NOTES TO THE REQUEST FORM (PCT/RO/101)

These Notes are intended to facilitate the filling in of the request form. For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the Patent Cooperation Treaty (PCT), the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the request form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the PCT Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with black ink (Rule 11.9(a) and (b)).

The request form and these Notes may be downloaded from WIPO's Website at the address given above.

WHERE TO FILE THE INTERNATIONAL APPLICATION

The international application (request, description, claims, abstract and drawings, if any) must be filed with a competent receiving Office (Article 11(1)(i))—that is, subject to any applicable prescriptions concerning national security, at the choice of the applicant, either:

(i) the receiving Office of, or acting for, a PCT Contracting State of which the applicant or, if there are two or more applicants, at least one of them, is a resident or national (Rule 19.1(a)(i) or (ii) or (b)), or

(ii) the International Bureau of WIPO in Geneva, Switzerland, if the applicant or, if there are two or more applicants, at least one of the applicants is a resident or national of any PCT Contracting State (Rule 19.1(a)(iii)).

APPLICANT'S OR AGENT'S FILE REFERENCE

A **file reference** may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded by the receiving Office or any International Authority (Rule 11.6(f) and Section 109).

BOX No. I

Title of Invention (Rules 4.3 and 5.1(a)): The title must be short (preferably two to seven words when in English or translated into English) and precise. It must be identical with the title heading the description.

BOXES Nos. II AND III

General: At least one of the applicants named must be a resident or national of a PCT Contracting State for which the receiving Office acts (Articles 9 and 11(1)(i) and Rules 18 and 19). If the international application is filed with the International Bureau under Rule 19.1(a)(iii), at least one of the applicants must be a resident or national of any PCT Contracting State.

If the United States of America is designated, all of the inventors must be named also as applicants for the purposes of that designation (see "Different Applicants for Different Designated States", below).

Indication Whether a Person is Applicant and/or Inventor (Rules 4.5(a) and 4.6(a) and (b)):

Check-box "This person is also inventor" (Box No. II): Mark this check-box if the applicant named is also the inventor or one of the inventors; do not mark this check-box if the applicant is a legal entity.

Check-box "applicant and inventor" (Box No. III): Mark this check-box if the person named is both applicant and inventor; do not mark this check-box if the person is a legal entity.

Check-box "applicant only" (Box No. III): Mark this check-box if the person named is a legal entity or if the person named is not also inventor.

Check-box "inventor only" (Box No. III): Mark this check-box if the person named is inventor but not also applicant; do not mark this check-box if the person is a legal entity.

In Box No. III, one of the three check-boxes must always be marked for each person named.

A person must not be named more than once in Boxes Nos. II and III, even where that person is both applicant and inventor.

Names and Addresses (Rule 4.4): The family name (preferably in capital letters) must be indicated before the given name(s). Titles and academic degrees must be omitted. Names of legal entities must be indicated by their full official designations.

The address must be indicated in such a way that it allows prompt postal delivery; it must consist of all the relevant administrative units (up to and including the indication of the house number, if any), the postal code (if any), and the name of the country.

Only one address may be indicated per person. For the indication of a special "address for correspondence", see the notes to Box No. IV.

Telephone, Facsimile and/or Teleprinter Numbers should be indicated for the person named in Box No. II in order to allow rapid communication with the applicant. Any such number should include the applicable country and area codes.

Applicant's registration number with the Office (Rule 4.5(e)): Where the applicant is registered with the national or regional Office acting as receiving Office, the request may indicate the number or other indication under which the applicant is so registered.

Nationality (Rules 4.5(a) and (b) and 18.1): For each applicant, the nationality must be indicated by the name or two-letter code of the State (that is, country) of which the person is a national. A legal entity constituted according to the national law of a State is considered a national of that State. The indication of the nationality is not required where a person is inventor only.

Residence (Rules 4.5(a) and (c) and 18.1): For each applicant, the residence must be indicated by the name or two-letter code of the State (that is, country) of which the person is a resident. If the State of residence is not indicated, it will be assumed to be the same as the State indicated in the address. Possession of a real and effective industrial or commercial establishment in a State is considered residence in that State. The indication of the residence is not required where a person is inventor only.

NOTES RELATIVES AU FORMULAIRE DE REQUÊTE (PCT/RO/101)

Ces notes sont destinées à faciliter l'utilisation du formulaire de requête. On peut aussi trouver de plus amples renseignements dans le *Guide du déposant du PCT*, publié par l'OMPI, qui est disponible, de même que d'autres documents relatifs au PCT, sur le site Internet de l'OMPI à l'adresse suivante : www.OMPI.int/pct/fr/index.html. Les notes sont fondées sur les exigences du Traité de coopération en matière de brevets (PCT), du règlement d'exécution et des Instructions administratives du PCT. En cas de divergence entre les présentes notes et ces exigences, ce sont ces dernières qui priment.

Dans le formulaire de requête et dans les présentes notes, les termes "article", "règle" et "instruction" renvoient aux dispositions du traité, de son règlement d'exécution et des Instructions administratives du PCT, respectivement.

Prière de remplir le formulaire à la machine à écrire; les cases appropriées peuvent être cochées à la main, à l'encre noire (règle 11.9.a) et b)).

Le formulaire de requête et les présentes notes peuvent être téléchargés depuis le site Internet de l'OMPI à l'adresse donnée ci-dessus.

OÙ DÉPOSER LA DEMANDE INTERNATIONALE

Il faut que la demande internationale (requête, description, revendications, abrégé et, le cas échéant, dessins) soit déposée auprès d'un office récepteur compétent (article 11.1)i)), c'est-à-dire sous réserve des dispositions applicables en matière de défense nationale et au choix du déposant,

i) l'office récepteur d'un État contractant du PCT ou l'office agissant pour un tel État, dans lequel le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié ou dont il a la nationalité (règle 19.1.a)i) ou ii) ou b)), ou

ii) le Bureau international de l'OMPI à Genève (Suisse) si le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié dans l'un quelconque des États contractants du PCT ou a la nationalité d'un tel État (règle 19.1.a)iii)).

RÉFÉRENCE DU DOSSIER DU DÉPOSANT OU DU MANDATAIRE

Il est possible d'indiquer, à titre facultatif, une telle **référence de dossier**. Celle-ci ne devrait pas dépasser 12 caractères. L'office récepteur ou toute administration internationale peut ne pas tenir compte des caractères en sus du douzième (règle 11.6.f) et instruction 109).

CADRE N° I

Titre de l'invention (règles 4.3 et 5.1.a)) : le titre doit être bref (de préférence de deux à sept mots lorsqu'il est établi ou traduit en anglais) et précis. Il doit être identique à celui qui figure en tête de la description.

CADRES N°s II ET III

Remarques générales : l'un au moins des déposants mentionnés doit être domicilié dans un État contractant du PCT pour lequel l'office récepteur agit, ou avoir la nationalité d'un tel État (articles 9 et 11.1)i) et règles 18 et 19). Si la demande internationale est déposée auprès du Bureau international en vertu de la règle 19.1.a)iii), l'un au moins des déposants doit être domicilié dans un État contractant du PCT ou avoir la nationalité d'un tel État.

Si les États-Unis d'Amérique sont désignés, tous les inventeurs doivent être mentionnés également comme déposants pour cette désignation (voir, ci-après, "Déposants différents pour différents États désignés").

Indication visant à établir si une personne est déposant ou inventeur, ou les deux à la fois (règles 4.5.a) et 4.6.a) et b)) :

Case "Cette personne est aussi inventeur" (cadre n° II) : cocher cette case si la personne mentionnée est aussi l'inventeur ou l'un des inventeurs; ne pas la cocher si le déposant est une personne morale.

Case "déposant et inventeur" (cadre n° III) : cocher cette case si la personne mentionnée a les deux qualités, celle de déposant et celle d'inventeur; ne pas la cocher si cette personne est une personne morale.

Case "déposant seulement" (cadre n° III) : cocher cette case si la personne mentionnée est une personne morale ou si elle n'a pas aussi la qualité d'inventeur.

Case "inventeur seulement" (cadre n° III) : cocher cette case si la personne mentionnée a la qualité d'inventeur mais pas celle de déposant; ne pas la cocher si cette personne est une personne morale.

Dans le cadre n° III, il faut que l'une des trois cases soit cochée pour chaque personne mentionnée.

Une personne ne doit être mentionnée qu'une seule fois dans les cadres n° II et III, même si elle est à la fois déposant et inventeur.

Noms et adresses (règle 4.4) : le nom de famille (de préférence en lettres majuscules) doit précéder le ou les prénoms. Les titres et les diplômes universitaires ne doivent pas être mentionnés. Les personnes morales doivent être nommées par leurs désignations officielles complètes.

