnées dans une même déclaration. Il est aussi possible, sauf dans un cas, de faire une déclaration distincte par personne. Pour la déclaration relative à la qualité d'inventeur, figurant dans le cadre n^o VIII.iv), qui est applicable seulement aux fins de la désignation des États-Unis d'Amérique, tous les inventeurs doivent être indiqués dans une même déclaration (voir les notes du cadre n^o VIII.iv), ci-après). Dans les déclarations devant figurer dans les cadres n^{os} VIII.i), ii), iii) et v), le libellé au singulier peut être mis au pluriel si cela s'avère nécessaire.

États désignés auxquels les déclarations s'appliquent : chaque déclaration doit comporter l'indication des États désignés auxquels elle s'applique. À cet égard, le libellé standard pour la déclaration relative à la qualité d'inventeur (cadre n^o VIII.iv); voir également la règle 4.17.iv) et l'instruction 214) indique dans le titre que la déclaration est faite aux fins de la désignation des États-Unis d'Amérique. Les autres déclarations comportent des libellés prescrits pour indiquer si la déclaration est faite aux fins de toutes les désignations ou aux fins de désignations particulières. Une de ces options doit toujours figurer dans la déclaration. Lorsque la déclaration est faite en ce qui concerne plusieurs personnes, elle peut comporter des mentions distinctes indiquant si elle est faite aux fins de toutes les désignations ou aux fins de désignations particulières en ce qui concerne chacun des déposants. Le cas peut par exemple se présenter si la requête indique des déposants différents pour différents États, conformément à la règle 4.5.d). Dans une telle situation, toutefois, il est conseillé d'inclure une déclaration distincte par personne.

CADRE N^o VIII.i)

Déclaration relative à l'identité de l'inventeur (règle 4.17.i) et instruction 211) : la déclaration doit être libellée comme suit:

“Declaration as to the applicant’s entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51*bis*.1(a)(ii)), in a case where the declaration under Rule 4.17(iv) is not appropriate:

in relation to [this] international application [No. PCT/...],

- (ix) this declaration is made for the purposes of (*include as applicable*):
 - (a) all designations [except the designation of the United States of America]
 - (b) the following designations for national and/or regional patents: ...”

Either (a) or (b) of item (ix) should always be included in the declaration. The remainder of the items may be incorporated as is necessary to explain the applicant’s entitlement. ***This declaration is only applicable to those events which have occurred prior to the international filing date.*** The possible kinds of transfer of entitlement in item (vii) include merger, acquisition, inheritance, donation, etc. Where there has been a succession of transfers from the inventor, the order in which transfers are listed should follow the actual succession of transfers, and items may be included more than once, as necessary to explain the applicant’s entitlement. Where the inventor is not indicated in Box No. II or No. III, this declaration may be presented as a combined declaration explaining the applicant’s entitlement to apply for and be granted a patent and identifying the inventor. In such a case, the introductory phrase of the declaration must be as follows:

“Combined declaration as to the applicant’s entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51*bis*.1(a)(ii)) and as to the identity of the inventor (Rules 4.17(i) and 51*bis*.1(a)(i)), in a case where the declaration under Rule 4.17(iv) is not appropriate:”

The remainder of the combined declaration must be worded as indicated in the preceding paragraphs.

For details as to the declaration as to the identity of the inventor, see the Notes to Box No. VIII (i), above.

BOX No. VIII (iii)

Declaration as to the Applicant’s Entitlement to Claim Priority of the Earlier Application (Rule 4.17(iii) and Section 213): The declaration must be worded as follows, with such inclusion, omission, repetition and re-ordering of the matters listed as items (i) to (viii) as is necessary to explain the applicant’s entitlement:

“Declaration as to the applicant’s entitlement, as at the international filing date, to claim the priority of the earlier

application specified below, where the applicant is not the applicant who filed the earlier application or where the applicant’s name has changed since the filing of the earlier application (Rules 4.17(iii) and 51*bis*.1(a)(iii)):

in relation to [this] international application [No. PCT/...],

... (*name*) is entitled to claim priority of earlier application No. ... by virtue of the following:

- (i) the applicant is the inventor of the subject matter for which protection was sought by way of the earlier application
- (ii) ... (*name*) [is] [was] entitled as employer of the inventor, ... (*inventor’s name*)
- (iii) an agreement between ... (*name*) and ... (*name*), dated ...
- (iv) an assignment from ... (*name*) to ... (*name*), dated ...
- (v) consent from ... (*name*) in favor of ... (*name*), dated ...
- (vi) a court order, issued by ... (*name of court*), effecting a transfer from ... (*name*) to ... (*name*), dated ...
- (vii) transfer of entitlement from ... (*name*) to ... (*name*) by way of ... (*specify kind of transfer*), dated ...
- (viii) the applicant’s name changed from ... (*name*) to ... (*name*) on ... (*date*)
- (ix) this declaration is made for the purposes of (*include as applicable*):
 - (a) all designations
 - (b) the following designations for national and/or regional patents: ...”

Either (a) or (b) of item (ix) should always be included in the declaration. The remainder of the items may be incorporated as is necessary to explain the applicant’s entitlement. ***This declaration is only applicable to those events which have occurred prior to the international filing date.*** In addition, this declaration is only applicable where the person or name of the applicant is different from that of the applicant who filed the earlier application from which priority is claimed. For example, this declaration may be applicable where only one applicant out of five is different from the applicants indicated in respect of an earlier application. The possible kinds of transfer of entitlement in item (vii) include merger, acquisition, inheritance, donation, etc. Where there has been a succession of transfers from the applicant in respect of the earlier application, the order in which transfers are listed should follow the actual succession of transfers, and items may be included more than once, as necessary to explain the applicant’s entitlement.

BOX No. VIII (iv)

Declaration of Inventorship (Rule 4.17(iv) and Section 214): The standardized wording for the declaration is pre-printed in Box No. VIII (iv).

All inventors must be named in the declaration, even if they do not all sign the same (copy of) the declaration (Section 214(b)). Bibliographic data, such as address of residence and citizenship, must be included for each inventor. Where the declaration is included in the request, the inventor(s) need not sign and date the declaration if they have signed in Box No. X of the request. If there are more than two inventors, those other inventors must be indicated on the “continuation sheet for declaration.” In such a case, write “Continuation of Box No. VIII (iv),” and indicate only the bibliographical data in respect of each inventor. The text of the declaration itself should not be repeated on that continuation sheet. The inventor(s) identified on the continuation sheet must sign and date such sheet, unless the declaration, including the continuation sheet, is included with the request and the inventor(s) has (have) signed in Box No. X of the request.

“Déclaration relative à l’identité de l’inventeur (règles 4.17.i) et 51*bis*.1.a)i) :

concernant la [présente] demande internationale [n° PCT/...],

- i) ... (*nom*), ... (*adresse*), est l’inventeur de ce pour quoi une protection est demandée dans [la] [ladite] demande internationale
- ii) la présente déclaration est faite aux fins (*préciser selon le cas*)
 - a) de toutes les désignations [sauf la désignation des États-Unis d’Amérique]
 - b) des désignations suivantes pour des brevets nationaux ou régionaux : ...”

Une déclaration de cette nature n’est pas nécessaire en ce qui concerne tout inventeur qui est indiqué comme tel (que ce soit comme inventeur seulement ou en qualité à la fois de déposant et d’inventeur) dans le cadre n° II ou le cadre n° III en application de la règle 4.5 ou 4.6. Toutefois, lorsque l’inventeur est indiqué comme étant le déposant dans le cadre n° II ou n° III en application de la règle 4.5, une déclaration relative au droit du déposant de demander et d’obtenir un brevet (règle 4.17.ii) peut être appropriée aux fins de tous les États désignés sauf des États-Unis d’Amérique. Lorsque les indications concernant l’inventeur qui sont à fournir en application de la règle 4.5 ou 4.6 ne sont pas portées dans le cadre n° II ou n° III, cette déclaration peut être combinée avec le libellé standard pour la déclaration relative au droit du déposant de demander et d’obtenir un brevet (règle 4.17.ii). Pour des précisions concernant cette déclaration combinée, voir les notes du cadre n° VIII.ii), ci-après. Pour des précisions quant à la déclaration relative à la qualité d’inventeur aux fins de la désignation des États-Unis d’Amérique, voir les notes du cadre n° VIII.iv), ci-après.

CADRE N° VIII.ii)

Déclaration relative au droit du déposant de demander et d’obtenir un brevet (règle 4.17.ii) et instruction 212) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à viii) nécessaires aux fins de motiver le droit du déposant :

“Déclaration relative au droit du déposant, à la date du dépôt international, de demander et d’obtenir un brevet (règles 4.17.ii) et 51*bis*.1.a)ii)), dans le cas où la déclaration selon la règle 4.17.iv) n’est pas appropriée :

concernant la [présente] demande internationale [n° PCT/...],

... (*nom*) a le droit de demander et d’obtenir un brevet en vertu :

- i) du fait que ... (*nom*), ... (*adresse*), est l’inventeur de ce pour quoi une protection est demandée dans [la] [ladite] demande internationale
- ii) du fait que... (*nom*) [possède] [possédait] ce droit en qualité d’employeur de l’inventeur, ... (*nom de l’inventeur*)
- iii) d’un contrat conclu entre ... (*nom*) et ... (*nom*), daté du ...
- iv) d’une cession de ... (*nom*) à ... (*nom*), datée du ...
- v) d’une autorisation consentie par ... (*nom*) à ... (*nom*), datée du ...
- vi) d’une décision de justice rendue par ... (*nom du tribunal*), ordonnant un transfert de ... (*nom*) à ... (*nom*), datée du ...

- viii) du changement de nom du déposant de ... (*nom*) en ... (*nom*), le ... (*date*)

ix) la présente déclaration est faite aux fins (*préciser selon le cas*)

- a) de toutes les désignations [sauf la désignation des États-Unis d’Amérique]
- b) des désignations suivantes pour des brevets nationaux ou régionaux : ...”

L’une ou l’autre des variantes a) et b) du point ix) doit toujours être incluse dans la déclaration. On ne retiendra parmi les autres éléments que ceux qui sont nécessaires pour motiver le droit du déposant. **Cette déclaration est exclusivement applicable à des faits qui se sont produits avant la date du dépôt international.** Les types possibles de transfert de droits visés au point vii) comprennent la fusion, l’acquisition, l’héritage, la donation, etc. Lorsqu’il y a eu succession de transferts des droits de l’inventeur, l’ordre dans lequel les transferts sont énumérés doit suivre l’ordre effectif de ces transferts successifs et certains points peuvent être cités plus d’une fois si cela s’avère nécessaire pour motiver le droit du déposant. Lorsque l’inventeur n’est pas indiqué dans le cadre n° II ou le cadre n° III, cette déclaration peut être présentée sous la forme d’une déclaration combinée motivant le droit du déposant de demander et d’obtenir un brevet et permettant d’identifier l’inventeur. Dans un tel cas, la phrase introductive de la déclaration est libellée comme suit :

“Déclaration combinée relative au droit du déposant, à la date du dépôt international, de demander et d’obtenir un brevet (règles 4.17.ii) et 51*bis*.1.a)ii)) et relative à l’identité de l’inventeur (règles 4.17.i) et 51*bis*.1.a)i)), dans le cas où la déclaration selon la règle 4.17.iv) n’est pas appropriée :”

Le reste de la déclaration combinée est libellé comme indiqué aux paragraphes précédents.

Pour des précisions concernant la déclaration permettant d’identifier l’inventeur, voir les notes relatives au cadre n° VIII.i), ci-dessus.

CADRE N° VIII.iii)

Déclaration relative au droit du déposant de revendiquer la priorité de la demande antérieure (règle 4.17.iii) et instruction 213) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à viii) nécessaires aux fins de motiver le droit du déposant :

“Déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande indiquée ci-dessous si le déposant n’est pas celui qui a déposé la demande antérieure ou si son nom a changé depuis le dépôt de la demande antérieure (règles 4.17.iii) et 51*bis*.1.a)iii)) :

concernant la [présente] demande internationale [n° PCT/...],

... (*nom*) a le droit de revendiquer la priorité de la demande antérieure n° ... en vertu :

- i) du fait que le déposant est l’inventeur de ce pour quoi une protection a été demandée dans la demande antérieure

BOX No. VIII (v)

“Declaration as to non-prejudicial disclosures or exceptions to lack of novelty (Rules 4.17(v) and 51*bis*.1(a)(v)):

Either (a), (b), (c) or (d) of item (i) should always be included in the declaration. Item (ii) should also always be included in the declaration. Either (a) or (b) of item (v) should always be included in the declaration. Items (iii) and (iv) may be incorporated depending upon the circumstances.

BOX No. IX

Items Constituting the International Application: The number of sheets of the various parts of the international application must be given in the check list in Arabic numerals. Sheets containing any of Boxes Nos. VIII (i) to (v) must be counted as part of the request.

Where the application contains disclosure of one or more *nucleotide and/or amino acid sequences*, the applicant has the following three options.

First, the applicant may choose to file the sequence listings and/or tables related thereto *in paper form only* (“option (a)”), in which case the number of sheets of the listings and/or tables, respectively, must be indicated under item (a) in the left column of Box No. IX (and therefore included in the total number of sheets), noting that a copy of the sequence listings and/or a copy of the tables, in computer readable form, may accompany the international application but only for the purposes of international search under Rule 13*ter* and/or Section 802(b-*quater*); in such a case, check-boxes Nos. 9, 9(i) and/or 10(i) and, where applicable, 9(iii) and/or 10(iii) must be marked in the right column of Box No. IX.

Second, the applicant may choose to file the sequence listings and/or tables related thereto *in computer readable form only*, under Section 801(a)(i) (“option (b)”), in which case check-boxes b(i) and/or b(ii) must be marked but the spaces for the number of sheets of the sequence listings and/or tables, respectively, under item (a) must be left blank; the type and number of carriers must also be indicated on the dotted lines at the bottom of the left column; in addition, check-boxes Nos. 9, 9(ii) and/or 10(ii) and, where applicable, 9(iii) and/or 10(iii) must be marked if additional copies of the sequence listings and/or tables in computer readable form are furnished.

Third, the applicant may choose to file the sequence listings and/or tables related thereto *both in computer readable form and in paper form*, under Section 801(a)(ii) (“option (c)”), in which case the number of sheets (in paper form) of the sequence listings and/or tables, respectively, must be indicated under item (a) in the left column of Box No. IX (although those numbers of sheets will not be taken into account for calculation of the basic fee) and check-boxes c(i) and/or c(ii), respectively, must be marked; the type and number of carriers must also be indicated on the dotted lines at the bottom of the left column; in addition, check-boxes Nos. 9, 9(ii) and/or 10(ii) and, where applicable, 9(iii) and/or 10(iii) must be marked if additional copies of the sequence listings and/or tables in computer readable form are furnished.

Under all three options described above, the sequence listings must be presented as a separate part of the description (“sequence listing part of description”) in accordance with the standard contained in Annex C of the Administrative Instructions. Also, tables related to sequence listings must be presented in accordance with the standard contained in Annex C-*bis* of the Administrative Instructions.

Items Accompanying the International Application:

Where the international application is accompanied by certain items, the applicable check-boxes must be marked, any applicable indication must be made on the dotted line after the applicable item, and the number of such items should be indicated at the end of the relevant line; detailed explanations are provided below only in respect of those items which so require.

Check-box No. 4: Mark this checkbox where a copy of a general power of attorney is filed with the international application; where the general power of attorney has been deposited with the receiving Office, and that Office has accorded to it a reference number, that number may be indicated.

Check-box No. 5: Mark this check-box where a statement explaining the lack of signature of an inventor/applicant for the purposes of the United States of America is furnished together with the international application (see also Notes to Box No. X).

Check-box No. 7: Mark this check-box where a translation of the international application for the purposes of international search (Rule 12.3) is filed together with the international application and indicate the language of that translation.

Check-box No. 8: Mark this check-box where a filled-in Form PCT/RO/134 or any separate sheet containing indications concerning deposited microorganisms and/or other biological material is filed with the international application. If Form PCT/RO/134 or any sheet containing the said indications is included as one of the sheets of the description (as required by certain designated States (see the *PCT Applicant’s Guide*, Volume I/B, Annex L)), do not mark this check-box (for further information, see Rule 13*bis* and Section 209).

Check-box No. 9: Where the international application contains sequence listings and a copy thereof in computer readable form is required by the ISA under Rule 13*ter*, the applicant may furnish the listings in computer readable form (together with the required statement) to the receiving Office with the international application, in which case check-boxes Nos. 9, 9(i) and, where applicable, 9(iii) must be marked. Where the applicant has chosen option (b) or option (c) mentioned above, and an additional copy or copies of the sequence listings in computer readable form are required under Section 804, the applicant may furnish such additional copies together with the international application, in which case check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked. In all cases mentioned above, the applicant should indicate at the end of each applicable entry the type and number of diskettes, CD-ROMs, CD-Rs, or other data carriers furnished.

- viii) du changement de nom du déposant de ... (*nom*) en ... (*nom*), le ... (*date*)
- ix) la présente déclaration est faite aux fins (*préciser selon le cas*)
 - a) de toutes les désignations
 - b) des désignations suivantes pour des brevets nationaux ou régionaux : ...”
- ii) date de la divulgation : ...
- iii) intitulé de la divulgation (*s’il y a lieu*) : ...
- iv) lieu de la divulgation (*s’il y a lieu*) : ...
- v) la présente déclaration est faite aux fins (*préciser selon le cas*)
 - a) de toutes les désignations
 - b) des désignations suivantes pour des brevets nationaux ou régionaux : ...”

L’une ou l’autre des variantes a) et b) du point ix) doit toujours être incluse dans la déclaration. On ne retiendra parmi les autres éléments que ceux qui sont nécessaires pour motiver le droit du déposant. ***Cette déclaration est exclusivement applicable à des faits qui se sont produits avant la date du dépôt international.*** En outre, cette déclaration n’est applicable que si la personne du déposant est différente de celle du déposant qui a déposé la demande antérieure dont la priorité est revendiquée, ou si le nom du déposant a changé. Si par exemple un seul déposant sur cinq est différent de ceux qui étaient indiqués pour une demande antérieure, cette déclaration pourra être applicable. Les types possibles de transferts de droits visés au point vii) comprennent la fusion, l’acquisition, l’héritage, la donation, etc. Lorsqu’il y a eu succession de transferts des droits du déposant sur la demande antérieure, l’ordre dans lequel les points sont énumérés doit suivre l’ordre effectif de ces transferts successifs et certains points peuvent être cités plus d’une fois si cela s’avère nécessaire pour motiver le droit du déposant.

CADRE N° VIII.iv)

Déclaration relative à la qualité d’inventeur (règle 4.17.iv) et instruction 214) : le libellé standard pour la déclaration est pré-imprimé au cadre n° VIII.iv).

Tous les inventeurs doivent être mentionnés dans la déclaration même s’ils ne signent pas tous la même (copie de la) déclaration (instruction 214.b)). Les données bibliographiques, telles que l’adresse du domicile et la nationalité, doivent être fournies pour chaque inventeur. Dans le cas d’une déclaration incluse dans la requête, il n’est pas nécessaire que le ou les inventeurs signent ou datent la déclaration s’ils ont signé eux-mêmes dans le cadre n° X de la requête. S’il y a plusieurs inventeurs, les autres inventeurs doivent être indiqués sur la “feuille annexe de déclaration”. Dans ce cas, on écrira “suite du cadre n° VIII.iv)” et on fournira uniquement les données bibliographiques concernant chaque inventeur. Le texte de la déclaration ne doit pas être répété sur cette feuille annexe. Le ou les inventeurs indiqués sur la feuille annexe doivent signer et dater cette feuille, à moins que la déclaration, y compris la feuille annexe, soit incluse dans la requête et que le ou les inventeurs aient signé dans le cadre n° X de la requête.

L’un ou l’autre des éléments a) et b) du point v) doit toujours figurer dans la déclaration. Les points iii) et iv) peuvent être incorporés s’il y a lieu.

CADRE N° IX

Éléments constituant la demande internationale : Il faut indiquer en chiffres arabes, dans le bordereau, le nombre de feuilles des différentes parties de la demande internationale. Toute feuille sur laquelle figure l’un quelconque des cadres n°s VIII.i) à v) doit être comptée comme faisant partie de la requête.

Lorsque la demande internationale contient la divulgation d’une ou de plusieurs *séquences de nucléotides ou d’acides aminés*, le déposant dispose des trois options suivantes.

Premièrement, le déposant peut choisir de déposer les listages des séquences ou les tableaux y relatifs *sous forme papier seulement* (“option a”), auquel cas le nombre de feuilles des listages ou des tableaux, respectivement, doit être indiqué au point a) de la colonne de gauche du cadre n° IX (et par conséquent compris dans le nombre total de feuilles); on notera dans ce cas qu’une copie des listages des séquences ou une copie des tableaux, sous forme déchiffrable par ordinateur, peuvent être remises avec la demande internationale mais seulement aux fins de la recherche internationale en vertu de la règle 13*ter* ou de l’instruction 802.b-*quater*); dans ce cas, les cases n°s 9, 9.i) ou 10.i) et, le cas échéant, 9.iii) ou 10.iii), doivent être cochées dans la colonne de droite du cadre n° IX.

Deuxièmement, le déposant peut choisir de déposer les listages des séquences ou les tableaux y relatifs *sous forme déchiffrable par ordinateur seulement*, en vertu de l’instruction 801.a)i) (“option b”), auquel cas la case b)i) ou b)ii) doit être cochée mais l’endroit réservé au nombre de feuilles des listages des séquences ou des tableaux, respectivement, sous le point a) doit être laissé en blanc; le type et le nombre de supports doivent également être indiqués sur les lignes pointillées en bas de la colonne de gauche. De plus, les cases n°s 9, 9.ii) ou 10.ii) et, le cas échéant, 9.iii) ou 10.iii), doivent être cochées si on joint des exemplaires supplémentaires des listages des séquences ou des tableaux sous forme déchiffrable par ordinateur.

Troisièmement, le déposant peut choisir de déposer les listages des séquences ou les tableaux y relatifs *à la fois sous forme déchiffrable par ordinateur et sous forme papier*, en vertu de l’instruction 801.a)ii) (“option c”), auquel cas le nombre de feuilles (sous forme papier) des listages ou des tableaux, respectivement, doit être indiqué sous le point a) dans la colonne de gauche du cadre n° IX (bien que ces nombres de feuilles ne soient pas utilisés aux fins du calcul de la taxe de base) et la case c)i) ou c)ii), respectivement, doit être cochée; le type et le nombre de supports doivent également être indiqués sur les lignes pointillées en bas de la colonne de gauche. De plus, les cases n°s 9, 9.ii) ou 10.ii) et, le cas échéant, 9.iii) ou 10.iii), doivent être cochées si on joint des exemplaires supplémentaires des listages des séquences ou des tableaux sous forme déchiffrable par ordinateur.

Dans le cadre des trois options décrites ci-dessus, les listages des séquences doivent être présentés dans une partie distincte de la description (“partie de la description réservée au listage

In all cases mentioned above, the applicant should indicate at the end of each applicable entry the type and number of diskettes, CD-ROMs, CD-Rs, or other data carriers furnished.

Language of Filing of the International Application (Rules 12.1(a) and 20.4(c) and (d)): With regard to the language in which the international application is filed, for the purposes of according an international filing date, it is, subject to the following sentence, sufficient that the description and the claims are in the language, or one of the languages, accepted by the receiving Office for the filing of international applications; that language should be indicated in that check-box (as regards the language of the abstract and any text matter in the drawings, see Rule 26.3*ter*(a) and (b); as regards the language of the request, see Rules 12.1(c) and 26.3*ter*(c) and (d)). Note that where the international application is filed with the United States Patent and Trademark Office as receiving Office, all elements of the international application (request, description, claims, abstract, text matter of drawings) must, for the purposes of according an international filing date, be in English except that the free text in any sequence listing part of the description, complying with the standard set out in Annex C of the Administrative Instructions, may be in a language other than English.

If the power is not filed with the request, the receiving Office will invite the applicant to furnish it.

If the United States of America is designated and an inventor/applicant for that State refused to sign the request or could not be found or reached after diligent effort, a statement explaining the lack of signature may be furnished. It should be noted that this applies only where there are two or more applicants and the international application has been signed by at least one other applicant. The statement must satisfy the receiving Office. If such a statement is furnished

with the international application, check-box No. 5 in Box No. IX should be marked.

SUPPLEMENTAL BOX

The cases in which the Supplemental Box may be used and the manner of making indications in it are explained in the left column of that Box.

GENERAL REMARKS

Language of Correspondence (Rule 92.2 and Section 104): Any letter from the applicant to the receiving Office must be in the language of filing of the international application provided that, where the international application is to be published in the language of a translation required under Rule 12.3, such letter should be in the language of that translation; however, the receiving Office may authorize the use of another language.

Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Any letter from the applicant to the ISA must be in the same language as the international application, provided that, where a translation of the international application for the purposes of international search has been transmitted under Rule 23.1(b), such letter is in the language of that translation. Éléments joints à la demande internationale : lorsque des éléments sont joints à la demande internationale, les cases appropriées doivent être cochées et toute indication pertinente doit être portée sur la ligne pointillée correspondante, le nombre de chacun de ces éléments devant être indiqué dans la colonne, en fin de ligne; on trouvera ci-après des explications détaillées concernant uniquement les éléments qui le nécessitent.

Case n° 4 : cocher cette case si la copie d’un pouvoir général est déposée avec la demande internationale; lorsque le pouvoir général a été déposé auprès de l’office récepteur, et que celui-ci lui a attribué un numéro de référence, ce dernier peut être indiqué.

Case n° 5 : cocher cette case si une explication de l’absence de signature d’un inventeur/déposant pour les États-Unis d’Amérique est fournie conjointement avec la demande internationale (voir aussi les notes du cadre n° X).

Case n° 7 : cocher cette case si une traduction de la demande internationale aux fins de la recherche internationale (règle 12.3) est fournie conjointement avec cette demande et indiquer la langue de la traduction.

Case n° 8 : cocher cette case si, avec la demande internationale, est déposé un formulaire PCT/RO/134 rempli ou une ou plusieurs feuilles séparées comportant des indications relatives à des micro-organismes ou autre matériel biologique déposés. Si le formulaire PCT/RO/134 ou toute autre feuille comportant les indications en question figurent en tant que feuilles de la description (comme le prescrivent certains États désignés (voir le *Guide du déposant du PCT*, volume I/B, annexe L), ne pas cocher cette case (pour de plus amples renseignements, voir la règle 13bis et l’instruction 209).

Case n° 9 : lorsque la demande internationale contient des listages des séquences et qu’une copie de ces derniers, sous forme déchiffrable par ordinateur, est requise par l’administration chargée de la recherche internationale en vertu de la règle 13ter, le déposant peut fournir, conjointement avec la demande internationale, les listages en question sous forme déchiffrable par ordinateur (ainsi que la déclaration requise) à l’office récepteur. Si tel est le cas, les cases n° 9, 9.i) et, le cas échéant, 9.iii) doivent être cochées. Lorsque le déposant a choisi l’option b) ou l’option c) mentionnée ci-dessus, et qu’un ou plusieurs exemplaires supplémentaires des listages des séquences sont requis en vertu de l’instruction 804, le déposant peut remettre de tels exemplaires supplémentaires, conjointement avec la demande internationale, auquel cas les cases n° 9, 9.ii) et, le cas échéant, 9.iii) doivent être cochées. Dans tous les cas mentionnés ci-dessus, le déposant doit indiquer à la fin de chaque rubrique applicable le type et le nombre de disquettes, CD-ROM, CD-R ou autres supports de données qu’il a remis.

Case n° 10 : lorsque la demande internationale contient des tableaux relatifs aux listages des séquences et qu’une copie de ces derniers, sous forme déchiffrable par ordinateur, est requise par l’administration chargée de la recherche internationale en vertu de l’instruction 802.b-*quater*), le déposant peut fournir, conjointement avec la demande internationale, les tableaux en question sous forme déchiffrable par ordinateur (ainsi que la déclaration requise) à l’office récepteur. Si tel est le cas, les cases n° 10, 10.i) et, le cas échéant, 10.iii) doivent être cochées. Lorsque le déposant a choisi l’option b) ou l’option c) mentionnée ci-dessus, et qu’un ou plusieurs exemplaires supplémentaires des tableaux sous forme déchiffrable par ordinateur sont requis en vertu de l’instruction 804, le déposant peut remettre de tels exemplaires supplémentaires, conjointement avec la demande internationale, auquel cas les cases n° 10, 10.ii) et, le cas échéant, 10.iii) doivent être cochées. Dans tous les cas

mentionnés ci-dessus, le déposant doit indiquer à la fin de chaque rubrique applicable le type et le nombre de disquettes, CD-ROM, CD-R ou autres supports de données qu’il a remis.

Langue de dépôt de la demande internationale (règles 12.1.a) et 20.4.c) et d)) : en ce qui concerne la langue dans laquelle la demande internationale est déposée, il suffit, aux fins de l’attribution d’une date de dépôt international, et sous réserve de la phrase suivante, que la description et les revendications soient rédigées dans la langue ou l’une des langues acceptées par l’office récepteur pour le dépôt de demandes internationales; cette langue doit être indiquée dans cette case (en ce qui concerne la langue de l’abrégé et de tout texte des dessins, voir la règle 26.3ter.a) et b); en ce qui concerne la langue de la requête, voir les règles 12.1.c) et 26.3ter.c) et d)). On notera que, lorsque la demande internationale est déposée auprès de l’Office des brevets et des marques des États-Unis d’Amérique en sa qualité d’office récepteur, tous les éléments de la demande internationale (requête, description, revendications, abrégé, texte des dessins) doivent, aux fins de l’attribution d’une date de dépôt international, être rédigés en anglais, hormis tout texte libre contenu dans la partie de la description réservée au listage des séquences conforme à la norme figurant dans l’annexe C des instructions administratives, qui peut être rédigé dans une langue autre que l’anglais.

CADRE N° X

Signature (règles 4.1.d), 4.15 et 90) : la signature doit être celle du déposant (s’il y a plusieurs déposants, tous doivent signer); il peut toutefois s’agir de la signature du mandataire ou du représentant commun, si un pouvoir distinct désignant le mandataire ou le représentant commun, respectivement, ou une copie du pouvoir général déjà détenu par l’office récepteur est fourni. Si la requête n’est pas déposée avec le pouvoir, l’office récepteur invitera le déposant à le remettre.

Si les États-Unis d’Amérique sont désignés et qu’un déposant pour cet État qui a la qualité d’inventeur a refusé de signer la requête ou que des efforts diligents n’ont pas permis de le trouver ou d’entrer en rapport avec lui, il est possible de fournir une explication de l’absence de signature. Cela vaut uniquement lorsqu’il y a plusieurs déposants et que la demande internationale a été signée par au moins un autre déposant. L’explication doit être jugée satisfaisante par l’office récepteur. Si cette explication est remise conjointement avec la demande internationale, il y a lieu de cocher la case n° 5 du cadre n° IX.

CADRE SUPPLÉMENTAIRE

Les cas dans lesquels le cadre supplémentaire peut être utilisé et la manière de fournir les indications prévues dans ce cadre sont expliqués dans la colonne de gauche de celui-ci.

Toute lettre du déposant au Bureau international doit être rédigée dans la même langue que la demande internationale si celle-ci est établie en français ou en anglais; sinon, elle doit être rédigée en français ou en anglais, au choix du déposant.

NOTES TO THE FEE CALCULATION SHEET (ANNEX TO FORM PCT/RO/101)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete the sheet by entering the appropriate amounts in the boxes provided and submit the fee calculation sheet at the time of filing the international application. This will help the receiving Office to verify the calculations and to identify any error in them.

Information about the applicable fees payable can be obtained from the receiving Office. The amounts of the international and search fees may change due to currency fluctuations. Applicants are advised to check what are the latest applicable amounts. All fees, except in some cases the designation fee, must be paid within one month from the date of receipt of the international application. See below for further details concerning the possibility of later payment of the designation fee.

CALCULATION OF PRESCRIBED FEES

Box T: Transmittal Fee for the benefit of the receiving Office (Rule 14.1): The amount of the transmittal fee, if any, is fixed by the receiving Office. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box S: Search Fee for the benefit of the International Searching Authority (ISA) (Rule 16.1): The amount of the search fee is fixed by the ISA. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex D.

Where two or more ISAs are competent, the applicant must indicate his choice in the space provided for this purpose and pay the amount of the international search fee fixed by the ISA chosen. Information on the competent ISA and whether the applicant has a choice between two or more ISAs is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box I: International Fee for the benefit of the International Bureau (Rule 15): The international fee consists of a basic fee and as many designation fees as there are specific designations under Rule 4.9(a) in Box No. V of the request. The amounts of the basic fee and of the designation fee are as set out in Swiss francs in the Schedule of Fees and the applicable amounts of those fees in other currencies are as published in the *PCT Gazette* (Rule 15.2). Information about those fees is also contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Reduction of the International Fee Where PCT-EASY Software Is Used: A fee reduction of 200 Swiss francs (or the equivalent in the currency in which the international fee is paid to the receiving Office) is available in certain cases where the PCT-EASY software is used to prepare the request, provided that the necessary conditions are met. For further details, see the *PCT Applicant's Guide*, Volume I/A, General Part, and Volume I/B, Annex C, as well as information published in the *PCT Gazette* and the *PCT Newsletter*. Since applicants using the PCT-EASY software will file the Request Form and Fee Calculation Sheet in the form of a printout prepared using that software, no provision is made for this fee reduction in the Fee Calculation Sheet annexed to Form PCT/RO/101.

Reduction of the International Fee Where the International Application Is Filed in Electronic Form: A fee reduction of 200 Swiss francs (or the equivalent in the currency in which the international fee is paid to the receiving Office) is available in certain cases where the international application is filed in electronic form, in accordance with and to the extent provided for in Part 7 and Annex F of the Administrative Instructions. For further details, see the *PCT Applicant's Guide*, Volume I/A, General Part, and Volume I/B, Annex C, as well as information published in the *PCT Gazette* and the *PCT Newsletter*. Since international applications filed in electronic form will contain the Request Form and Fee Calculation Sheet in such electronic form, no provision is

made for this fee reduction in the Fee Calculation Sheet annexed to Form PCT/RO/101.

Reduction of the International Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the international fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the international fee (basic fee and designation fees) is automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Boxes Nos. II and III of the request.

The fee reduction is available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

NOTES RELATIVES A LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/RO/101)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre au moment du dépôt de la demande internationale, ce qui permettra à l'office récepteur de vérifier les calculs et d'y déceler d'éventuelles erreurs.

Des renseignements sur le montant en vigueur des taxes à payer peuvent être obtenus auprès de l'office récepteur. Les montants de la taxe internationale et de la taxe de recherche peuvent varier en raison de fluctuations monétaires. Il est recommandé aux déposants de vérifier quels sont les tout derniers montants en vigueur. Toutes les taxes sauf, dans certains cas, la taxe de désignation doivent être payées dans un délai d'un mois à compter de la date de réception de la demande internationale. On trouvera ci-après quelques précisions supplémentaires relatives à un éventuel paiement différé de la taxe de désignation.

CALCUL DES TAXES PRESCRITES

Cadre T : Taxe de transmission au profit de l'office récepteur (règle 14.1) : l'office récepteur fixe le montant de la taxe de transmission, s'il y en a une. Celui-ci doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT*, volume I/B, annexe C.

Cadre S : Taxe de recherche au profit de l'administration chargée de la recherche internationale (règle 16.1) : le montant de la taxe de recherche est fixé par l'administration chargée de la recherche internationale. Il doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT*, volume I/B, annexe D.

Lorsque plusieurs administrations chargées de la recherche internationale sont compétentes, le déposant doit indiquer son choix à l'emplacement prévu à cet effet et payer le montant de la taxe de recherche internationale fixé par l'administration qu'il a choisie. Le *Guide du déposant du PCT*, volume I/B, annexe C, donne des renseignements sur l'administration chargée de la recherche internationale qui est compétente et sur la question de savoir si le déposant a le choix entre plusieurs administrations chargées de la recherche internationale.

Cadre I : Taxe internationale au profit du Bureau international (règle 15) : la taxe internationale comprend une taxe de base et autant de taxes de désignation qu'il y a de désignations faites expressément selon la règle 4.9.a) dans le cadre n° V de la requête. Les montants de la taxe de base et de la taxe de désignation sont fixés en francs suisses dans le barème des taxes et les montants correspondants de ces taxes dans d'autres monnaies sont publiés dans la *Gazette du PCT* (règle 15.2). On peut trouver des renseignements sur ces taxes dans le *Guide du déposant du PCT*, volume I/B, annexe C.

Réduction de la taxe internationale dans le cas de l'utilisation du logiciel PCT-EASY : une réduction de 200 francs suisses (ou l'équivalent dans la monnaie dans laquelle la taxe internationale est payée à l'office récepteur) peut être obtenue dans certains cas où le logiciel PCT-EASY est utilisé pour la préparation de la requête, à condition que les conditions nécessaires soient remplies. On peut trouver des précisions sur cette réduction dans le *Guide du déposant du PCT*, volume I/A, partie générale, et volume I/B, annexe C, ainsi que dans les informations publiées dans la *Gazette du PCT* et le bulletin *PCT Newsletter*. Étant donné que les déposants qui utilisent le logiciel PCT-EASY déposeront le formulaire de requête et la feuille de calcul des taxes sous la forme d'un imprimé produit par ordinateur à l'aide de ce logiciel, la feuille de calcul des taxes annexée au formulaire PCT/RO/101 ne prévoit pas cette réduction de taxe.

Réduction de la taxe internationale dans le cas où la demande internationale est déposée sous forme électronique : une réduction de 200 francs suisses (ou l'équivalent dans la monnaie dans laquelle la taxe internationale est payée à l'office récepteur) peut être obtenue dans certains cas où la demande internationale est, conformément à la septième partie et à l'annexe F des instructions administratives et dans la mesure prévue par celles-ci, déposée sous forme électronique. On peut trouver des précisions sur cette réduction dans le *Guide du déposant du PCT*, volume I/A, partie générale, et volume I/B, annexe C, ainsi que dans les informations publiées dans la *Gazette du PCT* et dans le bulletin *PCT Newsletter*. Étant donné que les demandes internationales déposées sous forme électronique contiendront le formulaire de requête et la feuille de calcul des taxes sous forme électronique, la feuille de calcul des taxes annexée au formulaire PCT/RO/101 ne prévoit pas cette réduction de taxe.

Réduction de la taxe internationale pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75 % de certaines taxes du PCT, dont la taxe internationale. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe internationale (taxe de base et taxe de désignation) s'applique automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans les cadres n°s II et III de la requête.

La réduction de la taxe s'applique même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus, BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CO Colombie, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EC Équateur, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GQ Guinée équatoriale, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie,

Box B: Basic Fee. The amount of the basic fee depends on the number of sheets of the international application indicated under item (a) of Box No. IX of the request as explained below.

That number is the **Total number of sheets** where items (b) and (c) of Box No. IX of the request do not apply (that is, where the international application either does not contain sequence listings and/or tables related thereto or where it contains such listings and/or tables but not filed in computer readable form under Section 801(a)(i) or (ii)); in such a case, item "b3" must not be filled in.

Otherwise, where items (b) and/or (c) of Box No. IX of the request apply (that is, where the international application contains sequence listings and/or tables related thereto which are filed in computer readable form only, under Section 801(a)(i), or both in that form and in paper form under Section 801(a)(ii)), the number of sheets to be used for the purpose of calculating the amount of the basic fee is the **Sub-total number of sheets**. In such a case, item "b3" must be filled in on the basis that the sequence listings and/or tables related thereto in computer readable form are considered to be equal to 400 sheets (see Section 803).

The basic fee must be paid within one month from the date of receipt of the international application by the receiving Office.

Box D: Designation Fees. Subject to what is said below, the number of designation fees due corresponds to the number of check-boxes marked in Box No. V of the request.

The number of designation fees which are due is the same as the number of national patents and regional patents in respect of which specific designations under Rule 4.9(a) are made. Only one designation fee is due for the designation AP, the designation EA, the designation EP or the designation OA, irrespective of the number of States for which an ARIPO patent, a Eurasian patent, a European patent or an OAPI patent, respectively, is sought.

Where any States are designated twice (once for the purposes of an ARIPO patent, a Eurasian patent or a European patent and once for the purposes of national protection), the applicant must pay one designation fee in respect of the ARIPO patent, the Eurasian patent or the European patent and a further designation fee in respect of each national patent or other kind of protection sought (Rule 15.1(ii) and Section 210).

Any designation, in excess of five designations for which the fee is due, is free of charge. Therefore, the

maximum amount to be indicated in box D is five times the amount of the designation fee. If, for example, 15 national patents and four regional patents (an ARIPO patent, a Eurasian patent, a European patent and an OAPI patent) are sought (totalling 19 designations), the figure to be indicated in box D is five times the amount of the designation fee.

The designation fees must be paid within one month from the date of receipt of the international application by the receiving Office or one year from the priority date, whichever time limit expires later.

Box P: Fee for Priority Document (Rule 17.1(b)): Where the applicant has requested, by marking the applicable check-box in Box No. VI of the request, that the receiving Office prepare and transmit to the International Bureau a certified copy of the earlier application the priority of which is claimed, the amount of the fee prescribed by the receiving Office for such service may be entered (for information, see the *PCT Applicant's Guide*, Volume I/B, Annex C).

If that fee is not paid at the latest before the expiration of 16 months from the priority date, the receiving Office may consider the request under Rule 17.1(b) as not having been made.

Total Box: The total of the amounts entered in boxes T, S, I and P should be entered in this box. If the applicant so wishes, the currency in which the fees are paid may be indicated next to or in the total box.

Later Payment of Designation Fees: Where the time limit of one year from the priority date expires later than one month from the date of receipt of the international application by the receiving Office, and the applicant wishes to delay the payment of the designation fees, it is recommended that the corresponding check-box be marked.

MODE OF PAYMENT

In order to help the receiving Office identify the mode of payment of the prescribed fees, it is recommended that the applicable check-box(es) be marked.

AUTHORIZATION TO CHARGE (OR CREDIT) DEPOSIT ACCOUNT

The receiving Office will not charge (or credit) fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, PH Philippines, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TN Tunisie, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VC Saint-Vincent-et-les-Grenadines, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud, ZM Zambie et ZW Zimbabwe. En ce qui concerne d'autres États, il convient de s'adresser au Bureau international.

Calcul de la taxe internationale (taxe de base et taxes de désignation) en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe internationale, la somme devant figurer sous I est égale à 25 % de la somme des montants figurant sous B et D (voir ci-dessous).

Cadre B : Taxe de base. Le montant de la taxe de base est fonction du nombre de feuilles de la demande internationale indiqué au point a) du cadre n° IX de la requête comme expliqué ci-dessous.

Ce nombre est le **nombre total de feuilles** lorsque les points b) et c) du cadre n° IX de la requête ne s'appliquent pas (c'est-à-dire, si la demande internationale ne contient pas de listages des séquences ou de tableaux y relatifs ou qu'elle en contient mais que ces derniers ne sont pas déposés sous forme déchiffrable par ordinateur en vertu de l'instruction 801.a)i) ou ii)); dans ce cas, le point "b3" ne doit pas être rempli.

Si, en revanche, les points b) ou c) du cadre n° IX de la requête s'appliquent (c'est-à-dire, si la demande internationale contient des listages des séquences ou des tableaux y relatifs qui sont déposés sous forme déchiffrable par ordinateur seulement, en vertu de l'instruction 801.a)i), ou à la fois sous cette forme et sous forme papier en vertu de l'instruction 801.a)ii)), le nombre de feuilles à utiliser pour le calcul du montant de la taxe de base est le **sous-total des feuilles**. Dans un tel cas, le point "b3" doit être rempli étant entendu que les listages des séquences ou les tableaux y relatifs sous forme déchiffrable par ordinateur sont considérés comporter 400 pages (voir l'instruction 803).

La taxe de base doit être payée dans un délai d'un mois à compter de la date de réception de la demande internationale par l'office récepteur.

Cadre D : Taxes de désignation. Sous réserve de ce qui suit, le nombre de taxes de désignation dues correspond au nombre de cases cochées dans le cadre n° V de la requête.

Sont dues autant de taxes de désignation qu'il y a de brevets nationaux et de brevets régionaux pour lesquels une désignation expresse a été faite en vertu de la règle 4.9.a). Une seule taxe de désignation est due pour la désignation AP, la désignation EA, la désignation EP ou la désignation OA, quel que soit le nombre d'États pour lesquels un brevet ARIPO, un brevet eurasiatique, un brevet européen ou un brevet OAPI, respectivement, est demandé.

Si un ou plusieurs États sont désignés deux fois (une fois aux fins d'un brevet ARIPO, d'un brevet eurasiatique ou d'un brevet européen et une fois aux fins d'une protection nationale), le déposant doit payer une taxe de désignation pour le brevet ARIPO, le brevet eurasiatique ou le brevet européen et une autre taxe de désignation pour chaque brevet ou autre forme de protection nationale demandé (règle 15.1.ii) et instruction 210).

Toute désignation faite au-delà de cinq désignations soumises à la taxe est gratuite. Le montant maximum à indiquer dans le cadre D est donc de cinq fois le montant de la taxe de désignation. Si, par exemple, 15 brevets nationaux et quatre brevets régionaux (un brevet ARIPO, un brevet eurasiatique, un brevet européen et un brevet OAPI) sont demandés (soit un total de 19 désignations), la somme à indiquer dans le cadre D est de cinq fois le montant de la taxe de désignation.

Les taxes de désignation doivent être payées dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale ou d'un an à compter de la date de priorité, le délai applicable étant celui des deux qui arrive à expiration le plus tard.

Cadre P : Taxe afférente au document de priorité (règle 17.1.b)) : si, en cochant la case appropriée dans le cadre n° VI de la requête, le déposant a demandé que l'office récepteur prépare et transmette au Bureau international une copie certifiée conforme de la demande antérieure dont la priorité est revendiquée, il peut indiquer le montant de la taxe prescrite par l'office récepteur pour ce service (pour plus de renseignements, voir le *Guide du déposant du PCT*, volume I/B, annexe C).

Si cette taxe n'est pas payée au plus tard avant l'expiration d'un délai de 16 mois à compter de la date de priorité, l'office récepteur peut considérer la requête selon la règle 17.1.b) comme n'ayant pas été présentée.

Total : le total des montants inscrits dans les cadres T, S, I et P doit être porté dans ce cadre. Le déposant peut, s'il le souhaite, indiquer à proximité ou à l'intérieur du cadre "Total" la monnaie dans laquelle il paie les taxes.

Paiement différé des taxes de désignation : si le délai d'un an à compter de la date de priorité arrive à expiration plus d'un mois après la date à laquelle l'office récepteur reçoit la demande internationale, et que le déposant souhaite différer le paiement des taxes de désignation, il est recommandé de cocher la case appropriée.

MODE DE PAIEMENT

Pour aider l'office récepteur à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

L'office récepteur ne débitera (ou ne créditera) un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.

NOTES TO THE DEMAND FORM (PCT/IPEA/401)

These Notes are intended to facilitate the filling in of the demand form and to give some information concerning international preliminary examination under Chapter II of the Patent Cooperation Treaty (PCT). For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the PCT, the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the demand form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with dark ink (Rules 11.9(a) and (b) and 11.14).

The demand form and these Notes may be downloaded from WIPO's Website at the address given above.

IMPORTANT GENERAL INFORMATION

Who May File a Demand? (Article 31(2)(a) and Rule 54): A demand (for international preliminary examination) may only be filed by an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II of the PCT; furthermore, the international application must have been filed with a receiving Office of, or acting for, a State bound by Chapter II. Where there are two or more applicants (for the same or different elected States) at least one of them must qualify.

Where Must the Demand Be Filed? (Article 31(6)(a)): The demand must be filed with a competent International Preliminary Examining Authority (IPEA). The receiving Office with which the international application was filed will, upon request, give information about the competent IPEA (or see the *PCT Applicant's Guide*, Volume I/B, Annex C). If several IPEAs are competent, the applicant has the choice and the demand must be filed with (and the fees must be paid to) the IPEA chosen by the applicant. The IPEA chosen by the applicant may be identified, preferably by an indication of the name or two-letter code of the IPEA, at the top of the first sheet of the demand in the space provided for that purpose.

When Must the Demand Be Filed? (Article 39(1)): The demand must be filed within 19 months from the priority date, but **only in respect of some designated Offices**, if the applicant wishes to postpone the entry into the national phase until 30 months from the priority date (in some Offices even later); otherwise, the applicant must, within 20 months from the priority date, perform the prescribed acts for entry into the national phase before those designated Offices. **In respect of other designated Offices, the time limit of 30 months (in some Offices even later) will apply** even if no demand is filed within 19 months. See the Annex to Form PCT/IB/301 and, for details about the applicable time limits, Office by Office, see the *PCT Applicant's Guide*, Volume II, National Chapters.

In Which Language Must the Demand Be Filed? (Rule 55.1): The demand must be filed in the language in which international preliminary examination will be carried out (see Notes to Box No. IV).

What is the Language of Correspondence? (Rules 66.9 and 92.2 and Section 104): Any letter from the applicant to the IPEA must be in the same language as the international application to which it relates. However, where the international preliminary examination will be carried out on the basis of a translation (see Notes to Box No. IV), any letter from the applicant to the IPEA must be in the language of the translation. The IPEA may authorize the use of other languages for letters which do not contain or relate to amendments of the international application. Any letter from the applicant to the International Bureau must be in English or French, at the choice of the applicant. However, if the language of the international

application is English, the letter must be in English; if the language of the international application is French, the letter must be in French.

Which Fees Must Be Paid and When? (Rules 57 and 58): Two fees are due in respect of the international preliminary examination: the preliminary examination fee and the handling fee. Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The Fee Calculation Sheet should be used for that purpose. For details concerning the payment of the fees, see the Notes to that Sheet.

BOX No. I

Applicant's or Agent's File Reference: A file reference may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded (Section 109).

Identification of the International Application (Rule 53.6): The international application number must be indicated in Box No. I. Where the demand is filed at a time when the international application number has not yet been notified by the receiving Office, the name of that Office must be indicated instead of the international application number.

International Filing Date and (Earliest) Priority Date (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for each of the number of the day, the number of the month and the last two digits of the year, in that order, and separated by periods, slants or hyphens, for example, "20 March 2001 (20.03.01)", "20 March 2001 (20/03/01)" or "20 March 2001 (20-03-01)". Where the international application claims the priority of several earlier applications, the filing date of the earliest application whose priority is claimed must be indicated as the priority date.

Title of the Invention: If a new title has been established by the International Searching Authority, that title must be indicated in Box No. I.

BOX No. II

Applicant(s) (Rule 53.4): All the applicants for the elected States must be indicated in the demand; an applicant named in the request (Form PCT/RO/101) for a State which is not elected need not be named in the demand. It should be noted that the persons named as "inventor only" in the request need not be named in the demand.

Make in Box No. II of the demand the required indications as appearing in Boxes Nos. II and III of the request. The Notes

Ces notes sont destinées à faciliter l'utilisation du formulaire de demande d'examen préliminaire international et à donner certains renseignements concernant l'examen préliminaire international prévu au chapitre II du Traité de coopération en matière de brevets (PCT). On peut aussi trouver de plus amples renseignements dans le *Guide du déposant du PCT*, publié par l'OMPI, qui est disponible, de même que d'autres documents relatifs au PCT, sur le site Internet de l'OMPI à l'adresse suivante : www.OMPI.int/pct/fr/index.html. Prière de remplir le formulaire à la machine à écrire. Les cases appropriées peuvent être cochées à la main, à l'encre foncée (règles 11.9.a) et b) et 11.14).

RENSEIGNEMENTS IMPORTANTS D'ORDRE GÉNÉRAL

Qui peut présenter une demande d'examen préliminaire international ? (article 31.2a) et règle 54) : une demande d'examen préliminaire international ne peut être présentée que par un déposant qui est ressortissant d'un État contractant lié par le chapitre II du PCT ou qui a son domicile dans un tel État; en outre, la demande internationale doit avoir été déposée auprès de l'office récepteur d'un État lié par le chapitre II, ou agissant pour un tel État. S'il y a plusieurs déposants (pour les mêmes États élus ou pour des États élus différents), au moins l'un d'entre eux doit remplir les conditions requises.

Où la demande d'examen préliminaire international doit-elle être présentée ? (article 31.6a)) : la demande d'examen préliminaire international doit être présentée à une administration chargée de l'examen préliminaire international (IPEA) compétente. L'office récepteur auprès duquel la demande internationale a été déposée donnera, sur demande, des renseignements au sujet de l'administration chargée de l'examen préliminaire international qui est compétente (voir aussi le *Guide du déposant du PCT*, volume I/B, annexe C). Si plusieurs administrations chargées de l'examen préliminaire international sont compétentes, le déposant doit présenter la demande d'examen préliminaire international à l'administration de son choix (et lui payer les taxes). Cette administration peut être indiquée, de préférence au moyen de son nom ou de son code à deux lettres, en haut de la première feuille de la demande d'examen préliminaire international, dans l'espace prévu à cet effet.

Quand la demande d'examen préliminaire international doit-elle être présentée ? (article 39.1)) : la demande d'examen préliminaire international doit être présentée avant l'expiration d'un délai de 19 mois à compter de la date de priorité, **mais seulement en ce qui concerne certains offices désignés**, si le déposant souhaite le report de la phase nationale jusqu'à 30 mois à compter de la date de priorité (ou plus dans certains offices); sinon, le déposant doit, dans le délai de 20 mois à compter de la date de priorité, accomplir les actes requis pour l'ouverture de la phase nationale auprès de ces offices. **En ce qui concerne d'autres offices désignés, le délai de 30 mois (dans certains offices, même plus tard) s'appliquera** même si aucune demande d'examen préliminaire international n'est présentée dans les 19 mois. Voir l'annexe du formulaire PCT/IB/301 et les chapitres nationaux du volume II du *Guide du déposant du PCT*.

En quelle langue la demande d'examen préliminaire international doit-elle être présentée ? (règle 55.1) : la

demande d'examen doit être présentée dans la langue dans laquelle l'examen préliminaire international sera effectué (voir les notes relatives au cadre n° IV).

Quelle est la langue à utiliser dans la correspondance ? (règles 66.9 et 92.2 et instruction 104) : toute lettre adressée par le déposant à l'administration chargée de l'examen préliminaire international doit être rédigée dans la même langue que la demande internationale qu'elle concerne. Cependant, lorsque l'examen préliminaire international doit être effectué sur la base d'une traduction (voir les notes relatives au cadre n° IV), toute lettre adressée par le déposant à l'administration chargée de cet examen doit être rédigée dans la langue de la traduction. L'administration chargée de l'examen peut autoriser l'utilisation d'autres langues pour des lettres qui ne contiennent pas de modifications de la demande internationale ou qui ne se rapportent pas à des modifications. Toute lettre adressée par le déposant au Bureau international doit être rédigée en anglais ou en français, au choix du déposant. Toutefois, si la langue de la demande internationale est l'anglais, la lettre doit être rédigée en anglais; si la langue de la demande internationale est le français, la lettre doit être rédigée en français.

Quelles taxes doivent être payées et quand ? (règles 57 et 58) : l'examen préliminaire international donne lieu au paiement de deux taxes : la taxe d'examen préliminaire et la taxe de traitement. Ces deux taxes doivent être acquittées auprès de l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date de présentation de la demande d'examen. La feuille de calcul des taxes devrait être utilisée à cette fin. Pour de plus amples renseignements concernant le paiement des taxes, voir les notes relatives à cette feuille.

CADRE N° I

Référence du dossier du déposant ou du mandataire : il est possible d'indiquer, à titre facultatif, une telle référence de dossier. Celle-ci ne devrait pas dépasser 12 caractères. L'administration chargée de l'examen préliminaire international peut ne pas tenir compte des caractères en sus du douzième (instruction 109).

Identification de la demande internationale (règle 53.6) : le numéro de la demande internationale doit être indiqué dans le cadre n° I. Si la demande d'examen préliminaire international est présentée alors même que le numéro de la demande

to the request apply *mutatis mutandis*. If there are two or more applicants for the States elected in the demand, give the required indications for each of them; if there are more than three applicants, make the required indications on the "Continuation Sheet".

If different applicants are indicated in the request for different designated States, indicate in Box No. II of the demand only the applicants for the States elected in Box No. V (no indication of the States for which a person is applicant need be made, because those indications have been made in the request).

Applicant's registration number with the Office (Rule 53.4): Where the applicant is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the applicant is so registered.

BOX No. III

Agent or Common Representative (Rules 53.5, 90.1 and 90.2): Mark the applicable check-boxes to indicate *first* whether the person named in this Box is agent or common representative, *then* whether that person *has been appointed earlier* (i.e., during the procedure under Chapter I), or *is appointed in the demand* and any earlier appointment of another person is revoked, or *is appointed specifically for the procedure before the IPEA* (without revocation of any earlier appointment), in addition to the person(s) appointed earlier.

Where an additional person is appointed specifically for the procedure before the IPEA, all notifications issued by the IPEA will be addressed only to that additional person.

A separate power of attorney must be filed with the IPEA, the International Bureau or the receiving Office, if the person appointed at the time the demand is filed (i.e., was not appointed earlier) signs the demand on behalf of the applicant (Rule 90.4).

Agent's registration number with the Office (Rule 53.5): Where the agent is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. III will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address may be indicated in Box No. III instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. III must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" in Box No. III has been marked).

BOX No. IV

Statement Concerning Amendments (Rules 53.2(a)(v), 53.9, 62, 66.1 and 69.1): The international preliminary examination will start on the basis of the international application as filed or, if amendments have been filed, as amended. Mark the appropriate check-box(es) to enable the IPEA to determine when and on what basis it can start international preliminary examination.

Mark the corresponding check-box(es) under No. 1 where the international preliminary examination should start on the basis of the international application as originally filed or where amendments are to be taken into account, as the case may be. Where amendments are to be taken into account, the applicant must submit *with the demand* a copy of amendments to the claims under Article 19 (Rule 53.9(a)(i)) and/or the amendments of the international application under Article 34 (Rule 53.9(c)), as the case may be. If a check-box is marked but the demand is not accompanied by the documents referred to, the start of international preliminary examination will be delayed until the IPEA receives them.

Mark check-box No. 2 if amendments of the claims under Article 19 have been filed with the International Bureau during the Chapter I procedure, but the applicant does not want these amendments to be taken into account for the purpose of international preliminary examination when the latter starts (Rule 53.9(a)(ii)).

Mark check-box No. 3 where the time limit for filing amendments of the claims under Article 19 has not expired at the time the demand is filed and the applicant wants to keep the option for the filing of such amendments open; the IPEA is thus requested to postpone the start of international preliminary examination (Rules 53.9(b) and 69.1(d)). It should be noted that the examination will start in any event after the expiration of 20 months from the priority date even where the time limit for filing amendments has not yet expired or no amendments have been received by the IPEA.

If no check-box is marked, refer to the footnote at the bottom of the Box.

Language for the Purposes of International Preliminary Examination (Rule 55.2): Where neither the language in which the international application is filed nor the language in which the international application is published is accepted by the IPEA that is to carry out the international preliminary examination, the applicant must furnish with the demand a translation of the international application into a language which is both a language accepted by that Authority and a language of publication.

Where such translation has already been furnished to the International Searching Authority for the purposes of carrying out international search and the IPEA is part of the same Office or intergovernmental organization as the International Searching Authority, the applicant need not furnish another translation. In such a case the international preliminary examination is carried out on the basis of the translation furnished for the purposes of international search.

The language for the purposes of international preliminary examination should be indicated in Box No. IV, on the dotted line, and the corresponding check-box should be marked.

internationale n'a pas encore été notifié par l'office récepteur, le nom de cet office doit être indiqué en lieu et place du numéro de la demande internationale.

Date du dépôt international et date de priorité (la plus ancienne) (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples "20 mars 2001 (20.03.01)", "20 mars 2001 (20/03/01)" ou "20 mars 2001 (20-03-01)". Lorsque la demande internationale revendique la priorité de plusieurs demandes antérieures, la date de dépôt de la plus ancienne demande dont la priorité est revendiquée doit être indiquée en tant que date de priorité.

Titre de l'invention : si l'administration chargée de la recherche internationale a établi un nouveau titre, celui-ci doit être indiqué dans le cadre n° I.

CADRE N° II

Déposant(s) (règle 53.4) : tous les déposants qui ont cette qualité pour les États élus doivent être mentionnés dans la demande d'examen préliminaire international; un déposant mentionné dans la requête (formulaire PCT/RO/101) pour un État qui n'est pas élu n'a pas à être mentionné dans la demande d'examen préliminaire international. Il est à noter que les personnes mentionnées dans la requête comme "inventeur seulement" n'ont pas non plus à être mentionnées dans la demande d'examen préliminaire international.

Reprendre dans le cadre n° II de la demande d'examen préliminaire international les indications requises figurant dans les cadres n°s II et III de la requête. Les notes relatives à la requête s'appliquent *mutatis mutandis*. S'il y a pluralité de déposants pour les États élus dans la demande d'examen préliminaire international, fournir les indications requises sur chacun d'eux; si ces déposants sont plus de trois, porter les indications en question sur une "feuille annexe".

Si, dans la requête, des déposants différents sont indiqués pour différents États désignés, n'indiquer dans le cadre n° II de la demande d'examen préliminaire international que les déposants ayant cette qualité pour les États élus dans le cadre n° V (il n'y a pas lieu d'indiquer les États pour lesquels une personne est mentionnée comme déposant, car ces indications ont été fournies dans la requête).

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 53.4) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

CADRE N° III

Mandataire ou représentant commun (règles 53.5, 90.1 et 90.2) : cocher les cases appropriées afin d'indiquer, *premièrement*, si la personne indiquée dans le cadre n° III est mandataire ou représentant commun, *deuxièmement*, si cette personne a été désignée à une date antérieure (c'est-à-dire au cours de la procédure prévue au chapitre I), *est désignée dans la demande d'examen préliminaire internationale* (toute désignation antérieure d'une autre personne étant révoquée) ou *est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire*

internationale (sans qu'il y ait révocation d'une désignation antérieure) en sus de la ou des personnes désignées antérieurement.

Lorsqu'une personne supplémentaire est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international, toute la correspondance émanant de cette administration sera adressée seulement à cette personne supplémentaire.

Un pouvoir distinct doit être déposé auprès de l'administration chargée de l'examen préliminaire international, du Bureau international ou de l'office récepteur si la personne qui est désignée au moment de la présentation de la demande d'examen préliminaire international (et qui n'a donc pas été désignée antérieurement) signe cette demande d'examen au nom du déposant (règle 90.4).

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 53.5) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° III sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, il est possible d'indiquer cette adresse dans le cadre n° III, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas et seulement dans ce cas qu'il y a lieu de cocher la dernière case du cadre n° III (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° IV

Déclaration concernant les modifications (règles 53.2.a)v), 53.9, 62, 66.1 et 69.1) : l'examen préliminaire international commencera sur la base de la demande internationale telle qu'elle a été déposée ou, si des modifications ont été déposées, telle qu'elle a été modifiée. Cocher la ou les cases appropriées pour permettre à l'administration chargée de l'examen préliminaire international de déterminer si elle peut commencer l'examen préliminaire international et sur quelle base.

Cocher la ou les cases appropriées de la rubrique n° 1 pour indiquer si l'examen préliminaire international doit commencer sur la base de la demande internationale telle qu'elle a été déposée ou s'il doit être tenu compte de modifications, selon le cas. S'il y a des modifications à prendre en compte, le déposant doit présenter *avec la demande d'examen* une copie des modifications apportées aux revendications en vertu de l'article 19 (règle 53.9.a)i) ou des modifications apportées à la demande internationale en vertu de l'article 34 (règle 53.9.c)), ou une copie des deux types de

Language of Amendments (Rules 55.3 and 66.9): Amendments and letters relating thereto must be in the same language as that in which the international preliminary examination is carried out, as explained in the preceding paragraphs.

Time Limit for Furnishing Translation of the International Application (Rule 55.2): Any required translation of the international application should be furnished (by the applicant) together with the demand. If it is not so furnished, the IPEA will invite the applicant to furnish it within a time limit which shall not be less than one month from the date of the invitation. That time limit may be extended by the IPEA.

BOX No. V

Election of States (Rule 53.7): Only States which are bound by Chapter II of the PCT *and* which have been designated in the international application (that is, States whose designations have been made under Rule 4.9(a), confirmed under Rule 4.9(c) or considered as having been made under Rule 32.2(a)(i)) can be elected. They are the “eligible States”.

For the convenience and protection of applicants, Box No. V contains a statement to the effect that all eligible States are elected. It is only where the applicant does not wish to elect certain eligible States that the name(s) or two-letter code(s) of those States must be indicated after the words “wishes not to elect:”.

The indication in the demand of the kind of protection or treatment desired for any elected State is not required since it follows the indication made when designating that State in the international application.

BOX No. VI

Check List: It is recommended that this Box be filled in carefully in order for the IPEA to determine as soon as possible whether it is in possession of the documents on the basis of which the applicant wishes international preliminary examination to start.

Where the international application contains disclosure of one or more nucleotide and/or amino acid sequences, and a copy of the sequence listings in computer readable form complying with the standard provided for in the Administrative Instructions is required by the IPEA, the applicant may furnish the listings in computer readable form to the IPEA with the demand. If this is the case, check-box No. 6 must be marked.

Similarly, where such an application contains tables related to the sequence listings, and a copy of the tables in computer readable form complying with the standard provided for in the Administrative Instructions is required by the IPEA, the applicant may furnish the tables in computer readable form to the IPEA with the demand. If this is the case, check-box No. 7 must be marked.

BOX No. VII

Signature (Rules 53.8, 90.3(a) and 90.4(a)): The demand must be signed by the applicant or by his agent; if there are two or more applicants, the common representative may sign the demand. If the demand is not signed by (all) the persons who are applicants for the elected States (a person who is applicant only for a State which is not elected need not sign the demand), a power of attorney signed by that (all those) applicant(s) must be filed with the IPEA, with the International Bureau or with the receiving Office unless the agent has previously been appointed.

modifications, selon le cas. Si une case est cochée et que les documents correspondants ne sont pas joints à la demande d'examen préliminaire international, le commencement de cet examen sera différé jusqu'à ce que l'administration qui en est chargée les reçoive.

Cocher la case n° 2 si des modifications apportées aux revendications en vertu de l'article 19 ont été déposées auprès du Bureau international lors de la procédure prévue au chapitre I, et que le déposant ne veut pas qu'il en soit tenu compte aux fins de l'examen préliminaire international lorsque celui-ci commencera (règle 53.9.a)ii).

Cocher la case n° 3 si le délai fixé pour le dépôt de modifications des revendications en vertu de l'article 19 n'a pas expiré au moment où la demande d'examen préliminaire international est présentée et que le déposant veut conserver la possibilité de déposer de telles modifications; il est ainsi demandé à l'administration chargée de l'examen préliminaire international de différer le commencement de cet examen (règles 53.9.b) et 69.1.d)). Il est à noter que l'examen commencera, en tout état de cause, après l'expiration d'un délai de 20 mois à compter de la date de priorité, même si le délai pour déposer des modifications n'a pas expiré ou que l'administration chargée de l'examen préliminaire international n'a reçu aucune modification.

Si aucune case n'est cochée, la procédure décrite dans la note figurant au bas du cadre sera suivie.

Langue aux fins de l'examen préliminaire international (règle 55.2) : lorsque ni la langue dans laquelle la demande internationale est déposée ni la langue dans laquelle elle est publiée n'est acceptée par l'administration chargée de l'examen préliminaire international qui effectuera cet examen, le déposant doit remettre avec la demande d'examen préliminaire international une traduction de la demande internationale dans une langue qui est à la fois une langue acceptée par cette administration et une langue de publication.

Lorsqu'une traduction répondant à ces critères a déjà été remise à l'administration chargée de la recherche internationale pour les besoins de cette recherche et que l'administration chargée de l'examen préliminaire international fait partie du même office ou de la même organisation intergouvernementale que l'administration chargée de la recherche internationale, il n'est pas nécessaire pour le déposant de remettre une autre traduction. Dans ce cas, l'examen préliminaire international est effectué sur la base de la traduction remise aux fins de la recherche internationale.

La langue dans laquelle sera effectué l'examen préliminaire international doit être indiquée dans le cadre n° IV sur la ligne pointillée, et la case appropriée la concernant doit être cochée.

Langue des modifications (règles 55.3 et 66.9) : les modifications et les lettres qui s'y rapportent doivent être rédigées dans la langue dans laquelle l'examen préliminaire international sera effectué, comme il est expliqué aux paragraphes précédents.

Délai imparti pour remettre une traduction de la demande internationale (règle 55.2) : toute traduction de la demande internationale qui est exigée doit être remise (par le déposant) en même temps que la demande d'examen préliminaire international. Si la traduction n'est pas remise en même temps, l'administration chargée de l'examen préliminaire international invitera le déposant à remettre cette traduction dans un délai qui sera d'au moins un mois à compter de la date de l'invitation. Ce délai peut être prorogé par l'administration chargée de l'examen préliminaire international.

CADRE N° V

Élection d'États (règle 53.7) : seuls peuvent être élus les États qui sont liés par le chapitre II du PCT *et* qui ont été désignés dans la demande internationale (c'est-à-dire qui ont fait l'objet de désignations faites en vertu de la règle 4.9.a), confirmées en vertu de la règle 4.9.c) ou considérées comme ayant été faites, en vertu de la règle 32.2.a)ii)). Ces États sont les "États éligibles".

Pour faciliter la tâche des déposants et les protéger, le cadre n° V contient une déclaration selon laquelle tous les États éligibles sont élus. Ce n'est que si le déposant ne souhaite pas élire certains États éligibles qu'il doit indiquer le nom ou le code à deux lettres de ces États après les mots "souhaite ne pas élire :".

Il n'est pas nécessaire d'indiquer dans la demande d'examen préliminaire international quelle forme de protection ou de traitement est souhaitée pour tel ou tel État élu puisque les indications portées dans la demande internationale lors de la désignation de cet État restent valables.

CADRE N° VI

Bordereau : il est recommandé de remplir soigneusement ce cadre pour que l'administration chargée de l'examen préliminaire international puisse déterminer le plus rapidement possible si elle est en possession de la ou des modifications ou de la ou des lettres sur la base desquelles le déposant souhaite que l'examen préliminaire international commence.

Lorsque la demande internationale contient la divulgation d'une ou plusieurs séquences de nucléotides ou d'acides aminés, et qu'une copie des listages des séquences sous forme déchiffrable par ordinateur, conforme à la norme figurant dans les instructions administratives, est requise par l'administration chargée de l'examen préliminaire international, le déposant peut fournir à cette administration, conjointement avec la demande d'examen préliminaire international, les listages en question sous une forme déchiffrable par ordinateur. S'il le fait, la case n° 6 doit être cochée.

De la même manière, lorsque la demande internationale contient des tableaux relatifs aux listages des séquences et qu'une copie des tableaux sous forme déchiffrable par ordinateur, conforme à la norme figurant dans les instructions administratives, est requise par l'administration chargée de l'examen préliminaire international, le déposant peut fournir à cette administration, conjointement avec la demande d'examen préliminaire international, les tableaux en question sous une forme déchiffrable par ordinateur. S'il le fait, la case n° 7 doit être cochée.

CADRE N° VII

Signature (règles 53.8, 90.3.a) et 90.4.a) : la demande d'examen préliminaire international doit être signée par le déposant ou par son mandataire; s'il y a plusieurs déposants, elle peut l'être par le représentant commun. Si elle n'est pas signée par une ou plusieurs personnes qui ont la qualité de déposant pour les États élus (une personne qui est déposant seulement pour un État non élu n'a pas besoin de signer la demande d'examen préliminaire international), un pouvoir signé par ces personnes doit être déposé auprès du Bureau international, de l'office récepteur ou de l'administration chargée de l'examen préliminaire international, sauf si le mandataire a été désigné à une date antérieure.

NOTES TO THE FEE CALCULATION SHEET (ANNEX TO FORM PCT/IPEA/401)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete, by entering the appropriate amounts in the boxes provided, and submit the fee calculation sheet at the time of filing of the demand. This will help the International Preliminary Examining Authority (IPEA) to verify the calculations and to identify any error in them.

CALCULATION OF PRESCRIBED FEES

Two fees must be paid for international preliminary examination:

- (i) the preliminary examination fee for the benefit of the IPEA (Rule 58.1);
- (ii) the handling fee for the benefit of the International Bureau (Rule 57).

Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The amount payable is the amount applicable on the date of submittal (Rules 57.3 and 58.1(b)). The fees must be paid in a currency acceptable to the IPEA.

Information about the amount of those fees or about equivalent amounts in other currencies can be obtained from the IPEA or the receiving Office. This information is also published in the *PCT Applicant's Guide*, Volume I/B, Annex E, and from time to time in Section IV of the *PCT Gazette*.

Box P: The amount of the preliminary examination fee must be entered in Box P.

Box H: The amount of the handling fee must be entered in Box H.

Reduction of the Handling Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the handling fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the handling fee will be automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Box No. II of the demand.

The fee reduction will be available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic,

CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CO Colombia, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EC Ecuador, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GQ Equatorial Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PH Philippines, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TN Tunisia, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VC Saint Vincent and the Grenadines, VN Viet Nam, YU Yugoslavia, ZA South Africa, ZM Zambia and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the Handling Fee in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the handling fee, the total to be entered at Box H is 25% of the handling fee.

Total Box: The total of the amounts inserted in Boxes P and H is the amount which must be paid to the IPEA.

MODE OF PAYMENT

In order to help the IPEA identify the mode of payment of the prescribed fees, it is recommended to mark the applicable check-box(es).

AUTHORIZATION TO CHARGE (OR CREDIT) DEPOSIT ACCOUNT

The applicant should check whether the IPEA allows the use of deposit accounts for payment of PCT fees. In addition, it is recommended that the applicant check what are the specific conditions applicable to the use of deposit accounts with the IPEA since not all IPEAs provide the same services.

Finally, if the IPEA is not the same national Office or intergovernmental organization as that with which the international application was filed, the deposit account with the receiving Office cannot be charged for the purpose of paying the preliminary examination and handling fees due to the IPEA.

The IPEA will not charge fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

NOTES RELATIVES À LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/IPEA/401)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre à la demande d'examen préliminaire international. Cela aidera l'administration chargée de l'examen préliminaire international (IPEA) à vérifier les calculs et à y déceler d'éventuelles erreurs.

CALCUL DES TAXES PRESCRITES

L'examen préliminaire international donne lieu au paiement de deux taxes :

- i) la taxe d'examen préliminaire, au profit de l'administration chargée de l'examen préliminaire international (règle 58.1);
- ii) la taxe de traitement, au profit du Bureau international (règle 57).

Ces deux taxes doivent être payées à l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date à laquelle la demande d'examen préliminaire international est présentée. Le montant dû est le montant applicable à la date de présentation de cette demande d'examen (règles 57.3 et 58.1.b)). Les taxes doivent être payées dans une monnaie que l'administration chargée de l'examen préliminaire international accepte.