L'adresse doit être indiquée de manière à permettre une distribution postale rapide; elle doit comprendre toutes les unités administratives pertinentes (jusques et y compris le numéro de la maison, s'il y en a un), le code postal, s'il y en a un, et le nom du pays.

Il ne peut être indiqué qu'une seule adresse par personne. En ce qui concerne l'indication d'une adresse spéciale pour la correspondance, voir les notes relatives au cadre n° IV.

Pour permettre une communication rapide avec le déposant, il y a lieu d'indiquer les **numéros de téléphone, de télécopieur ou de téléimprimeur** de la personne mentionnée dans le cadre n° II. Tout numéro de ce type doit comporter les indicatifs de pays et de zone en vigueur.

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 4.5.e)) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Nationalité (règles 4.5.a) et b) et 18.1) : la nationalité de chaque déposant doit être indiquée au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) dont l'intéressé

Names of States (Section 115): For the indication of names of States, the two-letter codes appearing in WIPO Standard ST.3 and in the *PCT Applicant's Guide*, Volume I/B, Annex K, may be used.

Different Applicants for Different Designated States (Rules 4.5(d), 18.3 and 19.2): It is possible to indicate different applicants for the purposes of different designated States. At least one of all the applicants named must be a national or resident of a PCT Contracting State for which the receiving Office acts, irrespective of the designated State(s) for the purposes of which that applicant is named. *Where the United States of America is one of the designated States, all of the inventors must be named also as applicants for the United States of America and the check-boxes "This person is also inventor" (in Box No. II) and/or "applicant and inventor" (in Box No. III) must be marked.*

For the indication of the designated States for which a person is applicant, mark the applicable check-box (only one for each person). The check-box "the States indicated in the Supplemental Box" must be marked where none of the other three check-boxes fits the circumstances; in such a case, the name of the person must be repeated in the Supplemental Box with an indication of the States for which that person is applicant (see item 1(ii) in that Box).

Naming of Inventor (Rule 4.1(a)(v) and (c)(i)): The inventor's name and address must be indicated where the national law of at least one of the designated States requires that the name of the inventor be furnished at the time of filing; for details, see the *PCT Applicant's Guide*, Volume I/A, Annexes B1 and B2. It is strongly recommended to always name the inventor.

Different Inventors for Different Designated States (Rule 4.6(c)): Different persons may be indicated as inventors for different designated States (for example, where, in this respect, the requirements of the national laws of the designated States are not the same); in such a case, the Supplemental Box must be used (see item 1(iii) in that Box). In the absence of any indication, it will be assumed that the inventor(s) named is (are) inventor(s) for all designated States.

BOX No. IV

Who Can Act as Agent (Article 49 and Rule 83.1bis): For each of the receiving Offices, information as to who can act as agent is given in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Agent or Common Representative (Rules 4.7, 4.8, 90.1 and 90.2 and Section 108): Mark the applicable check-box in order to indicate whether the person named is (or has been) appointed as "agent" or "common representative" (the "common representative" must be one of the applicants). For the manner in which name(s) and address(es) (including names of States) must be indicated, see the notes to Boxes Nos. II and III. Where several agents are listed, the agent to whom correspondence should be addressed is to be listed first. If there are two or more applicants but no common agent is appointed to represent all of them, one of the applicants who is a national or resident of a PCT Contracting State may be appointed by the other applicants as their common representative. If this is not done, the applicant first named in the request who is entitled to file an international application with the receiving Office concerned will automatically be considered to be the common representative.

Manner of Appointment of Agent or Common Representative (Rules 90.4 and 90.5 and Section 106): Any such appointment may be made by designating the agent(s) or the common representative in the request or in one or more separate powers of attorney. Each applicant must sign either the request or a separate power of attorney. Where the

international application is filed with reference to a general power of attorney, a copy thereof must be attached to the request. Any applicant who did not sign the general power of attorney must sign either the request or a separate power of attorney.

Agent's registration number with the Office (Rule 4.7(b)): Where the agent is registered with the national or regional Office that is acting as receiving Office, the request may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. IV will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II or III, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address must be indicated in Box No. IV instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. IV must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" has been marked).

BOX No. V

Designation of States (Rules 4.1(a)(iv) and 4.9(a)): The Contracting States in which protection is desired must be designated under Rule 4.9(a) in the request by marking the applicable check-boxes. At least one check-box effecting a specific designation must be marked. *While the general rule is that designations cannot be added after the filing of the international application, it is possible to make a precautionary designation under Rule 4.9(b) covering all other designations which would, as at the international filing date, be permitted under the PCT (see "Precautionary Designation of States Subject to Confirmation", below).*

Where regional (ARIPO, Eurasian, European and/or OAPI) patents are desired, only one PCT designation fee must be paid for each regional designation made, independently of how many States are covered by each such designation.

AP ARIPO Patent: Note that **SZ Swaziland** can only be designated for the purposes of an ARIPO patent and not for the purposes of a national patent. All other PCT Contracting States which are also party to the Harare Protocol can be designated either for a national or an ARIPO patent, or both a national and an ARIPO patent.

EA Eurasian Patent: All PCT Contracting States which are also party to the Eurasian Patent Convention can be designated either for a national or a Eurasian patent, or both a national and a Eurasian patent. Note, however, that it is not possible to designate only some of these States for a Eurasian patent and that any designation of one or more States for a Eurasian patent will be treated as a designation of all the States which are party to both the Convention and the PCT for a Eurasian patent.

EP European Patent: Note that **BE Belgium, CY Cyprus, FR France, GR Greece, IE Ireland, IT Italy, MC Monaco, NL Netherlands and SI Slovenia** can only be designated for the purposes of a European patent and not for the purposes of a national patent. All other PCT Contracting States which are

est ressortissant. Une personne morale constituée conformément à la législation d'un État contractant est considérée comme ayant la nationalité de cet État. L'indication de la nationalité n'est pas exigée lorsqu'une personne est inventeur seulement.

Domicile (règles 4.5.a) et c) et 18.1) : le domicile de chaque déposant doit être indiqué au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) où l'intéressé a son domicile. Si, cependant, le domicile n'est pas indiqué, l'État du domicile sera présumé être le même que celui qui est indiqué dans l'adresse. La possession d'un établissement industriel ou commercial effectif et sérieux dans un État est considérée comme constituant domicile dans cet État. L'indication du domicile n'est pas exigée lorsqu'une personne est inventeur seulement.

Nom des États (instruction 115) : pour indiquer le nom des États, on peut utiliser le code à deux lettres qui figure dans la norme ST.3 de l'OMPI et dans le *Guide du déposant du PCT*, volume I/B, annexe K.

Dépôts différents pour différents États désignés (règles 4.5.d), 18.3 et 19.2) : il est possible d'indiquer des dépôts différents pour différents États désignés. L'un au moins des déposants indiqués – quels que soient l'État ou les États désignés pour lesquels il est indiqué – doit être ressortissant d'un État contractant du PCT pour lequel l'office récepteur agit ou avoir son domicile dans un tel État. *Lorsque les États-Unis d'Amérique sont l'un des États désignés, tous les inventeurs doivent être indiqués comme déposants pour les États-Unis d'Amérique et les cases "Cette personne est aussi inventeur" (dans le cadre n° II) ou "déposant et inventeur" (dans le cadre n° III) doivent être cochées.*

Afin d'indiquer les États désignés pour lesquels une personne est déposant, il y a lieu de cocher la case appropriée (une seule case par personne). La case "les États indiqués dans le cadre supplémentaire" doit être cochée lorsque aucune des trois autres cases ne convient; en pareil cas, le nom de la personne doit être repris dans le cadre supplémentaire et assorti de l'indication des États pour lesquels cette personne est déposant (voir le point 1.ii) de ce cadre).

Mention de l'inventeur (règle 4.1.a)v) et c)i)) : le nom et l'adresse de l'inventeur doivent être indiqués lorsque la législation nationale d'un État désigné au moins exige la communication du nom de celui-ci lors du dépôt; pour plus de précisions, voir le *Guide du déposant du PCT*, volume I/A, annexes B1 et B2. Il est vivement recommandé de toujours indiquer le nom de l'inventeur.

Inventeurs différents pour différents États désignés (règle 4.6.c)) : des personnes différentes peuvent être indiquées en tant qu'inventeurs pour différents États désignés (par exemple, lorsque, en la matière, les exigences des législations nationales des États désignés diffèrent); en pareil cas, il y a lieu d'utiliser le cadre supplémentaire (voir le point 1.iii) de ce cadre). En l'absence d'indication, il sera supposé que l'inventeur ou les inventeurs mentionnés ont la qualité d'inventeur pour tous les États désignés.

CADRE N° IV

Qui peut agir en qualité de mandataire ? (article 49 et règle 83.1bis) : pour chacun des office récepteurs, on trouvera, dans le *Guide du déposant du PCT*, volume I/B, annexe C, des informations sur le point de savoir qui peut agir en qualité de mandataire.

Mandataire ou représentant commun (règles 4.7, 4.8, 90.1 et 90.2 et instruction 108) : cocher la case appropriée pour indiquer si la personne mentionnée est (ou a été) désignée comme "mandataire" ou "représentant commun" (le

"représentant commun" doit être l'un des déposants). Pour ce qui est de la façon d'indiquer les noms et adresses (y compris le nom des États), il convient de se reporter aux notes relatives aux cadres n°s II et III. Lorsque plusieurs mandataires sont indiqués, il faut mentionner en premier lieu celui à qui la correspondance doit être adressée. S'il y a plusieurs déposants mais aucun mandataire commun désigné pour les représenter tous, l'un des déposants qui est ressortissant d'un État contractant du PCT ou qui a son domicile dans un tel État peut être désigné par les autres comme leur représentant commun. A défaut, le déposant nommé en premier lieu dans la requête qui est autorisé à déposer une demande internationale auprès de l'office récepteur en question sera automatiquement considéré comme le représentant commun.

Mode de désignation d'un mandataire ou d'un représentant commun (règles 90.4 et 90.5 et instruction 106) : la désignation du ou des mandataires ou du représentant commun peut être effectuée dans la requête ou dans un ou plusieurs pouvoirs distincts. Chaque déposant doit signer la requête ou un pouvoir distinct. Si la demande internationale déposée fait état d'un pouvoir général, une copie de celui-ci doit être jointe à la requête. Tout déposant n'ayant pas signé le pouvoir général doit signer soit la requête soit un pouvoir distinct.

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 4.7.b)) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° IV sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II ou III – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, cette adresse doit être indiquée dans le cadre n° IV, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas, et seulement dans ce cas, qu'il y a lieu de cocher la dernière case du cadre n° IV (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° V

Désignation d'États (règles 4.1.a)iv) et 4.9.a)) : pour désigner conformément à la règle 4.9.a), dans la requête, les États contractants où la protection est demandée, il faut cocher les cases appropriées. Il faut qu'au moins une case, correspondant à une désignation expresse, soit cochée. *Bien que la règle générale soit qu'aucune désignation ne peut être ajoutée après le dépôt de la demande internationale, il est possible d'effectuer une désignation de précaution conformément à la règle 4.9.b) pour couvrir toutes les autres désignations qui, à la date du dépôt international, seraient autorisées selon le PCT (voir ci-après la rubrique "Désignation d'États à titre de précaution sous réserve de confirmation").*

Lorsque des brevets régionaux (ARIPO, eurasiatique, européen ou OAPI) sont demandés, une seule taxe de désignation du PCT est due pour chaque désignation régionale effectuée, quel que soit le nombre d'États couverts par celle-ci.

also party to the European Patent Convention can be designated either for a national or a European patent, or both a national and a European patent.

If an ARIPO or a European patent is desired for only some of the Contracting States of the Harare Protocol or the European Patent Convention, respectively, the names of those States for which a regional patent is not desired may be deleted by striking them out. However, it is recommended that the applicant always designate for the purposes of a regional patent all PCT Contracting States which are also Contracting States of the Protocol or the Convention, respectively. A decision to proceed with only some of those designations need not be made until entry into the regional phase, at which stage the corresponding regional designation fees must be paid.

Where any of the Contracting States of the Harare Protocol, the Eurasian Patent Convention or the European Patent Convention and the PCT is designated twice, namely *both* for the purposes of an ARIPO, a Eurasian or a European patent and for the purposes of national protection, the applicant must pay one designation fee in respect of the regional patent and as many designation fees as there are national patents or other titles of protection sought (Rule 15.1(ii) and Section 210).

Extension of EP European Patent to Certain States: If it is intended, at the time of entry into the European regional phase, to request the extension of the subsequently granted European patent to AL Albania, LT Lithuania, LV Latvia and/or MK The former Yugoslav Republic of Macedonia (and/or to any other PCT Contracting State for which, on the date of filing of the international application, an extension agreement with the European Patent Organisation is in force), Box No. V must contain *both* a designation of the State concerned for the purposes of a national patent and *also* a designation, for the purposes of obtaining a European patent, of at least one PCT Contracting State party to the European Patent Convention.

OA OAPI Patent: The designation of States members of OAPI and party to the PCT can only be made for the purposes of an OAPI patent (no national protection is available); furthermore, it is not possible to designate only some of them.

Choice of Certain Kinds of Protection or Treatment (Rules 4.12 to 4.14 and Section 202): Where, in any country where it is possible, a kind of protection other than a patent is desired, write the name or two-letter code of that country followed by the name of the title; that is, "patent for utility solution" (available in VN Viet Nam), "petty patent" (available in YU Serbia and Montenegro), "provisional patent" (available in AM Armenia, KZ Kazakhstan, TM Turkmenistan), "utility model" (available in AE United Arab Emirates, AL Albania, AM Armenia, AP ARIPO, AT Austria, AZ Azerbaijan, BG Bulgaria, BR Brazil, BY Belarus, BZ Belize, CN China, CO Colombia, CR Costa Rica, CZ Czech Republic, DE Germany, DK Denmark, EC Ecuador, EE Estonia, ES Spain, FI Finland, GE Georgia, HU Hungary, JP Japan, KE Kenya, KR Republic of Korea, KZ Kazakhstan, LS Lesotho, MD Republic of Moldova, MX Mexico, MZ Mozambique, PH Philippines, PL Poland, PT Portugal, RU Russian Federation, SK Slovakia, SL Sierra Leone, TJ Tajikistan, TR Turkey, UA Ukraine, UZ Uzbekistan, OA OAPI), "consensual patent" (available in HR Croatia), "utility certificate" (available in GH Ghana, TT Trinidad and Tobago, UG Uganda) or "inventor's certificate" (available in CU Cuba and KP Democratic People's Republic of Korea). Where, in AP ARIPO, AT Austria, CZ Czech Republic, DE Germany, DK Denmark, EE Estonia, FI Finland or SK Slovakia (the only countries in which this possibility exists), in addition to a patent, a utility model is also desired, write after the name of that country "and utility model".

Where, in respect of any country where it is possible, it is desired that the international application be treated as an application for a certain title "of addition" or as an application for a "continuation" or a "continuation-in-part", write after the name of that country the appropriate words; that is, "patent of

addition" (available in AE United Arab Emirates, AT Austria, AU Australia, BA Bosnia and Herzegovina, CU Cuba, DE Germany, ES Spain, IL Israel, IN India, MK The former Yugoslav Republic of Macedonia, MW Malawi, NZ New Zealand, PL Poland, TR Turkey, YU Serbia and Montenegro, ZA South Africa, ZW Zimbabwe), "certificate of addition" (available in BR Brazil, DZ Algeria, MA Morocco, MG Madagascar, OA OAPI), "inventor's certificate of addition" (available in CU Cuba), "continuation" or "continuation-in-part" (both available in US United States of America). If any of these indications is used, also indicate in the Supplemental Box the State for which such treatment is desired, the number of the parent title or parent application, and the date of the grant of the parent title or the date of filing of the parent application, as the case may be (see item 1(v) in that Box).

If, in Box No. V, the check-boxes for making designations are marked with consecutive Arabic numerals, those indications will be taken to express the applicant's *choice of the order of the designations*; if another form of marking is used, the order will be taken as that in which the marked check-boxes appear on the form. This order will only have any significance if the amount received for the designation fees is insufficient to cover all the designations and remains insufficient after the applicant has been invited to pay the balance due; in that case, the amount received will be applied in payment of the fees for the designations following the said order (Rule 16bis.1(c) and Section 321).

The check-boxes located towards the bottom of Box No. V are reserved for designating, for the purposes of a national patent, States which have become party to the PCT after the date appearing at the bottom of the second sheet of the request form; in such a case, the name of the State, preferably preceded by the two-letter code, must be indicated on the dotted line and the corresponding check-box must be marked (together with an indication, where applicable, whether a special kind of protection or treatment is desired).

Precautionary Designation of States Subject to Confirmation (Rules 4.9(b) and (c) and 15.5): For the applicant's safeguard, the lower part of Box No. V contains a statement ("Precautionary Designation Statement") indicating the applicant's wish to make, as a matter of precaution, in addition to the specific designations made by marking the check-boxes in the upper part of Box No. V (at least one such designation must be made), a precautionary designation of all other PCT Contracting States which are not specifically designated.

If the applicant does not wish to avail himself of this safeguard and does not want to make any such precautionary designations, the statement must be crossed out.