Des renseignements au sujet du montant de ces taxes ou de leur contre-valeur en d'autres monnaies peuvent être obtenus auprès de l'administration chargée de l'examen préliminaire international ou de l'office récepteur. Ces renseignements figurent également dans le *Guide du déposant du PCT*, volume I/B, annexe E, et sont aussi publiés périodiquement dans la section IV de la *Gazette du PCT*.

Cadre P : le montant de la taxe d'examen préliminaire doit être inscrit dans le cadre P.

Cadre H : le montant de la taxe de traitement doit être inscrit dans le cadre H.

Réduction de la taxe de traitement pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissant d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75% de certaines taxes du PCT, dont la taxe de traitement. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe de traitement s'appliquera automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans le cadre n° II de la demande d'examen préliminaire international.

La réduction de la taxe s'appliquera même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus, BZ Belize, CF République centrafricaine, CG Congo, CI Côte

d'Ivoire, CM Cameroun, CN Chine, CO Colombie, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EC Équateur, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GQ Guinée équatoriale, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, PH Philippines, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TN Tunisie, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VC Saint-Vincent-et-les-Grenadines, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud, ZM Zambie et ZW Zimbabwe. En ce qui concerne d'autres États, il conviendra de s'adresser au Bureau international.

Calcul de la taxe de traitement en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe de traitement, le montant devant figurer dans le cadre H est égal à 25% de la taxe de traitement.

Total : le total des montants inscrits dans les cadres P et H représente la somme à verser à l'administration chargée de l'examen préliminaire international.

MODE DE PAIEMENT

Pour aider l'administration chargée de l'examen préliminaire international à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

Le déposant devrait s'assurer que l'administration chargée de l'examen préliminaire international permet l'utilisation de comptes de dépôt pour le paiement des taxes du PCT. En outre, il est recommandé qu'il prenne connaissance des modalités particulières d'utilisation des comptes de dépôt auprès de cette administration étant donné que toutes les administrations chargées de l'examen préliminaire international n'offrent pas les mêmes services.

Enfin, si l'administration chargée de l'examen préliminaire international n'est pas l'office national auprès duquel, ou l'organisation intergouvernementale auprès de laquelle, la demande internationale a été déposée, le déposant ne peut pas utiliser le compte de dépôt auprès de l'office récepteur pour payer les taxes d'examen préliminaire et de traitement dues à l'administration chargée de l'examen préliminaire international.

L'administration chargée de l'examen préliminaire international ne débitera un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.

**MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION—ASSEMBLY
(THIRTY-FIRST (18TH EXTRAORDINARY) SESSION)—SECOND PART****PCT REFORM: NOTE PREPARED BY THE INTERNATIONAL BUREAU**

The Assembly of the International Patent Cooperation Union (PCT Union) held its thirty-first (18th extraordinary) session in Geneva from 23 September to 1 October 2002, in conjunction with the thirty-seventh series of meetings of the Assemblies of the Member States of the World Intellectual Property Organization (WIPO).

This constitutes the second part of this Note, which relates to the matters concerning reform of the PCT that were on the agenda of the session of the Assembly. Other matters on the agenda of the session include the reduction of the international fee for international applications filed in electronic form, which was the subject of the first part of this note—published in PCT Gazette No. 42/2002, page 20998 *et seq.*—and other matters which will be the subject of the third and last part of this Note, to be published in a subsequent issue of the Gazette.

All documents discussed during the session and the final report (document PCT/A/31/10) are available from WIPO free of charge and can also be found on WIPO's Internet site, at the following address:

http://www.wipo.int/eng/document/govbody/wo_pct/index_31.htm

Report of the Committee on Reform of the PCT

The Assembly noted the report of the second session of the Committee on Reform of the PCT, which was held in Geneva from 1 to 5 July 2002, and approved the Committee's recommendation that no change was needed to the PCT Regulations having regard to the language-related filing date requirements of the Patent Law Treaty (PLT), recognizing that the PCT procedure was already, in practice, consistent with those requirements. The Assembly further approved the Committee's recommendations concerning proposed amendments of certain Rules relating to the right of priority and priority claims, and recommendations concerning the work program in connection with reform of the PCT to be undertaken between the September 2002 and September 2003 sessions of the Assembly, including the matters to be considered, the convening of sessions of the Working Group and possibly the Committee, and financial assistance to enable attendance of certain delegations.

Amendments of the Regulations Under the PCT

The Assembly unanimously adopted amendments of the PCT Regulations designed to further streamline and simplify the PCT system, and decisions relating to entry into force and transitional arrangements in respect of those amendments. The amendments which will enter into force on 1 January 2003 are designed to further align certain PCT requirements with those of the PLT (see below). Amendments which will enter into force on 1 January 2004 include the introduction of an enhanced international search and preliminary examination system and of a rationalized system for designating PCT Contracting States in which protection is sought; they also include amendments concerning the availability of priority documents from digital libraries (see below).

RÉFORME DU PCT : NOTE DU BUREAU INTERNATIONAL

L'Assemblée de l'Union internationale de coopération en matière de brevets (Union du PCT) a tenu sa trente et unième session (18^e session extraordinaire) à Genève, du 23 septembre au 1^{er} octobre 2002, dans le cadre de la trente-septième série de réunions des Assemblées des États membres de l'Organisation Mondiale de la Propriété Intellectuelle (OMPI).

Ceci constitue la deuxième partie de la présente note, qui concerne les points relatifs à la réforme du PCT qui étaient à l'ordre du jour de la session de l'assemblée. Les autres points à l'ordre du jour de ladite session incluent la question de la réduction de la taxe internationale pour les demandes internationales déposées sous forme électronique, qui a fait l'objet de la première partie de la présente note—publiée dans la Gazette du PCT n^o 42/2002, page 20999 et suiv.— et d'autres points qui feront l'objet de la troisième et dernière partie de la présente note, qui sera publiée dans un numéro ultérieur de la Gazette.

Tous les documents qui ont fait l'objet de discussions durant la session et le rapport final (document PCT/A/31/10) sont disponibles gratuitement auprès de l'OMPI et peuvent être également consultés sur le site Internet de l'OMPI à l'adresse suivante :

Rapport du Comité sur la réforme du PCT

L'assemblée a pris note du rapport sur la deuxième session du Comité sur la réforme du PCT, qui s'est tenue à Genève du 1^{er} au 5 juillet 2002, et a approuvé la recommandation du comité selon laquelle il n'était pas nécessaire de modifier le règlement d'exécution du PCT afin de tenir compte des prescriptions d'ordre linguistique relatives à la date de dépôt énoncées dans le Traité sur le droit des brevets (PLT), étant entendu que la procédure selon le PCT était déjà, dans la pratique, conforme à ces prescriptions. L'assemblée a aussi approuvé les recommandations du comité relatives aux propositions de modification de certaines règles concernant le droit de priorité et les revendications de priorité ainsi que les recommandations concernant le programme de travail en rapport avec la réforme du PCT à entreprendre entre les sessions de septembre 2002 et de septembre 2003 de l'assemblée, y compris les questions à examiner, la convocation des sessions du groupe de travail et, éventuellement, du comité et l'assistance financière pour permettre la participation de certaines délégations.

Modification du règlement d'exécution du PCT

L'assemblée a adopté à l'unanimité des modifications du règlement d'exécution du PCT visant à poursuivre la rationalisation et la simplification du système du PCT, ainsi que des décisions relatives à l'entrée en vigueur et aux mesures transitoires concernant ces modifications. Les modifications qui entreront en vigueur le 1^{er} janvier 2003 visent à poursuivre l'alignement de certaines exigences du PCT sur celles du PLT (voir ci-après). Les modifications qui entreront en vigueur le 1^{er} janvier 2004 incluent l'introduction d'un système renforcé de recherche internationale et d'examen préliminaire international ainsi que d'un système rationalisé pour la désignation des États contractants du PCT dans lesquels une protection est demandée; elles incluent aussi des modifications concernant l'accès aux documents de priorité auprès de bibliothèques numériques (voir ci-après).

**MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION—ASSEMBLY
(THIRTY-FIRST (18TH EXTRAORDINARY) SESSION)—SECOND PART (Cont'd)****PCT REFORM: NOTE PREPARED BY THE INTERNATIONAL BUREAU (Cont'd)***Amendments which will enter into force on 1 January 2003*

Aligning certain PCT requirements with those of the PLT. The amendments relate to the following three matters:

— the furnishing by the applicant of a translation of the international application into a language of publication where the international application is filed in a language which is accepted by the receiving Office and by the International Searching Authority that is to carry out the international search, but is not a language of publication (see amended or new Rules 12.2, 12.3, 12.4, 22.1, 26.3, 29.1 and 48.3);

— the possibility for a receiving Office to require, for the purposes of processing by it, a translation of the request part of an international application, even though that Office may be prepared to accept, for the purposes of according an international filing date, the filing of an international application in any language (see amended Rule 12.1);

— the reinstatement of rights after failure to comply, within the applicable time limit, with requirements for entering the national phase (see new Rule 49.6).

Entry into force; transitional arrangements. The amendments outlined above, which will enter into force on 1 January 2003, will apply to any international application whose international filing date is on or after 1 January 2003. Subject to certain transitional arrangements, the amendments will not apply to any international application whose international filing date is before 1 January 2003.

The text of the Rules, as amended, is set out on pages 24996 to 25002; the text of the decisions relating to the entry into force and the transitional arrangements in respect of those amendments is set out on page 25058.

Amendments which will enter into force on 1 January 2004

Enhanced international search and preliminary examination system (see amended or new Rules 36, 43bis, 44, 44bis, 44ter, 52, 54bis, 57, 58bis, 59, 61.4, 62, 62bis, 63, 66, 69, 70, 72, 73, 78, 92bis and 94). The “enhanced” international search and preliminary examination system is aimed at further rationalizing the international search and international preliminary examination procedures. The main feature of that enhanced system is that one of the main elements of the present international preliminary examination procedure under Chapter II, namely, the establishment of an examiner’s opinion, will in effect be advanced and incorporated into the international search procedure under Chapter I. The International Searching Authority will be responsible for establishing a preliminary and non-binding written opinion addressing the questions whether the claimed invention appears to be novel, to involve an inventive step and to be industrially applicable. That written opinion, established for the purposes of Chapter I, will be used for international preliminary examination under Chapter II, if the applicant requests such examination, the international search and international preliminary examination procedures being thus combined to a much greater extent than is the case at present.

Concept and operation of the designation system (see amended or new Rules 4, 12, 15, 16, 16bis, 19, 24, 26, 27, 29, 32, 47, 48, 49bis, 51, 51bis, 53, 56, 60, 61, 73, 76, 89bis, 90, 90bis and 93bis). Under the amended designation system, which is aimed at streamlining and rationalizing the way in which designations of PCT Contracting States may be made, all international applications will contain an automatic and all-inclusive coverage of all designations available under the Treaty; express designations of States will no longer be needed. Furthermore, the applicant will no longer be required, at the time of filing, to choose certain kinds of protection or indicate whether national or regional protection is sought in respect of one or more designated States. Such matters will only need to be dealt with in connection with entry into the national phase.

RÉFORME DU PCT : NOTE DU BUREAU INTERNATIONAL (suite)

Modifications qui entreront en vigueur le 1^{er} janvier 2003

Alignement de certaines exigences du PCT sur celles du PLT. Les modifications se rapportent aux trois points suivants :

— la remise par le déposant d'une traduction de la demande internationale dans une langue de publication lorsque la demande internationale est déposée dans une langue qui est acceptée par l'office récepteur et par l'administration chargée de la recherche internationale devant effectuer ladite recherche, mais qui n'est pas une langue de publication (voir les règles – modifiées ou nouvelles – 12.2, 12.3, 12.4, 22.1, 26.3, 29.1 et 48.3);

— la possibilité pour un office récepteur d'exiger, aux fins du traitement qu'il effectue, une traduction de la partie "requête" de la demande internationale, même s'il est prêt à accepter, aux fins de l'attribution d'une date de dépôt international, le dépôt d'une demande internationale dans n'importe quelle langue (voir la règle modifiée 12.1);

— le rétablissement des droits en cas d'inaccomplissement, dans le délai applicable, des actes requis pour l'ouverture de la phase nationale (voir la nouvelle règle 49.6).

Entrée en vigueur; mesures transitoires. Les modifications résumées ci-dessus, qui entreront en vigueur le 1^{er} janvier 2003, s'appliqueront à toute demande internationale dont la date de dépôt international sera le 1^{er} janvier 2003 ou une date postérieure. Sous réserve de certaines mesures transitoires, les modifications ne s'appliqueront à aucune demande internationale dont la date de dépôt international sera antérieure au 1^{er} janvier 2003.

Le texte des règles, telles que modifiées, figure sur les pages 24997 à 25003; le texte des décisions concernant l'entrée en vigueur et les mesures transitoires relatives à ces modifications figure sur la page 25059.

Modifications qui entreront en vigueur le 1^{er} janvier 2004

Système renforcé de recherche internationale et d'examen préliminaire international (voir les règles – modifiées ou nouvelles – 36, 43bis, 44, 44bis, 44ter, 52, 54bis, 57, 58bis, 59, 61.4, 62, 62bis, 63, 66, 69, 70, 72, 73, 78, 92bis et 94). Le système "renforcé" de recherche internationale et d'examen préliminaire international vise à poursuivre la rationalisation des procédures de recherche internationale et d'examen préliminaire international. L'aspect principal de ce système renforcé est que l'un des éléments les plus importants de la procédure actuelle d'examen préliminaire international selon le chapitre II, c'est-à-dire l'établissement d'une opinion par un examinateur, sera en fait avancé et incorporé dans la procédure de recherche internationale selon le chapitre I. L'administration chargée de la recherche internationale aura la responsabilité de l'établissement d'une opinion écrite préliminaire et sans engagement traitant des questions de savoir si l'invention revendiquée semble être nouvelle, impliquer une activité inventive et être susceptible d'application industrielle. Cette opinion écrite, établie aux fins du chapitre I, sera utilisée pour l'examen préliminaire international selon le chapitre II, si le déposant demande ledit examen, les procédures de recherche internationale et d'examen préliminaire international étant ainsi combinées dans une plus grande mesure qu'à l'heure actuelle.

Notion de désignation et fonctionnement du système des désignations (voir les règles – modifiées ou nouvelles – 4, 12, 15, 16, 16bis, 19, 24, 26, 27, 29, 32, 47, 48, 49bis, 51, 51bis, 53, 56, 60, 61, 73, 76, 89bis, 90, 90bis et 93bis). Selon le système des désignations modifié, visant à simplifier et à rationaliser la manière selon laquelle les désignations des États contractants du PCT peuvent être faites, toutes les demandes internationales contiendront une couverture automatique et générale de toutes les désignations disponibles selon le traité; les désignations expresses d'États ne seront plus nécessaires. De plus, le déposant n'aura plus, au moment du dépôt, à choisir certains types de protection ou à indiquer si une protection nationale ou régionale est demandée pour un ou plusieurs États désignés. Ces questions ne devront être réglées que lors de l'ouverture de la phase nationale.

**MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION—ASSEMBLY
(THIRTY-FIRST (18TH EXTRAORDINARY) SESSION)—SECOND PART (Cont'd)****PCT REFORM: NOTE PREPARED BY THE INTERNATIONAL BUREAU (Cont'd)**

In this context, the Assembly also introduced a “flat” international filing fee which will replace the current basic fee and designation fees.

Furthermore, the system of systematic communication to a designated Office of all documents relating to international applications designating that Office will be replaced by a “communication on request” system. Under that system, documents will be communicated to such an Office only upon express request by it and at the time specified by it.

Availability of priority documents from digital libraries (see amended or new Rules 17.1, 66.7 and 93bis.1(b)). The applicant will, instead of submitting priority documents in paper form to the receiving Office or the International Bureau, be able to request, where applicable, that such documents be obtained from a digital library. The details of the system for making documents available via digital libraries will be governed by the Administrative Instructions, the necessary modifications of which will, under Rule 89.2(b), be the subject of consultation with interested Offices and Authorities before such digital libraries are established.

Entry into force; transitional arrangements. The amendments outlined above, which will enter into force on 1 January 2004, will, subject to certain transitional arrangements, apply to any international application whose international filing date is on or after 1 January 2004 and will not apply to any international application whose international filing date is before January 1, 2004.

The text of the Rules, as amended, is set out on pages 25004 to 25056; the text of the decisions relating to the entry into force and the transitional arrangements in respect of those amendments is set out on pages 25058 and 25060.

RÉFORME DU PCT : NOTE DU BUREAU INTERNATIONAL (suite)

Dans ce contexte, l'assemblée a aussi introduit une taxe internationale de dépôt forfaitaire, qui remplacera les taxes de base et de désignation actuelles.

De plus, le système de communication automatique à un office désigné de tous les documents relatifs aux demandes internationales le désignant sera remplacé par un système de "communication sur demande". Selon ce système, les documents seront communiqués à un tel office seulement à sa demande et au moment qu'il aura choisi.

Accès aux documents de priorité auprès de bibliothèques numériques (voir les règles –modifiées ou nouvelles – 17.1, 66.7 et 93bis.1.b)). Le déposant pourra, au lieu de remettre les documents de priorité sous forme papier à l'office récepteur ou au Bureau international, demander, le cas échéant, que ces documents soit obtenus auprès d'une bibliothèque numérique. Les modalités du système qui permettra cet accès seront régies par les instructions administratives dont les modifications feront l'objet, selon la règle 89.2.b), de consultation auprès des offices et administrations intéressés, avant que ces bibliothèques numériques soient mises en place.

Entrée en vigueur; mesures transitoires. Les modifications résumées ci-dessus, qui entreront en vigueur le 1^{er} janvier 2004, s'appliqueront, sous réserve de certaines mesures transitoires, à toute demande internationale dont la date de dépôt international sera le 1^{er} janvier 2004 ou une date postérieure; elles ne s'appliqueront à aucune demande internationale dont la date de dépôt international sera antérieure au 1^{er} janvier 2004.

Le texte des règles, telles que modifiées, figure sur les pages 25005 à 25057; le texte des décisions concernant l'entrée en vigueur et les mesures transitoires relatives à ces modifications figure sur les pages 25059 et 25061.

**ELECTRONIC FILING AND PROCESSING OF INTERNATIONAL APPLICATIONS: CHANGE
PROCEDURE FOR FUTURE MODIFICATIONS OF THE TECHNICAL STANDARD****NOTE PREPARED BY THE INTERNATIONAL BUREAU**

Modifications of the Administrative Instructions designed to enable the implementation of electronic filing and processing of international applications under the PCT were made with effect from 7 January 2002. Those modifications added new Part 7 and new Annex F to the Administrative Instructions containing, respectively, the necessary legal framework and technical standard (see *PCT Gazette* Special Issue No. S-04/2001 dated 27 December 2001).

Annex F is now modified to introduce new section 2.5 setting out a special procedure for the proposal, consideration and implementation of future modifications of the technical requirements for the electronic filing and processing of international applications.

After consultation with the interested Offices and Authorities pursuant to Rule 89.2(b), a new Section 2.5 of Annex F to the Administrative Instructions, as set out on pages 25616, 25618, 25620 and 25622, is promulgated, with effect from 12 December 2002.

The present text of the Administrative Instructions is set out in the following issues of the *PCT Gazette*:

PROCÉDURE APPLICABLE AUX FUTURES MODIFICATIONS DE LA NORME TECHNIQUE****NOTE DU BUREAU INTERNATIONAL**

Des modifications des instructions administratives, visant à permettre la mise en œuvre du dépôt et du traitement électroniques des demandes internationales selon le PCT, ont été apportées avec effet au 7 janvier 2002. Ces modifications consistaient à ajouter aux instructions administratives une septième partie et une annexe F relatives, respectivement, au cadre juridique et à la norme technique nécessaires (voir le numéro spécial S-04/2001, du 27 décembre 2001, de la *Gazette du PCT*).

L'annexe F fait maintenant l'objet d'une modification consistant à ajouter une nouvelle section 2.5 définissant une procédure spéciale en ce qui concerne la proposition, l'examen et la mise en œuvre des futures modifications des exigences techniques relatives au dépôt et au traitement électroniques des demandes internationales.

Modification de l'annexe F des instructions administratives

Après consultation des offices et des administrations intéressés, conformément à la règle 89.2.b) du PCT, une nouvelle section 2.5 de l'annexe F des instructions administratives, telle qu'elle figure sur les pages 25617, 25619, 25621 et 25623, est promulguée, avec effet au 12 décembre 2002.

ELECTRONIC FILING AND PROCESSING OF INTERNATIONAL APPLICATIONS: CHANGE PROCEDURE FOR FUTURE MODIFICATIONS OF THE TECHNICAL STANDARD (Cont'd)**ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT: MODIFICATION OF ANNEX F****Annex F
Standard for the Electronic Filing and Processing of International Applications**

1. [No change]
2. THE E-PCT STANDARD: OVERVIEW AND VISION

2.1 to 2.4 [No change]

2.5 *Change procedure* [New]

2.5.1 *Scope*

It is necessary to modify the standard from time to time in the light of practical experience and of new technical developments, and bearing in mind that the standard will be used for the operation of existing systems and the development of new systems by a variety of developers, including some patent Offices. The change procedure outlined in this section constitutes the usual means by which the Director General undertakes consultation pursuant to PCT Rule 89.2(b) concerning proposals to modify technical requirements contained in Annex F (including its Appendices) and, where appropriate, in Part 7 and other parts of the Administrative Instructions (“proposals for change”), before deciding whether to promulgate such modifications.

Proposed modifications related to the standard but going beyond technical requirements (for example, proposed modifications which would affect the legal principles supporting electronic filing and processing) are not dealt with under the change procedure set out in this section but are the subject of ordinary consultation by the International Bureau as for other proposed modifications of the Administrative Instructions. A proposal being dealt with under the change procedure set out in this section will be withdrawn by the International Bureau from the procedure if it appears in retrospect to go beyond the technical requirements of the standard.

2.5.2 *Web site; information list; Consultative Group*

The International Bureau maintains a Web site for the processing of proposals for change. The Web site provides for interested persons to register their e-mail addresses on the e-filing information list of persons who wish to be informed when proposals for change (or other materials relating to PCT electronic filing) are made available on the site.

The national Office of any State, and any PCT Authority, any intergovernmental organization (including any regional Office) and any non-governmental organization, that is invited to participate in meetings of the PCT Committee for Administrative and Legal Matters may register, via the Web site, to participate in the work of a Consultative Group which considers proposals for change. Participants should preferably register at an early stage in the annual change management cycle outlined in section 2.5.4, below. All persons registered to represent participants in the Consultative Group are also automatically included on the e-filing information list.

National Offices and PCT Authorities which register to participate in the Consultative Group do so as members, and other participants as observers. The International Bureau, as secretariat, coordinates the activities of the Group. Consideration of matters by the Group is informal and takes place via the Web site and e-mail and, where necessary, via other means of telecommunication; meetings of the Group in person are not envisaged.

**DÉPÔT ET TRAITEMENT ÉLECTRONIQUES DES DEMANDES INTERNATIONALES :
PROCÉDURE APPLICABLE AUX FUTURES MODIFICATIONS DE LA NORME TECHNIQUE (suite)****INSTRUCTIONS ADMINISTRATIVES DU PCT : MODIFICATION DE L'ANNEXE F****Annexe F****Norme concernant le dépôt et le traitement électroniques des demandes internationales**

1. [Sans changement]
2. PRINCIPES GÉNÉRAUX DE LA NORME E-PCT

*2.1 à 2.4 [Sans changement]**2.5 Procédure de modification [Nouveau]**2.5.1 Champ d'application*

Il est nécessaire de modifier la norme de temps à autre en fonction de l'expérience pratique et du progrès technique et compte tenu du fait que celle-ci sera utilisée pour le fonctionnement des systèmes actuels et l'élaboration de nouveaux systèmes par un large éventail de concepteurs, dont certains offices de brevets. La procédure de modification définie dans la présente section constitue le moyen habituel par lequel le Directeur général ouvre des consultations en vertu de la règle 89.2.b) en ce qui concerne les propositions de modification des exigences techniques contenues dans l'annexe F (y compris ses appendices) et, le cas échéant, dans la septième partie et d'autres parties des instructions administratives (ci-après dénommées "propositions de modification"), avant de décider de l'opportunité de promulguer ces modifications.

Les propositions de modification relatives à la norme mais qui dépassent le cadre des exigences techniques (par exemple, les propositions de modification relatives aux principes juridiques qui gouvernent le dépôt et le traitement électroniques) ne sont pas examinées en vertu de la procédure de modification définie dans la présente section mais font l'objet d'une consultation ordinaire menée par le Bureau international, comme c'est le cas pour les autres propositions de modification des instructions administratives. L'examen d'une proposition en vertu de la procédure de modification définie dans la présente section sera interrompu par le Bureau international s'il apparaît rétrospectivement qu'elle dépasse le cadre des exigences techniques de la norme.

2.5.2 Site Web; liste de diffusion; groupe consultatif

Le Bureau international tient à jour un site Web destiné au traitement des propositions de modification. Le site Web permet aux personnes intéressées d'inscrire leur adresse électronique sur une liste de diffusion relative au dépôt électronique, en vue d'être tenues informées de la publication sur le site de nouvelles propositions de modification (ou d'autres documents relatifs au dépôt électronique selon le PCT).

Tout office national, administration PCT, organisation intergouvernementale (y compris les offices régionaux) ou organisation non gouvernementale invité à prendre part aux réunions du Comité des questions administratives et juridiques du PCT peut s'inscrire sur le site Web en vue de participer aux travaux d'un groupe consultatif chargé d'examiner les propositions de modification. Les participants doivent, de préférence, s'inscrire au début du cycle annuel de gestion des modifications défini dans la section 2.5.4 ci-après. Toutes les personnes représentant des membres du groupe consultatif sont automatiquement inscrites sur la liste de diffusion relative au dépôt électronique.

Les offices nationaux et les administrations PCT participant au groupe consultatif le font en qualité de membres et les autres participants, à titre d'observateurs. Le Bureau international, qui assure le secrétariat, coordonne les activités du groupe. L'examen des questions se fait de manière informelle sur le site Web et par courrier électronique et, si nécessaire, par d'autres moyens de communication; des réunions entre membres du groupe eux-mêmes ne sont pas envisagées.

ELECTRONIC FILING AND PROCESSING OF INTERNATIONAL APPLICATIONS: CHANGE PROCEDURE FOR FUTURE MODIFICATIONS OF THE TECHNICAL STANDARD (Cont'd)**ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT: MODIFICATION OF ANNEX F (Cont'd)**

The main function of the Consultative Group is to discuss, and make recommendations on, how proposals for change should be handled and, in particular, whether changes should be promulgated and with what effective date, as outlined further below. It is expected that the Group would operate on the basis of consensus.

2.5.3 Proposals for change

Proposals for change may be submitted to the International Bureau by any Office or Authority entitled to register as a member of the Consultative Group, and may be initiated by the International Bureau. An Office or Authority or the International Bureau may, if it wishes, submit a proposal for change that has been suggested to it by a third party. Proposals for change may be submitted, preferably via the Web site, at any time during the year.

A proposal for change may be modified or withdrawn by the Office or Authority that submitted it. Each proposal for change is published by the International Bureau on the Web site as a "Proposal for Change" (PFC) file to which comments, modifications, etc., are annexed. Exchanges of views on a proposal for change, if not annexed to the PFC file concerned, are stored in an archive accessible via the Web site.

Each proposal for change must set forth the requested modifications of the text and/or figures concerned, a list of items that may be impacted, the reason, including processing or policy issues involved, and the proposed date of implementation, including, if appropriate, a request for expedited handling, and should also, if possible, include a draft implementation (for example, a new XML DTD).

Consideration of proposals for change would ordinarily proceed under the (standard) annual change management cycle in accordance with section 2.5.4. If needed, generally on request by the proposer, the International Bureau may determine, after consultation with the Consultative Group, that consideration of a proposal for change should be expedited in accordance with section 2.5.5. It is to be understood that consideration of any proposal for change resulting from a change to a PCT Contracting State's national law relating to the standards contained in this Annex would be expedited.

2.5.4 Annual change management cycle

1. Each proposal for change received by the International Bureau is published on the Web site, forthwith after its receipt, in a PFC file together with an indication that comments on the proposal may be sent to the International Bureau. That publication is promptly notified by e-mail to the e-filing information list.
2. Any comments received from interested parties following the publication and notification of a proposal for change referred to in section 2.5.3 are promptly published on the Web site in the PFC file and notified by e-mail to the e-filing information list.
3. Further consideration of the proposal does not take place until the following February, unless expedited consideration is accorded to the proposal under section 2.5.5.

**DÉPÔT ET TRAITEMENT ÉLECTRONIQUES DES DEMANDES INTERNATIONALES :
PROCÉDURE APPLICABLE AUX FUTURES MODIFICATIONS DE LA NORME TECHNIQUE (suite)****INSTRUCTIONS ADMINISTRATIVES DU PCT : MODIFICATION DE L'ANNEXE F (suite)**

Le principal rôle du groupe consultatif est d'examiner la manière dont il convient de mettre en œuvre les propositions de modification et, en particulier, de déterminer si des modifications doivent être promulguées et la date à laquelle elles doivent prendre effet, et de faire des recommandations dans ce sens. Le groupe est censé exercer ses activités sur la base du consensus.

2.5.3 Propositions de modification

Les propositions de modification peuvent être soumises au Bureau international par tout office ou administration qui a le droit de s'inscrire comme membre du groupe consultatif. Elles peuvent également être présentées par le Bureau international. Un office, une administration ou le Bureau international lui-même peut, s'il le désire, soumettre une proposition de modification qui lui a été présentée par un tiers. Les propositions de modification peuvent être soumises à tout moment de l'année, de préférence sur le site Web.

Une proposition de modification peut être modifiée ou retirée par l'office ou l'administration qui l'a soumise. Chaque proposition de modification est publiée par le Bureau international sur le site Web, sous la forme d'un dossier relatif à la proposition de modification, auquel sont jointes en annexe les observations formulées, les modifications proposées, etc. S'ils ne sont pas joints en annexe au dossier concerné, les échanges de vues sur cette proposition sont consignés dans des archives accessibles sur le site Web.

Chaque proposition de modification doit indiquer les changements demandés en ce qui concerne le texte ou les dessins, une liste des éléments sur lesquels ces changements pourraient avoir des incidences, le motif du changement proposé, y compris les questions de traitement ou de politique générale en jeu, ainsi que la date proposée pour sa mise en œuvre, et doit comporter, si possible, un projet de plan d'exécution (par exemple, une nouvelle DTD en XML).

L'examen des propositions de modification devrait normalement s'effectuer dans le cadre du cycle annuel (ordinaire) de gestion des modifications visé à la section 2.5.4. Si nécessaire, en général à la demande de l'auteur de la proposition, le Bureau international peut décider, après avoir consulté le groupe consultatif, d'accélérer l'examen d'une proposition de modification selon la procédure définie à la section 2.5.5. Il est entendu que l'examen de toute proposition de modification découlant d'un changement apporté à la législation nationale d'un État contractant du PCT en rapport avec les normes contenues dans la présente annexe s'effectuera dans le cadre de la procédure accélérée.

2.5.4 Cycle annuel de gestion des modifications

1. Chaque proposition de modification reçue par le Bureau international est publiée, dès sa réception, sur le site Web, dans un dossier créé à cet effet, avec une mention indiquant que des observations sur cette proposition peuvent être envoyées au Bureau international. Cette publication est notifiée à bref délai par courrier électronique aux personnes inscrites sur la liste de diffusion relative au dépôt électronique.
2. Les observations des parties intéressées reçues après la publication et la notification d'une proposition de modification visée à la section 2.5.3 sont publiées à bref délai sur le site Web, dans le dossier relatif à la proposition de modification, et notifiées aux personnes inscrites sur la liste de diffusion relative au dépôt électronique.
3. L'examen de la proposition est ensuite suspendu jusqu'au mois de février suivant, à moins que la proposition ne fasse l'objet de la procédure accélérée visée à la section 2.5.5.

ELECTRONIC FILING AND PROCESSING OF INTERNATIONAL APPLICATIONS: CHANGE PROCEDURE FOR FUTURE MODIFICATIONS OF THE TECHNICAL STANDARD (Cont'd)**ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT: MODIFICATION OF ANNEX F (Cont'd)**

4. On or promptly after February 15, the International Bureau publishes on the Web site a list of all pending standard proposals for change and references to the relevant PFC files, with an indication that comments may be sent to the International Bureau by March 31, and sends a notification by e-mail to the e-filing information list. The International Bureau also sends a written circular to all PCT Offices and Authorities, interested intergovernmental organizations and certain non-governmental organizations representing users, referring to the Web site, inviting comments by March 31 and advising that paper copies of the proposals for change are available from the International Bureau.
5. Any further comments received by the International Bureau are published, forthwith after their receipt, in the PFC file on the Web site and notified by e-mail to the e-filing information list.
6. Promptly after March 31, the International Bureau invites the Consultative Group to consider the pending proposals for change and comments, and the Consultative Group makes recommendations to the International Bureau by May 15. The recommendations are published forthwith in the PFC file on the Web site and notified by e-mail to the e-filing information list.
7. Taking into account the comments received and the recommendations of the Consultative Group, and after any necessary revision, the International Bureau publishes on the Web site, by June 30, modifications intended to come into force on January 1 of the following year or, exceptionally, before that date, and sends a notification by e-mail to the e-filing information list.
8. The usual procedures for promulgation of modifications of the Administrative Instructions apply (written circular and publication in the *PCT Gazette*).
9. If applicable, new or revised requirements of Offices are notified to the International Bureau, as provided for in Section 710 of the Administrative Instructions, for publication in the *PCT Gazette*.

2.5.5 Expedited consideration of change proposals

1. At any time, after consulting the Consultative Group, the International Bureau may decide that a proposal for change should be accorded expedited consideration, even if the proposal for change has so far been treated as standard.
2. Each proposal for change which is accorded expedited consideration is published on the Web site for comment and notified by e-mail to the e-filing information list, as outlined in section 2.5.4, paragraphs 1 and 2, except that comments are invited within six weeks. At the same time as that publication, the International Bureau sends the written circular referred to in section 2.5.4, paragraph 4, inviting comments within six weeks. Any comments received are published, forthwith after their receipt, in the PFC file on the Web site and notified by e-mail to the e-filing information list.
3. At the end of the period for comments, the International Bureau invites the Consultative Group to consider the proposal for change and comments, and the Consultative Group makes recommendations within six weeks of that invitation, including a recommendation, if applicable, as to the appropriate date of entry into force of the proposed modifications. The recommendations are published forthwith in the PFC file on the Web site and notified by e-mail to the e-filing information list.

4. Le 15 février ou à bref délai après cette date, le Bureau international publie sur le site Web une liste de toutes les propositions de modification en suspens et les renvois aux dossiers de propositions de modification correspondants, en indiquant que des observations peuvent être envoyées au Bureau international jusqu'au 31 mars au plus tard, et le notifie par courrier électronique à toutes les personnes inscrites sur la liste de diffusion relative au dépôt électronique. Le Bureau international envoie également à tous les offices et administrations PCT, aux organisations intergouvernementales intéressées et à certaines organisations non gouvernementales représentant les utilisateurs, une circulaire imprimée relative au site Web, en les invitant à formuler des observations avant le 31 mars et en indiquant qu'il tient à leur disposition des exemplaires sur papier de ces propositions de modification.

5. Toutes les autres observations reçues par le Bureau international sont publiées, dès leur réception, dans le dossier relatif à la proposition de modification sur le site Web et notifiées par courrier électronique aux personnes inscrites sur la liste de diffusion relative au dépôt électronique.

6. À bref délai après le 31 mars, le Bureau international invite le groupe consultatif à examiner les propositions de modification et les observations y relatives, puis le groupe consultatif fait des recommandations au Bureau international jusqu'au 15 mai au plus tard. Ces recommandations sont immédiatement publiées dans le dossier relatif à la proposition de modification sur le site Web et notifiées par courrier électronique aux personnes inscrites sur la liste de diffusion relative au dépôt électronique.

7. En tenant compte des observations formulées et des recommandations du groupe consultatif, après les avoir révisées si nécessaire, le Bureau international publie sur le site Web, le 30 juin au plus tard, les modifications destinées à entrer en vigueur le 1^{er} janvier de l'année suivante ou, exceptionnellement, avant cette date, et le notifie par courrier électronique aux personnes inscrites sur la liste de diffusion relative au dépôt électronique.

8. Les procédures habituelles en matière de promulgation des modifications des instructions administratives sont applicables (envoi d'une circulaire imprimée et publication dans la *Gazette du PCT*).

9. Le cas échéant, les exigences nouvelles ou révisées des offices sont notifiées au Bureau international, comme le prévoit l'instruction 710, aux fins de la publication dans la *Gazette du PCT*.

2.5.5 Examen accéléré des propositions de modification

1. À tout moment après consultation du groupe consultatif, le Bureau international peut décider d'accélérer l'examen d'une proposition de modification, même si cette dernière a jusque-là fait l'objet d'un traitement ordinaire.

2. Chaque proposition de modification dont l'examen a été accéléré fait l'objet d'une publication sur le site Web aux fins de la formulation d'observations et d'une notification par courrier électronique aux personnes inscrites sur la liste de diffusion relative au dépôt électronique, comme il est indiqué aux paragraphes 1 et 2 de la section 2.5.4, à ceci près que les observations doivent être formulées dans un délai de six semaines. Parallèlement à cette publication, le Bureau international envoie la circulaire imprimée visée au paragraphe 4 de la section 2.5.4 en invitant à la formulation d'observations dans un délai de six semaines. Toutes les observations reçues sont publiées, dès leur réception, dans le dossier relatif à la proposition de modification sur le site Web, et notifiées par courrier électronique aux personnes inscrites sur la liste de diffusion relative au dépôt électronique.

3. À l'expiration du délai fixé pour la formulation des observations, le Bureau international invite le groupe consultatif à examiner les propositions de modification et les observations formulées, puis le groupe consultatif fait des recommandations dans un délai de six semaines, y compris, le cas échéant, sur la date appropriée d'entrée en vigueur des modifications proposées. Ces recommandations sont immédiatement publiées dans le dossier relatif à la proposition de modification sur le site Web, et notifiées par courrier électronique aux personnes inscrites sur la liste de diffusion relative au dépôt électronique.

5. The modifications are promulgated, and any new requirements of Offices are notified and published, as outlined in section 2.5.4, paragraphs 8 and 9.

2.5.6 Version handling

The adoption and implementation of modifications must take into account any requirement for different versions of certain aspects of the standard (notably, DTDs and the interoperability protocol) to operate simultaneously for a period. In such cases, version numbers, and the status of versions in terms of their period of applicability, must be clearly identified in the modifications and, if appropriate, in the relevant parts of Annex F and its Appendices and other relevant parts of the Administrative Instructions which are being modified.

2.5.6 Gestion des différentes versions

Il convient de tenir compte, lors de l'adoption et de la mise en œuvre des modifications, de toute exigence relative au fonctionnement simultané, pendant une période déterminée, de différentes versions de certains éléments de la norme (en particulier les DTD et le protocole sur l'interopérabilité en matière de dépôt électronique). Dans ce cas, le numéro des versions en question et leur situation au regard de leur durée d'application doivent être clairement indiqués dans les modifications et, le cas échéant, dans les parties de l'annexe F et de ses appendices et dans d'autres parties pertinentes des instructions administratives en cours de modification.

It is recalled that Rule 12.1(c), as amended, provides for receiving Offices to specify that or those languages of publication they will accept for the filing of requests. It is further recalled that new Rule 12.4 provides for the cases where a translation of the international application into a language of publication is required and that current Rule 48.3(b) is deleted.

As a consequence, Section 102(a)(ii) has to include a reference to a new form (PCT/RO/157) which receiving Offices will use when inviting applicants to furnish the translation of the international application required under new Rule 12.4.

Sections 103, 104, 308 and 311 have to include an express reference to new Rule 12.4.

Section 305*bis* has to provide for the preparation, identification and transmittal of the copies of the international applications in respect of which a translation is furnished under new Rule 12.4.

Section 332 has to provide for receiving Offices to notify the International Bureau of the language or languages they will accept under amended Rule 12.1(c) and new Rule 12.4. Section 405 has to provide for the International Bureau to publish such information in the Gazette.

FILING OF INTERNATIONAL APPLICATIONS CONTAINING LARGE NUCLEOTIDE AND/OR AMINO ACID SEQUENCE LISTINGS**Note prepared by the International Bureau**

From 11 January 2001, it will be possible for applicants filing international applications with certain receiving Offices to file, *for the purposes of all steps of the international phase* and under new Section 801 of the Administrative Instructions, the nucleotide and/or amino acid sequence listing part of the description of such applications *either* only on an electronic medium in computer readable form *or* both on an electronic medium and on paper in written form (both forms being those referred to in Annex C of the Administrative Instructions). All other elements of the international application will have to continue to be filed on paper with the exception of the request form which may be filed in the form of a computer print-out prepared using the PCT-EASY software made available by the International Bureau and on a diskette also prepared using that software (see PCT Gazette No. 51/1998 dated 23 December 1998, page 17330).

The relevant provisions are contained in new Part 8 of the Administrative Instructions consisting of new Sections 801 to 806.

Applicants choosing one of the two above-mentioned options in respect of international applications containing large sequence listings will benefit from the fee incentive which is further commented on below.

For applicants who do not wish to file the sequence listing parts of their international applications under new Section 801, the current provisions will continue to apply, including the filing in written form only (under Rule 5.2) and the concurrent or subsequent furnishing, as provided under Rule 13*ter* and Section 208, of the sequence listing parts in computer readable form but only for the purposes of international search and/or international preliminary examination. In such cases the current system for calculating the basic fee, on the basis of the total number of sheets of the international application including the sequence listing part, will also continue to apply (see item 1(b) of the Schedule of Fees).

International applications filed under new Section 801 may only be filed with receiving Offices which are prepared to accept them and on such electronic media as specified by the receiving Offices. The International Bureau will publish such information in the PCT Gazette as soon as it is notified accordingly.

The sequence listing in computer readable form will be part of the record copy, that is, of the true copy of the international application, only when that sequence listing is filed only in computer readable form; where the sequence listing is filed also in written form, it will then be the sequence listing in written form that will be part of the record copy, not the sequence listing in computer readable form (see new Section 804(d) and (e)).

Details relating to the format and identification of the sequence listing part filed on an electronic medium, as well as those applying in the case of correction, rectification or amendment, are contained in new Section 802.

DÉPÔT DE DEMANDES INTERNATIONALES CONTENANT DE VOLUMINEUX LISTAGES DES SÉQUENCES DE NUCLÉOTIDES OU D'ACIDES AMINÉS

Note du Bureau international

À compter du 11 janvier 2001, les personnes qui déposeront des demandes internationales auprès de certains offices récepteurs pourront déposer, *pour toutes les étapes de la phase internationale* en vertu de la nouvelle instruction administrative 801, la partie de la description réservée au listage des séquences de nucléotides ou d'acides aminés de telles demandes *soit* seulement sur un support électronique sous forme déchiffrable par ordinateur, *soit* à la fois sur un support électronique et sur papier sous forme écrite (les deux formes étant celles visées à l'annexe C des instructions administratives). Tous les autres éléments de la demande internationale devront, comme maintenant, être déposés sur papier à l'exception du formulaire de requête qui peut être déposé sous la forme d'un imprimé d'ordinateur produit à l'aide du logiciel PCT-EASY disponible auprès du Bureau international et sur une disquette produite à l'aide de ce logiciel (voir la Gazette du PCT n° 51/1998 du 23 décembre 1998, page 17331).

Les dispositions pertinentes figurent dans la huitième partie (nouvelle) des instructions administratives comprenant les nouvelles instructions 801 à 806.

Les déposants choisissant l'une ou l'autre de ces deux options en ce qui concerne des demandes internationales contenant des listages des séquences volumineux bénéficieront d'un avantage sur le plan des taxes, qui fait l'objet ci-après de plus amples commentaires.

Pour les déposants qui ne désirent pas déposer la partie réservée au listage des séquences de leurs demandes internationales en vertu de la nouvelle instruction 801, les dispositions actuelles continueront à s'appliquer, y compris le dépôt sous forme écrite seulement (en vertu de la règle 5.2) et la remise simultanée ou ultérieure, comme prévu par la règle 13^{ter} et par l'instruction 208, des parties réservées au listage des séquences sous forme déchiffrable par ordinateur mais seulement aux fins de la recherche internationale ou de l'examen préliminaire international. Dans de tels cas, le système actuel utilisé pour le calcul de la taxe de base, sur la base du nombre total de feuilles de la demande internationale comprenant la partie réservée au listage des séquences, continuera aussi à s'appliquer (voir le point 1.b) du barème de taxes).

Les demandes internationales déposées en vertu de la nouvelle instruction 801 ne peuvent l'être qu'auprès d'offices récepteurs prêts à accepter de telles demandes et sur des supports électroniques qu'ils ont spécifiés. Le Bureau international publiera les informations de ce type dans la Gazette du PCT, dès qu'elles lui auront été notifiées.

Le listage des séquences sous forme déchiffrable par ordinateur ne fera partie de l'exemplaire original, c'est-à-dire de l'exemplaire authentique de la demande internationale, que lorsqu'il aura été déposé seulement sous forme déchiffrable par ordinateur; lorsqu'il sera également déposé sous forme écrite, ce sera alors le listage des séquences sous forme écrite qui fera partie de l'exemplaire original, et non le listage sous forme déchiffrable par ordinateur (voir la nouvelle instruction 804.d) et e)).

Des précisions relatives au format et à l'identification de la partie réservée au listages des séquences déposée sur un support électronique ainsi que celles applicables en cas de correction, de rectification ou de modification figurent dans la nouvelle instruction 802.

Fee incentive where the sequence listing part is filed on an electronic medium under new Section 801

The basic fee payable in respect of international applications filed under new Section 801 will comprise two components (see new Section 803). A basic component calculated as provided in the Schedule of Fees in respect of all pages filed on paper, but excluding the sequence listing part if also filed on paper, and a new additional component for the sequence listing part only. The new additional component has been set at 400 times the fee per page as referred to in item 1(b) of the Schedule of Fees (that is, 6,000 Swiss francs or equivalent in the various currencies). This additional component will apply both where the sequence listing part of an international application is filed on an electronic medium only and where it is filed on an electronic medium and also on paper. Although the new provisions are not expressly restricted to international applications containing *large* sequence listings, in view of the additional component, it would be more expensive for applicants to file short or medium sized sequence listings under the new provisions rather than in written form only.

Furthermore, under new Section 805(a), an international application containing a sequence listing may be published, in whole or in part, in electronic form as determined by the Director General. The relevant technical details will be announced in due course. Communication of copies of international applications under certain provisions of the Treaty and Regulations will also be made under new Section 805(b), in whole or in part, in electronic form as determined by the Director General.

New Section 806 will allow a designated Office to require a copy on paper of a sequence listing part filed only on an electronic medium under new Section 801.

Modification of the Administrative Instructions; Partial Entry into Force of PCT Rule 89bis

Rule 89bis.1(a) of the Regulations under the PCT provides that “[i]nternational applications may, subject to paragraphs (b) to (e), be filed and processed in electronic form or by electronic means, in accordance with the Administrative Instructions, provided that any receiving Office shall permit the filing of international applications on paper”. In adopting new Rule 89bis, the PCT Union Assembly decided that the Rule would enter into force together with modifications of the Administrative Instructions implementing it, the effective date to be included in the promulgation of those modifications by the Director General.

Rule 89ter entered into force on 1 January 1999, being the date of promulgation of Sections 102bis and 335 relating to requests prepared using the PCT-EASY software (see PCT Gazette No. 51/1998 dated 23 December 1998, page 17330).

After consultation with the interested Offices and Authorities pursuant to PCT Rule 89.2(a), a new Part 8 of the Administrative Instructions, comprising new Sections 801 to 806, as set out below, is promulgated, pursuant to Rules 89bis and 89ter, with effect from 11 January 2001. The present text of the Administrative Instructions is set out in PCT Gazette Special Issue No. S-03/1998 dated 25 June 1998, and the previous modifications (Sections 102bis and 335) in PCT Gazette No. 51/1998 dated 23 December 1998, page 17330.

Noting that the modifications of the Administrative Instructions set out below will enter into force on 11 January 2001, it follows that Rule 89bis will also enter into force on that date to the extent that the operation of that Rule is given effect in the modifications.

Avantage sur le plan des taxes lorsque la partie réservée au listage des séquences est déposée sur un support électronique en vertu de la nouvelle instruction 801

La taxe de base payable en ce qui concerne des demandes internationales déposées selon la nouvelle instruction 801 comprendra deux composantes (voir la nouvelle instruction 803). Une composante de base, calculée comme prévu dans le barème de taxes pour toutes les pages déposées sur papier mais excluant la partie réservée au listage des séquences si celle-ci est aussi déposée sur papier, et une nouvelle composante supplémentaire pour la partie réservée au listage des séquences seulement. La nouvelle composante supplémentaire a été fixée à 400 fois la taxe par feuille visée au point 1.b) du barème de taxes (c'est-à-dire 6 000 francs suisses ou l'équivalent dans les différentes monnaies). Cette composante supplémentaire s'appliquera à la fois lorsque la partie réservée au listage des séquences de la demande internationale sera déposée sur un support électronique seulement et lorsqu'elle sera déposée sur un support électronique et aussi sur papier. Bien que les nouvelles dispositions ne se limitent pas expressément aux demandes internationales contenant de *volumineux* listages des séquences, si l'on tient compte de la composante supplémentaire, il en coûterait plus cher aux déposants de déposer des listages des séquences de petite ou de moyenne taille en vertu des nouvelles dispositions que sous forme écrite seulement.

Par ailleurs, une demande internationale comprenant un listage des séquences peut être publiée, entièrement ou partiellement, sous forme électronique selon les modalités déterminées par le directeur général. Les détails techniques pertinents seront annoncés en temps utile. La communication de copies de demandes internationales en vertu de certaines dispositions du traité et du règlement d'exécution, sera également effectuée en vertu de la nouvelle disposition 805.b), entièrement ou partiellement, sous forme électronique selon les modalités déterminées par le directeur général.

La nouvelle instruction 806 permettra à un office désigné d'exiger une copie sur papier d'un listage des séquences déposé seulement sur un support électronique en vertu de la nouvelle instruction 801.

Modification des instructions administratives; entrée en vigueur partielle de la règle 89bis du PCT

La règle 89bis.1.a) du règlement d'exécution du PCT prévoit que “[l]es demandes internationales peuvent, sous réserve des alinéas b) à e), être déposées et traitées sous forme électronique ou par des moyens électroniques, conformément aux instructions administratives; toutefois, l'office récepteur est tenu de permettre le dépôt des demandes internationales sur papier”. Lorsque l'Assemblée de l'Union du PCT a adopté la nouvelle règle 89bis, elle a décidé que la règle entrerait en vigueur en même temps que les modifications des instructions administratives mettant en œuvre cette règle, la date exacte devant être précisée par le directeur général lorsqu'il promulguerait ces modifications.

La règle 89ter est entrée en vigueur le 1^{er} janvier 1999, date de promulgation des instructions 102bis et 335 relatives aux requêtes préparées à l'aide du logiciel PCT-EASY (voir la Gazette du PCT n° 51/1998 du 23 décembre 1998, page 17331).

Après consultation des offices et des administrations intéressés, conformément à la règle 89.2.a) du PCT, une huitième partie (nouvelle) des instructions administratives, comprenant les nouvelles instructions 801 à 806, telles qu'elles figurent ci-après, est promulguée, conformément aux règles 89bis et 89ter, avec effet au 11 janvier 2001. Le texte actuel des instructions administratives figure dans le numéro spécial de la Gazette du PCT n° S-03/1998 du 25 juin 1998, et les modifications précédentes (instructions 102bis et 335) dans la Gazette du PCT no 51/1998 du 23 décembre 1998, page 17331.

Les modifications des instructions administratives, qui figurent ci-après, entrant en vigueur le 11 janvier 2001, il s'ensuit que la règle 89bis entrera également en vigueur à cette date, dans la mesure où ces modifications la mettent en œuvre.

- i) seulement sur un support électronique sous la forme déchiffrable par ordinateur visée à l'annexe C, ou
- ii) à la fois sur un support électronique sous ladite forme déchiffrable par ordinateur et sur papier sous la forme écrite visée à l'annexe C,

à condition que les autres éléments de la demande internationale soient déposés comme prévu normalement dans le règlement d'exécution et les présentes instructions.

b) Tout office récepteur qui est disposé à accepter le dépôt sous forme déchiffrable par ordinateur, en vertu de l'alinéa a), de la partie réservée au listage des séquences de demandes internationales doit notifier ce fait au Bureau international. INCLUSION OF CERTAIN DECLARATIONS IN THE REQUEST, WITH A VIEW TO SIMPLIFYING NATIONAL PHASE PROCESSING OF PCT APPLICATIONS**Note Prepared by the International Bureau**

On 17 March 2000, the Assembly of the International Patent Cooperation Union (PCT Union) adopted a number of amendments of the PCT Regulations, aimed at simplifying the national phase processing of PCT applications and aligning the PCT with the text of the Patent Law Treaty. Those amendments will make it possible, from 1 March 2001, for applicants to include in the request part of their international applications certain declarations, using standardized wording, for the purposes of processing by designated Offices in the national phase. For more information, see the Note published in PCT Gazette No. 42/2000, on 19 October 2000, page 15522.

The declarations concerned, which are provided for in new Rule 4.17, are the following: (i) declaration as to the identity of the inventor; (ii) declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent; (iii) declaration as to the applicant's entitlement, as at the international filing date, to claim priority of the earlier application; (iv) declaration of inventorship (only for purposes of the designation of the United States of America); and (v) declaration as to non-prejudicial disclosures or exceptions to lack of novelty. Corresponding provisions concerning processing in the national phase are found in amended Rule 51*bis*.1 and new Rule 51*bis*.2.

Noting that Rule 4.17 provides that the declarations shall be worded as prescribed by the Administrative Instructions under the PCT, the necessary modifications to these Instructions are being promulgated with effect from 1 March 2001 (see below for further details; see also WIPO document PCT/AI/1 Add.1*ter* which may be viewed on the WIPO Internet site at the following address: <http://www.wipo.int/pct/en/index.html>). The relevant standardized wording for each of the five declarations mentioned above is contained, respectively, in new Sections 211 to 215 of the Administrative Instructions.

New Rule 26*ter*.1 states that applicants may make corrections or additions of declarations; new Section 216 provides that such corrections or additions may only be made by submitting replacement sheets (that is, not by submitting, in a letter, text or corrections that would have to be carried over by the International Bureau onto the corresponding sheet of the request).

Sections have been added and/or modified so as to deal with certain aspects of the processing of declarations by the receiving Office (new Sections 303(b) and 327(d) and amended Section 327(a)) and the International Bureau (new Section 419(c)). Under these provisions, receiving Offices and the International Bureau are not permitted (nor obliged) to make *ex officio* corrections and deletions to the declarations.

New or amended Sections 216, 303, 327 and 419 reflect the fact that only designated Offices (and not the receiving Office nor the International Bureau) would be in a position to determine, under the applicable national law, the validity of any of the declarations made by the applicant.

New Rule 26*ter*.1 provides that corrected and added declarations must be submitted to the International Bureau. New Section 317 expressly states that, should any such corrections and additions be received by the receiving Office, that Office must transmit them to the International Bureau which shall treat them as received by it on the date marked by the receiving Office. (This provision is similar in its effect to present Rule 56.1(f) applying in the case of later elections.)

New Section 419(a) provides for the processing by the International Bureau of declarations and corrections thereof received by it before the expiration of the time limit under new Rule 26*ter*.1 and new Section 419(d) provides for the processing of such declarations and corrections received after the expiration of that time limit (see new Rule 26*ter*.2(b)).

INCLUSION DE CERTAINES DÉCLARATIONS DANS LA REQUÊTE AFIN DE SIMPLIFIER LE TRAITEMENT DES DEMANDES PCT DURANT LA PHASE NATIONALE

Note du Bureau international

Le 17 mars 2000, l'Assemblée de l'Union internationale de coopération en matière de brevets (Union du PCT) a adopté un certain nombre de modifications du règlement d'exécution du PCT, visant à simplifier le traitement des demandes internationales selon le PCT durant la phase nationale et à aligner le PCT sur le texte du Traité sur le droit des brevets (PLT). Ces modifications permettront aux déposants, à compter du 1^{er} mars 2001, d'inclure dans la partie "requête" de leurs demandes internationales certaines déclarations, en utilisant un libellé standard, aux fins du traitement durant la phase nationale par les offices désignés. Pour plus de renseignements, voir la note publiée dans la Gazette du PCT n° 42/2000, le 19 octobre 2000, page 15523.

Les déclarations en question, prévues à la nouvelle règle 4.17, sont les suivantes : i) déclaration relative à l'identité de l'inventeur; ii) déclaration selon laquelle le déposant a, à la date du dépôt international, le droit de demander et d'obtenir un brevet; iii) déclaration selon laquelle le déposant a, à la date du dépôt international, le droit de revendiquer la priorité de la demande antérieure; iv) déclaration relative à la qualité d'inventeur (seulement aux fins de la désignation des États-Unis d'Amérique); et v) déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté. On trouve les dispositions correspondantes concernant le traitement durant la phase nationale dans la règle 51*bis*.1 modifiée et dans la nouvelle règle 51*bis*.2.

La règle 4.17 prévoyant que les déclarations doivent être libellées conformément aux prescriptions des instructions administratives du PCT, les modifications nécessaires desdites instructions sont promulguées à compter du 1^{er} mars 2001 (voir ci-dessous pour de plus amples détails; voir aussi le document PCT/AI/1 Add.1*ter* de l'OMPI qui peut être consulté sur le site Internet de l'OMPI à l'adresse suivante : <http://www.wipo.int/pct/fr/index.html>). Le libellé standard pertinent pour chacune des cinq déclarations mentionnées ci-dessus figure, respectivement, dans les nouvelles instructions administratives 211 à 215.

La nouvelle règle 26*ter*.1 stipule que les déposants peuvent faire des corrections ou des adjonctions aux déclarations; la nouvelle instruction 216 prévoit que ces corrections ou adjonctions ne peuvent être effectuées qu'au moyen de feuilles de remplacement (c'est-à-dire pas en présentant une lettre contenant du texte ou des corrections que le Bureau international devrait reporter dans les feuilles correspondantes de la requête).

Des instructions ont été ajoutées ou modifiées afin de régler certains aspects du traitement des déclarations par l'office récepteur (nouvelles instructions 303.b) et 327.d) et instruction 327.a) modifiée) et par le Bureau international (nouvelle instruction 419.c)). Selon ces dispositions, les offices récepteurs et le Bureau international ne peuvent (et ne doivent) ni corriger ni biffer d'office les déclarations.

Les instructions nouvelles ou modifiées 216, 303, 327 et 419 tiennent compte du fait que seuls les offices désignés (en d'autres termes, ni les offices récepteurs, ni le Bureau international) seraient en mesure d'établir, selon la législation nationale applicable, la validité de l'une quelconque des déclarations faites par le déposant.

La nouvelle règle 26*ter*.1 prévoit que des déclarations corrigées ou ajoutées doivent être présentées au Bureau international. La nouvelle instruction 317 stipule expressément que, si de telles corrections et adjonctions sont reçues par l'office récepteur, ce dernier doit les transmettre au Bureau international qui les traitera comme s'il les avait reçues à la date indiquée par l'office récepteur. (L'effet de cette disposition est similaire à celui de la règle 56.1.f) actuelle applicable au cas des élections ultérieures.)

La nouvelle instruction 419.a) prévoit le traitement par le Bureau international de déclarations et de corrections apportées à des déclarations qu'il a reçues avant l'expiration du délai prévu par la nouvelle règle 26*ter*.1 et la nouvelle instruction 419.d) prévoit le traitement de telles déclarations et corrections reçues après l'expiration de ce délai (voir la nouvelle règle 26*ter*.2.b)).

INCLUSION OF CERTAIN DECLARATIONS IN THE REQUEST, WITH A VIEW TO SIMPLIFYING NATIONAL PHASE PROCESSING OF PCT APPLICATIONS (Cont'd)

New Section 419(b) requires the International Bureau to notify the receiving Office and the International Searching Authority about the fact and the date of receipt of a declaration or correction thereof (which will, in practice, be done by sending a copy of the notification sent to the applicant) but copies of the declaration or correction itself would not be sent. Thus, the receiving Office and the International Searching Authority will not have to handle replacement sheets of the request in all cases concerned. However, the receiving Office would have the possibility, on a case-by-case basis, of requesting the International Bureau to send to it copies of those sheets, for example, if the applicant requested a certified copy of the international application under Rule 20.9 (containing the international application as filed and any corrections thereto). Similarly, the International Searching Authority would be able to request a copy of sheets containing a declaration as to non-prejudicial disclosure or exceptions to lack of novelty.

Furthermore, the last sentence of new Section 419(d) provides that, if a declaration of inventorship for the purposes of the designation of the United States of America is received after the expiration of the time limit under Rule 26*ter*.1, it will be returned to the applicant if it has been signed, thereby enabling the applicant to submit that signed declaration direct to the United States Patent and Trademark Office as a designated Office.

Finally, pursuant to the amendments of Rule 48.2(b)(iv), a new item 8 has been added to Annex D of the Administrative Instructions to provide for the express indication, in the Gazette, of the fact that one or more of the declarations referred to in Rule 4.17 were made and of those designations for the purposes of which such declarations were made (present item 7 has not been modified except for the deletion of the period at the end thereof).

Modification of the Administrative Instructions

After consultation with the interested Offices and Authorities pursuant to PCT Rule 89.2(a), new Sections 211 to 216, 317 and 419, modified Sections 303 and 327 and modified Annex D, as set out below, are promulgated with effect from 1 March 2001. The present text of the Administrative Instructions is set out in PCT Gazette Special Issue No. S-03/1998 dated 25 June 1998 and the previous modifications in PCT Gazette No. 51/1998 dated 23 December 1998, page 17330 (Sections 102*bis* and 335) and in PCT Gazette No. 02/2001 dated 11 January 2001, page 822 (Sections 801 to 806). The corresponding WIPO documents, PCT/AI/1, PCT/AI/1 Add.1 and PCT/AI/1 Add.1*bis* may be viewed on the WIPO Internet site at the following address: <http://www.wipo.int/pct/en/index.html>, as well as document PCT/AI/1 Add.1*ter*, as indicated above.

INCLUSION DE CERTAINES DÉCLARATIONS DANS LA REQUÊTE AFIN DE SIMPLIFIER LE TRAITEMENT DES DEMANDES PCT DURANT LA PHASE NATIONALE (suite)

La nouvelle instruction 419.b) exige que le Bureau international notifie à l'office récepteur et à l'administration chargée de la recherche internationale le fait qu'il a reçu une déclaration ou une correction apportée à une déclaration et à quelle date (cela se fera en pratique par l'envoi d'une copie de la notification qui est envoyée au déposant) mais sans joindre de copies de la déclaration ou de la correction. Ainsi, l'office récepteur et l'administration chargée de la recherche internationale n'auront pas à manipuler de feuilles de remplacement de la requête dans tous les cas en question. Cependant, l'office récepteur aura la possibilité, au cas par cas, de demander au Bureau international de lui envoyer des copies de ces feuilles, par exemple, si le déposant a demandé une copie certifiée de la demande internationale en vertu de la règle 20.9 (contenant la demande internationale telle que déposée et toutes corrections y relatives). Pareillement, l'administration chargée de la recherche internationale pourra demander une copie des feuilles contenant une déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté.

Par ailleurs, la dernière phrase de la nouvelle instruction 419.d) prévoit que, si la déclaration relative à la qualité d'inventeur aux fins de la désignation des États-Unis d'Amérique est reçue après l'expiration du délai en vertu de la règle 26*ter*.1, elle sera retournée au déposant si elle a été signée, permettant ainsi au déposant de présenter cette déclaration signée directement à l'Office des brevets et des marques des États-Unis en tant qu'office désigné.

Enfin, suite aux modifications de la règle 48.2.b).iv), un nouveau point 8 a été ajouté à l'annexe D des instructions administratives afin de prévoir l'indication expresse, dans la gazette, du fait qu'une ou plusieurs déclarations visées à la règle 4.17 ont été faites et aux fins de quelles désignations elles l'ont été (le point 7 actuel n'a pas été modifié si ce n'est que le point final a été supprimé).

Modification des instructions administratives

Après consultation des offices et administrations intéressés conformément à la règle 89.2.a) du PCT, de nouvelles instructions 211 à 216, 317 et 419, les instructions 303 et 327 modifiées et l'annexe D modifiée, telles qu'elles figurent ci-après, sont promulguées avec effet au 1^{er} mars 2001. Le texte actuel des instructions administratives figure dans le numéro spécial de la Gazette du PCT n° S-03/1998 du 25 juin 1998 et les modifications précédentes dans la Gazette du PCT n° 51/1998 du 23 décembre 1998, page 17331 (instructions 102*bis* et 335) et dans la Gazette du PCT n° 02/2001 du 11 janvier 2001, page 823 (instructions 801 à 806). FEES PAYABLE UNDER THE PCT**AU Australia**

The **Australian Patent Office** has notified the International Bureau of a new fee in **Australian dollars (AUD)** for copies of documents contained in the file of the international application, as follows:

Fee for copies of documents contained in
the file of the international application
(PCT Rule 94): AUD 10 per document

[Updating of PCT Gazette No. S-01/2001 (E), Annex E(AU), page 304]

INCLUSION OF CERTAIN DECLARATIONS IN THE REQUEST, WITH A VIEW TO SIMPLIFYING NATIONAL PHASE PROCESSING OF PCT APPLICATIONS**Note Prepared by the International Bureau**

These modifications of the Administrative Instructions concern Sections 102 and 214.

New Section 214 (containing the standardized wording for the declaration of inventorship applicable only for the purposes of the designation of the United States of America) was promulgated in PCT Gazette No. 04/2001 on 25 January 2001, page 1602, together with other new Sections relating to declarations for the purposes of the national phase, all of which will enter into force on 1 March 2001. It has now been found necessary to make further modifications to Section 214, at the request of the United States Patent and Trademark Office. In particular, the standardized text of the declaration of inventorship, as contained in Section 214(a), is modified to bring it into line with the requirements of the national law applicable by that Office: (i) an express reference to the inventor's residence, etc., is introduced; (ii) a specific reference to PCT Rule 4.10 (Priority Claim) is included; (iii) two subparagraphs relating to the duty of disclosure under 37 C.F.R. § 1.56 are combined; and (iv) an express reference to the fact that the agent's signature cannot replace the inventor's signature is added. Furthermore, a new paragraph (b) relating to the requirement that all inventors be named in the declaration, even if they do not all sign the same (copy of that) declaration, is added. As a consequence, previously numbered paragraph (b) is renumbered as paragraph (c).

The opportunity is also taken to modify Section 102 (which relates to the use of Forms) to include, in the list of Forms for use by the receiving Offices and by the International Bureau, respectively, new Forms PCT/RO/156 (Invitation to Correct Declarations Made in the Request under PCT Rule 4.17) and PCT/IB/370 (Invitation to Correct Declarations Made in the Request under PCT Rule 4.17) and PCT/IB/371 (Notification Relating to Declaration Made in the Request under PCT Rule 4.17). This modification is in anticipation of the imminent promulgation of those new Forms, following consultation with the interested Offices and Authorities pursuant to PCT Rule 89.2(a), with effect from 1 March 2001.

Modifications to both Sections 102 and 214 are being promulgated with effect from 1 March 2001. See below for further details; see also WIPO document PCT/AI/1 Add.1ter Rev.1 (dated 19 January 2001), which supersedes document PCT/AI/1 Add.1ter (dated 12 January 2001) and which may be viewed on the WIPO Internet site at the following address: <http://www.wipo.int/pct/en/index.html>.

INCLUSION DE CERTAINES DÉCLARATIONS DANS LA REQUÊTE AFIN DE SIMPLIFIER LE TRAITEMENT DES DEMANDES PCT DURANT LA PHASE NATIONALE**Note du Bureau international**

Les présentes modifications des instructions administratives concernent les instructions 102 et 214.

La nouvelle instruction 214 (qui contient le libellé standard pour la déclaration relative à la qualité d'inventeur applicable seulement aux fins de la désignation des États-Unis d'Amérique) a été promulguée dans la Gazette du PCT n° 04/2001 du 25 janvier 2001, page 1603, avec d'autres nouvelles instructions relatives aux déclarations faites aux fins de la phase nationale, qui vont toutes entrer en vigueur le 1^{er} mars 2001. Il s'est avéré nécessaire maintenant d'apporter des changements supplémentaires à l'instruction 214, à la demande de l'Office des brevets et des marques des États-Unis d'Amérique. En particulier, le libellé standard de la déclaration relative à la qualité d'inventeur, figurant dans l'instruction 214.a), est modifié de manière à être aligné sur les exigences de la législation nationale applicable par cet office : i) une référence expresse au domicile de l'inventeur, etc., a été introduite; ii) une référence précise à la règle 4.10 du PCT (Revendications de priorité) a été ajoutée; iii) deux sous-alinéas se rapportant à l'obligation de divulgation selon le Titre 37, § 1.56, du Code fédéral des réglementations, ont été combinés; et iv) une référence expresse au fait que la signature du mandataire ne peut remplacer celle de l'inventeur a été ajoutée. De plus, un nouvel alinéa b) concernant l'exigence selon laquelle tous les inventeurs doivent être nommés dans la déclaration, même s'ils ne signent pas tous la même (copie de cette déclaration, a été ajouté. En conséquence, l'alinéa précédemment numéroté b) a été renuméroté c).

On a saisi aussi cette occasion pour modifier l'instruction 102 (relative à l'utilisation des formulaires) afin d'inclure, dans la liste des formulaires à l'usage des offices récepteurs et du Bureau international, respectivement, les nouveaux formulaires PCT/RO/156 (Invitation à corriger des déclarations faites dans la requête selon la règle 4.17 du PCT) et PCT/IB/370 (Invitation à corriger des déclarations faites dans la requête selon la règle 4.17 du PCT) et PCT/IB/371 (Notification relative à une déclaration faite dans la requête selon la règle 4.17 du PCT). Cette modification anticipe la promulgation imminente de ces nouveaux formulaires – avec effet au 1^{er} mars 2001 – qui fait suite à la consultation menée auprès des offices et administrations intéressés en vertu de la règle 89.2.a) du PCT.

Les modifications apportées aux instructions 102 et 214 sont promulguées avec effet au 1^{er} mars 2001. Voir ci-après pour de plus amples détails; voir également le document de l'OMPI PCT/AI/1 Add.1^{ter} Rev.1 (du 19 janvier 2001) qui remplace le document PCT/AI/1 Add.1^{ter} (du 12 janvier 2001) et qui peut être consulté sur le site Internet de l'OMPI à l'adresse suivante : <http://www.wipo.int/pct/fr/index.html>.

Modification of the Administrative Instructions

Following receipt from the United States Patent and Trademark Office of comments, within the framework of the consultation with the interested Offices and Authorities pursuant to PCT Rule 89.2(a), modified Section 214, as set out below, is promulgated with effect from 1 March 2001. Furthermore, modified Section 102, as set out below, is also promulgated from that date.

Other modifications, which will come into force on 1 March 2001 but which are partly superseded by the present modifications, are set out in PCT Gazette No. 04/2001 on 25 January 2001, page 1602. The corresponding WIPO documents (PCT/AI/1, PCT/AI/1 Add.1, PCT/AI/1 Add.1*bis* and PCT/AI/1 Add.1*ter* Rev.1) may be viewed on the WIPO Internet site at the following address: <http://www.wipo.int/pct/en/index.html>. (document PCT/AI/1 Add.1*ter* Rev.1 (dated 19 January 2001) supersedes document PCT/AI/1 Add.1*ter*. (dated 12 January 2001)).

Modification des instructions administratives

Suite à la réception de commentaires de la part de l'Office des brevets et des marques des États-Unis, dans le cadre de la consultation menée auprès des offices et administrations intéressés en vertu de la règle 89.2.a) du PCT, l'instruction 214 modifiée, telle qu'elle figure ci-après, est promulguée avec effet au 1^{er} mars 2001. De plus, l'instruction 102 modifiée, telle qu'elle figure ci-après, est aussi promulguée avec effet à cette date.

Le texte des instructions administratives, tel qu'il est en vigueur actuellement, figure dans le numéro spécial de la Gazette du PCT n° S-03/1998 du 25 juin 1998, sous réserve des modifications figurant dans la Gazette du PCT n° 51/1998 du 23 décembre 1998, page 17331, et dans la Gazette du PCT n° 02/2001 du 11 janvier 2001, page 823. D'autres modifications, qui entreront en vigueur le 1^{er} mars 2001 mais qui sont en partie remplacées par les présentes modifications, figurent dans la Gazette du PCT n° 04/2001 du 25 janvier 2001, page 1603. Les documents de l'OMPI correspondants (PCT/AI/1, PCT/AI/1 Add.1, PCT/AI/1 Add.1*bis* et PCT/AI/1 Add.1*ter* Rev.1) peuvent être consultés sur le site Internet de l'OMPI à l'adresse suivante : <http://www.wipo.int/pct/fr/index.html>. (le document PCT/AI/1 Add.1*ter* Rev.1 (du 19 janvier 2001) remplace le document PCT/AI/1 Add.1*ter* (du 12 janvier 2001)).

During its twenty-eighth (16th extraordinary) session, held in Geneva from 13 to 17 March 2000, the Assembly of the PCT Union adopted a number of amendments to the Regulations under the Patent Cooperation Treaty (PCT). Those amendments which will enter into force on 1 March 2001 and which have been published in PCT Gazette No. 42/2000 on 19 October 2000, include amendment or addition of Rules 51*bis*.1(e), 51*bis*.2(a) and 51*bis*.3(a). The amended Regulations provide, for each of those Rules, that if on 17 March 2000, the Rule is not compatible with the law applied by the designated Office, that Rule shall not apply to that Office for as long as it continues not to be compatible with that law, provided that the said Office informs the International Bureau accordingly by 30 November 2000 (see new Rules 51*bis*.1(f), 51*bis*.2(c) and 51*bis*.3(c)).

Le règlement d'exécution modifié prévoit, pour chacune de ces règles, que si, le 17 mars 2000, la règle n'est pas compatible avec la législation appliquée par l'office désigné, cette règle ne s'applique pas à l'égard de cet office aussi longtemps qu'elle reste incompatible avec cette législation, à condition que l'office en informe le Bureau international au plus tard le 30 novembre 2000 (voir les nouvelles règles 51*bis*.1.f), 51*bis*.2.c) et 51*bis*.3.c)).

**ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT
MODIFICATION OF ANNEX A—FORMS****Form PCT/RO/101 (Request)**

As a result of the amendments of the Regulations under the PCT and the modifications of the Administrative Instructions under the PCT which will enter into force on 1 March 2001 (see Notes published in PCT Gazette No. 42/2000 of 19 October 2000, page 15522, No. 04/2001 of 25 January 2001, page 1602 and No. 05/2001 of 1 February 2001, page 2014) the Request Form and the Notes to the request form, the Fee Calculation Sheet (Annex to the request) and the Notes to the fee calculation sheet have been modified with effect from 1 March 2001.