If the applicant wishes to expressly exclude a certain State from such precautionary designation so that the international application does not have any effect in that State, the name or two-letter code of that State should be indicated in the Supplemental Box. In no other case is it necessary to make use of this possibility.

If, after filing the international application, the applicant notices that there are any omissions and/or mistakes in respect of the specific designations made, it will be possible to rectify the situation by confirming the precautionary designations concerned. The confirmation of any precautionary designation is possible before the expiration of 15 months from the (earliest) priority date indicated in Box No. VI or, where no priority is claimed, the international filing date. To effect such confirmation, the applicant must file with the receiving Office a written notice specifying the name of each State the designation of which is confirmed (with, where applicable, an indication of the kind of treatment or protection desired) and pay to the receiving Office, for each such designation, a designation fee (even where five designation fees have already been paid) together with a confirmation fee corresponding to 50% of the designation fee.

AP brevet ARIPO : il est à noter que **SZ Swaziland** ne peut être désigné que pour un brevet ARIPO et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties au Protocole de Harare peuvent être désignés soit aux fins d'un brevet national ou d'un brevet ARIPO, soit à la fois aux fins d'un brevet national et d'un brevet ARIPO.

EA brevet eurasien : tous les États contractants du PCT qui sont aussi parties à la Convention sur le brevet eurasien peuvent être désignés soit aux fins d'un brevet national ou d'un brevet eurasien, soit à la fois aux fins d'un brevet national et d'un brevet eurasien. Cependant, il est à noter qu'il n'est pas possible de désigner seulement certains de ces États aux fins d'un brevet eurasien et que toute désignation d'un ou de plusieurs États aux fins d'un brevet eurasien sera traitée comme une désignation aux fins d'un brevet eurasien de tous les États qui sont parties à la fois à la Convention et au PCT.

EP brevet européen : il est à noter que **BE Belgique, CY Chypre, FR France, GR Grèce, IE Irlande, IT Italie, MC Monaco, NL Pays-Bas et SI Slovénie** ne peuvent être désignés que pour un brevet européen et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties à la Convention sur le brevet européen peuvent être désignés soit aux fins d'un brevet national ou d'un brevet européen, soit à la fois aux fins d'un brevet national et d'un brevet européen.

Si un brevet ARIPO ou un brevet européen est demandé pour certains seulement des États contractants du Protocole de Harare ou de la Convention sur le brevet européen, respectivement, le nom des États pour lesquels un brevet régional n'est pas demandé peut être biffé. Il est cependant recommandé de toujours désigner aux fins d'un brevet régional tous les États contractants du Protocole ou de la Convention, respectivement. Ce n'est que lorsqu'il s'agira d'aborder la phase régionale et de payer les taxes de désignation régionales que la décision de ne poursuivre la procédure d'obtention de brevet que pour certaines des désignations devra être prise.

Lorsqu'un ou plusieurs États parties au Protocole de Harare, à la Convention sur le brevet eurasien ou à la Convention sur le brevet européen et au PCT sont désignés deux fois, une fois aux fins d'un brevet ARIPO, d'un brevet eurasien ou d'un brevet européen et une autre fois aux fins d'une protection nationale, le déposant doit acquitter une taxe de désignation pour le brevet régional et autant de taxes de désignation qu'il y a de brevets ou autres titres de protection nationaux demandés (règle 15.1.ii) et instruction 210).

Extension du brevet européen (EP) à certains États : s'il est envisagé de demander, au moment de l'ouverture de la phase régionale européenne, l'extension du brevet européen qui sera obtenu ultérieurement à AL Albanie, LT Lituanie, LV Lettonie ou MK Ex-République yougoslave de Macédoine (ou à tout autre État contractant du PCT pour lequel, à la date du dépôt de la demande internationale, un accord d'extension conclu avec l'Organisation européenne des brevets est en vigueur), le cadre n° V doit contenir **à la fois** la désignation de l'État concerné en vue de l'obtention d'un brevet national **et** la désignation, en vue de l'obtention d'un brevet européen, d'au moins un État contractant du PCT partie à la Convention sur le brevet européen.

OA brevet OAPI : la désignation des États membres de l'OAPI qui sont parties au PCT ne peut être effectuée qu'aux fins d'un brevet OAPI (aucune protection nationale n'est offerte); de plus, il n'est pas possible de ne désigner que certains de ces États.

Choix de certaines formes de protection ou de traitement (règles 4.12 à 4.14 et instruction 202) : si, dans un pays, il est possible de demander une forme de protection autre qu'un brevet, écrire le nom de ce pays, ou le code à deux lettres, suivi du nom du titre en question, c'est-à-dire "brevet pour solution

d'utilité" (pour VN Viet Nam), "petty patent" (pour YU Serbie-et-Monténégro), "brevet provisoire" (pour AM Arménie, KZ Kazakhstan, TM Turkménistan), "modèle d'utilité" (pour AE Émirats arabes unis, AL Albanie, AM Arménie, AP ARIPO, AT Autriche, AZ Azerbaïdjan, BG Bulgarie, BR Brésil, BY Bélarus, BZ Belize, CN Chine, CO Colombie, CR Costa Rica, CZ République tchèque, DE Allemagne, DK Danemark, EC Équateur, EE Estonie, ES Espagne, FI Finlande, GE Géorgie, HU Hongrie, JP Japon, KE Kenya, KR République de Corée, KZ Kazakhstan, LS Lesotho, MD République de Moldova, MX Mexique, MZ Mozambique, PH Philippines, PL Pologne, PT Portugal, RU Fédération de Russie, SK Slovaquie, SL Sierra Leone, TJ Tadjikistan, TR Turquie, UA Ukraine, UZ Ouzbékistan, OA OAPI), "brevet consensuel" (pour HR Croatie), "certificat d'utilité" (pour GH Ghana, TT Trinité-et-Tobago, UG Ouganda), ou "certificat d'auteur d'invention" (pour CU Cuba et KP République populaire démocratique de Corée). Si, pour AP ARIPO, AT Autriche, CZ République tchèque, DE Allemagne, DK Danemark, EE Estonie, FI Finlande ou SK Slovaquie (seuls pays où cela est possible), un modèle d'utilité est demandé en plus d'un brevet, écrire après le nom de ce pays "et modèle d'utilité".

Si, pour un pays où cela est possible, il est souhaité que la demande internationale soit traitée comme une demande d'obtention d'un certain titre "d'addition" ou comme une demande de "continuation" ou de "continuation-in-part", écrire après le nom de ce pays la mention appropriée, c'est-à-dire "brevet d'addition" (pour AE Émirats arabes unis, AT Autriche, AU Australie, BA Bosnie-Herzégovine, CU Cuba, DE Allemagne, ES Espagne, IL Israël, IN Inde, MK Ex-République yougoslave de Macédoine, MW Malawi, NZ Nouvelle-Zélande, PL Pologne, TR Turquie, YU Serbie-et-Monténégro, ZA Afrique du Sud, ZW Zimbabwe), "certificat d'addition" (pour BR Brésil, DZ Algérie, MA Maroc, MG Madagascar, OA OAPI), "certificat d'auteur d'invention additionnel" (pour CU Cuba), "continuation" ou "continuation-in-part" (pour US États-Unis d'Amérique). Si l'une de ces mentions est utilisée, indiquer également dans le cadre supplémentaire l'État pour lequel ce traitement est demandé, le numéro du titre principal ou de la demande principale et la date de délivrance du titre principal ou du dépôt de la demande principale, selon le cas (voir le point 1.v) de ce cadre).

L'indication, dans les cases du cadre n° V correspondant aux désignations, de numéros d'ordre en chiffres arabes sera considérée comme reflétant l'ordre des désignations choisi par le déposant; si les cases sont cochées d'une autre manière, l'ordre considéré sera celui dans lequel les cases cochées apparaissent sur le formulaire. Cet ordre n'aura de signification que si le montant reçu pour les taxes de désignation n'est pas suffisant pour couvrir l'ensemble des désignations et reste insuffisant après que le déposant a été invité à acquitter le solde débiteur; dans ce cas, le montant reçu sera affecté au paiement des taxes pour les désignations dans l'ordre en question (règle 16bis.1.c) et instruction 321).

Les cases situées en bas des colonnes sont réservées à la désignation, aux fins d'un brevet national, d'États qui sont devenus partie au PCT après la date qui figure au bas de la deuxième feuille du formulaire de requête; dans ce cas, il faut mentionner sur la ligne pointillée le nom de l'État, précédé de préférence du code à deux lettres, et cocher la case correspondante (en indiquant, le cas échéant, si une forme particulière de protection ou de traitement est souhaitée).