Furthermore, the Request Form, the Notes thereto, the Fee Calculation Sheet and the Notes thereto have been modified so as to take into account new Sections 801 to 806 of the Administrative Instructions—promulgated with effect from 11 January 2001—relating to the filing in computer readable form of the sequence listing part of the description of an international application (see Note published in PCT Gazette No. 02/2001 of 11 January 2001, page 818).

Finally, the opportunity was taken to modify the Request Form, the Notes thereto, the Fee Calculation Sheet and the Notes thereto so as to take into account a number of comments received since the last major revision of the Form in 1998, to harmonize the terms used and to review both the English and French versions for editorial reasons.

The following modifications have been made, noting that modifications of a mere editorial nature or in the layout are not specifically identified below:

- (a) a field has been added in Boxes Nos. II and III for the indication of the applicant's registration number with the Office;
- (b) the check-box and the words "This person is also inventor" have been re-positioned at the top of Box No. II to accommodate the new field for the applicant's registration number;
- (c) a field has been added in Box No. IV for the indication of the agent's registration number with the Office;
- (d) the contents of the current "last sheet" of the Request Form (Boxes Nos. VI to IX, as well as the spaces reserved for the receiving Office and for the International Bureau) have been spread over two sheets (that is, "third sheet" and "last sheet") to allow for the inclusion of a new Box No. VIII (see below);
- (e) the space in Box No. VI for indicating priority claims has been expanded;
- (f) in the Supplemental Box, the text of item 3, relating to statements concerning non-prejudicial disclosures or exceptions to lack of novelty, has been deleted since that matter is now provided for in new Declaration Box No. VIII (v) (see below);
- (g) a new Box "Declarations" has been introduced as Box No. VIII;
- (h) six different optional sheets for declarations—one for each of the five types of declarations provided for in Rule 4.17 (new Boxes Nos. VIII (i) to (v)) and a continuation sheet (new "Continuation of Box No. VIII (i) to (v)")—have been added, immediately following Box No. VIII;
- (i) except in respect of new Declaration Box No. VIII (iv), the standardized text for the declarations is not pre-printed in the corresponding Boxes because of the large number of options that applicants will be able to choose, and the order in which the selected options should appear will vary from case to case;

**INSTRUCTIONS ADMINISTRATIVES DU PCT
MODIFICATION DE L'ANNEXE A – FORMULAIRES****Formulaire PCT/RO/101 (Requête)**

Suite aux modifications du règlement d'exécution du PCT et des Instructions administratives du PCT qui entreront en vigueur le 1^{er} mars 2001 (se référer aux notes publiées dans la Gazette du PCT n° 42/2000 du 19 octobre 2000, page 15523, n° 04/2001 du 25 janvier 2001, page 1603, et n° 05/2001 du 1^{er} février 2001, page 2015), le formulaire de requête et les notes relatives au formulaire de requête, la feuille de calcul des taxes (annexe de la requête) et les notes relatives à la feuille de calcul des taxes ont été modifiés avec effet au 1^{er} mars 2001.

De plus, le formulaire de requête, les notes y relatives, la feuille de calcul des taxes et les notes y relatives ont été modifiés pour tenir compte des nouvelles instructions administratives 801 à 806 – promulguées avec effet au 11 janvier 2001 – concernant le dépôt sous forme déchiffable par ordinateur de la partie de la description réservée aux listages des séquences d'une demande internationale (se référer à la note publiée dans la Gazette du PCT n° 02/2001 du 11 janvier 2001, page 819).

Enfin, on a saisi cette occasion pour modifier le formulaire de requête, les notes y relatives, la feuille de calcul des taxes et les notes y relatives pour tenir compte d'un certain nombre de commentaires reçus depuis la dernière révision importante du formulaire en 1998, afin d'harmoniser la terminologie utilisée et de réviser à la fois les versions anglaise et française pour des raisons d'ordre rédactionnel.

Les modifications suivantes ont été apportées, étant entendu que les changements d'ordre purement rédactionnel ou de format ne sont pas mentionnés ci-dessous :

- a) un champ a été ajouté dans les cadres n^{os} II et III pour permettre d'indiquer le numéro sous lequel le déposant est inscrit auprès de l'office;
- b) la case et les mots "Cette personne est aussi inventeur" ont été déplacés en haut du cadre n° II afin de libérer la place nécessaire pour le numéro sous lequel le déposant est inscrit;
- c) un champ a été ajouté dans le cadre n° IV pour permettre d'indiquer le numéro sous lequel le mandataire est inscrit auprès de l'office;
- d) le contenu de l'actuelle "dernière feuille" du formulaire de requête (cadres n^{os} VI à IX, de même que les espaces réservés à l'office récepteur et au Bureau international) a été réparti sur deux feuilles (c'est-à-dire, la "troisième feuille" et la "dernière feuille") pour permettre l'inclusion d'un nouveau cadre n° VIII (voir ci-dessous);
- e) la place réservée aux revendications de priorité dans le cadre n° VI a été agrandie;
- f) le texte figurant au point 3 dans le cadre supplémentaire, relatif à la déclaration concernant des divulgations non opposables ou des exceptions au défaut de nouveauté, a été supprimé étant donné que cette question est maintenant prévue dans un nouveau cadre de déclaration n° VIII.v) (voir ci-dessous);
- g) un nouveau cadre "Déclarations" a été introduit en tant que cadre n° VIII;
- h) six différentes feuilles facultatives de déclarations – une pour chacun des cinq types de déclarations prévues par la règle 4.17 (nouveaux cadres n^{os} VIII.i) à v)) et une feuille annexe ("Suite du cadre n° VIII.i) à v)") – ont été ajoutées, immédiatement après le cadre n° VIII;
- i) sauf en ce qui concerne le nouveau cadre de déclaration n° VIII.iv), le libellé standard pour les déclarations n'est pas pré-imprimé dans les cadres correspondants, en raison du trop grand nombre d'options qu'auront les déposants et parce que l'ordre dans lequel devront apparaître les options sélectionnées variera au cas par cas;

**ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT
MODIFICATION OF ANNEX A—FORMS (Cont'd)****Form PCT/RO/101 (Request) (Cont'd)**

(j) the standardized wording of the declaration of inventorship which is applicable only for the purpose of the designation of the United States of America has been pre-printed in new Box No. VIII (iv) since no part of that wording may be omitted by applicants;

(k) present Boxes Nos. VIII and IX have been re-numbered as Boxes Nos. IX and X respectively;

(l) Box No. IX (Check List) has been modified to include in the left column a specific space for the indication that the sequence listing part of the description of an international application is filed in computer readable form under new Section 801 of the Administrative Instructions, and, in the right column, the item relating to sequence listings has been expanded accordingly; furthermore, a space has been introduced for indicating a new item (original general power of attorney) which may accompany the international application;

(m) the title of Box No. X has been changed to include a reference to signature by the applicant, agent or common representative;

(n) the Fee Calculation Sheet has been modified to allow for the specific indication of the additional component (referred to as “b3”) of the basic fee in cases where the sequence listing part of the description of an international application is filed under new Section 801(a), as mentioned under item (l), above;

(o) the “Deposit Account Authorization” part of the Fee Calculation Sheet has been simplified and the layout changed so as to provide for additional space for filling in the necessary indications.

Furthermore, Box No.V of the Request Form, the Notes relating thereto and the Notes to the fee calculation sheet have been modified to take into account the entry into force of the PCT in respect of Colombia (on 28 February 2001) and the fact that utility models are no longer available in Ghana but that utility certificates are now available in Ghana.

All the sheets of the Request Form, including the Notes to the request form, the Fee Calculation Sheet and the Notes to the fee calculation sheet, are dated March 2001 (date of issuance of the sheets) and are reproduced on the following pages (without pagination so as to enable convenient reproduction). Copies can be obtained free of charge from receiving Offices and the International Bureau, and will also be available from WIPO Internet site at the following address: <http://www.wipo.int/pct/en/index.html>.

Only the updated version of the Request Form should be used for international applications filed from 1 March 2001.

Form PCT/IPEA/401 (Demand)

The following modifications have been made to the Demand Form, the Notes to the Demand Form, the Fee Calculation Sheet (Annex to the demand) and the Notes to the fee calculation sheet with effect from 1 March 2001. Note that modifications of a mere editorial nature or in the layout are not specifically identified below:

Boxes Nos. II and III have been modified in the same manner as the corresponding parts of the Request Form in respect of the applicant's and agent's registration numbers.

**INSTRUCTIONS ADMINISTRATIVES DU PCT
MODIFICATION DE L'ANNEXE A – FORMULAIRES (suite)****Formulaire PCT/RO/101 (Requête) (suite)**

j) le libellé standard de la déclaration relative à la qualité d'inventeur qui est applicable seulement aux fins de la désignation des États-Unis d'Amérique a été pré-imprimé dans le nouveau cadre n° VIII.iv) puisque les déposants n'ont pas le droit d'omettre une quelconque partie de ce libellé;

k) les cadres actuels n^{os} VIII et IX ont été renumérotés en tant que cadres n^{os} IX et X, respectivement;

l) on a modifié le cadre n° IX (Bordereau) pour y inclure, dans la colonne de gauche, une rubrique servant à indiquer que la partie de la description réservée au listage des séquences d'une demande internationale est déposée sous forme déchiffrable par ordinateur selon la nouvelle instruction administrative 801 et, dans la colonne de droite, le point relatif au listage des séquences a été développé en conséquence; de plus, un espace a été introduit pour permettre d'indiquer un nouvel élément (original du pouvoir général) qui peut être joint à la demande internationale;

m) on a modifié le titre du cadre n° X pour y inclure une référence à la signature du déposant, du mandataire ou du représentant commun;

n) la feuille de calcul des taxes a été modifiée pour permettre d'indiquer la composante supplémentaire (indiquée par "b3") de la taxe de base dans les cas où la partie de la description réservée aux listages des séquences d'une demande internationale est déposée en vertu de la nouvelle instruction 801.a), comme mentionné ci-dessus sous le point l);

o) la partie "Autorisation concernant un compte de dépôt" de la feuille de calcul des taxes a été simplifiée et la disposition modifiée pour gagner de la place, ce qui permettra de compléter les indications nécessaires.

De plus, le cadre n° V du formulaire de requête, les notes y relatives et les notes de la feuille de calcul des taxes ont été modifiés pour tenir compte de l'entrée en vigueur du PCT en ce qui concerne la Colombie (le 28 février 2001) et du fait que des certificats d'utilité sont disponibles au Ghana alors que les modèles d'utilité ne le sont plus.

Toutes les feuilles du formulaire de requête, y compris les notes relatives au formulaire de requête, la feuille de calcul des taxes et les notes relatives à la feuille de calcul des taxes, sont datées de mars 2001 (date d'émission de ces feuilles) et sont reproduites sur les pages suivantes (sans pagination pour qu'il soit possible de les reproduire aisément). Des copies peuvent être obtenues gratuitement auprès des offices récepteurs et du Bureau international et seront également disponibles sur le site Internet de l'OMPI à l'adresse suivante : <http://www.wipo.int/pct/fr/index.html>.

Formulaire PCT/IPEA/401 (demande d'examen préliminaire international)

NOTES TO THE REQUEST FORM (PCT/RO/101)

These Notes are intended to facilitate the filling in of the request form. For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the Patent Cooperation Treaty (PCT), the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the request form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the PCT Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with black ink (Rule 11.9(a) and (b)).

The request form and these Notes may be downloaded from WIPO's Website at the address given above.

WHERE TO FILE THE INTERNATIONAL APPLICATION

The international application (request, description, claims, abstract and drawings, if any) must be filed with a competent receiving Office (Article 11(1)(i))—that is, subject to any applicable prescriptions concerning national security, at the choice of the applicant, either:

(i) the receiving Office of, or acting for, a PCT Contracting State of which the applicant or, if there are two or more applicants, at least one of them, is a resident or national (Rule 19.1(a)(i) or (ii) or (b)), or

(ii) the International Bureau of WIPO in Geneva, Switzerland, if the applicant or, if there are two or more applicants, at least one of the applicants is a resident or national of any PCT Contracting State (Rule 19.1(a)(iii)).

APPLICANT'S OR AGENT'S FILE REFERENCE

A **file reference** may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded by the receiving Office or any International Authority (Rule 11.6(f) and Section 109).

BOX No. I

Title of Invention (Rules 4.3 and 5.1(a)): The title must be short (preferably two to seven words when in English or translated into English) and precise. It must be identical with the title heading the description.

BOXES Nos. II AND III

General: At least one of the applicants named must be a resident or national of a PCT Contracting State for which the receiving Office acts (Articles 9 and 11(1)(i) and Rules 18 and 19). If the international application is filed with the International Bureau under Rule 19.1(a)(iii), at least one of the applicants must be a resident or national of any PCT Contracting State.

If the United States of America is designated, all of the inventors must be named also as applicants for the purposes of that designation (see "Different Applicants for Different Designated States", below).

Indication Whether a Person is Applicant and/or Inventor (Rules 4.5(a) and 4.6(a) and (b)):

Check-box "This person is also inventor" (Box No. II): Mark this check-box if the applicant named is also the inventor or one of the inventors; do not mark this check-box if the applicant is a legal entity.

Check-box "applicant and inventor" (Box No. III): Mark this check-box if the person named is both applicant and inventor; do not mark this check-box if the person is a legal entity.

Check-box "applicant only" (Box No. III): Mark this check-box if the person named is a legal entity or if the person named is not also inventor.

Check-box "inventor only" (Box No. III): Mark this check-box if the person named is inventor but not also applicant; do not mark this check-box if the person is a legal entity.

In Box No. III, one of the three check-boxes must always be marked for each person named.

A person must not be named more than once in Boxes Nos. II and III, even where that person is both applicant and inventor.

Names and Addresses (Rule 4.4): The family name (preferably in capital letters) must be indicated before the given name(s). Titles and academic degrees must be omitted. Names of legal entities must be indicated by their full official designations.

The address must be indicated in such a way that it allows prompt postal delivery; it must consist of all the relevant administrative units (up to and including the indication of the house number, if any), the postal code (if any), and the name of the country.

Only one address may be indicated per person. For the indication of a special "address for correspondence", see the notes to Box No. IV.

Telephone, Facsimile and/or Teleprinter Numbers should be indicated for the person named in Box No. II in order to allow rapid communication with the applicant. Any such number should include the applicable country and area codes.

Applicant's registration number with the Office (Rule 4.5(e)): Where the applicant is registered with the national or regional Office acting as receiving Office, the request may indicate the number or other indication under which the applicant is so registered.

Nationality (Rules 4.5(a) and (b) and 18.1): For each applicant, the nationality must be indicated by the name or two-letter code of the State (that is, country) of which the person is a national. A legal entity constituted according to the national law of a State is considered a national of that State. The indication of the nationality is not required where a person is inventor only.

Residence (Rules 4.5(a) and (c) and 18.1): For each applicant, the residence must be indicated by the name or two-letter code of the State (that is, country) of which the person is a resident. If the State of residence is not indicated, it will be assumed to be the same as the State indicated in the address. Possession of a real and effective industrial or commercial establishment in a State is considered residence in that State. The indication of the residence is not required where a person is inventor only.

NOTES RELATIVES AU FORMULAIRE DE REQUÊTE (PCT/RO/101)

Ces notes sont destinées à faciliter l'utilisation du formulaire de requête. On peut aussi trouver de plus amples renseignements dans le *Guide du déposant du PCT*, publié par l'OMPI, qui est disponible, de même que d'autres documents relatifs au PCT, sur le site Internet de l'OMPI à l'adresse suivante : www.OMPI.int/pct/fr/index.html. Les notes sont fondées sur les exigences du Traité de coopération en matière de brevets (PCT), du règlement d'exécution et des Instructions administratives du PCT. En cas de divergence entre les présentes notes et ces exigences, ce sont ces dernières qui priment.

Dans le formulaire de requête et dans les présentes notes, les termes "article", "règle" et "instruction" renvoient aux dispositions du traité, de son règlement d'exécution et des Instructions administratives du PCT, respectivement.

Prière de remplir le formulaire à la machine à écrire; les cases appropriées peuvent être cochées à la main, à l'encre noire (règle 11.9.a) et b)).

Le formulaire de requête et les présentes notes peuvent être téléchargés depuis le site Internet de l'OMPI à l'adresse donnée ci-dessus.

OÙ DÉPOSER LA DEMANDE INTERNATIONALE

Il faut que la demande internationale (requête, description, revendications, abrégé et, le cas échéant, dessins) soit déposée auprès d'un office récepteur compétent (article 11.1)i)), c'est-à-dire sous réserve des dispositions applicables en matière de défense nationale et au choix du déposant,

i) l'office récepteur d'un État contractant du PCT ou l'office agissant pour un tel État, dans lequel le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié ou dont il a la nationalité (règle 19.1.a)i) ou ii) ou b)), ou

ii) le Bureau international de l'OMPI à Genève (Suisse) si le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié dans l'un quelconque des États contractants du PCT ou a la nationalité d'un tel État (règle 19.1.a)iii)).

RÉFÉRENCE DU DOSSIER DU DÉPOSANT OU DU MANDATAIRE

Il est possible d'indiquer, à titre facultatif, une telle **référence de dossier**. Celle-ci ne devrait pas dépasser 12 caractères. L'office récepteur ou toute administration internationale peut ne pas tenir compte des caractères en sus du douzième (règle 11.6.f) et instruction 109).

CADRE N° I

Titre de l'invention (règles 4.3 et 5.1.a)) : le titre doit être bref (de préférence de deux à sept mots lorsqu'il est établi ou traduit en anglais) et précis. Il doit être identique à celui qui figure en tête de la description.

CADRES N°s II ET III

Remarque générale : l'un au moins des déposants mentionnés doit être domicilié dans un État contractant du PCT pour lequel l'office récepteur agit, ou avoir la nationalité d'un tel État (articles 9 et 11.1)i) et règles 18 et 19). Si la demande internationale est déposée auprès du Bureau international en vertu de la règle 19.1.a)iii)), l'un au moins des déposants doit être domicilié dans un État contractant du PCT ou avoir la nationalité d'un tel État.

Si les États-Unis d'Amérique sont désignés, tous les inventeurs doivent être mentionnés également comme déposants pour cette désignation (voir, ci-après, "Déposants différents pour différents États désignés").

Indication visant à établir si une personne est déposant ou inventeur, ou les deux à la fois (règles 4.5.a) et 4.6.a) et b)) :

Case "Cette personne est aussi inventeur" (cadre n° II) : cocher cette case si la personne mentionnée est aussi l'inventeur ou l'un des inventeurs; ne pas la cocher si le déposant est une personne morale.

Case "déposant et inventeur" (cadre n° III) : cocher cette case si la personne mentionnée a les deux qualités, celle de déposant et celle d'inventeur; ne pas la cocher si cette personne est une personne morale.

Case "déposant seulement" (cadre n° III) : cocher cette case si la personne mentionnée est une personne morale ou si elle n'a pas aussi la qualité d'inventeur.

Case "inventeur seulement" (cadre n° III) : cocher cette case si la personne mentionnée a la qualité d'inventeur mais pas celle de déposant; ne pas la cocher si cette personne est une personne morale.

Dans le cadre n° III, il faut que l'une des trois cases soit cochée pour chaque personne mentionnée.

Une personne ne doit être mentionnée qu'une seule fois dans les cadres n° II et III, même si elle est à la fois déposant et inventeur.

Noms et adresses (règle 4.4) : le nom de famille (de préférence en lettres majuscules) doit précéder le ou les prénoms. Les titres et les diplômes universitaires ne doivent pas être mentionnés. Les personnes morales doivent être nommées par leurs désignations officielles complètes.

L'adresse doit être indiquée de manière à permettre une distribution postale rapide; elle doit comprendre toutes les unités administratives pertinentes (jusques et y compris le numéro de la maison, s'il y en a un), le code postal, s'il y en a un, et le nom du pays.

Il ne peut être indiqué qu'une seule adresse par personne. En ce qui concerne l'indication d'une adresse spéciale pour la correspondance, voir les notes relatives au cadre n° IV.

Pour permettre une communication rapide avec le déposant, il y a lieu d'indiquer les **numéros de téléphone, de télécopieur ou de téléimprimeur** de la personne mentionnée dans le cadre n° II. Tout numéro de ce type doit comporter les indicatifs de pays et de zone en vigueur.

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 4.5.e)) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Nationalité (règles 4.5.a) et b) et 18.1) : la nationalité de chaque déposant doit être indiquée au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) dont l'intéressé

Names of States (Section 115): For the indication of names of States, the two-letter codes appearing in WIPO Standard ST.3 and in the *PCT Applicant's Guide*, Volume I/B, Annex K, may be used.

Different Applicants for Different Designated States (Rules 4.5(d), 18.3 and 19.2): It is possible to indicate different applicants for the purposes of different designated States. At least one of all the applicants named must be a national or resident of a PCT Contracting State for which the receiving Office acts, irrespective of the designated State(s) for the purposes of which that applicant is named. *Where the United States of America is one of the designated States, all of the inventors must be named also as applicants for the United States of America and the check-boxes "This person is also inventor" (in Box No. II) and/or "applicant and inventor" (in Box No. III) must be marked.*

For the indication of the designated States for which a person is applicant, mark the applicable check-box (only one for each person). The check-box "the States indicated in the Supplemental Box" must be marked where none of the other three check-boxes fits the circumstances; in such a case, the name of the person must be repeated in the Supplemental Box with an indication of the States for which that person is applicant (see item 1(ii) in that Box).

Naming of Inventor (Rule 4.1(a)(v) and (c)(i)): The inventor's name and address must be indicated where the national law of at least one of the designated States requires that the name of the inventor be furnished at the time of filing; for details, see the *PCT Applicant's Guide*, Volume I/A, Annexes B1 and B2. It is strongly recommended to always name the inventor.

Different Inventors for Different Designated States (Rule 4.6(c)): Different persons may be indicated as inventors for different designated States (for example, where, in this respect, the requirements of the national laws of the designated States are not the same); in such a case, the Supplemental Box must be used (see item 1(iii) in that Box). In the absence of any indication, it will be assumed that the inventor(s) named is (are) inventor(s) for all designated States.

BOX No. IV

Who Can Act as Agent (Article 49 and Rule 83.1bis): For each of the receiving Offices, information as to who can act as agent is given in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Agent or Common Representative (Rules 4.7, 4.8, 90.1 and 90.2 and Section 108): Mark the applicable check-box in order to indicate whether the person named is (or has been) appointed as "agent" or "common representative" (the "common representative" must be one of the applicants). For the manner in which name(s) and address(es) (including names of States) must be indicated, see the notes to Boxes Nos. II and III. Where several agents are listed, the agent to whom correspondence should be addressed is to be listed first. If there are two or more applicants but no common agent is appointed to represent all of them, one of the applicants who is a national or resident of a PCT Contracting State may be appointed by the other applicants as their common representative. If this is not done, the applicant first named in the request who is entitled to file an international application with the receiving Office concerned will automatically be considered to be the common representative.

Manner of Appointment of Agent or Common Representative (Rules 90.4 and 90.5 and Section 106): Any such appointment may be made by designating the agent(s) or the common representative in the request or in one or more separate powers of attorney. Each applicant must sign either the request or a separate power of attorney. Where the

international application is filed with reference to a general power of attorney, a copy thereof must be attached to the request. Any applicant who did not sign the general power of attorney must sign either the request or a separate power of attorney.

Agent's registration number with the Office (Rule 4.7(b)): Where the agent is registered with the national or regional Office that is acting as receiving Office, the request may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. IV will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II or III, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address must be indicated in Box No. IV instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. IV must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" has been marked).

BOX No. V

Designation of States (Rules 4.1(a)(iv) and 4.9(a)): The Contracting States in which protection is desired must be designated under Rule 4.9(a) in the request by marking the applicable check-boxes. At least one check-box effecting a specific designation must be marked. *While the general rule is that designations cannot be added after the filing of the international application, it is possible to make a precautionary designation under Rule 4.9(b) covering all other designations which would, as at the international filing date, be permitted under the PCT (see "Precautionary Designation of States Subject to Confirmation", below).*

Where regional (ARIPO, Eurasian, European and/or OAPI) patents are desired, only one PCT designation fee must be paid for each regional designation made, independently of how many States are covered by each such designation.

AP ARIPO Patent: Note that **SZ Swaziland** can only be designated for the purposes of an ARIPO patent and not for the purposes of a national patent. All other PCT Contracting States which are also party to the Harare Protocol can be designated either for a national or an ARIPO patent, or both a national and an ARIPO patent.

EA Eurasian Patent: All PCT Contracting States which are also party to the Eurasian Patent Convention can be designated either for a national or a Eurasian patent, or both a national and a Eurasian patent. Note, however, that it is not possible to designate only some of these States for a Eurasian patent and that any designation of one or more States for a Eurasian patent will be treated as a designation of all the States which are party to both the Convention and the PCT for a Eurasian patent.

EP European Patent: Note that **BE Belgium, CY Cyprus, FR France, GR Greece, IE Ireland, IT Italy, MC Monaco and NL Netherlands** can only be designated for the purposes of a European patent and not for the purposes of a national patent. All other PCT Contracting States which are also party

est ressortissant. Une personne morale constituée conformément à la législation d'un État contractant est considérée comme ayant la nationalité de cet État. L'indication de la nationalité n'est pas exigée lorsqu'une personne est inventeur seulement.

Domicile (règles 4.5.a) et c) et 18.1) : le domicile de chaque déposant doit être indiqué au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) où l'intéressé a son domicile. Si, cependant, le domicile n'est pas indiqué, l'État du domicile sera présumé être le même que celui qui est indiqué dans l'adresse. La possession d'un établissement industriel ou commercial effectif et sérieux dans un État est considérée comme constituant domicile dans cet État. L'indication du domicile n'est pas exigée lorsqu'une personne est inventeur seulement.

Nom des États (instruction 115) : pour indiquer le nom des États, on peut utiliser le code à deux lettres qui figure dans la norme ST.3 de l'OMPI et dans le *Guide du déposant du PCT*, volume I/B, annexe K.

Dépôts différents pour différents États désignés (règles 4.5.d), 18.3 et 19.2) : il est possible d'indiquer des dépôts différents pour différents États désignés. L'un au moins des déposants indiqués – quels que soient l'État ou les États désignés pour lesquels il est indiqué – doit être ressortissant d'un État contractant du PCT pour lequel l'office récepteur agit ou avoir son domicile dans un tel État. *Lorsque les États-Unis d'Amérique sont l'un des États désignés, tous les inventeurs doivent être indiqués comme déposants pour les États-Unis d'Amérique et les cases "Cette personne est aussi inventeur" (dans le cadre n° II) ou "déposant et inventeur" (dans le cadre n° III) doivent être cochées.*

Afin d'indiquer les États désignés pour lesquels une personne est déposant, il y a lieu de cocher la case appropriée (une seule case par personne). La case "les États indiqués dans le cadre supplémentaire" doit être cochée lorsque aucune des trois autres cases ne convient; en pareil cas, le nom de la personne doit être repris dans le cadre supplémentaire et assorti de l'indication des États pour lesquels cette personne est déposant (voir le point 1.ii) de ce cadre).

Mention de l'inventeur (règle 4.1.a)v) et c)i)) : le nom et l'adresse de l'inventeur doivent être indiqués lorsque la législation nationale d'un État désigné au moins exige la communication du nom de celui-ci lors du dépôt; pour plus de précisions, voir le *Guide du déposant du PCT*, volume I/A, annexes B1 et B2. Il est vivement recommandé de toujours indiquer le nom de l'inventeur.

Inventeurs différents pour différents États désignés (règle 4.6.c)) : des personnes différentes peuvent être indiquées en tant qu'inventeurs pour différents États désignés (par exemple, lorsque, en la matière, les exigences des législations nationales des États désignés diffèrent); en pareil cas, il y a lieu d'utiliser le cadre supplémentaire (voir le point 1.iii) de ce cadre). En l'absence d'indication, il sera supposé que l'inventeur ou les inventeurs mentionnés ont la qualité d'inventeur pour tous les États désignés.

CADRE N° IV

Qui peut agir en qualité de mandataire ? (article 49 et règle 83.1bis) : pour chacun des office récepteurs, on trouvera, dans le *Guide du déposant du PCT*, volume I/B, annexe C, des informations sur le point de savoir qui peut agir en qualité de mandataire.

Mandataire ou représentant commun (règles 4.7, 4.8, 90.1 et 90.2 et instruction 108) : cocher la case appropriée pour indiquer si la personne mentionnée est (ou a été) désignée comme "mandataire" ou "représentant commun" (le

"représentant commun" doit être l'un des déposants). Pour ce qui est de la façon d'indiquer les noms et adresses (y compris le nom des États), il convient de se reporter aux notes relatives aux cadres n°s II et III. Lorsque plusieurs mandataires sont indiqués, il faut mentionner en premier lieu celui à qui la correspondance doit être adressée. S'il y a plusieurs déposants mais aucun mandataire commun désigné pour les représenter tous, l'un des déposants qui est ressortissant d'un État contractant du PCT ou qui a son domicile dans un tel État peut être désigné par les autres comme leur représentant commun. A défaut, le déposant nommé en premier lieu dans la requête qui est autorisé à déposer une demande internationale auprès de l'office récepteur en question sera automatiquement considéré comme le représentant commun.

Mode de désignation d'un mandataire ou d'un représentant commun (règles 90.4 et 90.5 et instruction 106) : la désignation du ou des mandataires ou du représentant commun peut être effectuée dans la requête ou dans un ou plusieurs pouvoirs distincts. Chaque déposant doit signer la requête ou un pouvoir distinct. Si la demande internationale déposée fait état d'un pouvoir général, une copie de celui-ci doit être jointe à la requête. Tout déposant n'ayant pas signé le pouvoir général doit signer soit la requête soit un pouvoir distinct.

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 4.7.b)) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° IV sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II ou III – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, cette adresse doit être indiquée dans le cadre n° IV, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas, et seulement dans ce cas, qu'il y a lieu de cocher la dernière case du cadre n° IV (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° V

Désignation d'États (règles 4.1.a)iv) et 4.9.a)) : pour désigner conformément à la règle 4.9.a), dans la requête, les États contractants où la protection est demandée, il faut cocher les cases appropriées. Il faut qu'au moins une case, correspondant à une désignation expresse, soit cochée. *Bien que la règle générale soit qu'aucune désignation ne peut être ajoutée après le dépôt de la demande internationale, il est possible d'effectuer une désignation de précaution conformément à la règle 4.9.b) pour couvrir toutes les autres désignations qui, à la date du dépôt international, seraient autorisées selon le PCT (voir ci-après la rubrique "Désignation d'États à titre de précaution sous réserve de confirmation").*

Lorsque des brevets régionaux (ARIPO, eurasiatique, européen ou OAPI) sont demandés, une seule taxe de désignation du PCT est due pour chaque désignation régionale effectuée, quel que soit le nombre d'États couverts par celle-ci.

to the European Patent Convention can be designated either for a national or a European patent, or both a national and a European patent.

If an ARIPO or a European patent is desired for only some of the Contracting States of the Harare Protocol or the European Patent Convention, respectively, the names of those States for which a regional patent is not desired may be deleted by striking them out. However, it is recommended that the applicant always designate for the purposes of a regional patent all PCT Contracting States which are also Contracting States of the Protocol or the Convention, respectively. A decision to proceed with only some of those designations need not be made until entry into the regional phase, at which stage the corresponding regional designation fees must be paid.

Where any of the Contracting States of the Harare Protocol, the Eurasian Patent Convention or the European Patent Convention and the PCT is designated twice, namely *both* for the purposes of an ARIPO, a Eurasian or a European patent *and* for the purposes of national protection, the applicant must pay one designation fee in respect of the regional patent and as many designation fees as there are national patents or other titles of protection sought (Rule 15.1(ii) and Section 210).

Extension of EP European Patent to Certain States: If it is intended, at the time of entry into the European regional phase, to request the extension of the subsequently granted European patent to AL Albania, LT Lithuania, LV Latvia, MK The former Yugoslav Republic of Macedonia, RO Romania and/or SI Slovenia (and/or to any other PCT Contracting State for which, on the date of filing of the international application, an extension agreement with the European Patent Organisation is in force), Box No. V must contain *both* a designation of the State concerned for the purposes of a national patent and *also* a designation, for the purposes of obtaining a European patent, of at least one PCT Contracting State party to the European Patent Convention.

OA OAPI Patent: The designation of States members of OAPI and party to the PCT can only be made for the purposes of an OAPI patent (no national protection is available); furthermore, it is not possible to designate only some of them.

Choice of Certain Kinds of Protection or Treatment (Rules 4.12 to 4.14 and Section 202): Where, in any country where it is possible, a national title other than a patent is desired, write the name or two-letter code of that country followed by the name of the title; that is, “petty patent” (available in AU Australia and YU Yugoslavia), “provisional patent” (available in AM Armenia, KG Kyrgyzstan, KZ Kazakhstan, TM Turkmenistan, UZ Uzbekistan), “utility model” (available in AL Albania, AM Armenia, AT Austria, BG Bulgaria, BR Brazil, BY Belarus, BZ Belize, CN China, CR Costa Rica, CZ Czech Republic, DE Germany, DK Denmark, EE Estonia, ES Spain, FI Finland, GE Georgia, HU Hungary, JP Japan, KE Kenya, KG Kyrgyzstan, KR Republic of Korea, KZ Kazakhstan, LS Lesotho, MD Republic of Moldova, MX Mexico, PL Poland, PT Portugal, RU Russian Federation, SK Slovakia, SL Sierra Leone, TJ Tajikistan, TR Turkey, UA Ukraine, UZ Uzbekistan, VN Viet Nam, OA OAPI), “consensual patent” (available in HR Croatia), “utility certificate” (available in GH Ghana, TT Trinidad and Tobago, UG Uganda) or “inventor’s certificate” (available in CU Cuba and KP Democratic People’s Republic of Korea). Where, in AT Austria, CZ Czech Republic, DE Germany, DK Denmark, EE Estonia, FI Finland or SK Slovakia (the only countries in which this possibility exists), in addition to a patent, a utility model is also desired, write after the name of that country “and utility model”.

Where, in respect of any country where it is possible, it is desired that the international application be treated as an application for a certain title “of addition” or as an application for a “continuation” or a “continuation-in-part”, write after the name of that country the appropriate words; that is, “patent of

addition” (available in AT Austria, AU Australia, BA Bosnia and Herzegovina, CU Cuba, DE Germany, ES Spain, IL Israel, IN India, MK The former Yugoslav Republic of Macedonia, MW Malawi, NZ New Zealand, SI Slovenia, TR Turkey, YU Yugoslavia, ZA South Africa, ZW Zimbabwe), “certificate of addition” (available in BR Brazil, DZ Algeria, MA Morocco, MG Madagascar, OA OAPI), “inventor’s certificate of addition” (available in CU Cuba), “continuation” or “continuation-in-part” (both available in US United States of America). If any of these indications is used, also indicate in the Supplemental Box the State for which such treatment is desired, the number of the parent title or parent application, and the date of the grant of the parent title or the date of filing of the parent application, as the case may be (see item 1(v) in that Box).

If, in Box No. V, the check-boxes for making designations are marked with consecutive Arabic numerals, those indications will be taken to express the applicant’s *choice of the order of the designations*; if another form of marking is used, the order will be taken as that in which the marked check-boxes appear on the form. This order will only have any significance if the amount received for the designation fees is insufficient to cover all the designations and remains insufficient after the applicant has been invited to pay the balance due; in that case, the amount received will be applied in payment of the fees for the designations following the said order (Rule 16bis.1(c) and Section 321).

The check-boxes located towards the bottom of Box No. V are reserved for designating, for the purposes of a national patent, States which have become party to the PCT after the date appearing at the bottom of the second sheet of the request form; in such a case, the name of the State, preferably preceded by the two-letter code, must be indicated on the dotted line and the corresponding check-box must be marked (together with an indication, where applicable, whether a special kind of protection or treatment is desired).

Precautionary Designation of States Subject to Confirmation (Rules 4.9(b) and (c) and 15.5): For the applicant’s safeguard, the lower part of Box No. V contains a statement (“Precautionary Designation Statement”) indicating the applicant’s wish to make, as a matter of precaution, in addition to the specific designations made by marking the check-boxes in the upper part of Box No. V (at least one such designation must be made), a precautionary designation of all other PCT Contracting States which are not specifically designated.

If the applicant does not wish to avail himself of this safeguard and does not want to make any such precautionary designations, the statement must be crossed out.

If the applicant wishes to expressly exclude a certain State from such precautionary designation so that the international application does not have any effect in that State, the name or two-letter code of that State should be indicated in the Supplemental Box. In no other case is it necessary to make use of this possibility.

If, after filing the international application, the applicant notices that there are any omissions and/or mistakes in respect of the specific designations made, it will be possible to rectify the situation by confirming the precautionary designations concerned. The confirmation of any precautionary designation is possible before the expiration of 15 months from the (earliest) priority date indicated in Box No. VI or, where no priority is claimed, the international filing date. To effect such confirmation, the applicant must file with the receiving Office a written notice specifying the name of each State the designation of which is confirmed (with, where applicable, an indication of the kind of treatment or protection desired) and pay to the receiving Office, for each such designation, a designation fee (even where six designation fees have already been paid) together with a confirmation fee corresponding to 50% of the designation fee.

AP brevet ARIPO : il est à noter que **SZ Swaziland** ne peut être désigné que pour un brevet ARIPO et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties au Protocole de Harare peuvent être désignés soit aux fins d'un brevet national ou d'un brevet ARIPO, soit à la fois aux fins d'un brevet national et d'un brevet ARIPO.

EA brevet eurasién : tous les États contractants du PCT qui sont aussi parties à la Convention sur le brevet eurasién peuvent être désignés soit aux fins d'un brevet national ou d'un brevet eurasién, soit à la fois aux fins d'un brevet national et d'un brevet eurasién. Cependant, il est à noter qu'il n'est pas possible de désigner seulement certains de ces États aux fins d'un brevet eurasién et que toute désignation d'un ou de plusieurs États aux fins d'un brevet eurasién sera traitée comme une désignation aux fins d'un brevet eurasién de tous les États qui sont parties à la fois à la Convention et au PCT.

EP brevet européen : il est à noter que **BE Belgique, CY Chypre, FR France, GR Grèce, IE Irlande, IT Italie, MC Monaco et NL Pays-Bas** ne peuvent être désignés que pour un brevet européen et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties à la Convention sur le brevet européen peuvent être désignés soit aux fins d'un brevet national ou d'un brevet européen, soit à la fois aux fins d'un brevet national et d'un brevet européen.

Si un brevet ARIPO ou un brevet européen est demandé pour certains seulement des États contractants du Protocole de Harare ou de la Convention sur le brevet européen, respectivement, le nom des États pour lesquels un brevet régional n'est pas demandé peut être biffé. Il est cependant recommandé de toujours désigner aux fins d'un brevet régional tous les États contractants du Protocole ou de la Convention, respectivement. Ce n'est que lorsqu'il s'agira d'aborder la phase régionale et de payer les taxes de désignation régionales que la décision de ne poursuivre la procédure d'obtention de brevet que pour certaines des désignations devra être prise.

Lorsqu'un ou plusieurs États parties au Protocole de Harare, à la Convention sur le brevet eurasién ou à la Convention sur le brevet européen et au PCT sont désignés deux fois, une fois aux fins d'un brevet ARIPO, d'un brevet eurasién ou d'un brevet européen et une autre fois aux fins d'une protection nationale, le déposant doit acquitter une taxe de désignation pour le brevet régional et autant de taxes de désignation qu'il y a de brevets ou autres titres de protection nationaux demandés (règle 15.1.ii) et instruction 210).

Extension du brevet européen (EP) à certains États : s'il est envisagé de demander, au moment de l'ouverture de la phase régionale européenne, l'extension du brevet européen qui sera obtenu ultérieurement à AL Albanie, LT Lituanie, LV Lettonie, MK Ex-République yougoslave de Macédoine, RO Roumanie, ou SI Slovénie (ou à tout autre État contractant du PCT pour lequel, à la date du dépôt de la demande internationale, un accord d'extension conclu avec l'Organisation européenne des brevets est en vigueur), le cadre n° V doit contenir **à la fois** la désignation de l'État concerné en vue de l'obtention d'un brevet national et la désignation, en vue de l'obtention d'un brevet européen, d'au moins un État contractant du PCT partie à la Convention sur le brevet européen.

OA brevet OAPI : la désignation des États membres de l'OAPI qui sont parties au PCT ne peut être effectuée qu'aux fins d'un brevet OAPI (aucune protection nationale n'est offerte); de plus, il n'est pas possible de ne désigner que certains de ces États.

Choix de certaines formes de protection ou de traitement (règles 4.12 à 4.14 et instruction 202) : si, dans un pays, il est possible de demander un titre de protection autre qu'un brevet, écrire le nom de ce pays, ou le code à deux lettres, suivi

du nom du titre en question, c'est-à-dire "petty patent" (pour AU Australie et YU Yougoslavie), "brevet provisoire" (pour AM Arménie, KG Kirghizistan, KZ Kazakhstan, TM Turkménistan, UZ Ouzbékistan), "modèle d'utilité" (pour AL Albanie, AM Arménie, AT Autriche, BG Bulgarie, BR Brésil, BY Bélarus, BZ Belize, CN Chine, CR Costa Rica, CZ République tchèque, DE Allemagne, DK Danemark, EE Estonie, ES Espagne, FI Finlande, GE Géorgie, HU Hongrie, JP Japon, KE Kenya, KG Kirghizistan, KR République de Corée, KZ Kazakhstan, LS Lesotho, MD République de Moldova, MX Mexique, PL Pologne, PT Portugal, RU Fédération de Russie, SK Slovaquie, SL Sierra Leone, TJ Tadjikistan, TR Turquie, UA Ukraine, UZ Ouzbékistan, VN Viet Nam, OA OAPI), "brevet consensuel" (pour HR Croatie), "certificat d'utilité" (pour GH Ghana, TT Trinité-et-Tobago, UG Ouganda), ou "certificat d'auteur d'invention" (pour CU Cuba, KP République populaire démocratique de Corée). Si, pour AT Autriche, CZ République tchèque, DE Allemagne, DK Danemark, EE Estonie, FI Finlande ou SK Slovaquie (seuls pays où cela est possible), un modèle d'utilité est demandé en plus du brevet, écrire après le nom de ce pays "et modèle d'utilité".

Si, pour un pays où cela est possible, il est souhaité que la demande internationale soit traitée comme une demande d'obtention d'un certain titre "d'addition" ou comme une demande de "continuation" ou de "continuation-in-part", écrire après le nom de ce pays la mention appropriée, c'est-à-dire "brevet d'addition" (pour AT Autriche, AU Australie, BA Bosnie-Herzégovine, CU Cuba, DE Allemagne, ES Espagne, IL Israël, IN Inde, MK Ex-République yougoslave de Macédoine, MW Malawi, NZ Nouvelle-Zélande, SI Slovénie, TR Turquie, YU Yougoslavie, ZA Afrique du Sud, ZW Zimbabwe), "certificat d'addition" (pour BR Brésil, DZ Algérie, MA Maroc, MG Madagascar, OA OAPI), "certificat d'auteur d'invention additionnel" (pour CU Cuba), "continuation" ou "continuation-in-part" (pour US États-Unis d'Amérique). Si l'une de ces mentions est utilisée, indiquer également le numéro du titre principal ou de la demande principale et la date de délivrance du titre principal ou du dépôt de la demande principale, selon le cas (voir le point 1.v) de ce cadre).

L'indication, dans les cases du cadre n° V correspondant aux désignations, de numéros d'ordre en chiffres arabes sera considérée comme reflétant l'ordre des désignations choisi par le déposant; si les cases sont cochées d'une autre manière, l'ordre considéré sera celui dans lequel les cases cochées apparaissent sur le formulaire. Cet ordre n'aura de signification que si le montant reçu pour les taxes de désignation n'est pas suffisant pour couvrir l'ensemble des désignations et reste insuffisant après que le déposant a été invité à acquitter le solde débiteur; dans ce cas, le montant reçu sera affecté au paiement des taxes pour les désignations dans l'ordre en question (règle 16bis.1.c) et instruction 321).

Les cases situées en bas des colonnes sont réservées à la désignation, aux fins d'un brevet national, d'États qui sont devenus partie au PCT après la date qui figure au bas de la deuxième feuille du formulaire de requête; dans ce cas, il faut mentionner sur la ligne pointillée le nom de l'État, précédé de préférence du code à deux lettres, et cocher la case correspondante (en indiquant, le cas échéant, si une forme particulière de protection ou de traitement est souhaitée).

Désignation d'États à titre de précaution sous réserve de confirmation (règles 4.9.b) et c) et 15.5) : dans l'intérêt du déposant, le cadre n° V comporte une déclaration ("Déclaration concernant les désignations de précaution") indiquant que le déposant souhaite, en sus des désignations expresses effectuées en cochant les cases de la première partie de ce cadre (il doit y avoir au moins une désignation de ce type), désigner à titre de précaution tous les autres États contractants du PCT qui n'ont pas été désignés expressément.

The receiving Office will not send to the applicant any reminder or invitation to confirm precautionary designations.

If no precautionary designation is to be confirmed, no action is required by the applicant, and the precautionary designations will then be automatically regarded as withdrawn by the applicant at the expiration of 15 months from the priority date.

BOX No. VI

Priority Claim(s) (Rule 4.10): If the priority of an earlier application is claimed, the declaration containing the priority claim must be made in the request.

The request must indicate the *date* on which the earlier application from which priority is claimed was filed and the *number* it was assigned. Note that that date must fall within the period of 12 months preceding the international filing date.

Where the earlier application is a national application, the *country* party to the Paris Convention for the Protection of Industrial Property, or the *Member* of the World Trade Organization that is not a party to that Convention, in which that earlier application was filed must be indicated. Where the earlier application is a regional application, the *regional Office* concerned must be indicated. Where the earlier application is an international application, the *receiving Office* with which that earlier application was filed must be indicated.

Where the earlier application is a regional application (other than an ARIPO application), or an international application, the priority claim may also, if the applicant so wishes, indicate one or more countries party to the Paris Convention for which that earlier application was filed (Rule 4.10(b)(i)); such an indication is not, however, mandatory. Where the earlier application is an ARIPO application, at least one country party to the Paris Convention or one Member of the World Trade Organization for which that earlier application was filed must be indicated (Rule 4.10(b)(ii)).

As to the possibility of correcting or adding a priority claim, see Rule 26*bis* and the *PCT Applicant's Guide*, Volume I/A, General Part.

Certified Copy of Earlier Application (Rule 17.1): A certified copy of each earlier application the priority of which is claimed (priority document) must be submitted by the applicant, irrespective of whether that earlier application is a national, regional or international application. The priority document must be submitted to the receiving Office or to the International Bureau before the expiration of 16 months from the (earliest) priority date or, where an early start of the national phase is requested, not later than at the time such request is made. Any priority document received by the International Bureau after the expiration of the 16-month time limit but before the date of international publication shall be considered to have been received on the last day of that time limit (Rule 17.1(a)).

Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office (not later than 16 months after the priority date) to prepare and transmit the priority document to the International Bureau (Rule 4.1(c)(ii)). Such request may be made by marking the applicable check-boxes which identify the respective documents. *Attention:* where such a request is made, the applicant must, where applicable, pay to the receiving Office the *fee for priority document*, otherwise, the request will be considered not to have been made (see Rule 17.1(b)).

Dates (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such

indication, the date should be repeated in parentheses, using two-digit Arabic numerals for the number of the day, the number of the month and the last two digits of the year, in that order and separated by periods, slants or hyphens, for example, “20 March 2001 (20.03.01)”, “20 March 2001 (20/03/01)” or “20 March 2001 (20-03-01)”.

BOX No. VII

Choice of International Searching Authority (ISA) (Rules 4.1(b)(vi) and 4.14*bis*): If two or more International Searching Authorities are competent for carrying out the international search in relation to the international application—depending on the language in which that application is filed and the receiving Office with which it is filed—the name of the competent Authority chosen by the applicant must be indicated in the space provided, either by its full name or two-letter code.

Request to Use Results of Earlier Search; Reference to that Search (Rules 4.11 and 41.1): The earlier search, if any, must be identified in such a manner that the ISA can retrieve the results easily. Where those results can be used, the ISA may refund the international search fee or a portion thereof.

BOX No. VIII

Declarations Containing Standardized Wording (Rules 4.1(c)(iii) and 4.17): At the option of the applicant, the request may, for the purposes of the national law applicable in one or more designated States, contain one or more of the following declarations:

- (i) declaration as to the identity of the inventor;
- (ii) declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent;
- (iii) declaration as to the applicant's entitlement, as at the international filing date, to claim the priority of the earlier application;
- (iv) declaration of inventorship (only for the purposes of the designation of the United States of America);
- (v) declaration as to non-prejudicial disclosures or exceptions to lack of novelty;

which must conform to the standardized wording provided for in Sections 211 to 215, respectively, and which must be set forth in Boxes Nos. VIII (i) to (v), as detailed below. Where any such declarations are included, the appropriate check-boxes in Box No. VIII should be marked and the number of each type of declaration should be indicated in the right-hand column. As to the possibility of correcting or adding a declaration, see Rule 26*ter*, Section 216 and the *PCT Applicant's Guide*, Volume I/A, General Part.

If the circumstances of a particular case are such that the standardized wordings are not applicable, the applicant should not attempt to make use of the declarations provided for in Rule 4.17 but rather will have to comply with the national requirements concerned upon entry into the national phase.

The fact that a declaration is made under Rule 4.17 does not of itself establish the matters declared; the effect of those matters in the designated States concerned will be determined by the designated Offices in accordance with the applicable national law.

Even if the wording of a declaration does not conform to the standardized wording provided for in the Administrative Instructions pursuant to Rule 4.17, any designated Office may accept that declaration for the purposes of the applicable national law, but is not required to do so.

Details as to National Law Requirements: For information on the declarations required by each designated Office, see the

Si le déposant ne souhaite pas faire usage de cette mesure de sécurité ni ne veut faire de désignations de précaution, la déclaration doit être biffée.

Si le déposant souhaite expressément exclure tel ou tel État d'une telle désignation faite à titre de précaution afin que la demande internationale ne produise aucun effet dans cet État, il y aura lieu d'indiquer le nom ou le code à deux lettres de cet État dans le cadre supplémentaire. Cette mention n'est nécessaire dans aucun autre cas.

Si le déposant constate, après le dépôt de la demande internationale, qu'il y a des erreurs ou des omissions en ce qui concerne les désignations faites expressément, il pourra rectifier les erreurs ou corriger les omissions en confirmant les désignations de précaution en question. Il est possible de confirmer une désignation de précaution jusqu'à l'expiration d'un délai de 15 mois à compter de la date de priorité (la plus ancienne) indiquée dans le cadre n° VI ou, si aucune priorité n'est revendiquée, de la date du dépôt international. Pour confirmer une telle désignation, il faut déposer auprès de l'office récepteur une déclaration écrite contenant l'indication du nom de chaque État dont la désignation est confirmée (avec, le cas échéant, une indication de la forme de traitement ou de protection souhaitée) et payer à l'office récepteur, pour chaque désignation ainsi confirmée, une taxe de désignation (même lorsque six taxes de désignation ont déjà été payées) ainsi qu'une taxe de confirmation correspondant à 50 % de la taxe de désignation.

L'office récepteur n'enverra au déposant aucun rappel ni invitation à confirmer des désignations de précaution.

Le déposant ne doit rien faire s'il ne veut confirmer aucune désignation de précaution; les désignations de précaution seront alors automatiquement considérées comme retirées par le déposant à l'expiration d'un délai de 15 mois à compter de la date de priorité.

CADRE N° VI

Revendication(s) de priorité (règle 4.10) : si la priorité d'une demande antérieure est revendiquée, la déclaration contenant la revendication de priorité doit figurer dans la requête.

La requête doit indiquer la *date* du dépôt de la demande antérieure dont la priorité est revendiquée et son *numéro*. Cette date doit tomber dans la période de 12 mois précédant la date du dépôt international.

Lorsque la demande antérieure est une demande nationale, il faut indiquer le *pays* partie à la Convention de Paris pour la protection de la propriété industrielle, ou le *membre* de l'Organisation mondiale du commerce qui n'est pas partie à ladite convention, où elle a été déposée; lorsque la demande antérieure est une demande régionale, l'*office régional* concerné; et lorsque la demande antérieure est une demande internationale, l'*office récepteur* auprès duquel elle a été déposée.

Lorsque la demande antérieure est une demande régionale (autre qu'une demande ARIPO) ou une demande internationale, la revendication de priorité peut aussi, si le déposant le souhaite, indiquer un ou plusieurs pays parties à la Convention de Paris pour lesquels cette demande a été déposée (règle 4.10.b)i); cette indication n'est cependant pas obligatoire. Lorsque la demande antérieure est une demande ARIPO, il faut indiquer au moins un pays partie à la Convention de Paris ou un membre de l'Organisation mondiale du commerce pour lequel cette demande a été déposée (règle 4.10.b)ii).

En ce qui concerne les possibilités de correction ou d'adjonction d'une revendication de priorité, voir la règle 26*bis* et le *Guide du déposant du PCT*, volume I/A, partie générale.

Copie certifiée conforme de la demande antérieure (règle 17.1) : le déposant doit présenter une copie certifiée conforme de chaque demande antérieure dont la priorité est revendiquée (document de priorité), que la demande antérieure soit une demande nationale, régionale ou internationale. Le document de priorité doit être présenté à l'office récepteur ou au Bureau international avant l'expiration d'un délai de 16 mois à compter de la date de priorité (la plus ancienne) ou, lorsque l'ouverture anticipée de la phase nationale est demandée, au plus tard à la date à laquelle est faite cette demande. Tout document de priorité qui parvient au Bureau international après l'expiration du délai de 16 mois mais avant la date de publication internationale est réputé avoir été reçu le dernier jour de ce délai (règle 17.1.a)).

Lorsque le document de priorité est délivré par l'office récepteur, le déposant peut, au lieu de présenter ce document, demander à l'office récepteur (au plus tard dans le délai de 16 mois à compter de la date de priorité) de l'établir et de le transmettre au Bureau international (règle 4.1.c)ii)). Pour effectuer une requête à cet effet, il faut cocher la case appropriée comportant les indications qui permettent d'identifier le document. *Important* : lorsqu'une telle requête est présentée, le déposant doit, le cas échéant, verser à l'office récepteur la *taxe afférente au document de priorité*; à défaut, cette requête sera considérée comme n'ayant pas été présentée (voir la règle 17.1.b)).

Dates (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples : "20 mars 2001 (20.03.01)", "20 mars 2001 (20/03/01)" ou "20 mars 2001 (20-03-01)".

CADRE N° VII

Choix de l'administration chargée de la recherche internationale (ISA) (règles 4.1.b)vi) et 4.14*bis*) : si plusieurs administrations chargées de la recherche internationale sont compétentes pour procéder à la recherche internationale concernant la demande internationale – en fonction de la langue dans laquelle cette demande est déposée et de l'office récepteur auprès duquel elle est déposée – le nom de l'administration compétente choisie par le déposant doit être indiqué dans l'espace prévu, soit en clair soit au moyen du code à deux lettres correspondant.

Demande d'utilisation des résultats d'une recherche antérieure; mention de cette recherche (règles 4.11 et 41.1) : la mention de la recherche antérieure éventuelle doit comporter des indications qui permettent à l'administration chargée de la recherche internationale d'en retrouver aisément les résultats. Si ces résultats sont utilisables, l'administration en question pourra rembourser la taxe de recherche internationale ou une fraction de celle-ci.

CADRE N° VIII

Déclarations comportant un libellé standard (règles 4.1.c)iii) et 4.17) : au choix du déposant, la requête peut, aux fins de la législation nationale applicable dans un ou plusieurs États désignés, contenir une ou plusieurs des déclarations suivantes :

- i) une déclaration relative à l'identité de l'inventeur;
- ii) une déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet;
- iii) une déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure;

PCT Applicant's Guide, Volume II, in the relevant National Chapter.

Effect in Designated Offices (Rule 51bis.2): Where the applicant submits any of the declarations provided for in Rule 4.17(i) to (iv) containing the required standardized wording (either with the international application, or to the International Bureau within the relevant time limit under Rule 26ter, or directly to the designated Office during the national phase), the designated Office may not, in the national phase, require further documents or evidence on the matter to which the declaration relates, unless that designated Office may reasonably doubt the veracity of the declaration concerned.

Incompatibility of Certain Items of Rule 51bis.2(a) with National Laws (Rule 51bis.2(c)): The designated Offices listed below have informed the International Bureau that the applicable national law is not compatible in respect of the following declarations provided in Rule 4.17(i), (ii) and (iii). Those designated Offices are therefore entitled to require further documents or evidence on the matters to which those declarations relate.

Declaration as to the identity of the inventor (Rules 4.17(i) and 51bis.1(a)(i)): The respective national laws of CH Switzerland, DK Denmark and SE Sweden are not compatible with Rule 51bis.2(a)(i).

Declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51bis.1(a)(ii)): The respective national laws of CA Canada, CH Switzerland, DK Denmark, HU Hungary and SE Sweden are not compatible with Rule 51bis.2(a)(ii).

Declaration as to the applicant's entitlement as at the international filing date, to claim the priority of the earlier application (Rules 4.17(iii) and 51bis.1(a)(iii)): The respective national laws of CH Switzerland and DK Denmark are not compatible with Rule 51bis.2(a)(iii).

BOXES Nos. VIII (i) to (v) (IN GENERAL)

Different Declaration Boxes: There are six different declaration boxes in the pre-printed request form—one box for each of the five different types of declarations provided for in Rule 4.17 (Box No. VIII (i) to Box No. VIII (v)) and a continuation sheet (Continuation of Box No. VIII (i) to (v)) to be used in case any single declaration does not fit in the corresponding box. The title of each type of declaration which is found in the standardized wording provided for in the Administrative Instructions is pre-printed on the appropriate sheet of the request.

Separate Sheet for Each Declaration: Each declaration must start on a separate sheet of the request form in the appropriate Declaration Box.

Titles, Items, Item Numbers, Dotted Lines, Words in Parentheses and Words in Brackets: The prescribed standardized wording of the declarations includes titles, various items, item numbers, dotted lines, words in parentheses and words in brackets. Except for Box No. VIII (iv) which contains the pre-printed standardized wording, only those items which are applicable should be included in a declaration where necessary to support the statements in that declaration (that is, omit those items which do not apply) and item numbers need not be included. Dotted lines indicate where information is required to be inserted. Words in parentheses are instructions to applicants as to the information which may be included in the declaration depending upon the factual circumstances.

Words in brackets are optional and should appear in the declaration without the brackets if they apply; if they do not apply, they should be omitted together with the corresponding brackets.

Naming of Several Persons: More than one person may be named in a single declaration. In the alternative, with one exception, a separate declaration may be made for each person. With respect to the declaration of inventorship set forth in Box No. VIII (iv), which is applicable only for the purposes of the designation of the United States of America, all inventors must be indicated in a single declaration (see Notes to Box No. VIII (iv), below). The wording of declarations to be set forth in Boxes Nos. VIII (i), (ii), (iii) and (v) may be adapted from the singular to the plural as necessary.

Designated States to Which the Declarations Apply: Each declaration must indicate the designated States to which it applies. In this regard, the standardized wording of the declaration of inventorship (Box No. VIII (iv); see also Rule 4.17(iv) and Section 214) indicates in the title that it is for the purposes of the designation of the United States of America. The other declarations include prescribed wording to indicate whether the declaration is made for all designations or specific designations; one of these choices should always be included in the declaration. Where the declaration is for more than one person, the declaration may include separate statements indicating whether the declaration is made for all designations or specific designations with respect to each separate applicant. For example, this may be expected to occur where the request indicates different applicants for different States in accordance with Rule 4.5(d). However, in such a case, it is advisable to include a separate declaration for each person.

BOX No. VIII (i)

Declaration as to the Identity of the Inventor (Rule 4.17(i) and Section 211): The declaration must be worded as follows:

“Declaration as to the identity of the inventor (Rules 4.17(i) and 51bis.1(a)(i)):

in relation to [this] international application [No. PCT/...],

- (i) ... (*name*) of ... (*address*) is the inventor of the subject matter for which protection is sought by way of [the] [this] international application
- (ii) this declaration is made for the purposes of (*include as applicable*):
 - (a) all designations [except the designation of the United States of America]
 - (b) the following designations for national and/or regional patents: ...”

Such a declaration is not necessary in respect of any inventor who is indicated as such (either as inventor only or applicant and inventor) in Box No. II or No. III in accordance with Rule 4.5 or 4.6. However, where the inventor is indicated as applicant in Box No. II or No. III in accordance with Rule 4.5, a declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)) may be appropriate for the purposes of all designated States except the United States of America. Where indications regarding the inventor in accordance with Rule 4.5 or 4.6 are not included in Box No. II or No. III, this declaration may be combined with the prescribed wording of the declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)). For details on such a combined declaration, see Notes to Box No. VIII (ii), below. For details as to the declaration of inventorship for the purposes of the designation of the United States of America, see Notes to Box No. VIII (iv), below.

- iv) une déclaration relative à la qualité d'inventeur (seulement aux fins de la désignation des États-Unis d'Amérique);
- v) une déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté;

qui doivent être conformes au libellé standard fixé dans les instructions 211 à 215, respectivement, et qui doivent être présentées dans les cadres n^{os} VIII.i) à v), comme précisé ci-après. Lorsque de telles déclarations sont incluses, il convient de cocher les cases appropriées dans le cadre n^o VIII et d'indiquer dans la colonne de droite le nombre de déclarations de chaque type. En ce qui concerne les possibilités de correction ou d'adjonction d'une déclaration, voir la règle 26ter, l'instruction 216 et le *Guide du déposant du PCT*, volume I/A, partie générale.

Si les circonstances d'un cas particulier sont telles que les libellés standards ne sont pas applicables, le déposant s'abstiendra de faire les déclarations prévues à la règle 4.17, mais il devra satisfaire aux exigences de la législation nationale concernée lors de l'entrée dans la phase nationale.

Le fait qu'une déclaration soit faite en vertu de la règle 4.17 ne suffit pas à prouver les points sur lesquels elle porte; il appartient aux offices désignés de statuer à leur sujet en fonction de la législation nationale applicable.

Même si le texte d'une déclaration ne respecte pas le libellé standard fixé dans les instructions administratives en vertu de la règle 4.17, tout office désigné est libre d'accepter ou non cette déclaration aux fins de la législation nationale applicable.

Précisions quant aux exigences des législations nationales : pour des précisions concernant les déclarations qui sont exigées par chaque office désigné, voir les chapitres nationaux pertinents dans le volume II du *Guide du déposant du PCT*.

Effets dans les offices désignés (règle 51bis.2) : lorsqu'un déposant remet l'une des déclarations visées à la règle 4.17.i) à v) comportant le libellé standard exigé (soit avec la demande internationale, soit au Bureau international dans le délai applicable en vertu de la règle 26ter, ou directement à l'office désigné durant la phase nationale), l'office désigné ne peut, pendant la phase nationale, exiger d'autres documents ou preuves relatifs à l'objet auquel se rapporte la déclaration, à moins qu'il puisse raisonnablement douter de la véracité de la déclaration en question.

Incompatibilité de certains points de la règle 51bis.2.a) avec les législations nationales (règle 51bis.2.c) : les offices désignés dont la liste figure ci-après ont informé le Bureau international que la législation nationale qui leur est applicable n'est pas compatible en ce qui concerne les déclarations suivantes visées à la règle 4.17.i), ii) et iii). Ces offices désignés pourront donc exiger des documents ou des preuves supplémentaires relatifs aux objets auxquels se rapportent ces déclarations.

Déclaration relative à l'identité de l'inventeur (règles 4.17.i) et 51bis.1.a)i) : les législations nationales respectives de CH Suisse, DK Danemark et SE Suède ne sont pas compatibles avec la règle 51bis.2.a)i).

Déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet (règles 4.17.ii) et 51bis.1.a)ii) : les législations nationales respectives de CA Canada, CH Suisse, DK Danemark, HU Hongrie et SE Suède ne sont pas compatibles avec la règle 51bis.2.a)ii).

Déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure (règles 4.17.iii) et 51bis.1.a)iii) : les législations nationales respectives de CH Suisse et DK Danemark ne sont pas compatibles avec la règle 51bis.2.a)iii).

CADRES N^{os} VIII j) à v) (GÉNÉRALITÉS)

Différents cadres pour déclarations : le formulaire pré-imprimé contient six cadres différents pour déclarations, un pour chaque type de déclaration prévue selon la règle 4.17 (du cadre n^o VIII.i) au cadre n^o VIII.v)) et une feuille annexe (Suite du cadre n^o VIII.i) à v)) à utiliser dans le cas où une des déclarations ne tient pas dans le cadre approprié. Le titre de chaque déclaration qui figure dans le libellé standard prévu dans les instructions administratives est pré-imprimé sur la feuille correspondante de la requête.

Feuille distincte pour chaque déclaration : chaque déclaration doit commencer sur une feuille distincte de la requête et dans le cadre pour déclaration approprié.

Titres, éléments, numéros d'éléments, lignes pointillées, mots entre parenthèses et mots entre crochets : le libellé standard fixé pour les déclarations comporte un titre, différents éléments, des numéros d'éléments, des lignes pointillées, des mots entre parenthèses et des mots entre crochets. Sauf en ce qui concerne le cadre n^o VIII.iv) dans lequel le libellé standard est pré-imprimé, seuls les éléments pertinents doivent figurer dans une déclaration lorsque cela est nécessaire à l'énoncé des faits invoqués dans cette déclaration (en d'autres termes, il y a lieu d'omettre les éléments non pertinents) et il n'est pas nécessaire d'inclure les numéros d'éléments. Les lignes pointillées signalent les endroits où il y a lieu d'indiquer les renseignements demandés. Les mots entre parenthèses indiquent au déposant quels renseignements peuvent être inclus dans la déclaration selon la situation de fait. Les mots entre crochets sont facultatifs; s'ils sont applicables, ils doivent figurer dans la déclaration sans les crochets; s'ils ne sont pas applicables, il convient de les omettre ainsi que les crochets.

Mention de plusieurs personnes : plusieurs personnes peuvent être mentionnées dans une même déclaration. Il est aussi possible, sauf dans un cas, de faire une déclaration distincte par personne. Pour la déclaration relative à la qualité d'inventeur, figurant dans le cadre n^o VIII.iv), qui est applicable seulement aux fins de la désignation des États-Unis d'Amérique, tous les inventeurs doivent être indiqués dans une même déclaration (voir les notes du cadre n^o VIII.iv), ci-après). Dans les déclarations devant figurer dans les cadres n^{os} VIII.i), ii), iii) et v), le libellé au singulier peut être mis au pluriel si cela s'avère nécessaire.

États désignés auxquels les déclarations s'appliquent : chaque déclaration doit comporter l'indication des États désignés auxquels elle s'applique. À cet égard, le libellé standard pour la déclaration relative à la qualité d'inventeur (cadre n^o VIII.iv); voir également la règle 4.17.iv) et l'instruction 214) indique dans le titre que la déclaration est faite aux fins de la désignation des États-Unis d'Amérique. Les autres déclarations comportent des libellés prescrits pour indiquer si la déclaration est faite aux fins de toutes les désignations ou aux fins de désignations particulières. Une de ces options doit toujours figurer dans la déclaration. Lorsque la déclaration est faite en ce qui concerne plusieurs personnes, elle peut comporter des mentions distinctes indiquant si elle est faite aux fins de toutes les désignations ou aux fins de désignations particulières en ce qui concerne chacun des déposants. Le cas peut par exemple se présenter si la requête indique des déposants différents pour différents États, conformément à la règle 4.5.d). Dans une telle situation, toutefois, il est conseillé d'inclure une déclaration distincte par personne.

CADRE N^o VIII.i)

Déclaration relative à l'identité de l'inventeur (règle 4.17.i) et instruction 211) : la déclaration doit être libellée comme suit:

BOX No. VIII (ii)

Either (a) or (b) of item (ix) should always be included in the declaration. The remainder of the items may be incorporated as is necessary to explain the applicant's entitlement. ***This declaration is only applicable to those events which have occurred prior to the international filing date.*** The possible kinds of transfer of entitlement in item (vii) include merger, acquisition, inheritance, donation, etc. Where there has been a succession of transfers from the inventor, the order in which transfers are listed should follow the actual succession of transfers, and items may be included more than once, as necessary to explain the applicant's entitlement. Where the inventor is not indicated in Box No. II or No. III, this declaration may be presented as a combined declaration explaining the applicant's entitlement to apply for and be granted a patent and identifying the inventor. In such a case, the introductory phrase of the declaration must be as follows:

"Combined declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51*bis*.1(a)(ii)) and as to the identity of the inventor (Rules 4.17(i) and 51*bis*.1(a)(i)), in a case where the declaration under Rule 4.17(iv) is not appropriate:"

The remainder of the combined declaration must be worded as indicated in the preceding paragraphs.

For details as to the declaration as to the identity of the inventor, see the Notes to Box No. VIII (i), above.

- (vii) transfer of entitlement from ... (*name*) to ... (*name*) by way of ... (*specify kind of transfer*), dated ...
- (viii) the applicant's name changed from ... (*name*) to ... (*name*) on ... (*date*)
- (ix) this declaration is made for the purposes of (*include as applicable*):
 - (a) all designations
 - (b) the following designations for national and/or regional patents: ..."

Either (a) or (b) of item (ix) should always be included in the declaration. The remainder of the items may be incorporated as is necessary to explain the applicant's entitlement. ***This declaration is only applicable to those events which have occurred prior to the international filing date.*** In addition, this declaration is only applicable where the person or name of the applicant is different from that of the applicant who filed the earlier application from which priority is claimed. For example, this declaration may be applicable where only one applicant out of five is different from the applicants indicated in respect of an earlier application. The possible kinds of transfer of entitlement in item (vii) include merger, acquisition, inheritance, donation, etc. Where there has been a succession of transfers from the applicant in respect of the earlier application, the order in which transfers are listed should follow the actual succession of transfers, and items may be included more than once, as necessary to explain the applicant's entitlement.

BOX No. VIII (iv)

Declaration of Inventorship (Rule 4.17(iv) and Section 214): The standardized wording for the declaration is pre-printed in Box No. VIII (iv).

All inventors must be named in the declaration, even if they do not all sign the same (copy of) the declaration (Section 214(b)). Bibliographic data, such as address of

“Déclaration relative à l’identité de l’inventeur (règles 4.17.i) et 51bis.1.a)i) :

concernant la [présente] demande internationale [n° PCT/...],

- i) ... (*nom*), ... (*adresse*), est l’inventeur de ce pour quoi une protection est demandée dans [la] [ladite] demande internationale
- ii) la présente déclaration est faite aux fins (*préciser selon le cas*)
 - a) de toutes les désignations [sauf la désignation des États-Unis d’Amérique]
 - b) des désignations suivantes pour des brevets nationaux ou régionaux : ...”

Une déclaration de cette nature n’est pas nécessaire en ce qui concerne tout inventeur qui est indiqué comme tel (que ce soit comme inventeur seulement ou en qualité à la fois de déposant et d’inventeur) dans le cadre n° II ou le cadre n° III en application de la règle 4.5 ou 4.6. Toutefois, lorsque l’inventeur est indiqué comme étant le déposant dans le cadre n° II ou n° III en application de la règle 4.5, une déclaration relative au droit du déposant de demander et d’obtenir un brevet (règle 4.17.ii) peut être appropriée aux fins de tous les États désignés sauf des États-Unis d’Amérique. Lorsque les indications concernant l’inventeur qui sont à fournir en application de la règle 4.5 ou 4.6 ne sont pas portées dans le cadre n° II ou n° III, cette déclaration peut être combinée avec le libellé standard pour la déclaration relative au droit du déposant de demander et d’obtenir un brevet (règle 4.17.ii). Pour des précisions concernant cette déclaration combinée, voir les notes du cadre n° VIII.ii), ci-après. Pour des précisions quant à la déclaration relative à la qualité d’inventeur aux fins de la désignation des États-Unis d’Amérique, voir les notes du cadre n° VIII.iv), ci-après.

CADRE N° VIII.ii)

Déclaration relative au droit du déposant de demander et d’obtenir un brevet (règle 4.17.ii) et instruction 212) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à viii) nécessaires aux fins de motiver le droit du déposant :

“Déclaration relative au droit du déposant, à la date du dépôt international, de demander et d’obtenir un brevet (règles 4.17.ii) et 51bis.1.a)ii)), dans le cas où la déclaration selon la règle 4.17.iv) n’est pas appropriée :

concernant la [présente] demande internationale [n° PCT/...],

- i) du fait que ... (*nom*), ... (*adresse*), est l’inventeur de ce pour quoi une protection est demandée dans [la] [ladite] demande internationale

- iii) d’un contrat conclu entre ... (*nom*) et ... (*nom*), daté du ...
- iv) d’une cession de ... (*nom*) à ... (*nom*), datée du ...
- v) d’une autorisation consentie par ... (*nom*) à ... (*nom*), datée du ...
- vi) d’une décision de justice rendue par ... (*nom du tribunal*), ordonnant un transfert de ... (*nom*) à ... (*nom*), datée du ...

ix) la présente déclaration est faite aux fins (*préciser selon le cas*)

- a) de toutes les désignations [sauf la désignation des États-Unis d’Amérique]
- b) des désignations suivantes pour des brevets nationaux ou régionaux : ...”

L’une ou l’autre des variantes a) et b) du point ix) doit toujours être incluse dans la déclaration. On ne retiendra parmi les autres éléments que ceux qui sont nécessaires pour motiver le droit du déposant. **Cette déclaration est exclusivement applicable à des faits qui se sont produits avant la date du dépôt international.** Les types possibles de transfert de droits visés au point vii) comprennent la fusion, l’acquisition, l’héritage, la donation, etc. Lorsqu’il y a eu succession de transferts des droits de l’inventeur, l’ordre dans lequel les transferts sont énumérés doit suivre l’ordre effectif de ces transferts successifs et certains points peuvent être cités plus d’une fois si cela s’avère nécessaire pour motiver le droit du déposant. Lorsque l’inventeur n’est pas indiqué dans le cadre n° II ou le cadre n° III, cette déclaration peut être présentée sous la forme d’une déclaration combinée motivant le droit du déposant de demander et d’obtenir un brevet et permettant d’identifier l’inventeur. Dans un tel cas, la phrase introductive de la déclaration est libellée comme suit :

“Déclaration combinée relative au droit du déposant, à la date du dépôt international, de demander et d’obtenir un brevet (règles 4.17.ii) et 51bis.1.a)ii)) et relative à l’identité de l’inventeur (règles 4.17.i) et 51bis.1.a)i)), dans le cas où la déclaration selon la règle 4.17.iv) n’est pas appropriée :”

Le reste de la déclaration combinée est libellé comme indiqué aux paragraphes précédents.

Pour des précisions concernant la déclaration permettant d’identifier l’inventeur, voir les notes relatives au cadre n° VIII.i), ci-dessus.