Désignation d'États à titre de précaution sous réserve de confirmation (règles 4.9.b) et c) et 15.5) : dans l'intérêt du déposant, le cadre n° V comporte, en bas, une déclaration ("Déclaration concernant les désignations de précaution") indiquant que le déposant souhaite, en sus des désignations expresses effectuées en cochant les cases de la première partie de ce cadre (il doit y avoir au moins une désignation de ce type), désigner à titre de précaution tous les autres États contractants du PCT qui n'ont pas été désignés expressément.

The receiving Office will not send to the applicant any reminder or invitation to confirm precautionary designations.

If no precautionary designation is to be confirmed, no action is required by the applicant, and the precautionary designations will then be automatically regarded as withdrawn by the applicant at the expiration of 15 months from the priority date.

BOX No. VI

Priority Claim(s) (Rule 4.10): If the priority of an earlier application is claimed, the declaration containing the priority claim must be made in the request.

The request must indicate the *date* on which the earlier application from which priority is claimed was filed and the *number* it was assigned. Note that that date must fall within the period of 12 months preceding the international filing date.

Where the earlier application is a national application, the *country* party to the Paris Convention for the Protection of Industrial Property, or the *Member* of the World Trade Organization that is not a party to that Convention, in which that earlier application was filed must be indicated. Where the earlier application is a regional application, the *regional Office* concerned must be indicated. Where the earlier application is an international application, the *receiving Office* with which that earlier application was filed must be indicated.

Where the earlier application is a regional application (other than an ARIPO application), or an international application, the priority claim may also, if the applicant so wishes, indicate one or more countries party to the Paris Convention for which that earlier application was filed (Rule 4.10(b)(i)); such an indication is not, however, mandatory. Where the earlier application is an ARIPO application, at least one country party to the Paris Convention or one Member of the World Trade Organization for which that earlier application was filed must be indicated (Rule 4.10(b)(ii)).

As to the possibility of correcting or adding a priority claim, see Rule 26*bis* and the *PCT Applicant's Guide*, Volume I/A, General Part.

Certified Copy of Earlier Application (Rule 17.1): A certified copy of each earlier application the priority of which is claimed (priority document) must be submitted by the applicant, irrespective of whether that earlier application is a national, regional or international application. The priority document must be submitted to the receiving Office or to the International Bureau before the expiration of 16 months from the (earliest) priority date or, where an early start of the national phase is requested, not later than at the time such request is made. Any priority document received by the International Bureau after the expiration of the 16-month time limit but before the date of international publication shall be considered to have been received on the last day of that time limit (Rule 17.1(a)).

Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office (not later than 16 months after the priority date) to prepare and transmit the priority document to the International Bureau (Rule 4.1(c)(ii)). Such request may be made by marking the applicable check-boxes which identify the respective documents. *Attention:* where such a request is made, the applicant must, where applicable, pay to the receiving Office the *fee for priority document*, otherwise, the request will be considered not to have been made (see Rule 17.1(b)).

Dates (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for the number of the day, the

number of the month and the last two digits of the year, in that order and separated by periods, slants or hyphens, for example, “20 March 2001 (20.03.01)”, “20 March 2001 (20/03/01)” or “20 March 2001 (20-03-01)”.

BOX No. VII

Choice of International Searching Authority (ISA) (Rules 4.1(b)(vi) and 4.14*bis*): If two or more International Searching Authorities are competent for carrying out the international search in relation to the international application—depending on the language in which that application is filed and the receiving Office with which it is filed—the name of the competent Authority chosen by the applicant must be indicated in the space provided, either by its full name or two-letter code.

Request to Use Results of Earlier Search; Reference to that Search (Rules 4.11 and 4.1.1): The earlier search, if any, must be identified in such a manner that the ISA can retrieve the results easily. Where those results can be used, the ISA may refund the international search fee or a portion thereof.

BOX No. VIII

Declarations Containing Standardized Wording (Rules 4.1(c)(iii) and 4.17): At the option of the applicant, the request may, for the purposes of the national law applicable in one or more designated States, contain one or more of the following declarations:

- (i) declaration as to the identity of the inventor;
- (ii) declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent;
- (iii) declaration as to the applicant's entitlement, as at the international filing date, to claim the priority of the earlier application;
- (iv) declaration of inventorship (only for the purposes of the designation of the United States of America);
- (v) declaration as to non-prejudicial disclosures or exceptions to lack of novelty;

which must conform to the standardized wording provided for in Sections 211 to 215, respectively, and which must be set forth in Boxes Nos. VIII (i) to (v), as detailed below. Where any such declarations are included, the appropriate check-boxes in Box No. VIII should be marked and the number of each type of declaration should be indicated in the right-hand column. As to the possibility of correcting or adding a declaration, see Rule 26*ter*, Section 216 and the *PCT Applicant's Guide*, Volume I/A, General Part.

If the circumstances of a particular case are such that the standardized wordings are not applicable, the applicant should not attempt to make use of the declarations provided for in Rule 4.17 but rather will have to comply with the national requirements concerned upon entry into the national phase.

The fact that a declaration is made under Rule 4.17 does not of itself establish the matters declared; the effect of those matters in the designated States concerned will be determined by the designated Offices in accordance with the applicable national law.

Even if the wording of a declaration does not conform to the standardized wording provided for in the Administrative Instructions pursuant to Rule 4.17, any designated Office may accept that declaration for the purposes of the applicable national law, but is not required to do so.

Details as to National Law Requirements: For information on the declarations required by each designated Office, see the *PCT Applicant's Guide*, Volume II, in the relevant National Chapter.

Si le déposant ne souhaite pas faire usage de cette mesure de sécurité ni ne veut faire de désignations de précaution, la déclaration doit être biffée.

Si le déposant souhaite expressément exclure tel ou tel État d'une telle désignation faite à titre de précaution afin que la demande internationale ne produise aucun effet dans cet État, il y aura lieu d'indiquer le nom ou le code à deux lettres de cet État dans le cadre supplémentaire. Cette mention n'est nécessaire dans aucun autre cas.

Si le déposant constate, après le dépôt de la demande internationale, qu'il y a des erreurs ou des omissions en ce qui concerne les désignations faites expressément, il pourra rectifier les erreurs ou corriger les omissions en confirmant les désignations de précaution en question. Il est possible de confirmer une désignation de précaution jusqu'à l'expiration d'un délai de 15 mois à compter de la date de priorité (la plus ancienne) indiquée dans le cadre n° VI ou, si aucune priorité n'est revendiquée, de la date du dépôt international. Pour confirmer une telle désignation, il faut déposer auprès de l'office récepteur une déclaration écrite contenant l'indication du nom de chaque État dont la désignation est confirmée (avec, le cas échéant, une indication de la forme de traitement ou de protection souhaitée) et payer à l'office récepteur, pour chaque désignation ainsi confirmée, une taxe de désignation (même lorsque cinq taxes de désignation ont déjà été payées) ainsi qu'une taxe de confirmation correspondant à 50 % de la taxe de désignation.

L'office récepteur n'enverra au déposant aucun rappel ni invitation à confirmer des désignations de précaution.

Le déposant ne doit rien faire s'il ne veut confirmer aucune désignation de précaution; les désignations de précaution seront alors automatiquement considérées comme retirées par le déposant à l'expiration d'un délai de 15 mois à compter de la date de priorité.

CADRE N° VI

Revendication(s) de priorité (règle 4.10) : si la priorité d'une demande antérieure est revendiquée, la déclaration contenant la revendication de priorité doit figurer dans la requête.

La requête doit indiquer la *date* du dépôt de la demande antérieure dont la priorité est revendiquée et son *numéro*. Cette date doit tomber dans la période de 12 mois précédant la date du dépôt international.

Lorsque la demande antérieure est une demande nationale, il faut indiquer le *pays* partie à la Convention de Paris pour la protection de la propriété industrielle, ou le *membre* de l'Organisation mondiale du commerce qui n'est pas partie à ladite convention, où elle a été déposée; lorsque la demande antérieure est une demande régionale, l'*office régional* concerné; et lorsque la demande antérieure est une demande internationale, l'*office récepteur* auprès duquel elle a été déposée.

Lorsque la demande antérieure est une demande régionale (autre qu'une demande ARIPO) ou une demande internationale, la revendication de priorité peut aussi, si le déposant le souhaite, indiquer un ou plusieurs pays parties à la Convention de Paris pour lesquels cette demande a été déposée (règle 4.10.b)i); cette indication n'est cependant pas obligatoire. Lorsque la demande antérieure est une demande ARIPO, il faut indiquer au moins un pays partie à la Convention de Paris ou un membre de l'Organisation mondiale du commerce pour lequel cette demande a été déposée (règle 4.10.b)ii).

En ce qui concerne les possibilités de correction ou d'adjonction d'une revendication de priorité, voir la règle 26*bis* et le *Guide du déposant du PCT*, volume I/A, partie générale.