CADRE N° VIII.iii)

Déclaration relative au droit du déposant de revendiquer la priorité de la demande antérieure (règle 4.17.iii) et instruction 213) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à viii) nécessaires aux fins de motiver le droit du déposant :

“Déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande indiquée ci-dessous si le déposant n’est pas celui qui a déposé la demande antérieure ou si son nom a changé depuis le dépôt de la demande antérieure (règles 4.17.iii) et 51bis.1.a)iii)) :

concernant la [présente] demande internationale [n° PCT/...],

- iii) d’un contrat conclu entre ... (*nom*) et ... (*nom*), daté du ...

residence and citizenship, must be included for each inventor. Where the declaration is included in the request, the inventor(s) need not sign and date the declaration if they have signed in Box No. X of the request.

BOX No. VIII (v)

Declaration as to Non-prejudicial Disclosures or Exceptions to Lack of Novelty (Rule 4.17(v) and Section 215): The declaration must be worded as follows, with such inclusion, omission, repetition and re-ordering of the matters listed as items (i) to (iv) as is necessary:

“Declaration as to non-prejudicial disclosures or exceptions to lack of novelty (Rules 4.17(v) and 51*bis*.1(a)(v)):

 - (d) other: ... (*specify*)
- (ii) date of disclosure: ...
- (iii) title of disclosure (*if applicable*): ...
- (iv) place of disclosure (*if applicable*): ...
- (v) this declaration is made for the purposes of (*include as applicable*):
 - (a) all designations
 - (b) the following designations for national and/or regional patents: ...”

Either (a), (b), (c) or (d) of item (i) should always be included in the declaration. Item (ii) should also always be included in the declaration. Either (a) or (b) of item (v) should always be included in the declaration. Items (iii) and (iv) may be incorporated depending upon the circumstances.

BOX No. IX

Items Constituting the International Application: The number of sheets of the various parts of the international application must be given in the check list in Arabic numerals. Sheets containing any of Boxes Nos. VIII (i) to (v) must be counted as part of the request.

Where the application contains disclosure of one or more *nucleotide and/or amino acid sequences*, the applicant has the following three options.

First, the applicant may choose to file the sequence listing part *in paper form only*, in which case the number of sheets must be indicated under item (a) in the left column of Box No. IX (and therefore included in the total number of sheets), noting that, a copy of that sequence listing part, in computer readable form, may accompany the international application but only for the purposes of international search under Rule 13*ter*; in such a case, check-boxes Nos. 9 and 9(i) and, where applicable, 9(iii) must be marked in the right column of Box No. IX.

Second, the applicant may choose to file the sequence listing part *in computer readable form only*, under Section 801(a)(i), in which case check-box b(i) must be marked but the space for the number of sheets of the sequence listing part under item (a) must be left blank; the type and number of carriers must also be indicated on the dotted line under item (b); in addition, check-boxes Nos. 9, 9(ii) and, where applicable,

9(iii) must be marked if additional copies of the sequence listing in computer readable form are furnished.

Third, the applicant may choose to file the sequence listing part *both in computer readable form and in paper form* under Section 801(a)(ii), in which case check-box b(ii) must be marked and the number of sheets of that part in paper form must be indicated under item (a) (although that number of sheets will not be taken into account for calculation of the basic fee); the type and number of carriers must also be indicated on the dotted line under item (b); in addition, check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked if additional copies of the sequence listing in computer readable form are furnished.

Under all three options described above, the sequence listings must be presented as a separate part of the description (“sequence listing part of description”) in accordance with the standard contained in Annex C of the Administrative Instructions.

Items Accompanying the International Application:

Where the international application is accompanied by certain items, the applicable check-boxes must be marked, any applicable indication must be made on the dotted line after the applicable item, and the number of such items should be indicated at the end of the relevant line; detailed explanations are provided below only in respect of those items which so require.

Check-box No. 4: Mark this check-box where a copy of a general power of attorney is filed with the international application; where the general power of attorney has been deposited with the receiving Office, and that Office has accorded to it a reference number, that number may be indicated.

Check-box No. 5: Mark this check-box where a statement explaining the lack of signature of an inventor/applicant for the purposes of the United States of America is furnished together with the international application (see also Notes to Box No. X).

Check-box No. 7: Mark this check-box where a translation of the international application for the purposes of international search (Rule 12.3) is filed together with the international application and indicate the language of that translation.

Check-box No. 8: Mark this check-box where a filled-in Form PCT/RO/134 or any separate sheet containing indications concerning deposited microorganisms and/or other biological material is filed with the international application. If Form PCT/RO/134 or any sheet containing the said indications is included as one of the sheets of the description (as required by certain designated States (see the *PCT Applicant's Guide*, Volume I/B, Annex L)), do not mark this check-box (for further information, see Rule 13*bis* and Section 209).

Check-box No. 9: Where the international application contains a sequence listing part and a copy thereof in computer readable form is required by the ISA, the applicant may furnish the listing in computer readable form (together with the required statement) to the receiving Office with the international application, in which case check-boxes Nos. 9, 9(i) and, where applicable, 9(iii) must be marked. Where the applicant has chosen the second or third option mentioned above, and an additional copy or copies of the sequence listing part in computer readable form are required under Section 804, the applicant may furnish such additional copies together with the international application, in which case check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked. In all cases mentioned above, the applicant should indicate in the left column the type and number of diskettes, CD-ROMs, CD-Rs, or other data carriers furnished.

CADRE N° IX

Éléments constituant la demande internationale : Il faut indiquer en chiffres arabes, dans le bordereau, le nombre de feuilles des différentes parties de la demande internationale. Toute feuille sur laquelle figure l'un quelconque des cadres n°s VIII.i) à v) doit être comptée comme faisant partie de la requête.

Lorsque la demande internationale contient la divulgation d'une ou de plusieurs *séquences de nucléotides ou d'acides aminés*, le déposant dispose des trois options suivantes.

Premièrement, le déposant peut choisir de déposer la partie réservée au listage des séquences *sous forme papier seulement*, auquel cas le nombre de feuilles doit être indiqué au point a) de la colonne de gauche du cadre n° IX (et par conséquent compris dans le nombre total de feuilles); on notera dans ce cas qu'une copie de la partie réservée au listage des séquences, sous forme déchiffrable par ordinateur, peut être remise avec la demande internationale mais seulement aux fins de la recherche internationale en vertu de la règle 13ter; dans ce cas, les cases n°s 9, 9.i) et, le cas échéant, 9.iii), doivent être cochées dans la colonne de droite du cadre n° IX.

Deuxièmement, le déposant peut choisir de déposer la partie réservée au listage des séquences *sous forme déchiffrable par ordinateur seulement*, en vertu de l'instruction 801.a)i), auquel cas la case b)i) doit être cochée mais l'endroit réservé au nombre de feuilles de ladite partie sous le point a) doit être laissé en blanc; le type et le nombre de supports doivent également être indiqués sur la ligne pointillée sous le point b). De plus, les cases n°s 9, 9.ii) et, le cas échéant, 9.iii), doivent être cochées si on joint des exemplaires supplémentaires du listage des séquences sous forme déchiffrable par ordinateur.

Troisièmement, le déposant peut choisir de déposer la partie réservée au listage des séquences *à la fois sous forme déchiffrable par ordinateur et sous forme papier*, en vertu de l'instruction 801.a)ii), auquel cas la case b)ii) doit être cochée et le nombre de feuilles de ladite partie, sous forme papier, doit être indiqué sous le point a) (bien que ce nombre de feuilles ne soit pas utilisé aux fins du calcul de la taxe de base); le type et le nombre de supports doivent également être indiqués sur la ligne pointillée sous le point b). De plus, les cases n°s 9, 9.ii) et, le cas échéant, 9.iii), doivent être cochées si on joint des exemplaires supplémentaires du listage des séquences sous forme déchiffrable par ordinateur.

Dans le cadre des trois options décrites ci-dessus, les listages des séquences doivent être présentés dans une partie distincte de la description ("partie de la description réservée au listage des séquences") conformément à la norme figurant dans l'annexe C des instructions administratives.

Éléments joints à la demande internationale : lorsque des éléments sont joints à la demande internationale, les cases appropriées doivent être cochées et toute indication pertinente doit être portée sur la ligne pointillée correspondante, le nombre de chacun de ces éléments devant être indiqué dans la colonne, en fin de ligne; on trouvera ci-après des explications détaillées concernant uniquement les éléments qui le nécessitent.

CADRE N° VIII.iv)

Déclaration relative à la qualité d'inventeur (règle 4.17.iv) et instruction 214) : le libellé standard pour la déclaration est pré-imprimé au cadre n° VIII.iv).

Tous les inventeurs doivent être mentionnés dans la déclaration même s'ils ne signent pas tous la même (copie de la) déclaration (instruction 214.b)). Les données bibliographiques, telles que l'adresse du domicile et la nationalité, doivent être fournies pour chaque inventeur. Dans le cas d'une déclaration incluse dans la requête, il n'est pas nécessaire que le ou les inventeurs signent ou datent la déclaration s'ils ont signé eux-mêmes dans le cadre n° X de la requête.

CADRE N° VIII.v)

Déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté (règle 4.17.v) et instruction 215) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à iv), qui s'avérerait nécessaire :

"Déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté (règles 4.17.v) et 51bis.1.a)v) :

Language of Filing of the International Application (Rules 12.1(a) and 20.4(c) and (d)): With regard to the language in which the international application is filed, for the purposes of according an international filing date, it is, subject to the following sentence, sufficient that the description and the claims are in the language, or one of the languages, accepted by the receiving Office for the filing of international applications; that language should be indicated in that check-box (as regards the language of the abstract and any text matter in the drawings, see Rules 26.3ter(a) and (b); as regards the language of the request, see Rules 12.3(c) and 26.3ter(c) and (d)). Note that where the international application is filed with the United States Patent and Trademark Office as receiving Office, all elements of the international application (request, description, claims, abstract, text matter of drawings) must, for the purposes of according an international filing date, be in English except that the free text in any sequence listing part of the description, complying with the standard set out in Annex C of the Administrative Instructions, may be in a language other than English.

BOX No. X

Signature (Rules 4.1(d), 4.15 and 90): The signature must be that of the applicant (if there are several applicants, all must sign); however, the signature may be that of the agent, or the common representative, where a separate power of attorney appointing the agent or the common representative, respectively, or a copy of a general power of attorney already in the possession of the receiving Office, is furnished. If the power is not filed with the request, the receiving Office will invite the applicant to furnish it.

If the United States of America is designated and an inventor/applicant for that State refused to sign the request or could not be found or reached after diligent effort, a statement explaining the lack of signature may be furnished. It should be noted that this applies only where there are two or more applicants and the international application has been signed by at least one other applicant. The statement must satisfy the receiving Office. If such a statement is furnished with the international application, check-box No. 5 in Box No. IX should be marked.

SUPPLEMENTAL BOX

The cases in which the Supplemental Box may be used and the manner of making indications in it are explained in the left column of that Box.

GENERAL REMARKS

Language of Correspondence (Rule 92.2 and Section 104): Any letter from the applicant to the receiving Office must be in the language of filing of the international application provided that, where the international application is to be published in the language of a translation required under Rule 12.3, such letter should be in the language of that translation; however, the receiving Office may authorize the use of another language.

Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Any letter from the applicant to the ISA must be in the same language as the international application, provided that, where a translation of the international application for the purposes of international search has been transmitted under Rule 23.1(b), such letter is in the language of that translation. However, the ISA may authorize the use of another language.

Arrangement of Elements and Numbering of Sheets of the International Application (Rule 11.7 and Section 207): The elements of the international application must be placed in the following order: the request, the description (excluding the sequence listing part, if any), the claim(s), the abstract, the drawings (if any), the sequence listing part of the description (if any).

All sheets of the description (excluding the sequence listing part), claims and abstract must be numbered in consecutive Arabic numerals, which must be placed at the top or bottom of the sheet, in the middle, but not in the margin which must remain blank. The number of each sheet of the drawings must consist of two Arabic numerals separated by an oblique stroke, the first being the sheet number and the second being the total number of sheets of drawings (for example, 1/3, 2/3, 3/3). For numbering of the sheets of the sequence listing part of the description, see Section 207.

Indication of the Applicant's or Agent's File Reference on the sheets of the description (excluding the sequence listing part, if any), claim(s), abstract, drawings and sequence listing part of the description (Rule 11.6(f)): The file reference indicated on the request may also be indicated in the left-hand corner of the top margin, within 1.5 cm from the top of any sheet of the international application.

Case n° 4 : cocher cette case si la copie d'un pouvoir général est déposée avec la demande internationale; lorsque le pouvoir général a été déposé auprès de l'office récepteur, et que celui-ci lui a attribué un numéro de référence, ce dernier peut être indiqué.

Case n° 5 : cocher cette case si une explication de l'absence de signature d'un inventeur/déposant pour les États-Unis d'Amérique est fournie conjointement avec la demande internationale (voir aussi les notes du cadre n° X).

Case n° 7 : cocher cette case si une traduction de la demande internationale aux fins de la recherche internationale (règle 12.3) est fournie conjointement avec cette demande et indiquer la langue de la traduction.

Case n° 8 : cocher cette case si, avec la demande internationale, est déposé un formulaire PCT/RO/134 rempli ou une ou plusieurs feuilles séparées comportant des indications relatives à des micro-organismes ou autre matériel biologique déposés. Si le formulaire PCT/RO/134 ou toute autre feuille comportant les indications en question figurent en tant que feuilles de la description (comme le prescrivent certains États désignés (voir le *Guide du déposant du PCT*, volume I/B, annexe L), ne pas cocher cette case (pour de plus amples renseignements, voir la règle 13*bis* et l'instruction 209).

Case n° 9 : lorsque la demande internationale contient une partie réservée au listage des séquences et qu'une copie de cette dernière, sous forme déchiffrable par ordinateur, est requise par l'administration chargée de la recherche internationale, le déposant peut fournir, conjointement avec la demande internationale, le listage en question sous forme déchiffrable par ordinateur (ainsi que la déclaration requise) à l'office récepteur. Si tel est le cas, les cases n°s 9, 9.i) et, le cas échéant, 9.iii) doivent être cochées. Lorsque le déposant a choisi la deuxième ou la troisième option mentionnée ci-dessus, et qu'un ou plusieurs exemplaires supplémentaires de la partie réservée au listage des séquences sont requis en vertu de l'instruction 804, le déposant peut remettre de tels exemplaires supplémentaires, conjointement avec la demande internationale, auquel cas les cases n°s 9, 9.ii) et, le cas échéant, 9.iii) doivent être cochées. Dans tous les cas mentionnés ci-dessus, le déposant doit indiquer le type et le nombre de disquettes, CD-ROM, CD-R ou autres supports de données qu'il a remis.

Langue de dépôt de la demande internationale (règles 12.1.a) et 20.4.c) et d)) : en ce qui concerne la langue dans laquelle la demande internationale est déposée, il suffit, aux fins de l'attribution d'une date de dépôt international, et sous réserve de la phrase suivante, que la description et les revendications soient rédigées dans la langue ou l'une des langues acceptées par l'office récepteur pour le dépôt de demandes internationales; cette langue doit être indiquée dans cette case (en ce qui concerne la langue de l'abrégé et de tout texte des dessins, voir la règle 26.3*ter*.a) et b); en ce qui concerne la langue de la requête, voir les règles 12.3.c) et 26.3*ter*.c) et d)). On notera que, lorsque la demande internationale est déposée auprès de l'Office des brevets et des marques des États-Unis d'Amérique en sa qualité d'office récepteur, tous les éléments de la demande internationale (requête, description, revendications, abrégé, texte des dessins) doivent, aux fins de l'attribution d'une date de dépôt international, être rédigés en anglais, hormis tout texte libre contenu dans la partie de la description réservée au listage des séquences conforme à la norme figurant dans l'annexe C des instructions administratives, qui peut être rédigé dans une langue autre que l'anglais.

CADRE N° X

Signature (règles 4.1.d), 4.15 et 90) : la signature doit être celle du déposant (s'il y a plusieurs déposants, tous doivent signer); il peut toutefois s'agir de la signature du mandataire ou du représentant commun, si un pouvoir distinct désignant le mandataire ou le représentant commun, respectivement, ou une

copie du pouvoir général déjà détenu par l'office récepteur est fourni. Si la requête n'est pas déposée avec le pouvoir, l'office récepteur invitera le déposant à le remettre.

Si les États-Unis d'Amérique sont désignés et qu'un déposant pour cet État qui a la qualité d'inventeur a refusé de signer la requête ou que des efforts diligents n'ont pas permis de le trouver ou d'entrer en rapport avec lui, il est possible de fournir une explication de l'absence de signature. Cela vaut uniquement lorsqu'il y a plusieurs déposants et que la demande internationale a été signée par au moins un autre déposant. L'explication doit être jugée satisfaisante par l'office récepteur. Si cette explication est remise conjointement avec la demande internationale, il y a lieu de cocher la case n° 5 du cadre n° IX.

CADRE SUPPLÉMENTAIRE

Les cas dans lesquels le cadre supplémentaire peut être utilisé et la manière de fournir les indications prévues dans ce cadre sont expliqués dans la colonne de gauche de celui-ci.

REMARQUES GÉNÉRALES

Langue de la correspondance (règle 92.2 et instruction 104) : toute lettre du déposant à l'office récepteur doit être rédigée dans la langue de dépôt de la demande internationale étant entendu que, lorsque la demande internationale doit être publiée dans la langue d'une traduction remise en vertu de la règle 12.3, cette lettre doit être rédigée dans la langue de cette traduction; l'office récepteur peut cependant autoriser l'emploi d'une autre langue.

Toute lettre du déposant au Bureau international doit être rédigée dans la même langue que la demande internationale si celle-ci est établie en français ou en anglais; sinon, elle doit être rédigée en français ou en anglais, au choix du déposant.

Toute lettre du déposant à l'administration chargée de la recherche internationale doit être rédigée dans la même langue que la demande internationale étant entendu que, lorsqu'une traduction de la demande internationale aux fins de la recherche internationale a été transmise en vertu de la règle 23.1.b), cette lettre doit être rédigée dans la langue de cette traduction. Cependant, l'administration chargée de la recherche internationale peut autoriser l'emploi d'une autre langue.

Disposition des éléments et numérotation des feuilles de la demande internationale (règle 11.7 et instruction 207) : les éléments de la demande internationale doivent être présentés dans l'ordre suivant : requête, description (sauf la partie de la description réservée au listage des séquences, le cas échéant), revendication(s), abrégé, dessins (le cas échéant), partie de la description réservée au listage des séquences, le cas échéant.

Toutes les feuilles de la description (sauf la partie réservée au listage des séquences), les revendications et l'abrégé doivent être numérotés consécutivement, en chiffres arabes qui doivent être inscrits, en milieu de ligne, en haut ou en bas de la feuille mais non dans la marge, qui doit rester vierge. Le numéro de chaque feuille des dessins doit consister en deux nombres en chiffres arabes séparés par une barre oblique, le premier indiquant le numéro de la feuille et le second le nombre total des feuilles de dessins (par exemple : 1/3, 2/3, 3/3). Pour la numérotation des feuilles de la partie de la description réservée au listage des séquences, se référer à l'instruction 207.

Indication de la référence du dossier du déposant ou du mandataire sur les feuilles de la description (sauf la partie de la description réservée au listage des séquences, le cas échéant), de la ou des revendications, de l'abrégé, des dessins et de la partie de la description réservée au listage des séquences (règle 11.6.f)) : la référence de dossier indiquée sur la requête peut l'être également sur chaque feuille de la demande internationale, dans le coin gauche de la marge du haut, sans toutefois apparaître au-delà de 1,5 cm à partir du haut.

This sheet is not part of and does not count as a sheet of the international application.

NOTES TO THE FEE CALCULATION SHEET (ANNEX TO FORM PCT/RO/101)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete the sheet by entering the appropriate amounts in the boxes provided and submit the fee calculation sheet at the time of filing the international application. This will help the receiving Office to verify the calculations and to identify any error in them.

Information about the applicable fees payable can be obtained from the receiving Office. The amounts of the international and search fees may change due to currency fluctuations. Applicants are advised to check what are the latest applicable amounts. All fees, except in some cases the designation fee, must be paid within one month from the date of receipt of the international application. See below for further details concerning the possibility of later payment of the designation fee.

CALCULATION OF PRESCRIBED FEES

Box T: Transmittal Fee for the benefit of the receiving Office (Rule 14.1): The amount of the transmittal fee, if any, is fixed by the receiving Office. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box S: Search Fee for the benefit of the International Searching Authority (ISA) (Rule 16.1): The amount of the search fee is fixed by the ISA. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex D.

Where two or more ISAs are competent, the applicant must indicate his choice in the space provided for this purpose and pay the amount of the international search fee fixed by the ISA chosen. Information on the competent ISA and whether the applicant has a choice between two or more ISAs is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box I: International Fee for the benefit of the International Bureau (Rule 15): The international fee consists of a basic fee and as many designation fees as there are specific designations under Rule 4.9(a) in Box No. V of the request. The amounts of the basic fee and of the designation fee are as set out in Swiss francs in the Schedule of Fees and the applicable amounts of those fees in other currencies are as published in the *PCT Gazette* (Rule 15.2). Information about those fees is also contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Reduction of the International Fee Where PCT-EASY Software Is Used: A fee reduction of 200 Swiss francs (or the equivalent in the currency in which the international fee is paid to the receiving Office) is available in certain cases where the PCT-EASY software is used to prepare the request, provided that the necessary conditions are met. For further details, see the *PCT Applicant's Guide*, Volume I/A, General Part, and information published in the *PCT Gazette* and the *PCT Newsletter*. Since applicants using the PCT-EASY software will file the Request Form and Fee Calculation Sheet in the form of a printout prepared using that software, no provision is made for this fee reduction in the Fee Calculation Sheet annexed to Form PCT/RO/101.

Reduction of the International Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the international fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the international fee (basic fee and

designation fees) is automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Boxes Nos. II and III of the request.

The fee reduction is available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic, CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CO Colombia, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VN Viet Nam, YU Yugoslavia, ZA South Africa and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the International Fee (Basic Fee and Designation Fees) in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the international fee, the total to be entered at box I is 25% of the sum of the amounts entered at boxes B and D (see below).

Box B: Basic Fee. The amount of the basic fee depends on the number of sheets of the international application indicated under item (a) of Box No. IX of the request as explained below.

That number is the **Total number of sheets** where item (b) of Box No. IX of the request does not apply (that is, where the international application either does not contain a sequence listing part or where it contains such a part but not filed in computer readable form under Section 801(a)(i) or (ii)), in such a case, item "b3" must not be filled in.

Otherwise, where item (b) of Box No. IX of the request applies (that is, where the international application contains a

NOTES RELATIVES A LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/RO/101)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre au moment du dépôt de la demande internationale, ce qui permettra à l'office récepteur de vérifier les calculs et d'y déceler d'éventuelles erreurs.

Des renseignements sur le montant en vigueur des taxes à payer peuvent être obtenus auprès de l'office récepteur. Les montants de la taxe internationale et de la taxe de recherche peuvent varier en raison de fluctuations monétaires. Il est recommandé aux déposants de vérifier quels sont les tout derniers montants en vigueur. Toutes les taxes sauf, dans certains cas, la taxe de désignation doivent être payées dans un délai d'un mois à compter de la date de réception de la demande internationale. On trouvera ci-après quelques précisions supplémentaires relatives à un éventuel paiement différé de la taxe de désignation.

CALCUL DES TAXES PRESCRITES

Cadre T : Taxe de transmission au profit de l'office récepteur (règle 14.1) : l'office récepteur fixe le montant de la taxe de transmission, s'il y en a une. Celui-ci doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT*, volume I/B, annexe C.

Cadre S : Taxe de recherche au profit de l'administration chargée de la recherche internationale (règle 16.1) : le montant de la taxe de recherche est fixé par l'administration chargée de la recherche internationale. Il doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT*, volume I/B, annexe D.

Lorsque plusieurs administrations chargées de la recherche internationale sont compétentes, le déposant doit indiquer son choix à l'emplacement prévu à cet effet et payer le montant de la taxe de recherche internationale fixé par l'administration qu'il a choisie. Le *Guide du déposant du PCT*, volume I/B, annexe C, donne des renseignements sur l'administration chargée de la recherche internationale qui est compétente et sur la question de savoir si le déposant a le choix entre plusieurs administrations chargées de la recherche internationale.

Cadre I : Taxe internationale au profit du Bureau international (règle 15) : la taxe internationale comprend une taxe de base et autant de taxes de désignation qu'il y a de désignations faites expressément selon la règle 4.9.a) dans le cadre n° V de la requête. Les montants de la taxe de base et de la taxe de désignation sont fixés en francs suisses dans le barème des taxes et les montants correspondants de ces taxes dans d'autres monnaies sont publiés dans la *Gazette du PCT* (règle 15.2). On peut trouver des renseignements sur ces taxes dans le *Guide du déposant du PCT*, volume I/B, annexe C.

Réduction de la taxe internationale dans le cas de l'utilisation du logiciel PCT-EASY : une réduction de 200 francs suisses (ou l'équivalent dans la monnaie dans laquelle la taxe internationale est payée à l'office récepteur) peut être obtenue dans certains cas où le logiciel PCT-EASY est utilisé pour la préparation de la requête, à condition que les conditions nécessaires soient remplies. On peut trouver des précisions sur cette réduction dans le *Guide du déposant du PCT*, volume I/A, partie générale, ainsi que dans les informations publiées dans la *Gazette du PCT* et le bulletin *PCT Newsletter*. Étant donné que les déposants qui utilisent le logiciel PCT-EASY déposeront le formulaire de requête et la feuille de calcul des taxes sous la forme d'un imprimé produit par ordinateur à l'aide de ce logiciel, la feuille de calcul des taxes annexée au formulaire PCT/RO/101 ne prévoit pas cette réduction de taxe.

Réduction de la taxe internationale pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75 % de certaines taxes du PCT, dont la taxe internationale. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe internationale (taxe de base et taxe de désignation) s'applique automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans les cadres n°s II et III de la requête.

La réduction de la taxe s'applique même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus, BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CO Colombie, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud et ZW Zimbabwe. En ce qui concerne d'autres États, il convient de s'adresser au Bureau international.

sequence listing part which is filed in computer readable form only, under Section 801(a)(i), or both in that form and in paper form under Section 801(a)(ii)), the number of sheets to be used for the purpose of calculating the amount of the basic fee is the **Sub-total number of sheets**. In such a case, item "b3" must be filled in on the basis that the sequence listing part in computer readable form is considered to be equal to 400 sheets (see Section 803).

The basic fee must be paid within one month from the date of receipt of the international application by the receiving Office.

Box D: Designation Fees. Subject to what is said below, the number of designation fees due corresponds to the number of check-boxes marked in Box No. V of the request.

The number of designation fees which are due is the same as the number of national patents and regional patents in respect of which specific designations under Rule 4.9(a) are made. Only one designation fee is due for the designation AP, the designation EA, the designation EP or the designation OA, irrespective of the number of States for which an ARIPO patent, a Eurasian patent, a European patent or an OAPI patent, respectively, is sought.

Where any States are designated twice (once for the purposes of an ARIPO patent, a Eurasian patent or a European patent and once for the purposes of national protection), the applicant must pay one designation fee in respect of the ARIPO patent, the Eurasian patent or the European patent and a further designation fee in respect of each national patent or other title of protection sought (Rule 15.1(ii) and Section 210).

Any designation, in excess of six designations for which the fee is due, is free of charge. Therefore, the maximum amount to be indicated in box D is six times the amount of the designation fee. If, for example, 15 national patents and four regional patents (an ARIPO patent, a Eurasian patent, a European patent and an OAPI patent) are sought (totalling 19 designations), the figure to be indicated in box D is six times the amount of the designation fee.

The designation fees must be paid within one month from the date of receipt of the international application by the receiving Office or one year from the priority date, whichever time limit expires later.

Box P: Fee for Priority Document (Rule 17.1(b)): Where the applicant has requested, by marking the applicable check-box in Box No. VI of the request, that the receiving Office prepare and transmit to the International Bureau a certified copy of the earlier application the priority of which is claimed, the amount of the fee prescribed by the receiving Office for such service may be entered (for information, see the *PCT Applicant's Guide*, Volume I/B, Annex C).

If that fee is not paid at the latest before the expiration of 16 months from the priority date, the receiving Office may consider the request under Rule 17.1(b) as not having been made.

Total Box: The total of the amounts entered in boxes T, S, I and P should be entered in this box. If the applicant so wishes, the currency in which the fees are paid may be indicated next to or in the total box.

Later Payment of Designation Fees: Where the time limit of one year from the priority date expires later than one month from the date of receipt of the international application by the receiving Office, and the applicant wishes to delay the payment of the designation fees, it is recommended that the corresponding check-box be marked.

MODE OF PAYMENT

In order to help the receiving Office identify the mode of payment of the prescribed fees, it is recommended that the applicable check-box(es) be marked.

AUTHORIZATION TO CHARGE (OR CREDIT) DEPOSIT ACCOUNT

The receiving Office will not charge (or credit) fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

Calcul de la taxe internationale (taxe de base et taxes de désignation) en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe internationale, la somme devant figurer sous I est égale à 25 % de la somme des montants figurant sous B et D (voir ci-dessous).

Cadre B : Taxe de base. Le montant de la taxe de base est fonction du nombre de feuilles de la demande internationale indiqué au point a) du cadre n° IX de la requête comme expliqué ci-dessous.

Ce nombre est le **nombre total de feuilles** lorsque le point b) du cadre n° IX de la requête ne s'applique pas (c'est-à-dire, si la demande internationale ne contient pas une partie réservée au listage des séquences ou qu'elle contient une telle partie mais que cette dernière n'est pas déposée sous forme déchiffrable par ordinateur en vertu de l'instruction 801.a)ii) ou ii)), dans ce cas, le point "b3" ne doit pas être rempli.

Sinon, lorsque le point b) du cadre n° IX de la requête s'applique (c'est-à-dire, si la demande internationale contient une partie réservée au listage des séquences qui est déposée sous forme déchiffrable par ordinateur seulement, en vertu de l'instruction 801.a)i), ou à la fois sous cette forme et sous forme papier en vertu de l'instruction 801.a)ii), le nombre de feuilles à utiliser pour le calcul du montant de la taxe de base est le **sous-total des feuilles**. Dans un tel cas, le point "b3" doit être rempli étant entendu que la partie réservée au listage des séquences sous forme déchiffrable par ordinateur est considérée comporter 400 pages (voir l'instruction 803).

La taxe de base doit être payée dans un délai d'un mois à compter de la date de réception de la demande internationale par l'office récepteur.

Cadre D : Taxes de désignation. Sous réserve de ce qui suit, le nombre des taxes de désignation dues correspond au nombre de cases cochées dans le cadre n° V de la requête.

Sont dues autant de taxes de désignation qu'il y a de brevets nationaux et de brevets régionaux pour lesquels une désignation expresse a été faite en vertu de la règle 4.9.a). Une seule taxe de désignation est due pour la désignation AP, la désignation EA, la désignation EP ou la désignation OA, quel que soit le nombre d'États pour lesquels un brevet ARIPO, un brevet eurasienn, un brevet européen ou un brevet OAPI, respectivement, est demandé.

Si un ou plusieurs États sont désignés deux fois (une fois aux fins d'un brevet ARIPO, d'un brevet eurasienn ou d'un brevet européen et une fois aux fins d'une protection nationale), le déposant doit payer une taxe de désignation pour le brevet ARIPO, le brevet eurasienn ou le brevet européen et une autre taxe de désignation pour chaque brevet ou autre titre de protection national demandé (règle 15.1.ii) et instruction 210).

Toute désignation faite au-delà de six désignations soumises à la taxe est gratuite. Le montant maximum à indiquer dans le cadre D est donc de six fois le montant de la taxe de désignation. Si, par exemple, 15 brevets nationaux et quatre brevets régionaux (un brevet ARIPO, un brevet eurasienn, un brevet européen et un brevet OAPI) sont demandés (soit un total de 19 désignations), la somme à indiquer dans le cadre D est de six fois le montant de la taxe de désignation.

Les taxes de désignation doivent être payées dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale ou d'un an à compter de la date de priorité, le délai applicable étant celui des deux qui arrive à expiration le plus tard.

Cadre P : Taxe afférente au document de priorité (règle 17.1.b)) : si, en cochant la case appropriée dans le cadre n° VI de la requête, le déposant a demandé que l'office récepteur prépare et transmette au Bureau international une copie certifiée conforme de la demande antérieure dont la priorité est revendiquée, il peut indiquer le montant de la taxe prescrite par l'office récepteur pour ce service (pour information, voir le *Guide du déposant du PCT*, volume I/B, annexe C).

Si cette taxe n'est pas payée au plus tard avant l'expiration d'un délai de 16 mois à compter de la date de priorité, l'office récepteur peut considérer la requête selon la règle 17.1.b) comme n'ayant pas été présentée.

Total : le total des montants inscrits dans les cadres T, S, I et P doit être porté dans ce cadre. Le déposant peut, s'il le souhaite, indiquer à proximité ou à l'intérieur du cadre "Total" la monnaie dans laquelle il paie les taxes.

Paiement différé des taxes de désignation : si le délai d'un an à compter de la date de priorité arrive à expiration plus d'un mois après la date à laquelle l'office récepteur reçoit la demande internationale, et que le déposant souhaite différer le paiement des taxes de désignation, il est recommandé de cocher la case appropriée.

MODE DE PAIEMENT

Pour aider l'office récepteur à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

L'office récepteur ne débitera ou ne créditera un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.

NOTES TO THE DEMAND FORM (PCT/IPEA/401)

These Notes are intended to facilitate the filling in of the demand form and to give some information concerning international preliminary examination under Chapter II of the Patent Cooperation Treaty (PCT). For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the PCT, the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the demand form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with dark ink (Rules 11.9(a) and (b) and 11.14).

The demand form and these Notes may be downloaded from WIPO's Website at the address given above.

IMPORTANT GENERAL INFORMATION

Who May File a Demand? (Article 31(2)(a) and Rule 54): A demand (for international preliminary examination) may only be filed by an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II of the PCT; furthermore, the international application must have been filed with a receiving Office of, or acting for, a State bound by Chapter II. Where there are two or more applicants (for the same or different elected States) at least one of them must qualify.

Where Must the Demand Be Filed? (Article 31(6)(a)): The demand must be filed with a competent International Preliminary Examining Authority (IPEA). The receiving Office with which the international application was filed will, upon request, give information about the competent IPEA (or see the *PCT Applicant's Guide*, Volume I/B, Annex C). If several IPEAs are competent, the applicant has the choice and the demand must be filed with (and the fees must be paid to) the IPEA chosen by the applicant. The IPEA chosen by the applicant may be identified, preferably by an indication of the name or two-letter code of the IPEA, at the top of the first sheet of the demand in the space provided for that purpose.

When Must the Demand Be Filed? (Article 39(1)): The demand must be filed before the expiration of *19 months from the priority date* in order to extend the time limit for entering the national phase of the PCT procedure from 20 to 30 months from the priority date. *Warning:* if the demand is filed later, the national phase will not be delayed in respect of the elected States and the applicant must enter the national phase before the expiration of the time limit applicable under Article 22 (which is usually 20 months from the priority date).

In Which Language Must the Demand Be Filed? (Rule 55.1): The demand must be filed in the language in which international preliminary examination will be carried out (see Notes to Box No. IV).

What is the Language of Correspondence? (Rules 66.9 and 92.2 and Section 104): Any letter from the applicant to the IPEA must be in the same language as the international application to which it relates. However, where the international preliminary examination will be carried out on the basis of a translation (see Notes to Box No. IV), any letter from the applicant to the IPEA must be in the language of the translation. The IPEA may authorize the use of other languages for letters which do not contain or relate to amendments of the international application. Any letter from the applicant to the International Bureau must be in English or French, at the choice of the applicant. However, if the language of the international application is English, the letter must be in English; if the language of the international application is French, the letter must be in French.

Which Fees Must Be Paid and When? (Rules 57 and 58):

Two fees are due in respect of the international preliminary examination: the preliminary examination fee and the handling fee. Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The Fee Calculation Sheet should be used for that purpose. For details concerning the payment of the fees, see the Notes to that Sheet.

BOX No. I

Applicant's or Agent's File Reference: A file reference may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded (Section 109).

Identification of the International Application (Rule 53.6): The international application number must be indicated in Box No. I. Where the demand is filed at a time when the international application number has not yet been notified by the receiving Office, the name of that Office must be indicated instead of the international application number.

International Filing Date and (Earliest) Priority Date (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for each of the number of the day, the number of the month and the last two digits of the year, in that order, and separated by periods, slants or hyphens, for example, "20 March 2001 (20.03.01)", "20 March 2001 (20/03/01)" or "20 March 2001 (20-03-01)". Where the international application claims the priority of several earlier applications, the filing date of the earliest application whose priority is claimed must be indicated as the priority date.

Title of the Invention: If a new title has been established by the International Searching Authority, that title must be indicated in Box No. I.

BOX No. II

Applicant(s) (Rule 53.4): All the applicants for the elected States must be indicated in the demand; an applicant named in the request (Form PCT/RO/101) for a State which is not elected need not be named in the demand. It should be noted that the persons named as "inventor only" in the request need not be named in the demand.

Make in Box No. II of the demand the required indications as appearing in Boxes Nos. II and III of the request. The Notes to the request apply *mutatis mutandis*. If there are two or more applicants for the States elected in the demand, give the required indications for each of them; if there are more than

RENSEIGNEMENTS IMPORTANTS D'ORDRE GÉNÉRAL

Qui peut présenter une demande d'examen préliminaire international ? (article 31.2a) et règle 54) : une demande d'examen préliminaire international ne peut être présentée que par un déposant qui est ressortissant d'un État contractant lié par le chapitre II du PCT ou qui a son domicile dans un tel État; en outre, la demande internationale doit avoir été déposée auprès de l'office récepteur d'un État lié par le chapitre II, ou agissant pour un tel État. S'il y a plusieurs déposants (pour les mêmes États élus ou pour des États élus différents), au moins l'un d'entre eux doit remplir les conditions requises.

Où la demande d'examen préliminaire international doit-elle être présentée ? (article 31.6a)) : la demande d'examen préliminaire international doit être présentée à une administration chargée de l'examen préliminaire international (IPEA) compétente. L'office récepteur auprès duquel la demande internationale a été déposée donnera, sur demande, des renseignements au sujet de l'administration chargée de l'examen préliminaire international qui est compétente (voir aussi le *Guide du déposant du PCT*, volume I/B, annexe C). Si plusieurs administrations chargées de l'examen préliminaire international sont compétentes, le déposant doit présenter la demande d'examen préliminaire international à l'administration de son choix (et lui payer les taxes). Cette administration peut être indiquée, de préférence au moyen de son nom ou de son code à deux lettres, en haut de la première feuille de la demande d'examen préliminaire international, dans l'espace prévu à cet effet.

Quand la demande d'examen préliminaire international doit-elle être présentée ? (article 39.1)) : la demande d'examen préliminaire international doit être présentée avant l'expiration d'un délai de 19 mois à compter de la date de priorité pour que le délai d'ouverture de la phase nationale de la procédure selon le PCT puisse passer, en ce qui concerne les États élus, de 20 à 30 mois à compter de la date de priorité. *Important* : si la demande d'examen préliminaire international est présentée plus tard, la phase nationale ne sera pas différée et le déposant devra l'aborder avant l'expiration du délai applicable en vertu de l'article 22 (qui est habituellement de 20 mois à compter de la date de priorité).

En quelle langue la demande d'examen préliminaire international doit-elle être présentée ? (règle 55.1) : la demande d'examen doit être présentée dans la langue dans laquelle l'examen préliminaire international sera effectué (voir les notes relatives au cadre n° IV).

Quelle est la langue à utiliser dans la correspondance ? (règles 66.9 et 92.2 et instruction 104) : toute lettre adressée par le déposant à l'administration chargée de l'examen préliminaire international doit être rédigée dans la même langue que la demande internationale qu'elle concerne. Cependant, lorsque l'examen préliminaire international doit être effectué sur la base d'une traduction (voir les notes relatives au cadre n° IV), toute lettre adressée par le déposant à l'administration chargée de cet examen doit être rédigée dans la langue de la traduction. L'administration chargée de l'examen peut autoriser l'utilisation d'autres langues pour des lettres qui ne contiennent pas de modifications de la demande internationale ou qui ne se rapportent pas à des modifications. Toute lettre adressée par le déposant au Bureau international doit être rédigée en anglais ou en français, au choix du déposant. Toutefois, si la langue de la demande internationale est l'anglais, la lettre doit être rédigée en anglais; si la langue de la demande internationale est le français, la lettre doit être rédigée en français.

Quelles taxes doivent être payées et quand ? (règles 57 et 58) : l'examen préliminaire international donne lieu au paiement de deux taxes : la taxe d'examen préliminaire et la taxe de traitement. Ces deux taxes doivent être acquittées auprès de l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date de présentation de la demande d'examen. La feuille de calcul des taxes devrait être utilisée à cette fin. Pour de plus amples renseignements concernant le paiement des taxes, voir les notes relatives à cette feuille.

CADRE N° I

Référence du dossier du déposant ou du mandataire : il est possible d'indiquer, à titre facultatif, une telle référence de dossier. Celle-ci ne devrait pas dépasser 12 caractères. L'administration chargée de l'examen préliminaire international peut ne pas tenir compte des caractères en sus du douzième (instruction 109).

Identification de la demande internationale (règle 53.6) : le numéro de la demande internationale doit être indiqué dans le cadre n° I. Si la demande d'examen préliminaire international est présentée alors même que le numéro de la demande internationale n'a pas encore été notifié par l'office récepteur, le nom de cet office doit être indiqué en lieu et place du numéro de la demande internationale.

three applicants, make the required indications on the “Continuation Sheet”.

If different applicants are indicated in the request for different designated States, indicate in Box No. II of the demand only the applicants for the States elected in Box No. V (no indication of the States for which a person is applicant need be made, because those indications have been made in the request).

Applicant’s registration number with the Office (Rule 53.4): Where the applicant is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the applicant is so registered.

BOX No. III

Agent or Common Representative (Rules 53.5, 90.1 and 90.2): Mark the applicable check-boxes to indicate *first* whether the person named in this Box is agent or common representative, *then* whether that person *has been appointed earlier* (i.e., during the procedure under Chapter I), or *is appointed in the demand* and any earlier appointment of another person is revoked, or *is appointed specifically for the procedure before the IPEA* (without revocation of any earlier appointment), in addition to the person(s) appointed earlier.

Where an additional person is appointed specifically for the procedure before the IPEA, all notifications issued by the IPEA will be addressed only to that additional person.

A separate power of attorney must be filed with the IPEA, the International Bureau or the receiving Office, if the person appointed at the time the demand is filed (i.e., was not appointed earlier) signs the demand on behalf of the applicant (Rule 90.4).

Agent’s registration number with the Office (Rule 53.5): Where the agent is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. III will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address may be indicated in Box No. III instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. III must be marked (that is, the last check-box must not be marked if either of the check-boxes “agent” or “common representative” in Box No. III has been marked).

BOX No. IV

Statement Concerning Amendments (Rules 53.2(a)(v), 53.9, 62, 66.1 and 69.1): The international preliminary examination will start on the basis of the international application

as filed or, if amendments have been filed, as amended. Mark the appropriate check-box(es) to enable the IPEA to determine when and on what basis it can start international preliminary examination.

Mark the corresponding check-box(es) under No. 1 where the international preliminary examination should start on the basis of the international application as originally filed or where amendments are to be taken into account, as the case may be. Where amendments are to be taken into account, the applicant must submit *with the demand* a copy of amendments to the claims under Article 19 (Rule 53.9(a)(i)) and/or the amendments of the international application under Article 34 (Rule 53.9(c)), as the case may be. If a check-box is marked but the demand is not accompanied by the documents referred to, the start of international preliminary examination will be delayed until the IPEA receives them.

Mark check-box No. 2 if amendments of the claims under Article 19 have been filed with the International Bureau during the Chapter I procedure, but the applicant does not want these amendments to be taken into account for the purpose of international preliminary examination when the latter starts (Rule 53.9(a)(ii)).

Mark check-box No. 3 where the time limit for filing amendments of the claims under Article 19 has not expired at the time the demand is filed and the applicant wants to keep the option for the filing of such amendments open; the IPEA is thus requested to postpone the start of international preliminary examination (Rules 53.9(b) and 69.1(d)). It should be noted that the examination will start in any event after the expiration of 20 months from the priority date even where the time limit for filing amendments has not yet expired or no amendments have been received by the IPEA.

If no check-box is marked, refer to the footnote at the bottom of the Box.

Language for the Purposes of International Preliminary Examination (Rule 55.2): Where neither the language in which the international application is filed nor the language in which the international application is published is accepted by the IPEA that is to carry out the international preliminary examination, the applicant must furnish with the demand a translation of the international application into a language which is both a language accepted by that Authority and a language of publication.

Where such translation has already been furnished to the International Searching Authority for the purposes of carrying out international search and the IPEA is part of the same Office or intergovernmental organization as the International Searching Authority, the applicant need not furnish another translation. In such a case the international preliminary examination is carried out on the basis of the translation furnished for the purposes of international search.

The language for the purposes of international preliminary examination should be indicated in Box No. IV, on the dotted line, and the corresponding check-box should be marked.

Language of Amendments (Rules 55.3 and 66.9): Amendments and letters relating thereto must be in the same language as that in which the international preliminary examination is carried out, as explained in the preceding paragraphs.

Date du dépôt international et date de priorité (la plus ancienne) (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples "20 mars 2001 (20.03.01)", "20 mars 2001 (20/03/01)" ou "20 mars 2001 (20-03-01)". Lorsque la demande internationale revendique la priorité de plusieurs demandes antérieures, la date de dépôt de la plus ancienne demande dont la priorité est revendiquée doit être indiquée en tant que date de priorité.

Titre de l'invention : si l'administration chargée de la recherche internationale a établi un nouveau titre, celui-ci doit être indiqué dans le cadre n° I.

CADRE N° II

Déposant(s) (règle 53.4) : tous les déposants qui ont cette qualité pour les États élus doivent être mentionnés dans la demande d'examen préliminaire international; un déposant mentionné dans la requête (formulaire PCT/RO/101) pour un État qui n'est pas élu n'a pas à être mentionné dans la demande d'examen préliminaire international. Il est à noter que les personnes mentionnées dans la requête comme "inventeur seulement" n'ont pas non plus à être mentionnées dans la demande d'examen préliminaire international.

Reprendre dans le cadre n° II de la demande d'examen préliminaire international les indications requises figurant dans les cadres n°s II et III de la requête. Les notes relatives à la requête s'appliquent *mutatis mutandis*. S'il y a pluralité de déposants pour les États élus dans la demande d'examen préliminaire international, fournir les indications requises sur chacun d'eux; si ces déposants sont plus de trois, porter les indications en question sur une "feuille annexe".

Si, dans la requête, des déposants différents sont indiqués pour différents États désignés, n'indiquer dans le cadre n° II de la demande d'examen préliminaire international que les déposants ayant cette qualité pour les États élus dans le cadre n° V (il n'y a pas lieu d'indiquer les États pour lesquels une personne est mentionnée comme déposant, car ces indications ont été fournies dans la requête).

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 53.4) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

CADRE N° III

Mandataire ou représentant commun (règles 53.5, 90.1 et 90.2) : cocher les cases appropriées afin d'indiquer, *premièrement*, si la personne indiquée dans le cadre n° III est mandataire ou représentant commun, *deuxièmement*, si cette personne a été désignée à une date antérieure (c'est-à-dire au cours de la procédure prévue au chapitre I), *est désignée dans la demande d'examen préliminaire internationale* (toute désignation antérieure d'une autre personne étant révoquée) ou *est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire internationale* (sans qu'il y ait révocation d'une désignation antérieure) en sus de la ou des personnes désignées antérieurement.

Lorsqu'une personne supplémentaire est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international, toute la correspondance émanant de cette administration sera adressée seulement à cette personne supplémentaire.

Un pouvoir distinct doit être déposé auprès de l'administration chargée de l'examen préliminaire international, du Bureau international ou de l'office récepteur si la personne qui est désignée au moment de la présentation de la demande d'examen préliminaire international (et qui n'a donc pas été désignée antérieurement) signe cette demande d'examen au nom du déposant (règle 90.4).

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 53.5) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° III sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, il est possible d'indiquer cette adresse dans le cadre n° III, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas et seulement dans ce cas qu'il y a lieu de cocher la dernière case du cadre n° III (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° IV

Déclaration concernant les modifications (règles 53.2.a)v), 53.9, 62, 66.1 et 69.1) : l'examen préliminaire international commencera sur la base de la demande internationale telle qu'elle a été déposée ou, si des modifications ont été déposées, telle qu'elle a été modifiée. Cocher la ou les cases appropriées pour permettre à l'administration chargée de l'examen préliminaire international de déterminer si elle peut commencer l'examen préliminaire international et sur quelle base.

Cocher la ou les cases appropriées de la rubrique n° 1 pour indiquer si l'examen préliminaire international doit commencer sur la base de la demande internationale telle qu'elle a été déposée ou s'il doit être tenu compte de modifications, selon le cas. S'il y a des modifications à prendre en compte, le déposant doit présenter avec la demande d'examen une copie des modifications apportées aux revendications en vertu de l'article 19 (règle 53.9.a)i) ou des modifications apportées à la demande internationale en vertu de l'article 34 (règle 53.9.c)), ou une copie des deux types de modifications, selon le cas. Si une case est cochée et que les documents correspondants ne sont pas joints à la demande

Time Limit for Furnishing Translation of the International Application (Rule 55.2): Any required translation of the international application should be furnished (by the applicant) together with the demand. If it is not so furnished, the IPEA will invite the applicant to furnish it within a time limit which shall not be less than one month from the date of the invitation. That time limit may be extended by the IPEA.

BOX No. V

Election of States (Rule 53.7): Only States which are bound by Chapter II of the PCT *and* which have been designated in the international application (that is, States whose designations have been made under Rule 4.9(a), confirmed under Rule 4.9(c) or considered as having been made under Rule 32.2(a)(i)) can be elected. They are the “eligible States”.

For the convenience and protection of applicants, Box No. V contains a statement to the effect that all eligible States are elected. It is only where the applicant does not wish to elect certain eligible States that the name(s) or two-letter code(s) of those States must be indicated after the words “wishes not to elect:”.

The indication in the demand of the kind of protection or treatment desired for any elected State is not required since it follows the indication made when designating that State in the international application.

BOX No. VI

Check List: It is recommended that this Box be filled in carefully in order for the IPEA to determine as soon as possible whether it is in possession of the documents on the basis of which the applicant wishes international preliminary examination to start.

Where the international application contains disclosure of one or more nucleotide and/or amino acid sequences, and a copy of the sequence listing in computer readable form complying with the standard provided for in the Administrative Instructions is required by the IPEA, the applicant may furnish the listing in computer readable form to the IPEA with the demand. If this is the case, check-box No. 5 must be marked.

BOX No. VII

Signature (Rules 53.8, 90.3(a) and 90.4(a)): The demand must be signed by the applicant or by his agent; if there are two or more applicants, the common representative may sign the demand. If the demand is not signed by (all) the persons who are applicants for the elected States (a person who is applicant only for a State which is not elected need not sign the demand), a power of attorney signed by that (all those) applicant(s) must be filed with the IPEA, with the International Bureau or with the receiving Office unless the agent has previously been appointed.

d'examen préliminaire international, le commencement de cet examen sera différé jusqu'à ce que l'administration qui en est chargée les reçoive.

Cocher la case n° 2 si des modifications apportées aux revendications en vertu de l'article 19 ont été déposées auprès du Bureau international lors de la procédure prévue au chapitre I, et que le déposant ne veut pas qu'il en soit tenu compte aux fins de l'examen préliminaire international lorsque celui-ci commencera (règle 53.9.a)ii).

Cocher la case n° 3 si le délai fixé pour le dépôt de modifications des revendications en vertu de l'article 19 n'a pas expiré au moment où la demande d'examen préliminaire international est présentée et que le déposant veut conserver la possibilité de déposer de telles modifications; il est ainsi demandé à l'administration chargée de l'examen préliminaire international de différer le commencement de cet examen (règles 53.9.b) et 69.1.d)). Il est à noter que l'examen commencera, en tout état de cause, après l'expiration d'un délai de 20 mois à compter de la date de priorité, même si le délai pour déposer des modifications n'a pas expiré ou que l'administration chargée de l'examen préliminaire international n'a reçu aucune modification.

Si aucune case n'est cochée, la procédure décrite dans la note figurant au bas du cadre sera suivie.

Langue aux fins de l'examen préliminaire international (règle 55.2) : lorsque ni la langue dans laquelle la demande internationale est déposée ni la langue dans laquelle elle est publiée n'est acceptée par l'administration chargée de l'examen préliminaire international qui effectuera cet examen, le déposant doit remettre avec la demande d'examen préliminaire international une traduction de la demande internationale dans une langue qui est à la fois une langue acceptée par cette administration et une langue de publication.

Lorsqu'une traduction répondant à ces critères a déjà été remise à l'administration chargée de la recherche internationale pour les besoins de cette recherche et que l'administration chargée de l'examen préliminaire international fait partie du même office ou de la même organisation intergouvernementale que l'administration chargée de la recherche internationale, il n'est pas nécessaire pour le déposant de remettre une autre traduction. Dans ce cas, l'examen préliminaire international est effectué sur la base de la traduction remise aux fins de la recherche internationale.

La langue dans laquelle sera effectué l'examen préliminaire international doit être indiquée dans le cadre n° IV sur la ligne pointillée, et la case appropriée la concernant doit être cochée.

Langue des modifications (règles 55.3 et 66.9) : les modifications et les lettres qui s'y rapportent doivent être rédigées dans la langue dans laquelle l'examen préliminaire international sera effectué, comme il est expliqué aux paragraphes précédents.

Délai imparti pour remettre une traduction de la demande internationale (règle 55.2) : toute traduction de la demande internationale qui est exigée doit être remise (par le déposant) en même temps que la demande d'examen préliminaire international. Si la traduction n'est pas remise en

même temps, l'administration chargée de l'examen préliminaire international invitera le déposant à remettre cette traduction dans un délai qui sera d'au moins un mois à compter de la date de l'invitation. Ce délai peut être prorogé par l'administration chargée de l'examen préliminaire international.

CADRE N° V

Élection d'États (règle 53.7) : seuls peuvent être élus les États qui sont liés par le chapitre II du PCT *et* qui ont été désignés dans la demande internationale (c'est-à-dire qui ont fait l'objet de désignations faites en vertu de la règle 4.9.a), confirmées en vertu de la règle 4.9.c) ou considérées comme ayant été faites, en vertu de la règle 32.2.a)i)). Ces États sont les "États éligibles".

Pour faciliter la tâche des déposants et les protéger, le cadre n° V contient une déclaration selon laquelle tous les États éligibles sont élus. Ce n'est que si le déposant ne souhaite pas élire certains États éligibles qu'il doit indiquer le nom ou le code à deux lettres de ces États après les mots "souhaite ne pas élire :".

Il n'est pas nécessaire d'indiquer dans la demande d'examen préliminaire internationale quelle forme de protection ou de traitement est souhaitée pour tel ou tel État élu puisque les indications portées dans la demande internationale lors de la désignation de cet État restent valables.

CADRE N° VI

Bordereau : il est recommandé de remplir soigneusement ce cadre pour que l'administration chargée de l'examen préliminaire international puisse déterminer le plus rapidement possible si elle est en possession de la ou des modifications ou de la ou des lettres sur la base desquelles le déposant souhaite que l'examen préliminaire international commence.

Lorsque la demande internationale contient la divulgation d'une ou plusieurs séquences de nucléotides ou d'acides aminés, et qu'une copie du listage des séquences sous forme déchiffrable par ordinateur, conforme à la norme figurant dans les instructions administratives, est requise par l'administration chargée de l'examen préliminaire international, le déposant peut fournir à cette administration, conjointement avec la demande d'examen préliminaire international, le listage en question sous une forme déchiffrable par ordinateur. S'il le fait, la case n° 5 doit être cochée.

CADRE N° VII

Signature (règles 53.8, 90.3.a) et 90.4.a) : la demande d'examen préliminaire internationale doit être signée par le déposant ou par son mandataire; s'il y a plusieurs déposants, elle peut l'être par le représentant commun. Si elle n'est pas signée par une ou plusieurs personnes qui ont la qualité de déposant pour les États élus (une personne qui est déposant seulement pour un État non élu n'a pas besoin de signer la demande d'examen préliminaire internationale), un pouvoir signé par ces personnes doit être déposé auprès du Bureau international, de l'office récepteur ou de l'administration chargée de l'examen préliminaire internationale, sauf si le mandataire a été désigné à une date antérieure.

NOTES TO THE FEE CALCULATION SHEET (ANNEX TO FORM PCT/IPEA/401)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete, by entering the appropriate amounts in the boxes provided, and submit the fee calculation sheet at the time of filing of the demand. This will help the International Preliminary Examining Authority (IPEA) to verify the calculations and to identify any error in them.

CALCULATION OF PRESCRIBED FEES

Two fees must be paid for international preliminary examination:

- (i) the preliminary examination fee for the benefit of the IPEA (Rule 58.1);
- (ii) the handling fee for the benefit of the International Bureau (Rule 57).

Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The amount payable is the amount applicable on the date of submittal (Rules 57.3 and 58.1(b)). The fees must be paid in a currency acceptable to the IPEA.

Information about the amount of those fees or about equivalent amounts in other currencies can be obtained from the IPEA or the receiving Office. This information is also published in the *PCT Applicant's Guide*, Volume I/B, Annex E, and from time to time in Section IV of the *PCT Gazette*.

Box P: The amount of the preliminary examination fee must be entered in Box P.

Box H: The amount of the handling fee must be entered in Box H.

Reduction of the Handling Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the handling fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the handling fee will be automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Box No. II of the demand.

The fee reduction will be available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil,

BY Belarus, BZ Belize, CF Central African Republic, CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CO Colombia, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VN Viet Nam, YU Yugoslavia, ZA South Africa and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the Handling Fee in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the handling fee, the total to be entered at Box H is 25% of the handling fee.

Total Box: The total of the amounts inserted in Boxes P and H is the amount which must be paid to the IPEA.

MODE OF PAYMENT

In order to help the IPEA identify the mode of payment of the prescribed fees, it is recommended to mark the applicable check-box(es).

AUTHORIZATION TO CHARGE (OR CREDIT) DEPOSIT ACCOUNT

The applicant should check whether the IPEA allows the use of deposit accounts for payment of PCT fees. In addition, it is recommended that the applicant check what are the specific conditions applicable to the use of deposit accounts with the IPEA since not all IPEAs provide the same services.

Finally, if the IPEA is not the same national Office or intergovernmental organization as that with which the international application was filed, the deposit account with the receiving Office cannot be charged for the purpose of paying the preliminary examination and handling fees due to the IPEA.

The IPEA will not charge fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

NOTES RELATIVES À LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/IPEA/401)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre à la demande d'examen préliminaire international. Cela aidera l'administration chargée de l'examen préliminaire international (IPEA) à vérifier les calculs et à y déceler d'éventuelles erreurs.

CALCUL DES TAXES PRESCRITES

L'examen préliminaire international donne lieu au paiement de deux taxes :

- i) la taxe d'examen préliminaire, au profit de l'administration chargée de l'examen préliminaire international (règle 58.1);
- ii) la taxe de traitement, au profit du Bureau international (règle 57).

Ces deux taxes doivent être payées à l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date à laquelle la demande d'examen préliminaire international est présentée. Le montant dû est le montant applicable à la date de présentation de cette demande d'examen (règles 57.3 et 58.1.b)). Les taxes doivent être payées dans une monnaie que l'administration chargée de l'examen préliminaire international accepte.

Des renseignements au sujet du montant de ces taxes ou de leur contre-valeur en d'autres monnaies peuvent être obtenus auprès de l'administration chargée de l'examen préliminaire international ou de l'office récepteur. Ces renseignements figurent également dans le *Guide du déposant du PCT*, volume I/B, annexe E, et sont aussi publiés périodiquement dans la section IV de la *Gazette du PCT*.

Cadre P : le montant de la taxe d'examen préliminaire doit être inscrit dans le cadre P.

Cadre H : le montant de la taxe de traitement doit être inscrit dans le cadre H.

Réduction de la taxe de traitement pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75% de certaines taxes du PCT, dont la taxe de traitement. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe de traitement s'appliquera automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans le cadre n° II de la demande d'examen préliminaire international.

La réduction de la taxe s'appliquera même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus,

BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CO Colombie, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud et ZW Zimbabwe. En ce qui concerne d'autres États, il conviendra de s'adresser au Bureau international.

Calcul de la taxe de traitement en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe de traitement, le montant devant figurer dans le cadre H est égal à 25% de la taxe de traitement.

Total : le total des montants inscrits dans les cadres P et H représente la somme à verser à l'administration chargée de l'examen préliminaire international.

MODE DE PAIEMENT

Pour aider l'administration chargée de l'examen préliminaire international à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

Le déposant devrait s'assurer que l'administration chargée de l'examen préliminaire international permet l'utilisation de comptes de dépôt pour le paiement des taxes du PCT. En outre, il est recommandé qu'il prenne connaissance des modalités particulières d'utilisation des comptes de dépôt auprès de cette administration étant donné que toutes les administrations chargées de l'examen préliminaire international n'offrent pas les mêmes services.

Enfin, si l'administration chargée de l'examen préliminaire international n'est pas l'office national auprès duquel, ou l'organisation intergouvernementale auprès de laquelle, la demande internationale a été déposée, le déposant ne peut pas utiliser le compte de dépôt auprès de l'office récepteur pour payer les taxes d'examen préliminaire et de traitement dues à l'administration chargée de l'examen préliminaire international.

L'administration chargée de l'examen préliminaire international ne débitera un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.

**THE PATENT COOPERATION TREATY (PCT)
IN 2000***

The World Intellectual Property Organization (WIPO), Geneva, announces the main events which occurred in 2000 in relation to the Patent Cooperation Treaty (PCT) and the results of operations under the PCT for that year.

— * —

1. The PCT system offers inventors and industry an advantageous route for obtaining patent protection internationally. By filing one “international” patent application under the PCT, protection for an invention can be sought simultaneously in each of a large number of countries. Both applicants and patent Offices of PCT member States benefit from the uniform formality requirements, the international search and preliminary examination reports, and the centralized international publication provided by the PCT system.

2. **Developments in 2000.** The International Bureau of WIPO received 90,948 international applications filed worldwide,¹ which is 16,925 (22.9%) more than in 1999. The 90,948 international applications had the effect of 4,806,623 national applications, and of 262,793 regional applications which would be equivalent to 3,650,549 applications for patent protection in the member States of the regional patent systems, that is, a notional equivalent effect, in total, of 8,457,172 national applications. In March 2000, the PCT reached a milestone in its history with the filing of the 500,000th application. It is interesting to note that the 250,000th application was received in February 1996, 18 years after the start of PCT operations, and it took only four years to receive the next 250,000.

3. During 2000, four new Contracting States became bound by the PCT (on the dates shown in parentheses):

Algeria (March 8, 2000);

Antigua and Barbuda (March 17, 2000);

Mozambique (May 18, 2000);

Belize (June 17, 2000).

* Was published in the Information Note “The Patent Cooperation Treaty (PCT) in 2000” dated 13 February 2001.

¹ Figures in this information note for international applications filed in 2000 are based on the number of record copies of international applications received, under PCT Article 12, by the International Bureau in 2000 from PCT receiving Offices (including the Receiving Office Section of the International Bureau).

**LE TRAITÉ DE COOPÉRATION EN MATIÈRE DE BREVETS (PCT)
EN 2000***

L'Organisation Mondiale de la Propriété Intellectuelle (OMPI), à Genève, communique les principaux faits survenus en 2000 en rapport avec le Traité de coopération en matière de brevets (PCT) ainsi que les résultats des opérations effectuées au titre de ce traité pendant l'année considérée.

— * —

1. Le PCT constitue pour les inventeurs et les industriels une voie intéressante d'obtention de la protection par brevet à l'échelon international. En effet, en déposant une seule demande "internationale" de brevet dans le cadre du PCT, il est possible d'obtenir simultanément la protection d'une invention dans un grand nombre de pays. Le système est avantageux tant pour les déposants que pour les offices de brevets des États contractants, puisqu'il prévoit des formalités uniformes, un rapport de recherche internationale et un rapport d'examen préliminaire international ainsi qu'une publication internationale centralisée.

2. *Faits nouveaux survenus en 2000.* Le Bureau international de l'OMPI a reçu 90 948 demandes internationales provenant du monde entier¹, soit 16 925 (22,9%) de plus qu'en 1999. Ces 90 948 demandes internationales ont produit les effets de 4 806 623 demandes nationales et de 262 793 demandes régionales, correspondant à leur tour aux effets de 3 650 549 demandes de protection par brevet dans les États parties à des systèmes de brevets régionaux, ce qui équivaut à l'effet total de 8 457 172 demandes nationales. Mars 2000 a constitué une étape dans l'histoire du PCT puisque c'est ce mois-là que la 500 000^e demande a été déposée. Il est à noter que la 250 000^e demande a été reçue en février 1996, soit 18 ans après le début du fonctionnement du PCT, et qu'il n'a fallu que quatre années pour recevoir la 250 000^e demande suivante.

3. Au cours de l'année 2000, quatre nouveaux États sont devenus liés par le PCT (aux dates indiquées entre parenthèses) :

Algérie (8 mars 2000);

Antigua-et-Barbuda (17 mars 2000);

Mozambique (18 mai 2000);

Belize (17 juin 2000).

* A été publié dans la Note d'information "Le Traité de coopération en matière de brevets (PCT) en 2000" du 13 février 2001.

¹ Les chiffres relatifs aux demandes internationales déposées en 2000 ont été calculés à partir du nombre d'exemplaires originaux de demandes internationales transmis, en vertu de l'article 12 du PCT, au Bureau international en 2000 par les offices récepteurs du PCT (y compris par la Section "Office récepteur du PCT" du Bureau international).

4. Colombia deposited its instrument of accession to the PCT on November 29, 2000, bringing the number of States which had acceded to the PCT by December 31, 2000, to 109, as follows:

Albania	Cyprus	Latvia	Slovakia
Algeria	Czech Republic	Lesotho	Slovenia
Antigua and Barbuda	Democratic People's Republic of Korea	Liberia	South Africa

5. On May 8, 2000, Mozambique became bound by the Harare Protocol on Patents and Industrial Designs within the framework of the African Regional Industrial Property Organization (ARIPO). Consequently, as from May 18, 2000 (the date on which Mozambique became bound by the PCT), it became possible for PCT applicants to designate Mozambique for an ARIPO patent, as well as for a national patent. On November 1, 2000, Turkey became bound by the European Patent Convention, and thus, as from that date, it became possible for PCT applicants to designate Turkey for a European patent, as well as for a national patent.

6. **Summary of the procedure under the PCT.** The system of patent cooperation established by the PCT means that, by filing only one international application with one Office, an applicant can obtain the effect of regular national filings in any of the designated PCT Contracting States without initially having to furnish a translation of the application or pay national fees. The national patent granting procedure and the related high expenses are postponed, in the majority of cases, by up to 18 months (or even longer in the case of some Offices), as compared with the traditional patent system.

4. La Colombie a déposé son instrument d'adhésion au PCT le 29 novembre 2000; par conséquent, à la date du 31 décembre 2000, les 109 États ci-après avaient adhéré au PCT :

Afrique du Sud	Dominique	Kenya	République

5. Le 8 mai 2000, le Mozambique est devenu lié par le Protocole de Harare sur les brevets et les dessins et modèles industriels dans le cadre de l'Organisation régionale africaine de la propriété industrielle (ARIPO). De ce fait, à compter du 18 mai 2000 (date à laquelle le Mozambique est devenu lié par le PCT), il est devenu possible pour les déposants utilisant le système du PCT de désigner cet État pour un brevet ARIPO, de même que pour un brevet national. Le 1^{er} novembre 2000, la Turquie est devenue liée par la Convention sur le brevet européen, rendant ainsi possible pour les déposants utilisant le système du PCT de désigner, à compter de cette date, cet État pour un brevet européen, de même que pour un brevet national.

6. **Résumé de la procédure selon le PCT.** Grâce au système de coopération en matière de brevets instauré par le PCT, le déposant a la possibilité, en déposant une seule demande internationale auprès d'un seul office, d'obtenir l'effet de dépôts nationaux réguliers dans plusieurs ou la totalité des États contractants du traité qu'il a désignés sans devoir initialement remettre de traduction de la demande ni payer de taxes nationales. La procédure nationale de délivrance et le paiement des frais élevés qui s'y rapportent sont, dans la plupart des cas, différés d'une durée pouvant aller jusqu'à 18 mois (voire plus dans le cas de certains offices), si l'on compare avec le système traditionnel de brevets.

7. In addition to designations of PCT Contracting States for the purpose of obtaining national patents, an international application may include designations for regional patents: ARIPO (African Regional Industrial Property Organization) patents have effect in those States party to the Harare Protocol on Patents and Industrial Designs within the framework of ARIPO which are also Contracting States of the PCT; Eurasian patents have effect in States party to the Eurasian Patent Convention; European patents have effect in States party to the European Patent Convention; and OAPI (African Intellectual Property Organization) patents have effect in States party to the revised Bangui Agreement Relating to the Creation of an African Intellectual Property Organization.

8. Each international application is subjected to an international search carried out by one of the major patent Offices, acting as an International Searching Authority under the PCT, which establishes a report setting out the relevant prior art. That report is received by the applicant about 16 months after the priority date. Eighteen months after the priority date, the international application is published by the International Bureau, together with the international search report and any amendments of claims which may be made by the applicant, and is then transmitted to the applicant and the designated Offices.

9. If the applicant so requests (by filing a “demand” for international preliminary examination), and most do so (see paragraph 27), the international application is then subjected to international preliminary examination under PCT Chapter II by one of the Offices that act as International Preliminary Examining Authority. The entry into the national phase of the procedure is also postponed from 20 months after the priority date until 30 months after that date (later time limits apply in some cases) and the applicant is given an additional opportunity to amend the application. The examination results in a report that includes an opinion as to whether the claimed invention fulfills the criteria of novelty, inventive step and industrial applicability. The international preliminary examination report is usually received by the applicant about 28 months after the priority date, and is also sent to the designated Offices which were elected under Chapter II.

10. With the international search report and the international preliminary examination report, the applicant is in a much better position to decide whether to proceed with the national patent granting procedure before the various designated patent Offices. If the applicant considers, in the light of those reports, that it is worthwhile to continue seeking patent protection in several countries, he may then decide to pay the national fees and professional fees for patent agents abroad, and to incur the cost of preparing translations. This need not be done until 20 months or more after the priority date (that is, eight months later than under the traditional system), or, if the applicant has filed a demand for international preliminary examination in time, until 30 months or more after the priority date (that is, 18 months later than under the traditional patent system). At that later time the applicant is also in a much better position to decide about the need for patent protection having regard to increased knowledge of the technical value and commercial prospects of the invention.

11. **Meetings.** The Assembly of the PCT Union held its twenty-eighth (16th extraordinary) session in Geneva from March 13 to 17, 2000. The Assembly unanimously adopted a number of amendments to the PCT Regulations, which will enter into force on March 1, 2001. The amendments aim mainly at simplifying the national phase processing of PCT applications and aligning the PCT with the Patent Law Treaty (PLT) which was adopted on June 2, 2000. In particular, the amended Regulations will allow applicants to complete, when filing their international applications, declarations, containing standardized wording, concerning certain matters on which documents or evidence are required for the purposes of the national law in one or more designated States; such matters relate, in particular, to the identity of the inventor, the right to apply for a patent, the right to claim priority, inventorship, and non-prejudicial disclosures. Where declarations are submitted as provided, the circumstances under which further documents or evidence may be required by designated Offices will be restricted to cases where the Offices may reasonably doubt the veracity of the declarations. An amendment to the Regulations was also adopted allowing designated Offices to require that the applicant furnish a translation of the priority document, but only where the validity of the priority claim is relevant to the determination of whether the invention concerned is patentable. Another amendment to the Regulations was adopted with a view to limiting the cases in respect of which the International Preliminary Examining Authority is entitled to invite the applicant to furnish a translation of the priority document: the cases concerned would be those where the validity of a priority claim made in the international application is relevant for the formulation of the opinion as to the patentability of the invention.

7. Outre les désignations d'États contractants du PCT en vue de l'obtention de brevets nationaux, une demande internationale peut comporter des désignations pour des brevets régionaux : les brevets ARIPO (Organisation régionale africaine de la propriété industrielle) produisent leurs effets dans les États parties au Protocole de Harare relatif aux brevets et aux dessins et modèles industriels dans le cadre de l'ARIPO qui sont également des États contractants du PCT; les brevets eurasiens produisent leurs effets dans les États parties à la Convention sur le brevet eurasien; les brevets européens produisent leurs effets dans les États parties à la Convention sur le brevet européen; et les brevets OAPI (Organisation africaine de la propriété intellectuelle) produisent leurs effets dans les États parties à l'Accord portant révision de l'Accord de Bangui instituant une Organisation africaine de la propriété intellectuelle.

8. Chaque demande internationale fait l'objet d'une recherche internationale effectuée par l'un des grands offices de brevets, agissant en qualité d'administration chargée de la recherche internationale selon le PCT. Cet office établit un rapport de recherche internationale indiquant l'état de la technique pertinent. Le déposant reçoit ce rapport environ 16 mois à compter de la date de priorité. Dix-huit mois après la date de priorité, le Bureau international publie la demande internationale avec le rapport de recherche internationale et avec les éventuelles modifications que le déposant a pu apporter aux revendications. Il la transmet ensuite aux offices désignés et au déposant.

9. Si le déposant le demande (en présentant une demande d'examen préliminaire international), comme il le fait d'ailleurs dans la plupart des cas (voir le paragraphe 27), la demande internationale fait alors l'objet d'un examen préliminaire international conformément au chapitre II du PCT, effectué par l'un des offices agissant en qualité d'administrations chargées de l'examen préliminaire international, et l'ouverture de la phase nationale est retardée de 20 à 30 mois à compter de la date de priorité (les délais étant même plus longs dans certains cas), ce qui donne au déposant une occasion supplémentaire de modifier la demande. Cet examen aboutit à l'établissement d'un rapport dans lequel est formulée une opinion sur le point de savoir si l'invention revendiquée satisfait aux critères de nouveauté, d'activité inventive et de possibilité d'application industrielle. Le déposant reçoit le rapport d'examen préliminaire international environ 28 mois après la date de priorité et ce rapport est aussi adressé aux offices désignés qui ont été élus selon le chapitre II.