Copie certifiée conforme de la demande antérieure (règle 17.1) : le déposant doit présenter une copie certifiée conforme de chaque demande antérieure dont la priorité est

revendiquée (document de priorité), que la demande antérieure soit une demande nationale, régionale ou internationale. Le document de priorité doit être présenté à l'office récepteur ou au Bureau international avant l'expiration d'un délai de 16 mois à compter de la date de priorité (la plus ancienne) ou, lorsque l'ouverture anticipée de la phase nationale est demandée, au plus tard à la date à laquelle est faite cette demande. Tout document de priorité qui parvient au Bureau international après l'expiration du délai de 16 mois mais avant la date de publication internationale est réputé avoir été reçu le dernier jour de ce délai (règle 17.1.a)).

Lorsque le document de priorité est délivré par l'office récepteur, le déposant peut, au lieu de présenter ce document, demander à l'office récepteur (au plus tard dans le délai de 16 mois à compter de la date de priorité) de l'établir et de le transmettre au Bureau international (règle 4.1.c)ii). Pour effectuer une requête à cet effet, il faut cocher la case appropriée comportant les indications qui permettent d'identifier le document. **Important** : lorsqu'une telle requête est présentée, le déposant doit, le cas échéant, verser à l'office récepteur la *taxe afférente au document de priorité*; à défaut, cette requête sera considérée comme n'ayant pas été présentée (voir la règle 17.1.b)).

Dates (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples : "20 mars 2001 (20.03.01)", "20 mars 2001 (20/03/01)" ou "20 mars 2001 (20-03-01)".

CADRE N° VII

Choix de l'administration chargée de la recherche internationale (ISA) (règles 4.1.b)vi) et 4.14*bis*) : si plusieurs administrations chargées de la recherche internationale sont compétentes pour procéder à la recherche internationale concernant la demande internationale – en fonction de la langue dans laquelle cette demande est déposée et de l'office récepteur auprès duquel elle est déposée – le nom de l'administration compétente choisie par le déposant doit être indiqué dans l'espace prévu, soit en clair soit au moyen du code à deux lettres correspondant.

Demande d'utilisation des résultats d'une recherche antérieure; mention de cette recherche (règles 4.11 et 41.1) : la mention de la recherche antérieure éventuelle doit comporter des indications qui permettent à l'administration chargée de la recherche internationale d'en retrouver aisément les résultats. Si ces résultats sont utilisables, l'administration en question pourra rembourser la taxe de recherche internationale ou une fraction de celle-ci.

Déclarations comportant un libellé standard (règles 4.1.c)iii) et 4.17) : au choix du déposant, la requête peut, aux fins de la législation nationale applicable dans un ou plusieurs États désignés, contenir une ou plusieurs des déclarations suivantes :

- i) une déclaration relative à l'identité de l'inventeur;
- ii) une déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet;
- iii) une déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure;
- iv) une déclaration relative à la qualité d'inventeur (seulement aux fins de la désignation des États-Unis d'Amérique);
- v) une déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté;

Effect in Designated Offices (Rule 51*bis*.2): Where the applicant submits any of the declarations provided for in Rule 4.17(i) to (iv) containing the required standardized wording (either with the international application, or to the International Bureau within the relevant time limit under Rule 26*ter*, or directly to the designated Office during the national phase), the designated Office may not, in the national phase, require further documents or evidence on the matter to which the declaration relates, unless that designated Office may reasonably doubt the veracity of the declaration concerned.

Incompatibility of Certain Items of Rule 51*bis*.2(a) with National Laws (Rule 51*bis*.2(c)): The designated Offices listed below have informed the International Bureau that the applicable national law is not compatible in respect of the following declarations provided in Rule 4.17(i), (ii) and (iii). Those designated Offices are therefore entitled to require further documents or evidence on the matters to which those declarations relate.

Declaration as to the identity of the inventor (Rules 4.17(i) and 51*bis*.1(a)(i)): The respective national laws of CH Switzerland, DK Denmark and SE Sweden are not compatible with Rule 51*bis*.2(a)(i).

Declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51*bis*.1(a)(ii)): The respective national laws of CA Canada, CH Switzerland, DK Denmark, HU Hungary and SE Sweden are not compatible with Rule 51*bis*.2(a)(ii).

Declaration as to the applicant's entitlement as at the international filing date, to claim the priority of the earlier application (Rules 4.17(iii) and 51*bis*.1(a)(iii)): The respective national laws of CH Switzerland and DK Denmark are not compatible with Rule 51*bis*.2(a)(iii).

BOXES Nos. VIII (i) to (v) (IN GENERAL)

Different Declaration Boxes: There are six different declaration boxes in the pre-printed request form—one box for each of the five different types of declarations provided for in Rule 4.17 (Box No. VIII (i) to Box No. VIII (v)) and a continuation sheet (Continuation of Box No. VIII (i) to (v)) to be used in case any single declaration does not fit in the corresponding box. The title of each type of declaration which is found in the standardized wording provided for in the Administrative Instructions is pre-printed on the appropriate sheet of the request.

Separate Sheet for Each Declaration: Each declaration must start on a separate sheet of the request form in the appropriate Declaration Box.

Titles, Items, Item Numbers, Dotted Lines, Words in Parentheses and Words in Brackets: The prescribed standardized wording of the declarations includes titles, various items, item numbers, dotted lines, words in parentheses and words in brackets. Except for Box No. VIII (iv) which contains the pre-printed standardized wording, only those items which are applicable should be included in a declaration where necessary to support the statements in that declaration (that is, omit those items which do not apply) and item numbers need not be included. Dotted lines indicate where information is required to be inserted. Words in parentheses are instructions to applicants as to the information which may be included in the declaration depending upon the factual circumstances. Words in brackets are optional and should appear in the declaration without the brackets if they apply; if they do not apply, they should be omitted together with the corresponding brackets.

Naming of Several Persons: More than one person may be named in a single declaration. In the alternative, with one exception, a separate declaration may be made for each person.

With respect to the declaration of inventorship set forth in Box No. VIII (iv), which is applicable only for the purposes of the designation of the United States of America, all inventors must be indicated in a single declaration (see Notes to Box No. VIII (iv), below). The wording of declarations to be set forth in Boxes Nos. VIII (i), (ii), (iii) and (v) may be adapted from the singular to the plural as necessary.

Designated States to Which the Declarations Apply: Each declaration must indicate the designated States to which it applies. In this regard, the standardized wording of the declaration of inventorship (Box No. VIII (iv); see also Rule 4.17(iv) and Section 214) indicates in the title that it is for the purposes of the designation of the United States of America. The other declarations include prescribed wording to indicate whether the declaration is made for all designations or specific designations; one of these choices should always be included in the declaration. Where the declaration is for more than one person, the declaration may include separate statements indicating whether the declaration is made for all designations or specific designations with respect to each separate applicant. For example, this may be expected to occur where the request indicates different applicants for different States in accordance with Rule 4.5(d). However, in such a case, it is advisable to include a separate declaration for each person.

BOX No. VIII (i)

Declaration as to the Identity of the Inventor (Rule 4.17(i) and Section 211): The declaration must be worded as follows:

“Declaration as to the identity of the inventor (Rules 4.17(i) and 51*bis*.1(a)(i)):

in relation to [this] international application [No. PCT/...],

- (i) ... (*name*) of ... (*address*) is the inventor of the subject matter for which protection is sought by way of [the] [this] international application
- (ii) this declaration is made for the purposes of (*include as applicable*):
 - (a) all designations [except the designation of the United States of America]
 - (b) the following designations for national and/or regional patents: ...”

Such a declaration is not necessary in respect of any inventor who is indicated as such (either as inventor only or applicant and inventor) in Box No. II or No. III in accordance with Rule 4.5 or 4.6. However, where the inventor is indicated as applicant in Box No. II or No. III in accordance with Rule 4.5, a declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)) may be appropriate for the purposes of all designated States except the United States of America. Where indications regarding the inventor in accordance with Rule 4.5 or 4.6 are not included in Box No. II or No. III, this declaration may be combined with the prescribed wording of the declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)). For details on such a combined declaration, see Notes to Box No. VIII (ii), below. For details as to the declaration of inventorship for the purposes of the designation of the United States of America, see Notes to Box No. VIII (iv), below.