10. Une fois en possession du rapport de recherche internationale et du rapport d'examen préliminaire international, le déposant est bien mieux placé pour déterminer s'il convient d'entamer la procédure nationale de délivrance auprès des différents offices de brevets désignés. S'il estime, au vu de ces rapports, qu'il a intérêt à obtenir une protection par brevet dans différents pays, il peut décider d'acquiescer les taxes nationales et les honoraires des mandataires étrangers et d'engager les frais afférents à l'établissement des traductions. Pour prendre cette décision, il dispose d'un délai de 20 mois au moins à compter de la date de priorité (soit huit mois de plus que dans le système traditionnel), ou même de 30 mois au moins à compter de la date de priorité (soit 18 mois de plus que dans le système traditionnel) s'il a déposé une demande d'examen préliminaire international en temps utile. À ce moment-là, le déposant sera également bien mieux à même de se prononcer sur la nécessité d'une protection par brevet, car il aura une meilleure connaissance des perspectives offertes par l'invention sur les plans technique et commercial.

11. **Réunions.** L'Assemblée de l'Union du PCT a tenu sa vingt-huitième session (16^e session extraordinaire) à Genève, du 13 au 17 mars 2000. L'Assemblée a adopté à l'unanimité un certain nombre de modifications du règlement d'exécution du PCT, qui entreront en vigueur le 1^{er} mars 2001. Ces modifications visent essentiellement à simplifier le traitement, dans la phase nationale, des demandes déposées en vertu du PCT et à harmoniser le PCT avec le Traité sur le droit des brevets (PLT), qui a été adopté le 2 juin 2000. Les règles telles que modifiées permettront notamment aux déposants, au moment où ils déposent leur demande internationale, de compléter des déclarations rédigées selon le libellé standard sur certains points pour lesquels des documents ou des preuves sont exigées conformément à la législation nationale d'un ou de plusieurs offices désignés; ces points portent en particulier sur l'identité de l'inventeur, le droit du déposant de demander un brevet, le droit du déposant de revendiquer la priorité d'une demande antérieure, la qualité d'inventeur et les divulgations non opposables. Lorsqu'une déclaration est remise conformément à ce qui est prescrit, l'office désigné ne pourra exiger d'autres documents ou preuves que lorsqu'il peut raisonnablement douter de la véracité de la déclaration. Une autre modification du règlement d'exécution a été adoptée pour permettre aux offices désignés d'exiger du déposant qu'il ne fournisse une traduction du document de priorité que lorsque la validité de la revendication de priorité faite dans la demande internationale a une incidence pour déterminer si l'invention en cause est brevetable. Une autre modification encore du règlement d'exécution vise à restreindre le droit de l'administration chargée de l'examen préliminaire international d'inviter le déposant à lui remettre une traduction du document de priorité aux cas où la validité de la revendication de priorité faite dans la demande internationale a une incidence sur la formulation de l'opinion sur la brevetabilité de l'invention.

12. From July 11 to 14, 2000, a PCT Informal Consultation Meeting on Electronic Filing was held in Geneva. Proposed modifications of the PCT Administrative Instructions (new Part 7) relating to the electronic filing, processing, storage and records management of international applications, as well as a proposed technical standard in new Annex F to the Administrative Instructions, were discussed. The Meeting made significant progress towards the establishment of a legal framework and technical standard for the electronic filing and processing of PCT applications. It discussed, in particular, a set of common procedures for use by PCT applicants who have access to a personal computer and the Internet, and by PCT receiving Offices, using WIPO-furnished software. (See also paragraph 16.)

13. The Assembly of the PCT Union held its twenty-ninth (17th extraordinary) session in Geneva from September 25 to October 3, 2000. The Assembly decided to amend the Schedule of Fees to decrease the maximum number of designation fees payable, with effect from January 1, 2001, from eight to six (following the reduction from ten to eight as from January 1, 2000). Now, any designation made under PCT Rule 4.9(a) in excess of six does not require the payment of a designation fee. It was also announced at the Assembly that the Director General of WIPO had decided that, with effect from January 1, 2001, the transmittal fee charged by the International Bureau acting as receiving Office would be reduced from 300 Swiss francs to 100 Swiss francs, and that those applicants who presently qualify for a 75% reduction in the international fee would not pay any transmittal fee when filing international applications with that Office. The Assembly also discussed proposals for reform of the PCT, which had been made by the United States of America, and decided that a special body (consisting of Member States, the International Searching and Preliminary Authorities and observers, in particular, intergovernmental and non-governmental organizations, including the European Commission) would be set up to consider proposals for reform of the PCT.

14. **Seminars.** In 2000, officials of the International Bureau participated in 136 seminars and presentations that dealt with the use and advantages of the PCT and the promotion of accession to it. Those seminars and presentations were held in Antigua and Barbuda, Argentina, Bangladesh, Barbados, Belize, Bolivia, Brazil, Canada, China, Colombia, Costa Rica, Cuba, Denmark, Dominica, Ecuador, El Salvador, Finland, France, the Gambia, Germany, Guatemala, Honduras, India, Indonesia, Israel, Italy, Jamaica, Japan, Jordan, the Libyan Arab Jamahiriya, Madagascar, Mauritania, Morocco, Nicaragua, Niger, Panama, Paraguay, Peru, the Republic of Korea, Singapore, Slovakia, South Africa, Spain, Sri Lanka, Sudan, Suriname, Sweden, Switzerland, Thailand, Trinidad and Tobago, Turkey, the United Kingdom, the United Republic of Tanzania, the United States of America and Venezuela. They were given to about 8,900 users and potential users of the PCT system in the following languages: Arabic, Chinese, English, French, German, Japanese, Korean, Russian and Spanish. They included 13 specialized presentations that were given to some 540 people on the use of the PCT-EASY software.

15. **PCT Information Line.** The PCT Information Line answers general inquiries about the filing of international applications and the procedure during the international phase under the PCT. Where necessary, inquiries are referred to the authorized officer responsible for a particular application, or to the PCT Legal Division. The PCT Information Line can be contacted as follows:

by telephone: (41–22) 338 83 38
by fax: (41–22) 338 83 39
by e-mail: pct.infoline@wipo.int

12. Une réunion consultative informelle du PCT relative au dépôt électronique s'est tenue à Genève, du 11 au 14 juillet 2000. Les participants ont examiné les propositions de modification des Instructions administratives du PCT (nouvelle septième partie) relatives au dépôt, au traitement et à l'archivage électroniques des demandes internationales et à la gestion des dossiers électroniques relatifs à ces demandes ainsi que la norme technique qu'il était proposé d'incorporer dans la nouvelle annexe F de ces instructions. Les travaux sur la création d'un cadre juridique et d'une norme technique aux fins du dépôt et du traitement électroniques des demandes déposées en vertu du PCT ont considérablement progressé. Les participants ont notamment débattu d'un ensemble de procédures communes qui seraient suivies par les déposants dotés d'un ordinateur individuel et ayant accès à l'Internet et par les offices récepteurs du PCT utilisant le logiciel fourni par l'OMPI (voir aussi le paragraphe 16).

13. L'Assemblée de l'Union du PCT a tenu sa vingt-neuvième session (17^e session extraordinaire) à Genève, du 25 septembre au 3 octobre 2000. Elle a décidé de modifier le barème de taxes en vue de ramener de huit à six le nombre maximum de taxes de désignation à payer à compter du 1^{er} janvier 2001 (ce nombre ayant déjà été ramené de 10 à huit au 1^{er} janvier 2000). Aujourd'hui, toute désignation faite en vertu de la règle 4.9.a) du PCT après paiement de six taxes de désignation n'entraîne le paiement d'aucune autre taxe de ce type. L'Assemblée a aussi été informée du fait que le directeur général de l'OMPI a décidé, avec effet au 1^{er} janvier 2001, de réduire de 300 francs suisses à 100 francs suisses le montant de la taxe de transmission perçue par le Bureau international agissant en tant qu'office récepteur et que les déposants bénéficiant d'une réduction de 75% de la taxe internationale seraient entièrement exonérés de la taxe de transmission lorsqu'ils déposeront leur demande internationale auprès de cet office. L'Assemblée a aussi examiné une proposition de réforme du PCT émanant des États-Unis d'Amérique et a décidé qu'un organe spécial (composé d'États membres, d'administrations chargées de la recherche internationale ou de l'examen préliminaire international et d'observateurs, c'est-à-dire notamment des organisations intergouvernementales ou non gouvernementales y compris la Commission européenne) serait créé en vue d'examiner les propositions de réforme du PCT.

14. **Séminaires.** En 2000, des fonctionnaires du Bureau international ont participé à 136 séminaires et conférences sur l'utilisation et les avantages du PCT, visant également à favoriser les adhésions à ce traité. Ces séminaires et conférences ont eu lieu dans les pays suivants : Afrique du Sud, Allemagne, Antigua-et-Barbuda, Argentine, Bangladesh, Barbade, Belize, Bolivie, Brésil, Canada, Chine, Colombie, Costa Rica, Cuba, Danemark, Dominique, El Salvador, Équateur, Espagne, États-Unis d'Amérique, Finlande, France, Gambie, Guatemala, Honduras, Inde, Indonésie, Israël, Italie, Jamahiriya arabe libyenne, Jamaïque, Japon, Jordanie, Madagascar, Maroc, Mauritanie, Nicaragua, Niger, Panama, Paraguay, Pérou, République de Corée, République-Unie de Tanzanie, Royaume-Uni, Singapour, Slovaquie, Soudan, Sri Lanka, Suède, Suisse, Suriname, Thaïlande, Trinité-et-Tobago, Turquie et Venezuela. Environ 8900 utilisateurs effectifs ou potentiels du système du PCT ont ainsi pu suivre des exposés présentés dans les langues suivantes : français, allemand, anglais, arabe, chinois, coréen, espagnol, japonais et russe. Parmi ceux-ci, il faut citer 13 exposés consacrés spécialement à l'utilisation du logiciel PCT-EASY, auxquels ont assisté plus de 540 personnes.

15. **Service d'information directe du PCT.** Le service d'information directe du PCT est chargé de répondre aux questions d'ordre général concernant le dépôt des demandes internationales et la procédure de la phase internationale du PCT. Au besoin, les questions sont soumises au fonctionnaire autorisé responsable de la demande en cause, ou à la Division juridique du PCT. 16. Developments in PCT Automation.

– PCT-EASY: during 2000, four receiving Offices notified the International Bureau that they are prepared to accept the filing of international applications containing requests prepared using PCT-EASY together with PCT-EASY diskettes, bringing the number of receiving Offices which have made such notifications to 58 (out of the 81 PCT receiving Offices). Regular updates (five in 2000) of the PCT-EASY software are issued to take into account changes, such as new PCT Contracting States and changes in PCT fees. A new export/import functionality was also introduced to facilitate data exchange between EASY systems, to provide the possibility for creating a backup of essential PCT-EASY data and enable the transfer of PCT-EASY address book data to/from external programs. The software is available, together with supporting documentation, in Chinese, English, French, German, Japanese, Russian and Spanish, and can be downloaded from the Internet from the PCT-EASY home page (<http://pcteasy.wipo.int>) or the PCT home page (<http://www.wipo.int/pct/en/index.html>). It may also be obtained from the PCT-EASY Help Desk:

by fax: (41–22) 338 80 40

For statistics on the filing of international applications using the PCT-EASY software, see paragraph 20.

– PCT IMPACT (Information Management for the PATent Cooperation Treaty): following the completion, in December 1999, of the tender process and the selection of a consortium of three companies led by Xerox Professional Services (XPS) (United Kingdom), work on the project continued in 2000. (The other companies are Cap Gemini Ernst & Young (France) and Hewlett Packard (Switzerland).) According to the IMPACT project plan, the project will be implemented in three phases: (i) the IMPACT Communication System phase; (ii) the IMPACT/IB (International Bureau) phase; and (iii) the IMPACT/RO/IB (receiving Office of the International Bureau) phase. The objective of the first phase of the IMPACT Project, the IMPACT Communication System, is to establish a new system for the communication of certain PCT-related documents (such as PCT pamphlets, copies of priority documents, various PCT Forms and, under Chapter II of the PCT, international preliminary examination reports and any English translations thereof) to designated/elected Offices, International Searching Authorities, International Preliminary Examining Authorities and/or national/regional Offices of PCT Contracting States. At the end of 2000, this first phase of the project entered the prototype stage. The objective of the second and third phases of the project, IMPACT/IB and IMPACT/RO/IB, on which the IMPACT project team will focus its activities in 2001, is to establish a new system for the processing (including automated publication) of international applications within the International Bureau, including its receiving Office section.

– PCT electronic filing project: the main objectives of this project are to adopt a standard for the electronic filing and processing of international applications and to develop a system for the electronic filing of international applications based on the present PCT-EASY software. Step one of this project includes the construction of a pilot system. It is expected that the International Bureau as receiving Office will, in November 2001, commence receipt of international applications prepared using extended PCT-EASY software, in paper form with parallel electronic submission, on a pilot basis. In December 2001, other receiving Offices with the necessary technical capacity are expected to have the possibility of receiving international applications in electronic form. Step two of the project will more fully implement electronic filing, including the provision of electronic filing software for other receiving Offices. (See also paragraph 12.)

16. *Faits nouveaux relatifs à l'automatisation du PCT.*

– PCT-EASY : en 2000, quatre office récepteurs ont informé le Bureau international qu'ils étaient prêts à accepter le dépôt de demandes internationales contenant des requêtes en mode de présentation PCT-EASY avec des disquettes PCT-EASY, portant ainsi à 58 (sur les 81) le nombre d'offices récepteurs ayant procédé à cette notification. Le logiciel PCT-EASY est régulièrement mis à jour (cinq mises à jour en 2000) pour tenir compte de modifications telles que l'adhésion de nouveaux États contractants ou la modification des taxes du PCT. Une nouvelle fonction d'exportation/importation a été incorporée en vue de faciliter les échanges de données entre systèmes utilisant le logiciel PCT-EASY ainsi que de permettre la création d'une copie de sauvegarde des données essentielles PCT-EASY et le transfert des données figurant dans le carnet d'adresses PCT-EASY vers des programmes extérieurs où l'incorporation de données provenant de programmes extérieurs dans le carnet d'adresses PCT-EASY. Le logiciel et sa documentation sont disponibles en français, en allemand, en anglais, en chinois, en espagnol, en japonais, et en russe, et peut être téléchargé sur l'Internet à partir de la page d'accueil PCT-EASY (<http://pcteasy.wipo.int>) ou de la page d'accueil du PCT (<http://www.wipo.int/pct/fr/index.html>). On peut aussi s'adresser au groupe d'assistance PCT-EASY :

On trouvera au paragraphe 20 des statistiques sur le dépôt des demandes internationales au moyen du logiciel PCT-EASY.

– Projet IMPACT (Information Management for the Patent Cooperation Treaty – Gestion de l'information concernant le Traité de coopération en matière de brevets) : à la suite de l'achèvement, en décembre 1999, du processus d'appel d'offres et du choix d'un consortium composé de trois sociétés et dirigé par Xerox Professional Services (XPS) (Royaume-Uni), les travaux relatifs au projet se sont poursuivis en 2000 (les autres sociétés membres du consortium sont Cap Gemini Ernst & Young (France) et Hewlett Packard (Suisse)). Selon le plan établi, le projet comprend les trois phases suivantes : i) IMPACT - système de communication; ii) IMPACT - Bureau international ("IB") et iii) IMPACT - Office récepteur du Bureau international ("RO/IB"). La première phase (IMPACT - système de communication) du projet doit permettre de créer un nouveau système pour la communication de certains documents en rapport avec le PCT (tels que brochures PCT, copies de documents de priorité, divers formulaires PCT et, dans le cadre du chapitre II du PCT, rapports d'examen préliminaire international et toute traduction en anglais de ces rapports) à destination des offices désignés ou élus, des administrations chargées de la recherche internationale, des administrations chargées de l'examen préliminaire international et des offices nationaux ou régionaux des États contractants du PCT. À la fin de 2000, cette première phase du projet en était au stade du prototype. L'objectif des deuxième et troisième phases (IMPACT-IB et IMPACT-RO/IB) du projet, sur lequel seront axées les activités de l'équipe chargée du projet IMPACT en 2001, est d'établir un nouveau système de traitement (y compris la publication automatisée) des demandes internationales au sein du Bureau international et de son office récepteur.

– Projet de dépôt électronique dans le cadre du PCT : les principaux objectifs de ce projet sont l'adoption d'une norme relative au dépôt et au traitement électroniques des demandes internationales et la mise en œuvre d'un système de dépôt électronique des demandes internationales s'appuyant sur le logiciel PCT-EASY actuel. Le premier stade de ce projet comprend la mise au point d'un système pilote. Il est prévu que le Bureau international, en sa qualité d'office récepteur, commence, en novembre 2001, à recevoir des demandes internationales préparées à l'aide du logiciel PCT-EASY, sur support papier avec dépôt électronique en parallèle, dans le cadre d'un essai. En décembre 2001, d'autres offices récepteurs dotés des moyens techniques nécessaires devraient pouvoir recevoir des demandes internationales sous forme électronique. Le second stade du projet, qui devrait permettre de renforcer la mise en place du dépôt électronique, comprend la fourniture d'un logiciel de dépôt électronique à d'autres offices récepteurs (voir aussi le paragraphe 12).

Sur le nombre total de demandes, 12 666 (= 13,9%) ont été déposées auprès de l'Office européen des brevets (OEB) et 1975 (= 2,2%) auprès du Bureau international, tous deux agissant en qualité d'offices récepteurs.

19. Applicants from the United States of America filed the largest number of PCT applications in 2000, having filed 42.0% of all applications, followed by Germany (13.2%), Japan (10.3%), the United Kingdom (6.1%) and France (4.0%), thus repeating the trend of 1999. The filing of PCT applications in developing countries that are members of the PCT increased overall by 80.6% over 1999, with a particularly high increase in applications filed by applicants from India (155.8%), China (141.3%), the Republic of Korea (91.6%) and South Africa (37.4%). A total of 3,152 international applications originated from developing countries, the highest number originating from the Republic of Korea (1,514), China (579), South Africa (386), Singapore (225), Brazil (161) and India (156).

20. An increasing number of applicants are taking advantage of the benefits of filing international applications containing requests prepared using the PCT-EASY software. Of the 90,948 international applications filed in 2000, 24,882 (27.4%) were prepared using the PCT-EASY software (1999: 13%).

21. In 2000, the average number of designations made per international application was 56 (1999: 45). This figure is much higher than the number of States for which patent protection will eventually be sought, because the applicants in respect of 68.4% of international applications filed in 2000 (1999: 58.7%) used the possibility of paying the maximum of eight designation fees⁶ while making as many as all possible designations. Such applicants extend the effects of their international applications to as many States as might later be of interest to them, deferring the decision as to which States they wish to proceed in. Most applicants make designations for regional patents, which designations themselves have effect in a number of States. For example, in 2000, a European patent was sought in 97.1% of all international applications.

⁵ Figures relate to receiving Offices with which international applications were filed, except that applications filed with regional Offices or with the International Bureau as receiving Offices are included under the applicant's country of residence. Of the total, 12,666 (= 13.9%) were filed with the European Patent Office (EPO) as receiving Office and 1,975 (= 2.2%) were filed with the International Bureau as receiving Office.

⁶ With effect from January 1, 2001, the maximum number of designation fees payable is six.

19. En 2000, ce sont les déposants des États-Unis d'Amérique qui ont le plus recouru au système du PCT (42% de toutes les demandes déposées), suivis des déposants de l'Allemagne (13,2%), du Japon (10,3%), du Royaume-Uni (6,1%) et de la France (4%), confirmant ainsi la tendance de 1999. Le nombre de demandes émanant de déposants de pays en développement ayant adhéré au PCT a augmenté globalement de 80,6% par rapport à 1999, cette augmentation étant particulièrement élevée pour l'Inde (155,8%), la Chine (141,3%), la République de Corée (91,6%) et l'Afrique du Sud (37,4%). Trois mille cent cinquante-deux (3152) demandes internationales émanaient de déposants de pays en développement, les chiffres les plus élevés concernant la République de Corée (1514), la Chine (579), l'Afrique du Sud (386), Singapour (225), le Brésil (161) et l'Inde (156).

20. Un nombre croissant de déposants profitent des avantages qu'offre le dépôt des demandes internationales contenant les requêtes établies à l'aide du logiciel PCT-EASY. Sur les 90 948 demandes internationales déposées en 2000, 24 882 (27,4%) ont été établies à l'aide du logiciel PCT-EASY (contre 13% en 1999).

21. En 2000, le nombre moyen de désignations par demande internationale a été de 56 (contre 45 en 1999). Ce chiffre est beaucoup plus élevé que le nombre d'États dans lesquels les déposants chercheront en fin de compte à obtenir une protection par brevet; en effet, pour 68,4% des demandes internationales déposées en 2000 (contre 58,7% en 1999), les déposants ont opté pour le paiement du maximum de huit taxes de désignation⁶, ce qui leur permet de désigner autant d'États contractants du PCT qu'ils le souhaitent. Les déposants étendent ainsi les effets de la demande internationale à tous les États qui peuvent présenter un intérêt pour eux, tout en gardant la possibilité de ne décider qu'à un stade ultérieur dans quels États ils vont poursuivre la procédure. La plupart des déposants font des désignations en vue de l'obtention de brevets régionaux, qui produisent leurs effets dans plusieurs États; ainsi, en 2000, un brevet européen a été demandé dans 97,1% des demandes internationales.

⁵ Chiffres calculés sur la base des offices récepteurs auprès desquels les demandes internationales ont été déposées, excepté pour les demandes déposées auprès d'offices régionaux ou auprès du Bureau international agissant en qualité d'offices récepteurs, qui sont comptabilisées dans les chiffres relatifs au pays où le déposant est domicilié. Sur le nombre total de demandes, 12 666 (= 13,9%) ont été déposées auprès de l'Office européen des brevets (OEB) et 1975 (= 2,2%) auprès du Bureau international, tous deux agissant en qualité d'offices récepteurs.

⁶ À compter du 1^{er} janvier 2001, le nombre maximum de taxes de désignation à payer est de six.

23. In 2000, the International Bureau as receiving Office received 2,045 international applications from applicants from 50 countries, and in July 2000, it received its 10,000th application since it began operations. The 2,045 applications include 654 (32% of applications received by that Office) which benefited from the safeguard procedure under which international applications are transmitted from another receiving Office to the International Bureau in its capacity as receiving Office while retaining their initial filing date (for example, where they have been filed with a “non-competent” receiving Office, for reasons of nationality or residence of the applicant or where the application was not filed in the prescribed language).

⁷ An international application filed in a language other than one of the languages of publication under the PCT are published as a translation into a language of publication; see paragraph 32.

23. En 2000, le Bureau international de l'OMPI agissant en qualité d'office récepteur a reçu 2045 demandes internationales, qui provenaient de déposants de 50 pays et, en juillet 2000, il a reçu la 10 000^e demande depuis que les opérations effectuées au titre de ce traité ont commencé. Parmi ces demandes, 654, soit 32% du total, ont bénéficié de la procédure de sauvegarde en vertu de laquelle une demande internationale déposée auprès d'un autre office récepteur est transmise au Bureau international agissant en qualité d'office récepteur tout en conservant sa date de dépôt initiale (par exemple, lorsqu'elle a été déposée auprès d'un office récepteur "non compétent", en raison de la nationalité ou du domicile du déposant, ou lorsqu'elle n'a pas été déposée dans la langue prescrite).

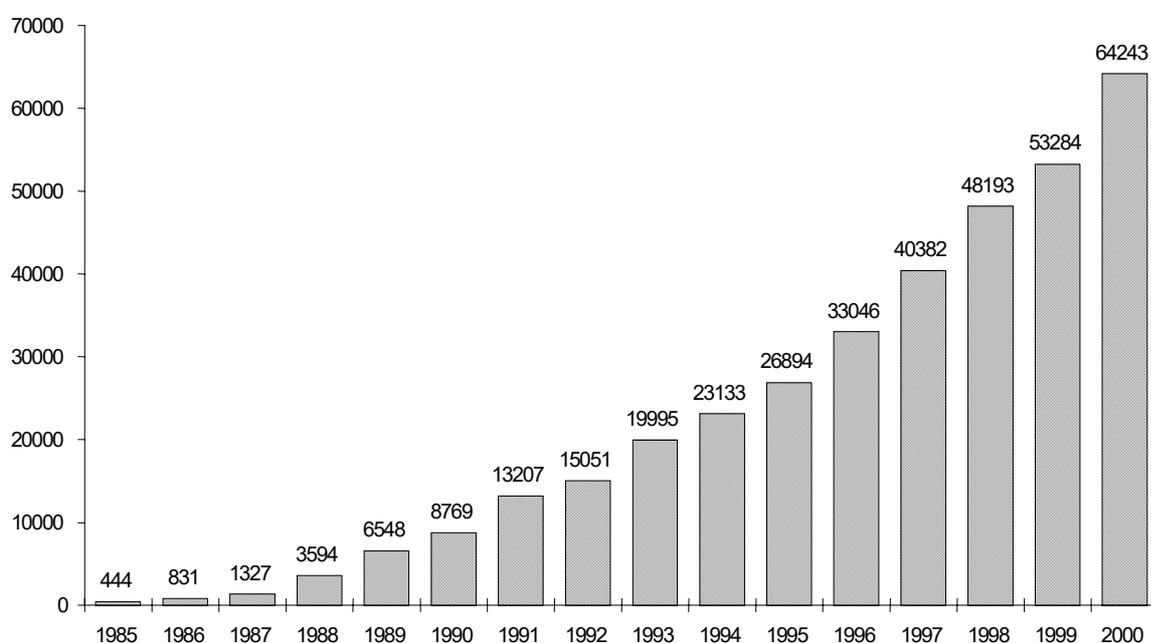

⁷ Les demandes internationales déposées dans une langue ne faisant pas partie des langues de publication prévues par le PCT sont publiées et traduites dans une des langues de publication; voir le paragraphe 32.

24. A copy of the international application is sent to the International Searching Authority competent for carrying out the international search. Where more than one Authority is competent, the applicant chooses the one he would like to carry out the search. The number of international applications that were sent to each International Searching Authority in 2000 is indicated below:

The number of demands for international preliminary examination sent to the International Bureau by the International Preliminary Examining Authorities in 2000 amounted to 64,243, which represents an increase over 1999 of 20.6%. The number of demands received in each calendar year since 1985 is indicated below:

24. Une copie de chaque demande internationale est envoyée à l'administration chargée de la recherche internationale qui est compétente pour procéder à cette recherche. Lorsque plusieurs administrations sont compétentes, le déposant choisit celle à laquelle il préfère confier cette recherche. Le nombre de demandes internationales envoyées aux différentes administrations en question en 2000 s'établit comme suit :

27. The demands for international preliminary examination received in 2000 relate mainly to international applications filed in 1999. Demands are filed in respect of about 85% of all applications.

28. Where required, the International Bureau prepares translations of the international search report and the international preliminary examination report (into English), and of the abstract (into English and/or French). In 2000, the International Bureau translated 102,844 abstracts, 1,000 international search reports and 11,640 international preliminary examination reports.

29. **Publications under the PCT.** The *PCT Gazette* contains, in English and French, the following sections:

- Section I: Published International Applications (the bibliographic data, the abstract and any drawing, for each international application published)
- Section II: Notices and Information Relating to Published International Applications
- Section III: Weekly Indexes
- Section IV: Notices and Information of a General Character

The Internet version of the *PCT Gazette* is available, free-of-charge, via the WIPO home page (<http://ipdl.wipo.int>). In this version of the *Gazette*, Section I is fully searchable, with searches possible by single words, symbols or phrases and by a number of fields. Users of the electronic version of the *Gazette* can also link, via the "VIEW IMAGES" button at the top of the page of the *Gazette* entry concerned, to the European Patent Office's esp@cenet service and view the full text of published PCT applications (that is, the bibliographic data, description, claims, drawings and abstract) and corresponding international search reports. This service is available for all international applications published between January 1, 1997, and the last but two current publication weeks.

30. There are two series of CD-ROMs containing information from the *Gazette*, as follows:

- the monthly ESPACE-FIRST CD-ROMs that are produced by the European Patent Office, in cooperation with WIPO (see also paragraphs 36 and 40);
- the CD-ROMs produced by Bundesdruckerei GmbH, in cooperation with WIPO, issued every week on the day on which WIPO publishes the corresponding international applications (see also paragraph 41).

28. Lorsque cela est nécessaire, le Bureau international établit des traductions du rapport de recherche internationale et du rapport d'examen préliminaire international (en anglais) ainsi que de l'abrégé (en anglais ou en français). En 2000, le Bureau international a traduit 102 844 abrégés, 1000 rapports de recherche internationale et 11 640 rapports d'examen préliminaire international.

- Section II : Notifications et informations relatives aux demandes internationales publiées
- Section III : Index hebdomadaires
- Section IV : Notifications et informations de caractère général.

La version Internet de la *Gazette du PCT* est disponible gratuitement via la page d'accueil de l'OMPI (<http://ipdl.wipo.int>). Dans cette version de la *Gazette*, la Section I permet une recherche sur tous les éléments par mots isolés, symboles ou groupes de mots et en fonction de différentes rubriques. - le disque compact ROM mensuel ESPACE-FIRST qui est produit par l'Office européen des brevets en collaboration avec l'OMPI (voir aussi les paragraphes 36 et 40);
- les disques compacts ROM produits par Bundesdruckerei GmbH, en collaboration avec l'OMPI, publiés chaque semaine le jour où l'OMPI publie les demandes internationales correspondantes (voir aussi le paragraphe 41).

¹¹ L'Office coréen de la propriété intellectuelle agit en qualité d'administration chargée de l'examen préliminaire international depuis le 1^{er} décembre 1999.

The *Gazette* also included, in Section IV, a substantial volume of information of a general character concerning new Contracting States and the requirements of the various Offices and International Authorities. In September, a bilingual (English/French) index to the 1999 *Gazette issues*, containing over 1,600 pages, was published. In January and July, special issues of the *Gazette* were published (Nos. S-01/2000 (E) and (F) (January) and S-02/2000 (E) and (F) (July)), in separate English and French versions, containing consolidated general information relating to PCT Contracting States, national and regional Offices and International Authorities under the PCT.

31. En 2000, la *Gazette du PCT* a comporté des rubriques relatives aux 79 947 demandes internationales (68 038 en 1999) qui ont été publiées en 2000 sous la forme de brochures PCT (en français, en allemand, en anglais, en chinois, en espagnol, en japonais ou en russe, selon la langue de dépôt et la traduction fournie) le même jour que les numéros correspondants de la *Gazette*. La *Gazette* a également comporté, dans sa section IV, de nombreuses informations de caractère général concernant les nouveaux États contractants et les exigences des divers offices et administrations internationales. En septembre, un index bilingue (français et anglais) des numéros publiés en 1999, contenant plus de 1600 pages, a été publié. En janvier et juillet, des numéros spéciaux de la *Gazette* ont été publiés (n^{os} S-01/2000 (F) et (E) (janvier) et S-02/2000 (F) et (E) (juillet)), dans des versions distinctes en français et en anglais. Ces numéros spéciaux contenaient une récapitulation des informations de caractère général relatives aux États contractants du PCT, aux offices nationaux et régionaux et aux administrations internationales du PCT.

32. Le nombre de demandes internationales publiées en 2000 dans chacune des langues de publication s'établit comme suit :

Le graphique ci-après montre la répartition des demandes PCT publiées en 2000 en fonction des huit grands domaines techniques du système de la classification internationale des brevets (CIB).

34. The *PCT Applicant's Guide*, which contains information on the filing of international applications and the procedure during the international phase, as well as information on the national phase and the procedure before the designated (or elected) Offices, was updated twice in 2000 to include the many changes that had occurred during the year. About 455 updating sheets, per language, were sent to each subscriber in 2000.

35. Twelve issues of the *PCT Newsletter* were published in 2000. This monthly publication provides up-to-date news for users of the PCT. It contains information on the essential items included in Section IV of the *PCT Gazette* and supplements the *PCT Applicant's Guide* with practical advice for applicants and agents, lists of forthcoming PCT seminars, consolidated tables of PCT fees in various currencies, and other items of general interest. It also includes tear-out provisional sheets permitting easy inclusion of certain important changes in the *PCT Applicant's Guide* prior to the issuance of half-yearly updates.

36. In 2000, the International Bureau continued, in cooperation with the European Patent Office, the weekly production of ESPACE WORLD CD-ROMs, which contain, in facsimile form, the full text and the drawings of all international applications and international search reports published each week, as well as the corresponding bibliographic data in coded, searchable form. All international applications published since 1978 are available in CD-ROM format (a total of 1,221 CD-ROMs had been produced by the end of 2000).

37. In 2000, a new PCT Wheel, covering priority dates from January 2000 to December 2001, was produced and made available to PCT users via the January 2001 issue of the *PCT Newsletter*. The Wheel, which was created by a firm of patent attorneys in Australia (Davies Collison Cave), enables PCT users to quickly calculate the due date for international publication, and the time limits for submitting priority documents, filing a demand for international preliminary examination, and entering the national or regional phase under PCT Chapters I and II.

38. **Ordering of PCT publications.** PCT publications may be ordered from WIPO, Marketing and Distribution Section, P.O. Box 18, CH-1211 Geneva 20, Switzerland, fax: (41-22) 740 18 12 or 733 54 28, e-mail: publications.mail@wipo.int; electronic bookshop: www.wipo.int/ebookshop. Publications of particular interest include:

- the *PCT Applicant's Guide*, a five-binder loose-leaf publication of about 1,600 pages (available in English and French from WIPO, also available from other sources in Chinese, German and Japanese—contact WIPO for details);

- PCT Wheel (see paragraph 37) (priority dates January 2000 to December 2001).

Grands domaines techniques (sections) de la CIB :

A	Nécessités courantes de la vie	E	Constructions fixes
B	Techniques industrielles diverses; transports	F	Mécanique; éclairage; chauffage; armement; sautage
C	Chimie; métallurgie	G	Physique

34. Le *Guide du déposant du PCT*, qui contient des informations sur le dépôt des demandes internationales et la procédure de la phase internationale ainsi que des informations sur la phase nationale et la procédure auprès des offices désignés (ou élus), a été mis à jour à deux reprises en 2000 afin d'y consigner les nombreux changements intervenus pendant l'année considérée. Environ 455 feuilles de mise à jour, établies dans chacune des langues, ont été envoyées à chaque abonné en 2000.

35. Douze numéros du bulletin *PCT Newsletter* ont été diffusés en 2000. Cette publication mensuelle contient, à l'intention des utilisateurs du PCT, des informations récentes sur les sujets essentiels traités dans la section IV de la *Gazette du PCT* et complète le *Guide du déposant du PCT* par des conseils pratiques aux déposants et aux mandataires, une liste des séminaires prévus sur le PCT, des tableaux récapitulatifs des taxes du PCT en diverses monnaies ainsi que d'autres informations générales. Ce bulletin comprend aussi des feuilles provisoires détachables qu'il est possible d'insérer aisément dans le *Guide du déposant du PCT* pour tenir compte de certains changements importants avant la diffusion des mises à jour semestrielles.

36. En 2000, le Bureau international a poursuivi, en collaboration avec l'Office européen des brevets, la production hebdomadaire des disques compacts ROM ESPACE WORLD, qui contiennent chacun, en fac-similé, le texte complet et les dessins de toutes les demandes internationales et de tous les rapports de recherche internationale publiés chaque semaine ainsi que, sous une forme codée se prêtant à la recherche, les données bibliographiques correspondantes. Toutes les demandes internationales publiées depuis 1978 sont disponibles sur disque compact ROM (au total, 1221 disques avaient été produits à la fin de 2000).

37. En 2000, est sorti un nouveau Chronodisque PCT, indiquant les dates de priorité de janvier 2000 à décembre 2001, qui a été distribué aux utilisateurs du PCT via le bulletin *PCT Newsletter* de janvier 2001. Ce disque, créé par un cabinet australien de conseils en brevets (Davies Collison Cave), permet aux utilisateurs du PCT de calculer rapidement le délai pour la publication internationale, ainsi que les délais pour la remise des documents de priorité, le dépôt de la demande d'examen préliminaire international et l'ouverture de la phase nationale ou régionale en vertu des chapitres I et II du PCT.

38. **Commande de publications du PCT.** Les publications du PCT peuvent être commandées auprès de l'OMPI, Section de la commercialisation et de la diffusion, case postale 18, CH-1211 Genève 20 (Suisse), télécopieur n° (41-22) 740 18 12 ou 733 54 28, mél. : publications.mail@wipo.int; voir la librairie électronique : www.wipo.int/ebookshop. CONTRACTING STATES**States Party to the Patent Cooperation Treaty (PCT)****GQ Equatorial Guinea**

On 17 April 2001, **Equatorial Guinea** deposited its instrument of accession to the PCT. Equatorial Guinea will become the 111th Contracting State of the PCT on 17 July 2001.

Consequently, as from 17 July 2001, nationals and residents of Equatorial Guinea may file international applications under the PCT. Also, in any international application filed on or after 17 July 2001, it will be possible to designate Equatorial Guinea (country code: GQ), and because it will be bound by Chapter II of the PCT, it will be possible to elect that State for the purposes of international preliminary examination. Since Equatorial Guinea is a member State of the African Intellectual Property Organization (OAPI), the designation (or election) of Equatorial Guinea will have the effect of a designation (or election) of that State for the purposes of a regional patent issued by OAPI. Any designation in an international application for an OAPI patent will, as from 17 July 2001, automatically include the designation of Equatorial Guinea for that purpose.

ÉTATS CONTRACTANTS**États parties au Traité de coopération en matière de brevets (PCT)****GQ Guinée équatoriale**

Le 17 avril 2001, la **Guinée équatoriale** a déposé son instrument d'adhésion au PCT. La Guinée équatoriale deviendra le 111^e État contractant du PCT le 17 juillet 2001.

En conséquence, à partir du 17 juillet 2001, les nationaux de la Guinée équatoriale et les personnes domiciliées dans ce pays pourront déposer des demandes internationales au titre du PCT. En outre, la Guinée équatoriale pourra être désignée (code pour le pays : GQ) dans toute demande internationale déposée le 17 juillet 2001 ou ultérieurement et, étant liée par le chapitre II du PCT, pourra aussi être élue. Puisque la Guinée équatoriale est État membre de l'Organisation africaine de la propriété intellectuelle (OAPI), la désignation (ou l'élection) de la Guinée équatoriale aura l'effet d'une désignation (ou d'une élection) de cet État en vue de l'obtention d'un brevet régional délivré par l'OAPI. Toute désignation faite dans une demande internationale en vue de l'obtention d'un brevet OAPI emportera automatiquement, dès le 17 juillet 2001, la désignation de la Guinée équatoriale à cet effet.

These Notes are intended to facilitate the filling in of the request form. For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the Patent Cooperation Treaty (PCT), the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the request form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the PCT Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with black ink (Rule 11.9(a) and (b)).

The request form and these Notes may be downloaded from WIPO's Website at the address given above.

WHERE TO FILE THE INTERNATIONAL APPLICATION

The international application (request, description, claims, abstract and drawings, if any) must be filed with a competent receiving Office (Article 11(1)(i))—that is, subject to any applicable prescriptions concerning national security, at the choice of the applicant, either:

(i) the receiving Office of, or acting for, a PCT Contracting State of which the applicant or, if there are two or more applicants, at least one of them, is a resident or national (Rule 19.1(a)(i) or (ii) or (b)), or

(ii) the International Bureau of WIPO in Geneva, Switzerland, if the applicant or, if there are two or more applicants, at least one of the applicants is a resident or national of any PCT Contracting State (Rule 19.1(a)(iii)).

APPLICANT'S OR AGENT'S FILE REFERENCE

A **file reference** may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded by the receiving Office or any International Authority (Rule 11.6(f) and Section 109).

BOX No. I

Title of Invention (Rules 4.3 and 5.1(a)): The title must be short (preferably two to seven words when in English or translated into English) and precise. It must be identical with the title heading the description.

BOXES Nos. II AND III

General: At least one of the applicants named must be a resident or national of a PCT Contracting State for which the receiving Office acts (Articles 9 and 11(1)(i) and Rules 18 and 19). If the international application is filed with the International Bureau under Rule 19.1(a)(iii), at least one of the applicants must be a resident or national of any PCT Contracting State.

If the United States of America is designated, all of the inventors must be named also as applicants for the purposes of that designation (see "Different Applicants for Different Designated States", below).

Indication Whether a Person is Applicant and/or Inventor (Rules 4.5(a) and 4.6(a) and (b)):

Check-box "This person is also inventor" (Box No. II): Mark this check-box if the applicant named is also the inventor or one of the inventors; do not mark this check-box if the applicant is a legal entity.

Check-box "applicant and inventor" (Box No. III): Mark this check-box if the person named is both applicant and inventor; do not mark this check-box if the person is a legal entity.

Check-box "applicant only" (Box No. III): Mark this check-box if the person named is a legal entity or if the person named is not also inventor.

Check-box "inventor only" (Box No. III): Mark this check-box if the person named is inventor but not also applicant; do not mark this check-box if the person is a legal entity.

In Box No. III, one of the three check-boxes must always be marked for each person named.

A person must not be named more than once in Boxes Nos. II and III, even where that person is both applicant and inventor.

Names and Addresses (Rule 4.4): The family name (preferably in capital letters) must be indicated before the given name(s). Titles and academic degrees must be omitted. Names of legal entities must be indicated by their full official designations.

The address must be indicated in such a way that it allows prompt postal delivery; it must consist of all the relevant administrative units (up to and including the indication of the house number, if any), the postal code (if any), and the name of the country.

Only one address may be indicated per person. For the indication of a special "address for correspondence", see the notes to Box No. IV.

Telephone, Facsimile and/or Teleprinter Numbers should be indicated for the person named in Box No. II in order to allow rapid communication with the applicant. Any such number should include the applicable country and area codes.

Applicant's registration number with the Office (Rule 4.5(e)): Where the applicant is registered with the national or regional Office acting as receiving Office, the request may indicate the number or other indication under which the applicant is so registered.

Nationality (Rules 4.5(a) and (b) and 18.1): For each applicant, the nationality must be indicated by the name or two-letter code of the State (that is, country) of which the person is a national. A legal entity constituted according to the national law of a State is considered a national of that State. The indication of the nationality is not required where a person is inventor only.

Residence (Rules 4.5(a) and (c) and 18.1): For each applicant, the residence must be indicated by the name or two-letter code of the State (that is, country) of which the person is a resident. If the State of residence is not indicated, it will be assumed to be the same as the State indicated in the address. Possession of a real and effective industrial or commercial establishment in a State is considered residence in that State. The indication of the residence is not required where a person is inventor only.

NOTES RELATIVES AU FORMULAIRE DE REQUÊTE (PCT/RO/101)

Ces notes sont destinées à faciliter l'utilisation du formulaire de requête. On peut aussi trouver de plus amples renseignements dans le *Guide du déposant du PCT*, publié par l'OMPI, qui est disponible, de même que d'autres documents relatifs au PCT, sur le site Internet de l'OMPI à l'adresse suivante : www.OMPI.int/pct/fr/index.html. Les notes sont fondées sur les exigences du Traité de coopération en matière de brevets (PCT), du règlement d'exécution et des Instructions administratives du PCT. En cas de divergence entre les présentes notes et ces exigences, ce sont ces dernières qui priment.

Dans le formulaire de requête et dans les présentes notes, les termes "article", "règle" et "instruction" renvoient aux dispositions du traité, de son règlement d'exécution et des Instructions administratives du PCT, respectivement.

Prière de remplir le formulaire à la machine à écrire; les cases appropriées peuvent être cochées à la main, à l'encre noire (règle 11.9.a) et b)).

Le formulaire de requête et les présentes notes peuvent être téléchargés depuis le site Internet de l'OMPI à l'adresse donnée ci-dessus.

OÙ DÉPOSER LA DEMANDE INTERNATIONALE

Il faut que la demande internationale (requête, description, revendications, abrégé et, le cas échéant, dessins) soit déposée auprès d'un office récepteur compétent (article 11.1)i)), c'est-à-dire sous réserve des dispositions applicables en matière de défense nationale et au choix du déposant,

i) l'office récepteur d'un État contractant du PCT ou l'office agissant pour un tel État, dans lequel le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié ou dont il a la nationalité (règle 19.1.a)i) ou ii) ou b)), ou

ii) le Bureau international de l'OMPI à Genève (Suisse) si le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié dans l'un quelconque des États contractants du PCT ou a la nationalité d'un tel État (règle 19.1.a)iii)).

RÉFÉRENCE DU DOSSIER DU DÉPOSANT OU DU MANDATAIRE

Il est possible d'indiquer, à titre facultatif, une telle **référence de dossier**. Celle-ci ne devrait pas dépasser 12 caractères. L'office récepteur ou toute administration internationale peut ne pas tenir compte des caractères en sus du douzième (règle 11.6.f) et instruction 109).

CADRE N° I

Titre de l'invention (règles 4.3 et 5.1.a)) : le titre doit être bref (de préférence de deux à sept mots lorsqu'il est établi ou traduit en anglais) et précis. Il doit être identique à celui qui figure en tête de la description.

CADRES N°s II ET III

Remarque générale : l'un au moins des déposants mentionnés doit être domicilié dans un État contractant du PCT pour lequel l'office récepteur agit, ou avoir la nationalité d'un tel État (articles 9 et 11.1)i) et règles 18 et 19). Si la demande internationale est déposée auprès du Bureau international en vertu de la règle 19.1.a)iii), l'un au moins des déposants doit être domicilié dans un État contractant du PCT ou avoir la nationalité d'un tel État.

Si les États-Unis d'Amérique sont désignés, tous les inventeurs doivent être mentionnés également comme déposants pour cette désignation (voir, ci-après, "Déposants différents pour différents États désignés").

Indication visant à établir si une personne est déposant ou inventeur, ou les deux à la fois (règles 4.5.a) et 4.6.a) et b)) :

Case "Cette personne est aussi inventeur" (cadre n° II) : cocher cette case si la personne mentionnée est aussi l'inventeur ou l'un des inventeurs; ne pas la cocher si le déposant est une personne morale.

Case "déposant et inventeur" (cadre n° III) : cocher cette case si la personne mentionnée a les deux qualités, celle de déposant et celle d'inventeur; ne pas la cocher si cette personne est une personne morale.

Case "déposant seulement" (cadre n° III) : cocher cette case si la personne mentionnée est une personne morale ou si elle n'a pas aussi la qualité d'inventeur.

Case "inventeur seulement" (cadre n° III) : cocher cette case si la personne mentionnée a la qualité d'inventeur mais pas celle de déposant; ne pas la cocher si cette personne est une personne morale.

Dans le cadre n° III, il faut que l'une des trois cases soit cochée pour chaque personne mentionnée.

Une personne ne doit être mentionnée qu'une seule fois dans les cadres n° II et III, même si elle est à la fois déposant et inventeur.

Noms et adresses (règle 4.4) : le nom de famille (de préférence en lettres majuscules) doit précéder le ou les prénoms. Les titres et les diplômes universitaires ne doivent pas être mentionnés. Les personnes morales doivent être nommées par leurs désignations officielles complètes.

L'adresse doit être indiquée de manière à permettre une distribution postale rapide; elle doit comprendre toutes les unités administratives pertinentes (jusques et y compris le numéro de la maison, s'il y en a un), le code postal, s'il y en a un, et le nom du pays.

Il ne peut être indiqué qu'une seule adresse par personne. En ce qui concerne l'indication d'une adresse spéciale pour la correspondance, voir les notes relatives au cadre n° IV.

Pour permettre une communication rapide avec le déposant, il y a lieu d'indiquer les **numéros de téléphone, de télécopieur ou de téléimprimeur** de la personne mentionnée dans le cadre n° II. Tout numéro de ce type doit comporter les indicatifs de pays et de zone en vigueur.

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 4.5.e)) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Nationalité (règles 4.5.a) et b) et 18.1) : la nationalité de chaque déposant doit être indiquée au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) dont l'intéressé

Names of States (Section 115): For the indication of names of States, the two-letter codes appearing in WIPO Standard ST.3 and in the *PCT Applicant's Guide*, Volume I/B, Annex K, may be used.

Different Applicants for Different Designated States (Rules 4.5(d), 18.3 and 19.2): It is possible to indicate different applicants for the purposes of different designated States. At least one of all the applicants named must be a national or resident of a PCT Contracting State for which the receiving Office acts, irrespective of the designated State(s) for the purposes of which that applicant is named. *Where the United States of America is one of the designated States, all of the inventors must be named also as applicants for the United States of America and the check-boxes "This person is also inventor" (in Box No. II) and/or "applicant and inventor" (in Box No. III) must be marked.*

For the indication of the designated States for which a person is applicant, mark the applicable check-box (only one for each person). The check-box "the States indicated in the Supplemental Box" must be marked where none of the other three check-boxes fits the circumstances; in such a case, the name of the person must be repeated in the Supplemental Box with an indication of the States for which that person is applicant (see item 1(ii) in that Box).

Naming of Inventor (Rule 4.1(a)(v) and (c)(i)): The inventor's name and address must be indicated where the national law of at least one of the designated States requires that the name of the inventor be furnished at the time of filing; for details, see the *PCT Applicant's Guide*, Volume I/A, Annexes B1 and B2. It is strongly recommended to always name the inventor.

Different Inventors for Different Designated States (Rule 4.6(c)): Different persons may be indicated as inventors for different designated States (for example, where, in this respect, the requirements of the national laws of the designated States are not the same); in such a case, the Supplemental Box must be used (see item 1(iii) in that Box). In the absence of any indication, it will be assumed that the inventor(s) named is (are) inventor(s) for all designated States.

BOX No. IV

Who Can Act as Agent (Article 49 and Rule 83.1bis): For each of the receiving Offices, information as to who can act as agent is given in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Agent or Common Representative (Rules 4.7, 4.8, 90.1 and 90.2 and Section 108): Mark the applicable check-box in order to indicate whether the person named is (or has been) appointed as "agent" or "common representative" (the "common representative" must be one of the applicants). For the manner in which name(s) and address(es) (including names of States) must be indicated, see the notes to Boxes Nos. II and III. Where several agents are listed, the agent to whom correspondence should be addressed is to be listed first. If there are two or more applicants but no common agent is appointed to represent all of them, one of the applicants who is a national or resident of a PCT Contracting State may be appointed by the other applicants as their common representative. If this is not done, the applicant first named in the request who is entitled to file an international application with the receiving Office concerned will automatically be considered to be the common representative.

Manner of Appointment of Agent or Common Representative (Rules 90.4 and 90.5 and Section 106): Any such appointment may be made by designating the agent(s) or the common representative in the request or in one or more separate powers of attorney. Each applicant must sign either the request or a separate power of attorney. Where the

international application is filed with reference to a general power of attorney, a copy thereof must be attached to the request. Any applicant who did not sign the general power of attorney must sign either the request or a separate power of attorney.

Agent's registration number with the Office (Rule 4.7(b)): Where the agent is registered with the national or regional Office that is acting as receiving Office, the request may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. IV will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II or III, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address must be indicated in Box No. IV instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. IV must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" has been marked).

BOX No. V

Designation of States (Rules 4.1(a)(iv) and 4.9(a)): The Contracting States in which protection is desired must be designated under Rule 4.9(a) in the request by marking the applicable check-boxes. At least one check-box effecting a specific designation must be marked. *While the general rule is that designations cannot be added after the filing of the international application, it is possible to make a precautionary designation under Rule 4.9(b) covering all other designations which would, as at the international filing date, be permitted under the PCT (see "Precautionary Designation of States Subject to Confirmation", below).*

Where regional (ARIPO, Eurasian, European and/or OAPI) patents are desired, only one PCT designation fee must be paid for each regional designation made, independently of how many States are covered by each such designation.

AP ARIPO Patent: Note that **SZ Swaziland** can only be designated for the purposes of an ARIPO patent and not for the purposes of a national patent. All other PCT Contracting States which are also party to the Harare Protocol can be designated either for a national or an ARIPO patent, or both a national and an ARIPO patent.

EA Eurasian Patent: All PCT Contracting States which are also party to the Eurasian Patent Convention can be designated either for a national or a Eurasian patent, or both a national and a Eurasian patent. Note, however, that it is not possible to designate only some of these States for a Eurasian patent and that any designation of one or more States for a Eurasian patent will be treated as a designation of all the States which are party to both the Convention and the PCT for a Eurasian patent.

EP European Patent: Note that **BE Belgium, CY Cyprus, FR France, GR Greece, IE Ireland, IT Italy, MC Monaco and NL Netherlands** can only be designated for the purposes of a European patent and not for the purposes of a national patent. All other PCT Contracting States which are also party

est ressortissant. Une personne morale constituée conformément à la législation d'un État contractant est considérée comme ayant la nationalité de cet État. L'indication de la nationalité n'est pas exigée lorsqu'une personne est inventeur seulement.

Domicile (règles 4.5.a) et c) et 18.1) : le domicile de chaque déposant doit être indiqué au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) où l'intéressé a son domicile. Si, cependant, le domicile n'est pas indiqué, l'État du domicile sera présumé être le même que celui qui est indiqué dans l'adresse. La possession d'un établissement industriel ou commercial effectif et sérieux dans un État est considérée comme constituant domicile dans cet État. L'indication du domicile n'est pas exigée lorsqu'une personne est inventeur seulement.

Nom des États (instruction 115) : pour indiquer le nom des États, on peut utiliser le code à deux lettres qui figure dans la norme ST.3 de l'OMPI et dans le *Guide du déposant du PCT*, volume I/B, annexe K.

Dépôtsants différents pour différents États désignés (règles 4.5.d), 18.3 et 19.2) : il est possible d'indiquer des dépôtsants différents pour différents États désignés. L'un au moins des dépôtsants indiqués – quels que soient l'État ou les États désignés pour lesquels il est indiqué – doit être ressortissant d'un État contractant du PCT pour lequel l'office récepteur agit ou avoir son domicile dans un tel État. *Lorsque les États-Unis d'Amérique sont l'un des États désignés, tous les inventeurs doivent être indiqués comme dépôtsants pour les États-Unis d'Amérique et les cases "Cette personne est aussi inventeur" (dans le cadre n° II) ou "dépôtant et inventeur" (dans le cadre n° III) doivent être cochées.*

Afin d'indiquer les États désignés pour lesquels une personne est déposant, il y a lieu de cocher la case appropriée (une seule case par personne). La case "les États indiqués dans le cadre supplémentaire" doit être cochée lorsque aucune des trois autres cases ne convient; en pareil cas, le nom de la personne doit être repris dans le cadre supplémentaire et assorti de l'indication des États pour lesquels cette personne est déposant (voir le point 1.ii) de ce cadre).

Mention de l'inventeur (règle 4.1.a)v) et c)i)) : le nom et l'adresse de l'inventeur doivent être indiqués lorsque la législation nationale d'un État désigné au moins exige la communication du nom de celui-ci lors du dépôt; pour plus de précisions, voir le *Guide du déposant du PCT*, volume I/A, annexes B1 et B2. Il est vivement recommandé de toujours indiquer le nom de l'inventeur.

Inventeurs différents pour différents États désignés (règle 4.6.c)) : des personnes différentes peuvent être indiquées en tant qu'inventeurs pour différents États désignés (par exemple, lorsque, en la matière, les exigences des législations nationales des États désignés diffèrent); en pareil cas, il y a lieu d'utiliser le cadre supplémentaire (voir le point 1.iii) de ce cadre). En l'absence d'indication, il sera supposé que l'inventeur ou les inventeurs mentionnés ont la qualité d'inventeur pour tous les États désignés.

CADRE N° IV

Qui peut agir en qualité de mandataire ? (article 49 et règle 83.1bis) : pour chacun des office récepteurs, on trouvera, dans le *Guide du déposant du PCT*, volume I/B, annexe C, des informations sur le point de savoir qui peut agir en qualité de mandataire.

Mandataire ou représentant commun (règles 4.7, 4.8, 90.1 et 90.2 et instruction 108) : cocher la case appropriée pour indiquer si la personne mentionnée est (ou a été) désignée comme "mandataire" ou "représentant commun" (le

"représentant commun" doit être l'un des déposants). Pour ce qui est de la façon d'indiquer les noms et adresses (y compris le nom des États), il convient de se reporter aux notes relatives aux cadres n°s II et III. Lorsque plusieurs mandataires sont indiqués, il faut mentionner en premier lieu celui à qui la correspondance doit être adressée. S'il y a plusieurs déposants mais aucun mandataire commun désigné pour les représenter tous, l'un des déposants qui est ressortissant d'un État contractant du PCT ou qui a son domicile dans un tel État peut être désigné par les autres comme leur représentant commun. A défaut, le déposant nommé en premier lieu dans la requête qui est autorisé à déposer une demande internationale auprès de l'office récepteur en question sera automatiquement considéré comme le représentant commun.

Mode de désignation d'un mandataire ou d'un représentant commun (règles 90.4 et 90.5 et instruction 106) : la désignation du ou des mandataires ou du représentant commun peut être effectuée dans la requête ou dans un ou plusieurs pouvoirs distincts. Chaque déposant doit signer la requête ou un pouvoir distinct. Si la demande internationale déposée fait état d'un pouvoir général, une copie de celui-ci doit être jointe à la requête. Tout déposant n'ayant pas signé le pouvoir général doit signer soit la requête soit un pouvoir distinct.

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 4.7.b)) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° IV sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II ou III – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, cette adresse doit être indiquée dans le cadre n° IV, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas, et seulement dans ce cas, qu'il y a lieu de cocher la dernière case du cadre n° IV (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° V

Désignation d'États (règles 4.1.a)iv) et 4.9.a)) : pour désigner conformément à la règle 4.9.a), dans la requête, les États contractants où la protection est demandée, il faut cocher les cases appropriées. Il faut qu'au moins une case, correspondant à une désignation expresse, soit cochée. *Bien que la règle générale soit qu'aucune désignation ne peut être ajoutée après le dépôt de la demande internationale, il est possible d'effectuer une désignation de précaution conformément à la règle 4.9.b) pour couvrir toutes les autres désignations qui, à la date du dépôt international, seraient autorisées selon le PCT (voir ci-après la rubrique "Désignation d'États à titre de précaution sous réserve de confirmation").*

Lorsque des brevets régionaux (ARIPO, eurasiatique, européen ou OAPI) sont demandés, une seule taxe de désignation du PCT est due pour chaque désignation régionale effectuée, quel que soit le nombre d'États couverts par celle-ci.

to the European Patent Convention can be designated either for a national or a European patent, or both a national and a European patent.

If an ARIPO or a European patent is desired for only some of the Contracting States of the Harare Protocol or the European Patent Convention, respectively, the names of those States for which a regional patent is not desired may be deleted by striking them out. However, it is recommended that the applicant always designate for the purposes of a regional patent all PCT Contracting States which are also Contracting States of the Protocol or the Convention, respectively. A decision to proceed with only some of those designations need not be made until entry into the regional phase, at which stage the corresponding regional designation fees must be paid.

Where any of the Contracting States of the Harare Protocol, the Eurasian Patent Convention or the European Patent Convention and the PCT is designated twice, namely *both* for the purposes of an ARIPO, a Eurasian or a European patent *and* for the purposes of national protection, the applicant must pay one designation fee in respect of the regional patent and as many designation fees as there are national patents or other titles of protection sought (Rule 15.1(ii) and Section 210).

Extension of EP European Patent to Certain States: If it is intended, at the time of entry into the European regional phase, to request the extension of the subsequently granted European patent to AL Albania, LT Lithuania, LV Latvia, MK The former Yugoslav Republic of Macedonia, RO Romania and/or SI Slovenia (and/or to any other PCT Contracting State for which, on the date of filing of the international application, an extension agreement with the European Patent Organisation is in force), Box No. V must contain *both* a designation of the State concerned for the purposes of a national patent and *also* a designation, for the purposes of obtaining a European patent, of at least one PCT Contracting State party to the European Patent Convention.

OA OAPI Patent: The designation of States members of OAPI and party to the PCT can only be made for the purposes of an OAPI patent (no national protection is available); furthermore, it is not possible to designate only some of them.

Choice of Certain Kinds of Protection or Treatment (Rules 4.12 to 4.14 and Section 202): Where, in any country where it is possible, a national title other than a patent is desired, write the name or two-letter code of that country followed by the name of the title; that is, “petty patent” (available in YU Yugoslavia), “provisional patent” (available in AM Armenia, KG Kyrgyzstan, KZ Kazakhstan, TM Turkmenistan, UZ Uzbekistan), “utility model” (available in AL Albania, AM Armenia, AT Austria, BG Bulgaria, BR Brazil, BY Belarus, BZ Belize, CN China, CR Costa Rica, CZ Czech Republic, DE Germany, DK Denmark, EE Estonia, ES Spain, FI Finland, GE Georgia, HU Hungary, JP Japan, KE Kenya, KG Kyrgyzstan, KR Republic of Korea, KZ Kazakhstan, LS Lesotho, MD Republic of Moldova, MX Mexico, PL Poland, PT Portugal, RU Russian Federation, SK Slovakia, SL Sierra Leone, TJ Tajikistan, TR Turkey, UA Ukraine, UZ Uzbekistan, VN Viet Nam, OA OAPI), “consensual patent” (available in HR Croatia), “utility certificate” (available in GH Ghana, TT Trinidad and Tobago, UG Uganda) or “inventor’s certificate” (available in CU Cuba and KP Democratic People’s Republic of Korea). Where, in AT Austria, CZ Czech Republic, DE Germany, DK Denmark, EE Estonia, FI Finland or SK Slovakia (the only countries in which this possibility exists), in addition to a patent, a utility model is also desired, write after the name of that country “and utility model”.

Where, in respect of any country where it is possible, it is desired that the international application be treated as an application for a certain title “of addition” or as an application for a “continuation” or a “continuation-in-part”, write after the name of that country the appropriate words; that is, “patent of

addition” (available in AT Austria, AU Australia, BA Bosnia and Herzegovina, CU Cuba, DE Germany, ES Spain, IL Israel, IN India, MK The former Yugoslav Republic of Macedonia, MW Malawi, NZ New Zealand, SI Slovenia, TR Turkey, YU Yugoslavia, ZA South Africa, ZW Zimbabwe), “certificate of addition” (available in BR Brazil, DZ Algeria, MA Morocco, MG Madagascar, OA OAPI), “inventor’s certificate of addition” (available in CU Cuba), “continuation” or “continuation-in-part” (both available in US United States of America). If any of these indications is used, also indicate in the Supplemental Box the State for which such treatment is desired, the number of the parent title or parent application, and the date of the grant of the parent title or the date of filing of the parent application, as the case may be (see item 1(v) in that Box).

If, in Box No. V, the check-boxes for making designations are marked with consecutive Arabic numerals, those indications will be taken to express the applicant’s *choice of the order of the designations*; if another form of marking is used, the order will be taken as that in which the marked check-boxes appear on the form. This order will only have any significance if the amount received for the designation fees is insufficient to cover all the designations and remains insufficient after the applicant has been invited to pay the balance due; in that case, the amount received will be applied in payment of the fees for the designations following the said order (Rule 16bis.1(c) and Section 321).

The check-boxes located towards the bottom of Box No. V are reserved for designating, for the purposes of a national patent, States which have become party to the PCT after the date appearing at the bottom of the second sheet of the request form; in such a case, the name of the State, preferably preceded by the two-letter code, must be indicated on the dotted line and the corresponding check-box must be marked (together with an indication, where applicable, whether a special kind of protection or treatment is desired).

Precautionary Designation of States Subject to Confirmation (Rules 4.9(b) and (c) and 15.5): For the applicant’s safeguard, the lower part of Box No. V contains a statement (“Precautionary Designation Statement”) indicating the applicant’s wish to make, as a matter of precaution, in addition to the specific designations made by marking the check-boxes in the upper part of Box No. V (at least one such designation must be made), a precautionary designation of all other PCT Contracting States which are not specifically designated.

If the applicant does not wish to avail himself of this safeguard and does not want to make any such precautionary designations, the statement must be crossed out.

If the applicant wishes to expressly exclude a certain State from such precautionary designation so that the international application does not have any effect in that State, the name or two-letter code of that State should be indicated in the Supplemental Box. In no other case is it necessary to make use of this possibility.

If, after filing the international application, the applicant notices that there are any omissions and/or mistakes in respect of the specific designations made, it will be possible to rectify the situation by confirming the precautionary designations concerned. The confirmation of any precautionary designation is possible before the expiration of 15 months from the (earliest) priority date indicated in Box No. VI or, where no priority is claimed, the international filing date. To effect such confirmation, the applicant must file with the receiving Office a written notice specifying the name of each State the designation of which is confirmed (with, where applicable, an indication of the kind of treatment or protection desired) and pay to the receiving Office, for each such designation, a designation fee (even where six designation fees have already been paid) together with a confirmation fee corresponding to 50% of the designation fee.

AP brevet ARIPO : il est à noter que **SZ Swaziland** ne peut être désigné que pour un brevet ARIPO et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties au Protocole de Harare peuvent être désignés soit aux fins d'un brevet national ou d'un brevet ARIPO, soit à la fois aux fins d'un brevet national et d'un brevet ARIPO.

EA brevet eurasién : tous les États contractants du PCT qui sont aussi parties à la Convention sur le brevet eurasién peuvent être désignés soit aux fins d'un brevet national ou d'un brevet eurasién, soit à la fois aux fins d'un brevet national et d'un brevet eurasién. Cependant, il est à noter qu'il n'est pas possible de désigner seulement certains de ces États aux fins d'un brevet eurasién et que toute désignation d'un ou de plusieurs États aux fins d'un brevet eurasién sera traitée comme une désignation aux fins d'un brevet eurasién de tous les États qui sont parties à la fois à la Convention et au PCT.

EP brevet européen : il est à noter que **BE Belgique, CY Chypre, FR France, GR Grèce, IE Irlande, IT Italie, MC Monaco et NL Pays-Bas** ne peuvent être désignés que pour un brevet européen et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties à la Convention sur le brevet européen peuvent être désignés soit aux fins d'un brevet national ou d'un brevet européen, soit à la fois aux fins d'un brevet national et d'un brevet européen.

Si un brevet ARIPO ou un brevet européen est demandé pour certains seulement des États contractants du Protocole de Harare ou de la Convention sur le brevet européen, respectivement, le nom des États pour lesquels un brevet régional n'est pas demandé peut être biffé. Il est cependant recommandé de toujours désigner aux fins d'un brevet régional tous les États contractants du Protocole ou de la Convention, respectivement. Ce n'est que lorsqu'il s'agira d'aborder la phase régionale et de payer les taxes de désignation régionales que la décision de ne poursuivre la procédure d'obtention de brevet que pour certaines des désignations devra être prise.

Lorsqu'un ou plusieurs États parties au Protocole de Harare, à la Convention sur le brevet eurasién ou à la Convention sur le brevet européen et au PCT sont désignés deux fois, une fois aux fins d'un brevet ARIPO, d'un brevet eurasién ou d'un brevet européen et une autre fois aux fins d'une protection nationale, le déposant doit acquitter une taxe de désignation pour le brevet régional et autant de taxes de désignation qu'il y a de brevets ou autres titres de protection nationaux demandés (règle 15.1.ii) et instruction 210).

Extension du brevet européen (EP) à certains États : s'il est envisagé de demander, au moment de l'ouverture de la phase régionale européenne, l'extension du brevet européen qui sera obtenu ultérieurement à AL Albanie, LT Lituanie, LV Lettonie, MK Ex-République yougoslave de Macédoine, RO Roumanie, ou SI Slovaquie (ou à tout autre État contractant du PCT pour lequel, à la date du dépôt de la demande internationale, un accord d'extension conclu avec l'Organisation européenne des brevets est en vigueur), le cadre n° V doit contenir **à la fois** la désignation de l'État concerné en vue de l'obtention d'un brevet national et la désignation, en vue de l'obtention d'un brevet européen, d'au moins un État contractant du PCT partie à la Convention sur le brevet européen.

OA brevet OAPI : la désignation des États membres de l'OAPI qui sont parties au PCT ne peut être effectuée qu'aux fins d'un brevet OAPI (aucune protection nationale n'est offerte); de plus, il n'est pas possible de ne désigner que certains de ces États.

Choix de certaines formes de protection ou de traitement (règles 4.12 à 4.14 et instruction 202) : si, dans un pays, il est possible de demander un titre de protection autre qu'un brevet, écrire le nom de ce pays, ou le code à deux lettres, suivi

du nom du titre en question, c'est-à-dire "petty patent" (pour YU Yougoslavie), "brevet provisoire" (pour AM Arménie, KG Kirghizistan, KZ Kazakhstan, TM Turkménistan, UZ Ouzbékistan), "modèle d'utilité" (pour AL Albanie, AM Arménie, AT Autriche, BG Bulgarie, BR Brésil, BY Bélarus, BZ Belize, CN Chine, CR Costa Rica, CZ République tchèque, DE Allemagne, DK Danemark, EE Estonie, ES Espagne, FI Finlande, GE Géorgie, HU Hongrie, JP Japon, KE Kenya, KG Kirghizistan, KR République de Corée, KZ Kazakhstan, LS Lesotho, MD République de Moldova, MX Mexique, PL Pologne, PT Portugal, RU Fédération de Russie, SK Slovaquie, SL Sierra Leone, TJ Tadjikistan, TR Turquie, UA Ukraine, UZ Ouzbékistan, VN Viet Nam, OA OAPI), "brevet consensuel" (pour HR Croatie), "certificat d'utilité" (pour GH Ghana, TT Trinité-et-Tobago, UG Ouganda), ou "certificat d'auteur d'invention" (pour CU Cuba, KP République populaire démocratique de Corée). Si, pour AT Autriche, CZ République tchèque, DE Allemagne, DK Danemark, EE Estonie, FI Finlande ou SK Slovaquie (seuls pays où cela est possible), un modèle d'utilité est demandé en plus du brevet, écrire après le nom de ce pays "et modèle d'utilité".

Si, pour un pays où cela est possible, il est souhaité que la demande internationale soit traitée comme une demande d'obtention d'un certain titre "d'addition" ou comme une demande de "continuation" ou de "continuation-in-part", écrire après le nom de ce pays la mention appropriée, c'est-à-dire "brevet d'addition" (pour AT Autriche, AU Australie, BA Bosnie-Herzégovine, CU Cuba, DE Allemagne, ES Espagne, IL Israël, IN Inde, MK Ex-République yougoslave de Macédoine, MW Malawi, NZ Nouvelle-Zélande, SI Slovaquie, TR Turquie, YU Yougoslavie, ZA Afrique du Sud, ZW Zimbabwe), "certificat d'addition" (pour BR Brésil, DZ Algérie, MA Maroc, MG Madagascar, OA OAPI), "certificat d'auteur d'invention additionnel" (pour CU Cuba), "continuation" ou "continuation-in-part" (pour US États-Unis d'Amérique). Si l'une de ces mentions est utilisée, indiquer également le numéro du titre principal ou de la demande principale et la date de délivrance du titre principal ou du dépôt de la demande principale, selon le cas (voir le point 1.v) de ce cadre).

L'indication, dans les cases du cadre n° V correspondant aux désignations, de numéros d'ordre en chiffres arabes sera considérée comme reflétant l'ordre des désignations choisi par le déposant; si les cases sont cochées d'une autre manière, l'ordre considéré sera celui dans lequel les cases cochées apparaissent sur le formulaire. Cet ordre n'aura de signification que si le montant reçu pour les taxes de désignation n'est pas suffisant pour couvrir l'ensemble des désignations et reste insuffisant après que le déposant a été invité à acquitter le solde débiteur; dans ce cas, le montant reçu sera affecté au paiement des taxes pour les désignations dans l'ordre en question (règle 16bis.1.c) et instruction 321).

Les cases situées en bas des colonnes sont réservées à la désignation, aux fins d'un brevet national, d'États qui sont devenus parties au PCT après la date qui figure au bas de la deuxième feuille du formulaire de requête; dans ce cas, il faut mentionner sur la ligne pointillée le nom de l'État, précédé de préférence du code à deux lettres, et cocher la case correspondante (en indiquant, le cas échéant, si une forme particulière de protection ou de traitement est souhaitée).

Désignation d'États à titre de précaution sous réserve de confirmation (règles 4.9.b) et c) et 15.5) : dans l'intérêt du déposant, le cadre n° V comporte une déclaration ("Déclaration concernant les désignations de précaution") indiquant que le déposant souhaite, en sus des désignations expresses effectuées en cochant les cases de la première partie de ce cadre (il doit y avoir au moins une désignation de ce type), désigner à titre de précaution tous les autres États contractants du PCT qui n'ont pas été désignés expressément.

The receiving Office will not send to the applicant any reminder or invitation to confirm precautionary designations.

If no precautionary designation is to be confirmed, no action is required by the applicant, and the precautionary designations will then be automatically regarded as withdrawn by the applicant at the expiration of 15 months from the priority date.

BOX No. VI

Priority Claim(s) (Rule 4.10): If the priority of an earlier application is claimed, the declaration containing the priority claim must be made in the request.

The request must indicate the *date* on which the earlier application from which priority is claimed was filed and the *number* it was assigned. Note that that date must fall within the period of 12 months preceding the international filing date.

Where the earlier application is a national application, the *country* party to the Paris Convention for the Protection of Industrial Property, or the *Member* of the World Trade Organization that is not a party to that Convention, in which that earlier application was filed must be indicated. Where the earlier application is a regional application, the *regional Office* concerned must be indicated. Where the earlier application is an international application, the *receiving Office* with which that earlier application was filed must be indicated.

Where the earlier application is a regional application (other than an ARIPO application), or an international application, the priority claim may also, if the applicant so wishes, indicate one or more countries party to the Paris Convention for which that earlier application was filed (Rule 4.10(b)(i)); such an indication is not, however, mandatory. Where the earlier application is an ARIPO application, at least one country party to the Paris Convention or one Member of the World Trade Organization for which that earlier application was filed must be indicated (Rule 4.10(b)(ii)).

As to the possibility of correcting or adding a priority claim, see Rule 26*bis* and the *PCT Applicant's Guide*, Volume I/A, General Part.

Certified Copy of Earlier Application (Rule 17.1): A certified copy of each earlier application the priority of which is claimed (priority document) must be submitted by the applicant, irrespective of whether that earlier application is a national, regional or international application. The priority document must be submitted to the receiving Office or to the International Bureau before the expiration of 16 months from the (earliest) priority date or, where an early start of the national phase is requested, not later than at the time such request is made. Any priority document received by the International Bureau after the expiration of the 16-month time limit but before the date of international publication shall be considered to have been received on the last day of that time limit (Rule 17.1(a)).

Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office (not later than 16 months after the priority date) to prepare and transmit the priority document to the International Bureau (Rule 4.1(c)(ii)). Such request may be made by marking the applicable check-boxes which identify the respective documents. *Attention:* where such a request is made, the applicant must, where applicable, pay to the receiving Office the *fee for priority document*, otherwise, the request will be considered not to have been made (see Rule 17.1(b)).

Dates (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such

indication, the date should be repeated in parentheses, using two-digit Arabic numerals for the number of the day, the number of the month and the last two digits of the year, in that order and separated by periods, slants or hyphens, for example, “20 March 2001 (20.03.01)”, “20 March 2001 (20/03/01)” or “20 March 2001 (20-03-01)”.

BOX No. VII

Choice of International Searching Authority (ISA) (Rules 4.1(b)(vi) and 4.14*bis*): If two or more International Searching Authorities are competent for carrying out the international search in relation to the international application—depending on the language in which that application is filed and the receiving Office with which it is filed—the name of the competent Authority chosen by the applicant must be indicated in the space provided, either by its full name or two-letter code.

Request to Use Results of Earlier Search; Reference to that Search (Rules 4.11 and 41.1): The earlier search, if any, must be identified in such a manner that the ISA can retrieve the results easily. Where those results can be used, the ISA may refund the international search fee or a portion thereof.

BOX No. VIII

Declarations Containing Standardized Wording (Rules 4.1(c)(iii) and 4.17): At the option of the applicant, the request may, for the purposes of the national law applicable in one or more designated States, contain one or more of the following declarations:

- (i) declaration as to the identity of the inventor;
- (ii) declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent;
- (iii) declaration as to the applicant's entitlement, as at the international filing date, to claim the priority of the earlier application;
- (iv) declaration of inventorship (only for the purposes of the designation of the United States of America);
- (v) declaration as to non-prejudicial disclosures or exceptions to lack of novelty;

which must conform to the standardized wording provided for in Sections 211 to 215, respectively, and which must be set forth in Boxes Nos. VIII (i) to (v), as detailed below. Where any such declarations are included, the appropriate check-boxes in Box No. VIII should be marked and the number of each type of declaration should be indicated in the right-hand column. As to the possibility of correcting or adding a declaration, see Rule 26*ter*, Section 216 and the *PCT Applicant's Guide*, Volume I/A, General Part.

If the circumstances of a particular case are such that the standardized wordings are not applicable, the applicant should not attempt to make use of the declarations provided for in Rule 4.17 but rather will have to comply with the national requirements concerned upon entry into the national phase.

The fact that a declaration is made under Rule 4.17 does not of itself establish the matters declared; the effect of those matters in the designated States concerned will be determined by the designated Offices in accordance with the applicable national law.

Even if the wording of a declaration does not conform to the standardized wording provided for in the Administrative Instructions pursuant to Rule 4.17, any designated Office may accept that declaration for the purposes of the applicable national law, but is not required to do so.

Details as to National Law Requirements: For information on the declarations required by each designated Office, see the

Si le déposant ne souhaite pas faire usage de cette mesure de sécurité ni ne veut faire de désignations de précaution, la déclaration doit être biffée.

Si le déposant souhaite expressément exclure tel ou tel État d'une telle désignation faite à titre de précaution afin que la demande internationale ne produise aucun effet dans cet État, il y aura lieu d'indiquer le nom ou le code à deux lettres de cet État dans le cadre supplémentaire. Cette mention n'est nécessaire dans aucun autre cas.

Si le déposant constate, après le dépôt de la demande internationale, qu'il y a des erreurs ou des omissions en ce qui concerne les désignations faites expressément, il pourra rectifier les erreurs ou corriger les omissions en confirmant les désignations de précaution en question. Il est possible de confirmer une désignation de précaution jusqu'à l'expiration d'un délai de 15 mois à compter de la date de priorité (la plus ancienne) indiquée dans le cadre n° VI ou, si aucune priorité n'est revendiquée, de la date du dépôt international. Pour confirmer une telle désignation, il faut déposer auprès de l'office récepteur une déclaration écrite contenant l'indication du nom de chaque État dont la désignation est confirmée (avec, le cas échéant, une indication de la forme de traitement ou de protection souhaitée) et payer à l'office récepteur, pour chaque désignation ainsi confirmée, une taxe de désignation (même lorsque six taxes de désignation ont déjà été payées) ainsi qu'une taxe de confirmation correspondant à 50 % de la taxe de désignation.

L'office récepteur n'enverra au déposant aucun rappel ni invitation à confirmer des désignations de précaution.

Le déposant ne doit rien faire s'il ne veut confirmer aucune désignation de précaution; les désignations de précaution seront alors automatiquement considérées comme retirées par le déposant à l'expiration d'un délai de 15 mois à compter de la date de priorité.

CADRE N° VI

Revendication(s) de priorité (règle 4.10) : si la priorité d'une demande antérieure est revendiquée, la déclaration contenant la revendication de priorité doit figurer dans la requête.

La requête doit indiquer la *date* du dépôt de la demande antérieure dont la priorité est revendiquée et son *numéro*. Cette date doit tomber dans la période de 12 mois précédant la date du dépôt international.

Lorsque la demande antérieure est une demande nationale, il faut indiquer le *pays* partie à la Convention de Paris pour la protection de la propriété industrielle, ou le *membre* de l'Organisation mondiale du commerce qui n'est pas partie à ladite convention, où elle a été déposée; lorsque la demande antérieure est une demande régionale, l'*office régional* concerné; et lorsque la demande antérieure est une demande internationale, l'*office récepteur* auprès duquel elle a été déposée.

Lorsque la demande antérieure est une demande régionale (autre qu'une demande ARIPO) ou une demande internationale, la revendication de priorité peut aussi, si le déposant le souhaite, indiquer un ou plusieurs pays parties à la Convention de Paris pour lesquels cette demande a été déposée (règle 4.10.b)i); cette indication n'est cependant pas obligatoire. Lorsque la demande antérieure est une demande ARIPO, il faut indiquer au moins un pays partie à la Convention de Paris ou un membre de l'Organisation mondiale du commerce pour lequel cette demande a été déposée (règle 4.10.b)ii).

En ce qui concerne les possibilités de correction ou d'adjonction d'une revendication de priorité, voir la règle 26*bis* et le *Guide du déposant du PCT*, volume I/A, partie générale.

Copie certifiée conforme de la demande antérieure (règle 17.1) : le déposant doit présenter une copie certifiée conforme de chaque demande antérieure dont la priorité est revendiquée (document de priorité), que la demande antérieure soit une demande nationale, régionale ou internationale. Le document de priorité doit être présenté à l'office récepteur ou au Bureau international avant l'expiration d'un délai de 16 mois à compter de la date de priorité (la plus ancienne) ou, lorsque l'ouverture anticipée de la phase nationale est demandée, au plus tard à la date à laquelle est faite cette demande. Tout document de priorité qui parvient au Bureau international après l'expiration du délai de 16 mois mais avant la date de publication internationale est réputé avoir été reçu le dernier jour de ce délai (règle 17.1.a)).

Lorsque le document de priorité est délivré par l'office récepteur, le déposant peut, au lieu de présenter ce document, demander à l'office récepteur (au plus tard dans le délai de 16 mois à compter de la date de priorité) de l'établir et de le transmettre au Bureau international (règle 4.1.c)ii). Pour effectuer une requête à cet effet, il faut cocher la case appropriée comportant les indications qui permettent d'identifier le document. *Important* : lorsqu'une telle requête est présentée, le déposant doit, le cas échéant, verser à l'office récepteur la *taxe afférente au document de priorité*; à défaut, cette requête sera considérée comme n'ayant pas été présentée (voir la règle 17.1.b)).

Dates (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples : "20 mars 2001 (20.03.01)", "20 mars 2001 (20/03/01)" ou "20 mars 2001 (20-03-01)".

CADRE N° VII

Choix de l'administration chargée de la recherche internationale (ISA) (règles 4.1.b)vi) et 4.14*bis*) : si plusieurs administrations chargées de la recherche internationale sont compétentes pour procéder à la recherche internationale concernant la demande internationale – en fonction de la langue dans laquelle cette demande est déposée et de l'office récepteur auprès duquel elle est déposée – le nom de l'administration compétente choisie par le déposant doit être indiqué dans l'espace prévu, soit en clair soit au moyen du code à deux lettres correspondant.

Demande d'utilisation des résultats d'une recherche antérieure; mention de cette recherche (règles 4.11 et 41.1) : la mention de la recherche antérieure éventuelle doit comporter des indications qui permettent à l'administration chargée de la recherche internationale d'en retrouver aisément les résultats. Si ces résultats sont utilisables, l'administration en question pourra rembourser la taxe de recherche internationale ou une fraction de celle-ci.

CADRE N° VIII

Déclarations comportant un libellé standard (règles 4.1.c)iii) et 4.17) : au choix du déposant, la requête peut, aux fins de la législation nationale applicable dans un ou plusieurs États désignés, contenir une ou plusieurs des déclarations suivantes :

- i) une déclaration relative à l'identité de l'inventeur;
- ii) une déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet;
- iii) une déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure;

PCT Applicant's Guide, Volume II, in the relevant National Chapter.

Effect in Designated Offices (Rule 51bis.2): Where the applicant submits any of the declarations provided for in Rule 4.17(i) to (iv) containing the required standardized wording (either with the international application, or to the International Bureau within the relevant time limit under Rule 26ter, or directly to the designated Office during the national phase), the designated Office may not, in the national phase, require further documents or evidence on the matter to which the declaration relates, unless that designated Office may reasonably doubt the veracity of the declaration concerned.

Incompatibility of Certain Items of Rule 51bis.2(a) with National Laws (Rule 51bis.2(c)): The designated Offices listed below have informed the International Bureau that the applicable national law is not compatible in respect of the following declarations provided in Rule 4.17(i), (ii) and (iii). Those designated Offices are therefore entitled to require further documents or evidence on the matters to which those declarations relate.

Declaration as to the identity of the inventor (Rules 4.17(i) and 51bis.1(a)(i)): The respective national laws of CH Switzerland, DK Denmark and SE Sweden are not compatible with Rule 51bis.2(a)(i).

Declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51bis.1(a)(ii)): The respective national laws of CA Canada, CH Switzerland, DK Denmark, HU Hungary and SE Sweden are not compatible with Rule 51bis.2(a)(ii).

Declaration as to the applicant's entitlement as at the international filing date, to claim the priority of the earlier application (Rules 4.17(iii) and 51bis.1(a)(iii)): The respective national laws of CH Switzerland and DK Denmark are not compatible with Rule 51bis.2(a)(iii).

BOXES Nos. VIII (i) to (v) (IN GENERAL)

Different Declaration Boxes: There are six different declaration boxes in the pre-printed request form—one box for each of the five different types of declarations provided for in Rule 4.17 (Box No. VIII (i) to Box No. VIII (v)) and a continuation sheet (Continuation of Box No. VIII (i) to (v)) to be used in case any single declaration does not fit in the corresponding box. The title of each type of declaration which is found in the standardized wording provided for in the Administrative Instructions is pre-printed on the appropriate sheet of the request.

Separate Sheet for Each Declaration: Each declaration must start on a separate sheet of the request form in the appropriate Declaration Box.

Titles, Items, Item Numbers, Dotted Lines, Words in Parentheses and Words in Brackets: The prescribed standardized wording of the declarations includes titles, various items, item numbers, dotted lines, words in parentheses and words in brackets. Except for Box No. VIII (iv) which contains the pre-printed standardized wording, only those items which are applicable should be included in a declaration where necessary to support the statements in that declaration (that is, omit those items which do not apply) and item numbers need not be included. Dotted lines indicate where information is required to be inserted. Words in parentheses are instructions to applicants as to the information which may be included in the declaration depending upon the factual circumstances.

Words in brackets are optional and should appear in the declaration without the brackets if they apply; if they do not apply, they should be omitted together with the corresponding brackets.

Naming of Several Persons: More than one person may be named in a single declaration. In the alternative, with one exception, a separate declaration may be made for each person. With respect to the declaration of inventorship set forth in Box No. VIII (iv), which is applicable only for the purposes of the designation of the United States of America, all inventors must be indicated in a single declaration (see Notes to Box No. VIII (iv), below). The wording of declarations to be set forth in Boxes Nos. VIII (i), (ii), (iii) and (v) may be adapted from the singular to the plural as necessary.

Designated States to Which the Declarations Apply: Each declaration must indicate the designated States to which it applies. In this regard, the standardized wording of the declaration of inventorship (Box No. VIII (iv); see also Rule 4.17(iv) and Section 214) indicates in the title that it is for the purposes of the designation of the United States of America. The other declarations include prescribed wording to indicate whether the declaration is made for all designations or specific designations; one of these choices should always be included in the declaration. Where the declaration is for more than one person, the declaration may include separate statements indicating whether the declaration is made for all designations or specific designations with respect to each separate applicant. For example, this may be expected to occur where the request indicates different applicants for different States in accordance with Rule 4.5(d). However, in such a case, it is advisable to include a separate declaration for each person.

BOX No. VIII (i)

Declaration as to the Identity of the Inventor (Rule 4.17(i) and Section 211): The declaration must be worded as follows:

“Declaration as to the identity of the inventor (Rules 4.17(i) and 51bis.1(a)(i)):

in relation to [this] international application [No. PCT/...],

- (i) ... (*name*) of ... (*address*) is the inventor of the subject matter for which protection is sought by way of [the] [this] international application
- (ii) this declaration is made for the purposes of (*include as applicable*):
 - (a) all designations [except the designation of the United States of America]
 - (b) the following designations for national and/or regional patents: ...”

Such a declaration is not necessary in respect of any inventor who is indicated as such (either as inventor only or applicant and inventor) in Box No. II or No. III in accordance with Rule 4.5 or 4.6. However, where the inventor is indicated as applicant in Box No. II or No. III in accordance with Rule 4.5, a declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)) may be appropriate for the purposes of all designated States except the United States of America. Where indications regarding the inventor in accordance with Rule 4.5 or 4.6 are not included in Box No. II or No. III, this declaration may be combined with the prescribed wording of the declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)). For details on such a combined declaration, see Notes to Box No. VIII (ii), below. For details as to the declaration of inventorship for the purposes of the designation of the United States of America, see Notes to Box No. VIII (iv), below.

- iv) une déclaration relative à la qualité d'inventeur (seulement aux fins de la désignation des États-Unis d'Amérique);
- v) une déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté;

qui doivent être conformes au libellé standard fixé dans les instructions 211 à 215, respectivement, et qui doivent être présentées dans les cadres n^{os} VIII.i) à v), comme précisé ci-après. Lorsque de telles déclarations sont incluses, il convient de cocher les cases appropriées dans le cadre n^o VIII et d'indiquer dans la colonne de droite le nombre de déclarations de chaque type. En ce qui concerne les possibilités de correction ou d'adjonction d'une déclaration, voir la règle 26ter, l'instruction 216 et le *Guide du déposant du PCT*, volume I/A, partie générale.

Si les circonstances d'un cas particulier sont telles que les libellés standards ne sont pas applicables, le déposant s'abstiendra de faire les déclarations prévues à la règle 4.17, mais il devra satisfaire aux exigences de la législation nationale concernée lors de l'entrée dans la phase nationale.

Le fait qu'une déclaration soit faite en vertu de la règle 4.17 ne suffit pas à prouver les points sur lesquels elle porte; il appartient aux offices désignés de statuer à leur sujet en fonction de la législation nationale applicable.

Même si le texte d'une déclaration ne respecte pas le libellé standard fixé dans les instructions administratives en vertu de la règle 4.17, tout office désigné est libre d'accepter ou non cette déclaration aux fins de la législation nationale applicable.

Précisions quant aux exigences des législations nationales : pour des précisions concernant les déclarations qui sont exigées par chaque office désigné, voir les chapitres nationaux pertinents dans le volume II du *Guide du déposant du PCT*.

Effets dans les offices désignés (règle 51bis.2) : lorsqu'un déposant remet l'une des déclarations visées à la règle 4.17.i) à v) comportant le libellé standard exigé (soit avec la demande internationale, soit au Bureau international dans le délai applicable en vertu de la règle 26ter, ou directement à l'office désigné durant la phase nationale), l'office désigné ne peut, pendant la phase nationale, exiger d'autres documents ou preuves relatifs à l'objet auquel se rapporte la déclaration, à moins qu'il puisse raisonnablement douter de la véracité de la déclaration en question.

Incompatibilité de certains points de la règle 51bis.2.a) avec les législations nationales (règle 51bis.2.c) : les offices désignés dont la liste figure ci-après ont informé le Bureau international que la législation nationale qui leur est applicable n'est pas compatible en ce qui concerne les déclarations suivantes visées à la règle 4.17.i), ii) et iii). Ces offices désignés pourront donc exiger des documents ou des preuves supplémentaires relatifs aux objets auxquels se rapportent ces déclarations.

Déclaration relative à l'identité de l'inventeur (règles 4.17.i) et 51bis.1.a)i) : les législations nationales respectives de CH Suisse, DK Danemark et SE Suède ne sont pas compatibles avec la règle 51bis.2.a)i).

Déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet (règles 4.17.ii) et 51bis.1.a)ii) : les législations nationales respectives de CA Canada, CH Suisse, DK Danemark, HU Hongrie et SE Suède ne sont pas compatibles avec la règle 51bis.2.a)ii).

Déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure (règles 4.17.iii) et 51bis.1.a)iii) : les législations nationales respectives de CH Suisse et DK Danemark ne sont pas compatibles avec la règle 51bis.2.a)iii).

CADRES N^{os} VIII j) à v) (GÉNÉRALITÉS)

Différents cadres pour déclarations : le formulaire pré-imprimé contient six cadres différents pour déclarations, un pour chaque type de déclaration prévue selon la règle 4.17 (du cadre n^o VIII.i) au cadre n^o VIII.v)) et une feuille annexe (Suite du cadre n^o VIII.i) à v)) à utiliser dans le cas où une des déclarations ne tient pas dans le cadre approprié. Le titre de chaque déclaration qui figure dans le libellé standard prévu dans les instructions administratives est pré-imprimé sur la feuille correspondante de la requête.

Feuille distincte pour chaque déclaration : chaque déclaration doit commencer sur une feuille distincte de la requête et dans le cadre pour déclaration approprié.

Titres, éléments, numéros d'éléments, lignes pointillées, mots entre parenthèses et mots entre crochets : le libellé standard fixé pour les déclarations comporte un titre, différents éléments, des numéros d'éléments, des lignes pointillées, des mots entre parenthèses et des mots entre crochets. Sauf en ce qui concerne le cadre n^o VIII.iv) dans lequel le libellé standard est pré-imprimé, seuls les éléments pertinents doivent figurer dans une déclaration lorsque cela est nécessaire à l'énoncé des faits invoqués dans cette déclaration (en d'autres termes, il y a lieu d'omettre les éléments non pertinents) et il n'est pas nécessaire d'inclure les numéros d'éléments. Les lignes pointillées signalent les endroits où il y a lieu d'indiquer les renseignements demandés. Les mots entre parenthèses indiquent au déposant quels renseignements peuvent être inclus dans la déclaration selon la situation de fait. Les mots entre crochets sont facultatifs; s'ils sont applicables, ils doivent figurer dans la déclaration sans les crochets; s'ils ne sont pas applicables, il convient de les omettre ainsi que les crochets.

Mention de plusieurs personnes : plusieurs personnes peuvent être mentionnées dans une même déclaration. Il est aussi possible, sauf dans un cas, de faire une déclaration distincte par personne. Pour la déclaration relative à la qualité d'inventeur, figurant dans le cadre n^o VIII.iv), qui est applicable seulement aux fins de la désignation des États-Unis d'Amérique, tous les inventeurs doivent être indiqués dans une même déclaration (voir les notes du cadre n^o VIII.iv), ci-après). Dans les déclarations devant figurer dans les cadres n^{os} VIII.i), ii), iii) et v), le libellé au singulier peut être mis au pluriel si cela s'avère nécessaire.

États désignés auxquels les déclarations s'appliquent : chaque déclaration doit comporter l'indication des États désignés auxquels elle s'applique. À cet égard, le libellé standard pour la déclaration relative à la qualité d'inventeur (cadre n^o VIII.iv); voir également la règle 4.17.iv) et l'instruction 214) indique dans le titre que la déclaration est faite aux fins de la désignation des États-Unis d'Amérique. Les autres déclarations comportent des libellés prescrits pour indiquer si la déclaration est faite aux fins de toutes les désignations ou aux fins de désignations particulières. Une de ces options doit toujours figurer dans la déclaration. Lorsque la déclaration est faite en ce qui concerne plusieurs personnes, elle peut comporter des mentions distinctes indiquant si elle est faite aux fins de toutes les désignations ou aux fins de désignations particulières en ce qui concerne chacun des déposants. Le cas peut par exemple se présenter si la requête indique des déposants différents pour différents États, conformément à la règle 4.5.d). Dans une telle situation, toutefois, il est conseillé d'inclure une déclaration distincte par personne.

CADRE N^o VIII.i)

Déclaration relative à l'identité de l'inventeur (règle 4.17.i) et instruction 211) : la déclaration doit être libellée comme suit:

Where the inventor is not indicated in Box No. II or No. III, this declaration may be presented as a combined declaration explaining the applicant's entitlement to apply for and be granted a patent and identifying the inventor. In such a case, the introductory phrase of the declaration must be as follows:

"Combined declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51bis.1(a)(ii)) and as to the identity of the inventor (Rules 4.17(i) and 51bis.1(a)(i)), in a case where the declaration under Rule 4.17(iv) is not appropriate:"

The remainder of the combined declaration must be worded as indicated in the preceding paragraphs.

Either (a) or (b) of item (ix) should always be included in the declaration. The remainder of the items may be incorporated as is necessary to explain the applicant's entitlement. **This declaration is only applicable to those events which have occurred prior to the international filing date.** In addition, this declaration is only applicable where the person or name of the applicant is different from that of the applicant who filed the earlier application from which priority is claimed. For example, this declaration may be applicable where only one applicant out of five is different from the applicants indicated in respect of an earlier application. The possible kinds of transfer of entitlement in item (vii) include merger, acquisition, inheritance, donation, etc. Where there has been a succession of transfers from the applicant in respect of the earlier application, the order in which transfers are listed should follow the actual succession of transfers, and items may be included more than once, as necessary to explain the applicant's entitlement.

BOX No. VIII (iv)

Declaration of Inventorship (Rule 4.17(iv) and Section 214): The standardized wording for the declaration is pre-printed in Box No. VIII (iv).

All inventors must be named in the declaration, even if they do not all sign the same (copy of) the declaration (Section 214(b)). Bibliographic data, such as address of

“Déclaration relative à l’identité de l’inventeur (règles 4.17.i) et 51bis.1.a)ii) :

- ii) la présente déclaration est faite aux fins (*préciser selon le cas*)
 - a) de toutes les désignations [sauf la désignation des États-Unis d’Amérique]
 - b) des désignations suivantes pour des brevets nationaux ou régionaux : ...”

Une déclaration de cette nature n’est pas nécessaire en ce qui concerne tout inventeur qui est indiqué comme tel (que ce soit comme inventeur seulement ou en qualité à la fois de déposant et d’inventeur) dans le cadre n° II ou le cadre n° III en application de la règle 4.5 ou 4.6. Toutefois, lorsque l’inventeur est indiqué comme étant le déposant dans le cadre n° II ou n° III en application de la règle 4.5, une déclaration relative au droit du déposant de demander et d’obtenir un brevet (règle 4.17.ii) peut être appropriée aux fins de tous les États désignés sauf des États-Unis d’Amérique. Lorsque les indications concernant l’inventeur qui sont à fournir en application de la règle 4.5 ou 4.6 ne sont pas portées dans le cadre n° II ou n° III, cette déclaration peut être combinée avec le libellé standard pour la déclaration relative au droit du déposant de demander et d’obtenir un brevet (règle 4.17.ii). Pour des précisions concernant cette déclaration combinée, voir les notes du cadre n° VIII.ii), ci-après. Pour des précisions quant à la déclaration relative à la qualité d’inventeur aux fins de la désignation des États-Unis d’Amérique, voir les notes du cadre n° VIII.iv), ci-après.

CADRE N° VIII.ii)

Déclaration relative au droit du déposant de demander et d’obtenir un brevet (règle 4.17.ii) et instruction 212) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à viii) nécessaires aux fins de motiver le droit du déposant :

“Déclaration relative au droit du déposant, à la date du dépôt international, de demander et d’obtenir un brevet (règles 4.17.ii) et 51bis.1.a)ii)), dans le cas où la déclaration selon la règle 4.17.iv) n’est pas appropriée :

- i) du fait que ... (*nom*), ... (*adresse*), est l’inventeur de ce pour quoi une protection est demandée dans [la] [ladite] demande internationale

ix) la présente déclaration est faite aux fins (*préciser selon le cas*)

- a) de toutes les désignations [sauf la désignation des États-Unis d’Amérique]
- b) des désignations suivantes pour des brevets nationaux ou régionaux : ...”

L’une ou l’autre des variantes a) et b) du point ix) doit toujours être incluse dans la déclaration. On ne retiendra parmi les autres éléments que ceux qui sont nécessaires pour motiver le droit du déposant. **Cette déclaration est exclusivement applicable à des faits qui se sont produits avant la date du dépôt international.** Les types possibles de transfert de droits visés au point vii) comprennent la fusion, l’acquisition, l’héritage, la donation, etc. Lorsqu’il y a eu succession de transferts des droits de l’inventeur, l’ordre dans lequel les transferts sont énumérés doit suivre l’ordre effectif de ces transferts successifs et certains points peuvent être cités plus d’une fois si cela s’avère nécessaire pour motiver le droit du déposant. Lorsque l’inventeur n’est pas indiqué dans le cadre n° II ou le cadre n° III, cette déclaration peut être présentée sous la forme d’une déclaration combinée motivant le droit du déposant de demander et d’obtenir un brevet et permettant d’identifier l’inventeur. Dans un tel cas, la phrase introductive de la déclaration est libellée comme suit :

“Déclaration combinée relative au droit du déposant, à la date du dépôt international, de demander et d’obtenir un brevet (règles 4.17.ii) et 51bis.1.a)ii)) et relative à l’identité de l’inventeur (règles 4.17.i) et 51bis.1.a)ii)), dans le cas où la déclaration selon la règle 4.17.iv) n’est pas appropriée :”

Le reste de la déclaration combinée est libellé comme indiqué aux paragraphes précédents.

Pour des précisions concernant la déclaration permettant d’identifier l’inventeur, voir les notes relatives au cadre n° VIII.i), ci-dessus.

Déclaration relative au droit du déposant de revendiquer la priorité de la demande antérieure (règle 4.17.iii) et instruction 213) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à viii) nécessaires aux fins de motiver le droit du déposant :

“Déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande indiquée ci-dessous si le déposant n’est pas celui qui a déposé la demande antérieure ou si son nom a changé depuis le dépôt de la demande antérieure (règles 4.17.iii) et 51bis.1.a)iii)) :

BOX No. IX

Items Constituting the International Application: The number of sheets of the various parts of the international application must be given in the check list in Arabic numerals. Sheets containing any of Boxes Nos. VIII (i) to (v) must be counted as part of the request.

Where the application contains disclosure of one or more *nucleotide and/or amino acid sequences*, the applicant has the following three options.

First, the applicant may choose to file the sequence listing part *in paper form only*, in which case the number of sheets must be indicated under item (a) in the left column of Box No. IX (and therefore included in the total number of sheets), noting that, a copy of that sequence listing part, in computer readable form, may accompany the international application but only for the purposes of international search under Rule 13*ter*; in such a case, check-boxes Nos. 9 and 9(i) and, where applicable, 9(iii) must be marked in the right column of Box No. IX.

Second, the applicant may choose to file the sequence listing part *in computer readable form only*, under Section 801(a)(i), in which case check-box b(i) must be marked but the space for the number of sheets of the sequence listing part under item (a) must be left blank; the type and number of carriers must also be indicated on the dotted line under item (b); in addition, check-boxes Nos. 9, 9(ii) and, where applicable,

9(iii) must be marked if additional copies of the sequence listing in computer readable form are furnished.

Third, the applicant may choose to file the sequence listing part *both in computer readable form and in paper form* under Section 801(a)(ii), in which case check-box b(ii) must be marked and the number of sheets of that part in paper form must be indicated under item (a) (although that number of sheets will not be taken into account for calculation of the basic fee); the type and number of carriers must also be indicated on the dotted line under item (b); in addition, check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked if additional copies of the sequence listing in computer readable form are furnished.

Under all three options described above, the sequence listings must be presented as a separate part of the description (“sequence listing part of description”) in accordance with the standard contained in Annex C of the Administrative Instructions.

Items Accompanying the International Application:

Where the international application is accompanied by certain items, the applicable check-boxes must be marked, any applicable indication must be made on the dotted line after the applicable item, and the number of such items should be indicated at the end of the relevant line; detailed explanations are provided below only in respect of those items which so require.

Check-box No. 4: Mark this check-box where a copy of a general power of attorney is filed with the international application; where the general power of attorney has been deposited with the receiving Office, and that Office has accorded to it a reference number, that number may be indicated.

Check-box No. 5: Mark this check-box where a statement explaining the lack of signature of an inventor/applicant for the purposes of the United States of America is furnished together with the international application (see also Notes to Box No. X).

Check-box No. 7: Mark this check-box where a translation of the international application for the purposes of international search (Rule 12.3) is filed together with the international application and indicate the language of that translation.

Check-box No. 8: Mark this check-box where a filled-in Form PCT/RO/134 or any separate sheet containing indications concerning deposited microorganisms and/or other biological material is filed with the international application. If Form PCT/RO/134 or any sheet containing the said indications is included as one of the sheets of the description (as required by certain designated States (see the *PCT Applicant's Guide*, Volume I/B, Annex L)), do not mark this check-box (for further information, see Rule 13*bis* and Section 209).

Check-box No. 9: Where the international application contains a sequence listing part and a copy thereof in computer readable form is required by the ISA, the applicant may furnish the listing in computer readable form (together with the required statement) to the receiving Office with the international application, in which case check-boxes Nos. 9, 9(i) and, where applicable, 9(iii) must be marked. Where the applicant has chosen the second or third option mentioned above, and an additional copy or copies of the sequence listing part in computer readable form are required under Section 804, the applicant may furnish such additional copies together with the international application, in which case check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked. In all cases mentioned above, the applicant should indicate in the left column the type and number of diskettes, CD-ROMs, CD-Rs, or other data carriers furnished.

CADRE N° IX

Éléments constituant la demande internationale : Il faut indiquer en chiffres arabes, dans le bordereau, le nombre de feuilles des différentes parties de la demande internationale. Toute feuille sur laquelle figure l'un quelconque des cadres n^{os} VIII.i) à v) doit être comptée comme faisant partie de la requête.

Lorsque la demande internationale contient la divulgation d'une ou de plusieurs *séquences de nucléotides ou d'acides aminés*, le déposant dispose de trois options suivantes.

Premièrement, le déposant peut choisir de déposer la partie réservée au listage des séquences *sous forme papier seulement*, auquel cas le nombre de feuilles doit être indiqué au point a) de la colonne de gauche du cadre n° IX (et par conséquent compris dans le nombre total de feuilles); on notera dans ce cas qu'une copie de la partie réservée au listage des séquences, sous forme déchiffrable par ordinateur, peut être remise avec la demande internationale mais seulement aux fins de la recherche internationale en vertu de la règle 13ter; dans ce cas, les cases n^{os} 9, 9.i) et, le cas échéant, 9.iii), doivent être cochées dans la colonne de droite du cadre n° IX.

Deuxièmement, le déposant peut choisir de déposer la partie réservée au listage des séquences *sous forme déchiffrable par ordinateur seulement*, en vertu de l'instruction 801.a)i), auquel cas la case b)i) doit être cochée mais l'endroit réservé au nombre de feuilles de ladite partie sous le point a) doit être laissé en blanc; le type et le nombre de supports doivent également être indiqués sur la ligne pointillée sous le point b). De plus, les cases n^{os} 9, 9.ii) et, le cas échéant, 9.iii), doivent être cochées si on joint des exemplaires supplémentaires du listage des séquences sous forme déchiffrable par ordinateur.

Troisièmement, le déposant peut choisir de déposer la partie réservée au listage des séquences *à la fois sous forme déchiffrable par ordinateur et sous forme papier*, en vertu de l'instruction 801.a)ii), auquel cas la case b)ii) doit être cochée et le nombre de feuilles de ladite partie, sous forme papier, doit être indiqué sous le point a) (bien que ce nombre de feuilles ne soit pas utilisé aux fins du calcul de la taxe de base); le type et le nombre de supports doivent également être indiqués sur la ligne pointillée sous le point b). De plus, les cases n^{os} 9, 9.ii) et, le cas échéant, 9.iii), doivent être cochées si on joint des exemplaires supplémentaires du listage des séquences sous forme déchiffrable par ordinateur.

Dans le cadre des trois options décrites ci-dessus, les listages des séquences doivent être présentés dans une partie distincte de la description ("partie de la description réservée au listage des séquences") conformément à la norme figurant dans l'annexe C des instructions administratives.

Éléments joints à la demande internationale : lorsque des éléments sont joints à la demande internationale, les cases appropriées doivent être cochées et toute indication pertinente doit être portée sur la ligne pointillée correspondante, le nombre de chacun de ces éléments devant être indiqué dans la colonne, en fin de ligne; on trouvera ci-après des explications détaillées concernant uniquement les éléments qui le nécessitent.

CADRE N° VIII.iv)

Déclaration relative à la qualité d'inventeur (règle 4.17.iv) et instruction 214) : le libellé standard pour la déclaration est pré-imprimé au cadre n° VIII.iv).

Tous les inventeurs doivent être mentionnés dans la déclaration même s'ils ne signent pas tous la même (copie de la) déclaration (instruction 214.b)). Les données bibliographiques, telles que l'adresse du domicile et la nationalité, doivent être fournies pour chaque inventeur. Dans le cas d'une déclaration incluse dans la requête, il n'est pas nécessaire que le ou les inventeurs signent ou datent la déclaration s'ils ont signé eux-mêmes dans le cadre n° X de la requête.

CADRE N° VIII.v)

Déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté (règle 4.17.v) et instruction 215) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à iv), qui s'avérerait nécessaire :

"Déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté (règles 4.17.v) et 51bis.1.a)v) :

Language of Filing of the International Application (Rules 12.1(a) and 20.4(c) and (d)): With regard to the language in which the international application is filed, for the purposes of according an international filing date, it is, subject to the following sentence, sufficient that the description and the claims are in the language, or one of the languages, accepted by the receiving Office for the filing of international applications; that language should be indicated in that check-box (as regards the language of the abstract and any text matter in the drawings, see Rules 26.3ter(a) and (b); as regards the language of the request, see Rules 12.3(c) and 26.3ter(c) and (d)). Note that where the international application is filed with the United States Patent and Trademark Office as receiving Office, all elements of the international application (request, description, claims, abstract, text matter of drawings) must, for the purposes of according an international filing date, be in English except that the free text in any sequence listing part of the description, complying with the standard set out in Annex C of the Administrative Instructions, may be in a language other than English.

BOX No. X

Signature (Rules 4.1(d), 4.15 and 90): The signature must be that of the applicant (if there are several applicants, all must sign); however, the signature may be that of the agent, or the common representative, where a separate power of attorney appointing the agent or the common representative, respectively, or a copy of a general power of attorney already in the possession of the receiving Office, is furnished. If the power is not filed with the request, the receiving Office will invite the applicant to furnish it.

If the United States of America is designated and an inventor/applicant for that State refused to sign the request or could not be found or reached after diligent effort, a statement explaining the lack of signature may be furnished. It should be noted that this applies only where there are two or more applicants and the international application has been signed by at least one other applicant. The statement must satisfy the receiving Office. If such a statement is furnished with the international application, check-box No. 5 in Box No. IX should be marked.

SUPPLEMENTAL BOX

The cases in which the Supplemental Box may be used and the manner of making indications in it are explained in the left column of that Box.

GENERAL REMARKS

Language of Correspondence (Rule 92.2 and Section 104): Any letter from the applicant to the receiving Office must be in the language of filing of the international application provided that, where the international application is to be published in the language of a translation required under Rule 12.3, such letter should be in the language of that translation; however, the receiving Office may authorize the use of another language.

Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Any letter from the applicant to the ISA must be in the same language as the international application, provided that, where a translation of the international application for the purposes of international search has been transmitted under Rule 23.1(b), such letter is in the language of that translation. However, the ISA may authorize the use of another language.

Arrangement of Elements and Numbering of Sheets of the International Application (Rule 11.7 and Section 207): The elements of the international application must be placed in the following order: the request, the description (excluding the sequence listing part, if any), the claim(s), the abstract, the drawings (if any), the sequence listing part of the description (if any).

All sheets of the description (excluding the sequence listing part), claims and abstract must be numbered in consecutive Arabic numerals, which must be placed at the top or bottom of the sheet, in the middle, but not in the margin which must remain blank. The number of each sheet of the drawings must consist of two Arabic numerals separated by an oblique stroke, the first being the sheet number and the second being the total number of sheets of drawings (for example, 1/3, 2/3, 3/3). For numbering of the sheets of the sequence listing part of the description, see Section 207.

Indication of the Applicant's or Agent's File Reference on the sheets of the description (excluding the sequence listing part, if any), claim(s), abstract, drawings and sequence listing part of the description (Rule 11.6(f)): The file reference indicated on the request may also be indicated in the left-hand corner of the top margin, within 1.5 cm from the top of any sheet of the international application.

Case n° 4 : cocher cette case si la copie d'un pouvoir général est déposée avec la demande internationale; lorsque le pouvoir général a été déposé auprès de l'office récepteur, et que celui-ci lui a attribué un numéro de référence, ce dernier peut être indiqué.

Case n° 5 : cocher cette case si une explication de l'absence de signature d'un inventeur/déposant pour les États-Unis d'Amérique est fournie conjointement avec la demande internationale (voir aussi les notes du cadre n° X).

Case n° 7 : cocher cette case si une traduction de la demande internationale aux fins de la recherche internationale (règle 12.3) est fournie conjointement avec cette demande et indiquer la langue de la traduction.

Case n° 8 : cocher cette case si, avec la demande internationale, est déposé un formulaire PCT/RO/134 rempli ou une ou plusieurs feuilles séparées comportant des indications relatives à des micro-organismes ou autre matériel biologique déposés. Si le formulaire PCT/RO/134 ou toute autre feuille comportant les indications en question figurent en tant que feuilles de la description (comme le prescrivent certains États désignés (voir le *Guide du déposant du PCT*, volume I/B, annexe L), ne pas cocher cette case (pour de plus amples renseignements, voir la règle 13*bis* et l'instruction 209).

Case n° 9 : lorsque la demande internationale contient une partie réservée au listage des séquences et qu'une copie de cette dernière, sous forme déchiffrable par ordinateur, est requise par l'administration chargée de la recherche internationale, le déposant peut fournir, conjointement avec la demande internationale, le listage en question sous forme déchiffrable par ordinateur (ainsi que la déclaration requise) à l'office récepteur. Si tel est le cas, les cases n°s 9, 9.i) et, le cas échéant, 9.iii) doivent être cochées. Lorsque le déposant a choisi la deuxième ou la troisième option mentionnée ci-dessus, et qu'un ou plusieurs exemplaires supplémentaires de la partie réservée au listage des séquences sont requis en vertu de l'instruction 804, le déposant peut remettre de tels exemplaires supplémentaires, conjointement avec la demande internationale, auquel cas les cases n°s 9, 9.ii) et, le cas échéant, 9.iii) doivent être cochées. Dans tous les cas mentionnés ci-dessus, le déposant doit indiquer le type et le nombre de disquettes, CD-ROM, CD-R ou autres supports de données qu'il a remis.

Langue de dépôt de la demande internationale (règles 12.1.a) et 20.4.c) et d)) : en ce qui concerne la langue dans laquelle la demande internationale est déposée, il suffit, aux fins de l'attribution d'une date de dépôt international, et sous réserve de la phrase suivante, que la description et les revendications soient rédigées dans la langue ou l'une des langues acceptées par l'office récepteur pour le dépôt de demandes internationales; cette langue doit être indiquée dans cette case (en ce qui concerne la langue de l'abrégé et de tout texte des dessins, voir la règle 26.3*ter.a*) et b); en ce qui concerne la langue de la requête, voir les règles 12.3.c) et 26.3*ter.c*) et d)). On notera que, lorsque la demande internationale est déposée auprès de l'Office des brevets et des marques des États-Unis d'Amérique en sa qualité d'office récepteur, tous les éléments de la demande internationale (requête, description, revendications, abrégé, texte des dessins) doivent, aux fins de l'attribution d'une date de dépôt international, être rédigés en anglais, hormis tout texte libre contenu dans la partie de la description réservée au listage des séquences conforme à la norme figurant dans l'annexe C des instructions administratives, qui peut être rédigé dans une langue autre que l'anglais.

CADRE N° X

Signature (règles 4.1.d), 4.15 et 90) : la signature doit être celle du déposant (s'il y a plusieurs déposants, tous doivent signer); il peut toutefois s'agir de la signature du mandataire ou du représentant commun, si un pouvoir distinct désignant le mandataire ou le représentant commun, respectivement, ou une

copie du pouvoir général déjà détenu par l'office récepteur est fourni. Si la requête n'est pas déposée avec le pouvoir, l'office récepteur invitera le déposant à le remettre.

Si les États-Unis d'Amérique sont désignés et qu'un déposant pour cet État qui a la qualité d'inventeur a refusé de signer la requête ou que des efforts diligents n'ont pas permis de le trouver ou d'entrer en rapport avec lui, il est possible de fournir une explication de l'absence de signature. Cela vaut uniquement lorsqu'il y a plusieurs déposants et que la demande internationale a été signée par au moins un autre déposant. L'explication doit être jugée satisfaisante par l'office récepteur. Si cette explication est remise conjointement avec la demande internationale, il y a lieu de cocher la case n° 5 du cadre n° IX.

CADRE SUPPLÉMENTAIRE

Les cas dans lesquels le cadre supplémentaire peut être utilisé et la manière de fournir les indications prévues dans ce cadre sont expliqués dans la colonne de gauche de celui-ci.

REMARQUES GÉNÉRALES

Langue de la correspondance (règle 92.2 et instruction 104) : toute lettre du déposant à l'office récepteur doit être rédigée dans la langue de dépôt de la demande internationale étant entendu que, lorsque la demande internationale doit être publiée dans la langue d'une traduction remise en vertu de la règle 12.3, cette lettre doit être rédigée dans la langue de cette traduction; l'office récepteur peut cependant autoriser l'emploi d'une autre langue.

Toute lettre du déposant au Bureau international doit être rédigée dans la même langue que la demande internationale si celle-ci est établie en français ou en anglais; sinon, elle doit être rédigée en français ou en anglais, au choix du déposant.

Toute lettre du déposant à l'administration chargée de la recherche internationale doit être rédigée dans la même langue que la demande internationale étant entendu que, lorsqu'une traduction de la demande internationale aux fins de la recherche internationale a été transmise en vertu de la règle 23.1.b), cette lettre doit être rédigée dans la langue de cette traduction. Cependant, l'administration chargée de la recherche internationale peut autoriser l'emploi d'une autre langue.

Disposition des éléments et numérotation des feuilles de la demande internationale (règle 11.7 et instruction 207) : les éléments de la demande internationale doivent être présentés dans l'ordre suivant : requête, description (sauf la partie de la description réservée au listage des séquences, le cas échéant), revendication(s), abrégé, dessins (le cas échéant), partie de la description réservée au listage des séquences, le cas échéant.

Toutes les feuilles de la description (sauf la partie réservée au listage des séquences), les revendications et l'abrégé doivent être numérotés consécutivement, en chiffres arabes qui doivent être inscrits, en milieu de ligne, en haut ou en bas de la feuille mais non dans la marge, qui doit rester vierge. Le numéro de chaque feuille des dessins doit consister en deux nombres en chiffres arabes séparés par une barre oblique, le premier indiquant le numéro de la feuille et le second le nombre total des feuilles de dessins (par exemple : 1/3, 2/3, 3/3). Pour la numérotation des feuilles de la partie de la description réservée au listage des séquences, se référer à l'instruction 207.

Indication de la référence du dossier du déposant ou du mandataire sur les feuilles de la description (sauf la partie de la description réservée au listage des séquences, le cas échéant), de la ou des revendications, de l'abrégé, des dessins et de la partie de la description réservée au listage des séquences (règle 11.6.f) : la référence de dossier indiquée sur la requête peut l'être également sur chaque feuille de la demande internationale, dans le coin gauche de la marge du haut, sans toutefois apparaître au-delà de 1,5 cm à partir du haut.

NOTES TO THE FEE CALCULATION SHEET (ANNEX TO FORM PCT/RO/101)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete the sheet by entering the appropriate amounts in the boxes provided and submit the fee calculation sheet at the time of filing the international application. This will help the receiving Office to verify the calculations and to identify any error in them.

Information about the applicable fees payable can be obtained from the receiving Office. The amounts of the international and search fees may change due to currency fluctuations. Applicants are advised to check what are the latest applicable amounts. All fees, except in some cases the designation fee, must be paid within one month from the date of receipt of the international application. See below for further details concerning the possibility of later payment of the designation fee.

CALCULATION OF PRESCRIBED FEES

Box T: Transmittal Fee for the benefit of the receiving Office (Rule 14.1): The amount of the transmittal fee, if any, is fixed by the receiving Office. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box S: Search Fee for the benefit of the International Searching Authority (ISA) (Rule 16.1): The amount of the search fee is fixed by the ISA. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex D.

Where two or more ISAs are competent, the applicant must indicate his choice in the space provided for this purpose and pay the amount of the international search fee fixed by the ISA chosen. Information on the competent ISA and whether the applicant has a choice between two or more ISAs is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box I: International Fee for the benefit of the International Bureau (Rule 15): The international fee consists of a basic fee and as many designation fees as there are specific designations under Rule 4.9(a) in Box No. V of the request. The amounts of the basic fee and of the designation fee are as set out in Swiss francs in the Schedule of Fees and the applicable amounts of those fees in other currencies are as published in the *PCT Gazette* (Rule 15.2). Information about those fees is also contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Reduction of the International Fee Where PCT-EASY Software Is Used: A fee reduction of 200 Swiss francs (or the equivalent in the currency in which the international fee is paid to the receiving Office) is available in certain cases where the PCT-EASY software is used to prepare the request, provided that the necessary conditions are met. For further details, see the *PCT Applicant's Guide*, Volume I/A, General Part, and information published in the *PCT Gazette* and the *PCT Newsletter*. Since applicants using the PCT-EASY software will file the Request Form and Fee Calculation Sheet in the form of a printout prepared using that software, no provision is made for this fee reduction in the Fee Calculation Sheet annexed to Form PCT/RO/101.

Reduction of the International Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the international fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the international fee (basic fee and

designation fees) is automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Boxes Nos. II and III of the request.

The fee reduction is available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic, CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CO Colombia, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EC Ecuador, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VN Viet Nam, YU Yugoslavia, ZA South Africa and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the International Fee (Basic Fee and Designation Fees) in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the international fee, the total to be entered at box I is 25% of the sum of the amounts entered at boxes B and D (see below).

Box B: Basic Fee. The amount of the basic fee depends on the number of sheets of the international application indicated under item (a) of Box No. IX of the request as explained below.

That number is the **Total number of sheets** where item (b) of Box No. IX of the request does not apply (that is, where the international application either does not contain a sequence listing part or where it contains such a part but not filed in computer readable form under Section 801(a)(i) or (ii)), in such a case, item "b3" must not be filled in.

Otherwise, where item (b) of Box No. IX of the request applies (that is, where the international application contains a

NOTES RELATIVES A LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/RO/101)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre au moment du dépôt de la demande internationale, ce qui permettra à l'office récepteur de vérifier les calculs et d'y déceler d'éventuelles erreurs.

Des renseignements sur le montant en vigueur des taxes à payer peuvent être obtenus auprès de l'office récepteur. Les montants de la taxe internationale et de la taxe de recherche peuvent varier en raison de fluctuations monétaires. Il est recommandé aux déposants de vérifier quels sont les tout derniers montants en vigueur. Toutes les taxes sauf, dans certains cas, la taxe de désignation doivent être payées dans un délai d'un mois à compter de la date de réception de la demande internationale. On trouvera ci-après quelques précisions supplémentaires relatives à un éventuel paiement différé de la taxe de désignation.

CALCUL DES TAXES PRESCRITES

Cadre T : Taxe de transmission au profit de l'office récepteur (règle 14.1) : l'office récepteur fixe le montant de la taxe de transmission, s'il y en a une. Celui-ci doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT*, volume I/B, annexe C.

Cadre S : Taxe de recherche au profit de l'administration chargée de la recherche internationale (règle 16.1) : le montant de la taxe de recherche est fixé par l'administration chargée de la recherche internationale. Il doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT*, volume I/B, annexe D.

Lorsque plusieurs administrations chargées de la recherche internationale sont compétentes, le déposant doit indiquer son choix à l'emplacement prévu à cet effet et payer le montant de la taxe de recherche internationale fixé par l'administration qu'il a choisie. Le *Guide du déposant du PCT*, volume I/B, annexe C, donne des renseignements sur l'administration chargée de la recherche internationale qui est compétente et sur la question de savoir si le déposant a le choix entre plusieurs administrations chargées de la recherche internationale.

Cadre I : Taxe internationale au profit du Bureau international (règle 15) : la taxe internationale comprend une taxe de base et autant de taxes de désignation qu'il y a de désignations faites expressément selon la règle 4.9.a) dans le cadre n° V de la requête. Les montants de la taxe de base et de la taxe de désignation sont fixés en francs suisses dans le barème des taxes et les montants correspondants de ces taxes dans d'autres monnaies sont publiés dans la *Gazette du PCT* (règle 15.2). On peut trouver des renseignements sur ces taxes dans le *Guide du déposant du PCT*, volume I/B, annexe C.

Réduction de la taxe internationale dans le cas de l'utilisation du logiciel PCT-EASY : une réduction de 200 francs suisses (ou l'équivalent dans la monnaie dans laquelle la taxe internationale est payée à l'office récepteur) peut être obtenue dans certains cas où le logiciel PCT-EASY est utilisé pour la préparation de la requête, à condition que les conditions nécessaires soient remplies. On peut trouver des précisions sur cette réduction dans le *Guide du déposant du PCT*, volume I/A, partie générale, ainsi que dans les informations publiées dans la *Gazette du PCT* et le bulletin *PCT Newsletter*. Étant donné que les déposants qui utilisent le logiciel PCT-EASY déposeront le formulaire de requête et la feuille de calcul des taxes sous la forme d'un imprimé produit par ordinateur à l'aide de ce logiciel, la feuille de calcul des taxes annexée au formulaire PCT/RO/101 ne prévoit pas cette réduction de taxe.

Réduction de la taxe internationale pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75 % de certaines taxes du PCT, dont la taxe internationale. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe internationale (taxe de base et taxe de désignation) s'applique automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans les cadres n°s II et III de la requête.

La réduction de la taxe s'applique même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus, BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CO Colombie, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EC Équateur, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud et ZW Zimbabwe. En ce qui concerne d'autres États, il convient de s'adresser au Bureau international.

sequence listing part which is filed in computer readable form only, under Section 801(a)(i), or both in that form and in paper form under Section 801(a)(ii)), the number of sheets to be used for the purpose of calculating the amount of the basic fee is the **Sub-total number of sheets**. In such a case, item "b3" must be filled in on the basis that the sequence listing part in computer readable form is considered to be equal to 400 sheets (see Section 803).

The basic fee must be paid within one month from the date of receipt of the international application by the receiving Office.

Box D: Designation Fees. Subject to what is said below, the number of designation fees due corresponds to the number of check-boxes marked in Box No. V of the request.

The number of designation fees which are due is the same as the number of national patents and regional patents in respect of which specific designations under Rule 4.9(a) are made. Only one designation fee is due for the designation AP, the designation EA, the designation EP or the designation OA, irrespective of the number of States for which an ARIPO patent, a Eurasian patent, a European patent or an OAPI patent, respectively, is sought.

Where any States are designated twice (once for the purposes of an ARIPO patent, a Eurasian patent or a European patent and once for the purposes of national protection), the applicant must pay one designation fee in respect of the ARIPO patent, the Eurasian patent or the European patent and a further designation fee in respect of each national patent or other title of protection sought (Rule 15.1(ii) and Section 210).

Any designation, in excess of six designations for which the fee is due, is free of charge. Therefore, the maximum amount to be indicated in box D is six times the amount of the designation fee. If, for example, 15 national patents and four regional patents (an ARIPO patent, a Eurasian patent, a European patent and an OAPI patent) are sought (totalling 19 designations), the figure to be indicated in box D is six times the amount of the designation fee.

The designation fees must be paid within one month from the date of receipt of the international application by the receiving Office or one year from the priority date, whichever time limit expires later.

Box P: Fee for Priority Document (Rule 17.1(b)): Where the applicant has requested, by marking the applicable check-box in Box No. VI of the request, that the receiving Office prepare and transmit to the International Bureau a certified copy of the earlier application the priority of which is claimed, the amount of the fee prescribed by the receiving Office for such service may be entered (for information, see the *PCT Applicant's Guide*, Volume I/B, Annex C).

If that fee is not paid at the latest before the expiration of 16 months from the priority date, the receiving Office may consider the request under Rule 17.1(b) as not having been made.

Total Box: The total of the amounts entered in boxes T, S, I and P should be entered in this box. If the applicant so wishes, the currency in which the fees are paid may be indicated next to or in the total box.

Later Payment of Designation Fees: Where the time limit of one year from the priority date expires later than one month from the date of receipt of the international application by the receiving Office, and the applicant wishes to delay the payment of the designation fees, it is recommended that the corresponding check-box be marked.

MODE OF PAYMENT

In order to help the receiving Office identify the mode of payment of the prescribed fees, it is recommended that the applicable check-box(es) be marked.

AUTHORIZATION TO CHARGE (OR CREDIT) DEPOSIT ACCOUNT

The receiving Office will not charge (or credit) fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

Calcul de la taxe internationale (taxe de base et taxes de désignation) en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe internationale, la somme devant figurer sous I est égale à 25 % de la somme des montants figurant sous B et D (voir ci-dessous).

Cadre B : Taxe de base. Le montant de la taxe de base est fonction du nombre de feuilles de la demande internationale indiqué au point a) du cadre n° IX de la requête comme expliqué ci-dessous.

Ce nombre est le **nombre total de feuilles** lorsque le point b) du cadre n° IX de la requête ne s'applique pas (c'est-à-dire, si la demande internationale ne contient pas une partie réservée au listage des séquences ou qu'elle contient une telle partie mais que cette dernière n'est pas déposée sous forme déchiffrable par ordinateur en vertu de l'instruction 801.a)ii) ou ii)), dans ce cas, le point "b3" ne doit pas être rempli.

Sinon, lorsque le point b) du cadre n° IX de la requête s'applique (c'est-à-dire, si la demande internationale contient une partie réservée au listage des séquences qui est déposée sous forme déchiffrable par ordinateur seulement, en vertu de l'instruction 801.a)i), ou à la fois sous cette forme et sous forme papier en vertu de l'instruction 801.a)ii), le nombre de feuilles à utiliser pour le calcul du montant de la taxe de base est le **sous-total des feuilles**. Dans un tel cas, le point "b3" doit être rempli étant entendu que la partie réservée au listage des séquences sous forme déchiffrable par ordinateur est considérée comporter 400 pages (voir l'instruction 803).

La taxe de base doit être payée dans un délai d'un mois à compter de la date de réception de la demande internationale par l'office récepteur.

Cadre D : Taxes de désignation. Sous réserve de ce qui suit, le nombre des taxes de désignation dues correspond au nombre de cases cochées dans le cadre n° V de la requête.

Sont dues autant de taxes de désignation qu'il y a de brevets nationaux et de brevets régionaux pour lesquels une désignation expresse a été faite en vertu de la règle 4.9.a). Une seule taxe de désignation est due pour la désignation AP, la désignation EA, la désignation EP ou la désignation OA, quel que soit le nombre d'États pour lesquels un brevet ARIPO, un brevet eurasienn, un brevet européen ou un brevet OAPI, respectivement, est demandé.

Si un ou plusieurs États sont désignés deux fois (une fois aux fins d'un brevet ARIPO, d'un brevet eurasienn ou d'un brevet européen et une fois aux fins d'une protection nationale), le déposant doit payer une taxe de désignation pour le brevet ARIPO, le brevet eurasienn ou le brevet européen et une autre taxe de désignation pour chaque brevet ou autre titre de protection national demandé (règle 15.1.ii) et instruction 210).

Toute désignation faite au-delà de six désignations soumises à la taxe est gratuite. Le montant maximum à indiquer dans le cadre D est donc de six fois le montant de la taxe de désignation. Si, par exemple, 15 brevets nationaux et quatre brevets régionaux (un brevet ARIPO, un brevet eurasienn, un brevet européen et un brevet OAPI) sont demandés (soit un total de 19 désignations), la somme à indiquer dans le cadre D est de six fois le montant de la taxe de désignation.

Les taxes de désignation doivent être payées dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale ou d'un an à compter de la date de priorité, le délai applicable étant celui des deux qui arrive à expiration le plus tard.

Cadre P : Taxe afférente au document de priorité (règle 17.1.b)) : si, en cochant la case appropriée dans le cadre n° VI de la requête, le déposant a demandé que l'office récepteur prépare et transmette au Bureau international une copie certifiée conforme de la demande antérieure dont la priorité est revendiquée, il peut indiquer le montant de la taxe prescrite par l'office récepteur pour ce service (pour information, voir le *Guide du déposant du PCT*, volume I/B, annexe C).

Si cette taxe n'est pas payée au plus tard avant l'expiration d'un délai de 16 mois à compter de la date de priorité, l'office récepteur peut considérer la requête selon la règle 17.1.b) comme n'ayant pas été présentée.

Total : le total des montants inscrits dans les cadres T, S, I et P doit être porté dans ce cadre. Le déposant peut, s'il le souhaite, indiquer à proximité ou à l'intérieur du cadre "Total" la monnaie dans laquelle il paie les taxes.

Paiement différé des taxes de désignation : si le délai d'un an à compter de la date de priorité arrive à expiration plus d'un mois après la date à laquelle l'office récepteur reçoit la demande internationale, et que le déposant souhaite différer le paiement des taxes de désignation, il est recommandé de cocher la case appropriée.

MODE DE PAIEMENT

Pour aider l'office récepteur à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

L'office récepteur ne débitera ou ne créditera un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.

NOTES TO THE DEMAND FORM (PCT/IPEA/401)

These Notes are intended to facilitate the filling in of the demand form and to give some information concerning international preliminary examination under Chapter II of the Patent Cooperation Treaty (PCT). For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the PCT, the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the demand form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with dark ink (Rules 11.9(a) and (b) and 11.14).

The demand form and these Notes may be downloaded from WIPO's Website at the address given above.

IMPORTANT GENERAL INFORMATION

Who May File a Demand? (Article 31(2)(a) and Rule 54):

A demand (for international preliminary examination) may only be filed by an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II of the PCT; furthermore, the international application must have been filed with a receiving Office of, or acting for, a State bound by Chapter II. Where there are two or more applicants (for the same or different elected States) at least one of them must qualify.

Where Must the Demand Be Filed? (Article 31(6)(a)):

The demand must be filed with a competent International Preliminary Examining Authority (IPEA). The receiving Office with which the international application was filed will, upon request, give information about the competent IPEA (or see the *PCT Applicant's Guide*, Volume I/B, Annex C). If several IPEAs are competent, the applicant has the choice and the demand must be filed with (and the fees must be paid to) the IPEA chosen by the applicant. The IPEA chosen by the applicant may be identified, preferably by an indication of the name or two-letter code of the IPEA, at the top of the first sheet of the demand in the space provided for that purpose.

When Must the Demand Be Filed? (Article 39(1)): The demand must be filed before the expiration of *19 months from the priority date* in order to extend the time limit for entering the national phase of the PCT procedure from 20 to 30 months from the priority date. *Warning:* if the demand is filed later, the national phase will not be delayed in respect of the elected States and the applicant must enter the national phase before the expiration of the time limit applicable under Article 22 (which is usually 20 months from the priority date).

In Which Language Must the Demand Be Filed?

(Rule 55.1): The demand must be filed in the language in which international preliminary examination will be carried out (see Notes to Box No. IV).

What is the Language of Correspondence? (Rules 66.9

and 92.2 and Section 104): Any letter from the applicant to the IPEA must be in the same language as the international application to which it relates. However, where the international preliminary examination will be carried out on the basis of a translation (see Notes to Box No. IV), any letter from the applicant to the IPEA must be in the language of the translation. The IPEA may authorize the use of other languages for letters which do not contain or relate to amendments of the international application. Any letter from the applicant to the International Bureau must be in English or French, at the choice of the applicant. However, if the language of the international application is English, the letter must be in English; if the language of the international application is French, the letter must be in French.

Which Fees Must Be Paid and When? (Rules 57 and 58):

Two fees are due in respect of the international preliminary examination: the preliminary examination fee and the handling fee. Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The Fee Calculation Sheet should be used for that purpose. For details concerning the payment of the fees, see the Notes to that Sheet.

BOX No. I

Applicant's or Agent's File Reference: A file reference may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded (Section 109).

Identification of the International Application

(Rule 53.6): The international application number must be indicated in Box No. I. Where the demand is filed at a time when the international application number has not yet been notified by the receiving Office, the name of that Office must be indicated instead of the international application number.

International Filing Date and (Earliest) Priority Date

(Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for each of the number of the day, the number of the month and the last two digits of the year, in that order, and separated by periods, slants or hyphens, for example, "20 March 2001 (20.03.01)", "20 March 2001 (20/03/01)" or "20 March 2001 (20-03-01)". Where the international application claims the priority of several earlier applications, the filing date of the earliest application whose priority is claimed must be indicated as the priority date.

Title of the Invention: If a new title has been established by the International Searching Authority, that title must be indicated in Box No. I.

BOX No. II

Applicant(s) (Rule 53.4): All the applicants for the elected States must be indicated in the demand; an applicant named in the request (Form PCT/RO/101) for a State which is not elected need not be named in the demand. It should be noted that the persons named as "inventor only" in the request need not be named in the demand.

Make in Box No. II of the demand the required indications as appearing in Boxes Nos. II and III of the request. The Notes to the request apply *mutatis mutandis*. If there are two or more applicants for the States elected in the demand, give the required indications for each of them; if there are more than

Où la demande d'examen préliminaire international doit-elle être présentée ? (article 31.6a)) : la demande d'examen préliminaire international doit être présentée à une administration chargée de l'examen préliminaire international (IPEA) compétente. L'office récepteur auprès duquel la demande internationale a été déposée donnera, sur demande, des renseignements au sujet de l'administration chargée de l'examen préliminaire international qui est compétente (voir aussi le *Guide du déposant du PCT*, volume I/B, annexe C). Si plusieurs administrations chargées de l'examen préliminaire international sont compétentes, le déposant doit présenter la demande d'examen préliminaire international à l'administration de son choix (et lui payer les taxes). Cette administration peut être indiquée, de préférence au moyen de son nom ou de son code à deux lettres, en haut de la première feuille de la demande d'examen préliminaire international, dans l'espace prévu à cet effet.

Quand la demande d'examen préliminaire international doit-elle être présentée ? (article 39.1)) : la demande d'examen préliminaire international doit être présentée avant l'expiration d'un délai de 19 mois à compter de la date de priorité pour que le délai d'ouverture de la phase nationale de la procédure selon le PCT puisse passer, en ce qui concerne les États élus, de 20 à 30 mois à compter de la date de priorité. *Important* : si la demande d'examen préliminaire international est présentée plus tard, la phase nationale ne sera pas différée et le déposant devra l'aborder avant l'expiration du délai applicable en vertu de l'article 22 (qui est habituellement de 20 mois à compter de la date de priorité).

En quelle langue la demande d'examen préliminaire international doit-elle être présentée ? (règle 55.1) : la demande d'examen doit être présentée dans la langue dans laquelle l'examen préliminaire international sera effectué (voir les notes relatives au cadre n° IV).

Quelle est la langue à utiliser dans la correspondance ? (règles 66.9 et 92.2 et instruction 104) : toute lettre adressée par le déposant à l'administration chargée de l'examen préliminaire international doit être rédigée dans la même langue que la demande internationale qu'elle concerne. Cependant, lorsque l'examen préliminaire international doit être effectué sur la base d'une traduction (voir les notes relatives au cadre n° IV), toute lettre adressée par le déposant à l'administration chargée de cet examen doit être rédigée dans la langue de la traduction. L'administration chargée de l'examen peut autoriser l'utilisation d'autres langues pour des lettres qui ne contiennent pas de modifications de la demande internationale ou qui ne se rapportent pas à des modifications. Toute lettre adressée par le déposant au Bureau international doit être rédigée en anglais ou en français, au choix du déposant. Toutefois, si la langue de la demande internationale est l'anglais, la lettre doit être rédigée en anglais; si la langue de la demande internationale est le français, la lettre doit être rédigée en français.

Quelles taxes doivent être payées et quand ? (règles 57 et 58) : l'examen préliminaire international donne lieu au paiement de deux taxes : la taxe d'examen préliminaire et la taxe de traitement. Ces deux taxes doivent être acquittées auprès de l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date de présentation de la demande d'examen. La feuille de calcul des taxes devrait être utilisée à cette fin. Pour de plus amples renseignements concernant le paiement des taxes, voir les notes relatives à cette feuille.

CADRE N° I

Référence du dossier du déposant ou du mandataire : il est possible d'indiquer, à titre facultatif, une telle référence de dossier. Celle-ci ne devrait pas dépasser 12 caractères. L'administration chargée de l'examen préliminaire international peut ne pas tenir compte des caractères en sus du douzième (instruction 109).

Identification de la demande internationale (règle 53.6) : le numéro de la demande internationale doit être indiqué dans le cadre n° I. Si la demande d'examen préliminaire international est présentée alors même que le numéro de la demande internationale n'a pas encore été notifié par l'office récepteur, le nom de cet office doit être indiqué en lieu et place du numéro de la demande internationale.

three applicants, make the required indications on the “Continuation Sheet”.

If different applicants are indicated in the request for different designated States, indicate in Box No. II of the demand only the applicants for the States elected in Box No. V (no indication of the States for which a person is applicant need be made, because those indications have been made in the request).

Applicant’s registration number with the Office (Rule 53.4): Where the applicant is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the applicant is so registered.

BOX No. III

Agent or Common Representative (Rules 53.5, 90.1 and 90.2): Mark the applicable check-boxes to indicate *first* whether the person named in this Box is agent or common representative, *then* whether that person *has been appointed earlier* (i.e., during the procedure under Chapter I), or *is appointed in the demand* and any earlier appointment of another person is revoked, or *is appointed specifically for the procedure before the IPEA* (without revocation of any earlier appointment), in addition to the person(s) appointed earlier.

Where an additional person is appointed specifically for the procedure before the IPEA, all notifications issued by the IPEA will be addressed only to that additional person.

A separate power of attorney must be filed with the IPEA, the International Bureau or the receiving Office, if the person appointed at the time the demand is filed (i.e., was not appointed earlier) signs the demand on behalf of the applicant (Rule 90.4).

Agent’s registration number with the Office (Rule 53.5): Where the agent is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. III will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address may be indicated in Box No. III instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. III must be marked (that is, the last check-box must not be marked if either of the check-boxes “agent” or “common representative” in Box No. III has been marked).

BOX No. IV

Statement Concerning Amendments (Rules 53.2(a)(v), 53.9, 62, 66.1 and 69.1): The international preliminary examination will start on the basis of the international application

as filed or, if amendments have been filed, as amended. Mark the appropriate check-box(es) to enable the IPEA to determine when and on what basis it can start international preliminary examination.

Mark the corresponding check-box(es) under No. 1 where the international preliminary examination should start on the basis of the international application as originally filed or where amendments are to be taken into account, as the case may be. Where amendments are to be taken into account, the applicant must submit *with the demand* a copy of amendments to the claims under Article 19 (Rule 53.9(a)(i)) and/or the amendments of the international application under Article 34 (Rule 53.9(c)), as the case may be. If a check-box is marked but the demand is not accompanied by the documents referred to, the start of international preliminary examination will be delayed until the IPEA receives them.

Mark check-box No. 2 if amendments of the claims under Article 19 have been filed with the International Bureau during the Chapter I procedure, but the applicant does not want these amendments to be taken into account for the purpose of international preliminary examination when the latter starts (Rule 53.9(a)(ii)).

Mark check-box No. 3 where the time limit for filing amendments of the claims under Article 19 has not expired at the time the demand is filed and the applicant wants to keep the option for the filing of such amendments open; the IPEA is thus requested to postpone the start of international preliminary examination (Rules 53.9(b) and 69.1(d)). It should be noted that the examination will start in any event after the expiration of 20 months from the priority date even where the time limit for filing amendments has not yet expired or no amendments have been received by the IPEA.

If no check-box is marked, refer to the footnote at the bottom of the Box.

Language for the Purposes of International Preliminary Examination (Rule 55.2): Where neither the language in which the international application is filed nor the language in which the international application is published is accepted by the IPEA that is to carry out the international preliminary examination, the applicant must furnish with the demand a translation of the international application into a language which is both a language accepted by that Authority and a language of publication.

Where such translation has already been furnished to the International Searching Authority for the purposes of carrying out international search and the IPEA is part of the same Office or intergovernmental organization as the International Searching Authority, the applicant need not furnish another translation. In such a case the international preliminary examination is carried out on the basis of the translation furnished for the purposes of international search.

The language for the purposes of international preliminary examination should be indicated in Box No. IV, on the dotted line, and the corresponding check-box should be marked.

Language of Amendments (Rules 55.3 and 66.9): Amendments and letters relating thereto must be in the same language as that in which the international preliminary examination is carried out, as explained in the preceding paragraphs.

Date du dépôt international et date de priorité (la plus ancienne) (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples "20 mars 2001 (20.03.01)", "20 mars 2001 (20/03/01)" ou "20 mars 2001 (20-03-01)". Lorsque la demande internationale revendique la priorité de plusieurs demandes antérieures, la date de dépôt de la plus ancienne demande dont la priorité est revendiquée doit être indiquée en tant que date de priorité.

Titre de l'invention : si l'administration chargée de la recherche internationale a établi un nouveau titre, celui-ci doit être indiqué dans le cadre n° I.

CADRE N° II

Déposant(s) (règle 53.4) : tous les déposants qui ont cette qualité pour les États élus doivent être mentionnés dans la demande d'examen préliminaire international; un déposant mentionné dans la requête (formulaire PCT/RO/101) pour un État qui n'est pas élu n'a pas à être mentionné dans la demande d'examen préliminaire international. Il est à noter que les personnes mentionnées dans la requête comme "inventeur seulement" n'ont pas non plus à être mentionnées dans la demande d'examen préliminaire international.

Reprendre dans le cadre n° II de la demande d'examen préliminaire international les indications requises figurant dans les cadres n°s II et III de la requête. Les notes relatives à la requête s'appliquent *mutatis mutandis*. S'il y a pluralité de déposants pour les États élus dans la demande d'examen préliminaire international, fournir les indications requises sur chacun d'eux; si ces déposants sont plus de trois, porter les indications en question sur une "feuille annexe".

Si, dans la requête, des déposants différents sont indiqués pour différents États désignés, n'indiquer dans le cadre n° II de la demande d'examen préliminaire international que les déposants ayant cette qualité pour les États élus dans le cadre n° V (il n'y a pas lieu d'indiquer les États pour lesquels une personne est mentionnée comme déposant, car ces indications ont été fournies dans la requête).

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 53.4) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

CADRE N° III

Mandataire ou représentant commun (règles 53.5, 90.1 et 90.2) : cocher les cases appropriées afin d'indiquer, *premièrement*, si la personne indiquée dans le cadre n° III est mandataire ou représentant commun, *deuxièmement*, si cette personne a été désignée à une date antérieure (c'est-à-dire au cours de la procédure prévue au chapitre I), est désignée dans la demande d'examen préliminaire internationale (toute désignation antérieure d'une autre personne étant révoquée) ou est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international (sans qu'il y ait révocation d'une désignation antérieure) en sus de la ou des personnes désignées antérieurement.

Lorsqu'une personne supplémentaire est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international, toute la correspondance émanant de cette administration sera adressée seulement à cette personne supplémentaire.

Un pouvoir distinct doit être déposé auprès de l'administration chargée de l'examen préliminaire international, du Bureau international ou de l'office récepteur si la personne qui est désignée au moment de la présentation de la demande d'examen préliminaire international (et qui n'a donc pas été désignée antérieurement) signe cette demande d'examen au nom du déposant (règle 90.4).

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 53.5) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° III sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, il est possible d'indiquer cette adresse dans le cadre n° III, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas et seulement dans ce cas qu'il y a lieu de cocher la dernière case du cadre n° III (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° IV

Déclaration concernant les modifications (règles 53.2.a)v), 53.9, 62, 66.1 et 69.1) : l'examen préliminaire international commencera sur la base de la demande internationale telle qu'elle a été déposée ou, si des modifications ont été déposées, telle qu'elle a été modifiée. Cocher la ou les cases appropriées pour permettre à l'administration chargée de l'examen préliminaire international de déterminer si elle peut commencer l'examen préliminaire international et sur quelle base.

Cocher la ou les cases appropriées de la rubrique n° 1 pour indiquer si l'examen préliminaire international doit commencer sur la base de la demande internationale telle qu'elle a été déposée ou s'il doit être tenu compte de modifications, selon le cas. S'il y a des modifications à prendre en compte, le déposant doit présenter avec la demande d'examen une copie des modifications apportées aux revendications en vertu de l'article 19 (règle 53.9.a)i) ou des modifications apportées à la demande internationale en vertu de l'article 34 (règle 53.9.c)), ou une copie des deux types de modifications, selon le cas. Si une case est cochée et que les documents correspondants ne sont pas joints à la demande

Time Limit for Furnishing Translation of the International Application (Rule 55.2): Any required translation of the international application should be furnished (by the applicant) together with the demand. If it is not so furnished, the IPEA will invite the applicant to furnish it within a time limit which shall not be less than one month from the date of the invitation. That time limit may be extended by the IPEA.

BOX No. V

Election of States (Rule 53.7): Only States which are bound by Chapter II of the PCT *and* which have been designated in the international application (that is, States whose designations have been made under Rule 4.9(a), confirmed under Rule 4.9(c) or considered as having been made under Rule 32.2(a)(i)) can be elected. They are the “eligible States”.

For the convenience and protection of applicants, Box No. V contains a statement to the effect that all eligible States are elected. It is only where the applicant does not wish to elect certain eligible States that the name(s) or two-letter code(s) of those States must be indicated after the words “wishes not to elect:”.

The indication in the demand of the kind of protection or treatment desired for any elected State is not required since it follows the indication made when designating that State in the international application.

BOX No. VI

Check List: It is recommended that this Box be filled in carefully in order for the IPEA to determine as soon as possible whether it is in possession of the documents on the basis of which the applicant wishes international preliminary examination to start.

Where the international application contains disclosure of one or more nucleotide and/or amino acid sequences, and a copy of the sequence listing in computer readable form complying with the standard provided for in the Administrative Instructions is required by the IPEA, the applicant may furnish the listing in computer readable form to the IPEA with the demand. If this is the case, check-box No. 5 must be marked.

BOX No. VII

Signature (Rules 53.8, 90.3(a) and 90.4(a)): The demand must be signed by the applicant or by his agent; if there are two or more applicants, the common representative may sign the demand. If the demand is not signed by (all) the persons who are applicants for the elected States (a person who is applicant only for a State which is not elected need not sign the demand), a power of attorney signed by that (all those) applicant(s) must be filed with the IPEA, with the International Bureau or with the receiving Office unless the agent has previously been appointed.

d'examen préliminaire international, le commencement de cet examen sera différé jusqu'à ce que l'administration qui en est chargée les reçoive.