BOX No. VIII (ii)

Declaration as to the Applicant's Entitlement to Apply for and Be Granted a Patent (Rule 4.17(ii) and Section 212): The declaration must be worded as follows, with such inclusion, omission, repetition and re-ordering of the matters listed as items (i) to (viii) as is necessary to explain the applicant's entitlement:

“Declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51*bis*.1(a)(ii)), in a case where the declaration under Rule 4.17(iv) is not appropriate:

qui doivent être conformes au libellé standard fixé dans les instructions 211 à 215, respectivement, et qui doivent être présentées dans les cadres n^{os} VIII.i) à v), comme précisé ci-après. Lorsque de telles déclarations sont incluses, il convient de cocher les cases appropriées dans le cadre n^o VIII et d'indiquer dans la colonne de droite le nombre de déclarations de chaque type. En ce qui concerne les possibilités de correction ou d'adjonction d'une déclaration, voir la règle 26ter, l'instruction 216 et le *Guide du déposant du PCT*, volume I/A, partie générale.

Si les circonstances d'un cas particulier sont telles que les libellés standard ne sont pas applicables, le déposant s'abstiendra de faire les déclarations prévues à la règle 4.17, mais il devra satisfaire aux exigences de la législation nationale concernée lors de l'entrée dans la phase nationale.

Le fait qu'une déclaration soit faite en vertu de la règle 4.17 ne suffit pas à prouver les points sur lesquels elle porte; il appartient aux offices désignés de statuer sur l'effet de ces points dans les États désignés en fonction de la législation nationale applicable.

Même si le texte d'une déclaration ne respecte pas le libellé standard fixé dans les instructions administratives en vertu de la règle 4.17, tout office désigné est libre d'accepter ou non cette déclaration aux fins de la législation nationale applicable.

Précisions quant aux exigences des législations nationales : pour des précisions concernant les déclarations qui sont exigées par chaque office désigné, voir les chapitres nationaux pertinents dans le volume II du *Guide du déposant du PCT*.

Effets dans les offices désignés (règle 51bis.2) : lorsqu'un déposant remet l'une des déclarations visées à la règle 4.17.i) à iv) comportant le libellé standard exigé (soit avec la demande internationale, soit au Bureau international dans le délai applicable en vertu de la règle 26ter, ou directement à l'office désigné durant la phase nationale), l'office désigné ne peut, pendant la phase nationale, exiger d'autres documents ou preuves relatifs à l'objet auquel se rapporte la déclaration, à moins qu'il puisse raisonnablement douter de la véracité de la déclaration en question.

Incompatibilité de certains points de la règle 51bis.2.a) avec les législations nationales (règle 51bis.2.c) : les offices désignés dont la liste figure ci-après ont informé le Bureau international que la législation nationale qui leur est applicable n'est pas compatible en ce qui concerne les déclarations suivantes visées à la règle 4.17.i), ii) et iii). Ces offices désignés pourront donc exiger des documents ou des preuves supplémentaires relatifs aux objets auxquels se rapportent ces déclarations.

Déclaration relative à l'identité de l'inventeur (règles 4.17.i) et 51bis.1.a)ii) : les législations nationales respectives de CH Suisse, DK Danemark et SE Suède ne sont pas compatibles avec la règle 51bis.2.a)ii).

Déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet (règles 4.17.ii) et 51bis.1.a)iii) : les législations nationales respectives de CA Canada, CH Suisse, DK Danemark, HU Hongrie et SE Suède ne sont pas compatibles avec la règle 51bis.2.a)ii).

Déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure (règles 4.17.iii) et 51bis.1.a)iii) : les législations nationales respectives de CH Suisse et DK Danemark ne sont pas compatibles avec la règle 51bis.2.a)iii).

CADRES N^{os} VIII i) à v) (GÉNÉRALITÉS)

Différents cadres pour déclarations : le formulaire pré-imprimé contient six cadres différents pour déclarations, un pour chacun des cinq types de déclarations prévues selon la règle 4.17 (du cadre n^o VIII.i) au cadre n^o VIII.v)) et une feuille annexe (Suite du cadre n^o VIII.i) à v)) à utiliser dans le cas où une des déclarations ne tient pas dans le cadre approprié. Le titre de chaque déclaration qui figure dans le libellé standard prévu dans les instructions administratives est pré-imprimé sur la feuille correspondante de la requête.

Feuille distincte pour chaque déclaration : chaque déclaration doit commencer sur une feuille distincte de la requête et dans le cadre pour déclaration approprié.

Titres, éléments, numéros d'éléments, lignes pointillées, mots entre parenthèses et mots entre crochets : le libellé standard fixé pour les déclarations comporte un titre, différents éléments, des numéros d'éléments, des lignes pointillées, des mots entre parenthèses et des mots entre crochets. Sauf en ce qui concerne le cadre n^o VIII.iv) dans lequel le libellé standard est pré-imprimé, seuls les éléments pertinents doivent figurer dans une déclaration lorsque cela est nécessaire à l'énoncé des faits invoqués dans cette déclaration (en d'autres termes, il y a lieu d'omettre les éléments non pertinents) et il n'est pas nécessaire d'inclure les numéros d'éléments. Les lignes pointillées signalent les endroits où il y a lieu d'indiquer les renseignements demandés. Les mots entre parenthèses indiquent au déposant quels renseignements peuvent être inclus dans la déclaration selon la situation de fait. Les mots entre crochets sont facultatifs; s'ils sont applicables, ils doivent figurer dans la déclaration sans les crochets; s'ils ne sont pas applicables, il convient de les omettre ainsi que les crochets.

Mention de plusieurs personnes : plusieurs personnes peuvent être mentionnées dans une même déclaration. Il est aussi possible, sauf dans un cas, de faire une déclaration distincte par personne. Pour la déclaration relative à la qualité d'inventeur, figurant dans le cadre n^o VIII.iv), qui est applicable seulement aux fins de la désignation des États-Unis d'Amérique, tous les inventeurs doivent être indiqués dans une même déclaration (voir les notes du cadre n^o VIII.iv), ci-après). Dans les déclarations devant figurer dans les cadres n^{os} VIII.i), ii), iii) et v), le libellé au singulier peut être mis au pluriel si cela s'avère nécessaire.

États désignés auxquels les déclarations s'appliquent : chaque déclaration doit comporter l'indication des États désignés auxquels elle s'applique. À cet égard, le libellé standard pour la déclaration relative à la qualité d'inventeur (cadre n^o VIII.iv); voir également la règle 4.17.iv) et l'instruction 214) indique dans le titre que la déclaration est faite aux fins de la désignation des États-Unis d'Amérique. Les autres déclarations comportent des libellés prescrits pour indiquer si la déclaration est faite aux fins de toutes les désignations ou aux fins de désignations particulières. Une de ces options doit toujours figurer dans la déclaration. Lorsque la déclaration est faite en ce qui concerne plusieurs personnes, elle peut comporter des mentions distinctes indiquant si elle est faite aux fins de toutes les désignations ou aux fins de désignations particulières en ce qui concerne chacun des déposants. Le cas peut par exemple se présenter si la requête indique des déposants différents pour différents États, conformément à la règle 4.5.d). Dans une telle situation, toutefois, il est conseillé d'inclure une déclaration distincte par personne.

CADRE N^o VIII.i)

Either (a) or (b) of item (ix) should always be included in the declaration. The remainder of the items may be incorporated as is necessary to explain the applicant's entitlement. ***This declaration is only applicable to those events which have occurred prior to the international filing date.*** The possible kinds of transfer of entitlement in item (vii) include merger, acquisition, inheritance, donation, etc. Where there has been a succession of transfers from the inventor, the order in which transfers are listed should follow the actual succession of transfers, and items may be included more than once, as necessary to explain the applicant's entitlement. Where the inventor is not indicated in Box No. II or No. III, this declaration may be presented as a combined declaration explaining the applicant's entitlement to apply for and be granted a patent and identifying the inventor. In such a case, the introductory phrase of the declaration must be as follows:

"Combined declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51*bis*.1(a)(ii)) and as to the identity of the inventor (Rules 4.17(i) and 51*bis*.1(a)(i)), in a case where the declaration under Rule 4.17(iv) is not appropriate:"

The remainder of the combined declaration must be worded as indicated in the preceding paragraphs.

For details as to the declaration as to the identity of the inventor, see the Notes to Box No. VIII (i), above.

BOX No. VIII (iii)

Declaration as to the Applicant's Entitlement to Claim Priority of the Earlier Application (Rule 4.17(iii) and Section 213): The declaration must be worded as follows, with such inclusion, omission, repetition and re-ordering of the matters listed as items (i) to (viii) as is necessary to explain the applicant's entitlement:

"Declaration as to the applicant's entitlement, as at the international filing date, to claim the priority of the earlier application specified below, where the applicant is not the applicant who filed the earlier application or where the applicant's name has changed since the filing of the earlier application (Rules 4.17(iii) and 51*bis*.1(a)(iii)):

Notes to the request form (PCT/RO/101) (page 6) (July 2003)

... (*name*) is entitled to claim priority of earlier application No. ... by virtue of the following:

- (vii) transfer of entitlement from ... (*name*) to ... (*name*) by way of ... (*specify kind of transfer*), dated ...