Cocher la case n° 2 si des modifications apportées aux revendications en vertu de l'article 19 ont été déposées auprès du Bureau international lors de la procédure prévue au chapitre I, et que le déposant ne veut pas qu'il en soit tenu compte aux fins de l'examen préliminaire international lorsque celui-ci commencera (règle 53.9.a)ii).

Cocher la case n° 3 si le délai fixé pour le dépôt de modifications des revendications en vertu de l'article 19 n'a pas expiré au moment où la demande d'examen préliminaire international est présentée et que le déposant veut conserver la possibilité de déposer de telles modifications; il est ainsi demandé à l'administration chargée de l'examen préliminaire international de différer le commencement de cet examen (règles 53.9.b) et 69.1.d)). Il est à noter que l'examen commencera, en tout état de cause, après l'expiration d'un délai de 20 mois à compter de la date de priorité, même si le délai pour déposer des modifications n'a pas expiré ou que l'administration chargée de l'examen préliminaire international n'a reçu aucune modification.

Si aucune case n'est cochée, la procédure décrite dans la note figurant au bas du cadre sera suivie.

Langue aux fins de l'examen préliminaire international (règle 55.2) : lorsque ni la langue dans laquelle la demande internationale est déposée ni la langue dans laquelle elle est publiée n'est acceptée par l'administration chargée de l'examen préliminaire international qui effectuera cet examen, le déposant doit remettre avec la demande d'examen préliminaire international une traduction de la demande internationale dans une langue qui est à la fois une langue acceptée par cette administration et une langue de publication.

Lorsqu'une traduction répondant à ces critères a déjà été remise à l'administration chargée de la recherche internationale pour les besoins de cette recherche et que l'administration chargée de l'examen préliminaire international fait partie du même office ou de la même organisation intergouvernementale que l'administration chargée de la recherche internationale, il n'est pas nécessaire pour le déposant de remettre une autre traduction. Dans ce cas, l'examen préliminaire international est effectué sur la base de la traduction remise aux fins de la recherche internationale.

La langue dans laquelle sera effectué l'examen préliminaire international doit être indiquée dans le cadre n° IV sur la ligne pointillée, et la case appropriée la concernant doit être cochée.

Langue des modifications (règles 55.3 et 66.9) : les modifications et les lettres qui s'y rapportent doivent être rédigées dans la langue dans laquelle l'examen préliminaire international sera effectué, comme il est expliqué aux paragraphes précédents.

Délai imparti pour remettre une traduction de la demande internationale (règle 55.2) : toute traduction de la demande internationale qui est exigée doit être remise (par le déposant) en même temps que la demande d'examen préliminaire international. Si la traduction n'est pas remise en

même temps, l'administration chargée de l'examen préliminaire international invitera le déposant à remettre cette traduction dans un délai qui sera d'au moins un mois à compter de la date de l'invitation. Ce délai peut être prorogé par l'administration chargée de l'examen préliminaire international.

CADRE N° V

Élection d'États (règle 53.7) : seuls peuvent être élus les États qui sont liés par le chapitre II du PCT *et* qui ont été désignés dans la demande internationale (c'est-à-dire qui ont fait l'objet de désignations faites en vertu de la règle 4.9.a), confirmées en vertu de la règle 4.9.c) ou considérées comme ayant été faites, en vertu de la règle 32.2.a)i)). Ces États sont les "États éligibles".

Pour faciliter la tâche des déposants et les protéger, le cadre n° V contient une déclaration selon laquelle tous les États éligibles sont élus. Ce n'est que si le déposant ne souhaite pas élire certains États éligibles qu'il doit indiquer le nom ou le code à deux lettres de ces États après les mots "souhaite ne pas élire :".

Il n'est pas nécessaire d'indiquer dans la demande d'examen préliminaire international quelle forme de protection ou de traitement est souhaitée pour tel ou tel État élu puisque les indications portées dans la demande internationale lors de la désignation de cet État restent valables.

CADRE N° VI

Bordereau : il est recommandé de remplir soigneusement ce cadre pour que l'administration chargée de l'examen préliminaire international puisse déterminer le plus rapidement possible si elle est en possession de la ou des modifications ou de la ou des lettres sur la base desquelles le déposant souhaite que l'examen préliminaire international commence.

Lorsque la demande internationale contient la divulgation d'une ou plusieurs séquences de nucléotides ou d'acides aminés, et qu'une copie du listage des séquences sous forme déchiffrable par ordinateur, conforme à la norme figurant dans les instructions administratives, est requise par l'administration chargée de l'examen préliminaire international, le déposant peut fournir à cette administration, conjointement avec la demande d'examen préliminaire international, le listage en question sous une forme déchiffrable par ordinateur. S'il le fait, la case n° 5 doit être cochée.

CADRE N° VII

Signature (règles 53.8, 90.3.a) et 90.4.a)) : la demande d'examen préliminaire international doit être signée par le déposant ou par son mandataire; s'il y a plusieurs déposants, elle peut l'être par le représentant commun. Si elle n'est pas signée par une ou plusieurs personnes qui ont la qualité de déposant pour les États élus (une personne qui est déposant seulement pour un État non élu n'a pas besoin de signer la demande d'examen préliminaire international), un pouvoir signé par ces personnes doit être déposé auprès du Bureau international, de l'office récepteur ou de l'administration chargée de l'examen préliminaire international, sauf si le mandataire a été désigné à une date antérieure.

NOTES TO THE FEE CALCULATION SHEET (ANNEX TO FORM PCT/IPEA/401)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete, by entering the appropriate amounts in the boxes provided, and submit the fee calculation sheet at the time of filing of the demand. This will help the International Preliminary Examining Authority (IPEA) to verify the calculations and to identify any error in them.

CALCULATION OF PRESCRIBED FEES

Two fees must be paid for international preliminary examination:

- (i) the preliminary examination fee for the benefit of the IPEA (Rule 58.1);
- (ii) the handling fee for the benefit of the International Bureau (Rule 57).

Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The amount payable is the amount applicable on the date of submittal (Rules 57.3 and 58.1(b)). The fees must be paid in a currency acceptable to the IPEA.

Information about the amount of those fees or about equivalent amounts in other currencies can be obtained from the IPEA or the receiving Office. This information is also published in the *PCT Applicant's Guide*, Volume I/B, Annex E, and from time to time in Section IV of the *PCT Gazette*.

Box P: The amount of the preliminary examination fee must be entered in Box P.

Box H: The amount of the handling fee must be entered in Box H.

Reduction of the Handling Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the handling fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the handling fee will be automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Box No. II of the demand.

The fee reduction will be available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil,

BY Belarus, BZ Belize, CF Central African Republic, CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CO Colombia, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EC Ecuador, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VN Viet Nam, YU Yugoslavia, ZA South Africa and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the Handling Fee in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the handling fee, the total to be entered at Box H is 25% of the handling fee.

Total Box: The total of the amounts inserted in Boxes P and H is the amount which must be paid to the IPEA.

MODE OF PAYMENT

In order to help the IPEA identify the mode of payment of the prescribed fees, it is recommended to mark the applicable check-box(es).

AUTHORIZATION TO CHARGE (OR CREDIT) DEPOSIT ACCOUNT

The applicant should check whether the IPEA allows the use of deposit accounts for payment of PCT fees. In addition, it is recommended that the applicant check what are the specific conditions applicable to the use of deposit accounts with the IPEA since not all IPEAs provide the same services.

Finally, if the IPEA is not the same national Office or intergovernmental organization as that with which the international application was filed, the deposit account with the receiving Office cannot be charged for the purpose of paying the preliminary examination and handling fees due to the IPEA.

The IPEA will not charge fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

NOTES RELATIVES À LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/IPEA/401)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre à la demande d'examen préliminaire international. Cela aidera l'administration chargée de l'examen préliminaire international (IPEA) à vérifier les calculs et à y déceler d'éventuelles erreurs.

CALCUL DES TAXES PRESCRITES

L'examen préliminaire international donne lieu au paiement de deux taxes :

- i) la taxe d'examen préliminaire, au profit de l'administration chargée de l'examen préliminaire international (règle 58.1);
- ii) la taxe de traitement, au profit du Bureau international (règle 57).

Ces deux taxes doivent être payées à l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date à laquelle la demande d'examen préliminaire international est présentée. Le montant dû est le montant applicable à la date de présentation de cette demande d'examen (règles 57.3 et 58.1.b)). Les taxes doivent être payées dans une monnaie que l'administration chargée de l'examen préliminaire international accepte.

Des renseignements au sujet du montant de ces taxes ou de leur contre-valeur en d'autres monnaies peuvent être obtenus auprès de l'administration chargée de l'examen préliminaire international ou de l'office récepteur. Ces renseignements figurent également dans le *Guide du déposant du PCT*, volume I/B, annexe E, et sont aussi publiés périodiquement dans la section IV de la *Gazette du PCT*.

Cadre P : le montant de la taxe d'examen préliminaire doit être inscrit dans le cadre P.

Cadre H : le montant de la taxe de traitement doit être inscrit dans le cadre H.

Réduction de la taxe de traitement pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75% de certaines taxes du PCT, dont la taxe de traitement. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe de traitement s'appliquera automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans le cadre n° II de la demande d'examen préliminaire international.

La réduction de la taxe s'appliquera même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus,

BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CO Colombie, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EC Équateur, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud et ZW Zimbabwe. En ce qui concerne d'autres États, il conviendra de s'adresser au Bureau international.

Calcul de la taxe de traitement en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe de traitement, le montant devant figurer dans le cadre H est égal à 25% de la taxe de traitement.

Total : le total des montants inscrits dans les cadres P et H représente la somme à verser à l'administration chargée de l'examen préliminaire international.

MODE DE PAIEMENT

Pour aider l'administration chargée de l'examen préliminaire international à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

Le déposant devrait s'assurer que l'administration chargée de l'examen préliminaire international permet l'utilisation de comptes de dépôt pour le paiement des taxes du PCT. En outre, il est recommandé qu'il prenne connaissance des modalités particulières d'utilisation des comptes de dépôt auprès de cette administration étant donné que toutes les administrations chargées de l'examen préliminaire international n'offrent pas les mêmes services.

Enfin, si l'administration chargée de l'examen préliminaire international n'est pas l'office national auprès duquel, ou l'organisation intergouvernementale auprès de laquelle, la demande internationale a été déposée, le déposant ne peut pas utiliser le compte de dépôt auprès de l'office récepteur pour payer les taxes d'examen préliminaire et de traitement dues à l'administration chargée de l'examen préliminaire international.

L'administration chargée de l'examen préliminaire international ne débitera un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION**ASSEMBLY****Thirtieth (13th Ordinary) Session
(Geneva, 24 September to 3 October 2001)****NOTE PREPARED BY THE INTERNATIONAL BUREAU**

The Assembly of the International Patent Cooperation Union (PCT Union) held its thirtieth (13th ordinary) session in Geneva from 24 September to 3 October 2001, in conjunction with the thirty-sixth series of meetings of the Assemblies of the Member States of the World Intellectual Property Organization (WIPO). All documents discussed during the session (documents PCT/A/30/1, 2, 3, 4, 4 Add., 5 and 6) are available from WIPO free of charge and can also be found on WIPO's Internet site, at the following address: http://www.wipo.int/eng/document/govbody/wo_pct/index_30.htm. Note that the final report (document PCT/A/30/7) generally becomes available in the weeks following the closure of the meetings.

Change relating to the PCT fees for the benefit of the International Bureau

The Assembly decided that the maximum number of designation fees payable would be reduced, with effect from 1 January 2002, from 6 to 5.

The text of the amended Schedule of Fees annexed to the PCT Regulations, as in force from 1 January 2002, is reproduced on page 19930.

Reform of the PCT

The Assembly noted the report of the Committee on Reform of the PCT, which held its first session in Geneva from 21 to 25 May 2001, and approved the Committee's recommendations concerning the establishment of a working group, the matters to be referred to the working group and the work program of both the Committee and the working group between the September 2001 and September 2002 sessions of the Assembly. The working group will address, in particular, issues such as the concept and operation of the designation system, improved coordination of international search and international preliminary examination and the time limit for entering the national phase, conforming PCT filing date and "missing part"-type requirements to those in the Patent Law Treaty (PLT), as well as general simplification and streamlining of PCT procedures.

The first session of the Working Group on Reform of the PCT will be held from 12 to 16 November 2001, in Geneva. The documents for that session are available at:

IMPACT Project and PCT Electronic Filing Project Status Reports

The Assembly took note of status reports on the PCT automation project (IMPACT) and the PCT Electronic Filing Project. With the rapid expansion of the PCT system, these projects are of the highest priority for WIPO, which aims to complete the IMPACT Project by December 2002 and the PCT Electronic Filing Project by November 2003.

ASSEMBLÉE

**Trentième session (13^e session ordinaire)
(Genève, 24 septembre – 3 octobre 2001)**

NOTE DU BUREAU INTERNATIONAL

L'Assemblée de l'Union internationale de coopération en matière de brevets (Union du PCT) a tenu sa trentième session (13^e session ordinaire) à Genève, du 24 septembre au 3 octobre 2001, dans le cadre de la trente-sixième série de réunions des Assemblées des États membres de l'Organisation Mondiale de la Propriété Intellectuelle (OMPI). Tous les documents qui ont fait l'objet de discussions durant la session (documents PCT/A/30/1, 2, 3, 4, 4 Add., 5 et 6) sont disponibles gratuitement auprès de l'OMPI et peuvent être également consultés sur le site Internet de l'OMPI à l'adresse suivante : http://www.wipo.int/fre/document/govbody/wo_pct/index_30.htm. Il convient de noter que le rapport final (document PCT/A/30/7) est, en règle générale, disponible dans les semaines qui suivent la clôture des réunions.

Changement relatif aux taxes du PCT perçues au profit du Bureau international

L'assemblée a décidé de réduire de 6 à 5 le nombre maximum de taxes de désignation exigibles, avec effet au 1^{er} janvier 2002.

Le texte du barème révisé de taxes annexé au règlement d'exécution du PCT, tel qu'il entrera en vigueur le 1^{er} janvier 2002, est reproduit à la page 19931.

Réforme du PCT

L'assemblée a pris note du rapport du Comité sur la réforme du PCT, qui a tenu sa première session à Genève du 21 au 25 mai 2001, et a approuvé les recommandations du Comité concernant la création d'un groupe de travail, les questions à soumettre à ce groupe de travail et le programme de travail du comité et du groupe de travail entre les sessions de septembre 2001 et de septembre 2002 de l'assemblée. Le groupe de travail examinera, en particulier, des questions telles que la notion de désignation et le fonctionnement du système des désignations, l'amélioration de la coordination pour ce qui concerne la recherche internationale et l'examen préliminaire international et le délai pour l'ouverture de la phase nationale, l'harmonisation des exigences du PCT relatives à la date de dépôt et aux parties "manquantes" avec les procédures prévues par le Traité sur le droit des brevets (PLT), ainsi que la simplification et la rationalisation de portée générale des procédures du PCT.

La première session du groupe de travail sur la réforme du PCT se tiendra à Genève du 12 au 16 novembre 2001. Les documents pour la session sont disponibles à l'adresse suivante:

http://www.wipo.int/pct/en/meetings/reform_wg/index_1.htm

Rapports de situation sur le projet IMPACT et sur le projet relatif au dépôt électronique selon le PCT

L'assemblée a pris note des rapports de situation sur le projet d'automatisation du PCT ("IMPACT") et sur le projet relatif au dépôt électronique selon le PCT. Avec l'expansion rapide du système du PCT, ces projets font partie des priorités de l'OMPI dont l'objectif est de mener à terme le projet IMPACT d'ici décembre 2002 et le projet relatif au dépôt électronique d'ici novembre 2003.

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION—ASSEMBLY (Cont'd)**Modification of the time limit fixed in Article 22(1); entry into force;
transitional arrangements; consequential amendments to Rule 90bis***Modification of the time limit fixed in Article 22(1)*

The Assembly unanimously adopted a modification of the time limit under Article 22(1) for performing the acts necessary to enter the national phase, extending the current time limit to 30 months from the priority date. As a result, the time limit for national phase entry under Article 22(1) will be the same as that which applies under Article 39(1)(a) (that is, the time limit which applies where the applicant files a demand for international preliminary examination within 19 months from the priority date).

Entry into force

The modification of the time limit fixed in Article 22(1) will, in general, enter into force on 1 April 2002. Offices may, however, introduce before that date the 30-month time limit since Article 22(3) enables any national law to fix time limits expiring later than those applicable under Article 22(1).

The modified (30-month) time limit will be applicable, so far as a particular designated Office is concerned, to any international application, in respect of which the 20-month time limit expires on or after the date of entry into force of the modifications of Article 22(1) for that Office, and in respect of which the acts referred to in Article 22(1) have not yet been performed by the applicant.

Transitional arrangements

Since a number of Contracting States will have to change their national laws in order to implement the modification, transitional arrangements will enable postponement of the entry into force of the modification in respect of the designated Offices concerned: see page 19934 for details of the transitional arrangements. Where a designated Office finds it necessary to make use of the transitional arrangements, an applicant wishing to benefit from the 30-month time limit in respect of national phase entry before that Office will therefore still need to file a demand before the expiration of 19 months from the priority date, even though the 30-month time limit may apply in respect of other designated Offices without the need to file a demand.

Consequential amendments to Rule 90bis

As a consequence of the modification of the time limit under Article 22(1), Rules 90bis.1, 90bis.2 and 90bis.3, which deal with the withdrawal of the international application, designations and priority claims, respectively, will, with effect from 1 April 2002, refer only to the time limit of 30 months from the priority date.

The modified texts of Article 22(1) and Rule 90bis, as well as the text concerning the transitional arrangements in respect of Article 22(1), are published on pages 19932 and 19934.

EN MATIÈRE DE BREVETS – ASSEMBLÉE (suite)**

**Modification du délai fixé à l'article 22.1); entrée en vigueur;
mesures transitoires; modifications apportées par voie de conséquence à la règle 90bis**

Modification du délai fixé à l'article 22.1)

L'assemblée a adopté à l'unanimité une modification relative au délai fixé à l'article 22.1) pour l'accomplissement des actes nécessaires à l'ouverture de la phase nationale, en portant le délai actuel à 30 mois à compter de la date de priorité. En conséquence, le délai d'ouverture de la phase nationale selon l'article 22.1) sera le même que celui qui s'applique selon l'article 39.1)a) (c'est-à-dire, le délai qui s'applique lorsque le déposant présente une demande d'examen préliminaire international dans un délai de 19 mois à compter de la date de priorité).

Entrée en vigueur

La modification du délai fixé à l'article 22.1) entrera en vigueur, d'une façon générale, le 1^{er} avril 2002. Toutefois, les offices peuvent introduire avant cette date le délai de 30 mois, étant donné que l'article 22.3) permet à toute législation nationale de fixer des délais expirant après ceux qui sont applicables selon l'article 22.1).

Le délai modifié (30 mois) sera applicable, en ce qui concerne un office désigné déterminé, pour toute demande internationale à l'égard de laquelle le délai de 20 mois expire à la date d'entrée en vigueur des modifications relatives à l'article 22.1) pour cet office, et à l'égard de laquelle le déposant n'a pas encore accompli les actes visés à l'article 22.1).

Mesures transitoires

Étant entendu qu'un certain nombre d'États contractants devront modifier leur législation nationale pour pouvoir mettre en œuvre la modification, des mesures transitoires permettront le report de l'entrée en vigueur de la modification en ce qui concerne les offices désignés concernés : voir la page 19935 pour plus de précisions sur les mesures transitoires. Lorsqu'un office désigné juge nécessaire de recourir aux mesures transitoires, un déposant qui souhaite profiter d'un délai de 30 mois pour l'ouverture de la phase nationale auprès de cet office devra donc encore présenter une demande d'examen préliminaire international avant l'expiration d'un délai de 19 mois à compter de la date de priorité, même si un délai de 30 mois peut s'appliquer à l'égard d'autres offices désignés sans qu'il soit nécessaire de présenter une demande d'examen préliminaire international.

Modifications apportées par voie de conséquence à la règle 90bis

La modification du délai visé à l'article 22.1) a pour conséquence que les règles 90bis.1, 90bis.2 et 90bis.3, qui traitent du retrait de la demande internationale, de désignations et de revendications de priorité, respectivement, se référeront seulement, avec effet au 1^{er} avril 2002, au délai de 30 mois à compter de la date de priorité.

Le texte modifié de l'article 22.1) et de la règle 90bis ainsi que le texte concernant les mesures transitoires en ce qui concerne l'article 22.1) sont publiés aux pages 19933 et 19935.

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION—ASSEMBLY (Cont'd)**Appointment of the Spanish Patent and Trademark Office
as an International Preliminary Examining Authority; Amendment of the Agreement
Between the Spanish Patent and Trademark Office and the International Bureau of WIPO**

The Assembly appointed the Spanish Patent and Trademark Office as an International Preliminary Examining Authority; that Office will thus become the 10th Office to function as an International Preliminary Examining Authority under the PCT. The Assembly approved a consequential amendment to the Agreement between the Spanish Patent and Trademark Office and the International Bureau of WIPO in relation to the functioning of the Spanish Patent and Trademark Office so as to cover the new functions of the latter as an International Preliminary Examining Authority under the PCT.

The appointment, and the Agreement as amended, will have effect one month after the date on which the Office notifies the Director General that it is ready to start functioning as an International Preliminary Examining Authority; this notification is expected sometime in 2002. Note that before that time, applicants will not be able to choose the Spanish Patent and Trademark Office as a competent International Preliminary Examining Authority.

The amended text of the Agreement is published on pages 19936, 19938, 19940, 19942, 19944 and 19946.

**Amendment of the Agreement Between the European Patent Organisation
and the International Bureau of WIPO in relation to the Functioning
of the European Patent Office as an International Searching and
Preliminary Examining Authority under the PCT**

The Assembly approved an amendment to the Agreement between the European Patent Organisation and the International Bureau of WIPO in relation to the functioning of the European Patent Office as an International Searching and Preliminary Examining Authority under the PCT, which will enable the European Patent Office to restrict its competence as an International Searching and Preliminary Examining Authority whenever the workload of that Office reaches such a level that it cannot perform the tasks assumed by it under the Agreement without jeopardizing its proper functioning, both as a PCT Authority and as the Office responsible for granting European patents. Such restriction will be for a limited period and will depend on certain criteria (applicant's nationality and residence, given number of PCT applications per year, certain technical fields). The restriction will be effective from a date agreed upon between each receiving Office concerned and the European Patent Office. Any corresponding notifications from the European Patent Office to the International Bureau will be published in the Gazette.

The Agreement, as amended, will enter into force on 1 November 2001.

The modified text of the Agreement is published on pages 19948, 19950, 19952, 19954, 19956, 19958 and 19960.

**RÉUNIONS DE L'UNION INTERNATIONALE DE COOPÉRATION
EN MATIÈRE DE BREVETS – ASSEMBLÉE (suite)****Nomination de l'Office espagnol des brevets et des marques
en qualité d'administration chargée de l'examen préliminaire international; modification
de l'accord conclu entre l'Office espagnol des brevets et des marques et le Bureau international de l'OMPI**

L'assemblée a nommé l'Office espagnol des brevets et des marques en qualité d'administration chargée de l'examen préliminaire international; cet office sera ainsi le 10^e office à fonctionner en qualité d'administration chargée de l'examen préliminaire international au titre du PCT. L'assemblée a approuvé par voie de conséquence une modification de l'accord conclu entre l'Office espagnol des brevets et des marques et le Bureau international de l'OMPI concernant les fonctions de l'Office espagnol des brevets et des marques afin de couvrir les nouvelles fonctions de ce dernier en qualité d'administration chargée de l'examen préliminaire international au titre du PCT.

La nomination et l'accord tel que modifié prendront effet un mois après la date à laquelle l'office notifiera au directeur général qu'il est prêt à fonctionner en qualité d'administration chargée de l'examen préliminaire international; cette notification est attendue pour 2002. Il convient de noter que, avant cette date, il ne sera pas possible pour les déposants de choisir l'Office espagnol des brevets et des marques en qualité d'administration compétente pour effectuer l'examen préliminaire international.

Le texte modifié de l'accord est publié aux pages 19937, 19939, 19941, 19943, 19945 et 19947.

**Modification de l'accord entre l'Organisation européenne des brevets
et le Bureau international de l'OMPI concernant les fonctions de
l'Office européen des brevets en qualité d'administration chargée de la recherche internationale
et de l'examen préliminaire international au titre du PCT**

L'assemblée a approuvé une modification de l'accord entre l'Organisation européenne des brevets et le Bureau international de l'OMPI concernant les fonctions de l'Office européen des brevets en qualité d'administration chargée de la recherche internationale et de l'examen préliminaire international au titre du PCT. Cet accord permettra à l'Office européen des brevets de restreindre sa compétence en tant qu'administration chargée de la recherche internationale et de l'examen préliminaire international, si la charge de travail de cet office devient telle que ce dernier ne peut accomplir les tâches qu'il assume en vertu de l'accord, sans risques pour son bon fonctionnement à la fois en qualité d'administration au titre du PCT et d'office responsable de la délivrance de brevets européens. Une telle restriction s'exercera pour une période limitée et en fonction de certains critères (nationalité et domicile du déposant, nombre donné de demandes PCT par an, certains domaines techniques). La restriction prendra effet à la date convenue entre chaque office récepteur concerné et l'Office européen des brevets. Toute notification correspondante de l'Office européen des brevets au Bureau international sera publiée dans la gazette.

L'accord tel que modifié entrera en vigueur le 1^{er} novembre 2001.

Le texte modifié de l'accord est publié aux pages 19949, 19951, 19953, 19955, 19957, 19959 et 19961.

MODIFICATIONS OF THE ADMINISTRATIVE INSTRUCTIONS—MODIFICATIONS OF WO PUBLICATION NUMBERING SYSTEM, OF PCT APPLICATION NUMBERING SYSTEM AND OF YEAR FORMAT**Note Prepared by the International Bureau**

After consultation with the interested Offices and Authorities pursuant to PCT Rule 89.2(a), modifications of Sections 110, 307 and 404 of the Administrative Instructions are promulgated as indicated below. The present text of the Administrative Instructions is set out in PCT Gazette Special Issue No. S-03/2001 (E) (30 August 2001). The corresponding WIPO documents, PCT/AI/1 Rev.1 and PCT/AI/1 Rev.1 Add.1, may be viewed on the WIPO Internet site at the following address: <http://www.wipo.int/pct/en/index.html>.

Modifications of WO Publication Numbering System

Section 404 (“International Publication Number of International Application”) has been modified with effect from 1 July 2002 so as to take into account the fact that more than 100,000 international applications will have to be published in 2002, therefore requiring that the serial number part of the WO publication number include 6 digits at some point in 2002. This date of entry into force will give Offices and Authorities, as well as subscribers to PCT data products, sufficient time to adapt their systems, noting that the first PCT publications to be affected will be those of Thursday, 4 July 2002. In addition to these modifications and following observations received from Offices, the word “designation” has been replaced by the word “indication”.

From 1 July 2002, the serial number part of the WO publication numbers of all publications and republications (in the form of PCT pamphlets and/or entries in the PCT Gazette) will contain exclusively the 6-digit format. For all international applications published before 1 July 2002, the WO publication number will consist of 5 digits, except that, should such an application have to be republished after 1 July 2002, its WO publication number will be “converted” into the 6-digit format.

Modifications of Section 404 are being promulgated with effect from 1 July 2002. The text of modified Section 404 is reproduced on page 21586.

Modification of PCT Application Numbering System and of Year Format

Section 307 (“System of Numbering International Applications”) has been modified with effect from 1 January 2004 so as to introduce a 6-digit format for the serial number part of the PCT application number (along the same lines as the 6-digit format introduced for the WO publication number; see above).

Sections 110 (“Dates”), 307 and 404 (“International Publication Number of International Application”) have been modified with effect from 1 January 2004 so as to allow for a 4-digit indication of the year in dates appearing in international applications and in communications and notifications issued by PCT Offices and Authorities, in PCT application numbers and in WO publication numbers.

This date of entry into force will give Offices and Authorities, as well as subscribers to PCT data products, sufficient time to implement the modifications.

Modifications of Sections 110, 307 and 404 are being promulgated with effect from 1 January 2004. The text of modified Sections 110, 307 and 404 is reproduced on page 21586.

MODIFICATIONS DES INSTRUCTIONS ADMINISTRATIVES – MODIFICATION DU SYSTÈME DE NUMÉROTATION DES PUBLICATIONS WO, DU SYSTÈME DE NUMÉROTATION DES DEMANDES PCT ET DE L'INDICATION DE L'ANNÉE**Note du Bureau international**

Après consultation des offices et des administrations intéressés conformément à la règle 89.2.a) du PCT, les modifications des instructions administratives 110, 307 et 404 sont promulguées comme indiqué ci-dessous. Le texte actuel des instructions administratives figure dans le numéro spécial de la Gazette du PCT n° S-03/2001 (F) (30 août 2001). Les documents de l'OMPI correspondants, PCT/AI/1 Rev.1 et PCT/AI/1 Rev.1 Add.1, peuvent être consultés sur le site Internet de l'OMPI à l'adresse suivante : <http://www.wipo.int/pct/fr/index.html>.

Modification du système de numérotation des publications WO

L'instruction 404 ("Numéro de publication internationale de la demande internationale") a été modifiée avec effet au 1^{er} juillet 2002 pour tenir compte du fait que plus de 100 000 demandes internationales devront être publiées en 2002; la configuration à 6 chiffres pour le numéro d'ordre qui fait partie du numéro de publication WO est donc à prévoir pour le courant 2002. Cette date d'entrée en vigueur donnera aux offices et aux administrations, ainsi qu'aux abonnés aux produits du PCT, suffisamment de temps pour adapter leurs systèmes, étant entendu que les premières publications PCT touchées seront celles du jeudi 4 juillet 2002. Outre ces modifications et compte tenu des observations de plusieurs offices, le mot "*designation*" a été remplacé dans la version anglaise par le mot "*indication*".

À compter du 1^{er} juillet 2002, pour toutes les publications et republications (que ce soit sous forme de brochure du PCT ou d'avis inséré dans la Gazette du PCT) le numéro d'ordre de publication WO sera exclusivement donné dans la configuration à 6 chiffres. Pour toutes les demandes internationales publiées avant le 1^{er} juillet 2002, le numéro de publication WO sera composé de 5 chiffres mais si une demande doit faire l'objet d'une republication après le 1^{er} juillet 2002, son numéro de publication WO sera "converti" dans la configuration à 6 chiffres.

Les modifications de l'instruction 404 sont promulguées avec effet au 1^{er} juillet 2002. Le texte de l'instruction 404 modifiée est reproduit à la page 21587.

Modification du système de numérotation des demandes PCT et de l'indication de l'année

L'instruction 307 ("Système de numérotation des demandes internationales") a été modifiée avec effet au 1^{er} janvier 2004 pour introduire une configuration à 6 chiffres pour le numéro d'ordre qui fait partie du numéro de demande PCT (en accord avec la configuration à 6 chiffres introduite pour le numéro de publication WO; voir plus haut).

Les instructions 110 ("Dates"), 307 et 404 ("Numéro de publication internationale de la demande internationale") ont été modifiées avec effet au 1^{er} janvier 2004 pour permettre une indication à 4 chiffres de l'année dans les dates portées sur les communications et les notifications émanant des offices et des administrations du PCT, dans les numéros de demandes PCT et dans les numéros de publication WO.

Cette date d'entrée en vigueur donnera aux offices et aux administrations, ainsi qu'aux abonnés aux produits du PCT, suffisamment de temps pour la mise en oeuvre des modifications.

Les modifications des instructions 110, 307 et 404 sont promulguées avec effet au 1^{er} janvier 2004. Le texte des instructions modifiées 110, 307 et 404 est reproduit à la page 21587.

INSTRUCTIONS ADMINISTRATIVES DU PCT MODIFICATION DE L'ANNEXE A – FORMULAIRES

Formulaire PCT/RO/101 (requête)

Le formulaire de requête a été modifié pour tenir compte de l'entrée en vigueur du PCT pour la **Guinée équatoriale** (à compter du 17 juillet 2001), les **Philippines** (à compter du 17 août 2001), **Oman** (à compter du 26 octobre 2001), la **Zambie** (à compter du 15 novembre 2001) et la **Tunisie** (à compter du 10 décembre 2001); du fait que des modèles d'utilité peuvent être obtenus pour l'**ARIPO**, en **Équateur**, en **Azerbaïdjan** et aux **Philippines**; et de la réduction (à compter du 1^{er} janvier 2002) de 6 à 5 du nombre maximum de taxes de désignation payables.

Seule la version mise à jour du formulaire de requête devrait être utilisée pour les demandes internationales déposées à partir du 1^{er} janvier 2002. Des exemplaires peuvent être obtenus gratuitement auprès des offices récepteurs et du Bureau international et seront également disponibles sur l'Internet au début de janvier 2002.

Les notes relatives à la feuille de calcul des taxes (annexe de la demande d'examen préliminaire international) concernant la réduction de la taxe de traitement pour les déposants de certains États qui y ont droit ont été modifiées pour tenir compte de l'entrée en vigueur du PCT pour la **Guinée équatoriale**, les **Philippines**, la **Zambie** et la **Tunisie**.

Toutes les feuilles du formulaire de demande d'examen préliminaire international, y compris les notes y relatives, la feuille de calcul des taxes et les notes y relatives ont été datées de janvier 2002 (date d'émission ou de réimpression de la feuille) et sont reproduites sur les pages suivantes (sans pagination pour qu'il soit possible de les reproduire aisément). NOTES TO THE REQUEST FORM (PCT/RO/101)

These Notes are intended to facilitate the filling in of the request form. For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the Patent Cooperation Treaty (PCT), the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the request form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the PCT Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with black ink (Rule 11.9(a) and (b)).

The request form and these Notes may be downloaded from WIPO's Website at the address given above.

WHERE TO FILE THE INTERNATIONAL APPLICATION

The international application (request, description, claims, abstract and drawings, if any) must be filed with a competent receiving Office (Article 11(1)(i))—that is, subject to any applicable prescriptions concerning national security, at the choice of the applicant, either:

(i) the receiving Office of, or acting for, a PCT Contracting State of which the applicant or, if there are two or more applicants, at least one of them, is a resident or national (Rule 19.1(a)(i) or (ii) or (b)), or

(ii) the International Bureau of WIPO in Geneva, Switzerland, if the applicant or, if there are two or more applicants, at least one of the applicants is a resident or national of any PCT Contracting State (Rule 19.1(a)(iii)).

APPLICANT'S OR AGENT'S FILE REFERENCE

A **file reference** may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded by the receiving Office or any International Authority (Rule 11.6(f) and Section 109).

BOX No. I

Title of Invention (Rules 4.3 and 5.1(a)): The title must be short (preferably two to seven words when in English or translated into English) and precise. It must be identical with the title heading the description.

BOXES Nos. II AND III

General: At least one of the applicants named must be a resident or national of a PCT Contracting State for which the receiving Office acts (Articles 9 and 11(1)(i) and Rules 18 and 19). If the international application is filed with the International Bureau under Rule 19.1(a)(iii), at least one of the applicants must be a resident or national of any PCT Contracting State.

If the United States of America is designated, all of the inventors must be named also as applicants for the purposes of that designation (see "Different Applicants for Different Designated States", below).

Indication Whether a Person is Applicant and/or Inventor (Rules 4.5(a) and 4.6(a) and (b)):

Check-box "This person is also inventor" (Box No. II): Mark this check-box if the applicant named is also the inventor or one of the inventors; do not mark this check-box if the applicant is a legal entity.

Check-box "applicant and inventor" (Box No. III): Mark this check-box if the person named is both applicant and inventor; do not mark this check-box if the person is a legal entity.

Check-box "applicant only" (Box No. III): Mark this check-box if the person named is a legal entity or if the person named is not also inventor.

Check-box "inventor only" (Box No. III): Mark this check-box if the person named is inventor but not also applicant; do not mark this check-box if the person is a legal entity.

In Box No. III, one of the three check-boxes must always be marked for each person named.

A person must not be named more than once in Boxes Nos. II and III, even where that person is both applicant and inventor.

Names and Addresses (Rule 4.4): The family name (preferably in capital letters) must be indicated before the given name(s). Titles and academic degrees must be omitted. Names of legal entities must be indicated by their full official designations.

The address must be indicated in such a way that it allows prompt postal delivery; it must consist of all the relevant administrative units (up to and including the indication of the house number, if any), the postal code (if any), and the name of the country.

Only one address may be indicated per person. For the indication of a special "address for correspondence", see the notes to Box No. IV.

Telephone, Facsimile and/or Teleprinter Numbers should be indicated for the person named in Box No. II in order to allow rapid communication with the applicant. Any such number should include the applicable country and area codes.

Applicant's registration number with the Office (Rule 4.5(e)): Where the applicant is registered with the national or regional Office acting as receiving Office, the request may indicate the number or other indication under which the applicant is so registered.

Nationality (Rules 4.5(a) and (b) and 18.1): For each applicant, the nationality must be indicated by the name or two-letter code of the State (that is, country) of which the person is a national. A legal entity constituted according to the national law of a State is considered a national of that State. The indication of the nationality is not required where a person is inventor only.

Residence (Rules 4.5(a) and (c) and 18.1): For each applicant, the residence must be indicated by the name or two-letter code of the State (that is, country) of which the person is a resident. If the State of residence is not indicated, it will be assumed to be the same as the State indicated in the address. Possession of a real and effective industrial or commercial establishment in a State is considered residence in that State. The indication of the residence is not required where a person is inventor only.

In the absence of any indication, it will be assumed that the inventor(s) named is (are) inventor(s) for all designated States.

BOX No. IV

Who Can Act as Agent (Article 49 and Rule 83.1bis): For each of the receiving Offices, information as to who can act as agent is given in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Agent or Common Representative (Rules 4.7, 4.8, 90.1 and 90.2 and Section 108): Mark the applicable check-box in order to indicate whether the person named is (or has been) appointed as "agent" or "common representative" (the "common representative" must be one of the applicants). For the manner in which name(s) and address(es) (including names of States) must be indicated, see the notes to Boxes Nos. II and III. Where several agents are listed, the agent to whom correspondence should be addressed is to be listed first. If there are two or more applicants but no common agent is appointed to represent all of them, one of the applicants who is a national or resident of a PCT Contracting State may be appointed by the other applicants as their common representative. If this is not done, the applicant first named in the request who is entitled to file an international application with the receiving Office concerned will automatically be considered to be the common representative.

Manner of Appointment of Agent or Common Representative (Rules 90.4 and 90.5 and Section 106): Any such appointment may be made by designating the agent(s) or the common representative in the request or in one or more separate powers of attorney. Each applicant must sign either the request or a separate power of attorney. Where the

international application is filed with reference to a general power of attorney, a copy thereof must be attached to the request. Any applicant who did not sign the general power of attorney must sign either the request or a separate power of attorney.

Agent's registration number with the Office (Rule 4.7(b)): Where the agent is registered with the national or regional Office that is acting as receiving Office, the request may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. IV will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II or III, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address must be indicated in Box No. IV instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. IV must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" has been marked).

BOX No. V

Designation of States (Rules 4.1(a)(iv) and 4.9(a)): The Contracting States in which protection is desired must be designated under Rule 4.9(a) in the request by marking the applicable check-boxes. At least one check-box effecting a specific designation must be marked. *While the general rule is that designations cannot be added after the filing of the international application, it is possible to make a precautionary designation under Rule 4.9(b) covering all other designations which would, as at the international filing date, be permitted under the PCT (see "Precautionary Designation of States Subject to Confirmation", below).*

Where regional (ARIPO, Eurasian, European and/or OAPI) patents are desired, only one PCT designation fee must be paid for each regional designation made, independently of how many States are covered by each such designation.

AP ARIPO Patent: Note that **SZ Swaziland** can only be designated for the purposes of an ARIPO patent and not for the purposes of a national patent. All other PCT Contracting States which are also party to the Harare Protocol can be designated either for a national or an ARIPO patent, or both a national and an ARIPO patent.

EA Eurasian Patent: All PCT Contracting States which are also party to the Eurasian Patent Convention can be designated either for a national or a Eurasian patent, or both a national and a Eurasian patent. Note, however, that it is not possible to designate only some of these States for a Eurasian patent and that any designation of one or more States for a Eurasian patent will be treated as a designation of all the States which are party to both the Convention and the PCT for a Eurasian patent.

EP European Patent: Note that **BE Belgium, CY Cyprus, FR France, GR Greece, IE Ireland, IT Italy, MC Monaco and NL Netherlands** can only be designated for the purposes of a European patent and not for the purposes of a national patent. All other PCT Contracting States which are also party

est ressortissant. Une personne morale constituée conformément à la législation d'un État contractant est considérée comme ayant la nationalité de cet État. L'indication de la nationalité n'est pas exigée lorsqu'une personne est inventeur seulement.

Domicile (règles 4.5.a) et c) et 18.1) : le domicile de chaque déposant doit être indiqué au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) où l'intéressé a son domicile. Si, cependant, le domicile n'est pas indiqué, l'État du domicile sera présumé être le même que celui qui est indiqué dans l'adresse. La possession d'un établissement industriel ou commercial effectif et sérieux dans un État est considérée comme constituant domicile dans cet État. L'indication du domicile n'est pas exigée lorsqu'une personne est inventeur seulement.

Nom des États (instruction 115) : pour indiquer le nom des États, on peut utiliser le code à deux lettres qui figure dans la norme ST.3 de l'OMPI et dans le *Guide du déposant du PCT*, volume I/B, annexe K.

Dépôts différents pour différents États désignés (règles 4.5.d), 18.3 et 19.2) : il est possible d'indiquer des dépôts différents pour différents États désignés. L'un au moins des déposants indiqués – quels que soient l'État ou les États désignés pour lesquels il est indiqué – doit être ressortissant d'un État contractant du PCT pour lequel l'office récepteur agit ou avoir son domicile dans un tel État. *Lorsque les États-Unis d'Amérique sont l'un des États désignés, tous les inventeurs doivent être indiqués comme déposants pour les États-Unis d'Amérique et les cases "Cette personne est aussi inventeur" (dans le cadre n° II) ou "déposant et inventeur" (dans le cadre n° III) doivent être cochées.*

Afin d'indiquer les États désignés pour lesquels une personne est déposant, il y a lieu de cocher la case appropriée (une seule case par personne). La case "les États indiqués dans le cadre supplémentaire" doit être cochée lorsque aucune des trois autres cases ne convient; en pareil cas, le nom de la personne doit être repris dans le cadre supplémentaire et assorti de l'indication des États pour lesquels cette personne est déposant (voir le point 1.ii) de ce cadre).

Mention de l'inventeur (règle 4.1.a)v) et c)i)) : le nom et l'adresse de l'inventeur doivent être indiqués lorsque la législation nationale d'un État désigné au moins exige la communication du nom de celui-ci lors du dépôt; pour plus de précisions, voir le *Guide du déposant du PCT*, volume I/A, annexes B1 et B2. Il est vivement recommandé de toujours indiquer le nom de l'inventeur.

Inventeurs différents pour différents États désignés (règle 4.6.c)) : des personnes différentes peuvent être indiquées en tant qu'inventeurs pour différents États désignés (par exemple, lorsque, en la matière, les exigences des législations nationales des États désignés diffèrent); en pareil cas, il y a lieu d'utiliser le cadre supplémentaire (voir le point 1.iii) de ce cadre). En l'absence d'indication, il sera supposé que l'inventeur ou les inventeurs mentionnés ont la qualité d'inventeur pour tous les États désignés.

CADRE N° IV

Qui peut agir en qualité de mandataire ? (article 49 et règle 83.1bis) : pour chacun des office récepteurs, on trouvera, dans le *Guide du déposant du PCT*, volume I/B, annexe C, des informations sur le point de savoir qui peut agir en qualité de mandataire.

Mandataire ou représentant commun (règles 4.7, 4.8, 90.1 et 90.2 et instruction 108) : cocher la case appropriée pour indiquer si la personne mentionnée est (ou a été) désignée comme "mandataire" ou "représentant commun" (le

"représentant commun" doit être l'un des déposants). Pour ce qui est de la façon d'indiquer les noms et adresses (y compris le nom des États), il convient de se reporter aux notes relatives aux cadres n°s II et III. Lorsque plusieurs mandataires sont indiqués, il faut mentionner en premier lieu celui à qui la correspondance doit être adressée. S'il y a plusieurs déposants mais aucun mandataire commun désigné pour les représenter tous, l'un des déposants qui est ressortissant d'un État contractant du PCT ou qui a son domicile dans un tel État peut être désigné par les autres comme leur représentant commun. A défaut, le déposant nommé en premier lieu dans la requête qui est autorisé à déposer une demande internationale auprès de l'office récepteur en question sera automatiquement considéré comme le représentant commun.

Mode de désignation d'un mandataire ou d'un représentant commun (règles 90.4 et 90.5 et instruction 106) : la désignation du ou des mandataires ou du représentant commun peut être effectuée dans la requête ou dans un ou plusieurs pouvoirs distincts. Chaque déposant doit signer la requête ou un pouvoir distinct. Si la demande internationale déposée fait état d'un pouvoir général, une copie de celui-ci doit être jointe à la requête. Tout déposant n'ayant pas signé le pouvoir général doit signer soit la requête soit un pouvoir distinct.

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 4.7.b)) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° IV sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II ou III – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, cette adresse doit être indiquée dans le cadre n° IV, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas, et seulement dans ce cas, qu'il y a lieu de cocher la dernière case du cadre n° IV (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° V

Désignation d'États (règles 4.1.a)iv) et 4.9.a)) : pour désigner conformément à la règle 4.9.a), dans la requête, les États contractants où la protection est demandée, il faut cocher les cases appropriées. Il faut qu'au moins une case, correspondant à une désignation expresse, soit cochée. *Bien que la règle générale soit qu'aucune désignation ne peut être ajoutée après le dépôt de la demande internationale, il est possible d'effectuer une désignation de précaution conformément à la règle 4.9.b) pour couvrir toutes les autres désignations qui, à la date du dépôt international, seraient autorisées selon le PCT (voir ci-après la rubrique "Désignation d'États à titre de précaution sous réserve de confirmation").*

Lorsque des brevets régionaux (ARIPO, eurasiatique, européen ou OAPI) sont demandés, une seule taxe de désignation du PCT est due pour chaque désignation régionale effectuée, quel que soit le nombre d'États couverts par celle-ci.

to the European Patent Convention can be designated either for a national or a European patent, or both a national and a European patent.

If an ARIPO or a European patent is desired for only some of the Contracting States of the Harare Protocol or the European Patent Convention, respectively, the names of those States for which a regional patent is not desired may be deleted by striking them out. However, it is recommended that the applicant always designate for the purposes of a regional patent all PCT Contracting States which are also Contracting States of the Protocol or the Convention, respectively. A decision to proceed with only some of those designations need not be made until entry into the regional phase, at which stage the corresponding regional designation fees must be paid.

Where any of the Contracting States of the Harare Protocol, the Eurasian Patent Convention or the European Patent Convention and the PCT is designated twice, namely *both* for the purposes of an ARIPO, a Eurasian or a European patent *and* for the purposes of national protection, the applicant must pay one designation fee in respect of the regional patent and as many designation fees as there are national patents or other titles of protection sought (Rule 15.1(ii) and Section 210).

Extension of EP European Patent to Certain States: If it is intended, at the time of entry into the European regional phase, to request the extension of the subsequently granted European patent to AL Albania, LT Lithuania, LV Latvia, MK The former Yugoslav Republic of Macedonia, RO Romania and/or SI Slovenia (and/or to any other PCT Contracting State for which, on the date of filing of the international application, an extension agreement with the European Patent Organisation is in force), Box No. V must contain *both* a designation of the State concerned for the purposes of a national patent and *also* a designation, for the purposes of obtaining a European patent, of at least one PCT Contracting State party to the European Patent Convention.

SI Slovenia: The designation of Slovenia for a national patent has the effect, within the framework of the extension agreement between Slovenia and the European Patent Organisation (see preceding paragraph), of a designation for a European patent. The designation SI Slovenia without the designation EP European Patent will have no effect.

OA OAPI Patent: The designation of States members of OAPI and party to the PCT can only be made for the purposes of an OAPI patent (no national protection is available); furthermore, it is not possible to designate only some of them.

Choice of Certain Kinds of Protection or Treatment (Rules 4.12 to 4.14 and Section 202): Where, in any country where it is possible, a kind of protection other than a patent is desired, write the name or two-letter code of that country followed by the name of the title; that is, “petty patent” (available in YU Yugoslavia), “provisional patent” (available in AM Armenia, KG Kyrgyzstan, KZ Kazakhstan, TM Turkmenistan, UZ Uzbekistan), “utility model” (available in AL Albania, AM Armenia, AP ARIPO, AT Austria, AZ Azerbaijan, BG Bulgaria, BR Brazil, BY Belarus, BZ Belize, CN China, CR Costa Rica, CZ Czech Republic, DE Germany, DK Denmark, EC Ecuador, EE Estonia, ES Spain, FI Finland, GE Georgia, HU Hungary, JP Japan, KE Kenya, KG Kyrgyzstan, KR Republic of Korea, KZ Kazakhstan, LS Lesotho, MD Republic of Moldova, MX Mexico, PH Philippines, PL Poland, PT Portugal, RU Russian Federation, SK Slovakia, SL Sierra Leone, TJ Tajikistan, TR Turkey, UA Ukraine, UZ Uzbekistan, VN Viet Nam, OA OAPI), “consensual patent” (available in HR Croatia), “utility certificate” (available in GH Ghana, TT Trinidad and Tobago, UG Uganda) or “inventor’s certificate” (available in CU Cuba and KP Democratic People’s Republic of Korea). Where, in AP ARIPO, AT Austria, CZ Czech Republic, DE Germany, DK Denmark, EE Estonia, FI Finland or SK Slovakia (the only countries in which this possibility exists), in addition to a patent, a utility model is also

desired, write after the name of that country “and utility model”.

Where, in respect of any country where it is possible, it is desired that the international application be treated as an application for a certain title “of addition” or as an application for a “continuation” or a “continuation-in-part”, write after the name of that country the appropriate words; that is, “patent of addition” (available in AT Austria, AU Australia, BA Bosnia and Herzegovina, CU Cuba, DE Germany, ES Spain, IL Israel, IN India, MK The former Yugoslav Republic of Macedonia, MW Malawi, NZ New Zealand, SI Slovenia, TR Turkey, YU Yugoslavia, ZA South Africa, ZW Zimbabwe), “certificate of addition” (available in BR Brazil, DZ Algeria, MA Morocco, MG Madagascar, OA OAPI), “inventor’s certificate of addition” (available in CU Cuba), “continuation” or “continuation-in-part” (both available in US United States of America). If any of these indications is used, also indicate in the Supplemental Box the State for which such treatment is desired, the number of the parent title or parent application, and the date of the grant of the parent title or the date of filing of the parent application, as the case may be (see item 1(v) in that Box).

If, in Box No. V, the check-boxes for making designations are marked with consecutive Arabic numerals, those indications will be taken to express the applicant’s *choice of the order of the designations*; if another form of marking is used, the order will be taken as that in which the marked check-boxes appear on the form. This order will only have any significance if the amount received for the designation fees is insufficient to cover all the designations and remains insufficient after the applicant has been invited to pay the balance due; in that case, the amount received will be applied in payment of the fees for the designations following the said order (Rule 16bis.1(c) and Section 321).

The check-boxes located towards the bottom of Box No. V are reserved for designating, for the purposes of a national patent, States which have become party to the PCT after the date appearing at the bottom of the second sheet of the request form; in such a case, the name of the State, preferably preceded by the two-letter code, must be indicated on the dotted line and the corresponding check-box must be marked (together with an indication, where applicable, whether a special kind of protection or treatment is desired).

Precautionary Designation of States Subject to Confirmation (Rules 4.9(b) and (c) and 15.5): For the applicant’s safeguard, the lower part of Box No. V contains a statement (“Precautionary Designation Statement”) indicating the applicant’s wish to make, as a matter of precaution, in addition to the specific designations made by marking the check-boxes in the upper part of Box No. V (at least one such designation must be made), a precautionary designation of all other PCT Contracting States which are not specifically designated.

If the applicant does not wish to avail himself of this safeguard and does not want to make any such precautionary designations, the statement must be crossed out.

If the applicant wishes to expressly exclude a certain State from such precautionary designation so that the international application does not have any effect in that State, the name or two-letter code of that State should be indicated in the Supplemental Box. In no other case is it necessary to make use of this possibility.

If, after filing the international application, the applicant notices that there are any omissions and/or mistakes in respect of the specific designations made, it will be possible to rectify the situation by confirming the precautionary designations concerned. The confirmation of any precautionary designation is possible before the expiration of 15 months from the (earliest) priority date indicated in Box No. VI or, where no priority is claimed, the international filing date. To effect such confirmation, the applicant must file with the receiving Office a written notice specifying the name of each State the

AP brevet ARIPO : il est à noter que **SZ Swaziland** ne peut être désigné que pour un brevet ARIPO et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties au Protocole de Harare peuvent être désignés soit aux fins d'un brevet national ou d'un brevet ARIPO, soit à la fois aux fins d'un brevet national et d'un brevet ARIPO.

EA brevet eurasien : tous les États contractants du PCT qui sont aussi parties à la Convention sur le brevet eurasien peuvent être désignés soit aux fins d'un brevet national ou d'un brevet eurasien, soit à la fois aux fins d'un brevet national et d'un brevet eurasien. Cependant, il est à noter qu'il n'est pas possible de désigner seulement certains de ces États aux fins d'un brevet eurasien et que toute désignation d'un ou de plusieurs États aux fins d'un brevet eurasien sera traitée comme une désignation aux fins d'un brevet eurasien de tous les États qui sont parties à la fois à la Convention et au PCT.

EP brevet européen : il est à noter que **BE Belgique, CY Chypre, FR France, GR Grèce, IE Irlande, IT Italie, MC Monaco et NL Pays-Bas** ne peuvent être désignés que pour un brevet européen et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties à la Convention sur le brevet européen peuvent être désignés soit aux fins d'un brevet national ou d'un brevet européen, soit à la fois aux fins d'un brevet national et d'un brevet européen.

Si un brevet ARIPO ou un brevet européen est demandé pour certains seulement des États contractants du Protocole de Harare ou de la Convention sur le brevet européen, respectivement, le nom des États pour lesquels un brevet régional n'est pas demandé peut être biffé. Il est cependant recommandé de toujours désigner aux fins d'un brevet régional tous les États contractants du Protocole ou de la Convention, respectivement. Ce n'est que lorsqu'il s'agira d'aborder la phase régionale et de payer les taxes de désignation régionales que la décision de ne poursuivre la procédure d'obtention de brevet que pour certaines des désignations devra être prise.

Lorsqu'un ou plusieurs États parties au Protocole de Harare, à la Convention sur le brevet eurasien ou à la Convention sur le brevet européen et au PCT sont désignés deux fois, une fois aux fins d'un brevet ARIPO, d'un brevet eurasien ou d'un brevet européen et une autre fois aux fins d'une protection nationale, le déposant doit acquitter une taxe de désignation pour le brevet régional et autant de taxes de désignation qu'il y a de brevets ou autres titres de protection nationaux demandés (règle 15.1.ii) et instruction 210).

Extension du brevet européen (EP) à certains États : s'il est envisagé de demander, au moment de l'ouverture de la phase régionale européenne, l'extension du brevet européen qui sera obtenu ultérieurement à AL Albanie, LT Lituanie, LV Lettonie, MK Ex-République yougoslave de Macédoine, RO Roumanie, ou SI Slovénie (ou à tout autre État contractant du PCT pour lequel, à la date du dépôt de la demande internationale, un accord d'extension conclu avec l'Organisation européenne des brevets est en vigueur), le cadre n° V doit contenir *à la fois* la désignation de l'État concerné en vue de l'obtention d'un brevet national *et* la désignation, en vue de l'obtention d'un brevet européen, d'au moins un État contractant du PCT partie à la Convention sur le brevet européen.

SI Slovénie : la désignation de la Slovénie aux fins d'un brevet national a, dans le cadre de l'accord d'extension conclu entre la Slovénie et l'Organisation européenne des brevets (voir le paragraphe précédent), les effets d'une désignation aux fins d'un brevet européen. La désignation SI Slovénie sans la désignation EP brevet européen n'aura aucun effet.

OA brevet OAPI : la désignation des États membres de l'OAPI qui sont parties au PCT ne peut être effectuée qu'aux fins d'un brevet OAPI (aucune protection nationale n'est

offerte); de plus, il n'est pas possible de ne désigner que certains de ces États.

Choix de certaines formes de protection ou de traitement (règles 4.12 à 4.14 et instruction 202) : si, dans un pays, il est possible de demander une forme de protection autre qu'un brevet, écrire le nom de ce pays, ou le code à deux lettres, suivi du nom du titre en question, c'est-à-dire "petty patent" (pour YU Yougoslavie), "brevet provisoire" (pour AM Arménie, KG Kirghizistan, KZ Kazakhstan, TM Turkménistan, UZ Ouzbékistan), "modèle d'utilité" (pour AL Albanie, AM Arménie, AP ARIPO, AT Autriche, AZ Azerbaïdjan, BG Bulgarie, BR Brésil, BY Bélarus, BZ Belize, CN Chine, CR Costa Rica, CZ République tchèque, DE Allemagne, DK Danemark, EC Équateur, EE Estonie, ES Espagne, FI Finlande, GE Géorgie, HU Hongrie, JP Japon, KE Kenya, KG Kirghizistan, KR République de Corée, KZ Kazakhstan, LS Lesotho, MD République de Moldova, MX Mexique, PH Philippines, PL Pologne, PT Portugal, RU Fédération de Russie, SK Slovaquie, SL Sierra Leone, TJ Tadjikistan, TR Turquie, UA Ukraine, UZ Ouzbékistan, VN Viet Nam, OA OAPI), "brevet consensuel" (pour HR Croatie), "certificat d'utilité" (pour GH Ghana, TT Trinité-et-Tobago, UG Ouganda), ou "certificat d'auteur d'invention" (pour CU Cuba et KP République populaire démocratique de Corée). Si, pour AP ARIPO, AT Autriche, CZ République tchèque, DE Allemagne, DK Danemark, EE Estonie, FI Finlande ou SK Slovaquie (seuls pays où cela est possible), un modèle d'utilité est demandé en plus d'un brevet, écrire après le nom de ce pays "et modèle d'utilité".

Si, pour un pays où cela est possible, il est souhaité que la demande internationale soit traitée comme une demande d'obtention d'un certain titre "d'addition" ou comme une demande de "continuation" ou de "continuation-in-part", écrire après le nom de ce pays la mention appropriée, c'est-à-dire "brevet d'addition" (pour AT Autriche, AU Australie, BA Bosnie-Herzégovine, CU Cuba, DE Allemagne, ES Espagne, IL Israël, IN Inde, MK Ex-République yougoslave de Macédoine, MW Malawi, NZ Nouvelle-Zélande, SI Slovénie, TR Turquie, YU Yougoslavie, ZA Afrique du Sud, ZW Zimbabwe), "certificat d'addition" (pour BR Brésil, DZ Algérie, MA Maroc, MG Madagascar, OA OAPI), "certificat d'auteur d'invention additionnel" (pour CU Cuba), "continuation" ou "continuation-in-part" (pour US États-Unis d'Amérique). Si l'une de ces mentions est utilisée, indiquer également dans le cadre supplémentaire l'État pour lequel ce traitement est demandé, le numéro du titre principal ou de la demande principale et la date de délivrance du titre principal ou du dépôt de la demande principale, selon le cas (voir le point 1.v) de ce cadre).

L'indication, dans les cases du cadre n° V correspondant aux désignations, de numéros d'ordre en chiffres arabes sera considérée comme reflétant l'ordre des désignations choisi par le déposant; si les cases sont cochées d'une autre manière, l'ordre considéré sera celui dans lequel les cases cochées apparaissent sur le formulaire. Cet ordre n'aura de signification que si le montant reçu pour les taxes de désignation n'est pas suffisant pour couvrir l'ensemble des désignations et reste insuffisant après que le déposant a été invité à acquitter le solde débiteur; dans ce cas, le montant reçu sera affecté au paiement des taxes pour les désignations dans l'ordre en question (règle 16bis.1.c) et instruction 321).

Les cases situées en bas des colonnes sont réservées à la désignation, aux fins d'un brevet national, d'États qui sont devenus partie au PCT après la date qui figure au bas de la deuxième feuille du formulaire de requête; dans ce cas, il faut mentionner sur la ligne pointillée le nom de l'État, précédé de préférence du code à deux lettres, et cocher la case correspondante (en indiquant, le cas échéant, si une forme particulière de protection ou de traitement est souhaitée).

designation of which is confirmed (with, where applicable, an indication of the kind of treatment or protection desired) and pay to the receiving Office, for each such designation, a designation fee (even where five designation fees have already been paid) together with a confirmation fee corresponding to 50% of the designation fee.

The receiving Office will not send to the applicant any reminder or invitation to confirm precautionary designations.

If no precautionary designation is to be confirmed, no action is required by the applicant, and the precautionary designations will then be automatically regarded as withdrawn by the applicant at the expiration of 15 months from the priority date.

BOX No. VI

Priority Claim(s) (Rule 4.10): If the priority of an earlier application is claimed, the declaration containing the priority claim must be made in the request.

The request must indicate the *date* on which the earlier application from which priority is claimed was filed and the *number* it was assigned. Note that that date must fall within the period of 12 months preceding the international filing date.

Where the earlier application is a national application, the *country* party to the Paris Convention for the Protection of Industrial Property, or the *Member* of the World Trade Organization that is not a party to that Convention, in which that earlier application was filed must be indicated. Where the earlier application is a regional application, the *regional Office* concerned must be indicated. Where the earlier application is an international application, the *receiving Office* with which that earlier application was filed must be indicated.

Where the earlier application is a regional application (other than an ARIPO application), or an international application, the priority claim may also, if the applicant so wishes, indicate one or more countries party to the Paris Convention for which that earlier application was filed (Rule 4.10(b)(i)); such an indication is not, however, mandatory. Where the earlier application is an ARIPO application, at least one country party to the Paris Convention or one Member of the World Trade Organization for which that earlier application was filed must be indicated (Rule 4.10(b)(ii)).

As to the possibility of correcting or adding a priority claim, see Rule 26*bis* and the *PCT Applicant's Guide*, Volume I/A, General Part.

Certified Copy of Earlier Application (Rule 17.1): A certified copy of each earlier application the priority of which is claimed (priority document) must be submitted by the applicant, irrespective of whether that earlier application is a national, regional or international application. The priority document must be submitted to the receiving Office or to the International Bureau before the expiration of 16 months from the (earliest) priority date or, where an early start of the national phase is requested, not later than at the time such request is made. Any priority document received by the International Bureau after the expiration of the 16-month time limit but before the date of international publication shall be considered to have been received on the last day of that time limit (Rule 17.1(a)).

Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office (not later than 16 months after the priority date) to prepare and transmit the priority document to the International Bureau (Rule 4.1(c)(ii)). Such request may be made by marking the applicable check-boxes which identify the respective documents. *Attention:* where such a request is made, the applicant must, where applicable, pay to the receiving Office the *fee for priority document*,

otherwise, the request will be considered not to have been made (see Rule 17.1(b)).

Dates (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for the number of the day, the number of the month and the last two digits of the year, in that order and separated by periods, slants or hyphens, for example, “20 March 2001 (20.03.01)”, “20 March 2001 (20/03/01)” or “20 March 2001 (20-03-01)”.

BOX No. VII

Choice of International Searching Authority (ISA) (Rules 4.1(b)(vi) and 4.14*bis*): If two or more International Searching Authorities are competent for carrying out the international search in relation to the international application—depending on the language in which that application is filed and the receiving Office with which it is filed—the name of the competent Authority chosen by the applicant must be indicated in the space provided, either by its full name or two-letter code.

Request to Use Results of Earlier Search; Reference to that Search (Rules 4.11 and 4.1.1): The earlier search, if any, must be identified in such a manner that the ISA can retrieve the results easily. Where those results can be used, the ISA may refund the international search fee or a portion thereof.

BOX No. VIII

Declarations Containing Standardized Wording (Rules 4.1(c)(iii) and 4.17): At the option of the applicant, the request may, for the purposes of the national law applicable in one or more designated States, contain one or more of the following declarations:

- (i) declaration as to the identity of the inventor;
- (ii) declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent;
- (iii) declaration as to the applicant's entitlement, as at the international filing date, to claim the priority of the earlier application;
- (iv) declaration of inventorship (only for the purposes of the designation of the United States of America);
- (v) declaration as to non-prejudicial disclosures or exceptions to lack of novelty;

which must conform to the standardized wording provided for in Sections 211 to 215, respectively, and which must be set forth in Boxes Nos. VIII (i) to (v), as detailed below. Where any such declarations are included, the appropriate check-boxes in Box No. VIII should be marked and the number of each type of declaration should be indicated in the right-hand column. As to the possibility of correcting or adding a declaration, see Rule 26*ter*, Section 216 and the *PCT Applicant's Guide*, Volume I/A, General Part.

If the circumstances of a particular case are such that the standardized wordings are not applicable, the applicant should not attempt to make use of the declarations provided for in Rule 4.17 but rather will have to comply with the national requirements concerned upon entry into the national phase.

The fact that a declaration is made under Rule 4.17 does not of itself establish the matters declared; the effect of those matters in the designated States concerned will be determined by the designated Offices in accordance with the applicable national law.

Even if the wording of a declaration does not conform to the standardized wording provided for in the Administrative

Désignation d'États à titre de précaution sous réserve de confirmation (règles 4.9.b) et c) et 15.5) : dans l'intérêt du déposant, le cadre n° V comporte, en bas, une déclaration ("Déclaration concernant les désignations de précaution") indiquant que le déposant souhaite, en sus des désignations expresses effectuées en cochant les cases de la première partie de ce cadre (il doit y avoir au moins une désignation de ce type), désigner à titre de précaution tous les autres États contractants du PCT qui n'ont pas été désignés expressément.

Si le déposant ne souhaite pas faire usage de cette mesure de sécurité ni ne veut faire de désignations de précaution, la déclaration doit être biffée.

Si le déposant souhaite expressément exclure tel ou tel État d'une telle désignation faite à titre de précaution afin que la demande internationale ne produise aucun effet dans cet État, il y aura lieu d'indiquer le nom ou le code à deux lettres de cet État dans le cadre supplémentaire. Cette mention n'est nécessaire dans aucun autre cas.

Si le déposant constate, après le dépôt de la demande internationale, qu'il y a des erreurs ou des omissions en ce qui concerne les désignations faites expressément, il pourra rectifier les erreurs ou corriger les omissions en confirmant les désignations de précaution en question. Il est possible de confirmer une désignation de précaution jusqu'à l'expiration d'un délai de 15 mois à compter de la date de priorité (la plus ancienne) indiquée dans le cadre n° VI ou, si aucune priorité n'est revendiquée, de la date du dépôt international. Pour confirmer une telle désignation, il faut déposer auprès de l'office récepteur une déclaration écrite contenant l'indication du nom de chaque État dont la désignation est confirmée (avec, le cas échéant, une indication de la forme de traitement ou de protection souhaitée) et payer à l'office récepteur, pour chaque désignation ainsi confirmée, une taxe de désignation (même lorsque cinq taxes de désignation ont déjà été payées) ainsi qu'une taxe de confirmation correspondant à 50 % de la taxe de désignation.

L'office récepteur n'enverra au déposant aucun rappel ni invitation à confirmer des désignations de précaution.

Le déposant ne doit rien faire s'il ne veut confirmer aucune désignation de précaution; les désignations de précaution seront alors automatiquement considérées comme retirées par le déposant à l'expiration d'un délai de 15 mois à compter de la date de priorité.

CADRE N° VI

Revendication(s) de priorité (règle 4.10) : si la priorité d'une demande antérieure est revendiquée, la déclaration contenant la revendication de priorité doit figurer dans la requête.

La requête doit indiquer la *date* du dépôt de la demande antérieure dont la priorité est revendiquée et son *numéro*. Cette date doit tomber dans la période de 12 mois précédant la date du dépôt international.

Lorsque la demande antérieure est une demande nationale, il faut indiquer le *pays* partie à la Convention de Paris pour la protection de la propriété industrielle, ou le *membre* de l'Organisation mondiale du commerce qui n'est pas partie à ladite convention, où elle a été déposée; lorsque la demande antérieure est une demande régionale, l'*office régional* concerné; et lorsque la demande antérieure est une demande internationale, l'*office récepteur* auprès duquel elle a été déposée.

Lorsque la demande antérieure est une demande régionale (autre qu'une demande ARIPO) ou une demande internationale, la revendication de priorité peut aussi, si le déposant le souhaite, indiquer un ou plusieurs pays parties à la Convention de Paris pour lesquels cette demande a été déposée (règle 4.10.b)i); cette indication n'est cependant pas obligatoire. Lorsque la

demande antérieure est une demande ARIPO, il faut indiquer au moins un pays partie à la Convention de Paris ou un membre de l'Organisation mondiale du commerce pour lequel cette demande a été déposée (règle 4.10.b)ii)).

En ce qui concerne les possibilités de correction ou d'adjonction d'une revendication de priorité, voir la règle 26*bis* et le *Guide du déposant du PCT*, volume I/A, partie générale.

Copie certifiée conforme de la demande antérieure (règle 17.1) : le déposant doit présenter une copie certifiée conforme de chaque demande antérieure dont la priorité est revendiquée (document de priorité), que la demande antérieure soit une demande nationale, régionale ou internationale. Le document de priorité doit être présenté à l'office récepteur ou au Bureau international avant l'expiration d'un délai de 16 mois à compter de la date de priorité (la plus ancienne) ou, lorsque l'ouverture anticipée de la phase nationale est demandée, au plus tard à la date à laquelle est faite cette demande. Tout document de priorité qui parvient au Bureau international après l'expiration du délai de 16 mois mais avant la date de publication internationale est réputé avoir été reçu le dernier jour de ce délai (règle 17.1.a)).

Lorsque le document de priorité est délivré par l'office récepteur, le déposant peut, au lieu de présenter ce document, demander à l'office récepteur (au plus tard dans le délai de 16 mois à compter de la date de priorité) de l'établir et de le transmettre au Bureau international (règle 4.1.c)ii)). Pour effectuer une requête à cet effet, il faut cocher la case appropriée comportant les indications qui permettent d'identifier le document. *Important* : lorsqu'une telle requête est présentée, le déposant doit, le cas échéant, verser à l'office récepteur la *taxe afférente au document de priorité*; à défaut, cette requête sera considérée comme n'ayant pas été présentée (voir la règle 17.1.b)).

Dates (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples : "20 mars 2001 (20.03.01)", "20 mars 2001 (20/03/01)" ou "20 mars 2001 (20-03-01)".

CADRE N° VII

Choix de l'administration chargée de la recherche internationale (ISA) (règles 4.1.b)vi) et 4.14*bis*) : si plusieurs administrations chargées de la recherche internationale sont compétentes pour procéder à la recherche internationale concernant la demande internationale – en fonction de la langue dans laquelle cette demande est déposée et de l'office récepteur auprès duquel elle est déposée – le nom de l'administration compétente choisie par le déposant doit être indiqué dans l'espace prévu, soit en clair soit au moyen du code à deux lettres correspondant.

Demande d'utilisation des résultats d'une recherche antérieure; mention de cette recherche (règles 4.11 et 4.1) : la mention de la recherche antérieure éventuelle doit comporter des indications qui permettent à l'administration chargée de la recherche internationale d'en retrouver aisément les résultats. Si ces résultats sont utilisables, l'administration en question pourra rembourser la taxe de recherche internationale ou une fraction de celle-ci.

CADRE N° VIII

Déclarations comportant un libellé standard (règles 4.1.c)iii) et 4.17) : au choix du déposant, la requête peut, aux fins de la législation nationale applicable dans un ou plusieurs États désignés, contenir une ou plusieurs des déclarations suivantes :

Instructions pursuant to Rule 4.17, any designated Office may accept that declaration for the purposes of the applicable national law, but is not required to do so.

Details as to National Law Requirements: For information on the declarations required by each designated Office, see the *PCT Applicant's Guide*, Volume II, in the relevant National Chapter.

Effect in Designated Offices (Rule 51bis.2): Where the applicant submits any of the declarations provided for in Rule 4.17(i) to (iv) containing the required standardized wording (either with the international application, or to the International Bureau within the relevant time limit under Rule 26ter, or directly to the designated Office during the national phase), the designated Office may not, in the national phase, require further documents or evidence on the matter to which the declaration relates, unless that designated Office may reasonably doubt the veracity of the declaration concerned.

Incompatibility of Certain Items of Rule 51bis.2(a) with National Laws (Rule 51bis.2(c)): The designated Offices listed below have informed the International Bureau that the applicable national law is not compatible in respect of the following declarations provided in Rule 4.17(i), (ii) and (iii). Those designated Offices are therefore entitled to require further documents or evidence on the matters to which those declarations relate.

Declaration as to the identity of the inventor (Rules 4.17(i) and 51bis.1(a)(i)): The respective national laws of CH Switzerland, DK Denmark and SE Sweden are not compatible with Rule 51bis.2(a)(i).

Declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51bis.1(a)(ii)): The respective national laws of CA Canada, CH Switzerland, DK Denmark, HU Hungary and SE Sweden are not compatible with Rule 51bis.2(a)(ii).

Declaration as to the applicant's entitlement as at the international filing date, to claim the priority of the earlier application (Rules 4.17(iii) and 51bis.1(a)(iii)): The respective national laws of CH Switzerland and DK Denmark are not compatible with Rule 51bis.2(a)(iii).

BOXES Nos. VIII (i) to (v) (IN GENERAL)

Different Declaration Boxes: There are six different declaration boxes in the pre-printed request form—one box for each of the five different types of declarations provided for in Rule 4.17 (Box No. VIII (i) to Box No. VIII (v)) and a continuation sheet (Continuation of Box No. VIII (i) to (v)) to be used in case any single declaration does not fit in the corresponding box. The title of each type of declaration which is found in the standardized wording provided for in the Administrative Instructions is pre-printed on the appropriate sheet of the request.

Separate Sheet for Each Declaration: Each declaration must start on a separate sheet of the request form in the appropriate Declaration Box.

Titles, Items, Item Numbers, Dotted Lines, Words in Parentheses and Words in Brackets: The prescribed standardized wording of the declarations includes titles, various items, item numbers, dotted lines, words in parentheses and words in brackets. Except for Box No. VIII (iv) which contains the pre-printed standardized wording, only those items which are applicable should be included in a declaration where necessary to support the statements in that declaration (that is, omit those items which do not apply) and item numbers need not be included. Dotted lines indicate where information is

required to be inserted. Words in parentheses are instructions to applicants as to the information which may be included in the declaration depending upon the factual circumstances. Words in brackets are optional and should appear in the declaration without the brackets if they apply; if they do not apply, they should be omitted together with the corresponding brackets.

Naming of Several Persons: More than one person may be named in a single declaration. In the alternative, with one exception, a separate declaration may be made for each person. With respect to the declaration of inventorship set forth in Box No. VIII (iv), which is applicable only for the purposes of the designation of the United States of America, all inventors must be indicated in a single declaration (see Notes to Box No. VIII (iv), below). The wording of declarations to be set forth in Boxes Nos. VIII (i), (ii), (iii) and (v) may be adapted from the singular to the plural as necessary.

Designated States to Which the Declarations Apply: Each declaration must indicate the designated States to which it applies. In this regard, the standardized wording of the declaration of inventorship (Box No. VIII (iv); see also Rule 4.17(iv) and Section 214) indicates in the title that it is for the purposes of the designation of the United States of America. The other declarations include prescribed wording to indicate whether the declaration is made for all designations or specific designations; one of these choices should always be included in the declaration. Where the declaration is for more than one person, the declaration may include separate statements indicating whether the declaration is made for all designations or specific designations with respect to each separate applicant. For example, this may be expected to occur where the request indicates different applicants for different States in accordance with Rule 4.5(d). However, in such a case, it is advisable to include a separate declaration for each person.

BOX No. VIII (i)

Declaration as to the Identity of the Inventor (Rule 4.17(i) and Section 211): The declaration must be worded as follows:

“Declaration as to the identity of the inventor (Rules 4.17(i) and 51bis.1(a)(i)):

in relation to [this] international application [No. PCT/...],

- (i) ... (*name*) of ... (*address*) is the inventor of the subject matter for which protection is sought by way of [the] [this] international application
- (ii) this declaration is made for the purposes of (*include as applicable*):
 - (a) all designations [except the designation of the United States of America]
 - (b) the following designations for national and/or regional patents: ...”

Such a declaration is not necessary in respect of any inventor who is indicated as such (either as inventor only or applicant and inventor) in Box No. II or No. III in accordance with Rule 4.5 or 4.6. However, where the inventor is indicated as applicant in Box No. II or No. III in accordance with Rule 4.5, a declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)) may be appropriate for the purposes of all designated States except the United States of America. Where indications regarding the inventor in accordance with Rule 4.5 or 4.6 are not included in Box No. II or No. III, this declaration may be combined with the prescribed wording of the declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)). For details on such a combined declaration, see Notes to Box No. VIII (ii), below. For details as to the declaration of inventorship for the purposes of the designation of the United States of America, see Notes to Box No. VIII (iv), below.

- i) une déclaration relative à l'identité de l'inventeur;
- ii) une déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet;
- iii) une déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure;
- iv) une déclaration relative à la qualité d'inventeur (seulement aux fins de la désignation des États-Unis d'Amérique);
- v) une déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté;

qui doivent être conformes au libellé standard fixé dans les instructions 211 à 215, respectivement, et qui doivent être présentées dans les cadres n^{os} VIII.i) à v), comme précisé ci-après. Lorsque de telles déclarations sont incluses, il convient de cocher les cases appropriées dans le cadre n^o VIII et d'indiquer dans la colonne de droite le nombre de déclarations de chaque type. En ce qui concerne les possibilités de correction ou d'adjonction d'une déclaration, voir la règle 26ter, l'instruction 216 et le *Guide du déposant du PCT*, volume I/A, partie générale.

Si les circonstances d'un cas particulier sont telles que les libellés standard ne sont pas applicables, le déposant s'abstiendra de faire les déclarations prévues à la règle 4.17, mais il devra satisfaire aux exigences de la législation nationale concernée lors de l'entrée dans la phase nationale.

Le fait qu'une déclaration soit faite en vertu de la règle 4.17 ne suffit pas à prouver les points sur lesquels elle porte; il appartient aux offices désignés de statuer sur l'effet de ces points dans les États désignés en fonction de la législation nationale applicable.

Même si le texte d'une déclaration ne respecte pas le libellé standard fixé dans les instructions administratives en vertu de la règle 4.17, tout office désigné est libre d'accepter ou non cette déclaration aux fins de la législation nationale applicable.

Précisions quant aux exigences des législations nationales : pour des précisions concernant les déclarations qui sont exigées par chaque office désigné, voir les chapitres nationaux pertinents dans le volume II du *Guide du déposant du PCT*.

Effets dans les offices désignés (règle 51bis.2) : lorsqu'un déposant remet l'une des déclarations visées à la règle 4.17.i) à iv) comportant le libellé standard exigé (soit avec la demande internationale, soit au Bureau international dans le délai applicable en vertu de la règle 26ter, ou directement à l'office désigné durant la phase nationale), l'office désigné ne peut, pendant la phase nationale, exiger d'autres documents ou preuves relatifs à l'objet auquel se rapporte la déclaration, à moins qu'il puisse raisonnablement douter de la véracité de la déclaration en question.

Incompatibilité de certains points de la règle 51bis.2.a) avec les législations nationales (règle 51bis.2.c) : les offices désignés dont la liste figure ci-après ont informé le Bureau international que la législation nationale qui leur est applicable n'est pas compatible en ce qui concerne les déclarations suivantes visées à la règle 4.17.i), ii) et iii). Ces offices désignés pourront donc exiger des documents ou des preuves supplémentaires relatifs aux objets auxquels se rapportent ces déclarations.

Déclaration relative à l'identité de l'inventeur (règles 4.17.i) et 51bis.1.a)i) : les législations nationales respectives de CH Suisse, DK Danemark et SE Suède ne sont pas compatibles avec la règle 51bis.2.a)i).

Déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet (règles 4.17.ii) et 51bis.1.a)ii) : les législations nationales

respectives de CA Canada, CH Suisse, DK Danemark, HU Hongrie et SE Suède ne sont pas compatibles avec la règle 51bis.2.a)ii).

Déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure (règles 4.17.iii) et 51bis.1.a)iii) : les législations nationales respectives de CH Suisse et DK Danemark ne sont pas compatibles avec la règle 51bis.2.a)iii).

CADRES N^{os} VIII j) à v) (GÉNÉRALITÉS)

Différents cadres pour déclarations : le formulaire pré-imprimé contient six cadres différents pour déclarations, un pour chacun des cinq types de déclarations prévues selon la règle 4.17 (du cadre n^o VIII.i) au cadre n^o VIII.v)) et une feuille annexe (Suite du cadre n^o VIII.i) à v)) à utiliser dans le cas où une des déclarations ne tient pas dans le cadre approprié. Le titre de chaque déclaration qui figure dans le libellé standard prévu dans les instructions administratives est pré-imprimé sur la feuille correspondante de la requête.

Feuille distincte pour chaque déclaration : chaque déclaration doit commencer sur une feuille distincte de la requête et dans le cadre pour déclaration approprié.

Titres, éléments, numéros d'éléments, lignes pointillées, mots entre parenthèses et mots entre crochets : le libellé standard fixé pour les déclarations comporte un titre, différents éléments, des numéros d'éléments, des lignes pointillées, des mots entre parenthèses et des mots entre crochets. Sauf en ce qui concerne le cadre n^o VIII.iv) dans lequel le libellé standard est pré-imprimé, seuls les éléments pertinents doivent figurer dans une déclaration lorsque cela est nécessaire à l'énoncé des faits invoqués dans cette déclaration (en d'autres termes, il y a lieu d'omettre les éléments non pertinents) et il n'est pas nécessaire d'inclure les numéros d'éléments. Les lignes pointillées signalent les endroits où il y a lieu d'indiquer les renseignements demandés. Les mots entre parenthèses indiquent au déposant quels renseignements peuvent être inclus dans la déclaration selon la situation de fait. Les mots entre crochets sont facultatifs; s'ils sont applicables, ils doivent figurer dans la déclaration sans les crochets; s'ils ne sont pas applicables, il convient de les omettre ainsi que les crochets.

Mention de plusieurs personnes : plusieurs personnes peuvent être mentionnées dans une même déclaration. Il est aussi possible, sauf dans un cas, de faire une déclaration distincte par personne. Pour la déclaration relative à la qualité d'inventeur, figurant dans le cadre n^o VIII.iv), qui est applicable seulement aux fins de la désignation des États-Unis d'Amérique, tous les inventeurs doivent être indiqués dans une même déclaration (voir les notes du cadre n^o VIII.iv), ci-après). Dans les déclarations devant figurer dans les cadres n^{os} VIII.i), ii), iii) et v), le libellé au singulier peut être mis au pluriel si cela s'avère nécessaire.

États désignés auxquels les déclarations s'appliquent : chaque déclaration doit comporter l'indication des États désignés auxquels elle s'applique. À cet égard, le libellé standard pour la déclaration relative à la qualité d'inventeur (cadre n^o VIII.iv); voir également la règle 4.17.iv) et l'instruction 214) indique dans le titre que la déclaration est faite aux fins de la désignation des États-Unis d'Amérique. Les autres déclarations comportent des libellés prescrits pour indiquer si la déclaration est faite aux fins de toutes les désignations ou aux fins de désignations particulières. Une de ces options doit toujours figurer dans la déclaration. Lorsque la déclaration est faite en ce qui concerne plusieurs personnes, elle peut comporter des mentions distinctes indiquant si elle est faite aux fins de toutes les désignations ou aux fins de désignations particulières en ce qui concerne chacun des déposants. Le cas peut par exemple se présenter si la requête indique des déposants différents pour différents États, conformément à la règle 4.5.d). Dans une telle situation,

Either (a) or (b) of item (ix) should always be included in the declaration. The remainder of the items may be incorporated as is necessary to explain the applicant's entitlement. ***This declaration is only applicable to those events which have occurred prior to the international filing date.*** The possible kinds of transfer of entitlement in item (vii) include merger, acquisition, inheritance, donation, etc. Where there has been a succession of transfers from the inventor, the order in which transfers are listed should follow the actual succession of transfers, and items may be included more than once, as necessary to explain the applicant's entitlement. Where the inventor is not indicated in Box No. II or No. III, this declaration may be presented as a combined declaration explaining the applicant's entitlement to apply for and be granted a patent and identifying the inventor. In such a case, the introductory phrase of the declaration must be as follows:

"Combined declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51*bis*.1(a)(ii)) and as to the identity of the inventor (Rules 4.17(i) and 51*bis*.1(a)(i)), in a case where the declaration under Rule 4.17(iv) is not appropriate:"

The remainder of the combined declaration must be worded as indicated in the preceding paragraphs.

"Declaration as to the applicant's entitlement, as at the international filing date, to claim the priority of the earlier application specified below, where the applicant is not the applicant who filed the earlier application or where the applicant's name has changed since the filing of the earlier application (Rules 4.17(iii) and 51*bis*.1(a)(iii)):

in relation to [this] international application [No. PCT/...],

- (vii) transfer of entitlement from ... (*name*) to ... (*name*) by way of ... (*specify kind of transfer*), dated ...
- (viii) the applicant's name changed from ... (*name*) to ... (*name*) on ... (*date*)
- (ix) this declaration is made for the purposes of (*include as applicable*):
 - (a) all designations

Either (a) or (b) of item (ix) should always be included in the declaration. The remainder of the items may be incorporated as is necessary to explain the applicant's entitlement. ***This declaration is only applicable to those events which have occurred prior to the international filing date.*** In addition, this declaration is only applicable where the person or name of the applicant is different from that of the applicant who filed the earlier application from which priority is claimed. For example, this declaration may be applicable where only one applicant out of five is different from the applicants indicated in respect of an earlier application. The possible kinds of transfer of entitlement in item (vii) include merger, acquisition, inheritance, donation, etc. Where there has been a succession of transfers from the applicant in respect of the earlier application, the order in which transfers are listed should follow the actual succession of transfers, and items may be included more than once, as necessary to explain the applicant's entitlement.

BOX No. VIII (iv)

Declaration of Inventorship (Rule 4.17(iv) and Section 214): The standardized wording for the declaration is pre-printed in Box No. VIII (iv).

toutefois, il est conseillé d'inclure une déclaration distincte par personne.

CADRE N° VIII.i)

Déclaration relative à l'identité de l'inventeur (règle 4.17.i) et instruction 211) : la déclaration doit être libellée comme suit:

“Déclaration relative à l'identité de l'inventeur (règles 4.17.i) et 51*bis*.1.a)i) :

concernant la [présente] demande internationale [n° PCT/...],

 - a) de toutes les désignations [sauf la désignation des États-Unis d'Amérique]
 - b) des désignations suivantes pour des brevets nationaux ou régionaux : ...”

Une déclaration de cette nature n'est pas nécessaire en ce qui concerne tout inventeur qui est indiqué comme tel (que ce soit comme inventeur seulement ou en qualité à la fois de déposant et d'inventeur) dans le cadre n° II ou le cadre n° III en application de la règle 4.5 ou 4.6. Toutefois, lorsque l'inventeur est indiqué comme étant le déposant dans le cadre n° II ou n° III en application de la règle 4.5, une déclaration relative au droit du déposant de demander et d'obtenir un brevet (règle 4.17.ii) peut être appropriée aux fins de tous les États désignés sauf des États-Unis d'Amérique. Lorsque les indications concernant l'inventeur qui sont à fournir en application de la règle 4.5 ou 4.6 ne sont pas portées dans le cadre n° II ou n° III, cette déclaration peut être combinée avec le libellé standard pour la déclaration relative au droit du déposant de demander et d'obtenir un brevet (règle 4.17.ii)). Pour des précisions concernant cette déclaration combinée, voir les notes du cadre n° VIII.ii), ci-après. Pour des précisions quant à la déclaration relative à la qualité d'inventeur aux fins de la désignation des États-Unis d'Amérique, voir les notes du cadre n° VIII.iv), ci-après.

CADRE N° VIII.ii)

L'une ou l'autre des variantes a) et b) du point ix) doit toujours être incluse dans la déclaration. On ne retiendra parmi les autres éléments que ceux qui sont nécessaires pour motiver le droit du déposant. **Cette déclaration est exclusivement applicable à des faits qui se sont produits avant la date du dépôt international.** Les types possibles de transfert de droits visés au point vii) comprennent la fusion, l'acquisition, l'héritage, la donation, etc. Lorsqu'il y a eu succession de transferts des droits de l'inventeur, l'ordre dans lequel les transferts sont énumérés doit suivre l'ordre effectif de ces transferts successifs et certains points peuvent être cités plus d'une fois si cela s'avère nécessaire pour motiver le droit du déposant. Lorsque l'inventeur n'est pas indiqué dans le cadre n° II ou le cadre n° III, cette déclaration peut être présentée sous la forme d'une déclaration combinée motivant le droit du déposant de demander et d'obtenir un brevet et permettant d'identifier l'inventeur. Dans un tel cas, la phrase introductive de la déclaration est libellée comme suit :

“Déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande indiquée ci-dessous si le déposant n'est pas celui qui a déposé la demande antérieure ou si son nom a changé depuis le dépôt de la demande antérieure (règles 4.17.iii) et 51*bis*.1.a)iii)) :

BOX No. IX

Items Constituting the International Application: The number of sheets of the various parts of the international application must be given in the check list in Arabic numerals. Sheets containing any of Boxes Nos. VIII (i) to (v) must be counted as part of the request.

Where the application contains disclosure of one or more *nucleotide and/or amino acid sequences*, the applicant has the following three options.

First, the applicant may choose to file the sequence listing part *in paper form only*, in which case the number of sheets must be indicated under item (a) in the left column of Box No. IX (and therefore included in the total number of sheets), noting that, a copy of that sequence listing part, in computer readable form, may accompany the international application but only for the purposes of international search under Rule 13*ter*; in such a case, check-boxes Nos. 9 and 9(i) and, where applicable, 9(iii) must be marked in the right column of Box No. IX.

Second, the applicant may choose to file the sequence listing part *in computer readable form only*, under Section 801(a)(i), in which case check-box b(i) must be marked but the space for the number of sheets of the sequence listing part under item (a) must be left blank; the type and number of carriers must also be indicated on the dotted line under item (b); in addition, check-boxes Nos. 9, 9(ii) and, where applicable,

9(iii) must be marked if additional copies of the sequence listing in computer readable form are furnished.

Third, the applicant may choose to file the sequence listing part *both in computer readable form and in paper form* under Section 801(a)(ii), in which case check-box b(ii) must be marked and the number of sheets of that part in paper form must be indicated under item (a) (although that number of sheets will not be taken into account for calculation of the basic fee); the type and number of carriers must also be indicated on the dotted line under item (b); in addition, check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked if additional copies of the sequence listing in computer readable form are furnished.

Under all three options described above, the sequence listings must be presented as a separate part of the description (“sequence listing part of description”) in accordance with the standard contained in Annex C of the Administrative Instructions.

Items Accompanying the International Application:

Where the international application is accompanied by certain items, the applicable check-boxes must be marked, any applicable indication must be made on the dotted line after the applicable item, and the number of such items should be indicated at the end of the relevant line; detailed explanations are provided below only in respect of those items which so require.

Check-box No. 4: Mark this check-box where a copy of a general power of attorney is filed with the international application; where the general power of attorney has been deposited with the receiving Office, and that Office has accorded to it a reference number, that number may be indicated.

Check-box No. 5: Mark this check-box where a statement explaining the lack of signature of an inventor/applicant for the purposes of the United States of America is furnished together with the international application (see also Notes to Box No. X).

Check-box No. 7: Mark this check-box where a translation of the international application for the purposes of international search (Rule 12.3) is filed together with the international application and indicate the language of that translation.

Check-box No. 8: Mark this check-box where a filled-in Form PCT/RO/134 or any separate sheet containing indications concerning deposited microorganisms and/or other biological material is filed with the international application. If Form PCT/RO/134 or any sheet containing the said indications is included as one of the sheets of the description (as required by certain designated States (see the *PCT Applicant's Guide*, Volume I/B, Annex L)), do not mark this check-box (for further information, see Rule 13*bis* and Section 209).

Check-box No. 9: Where the international application contains a sequence listing part and a copy thereof in computer readable form is required by the ISA, the applicant may furnish the listing in computer readable form (together with the required statement) to the receiving Office with the international application, in which case check-boxes Nos. 9, 9(i) and, where applicable, 9(iii) must be marked. Where the applicant has chosen the second or third option mentioned above, and an additional copy or copies of the sequence listing part in computer readable form are required under Section 804, the applicant may furnish such additional copies together with the international application, in which case check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked. In all cases mentioned above, the applicant should indicate in the left column the type and number of diskettes, CD-ROMs, CD-Rs, or other data carriers furnished.

L'un des éléments a), b), c) ou d) du point i) doit toujours être inclus dans la déclaration. Le point ii) doit aussi toujours être inclus dans la déclaration. L'un ou l'autre des éléments a) et b) du point v) doit toujours figurer dans la déclaration. Les points iii) et iv) peuvent être incorporés s'il y a lieu.

CADRE N° IX

Éléments constituant la demande internationale : Il faut indiquer en chiffres arabes, dans le bordereau, le nombre de feuilles des différentes parties de la demande internationale. Toute feuille sur laquelle figure l'un quelconque des cadres n°s VIII.i) à v) doit être comptée comme faisant partie de la requête.

Lorsque la demande internationale contient la divulgation d'une ou de plusieurs *séquences de nucléotides ou d'acides aminés*, le déposant dispose des trois options suivantes.

Premièrement, le déposant peut choisir de déposer la partie réservée au listage des séquences *sous forme papier seulement*, auquel cas le nombre de feuilles doit être indiqué au point a) de la colonne de gauche du cadre n° IX (et par conséquent compris dans le nombre total de feuilles); on notera dans ce cas qu'une copie de la partie réservée au listage des séquences, sous forme déchiffrable par ordinateur, peut être remise avec la demande internationale mais seulement aux fins de la recherche internationale en vertu de la règle 13ter; dans ce cas, les cases n°s 9, 9.i) et, le cas échéant, 9.iii), doivent être cochées dans la colonne de droite du cadre n° IX.

Deuxièmement, le déposant peut choisir de déposer la partie réservée au listage des séquences *sous forme déchiffrable par ordinateur seulement*, en vertu de l'instruction 801.a)i), auquel cas la case b)i) doit être cochée mais l'endroit réservé au nombre de feuilles de ladite partie sous le point a) doit être laissé en blanc; le type et le nombre de supports doivent également être indiqués sur la ligne pointillée sous le point b). De plus, les cases n°s 9, 9.ii) et, le cas échéant, 9.iii), doivent être cochées si on joint des exemplaires supplémentaires du listage des séquences sous forme déchiffrable par ordinateur.

Troisièmement, le déposant peut choisir de déposer la partie réservée au listage des séquences *à la fois sous forme déchiffrable par ordinateur et sous forme papier*, en vertu de l'instruction 801.a)ii), auquel cas la case b)ii) doit être cochée et le nombre de feuilles de ladite partie, sous forme papier, doit être indiqué sous le point a) (bien que ce nombre de feuilles ne soit pas utilisé aux fins du calcul de la taxe de base); le type et le nombre de supports doivent également être indiqués sur la ligne pointillée sous le point b). De plus, les cases n°s 9, 9.ii) et, le cas échéant, 9.iii), doivent être cochées si on joint des exemplaires supplémentaires du listage des séquences sous forme déchiffrable par ordinateur.

Dans le cadre des trois options décrites ci-dessus, les listages des séquences doivent être présentés dans une partie distincte de la description (“partie de la description réservée au listage des séquences”) conformément à la norme figurant dans l'annexe C des instructions administratives.

Éléments joints à la demande internationale : lorsque des éléments sont joints à la demande internationale, les cases

CADRE N° VIII.iv)

Déclaration relative à la qualité d'inventeur (règle 4.17.iv) et instruction 214) : le libellé standard pour la déclaration est pré-imprimé au cadre n° VIII.iv).

Tous les inventeurs doivent être mentionnés dans la déclaration même s'ils ne signent pas tous la même (copie de la) déclaration (instruction 214.b)). Les données bibliographiques, telles que l'adresse du domicile et la nationalité, doivent être fournies pour chaque inventeur. Dans le cas d'une déclaration incluse dans la requête, il n'est pas nécessaire que le ou les inventeurs signent ou datent la déclaration s'ils ont signé eux-mêmes dans le cadre n° X de la requête.

CADRE N° VIII.v)

Déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté (règle 4.17.v) et instruction 215) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à iv), qui s'avérerait nécessaire :

“Déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté (règles 4.17.v) et 51bis.1.a)v) :

... (*nom*) déclare que l'objet revendiqué dans [la] [ladite] demande internationale a été divulgué comme suit :

- i) nature de la divulgation (*préciser selon le cas*) :

Language of Filing of the International Application (Rules 12.1(a) and 20.4(c) and (d)): With regard to the language in which the international application is filed, for the purposes of according an international filing date, it is, subject to the following sentence, sufficient that the description and the claims are in the language, or one of the languages, accepted by the receiving Office for the filing of international applications; that language should be indicated in that check-box (as regards the language of the abstract and any text matter in the drawings, see Rules 26.3ter(a) and (b); as regards the language of the request, see Rules 12.3(c) and 26.3ter(c) and (d)). Note that where the international application is filed with the United States Patent and Trademark Office as receiving Office, all elements of the international application (request, description, claims, abstract, text matter of drawings) must, for the purposes of according an international filing date, be in English except that the free text in any sequence listing part of the description, complying with the standard set out in Annex C of the Administrative Instructions, may be in a language other than English.

BOX No. X

Signature (Rules 4.1(d), 4.15 and 90): The signature must be that of the applicant (if there are several applicants, all must sign); however, the signature may be that of the agent, or the common representative, where a separate power of attorney appointing the agent or the common representative, respectively, or a copy of a general power of attorney already in the possession of the receiving Office, is furnished. If the power is not filed with the request, the receiving Office will invite the applicant to furnish it.

If the United States of America is designated and an inventor/applicant for that State refused to sign the request or could not be found or reached after diligent effort, a statement explaining the lack of signature may be furnished. It should be noted that this applies only where there are two or more applicants and the international application has been signed by at least one other applicant. The statement must satisfy the receiving Office. If such a statement is furnished with the international application, check-box No. 5 in Box No. IX should be marked.

SUPPLEMENTAL BOX

The cases in which the Supplemental Box may be used and the manner of making indications in it are explained in the left column of that Box.

GENERAL REMARKS

Language of Correspondence (Rule 92.2 and Section 104): Any letter from the applicant to the receiving Office must be in the language of filing of the international application provided that, where the international application is to be published in the language of a translation required under Rule 12.3, such letter should be in the language of that translation; however, the receiving Office may authorize the use of another language.

Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Any letter from the applicant to the ISA must be in the same language as the international application, provided that, where a translation of the international application for the purposes of international search has been transmitted under Rule 23.1(b), such letter is in the language of that translation. However, the ISA may authorize the use of another language.

Arrangement of Elements and Numbering of Sheets of the International Application (Rule 11.7 and Section 207): The elements of the international application must be placed in the following order: the request, the description (excluding the sequence listing part, if any), the claim(s), the abstract, the drawings (if any), the sequence listing part of the description (if any).

All sheets of the description (excluding the sequence listing part), claims and abstract must be numbered in consecutive Arabic numerals, which must be placed at the top or bottom of the sheet, in the middle, but not in the margin which must remain blank. The number of each sheet of the drawings must consist of two Arabic numerals separated by an oblique stroke, the first being the sheet number and the second being the total number of sheets of drawings (for example, 1/3, 2/3, 3/3). For numbering of the sheets of the sequence listing part of the description, see Section 207.

Indication of the Applicant's or Agent's File Reference on the sheets of the description (excluding the sequence listing part, if any), claim(s), abstract, drawings and sequence listing part of the description (Rule 11.6(f)): The file reference indicated on the request may also be indicated in the left-hand corner of the top margin, within 1.5 cm from the top of any sheet of the international application.

appropriées doivent être cochées et toute indication pertinente doit être portée sur la ligne pointillée correspondante, le nombre de chacun de ces éléments devant être indiqué dans la colonne, en fin de ligne; on trouvera ci-après des explications détaillées concernant uniquement les éléments qui le nécessitent.

Case n° 4 : cocher cette case si la copie d'un pouvoir général est déposée avec la demande internationale; lorsque le pouvoir général a été déposé auprès de l'office récepteur, et que celui-ci lui a attribué un numéro de référence, ce dernier peut être indiqué.

Case n° 5 : cocher cette case si une explication de l'absence de signature d'un inventeur/déposant pour les États-Unis d'Amérique est fournie conjointement avec la demande internationale (voir aussi les notes du cadre n° X).

Case n° 7 : cocher cette case si une traduction de la demande internationale aux fins de la recherche internationale (règle 12.3) est fournie conjointement avec cette demande et indiquer la langue de la traduction.

Case n° 8 : cocher cette case si, avec la demande internationale, est déposé un formulaire PCT/RO/134 rempli ou une ou plusieurs feuilles séparées comportant des indications relatives à des micro-organismes ou autre matériel biologique déposés. Si le formulaire PCT/RO/134 ou toute autre feuille comportant les indications en question figurent en tant que feuilles de la description (comme le prescrivent certains États désignés (voir le *Guide du déposant du PCT*, volume I/B, annexe L), ne pas cocher cette case (pour de plus amples renseignements, voir la règle 13*bis* et l'instruction 209).

Case n° 9 : lorsque la demande internationale contient une partie réservée au listage des séquences et qu'une copie de cette dernière, sous forme déchiffrable par ordinateur, est requise par l'administration chargée de la recherche internationale, le déposant peut fournir, conjointement avec la demande internationale, le listage en question sous forme déchiffrable par ordinateur (ainsi que la déclaration requise) à l'office récepteur. Si tel est le cas, les cas n° 9, 9.i) et, le cas échéant, 9.iii) doivent être cochés. Lorsque le déposant a choisi la deuxième ou la troisième option mentionnée ci-dessus, et qu'un ou plusieurs exemplaires supplémentaires de la partie réservée au listage des séquences sont requis en vertu de l'instruction 804, le déposant peut remettre de tels exemplaires supplémentaires, conjointement avec la demande internationale, auquel cas les cas n° 9, 9.ii) et, le cas échéant, 9.iii) doivent être cochés. Dans tous les cas mentionnés ci-dessus, le déposant doit indiquer le type et le nombre de disquettes, CD-ROM, CD-R ou autres supports de données qu'il a remis.

Langue de dépôt de la demande internationale (règles 12.1.a) et 20.4.c) et d)) : en ce qui concerne la langue dans laquelle la demande internationale est déposée, il suffit, aux fins de l'attribution d'une date de dépôt international, et sous réserve de la phrase suivante, que la description et les revendications soient rédigées dans la langue ou l'une des langues acceptées par l'office récepteur pour le dépôt de demandes internationales; cette langue doit être indiquée dans cette case (en ce qui concerne la langue de l'abrégé et de tout texte des dessins, voir la règle 26.3*ter.a*) et b); en ce qui concerne la langue de la requête, voir les règles 12.3.c) et 26.3*ter.c*) et d)). On notera que, lorsque la demande internationale est déposée auprès de l'Office des brevets et des marques des États-Unis d'Amérique en sa qualité d'office récepteur, tous les éléments de la demande internationale (requête, description, revendications, abrégé, texte des dessins) doivent, aux fins de l'attribution d'une date de dépôt international, être rédigés en anglais, hormis tout texte libre contenu dans la partie de la description réservée au listage des séquences conforme à la norme figurant dans l'annexe C des instructions administratives, qui peut être rédigé dans une langue autre que l'anglais.

CADRE N° X

Signature (règles 4.1.d), 4.15 et 90) : la signature doit être celle du déposant (s'il y a plusieurs déposants, tous doivent

signer); il peut toutefois s'agir de la signature du mandataire ou du représentant commun, si un pouvoir distinct désignant le mandataire ou le représentant commun, respectivement, ou une copie du pouvoir général déjà détenu par l'office récepteur est fourni. Si la requête n'est pas déposée avec le pouvoir, l'office récepteur invitera le déposant à le remettre.

Si les États-Unis d'Amérique sont désignés et qu'un déposant pour cet État qui a la qualité d'inventeur a refusé de signer la requête ou que des efforts diligents n'ont pas permis de le trouver ou d'entrer en rapport avec lui, il est possible de fournir une explication de l'absence de signature. Cela vaut uniquement lorsqu'il y a plusieurs déposants et que la demande internationale a été signée par au moins un autre déposant. L'explication doit être jugée satisfaisante par l'office récepteur. Si cette explication est remise conjointement avec la demande internationale, il y a lieu de cocher la case n° 5 du cadre n° IX.

CADRE SUPPLÉMENTAIRE

Les cas dans lesquels le cadre supplémentaire peut être utilisé et la manière de fournir les indications prévues dans ce cadre sont expliqués dans la colonne de gauche de celui-ci.

REMARQUES GÉNÉRALES

Toute lettre du déposant au Bureau international doit être rédigée dans la même langue que la demande internationale si celle-ci est établie en français ou en anglais; sinon, elle doit être rédigée en français ou en anglais, au choix du déposant.

Toute lettre du déposant à l'administration chargée de la recherche internationale doit être rédigée dans la même langue que la demande internationale étant entendu que, lorsqu'une traduction de la demande internationale aux fins de la recherche internationale a été transmise en vertu de la règle 23.1.b), cette lettre doit être rédigée dans la langue de cette traduction. Cependant, l'administration chargée de la recherche internationale peut autoriser l'emploi d'une autre langue.

Disposition des éléments et numérotation des feuilles de la demande internationale (règle 11.7 et instruction 207) : les éléments de la demande internationale doivent être présentés dans l'ordre suivant : requête, description (sauf la partie de la description réservée au listage des séquences, le cas échéant), revendication(s), abrégé, dessins (le cas échéant), partie de la description réservée au listage des séquences, le cas échéant.

Toutes les feuilles de la description (sauf la partie réservée au listage des séquences), les revendications et l'abrégé doivent être numérotés consécutivement, en chiffres arabes qui doivent être inscrits, en milieu de ligne, en haut ou en bas de la feuille mais non dans la marge, qui doit rester vierge. Le numéro de chaque feuille des dessins doit consister en deux nombres en chiffres arabes séparés par une barre oblique, le premier indiquant le numéro de la feuille et le second le nombre total des feuilles de dessins (par exemple : 1/3, 2/3, 3/3). Pour la numérotation des feuilles de la partie de la description réservée au listage des séquences, se référer à l'instruction 207.

Indication de la référence du dossier du déposant ou du mandataire sur les feuilles de la description (sauf la partie de la description réservée au listage des séquences, le cas échéant), de la ou des revendications, de l'abrégé, des dessins et de la partie de la description réservée au listage des séquences (règle 11.6.f)) : la référence de dossier indiquée sur la requête peut l'être également sur chaque feuille de la demande internationale, dans le coin gauche de la marge du haut, sans toutefois apparaître au-delà de 1,5 cm à partir du haut.

This sheet is not part of and does not count as a sheet of the international application.

NOTES TO THE FEE CALCULATION SHEET (ANNEX TO FORM PCT/RO/101)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete the sheet by entering the appropriate amounts in the boxes provided and submit the fee calculation sheet at the time of filing the international application. This will help the receiving Office to verify the calculations and to identify any error in them.

Information about the applicable fees payable can be obtained from the receiving Office. The amounts of the international and search fees may change due to currency fluctuations. Applicants are advised to check what are the latest applicable amounts. All fees, except in some cases the designation fee, must be paid within one month from the date of receipt of the international application. See below for further details concerning the possibility of later payment of the designation fee.

CALCULATION OF PRESCRIBED FEES

Box T: Transmittal Fee for the benefit of the receiving Office (Rule 14.1): The amount of the transmittal fee, if any, is fixed by the receiving Office. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box S: Search Fee for the benefit of the International Searching Authority (ISA) (Rule 16.1): The amount of the search fee is fixed by the ISA. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex D.

Where two or more ISAs are competent, the applicant must indicate his choice in the space provided for this purpose and pay the amount of the international search fee fixed by the ISA chosen. Information on the competent ISA and whether the applicant has a choice between two or more ISAs is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box I: International Fee for the benefit of the International Bureau (Rule 15): The international fee consists of a basic fee and as many designation fees as there are specific designations under Rule 4.9(a) in Box No. V of the request. The amounts of the basic fee and of the designation fee are as set out in Swiss francs in the Schedule of Fees and the applicable amounts of those fees in other currencies are as published in the *PCT Gazette* (Rule 15.2). Information about those fees is also contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Reduction of the International Fee Where PCT-EASY Software Is Used: A fee reduction of 200 Swiss francs (or the equivalent in the currency in which the international fee is paid to the receiving Office) is available in certain cases where the PCT-EASY software is used to prepare the request, provided that the necessary conditions are met. For further details, see the *PCT Applicant's Guide*, Volume I/A, General Part, and Volume I/B, Annex C, as well as information published in the *PCT Gazette* and the *PCT Newsletter*. Since applicants using the PCT-EASY software will file the Request Form and Fee Calculation Sheet in the form of a printout prepared using that software, no provision is made for this fee reduction in the Fee Calculation Sheet annexed to Form PCT/RO/101.

Reduction of the International Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the international fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the international fee (basic fee and designation fees) is automatically available to any applicant

(or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Boxes Nos. II and III of the request.

The fee reduction is available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic, CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CO Colombia, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EC Ecuador, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GQ Equatorial Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PH Philippines, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TN Tunisia, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VN Viet Nam, YU Yugoslavia, ZA South Africa, ZM Zambia and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the International Fee (Basic Fee and Designation Fees) in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the international fee, the total to be entered at box I is 25% of the sum of the amounts entered at boxes B and D (see below).

Box B: Basic Fee. The amount of the basic fee depends on the number of sheets of the international application indicated under item (a) of Box No. IX of the request as explained below.

That number is the **Total number of sheets** where item (b) of Box No. IX of the request does not apply (that is, where the international application either does not contain a sequence listing part or where it contains such a part but not filed in computer readable form under Section 801(a)(i) or (ii)), in such a case, item "b3" must not be filled in.

Otherwise, where item (b) of Box No. IX of the request applies (that is, where the international application contains a sequence listing part which is filed in computer readable form

NOTES RELATIVES A LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/RO/101)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre au moment du dépôt de la demande internationale, ce qui permettra à l'office récepteur de vérifier les calculs et d'y déceler d'éventuelles erreurs.

Des renseignements sur le montant en vigueur des taxes à payer peuvent être obtenus auprès de l'office récepteur. Les montants de la taxe internationale et de la taxe de recherche peuvent varier en raison de fluctuations monétaires. Il est recommandé aux déposants de vérifier quels sont les tout derniers montants en vigueur. Toutes les taxes sauf, dans certains cas, la taxe de désignation doivent être payées dans un délai d'un mois à compter de la date de réception de la demande internationale. On trouvera ci-après quelques précisions supplémentaires relatives à un éventuel paiement différé de la taxe de désignation.

CALCUL DES TAXES PRESCRITES

Cadre T : Taxe de transmission au profit de l'office récepteur (règle 14.1) : l'office récepteur fixe le montant de la taxe de transmission, s'il y en a une. Celui-ci doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT*, volume I/B, annexe C.

Cadre S : Taxe de recherche au profit de l'administration chargée de la recherche internationale (règle 16.1) : le montant de la taxe de recherche est fixé par l'administration chargée de la recherche internationale. Il doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT*, volume I/B, annexe D.

Lorsque plusieurs administrations chargées de la recherche internationale sont compétentes, le déposant doit indiquer son choix à l'emplacement prévu à cet effet et payer le montant de la taxe de recherche internationale fixé par l'administration qu'il a choisie. Le *Guide du déposant du PCT*, volume I/B, annexe C, donne des renseignements sur l'administration chargée de la recherche internationale qui est compétente et sur la question de savoir si le déposant a le choix entre plusieurs administrations chargées de la recherche internationale.

Cadre I : Taxe internationale au profit du Bureau international (règle 15) : la taxe internationale comprend une taxe de base et autant de taxes de désignation qu'il y a de désignations faites expressément selon la règle 4.9.a) dans le cadre n° V de la requête. Les montants de la taxe de base et de la taxe de désignation sont fixés en francs suisses dans le barème des taxes et les montants correspondants de ces taxes dans d'autres monnaies sont publiés dans la *Gazette du PCT* (règle 15.2). On peut trouver des renseignements sur ces taxes dans le *Guide du déposant du PCT*, volume I/B, annexe C.

Réduction de la taxe internationale dans le cas de l'utilisation du logiciel PCT-EASY : une réduction de 200 francs suisses (ou l'équivalent dans la monnaie dans laquelle la taxe internationale est payée à l'office récepteur) peut être obtenue dans certains cas où le logiciel PCT-EASY est utilisé pour la préparation de la requête, à condition que les conditions nécessaires soient remplies. On peut trouver des précisions sur cette réduction dans le *Guide du déposant du PCT*, volume I/A, partie générale, et volume I/B, annexe C, ainsi que dans les informations publiées dans la *Gazette du PCT* et le bulletin *PCT Newsletter*. Étant donné que les déposants qui utilisent le logiciel PCT-EASY déposeront le formulaire de requête et la feuille de calcul des taxes sous la forme d'un imprimé produit par ordinateur à l'aide de ce logiciel, la feuille de calcul des taxes annexée au formulaire PCT/RO/101 ne prévoit pas cette réduction de taxe.

Réduction de la taxe internationale pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75 % de certaines taxes du PCT, dont la taxe internationale. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe internationale (taxe de base et taxe de désignation) s'applique automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans les cadres n°s II et III de la requête.

La réduction de la taxe s'applique même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus, BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CO Colombie, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EC Équateur, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GQ Guinée équatoriale, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, PH Philippines, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TN Tunisie, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud, ZM Zambie et ZW Zimbabwe. En ce qui concerne d'autres États, il convient de s'adresser au Bureau international.

Calcul de la taxe internationale (taxe de base et taxes de désignation) en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe

only, under Section 801(a)(i), or both in that form and in paper form under Section 801(a)(ii)), the number of sheets to be used for the purpose of calculating the amount of the basic fee is the **Sub-total number of sheets**. In such a case, item "b3" must be filled in on the basis that the sequence listing part in computer readable form is considered to be equal to 400 sheets (see Section 803).

The basic fee must be paid within one month from the date of receipt of the international application by the receiving Office.

Box D: Designation Fees. Subject to what is said below, the number of designation fees due corresponds to the number of check-boxes marked in Box No. V of the request.

The number of designation fees which are due is the same as the number of national patents and regional patents in respect of which specific designations under Rule 4.9(a) are made. Only one designation fee is due for the designation AP, the designation EA, the designation EP or the designation OA, irrespective of the number of States for which an ARIPO patent, a Eurasian patent, a European patent or an OAPI patent, respectively, is sought.

Where any States are designated twice (once for the purposes of an ARIPO patent, a Eurasian patent or a European patent and once for the purposes of national protection), the applicant must pay one designation fee in respect of the ARIPO patent, the Eurasian patent or the European patent and a further designation fee in respect of each national patent or other kind of protection sought (Rule 15.1(ii) and Section 210).

Any designation, in excess of five designations for which the fee is due, is free of charge. Therefore, the maximum amount to be indicated in box D is five times the amount of the designation fee. If, for example, 15 national patents and four regional patents (an ARIPO patent, a Eurasian patent, a European patent and an OAPI patent) are sought (totalling 19 designations), the figure to be indicated in box D is five times the amount of the designation fee.

The designation fees must be paid within one month from

the date of receipt of the international application by the receiving Office or one year from the priority date, whichever time limit expires later.

Box P: Fee for Priority Document (Rule 17.1(b)): Where the applicant has requested, by marking the applicable check-box in Box No. VI of the request, that the receiving Office prepare and transmit to the International Bureau a certified copy of the earlier application the priority of which is claimed, the amount of the fee prescribed by the receiving Office for such service may be entered (for information, see the *PCT Applicant's Guide*, Volume I/B, Annex C).

If that fee is not paid at the latest before the expiration of 16 months from the priority date, the receiving Office may consider the request under Rule 17.1(b) as not having been made.

Total Box: The total of the amounts entered in boxes T, S, I and P should be entered in this box. If the applicant so wishes, the currency in which the fees are paid may be indicated next to or in the total box.

Later Payment of Designation Fees: Where the time limit of one year from the priority date expires later than one month from the date of receipt of the international application by the receiving Office, and the applicant wishes to delay the payment of the designation fees, it is recommended that the corresponding check-box be marked.

MODE OF PAYMENT

In order to help the receiving Office identify the mode of payment of the prescribed fees, it is recommended that the applicable check-box(es) be marked.

AUTHORIZATION TO CHARGE (OR CREDIT) DEPOSIT ACCOUNT

The receiving Office will not charge (or credit) fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

internationale, la somme devant figurer sous I est égale à 25 % de la somme des montants figurant sous B et D (voir ci-dessous).

Cadre B : Taxe de base. Le montant de la taxe de base est fonction du nombre de feuilles de la demande internationale indiqué au point a) du cadre n° IX de la requête comme expliqué ci-dessous.

Ce nombre est le **nombre total de feuilles** lorsque le point b) du cadre n° IX de la requête ne s'applique pas (c'est-à-dire, si la demande internationale ne contient pas une partie réservée au listage des séquences ou qu'elle contient une telle partie mais que cette dernière n'est pas déposée sous forme déchiffrable par ordinateur en vertu de l'instruction 801.a)ii) ou ii)), dans ce cas, le point "b3" ne doit pas être rempli.

Sinon, lorsque le point b) du cadre n° IX de la requête s'applique (c'est-à-dire, si la demande internationale contient une partie réservée au listage des séquences qui est déposée sous forme déchiffrable par ordinateur seulement, en vertu de l'instruction 801.a)ii), ou à la fois sous cette forme et sous forme papier en vertu de l'instruction 801.a)ii), le nombre de feuilles à utiliser pour le calcul du montant de la taxe de base est le **sous-total des feuilles**. Dans un tel cas, le point "b3" doit être rempli étant entendu que la partie réservée au listage des séquences sous forme déchiffrable par ordinateur est considérée comporter 400 pages (voir l'instruction 803).

La taxe de base doit être payée dans un délai d'un mois à compter de la date de réception de la demande internationale par l'office récepteur.

Cadre D : Taxes de désignation. Sous réserve de ce qui suit, le nombre de taxes de désignation dues correspond au nombre de cases cochées dans le cadre n° V de la requête.

Sont dues autant de taxes de désignation qu'il y a de brevets nationaux et de brevets régionaux pour lesquels une désignation expresse a été faite en vertu de la règle 4.9.a). Une seule taxe de désignation est due pour la désignation AP, la désignation EA, la désignation EP ou la désignation OA, quel que soit le nombre d'États pour lesquels un brevet ARIPO, un brevet eurasiatique, un brevet européen ou un brevet OAPI, respectivement, est demandé.

Si un ou plusieurs États sont désignés deux fois (une fois aux fins d'un brevet ARIPO, d'un brevet eurasiatique ou d'un brevet européen et une fois aux fins d'une protection nationale), le déposant doit payer une taxe de désignation pour le brevet ARIPO, le brevet eurasiatique ou le brevet européen et une autre taxe de désignation pour chaque brevet ou autre forme de protection nationale demandé (règle 15.1.ii) et instruction 210).

Toute désignation faite au-delà de cinq désignations soumises à la taxe est gratuite. Le montant maximum à

indiquer dans le cadre D est donc de cinq fois le montant de la taxe de désignation. Si, par exemple, 15 brevets nationaux et quatre brevets régionaux (un brevet ARIPO, un brevet eurasiatique, un brevet européen et un brevet OAPI) sont demandés (soit un total de 19 désignations), la somme à indiquer dans le cadre D est de cinq fois le montant de la taxe de désignation.

Les taxes de désignation doivent être payées dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale ou d'un an à compter de la date de priorité, le délai applicable étant celui des deux qui arrive à expiration le plus tard.

Cadre P : Taxe afférente au document de priorité (règle 17.1.b)) : si, en cochant la case appropriée dans le cadre n° VI de la requête, le déposant a demandé que l'office récepteur prépare et transmette au Bureau international une copie certifiée conforme de la demande antérieure dont la priorité est revendiquée, il peut indiquer le montant de la taxe prescrite par l'office récepteur pour ce service (pour plus de renseignements, voir le *Guide du déposant du PCT*, volume I/B, annexe C).

Si cette taxe n'est pas payée au plus tard avant l'expiration d'un délai de 16 mois à compter de la date de priorité, l'office récepteur peut considérer la requête selon la règle 17.1.b) comme n'ayant pas été présentée.

Total : le total des montants inscrits dans les cadres T, S, I et P doit être porté dans ce cadre. Le déposant peut, s'il le souhaite, indiquer à proximité ou à l'intérieur du cadre "Total" la monnaie dans laquelle il paie les taxes.

Paiement différé des taxes de désignation : si le délai d'un an à compter de la date de priorité arrive à expiration plus d'un mois après la date à laquelle l'office récepteur reçoit la demande internationale, et que le déposant souhaite différer le paiement des taxes de désignation, il est recommandé de cocher la case appropriée.

MODE DE PAIEMENT

Pour aider l'office récepteur à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

L'office récepteur ne débitera (ou ne créditera) un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.

The demand must be filed directly with the competent International Preliminary Examining Authority or, if two or more Authorities are competent, with the one chosen by the applicant. The full name or two-letter code of that Authority may be indicated by the applicant on the line below:

NOTES TO THE DEMAND FORM (PCT/IPEA/401)

These Notes are intended to facilitate the filling in of the demand form and to give some information concerning international preliminary examination under Chapter II of the Patent Cooperation Treaty (PCT). For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the PCT, the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the demand form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with dark ink (Rules 11.9(a) and (b) and 11.14).

The demand form and these Notes may be downloaded from WIPO's Website at the address given above.

IMPORTANT GENERAL INFORMATION

Who May File a Demand? (Article 31(2)(a) and Rule 54): A demand (for international preliminary examination) may only be filed by an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II of the PCT; furthermore, the international application must have been filed with a receiving Office of, or acting for, a State bound by Chapter II. Where there are two or more applicants (for the same or different elected States) at least one of them must qualify.

Where Must the Demand Be Filed? (Article 31(6)(a)): The demand must be filed with a competent International Preliminary Examining Authority (IPEA). The receiving Office with which the international application was filed will, upon request, give information about the competent IPEA (or see the *PCT Applicant's Guide*, Volume I/B, Annex C). If several IPEAs are competent, the applicant has the choice and the demand must be filed with (and the fees must be paid to) the IPEA chosen by the applicant. The IPEA chosen by the applicant may be identified, preferably by an indication of the name or two-letter code of the IPEA, at the top of the first sheet of the demand in the space provided for that purpose.

When Must the Demand Be Filed? (Article 39(1)): The demand must be filed before the expiration of *19 months from the priority date* in order to extend the time limit for entering the national phase of the PCT procedure from 20 to 30 months from the priority date. *Warning:* if the demand is filed later, the national phase will not be delayed in respect of the elected States and the applicant must enter the national phase before the expiration of the time limit applicable under Article 22 (which is usually 20 months from the priority date).

In Which Language Must the Demand Be Filed? (Rule 55.1): The demand must be filed in the language in which international preliminary examination will be carried out (see Notes to Box No. IV).

What is the Language of Correspondence? (Rules 66.9 and 92.2 and Section 104): Any letter from the applicant to the IPEA must be in the same language as the international application to which it relates. However, where the international preliminary examination will be carried out on the basis of a translation (see Notes to Box No. IV), any letter from the applicant to the IPEA must be in the language of the translation. The IPEA may authorize the use of other languages for letters which do not contain or relate to amendments of the international application. Any letter from the applicant to the International Bureau must be in English or French, at the choice of the applicant. However, if the language of the international application is English, the letter must be in English; if the language of the international application is French, the letter must be in French.

Which Fees Must Be Paid and When? (Rules 57 and 58):

Two fees are due in respect of the international preliminary examination: the preliminary examination fee and the handling fee. Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The Fee Calculation Sheet should be used for that purpose. For details concerning the payment of the fees, see the Notes to that Sheet.

BOX No. I

Applicant's or Agent's File Reference: A file reference may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded (Section 109).

Identification of the International Application (Rule 53.6): The international application number must be indicated in Box No. I. Where the demand is filed at a time when the international application number has not yet been notified by the receiving Office, the name of that Office must be indicated instead of the international application number.

International Filing Date and (Earliest) Priority Date (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for each of the number of the day, the number of the month and the last two digits of the year, in that order, and separated by periods, slants or hyphens, for example, "20 March 2001 (20.03.01)", "20 March 2001 (20/03/01)" or "20 March 2001 (20-03-01)". Where the international application claims the priority of several earlier applications, the filing date of the earliest application whose priority is claimed must be indicated as the priority date.

Title of the Invention: If a new title has been established by the International Searching Authority, that title must be indicated in Box No. I.

BOX No. II

Applicant(s) (Rule 53.4): All the applicants for the elected States must be indicated in the demand; an applicant named in the request (Form PCT/RO/101) for a State which is not elected need not be named in the demand. It should be noted that the persons named as "inventor only" in the request need not be named in the demand.

Make in Box No. II of the demand the required indications as appearing in Boxes Nos. II and III of the request. The Notes to the request apply *mutatis mutandis*. RENSEIGNEMENTS IMPORTANTS D'ORDRE GÉNÉRAL

Qui peut présenter une demande d'examen préliminaire international ? (article 31.2a) et règle 54) : une demande d'examen préliminaire international ne peut être présentée que par un déposant qui est ressortissant d'un État contractant lié par le chapitre II du PCT ou qui a son domicile dans un tel État; en outre, la demande internationale doit avoir été déposée auprès de l'office récepteur d'un État lié par le chapitre II, ou agissant pour un tel État. S'il y a plusieurs déposants (pour les mêmes États élus ou pour des États élus différents), au moins l'un d'entre eux doit remplir les conditions requises.

Où la demande d'examen préliminaire international doit-elle être présentée ? (article 31.6a)) : la demande d'examen préliminaire international doit être présentée à une administration chargée de l'examen préliminaire international (IPEA) compétente. L'office récepteur auprès duquel la demande internationale a été déposée donnera, sur demande, des renseignements au sujet de l'administration chargée de l'examen préliminaire international qui est compétente (voir aussi le *Guide du déposant du PCT*, volume I/B, annexe C). Si plusieurs administrations chargées de l'examen préliminaire international sont compétentes, le déposant doit présenter la demande d'examen préliminaire international à l'administration de son choix (et lui payer les taxes). Cette administration peut être indiquée, de préférence au moyen de son nom ou de son code à deux lettres, en haut de la première feuille de la demande d'examen préliminaire international, dans l'espace prévu à cet effet.

Quand la demande d'examen préliminaire international doit-elle être présentée ? (article 39.1)) : la demande d'examen préliminaire international doit être présentée avant l'expiration d'un délai de 19 mois à compter de la date de priorité pour que le délai d'ouverture de la phase nationale de la procédure selon le PCT puisse passer, en ce qui concerne les États élus, de 20 à 30 mois à compter de la date de priorité. *Important* : si la demande d'examen préliminaire international est présentée plus tard, la phase nationale ne sera pas différée et le déposant devra l'aborder avant l'expiration du délai applicable en vertu de l'article 22 (qui est habituellement de 20 mois à compter de la date de priorité).

En quelle langue la demande d'examen préliminaire international doit-elle être présentée ? (règle 55.1) : la demande d'examen doit être présentée dans la langue dans laquelle l'examen préliminaire international sera effectué (voir les notes relatives au cadre n° IV).

Quelle est la langue à utiliser dans la correspondance ? (règles 66.9 et 92.2 et instruction 104) : toute lettre adressée par le déposant à l'administration chargée de l'examen préliminaire international doit être rédigée dans la même langue que la demande internationale qu'elle concerne. Cependant, lorsque l'examen préliminaire international doit être effectué sur la base d'une traduction (voir les notes relatives au cadre n° IV), toute lettre adressée par le déposant à l'administration chargée de cet examen doit être rédigée dans la langue de la traduction. L'administration chargée de l'examen peut autoriser l'utilisation d'autres langues pour des lettres qui ne contiennent pas de modifications de la demande internationale ou qui ne se rapportent pas à des modifications. Toute lettre adressée par le déposant au Bureau international doit être rédigée en anglais ou en français, au choix du déposant. Toutefois, si la langue de la demande internationale est l'anglais, la lettre doit être rédigée en anglais; si la langue de la demande internationale est le français, la lettre doit être rédigée en français.

Quelles taxes doivent être payées et quand ? (règles 57 et 58) : l'examen préliminaire international donne lieu au paiement de deux taxes : la taxe d'examen préliminaire et la taxe de traitement. Ces deux taxes doivent être acquittées auprès de l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date de présentation de la demande d'examen. La feuille de calcul des taxes devrait être utilisée à cette fin. Pour de plus amples renseignements concernant le paiement des taxes, voir les notes relatives à cette feuille.

CADRE N° I

Référence du dossier du déposant ou du mandataire : il est possible d'indiquer, à titre facultatif, une telle référence de dossier. Celle-ci ne devrait pas dépasser 12 caractères. L'administration chargée de l'examen préliminaire international peut ne pas tenir compte des caractères en sus du douzième (instruction 109).

Identification de la demande internationale (règle 53.6) : le numéro de la demande internationale doit être indiqué dans le cadre n° I. Si la demande d'examen préliminaire international est présentée alors même que le numéro de la demande internationale n'a pas encore été notifié par l'office récepteur, le nom de cet office doit être indiqué en lieu et place du numéro de la demande internationale.

three applicants, make the required indications on the "Continuation Sheet".

If different applicants are indicated in the request for different designated States, indicate in Box No. II of the demand only the applicants for the States elected in Box No. V (no indication of the States for which a person is applicant need be made, because those indications have been made in the request).

Applicant's registration number with the Office (Rule 53.4): Where the applicant is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the applicant is so registered.

BOX No. III

Agent or Common Representative (Rules 53.5, 90.1 and 90.2): Mark the applicable check-boxes to indicate *first* whether the person named in this Box is agent or common representative, *then* whether that person *has been appointed earlier* (i.e., during the procedure under Chapter I), or *is appointed in the demand* and any earlier appointment of another person is revoked, or *is appointed specifically for the procedure before the IPEA* (without revocation of any earlier appointment), in addition to the person(s) appointed earlier.

Where an additional person is appointed specifically for the procedure before the IPEA, all notifications issued by the IPEA will be addressed only to that additional person.

A separate power of attorney must be filed with the IPEA, the International Bureau or the receiving Office, if the person appointed at the time the demand is filed (i.e., was not appointed earlier) signs the demand on behalf of the applicant (Rule 90.4).

Agent's registration number with the Office (Rule 53.5): Where the agent is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. III will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address may be indicated in Box No. III instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. III must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" in Box No. III has been marked).

BOX No. IV

Statement Concerning Amendments (Rules 53.2(a)(v), 53.9, 62, 66.1 and 69.1): The international preliminary examination will start on the basis of the international application

as filed or, if amendments have been filed, as amended. Mark the appropriate check-box(es) to enable the IPEA to determine when and on what basis it can start international preliminary examination.

Mark the corresponding check-box(es) under No. 1 where the international preliminary examination should start on the basis of the international application as originally filed or where amendments are to be taken into account, as the case may be. Where amendments are to be taken into account, the applicant must submit *with the demand* a copy of amendments to the claims under Article 19 (Rule 53.9(a)(i)) and/or the amendments of the international application under Article 34 (Rule 53.9(c)), as the case may be. If a check-box is marked but the demand is not accompanied by the documents referred to, the start of international preliminary examination will be delayed until the IPEA receives them.

Mark check-box No. 2 if amendments of the claims under Article 19 have been filed with the International Bureau during the Chapter I procedure, but the applicant does not want these amendments to be taken into account for the purpose of international preliminary examination when the latter starts (Rule 53.9(a)(ii)).

Mark check-box No. 3 where the time limit for filing amendments of the claims under Article 19 has not expired at the time the demand is filed and the applicant wants to keep the option for the filing of such amendments open; the IPEA is thus requested to postpone the start of international preliminary examination (Rules 53.9(b) and 69.1(d)). It should be noted that the examination will start in any event after the expiration of 20 months from the priority date even where the time limit for filing amendments has not yet expired or no amendments have been received by the IPEA.

If no check-box is marked, refer to the footnote at the bottom of the Box.

Language for the Purposes of International Preliminary Examination (Rule 55.2): Where neither the language in which the international application is filed nor the language in which the international application is published is accepted by the IPEA that is to carry out the international preliminary examination, the applicant must furnish with the demand a translation of the international application into a language which is both a language accepted by that Authority and a language of publication.

Where such translation has already been furnished to the International Searching Authority for the purposes of carrying out international search and the IPEA is part of the same Office or intergovernmental organization as the International Searching Authority, the applicant need not furnish another translation. In such a case the international preliminary examination is carried out on the basis of the translation furnished for the purposes of international search.

The language for the purposes of international preliminary examination should be indicated in Box No. IV, on the dotted line, and the corresponding check-box should be marked.

Language of Amendments (Rules 55.3 and 66.9): Amendments and letters relating thereto must be in the same language as that in which the international preliminary examination is carried out, as explained in the preceding paragraphs.

Date du dépôt international et date de priorité (la plus ancienne) (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples "20 mars 2001 (20.03.01)", "20 mars 2001 (20/03/01)" ou "20 mars 2001 (20-03-01)". Lorsque la demande internationale revendique la priorité de plusieurs demandes antérieures, la date de dépôt de la plus ancienne demande dont la priorité est revendiquée doit être indiquée en tant que date de priorité.

Titre de l'invention : si l'administration chargée de la recherche internationale a établi un nouveau titre, celui-ci doit être indiqué dans le cadre n° I.

CADRE N° II

Déposant(s) (règle 53.4) : tous les déposants qui ont cette qualité pour les États élus doivent être mentionnés dans la demande d'examen préliminaire international; un déposant mentionné dans la requête (formulaire PCT/RO/101) pour un État qui n'est pas élu n'a pas à être mentionné dans la demande d'examen préliminaire international. Il est à noter que les personnes mentionnées dans la requête comme "inventeur seulement" n'ont pas non plus à être mentionnées dans la demande d'examen préliminaire international.

Reprendre dans le cadre n° II de la demande d'examen préliminaire international les indications requises figurant dans les cadres n°s II et III de la requête. Les notes relatives à la requête s'appliquent *mutatis mutandis*. S'il y a pluralité de déposants pour les États élus dans la demande d'examen préliminaire international, fournir les indications requises sur chacun d'eux; si ces déposants sont plus de trois, porter les indications en question sur une "feuille annexe".

Si, dans la requête, des déposants différents sont indiqués pour différents États désignés, n'indiquer dans le cadre n° II de la demande d'examen préliminaire international que les déposants ayant cette qualité pour les États élus dans le cadre n° V (il n'y a pas lieu d'indiquer les États pour lesquels une personne est mentionnée comme déposant, car ces indications ont été fournies dans la requête).

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 53.4) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

CADRE N° III

Mandataire ou représentant commun (règles 53.5, 90.1 et 90.2) : cocher les cases appropriées afin d'indiquer, *premièrement*, si la personne indiquée dans le cadre n° III est mandataire ou représentant commun, *deuxièmement*, si cette personne a été désignée à une date antérieure (c'est-à-dire au cours de la procédure prévue au chapitre I), est désignée dans la demande d'examen préliminaire internationale (toute désignation antérieure d'une autre personne étant révoquée) ou est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire internationale (sans qu'il y ait révocation d'une désignation antérieure) en sus de la ou des personnes désignées antérieurement.

Lorsqu'une personne supplémentaire est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international, toute la correspondance émanant de cette administration sera adressée seulement à cette personne supplémentaire.

Un pouvoir distinct doit être déposé auprès de l'administration chargée de l'examen préliminaire international, du Bureau international ou de l'office récepteur si la personne qui est désignée au moment de la présentation de la demande d'examen préliminaire international (et qui n'a donc pas été désignée antérieurement) signe cette demande d'examen au nom du déposant (règle 90.4).

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 53.5) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° III sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, il est possible d'indiquer cette adresse dans le cadre n° III, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas et seulement dans ce cas qu'il y a lieu de cocher la dernière case du cadre n° III (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° IV

Déclaration concernant les modifications (règles 53.2.a)v), 53.9, 62, 66.1 et 69.1) : l'examen préliminaire international commencera sur la base de la demande internationale telle qu'elle a été déposée ou, si des modifications ont été déposées, telle qu'elle a été modifiée. Cocher la ou les cases appropriées pour permettre à l'administration chargée de l'examen préliminaire international de déterminer si elle peut commencer l'examen préliminaire international et sur quelle base.

Cocher la ou les cases appropriées de la rubrique n° 1 pour indiquer si l'examen préliminaire international doit commencer sur la base de la demande internationale telle qu'elle a été déposée ou s'il doit être tenu compte de modifications, selon le cas. S'il y a des modifications à prendre en compte, le déposant doit présenter avec la demande d'examen une copie des modifications apportées aux revendications en vertu de l'article 19 (règle 53.9.a)i) ou des modifications apportées à la demande internationale en vertu de l'article 34 (règle 53.9.c)), ou une copie des deux types de modifications, selon le cas. Si une case est cochée et que les documents correspondants ne sont pas joints à la demande

Time Limit for Furnishing Translation of the International Application (Rule 55.2): Any required translation of the international application should be furnished (by the applicant) together with the demand. If it is not so furnished, the IPEA will invite the applicant to furnish it within a time limit which shall not be less than one month from the date of the invitation. That time limit may be extended by the IPEA.

BOX No. V

Election of States (Rule 53.7): Only States which are bound by Chapter II of the PCT *and* which have been designated in the international application (that is, States whose designations have been made under Rule 4.9(a), confirmed under Rule 4.9(c) or considered as having been made under Rule 32.2(a)(i)) can be elected. They are the “eligible States”.

For the convenience and protection of applicants, Box No. V contains a statement to the effect that all eligible States are elected. It is only where the applicant does not wish to elect certain eligible States that the name(s) or two-letter code(s) of those States must be indicated after the words “wishes not to elect:”.

The indication in the demand of the kind of protection or treatment desired for any elected State is not required since it follows the indication made when designating that State in the international application.

BOX No. VI

Check List: It is recommended that this Box be filled in carefully in order for the IPEA to determine as soon as possible whether it is in possession of the documents on the basis of which the applicant wishes international preliminary examination to start.

Where the international application contains disclosure of one or more nucleotide and/or amino acid sequences, and a copy of the sequence listing in computer readable form complying with the standard provided for in the Administrative Instructions is required by the IPEA, the applicant may furnish the listing in computer readable form to the IPEA with the demand. If this is the case, check-box No. 5 must be marked.

BOX No. VII

Signature (Rules 53.8, 90.3(a) and 90.4(a)): The demand must be signed by the applicant or by his agent; if there are two or more applicants, the common representative may sign the demand. If the demand is not signed by (all) the persons who are applicants for the elected States (a person who is applicant only for a State which is not elected need not sign the demand), a power of attorney signed by that (all those) applicant(s) must be filed with the IPEA, with the International Bureau or with the receiving Office unless the agent has previously been appointed.

d'examen préliminaire international, le commencement de cet examen sera différé jusqu'à ce que l'administration qui en est chargée les reçoive.

Cocher la case n° 2 si des modifications apportées aux revendications en vertu de l'article 19 ont été déposées auprès du Bureau international lors de la procédure prévue au chapitre I, et que le déposant ne veut pas qu'il en soit tenu compte aux fins de l'examen préliminaire international lorsque celui-ci commencera (règle 53.9.a)ii).

Cocher la case n° 3 si le délai fixé pour le dépôt de modifications des revendications en vertu de l'article 19 n'a pas expiré au moment où la demande d'examen préliminaire international est présentée et que le déposant veut conserver la possibilité de déposer de telles modifications; il est ainsi demandé à l'administration chargée de l'examen préliminaire international de différer le commencement de cet examen (règles 53.9.b) et 69.1.d)). Il est à noter que l'examen commencera, en tout état de cause, après l'expiration d'un délai de 20 mois à compter de la date de priorité, même si le délai pour déposer des modifications n'a pas expiré ou que l'administration chargée de l'examen préliminaire international n'a reçu aucune modification.

Si aucune case n'est cochée, la procédure décrite dans la note figurant au bas du cadre sera suivie.

Langue aux fins de l'examen préliminaire international (règle 55.2) : lorsque ni la langue dans laquelle la demande internationale est déposée ni la langue dans laquelle elle est publiée n'est acceptée par l'administration chargée de l'examen préliminaire international qui effectuera cet examen, le déposant doit remettre avec la demande d'examen préliminaire international une traduction de la demande internationale dans une langue qui est à la fois une langue acceptée par cette administration et une langue de publication.

Lorsqu'une traduction répondant à ces critères a déjà été remise à l'administration chargée de la recherche internationale pour les besoins de cette recherche et que l'administration chargée de l'examen préliminaire international fait partie du même office ou de la même organisation intergouvernementale que l'administration chargée de la recherche internationale, il n'est pas nécessaire pour le déposant de remettre une autre traduction. Dans ce cas, l'examen préliminaire international est effectué sur la base de la traduction remise aux fins de la recherche internationale.

La langue dans laquelle sera effectué l'examen préliminaire international doit être indiquée dans le cadre n° IV sur la ligne pointillée, et la case appropriée la concernant doit être cochée.

Langue des modifications (règles 55.3 et 66.9) : les modifications et les lettres qui s'y rapportent doivent être rédigées dans la langue dans laquelle l'examen préliminaire international sera effectué, comme il est expliqué aux paragraphes précédents.

Délai imparti pour remettre une traduction de la demande internationale (règle 55.2) : toute traduction de la demande internationale qui est exigée doit être remise (par le déposant) en même temps que la demande d'examen préliminaire international. Si la traduction n'est pas remise en

même temps, l'administration chargée de l'examen préliminaire international invitera le déposant à remettre cette traduction dans un délai qui sera d'au moins un mois à compter de la date de l'invitation. Ce délai peut être prorogé par l'administration chargée de l'examen préliminaire international.

CADRE N° V

Élection d'États (règle 53.7) : seuls peuvent être élus les États qui sont liés par le chapitre II du PCT *et* qui ont été désignés dans la demande internationale (c'est-à-dire qui ont fait l'objet de désignations faites en vertu de la règle 4.9.a), confirmées en vertu de la règle 4.9.c) ou considérées comme ayant été faites, en vertu de la règle 32.2.a)i)). Ces États sont les "États éligibles".

Pour faciliter la tâche des déposants et les protéger, le cadre n° V contient une déclaration selon laquelle tous les États éligibles sont élus. Ce n'est que si le déposant ne souhaite pas élire certains États éligibles qu'il doit indiquer le nom ou le code à deux lettres de ces États après les mots "souhaite ne pas élire :".

Il n'est pas nécessaire d'indiquer dans la demande d'examen préliminaire internationale quelle forme de protection ou de traitement est souhaitée pour tel ou tel État élu puisque les indications portées dans la demande internationale lors de la désignation de cet État restent valables.

CADRE N° VI

Bordereau : il est recommandé de remplir soigneusement ce cadre pour que l'administration chargée de l'examen préliminaire international puisse déterminer le plus rapidement possible si elle est en possession de la ou des modifications ou de la ou des lettres sur la base desquelles le déposant souhaite que l'examen préliminaire international commence.

Lorsque la demande internationale contient la divulgation d'une ou plusieurs séquences de nucléotides ou d'acides aminés, et qu'une copie du listage des séquences sous forme déchiffrable par ordinateur, conforme à la norme figurant dans les instructions administratives, est requise par l'administration chargée de l'examen préliminaire international, le déposant peut fournir à cette administration, conjointement avec la demande d'examen préliminaire international, le listage en question sous une forme déchiffrable par ordinateur. S'il le fait, la case n° 5 doit être cochée.

CADRE N° VII

Signature (règles 53.8, 90.3.a) et 90.4.a) : la demande d'examen préliminaire international doit être signée par le déposant ou par son mandataire; s'il y a plusieurs déposants, elle peut l'être par le représentant commun. Si elle n'est pas signée par une ou plusieurs personnes qui ont la qualité de déposant pour les États élus (une personne qui est déposant seulement pour un État non élu n'a pas besoin de signer la demande d'examen préliminaire international), un pouvoir signé par ces personnes doit être déposé auprès du Bureau international, de l'office récepteur ou de l'administration chargée de l'examen préliminaire international, sauf si le mandataire a été désigné à une date antérieure.

**NOTES TO THE FEE CALCULATION SHEET
(ANNEX TO FORM PCT/IPEA/401)**

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete, by entering the appropriate amounts in the boxes provided, and submit the fee calculation sheet at the time of filing of the demand. This will help the International Preliminary Examining Authority (IPEA) to verify the calculations and to identify any error in them.

CALCULATION OF PRESCRIBED FEES

Two fees must be paid for international preliminary examination:

- (i) the preliminary examination fee for the benefit of the IPEA (Rule 58.1);
- (ii) the handling fee for the benefit of the International Bureau (Rule 57).

Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The amount payable is the amount applicable on the date of submittal (Rules 57.3 and 58.1(b)). The fees must be paid in a currency acceptable to the IPEA.

Information about the amount of those fees or about equivalent amounts in other currencies can be obtained from the IPEA or the receiving Office. This information is also published in the *PCT Applicant's Guide*, Volume I/B, Annex E, and from time to time in Section IV of the *PCT Gazette*.

Box P: The amount of the preliminary examination fee must be entered in Box P.

Box H: The amount of the handling fee must be entered in Box H.

Reduction of the Handling Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the handling fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the handling fee will be automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Box No. II of the demand.

The fee reduction will be available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic,

CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CO Colombia, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EC Ecuador, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GQ Equatorial Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PH Philippines, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TN Tunisia, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VN Viet Nam, YU Yugoslavia, ZA South Africa, ZM Zambia and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the Handling Fee in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the handling fee, the total to be entered at Box H is 25% of the handling fee.

Total Box: The total of the amounts inserted in Boxes P and H is the amount which must be paid to the IPEA.

MODE OF PAYMENT

In order to help the IPEA identify the mode of payment of the prescribed fees, it is recommended to mark the applicable check-box(es).

**AUTHORIZATION TO CHARGE
(OR CREDIT) DEPOSIT ACCOUNT**

The applicant should check whether the IPEA allows the use of deposit accounts for payment of PCT fees. In addition, it is recommended that the applicant check what are the specific conditions applicable to the use of deposit accounts with the IPEA since not all IPEAs provide the same services.

Finally, if the IPEA is not the same national Office or intergovernmental organization as that with which the international application was filed, the deposit account with the receiving Office cannot be charged for the purpose of paying the preliminary examination and handling fees due to the IPEA.

The IPEA will not charge fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

NOTES RELATIVES À LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/IPEA/401)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre à la demande d'examen préliminaire international. Cela aidera l'administration chargée de l'examen préliminaire international (IPEA) à vérifier les calculs et à y déceler d'éventuelles erreurs.

CALCUL DES TAXES PRESCRITES

L'examen préliminaire international donne lieu au paiement de deux taxes :

- i) la taxe d'examen préliminaire, au profit de l'administration chargée de l'examen préliminaire international (règle 58.1);
- ii) la taxe de traitement, au profit du Bureau international (règle 57).

Ces deux taxes doivent être payées à l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date à laquelle la demande d'examen préliminaire international est présentée. Le montant dû est le montant applicable à la date de présentation de cette demande d'examen (règles 57.3 et 58.1.b)). Les taxes doivent être payées dans une monnaie que l'administration chargée de l'examen préliminaire international accepte.

Des renseignements au sujet du montant de ces taxes ou de leur contre-valeur en d'autres monnaies peuvent être obtenus auprès de l'administration chargée de l'examen préliminaire international ou de l'office récepteur. Ces renseignements figurent également dans le *Guide du déposant du PCT*, volume I/B, annexe E, et sont aussi publiés périodiquement dans la section IV de la *Gazette du PCT*.

Cadre P : le montant de la taxe d'examen préliminaire doit être inscrit dans le cadre P.

Cadre H : le montant de la taxe de traitement doit être inscrit dans le cadre H.

Réduction de la taxe de traitement pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75% de certaines taxes du PCT, dont la taxe de traitement. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe de traitement s'appliquera automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans le cadre n° II de la demande d'examen préliminaire international.

La réduction de la taxe s'appliquera même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus,

BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CO Colombie, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EC Équateur, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GQ Guinée équatoriale, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, PH Philippines, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TN Tunisie, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud, ZM Zambie et ZW Zimbabwe. En ce qui concerne d'autres États, il conviendra de s'adresser au Bureau international.

Calcul de la taxe de traitement en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe de traitement, le montant devant figurer dans le cadre H est égal à 25% de la taxe de traitement.

Total : le total des montants inscrits dans les cadres P et H représente la somme à verser à l'administration chargée de l'examen préliminaire international.

MODE DE PAIEMENT

Pour aider l'administration chargée de l'examen préliminaire international à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

Le déposant devrait s'assurer que l'administration chargée de l'examen préliminaire international permet l'utilisation de comptes de dépôt pour le paiement des taxes du PCT. En outre, il est recommandé qu'il prenne connaissance des modalités particulières d'utilisation des comptes de dépôt auprès de cette administration étant donné que toutes les administrations chargées de l'examen préliminaire international n'offrent pas les mêmes services.

Enfin, si l'administration chargée de l'examen préliminaire international n'est pas l'office national auprès duquel, ou l'organisation intergouvernementale auprès de laquelle, la demande internationale a été déposée, le déposant ne peut pas utiliser le compte de dépôt auprès de l'office récepteur pour payer les taxes d'examen préliminaire et de traitement dues à l'administration chargée de l'examen préliminaire international.

L'administration chargée de l'examen préliminaire international ne débitera un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.