- (ix) this declaration is made for the purposes of (*include as applicable*):
 - (a) all designations
 - (b) the following designations for national and/or regional patents: ..."

Either (a) or (b) of item (ix) should always be included in the declaration. The remainder of the items may be incorporated as is necessary to explain the applicant's entitlement. ***This declaration is only applicable to those events which have occurred prior to the international filing date.*** In addition, this declaration is only applicable where the person or name of the applicant is different from that of the applicant who filed the earlier application from which priority is claimed. For example, this declaration may be applicable where only one applicant out of five is different from the applicants indicated in respect of an earlier application. The possible kinds of transfer of entitlement in item (vii) include merger, acquisition, inheritance, donation, etc. Where there has been a succession of transfers from the applicant in respect of the earlier application, the order in which transfers are listed should follow the actual succession of transfers, and items may be included more than once, as necessary to explain the applicant's entitlement.

BOX No. VIII (iv)

Declaration of Inventorship (Rule 4.17(iv) and Section 214): The standardized wording for the declaration is pre-printed in Box No. VIII (iv).

All inventors must be named in the declaration, even if they do not all sign the same (copy of) the declaration (Section 214(b)). Bibliographic data, such as address of residence and citizenship, must be included for each inventor. Where the declaration is included in the request, the inventor(s) need not sign and date the declaration if they have signed in Box No. X of the request. If there are more than two inventors, those other inventors must be indicated on the "continuation sheet for declaration." In such a case, write "Continuation of Box No. VIII (iv)," and indicate only the bibliographical data in respect of each inventor. The text of the declaration itself should not be repeated on that continuation sheet. The inventor(s) identified on the continuation sheet must sign and date such sheet, unless the declaration, including the continuation sheet, is included with the request and the inventor(s) has (have) signed in Box No. X of the request.

BOX No. VIII (v)

Declaration as to Non-prejudicial Disclosures or Exceptions to Lack of Novelty (Rule 4.17(v) and Section 215): The declaration must be worded as follows, with such inclusion, omission, repetition and re-ordering of the matters listed as items (i) to (iv) as is necessary:

“Déclaration relative à l’identité de l’inventeur (règles 4.17.i) et 51*bis*.1.a)i) :

concernant la [présente] demande internationale [n° PCT/...],

- i) ... (*nom*), ... (*adresse*), est l’inventeur de ce pour quoi une protection est demandée dans [la] [ladite] demande internationale
- ii) la présente déclaration est faite aux fins (*préciser selon le cas*)
 - a) de toutes les désignations [sauf la désignation des États-Unis d’Amérique]
 - b) des désignations suivantes pour des brevets nationaux ou régionaux : ...”

Une déclaration de cette nature n’est pas nécessaire en ce qui concerne tout inventeur qui est indiqué comme tel (que ce soit comme inventeur seulement ou en qualité à la fois de déposant et d’inventeur) dans le cadre n° II ou le cadre n° III en application de la règle 4.5 ou 4.6. Toutefois, lorsque l’inventeur est indiqué comme étant le déposant dans le cadre n° II ou n° III en application de la règle 4.5, une déclaration relative au droit du déposant de demander et d’obtenir un brevet (règle 4.17.ii) peut être appropriée aux fins de tous les États désignés sauf des États-Unis d’Amérique. Lorsque les indications concernant l’inventeur qui sont à fournir en application de la règle 4.5 ou 4.6 ne sont pas portées dans le cadre n° II ou n° III, cette déclaration peut être combinée avec le libellé standard pour la déclaration relative au droit du déposant de demander et d’obtenir un brevet (règle 4.17.ii). Pour des précisions concernant cette déclaration combinée, voir les notes du cadre n° VIII.ii), ci-après. Pour des précisions quant à la déclaration relative à la qualité d’inventeur aux fins de la désignation des États-Unis d’Amérique, voir les notes du cadre n° VIII.iv), ci-après.

CADRE N° VIII.ii)

Déclaration relative au droit du déposant de demander et d’obtenir un brevet (règle 4.17.ii) et instruction 212) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à viii) nécessaires aux fins de motiver le droit du déposant :

“Déclaration relative au droit du déposant, à la date du dépôt international, de demander et d’obtenir un brevet (règles 4.17.ii) et 51*bis*.1.a)ii)), dans le cas où la déclaration selon la règle 4.17.iv) n’est pas appropriée :

concernant la [présente] demande internationale [n° PCT/...],

... (*nom*) a le droit de demander et d’obtenir un brevet en vertu :

- i) du fait que ... (*nom*), ... (*adresse*), est l’inventeur de ce pour quoi une protection est demandée dans [la] [ladite] demande internationale
- ii) du fait que... (*nom*) [possède] [possédait] ce droit en qualité d’employeur de l’inventeur, ... (*nom de l’inventeur*)
- iii) d’un contrat conclu entre ... (*nom*) et ... (*nom*), daté du ...
- iv) d’une cession de ... (*nom*) à ... (*nom*), datée du ...
- v) d’une autorisation consentie par ... (*nom*) à ... (*nom*), datée du ...
- vi) d’une décision de justice rendue par ... (*nom du tribunal*), ordonnant un transfert de ... (*nom*) à ... (*nom*), datée du ...
- vii) d’un transfert de droits de ... (*nom*) à ... (*nom*), sous la forme de ... (*préciser le type de transfert*), daté du ...
- viii) du changement de nom du déposant de ... (*nom*) en ... (*nom*), le ... (*date*)

ix) la présente déclaration est faite aux fins (*préciser selon le cas*)

- a) de toutes les désignations [sauf la désignation des États-Unis d’Amérique]
- b) des désignations suivantes pour des brevets nationaux ou régionaux : ...”

L’une ou l’autre des variantes a) et b) du point ix) doit toujours être incluse dans la déclaration. On ne retiendra parmi les autres éléments que ceux qui sont nécessaires pour motiver le droit du déposant. **Cette déclaration est exclusivement applicable à des faits qui se sont produits avant la date du dépôt international.** Les types possibles de transfert de droits visés au point vii) comprennent la fusion, l’acquisition, l’héritage, la donation, etc. Lorsqu’il y a eu succession de transferts des droits de l’inventeur, l’ordre dans lequel les transferts sont énumérés doit suivre l’ordre effectif de ces transferts successifs et certains points peuvent être cités plus d’une fois si cela s’avère nécessaire pour motiver le droit du déposant. Lorsque l’inventeur n’est pas indiqué dans le cadre n° II ou le cadre n° III, cette déclaration peut être présentée sous la forme d’une déclaration combinée motivant le droit du déposant de demander et d’obtenir un brevet et permettant d’identifier l’inventeur. Dans un tel cas, la phrase introductive de la déclaration est libellée comme suit :

“Déclaration combinée relative au droit du déposant, à la date du dépôt international, de demander et d’obtenir un brevet (règles 4.17.ii) et 51*bis*.1.a)ii)) et relative à l’identité de l’inventeur (règles 4.17.i) et 51*bis*.1.a)i)), dans le cas où la déclaration selon la règle 4.17.iv) n’est pas appropriée :”

Le reste de la déclaration combinée est libellé comme indiqué aux paragraphes précédents.

Pour des précisions concernant la déclaration permettant d’identifier l’inventeur, voir les notes relatives au cadre n° VIII.i), ci-dessus.

CADRE N° VIII.iii)

Déclaration relative au droit du déposant de revendiquer la priorité de la demande antérieure (règle 4.17.iii) et instruction 213) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à viii) nécessaires aux fins de motiver le droit du déposant :

“Déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande indiquée ci-dessous si le déposant n’est pas celui qui a déposé la demande antérieure ou si son nom a changé depuis le dépôt de la demande antérieure (règles 4.17.iii) et 51*bis*.1.a)iii)) :

concernant la [présente] demande internationale [n° PCT/...],

... (*nom*) a le droit de revendiquer la priorité de la demande antérieure n° ... en vertu :

- i) du fait que le déposant est l’inventeur de ce pour quoi une protection a été demandée dans la demande antérieure
- ii) du fait que ... (*nom*) [possède] [possédait] ce droit en qualité d’employeur de l’inventeur, ...(*nom de l’inventeur*)
- iii) d’un contrat conclu entre ... (*nom*) et ... (*nom*), daté du ...
- iv) d’une cession de ... (*nom*) à ... (*nom*), datée du ...

“Declaration as to non-prejudicial disclosures or exceptions to lack of novelty (Rules 4.17(v) and 51*bis*.1(a)(v)):

in relation to [this] international application [No. PCT/...],

... (*name*) declares that the subject matter claimed in [the] [this] international application was disclosed as follows:

- (i) kind of disclosure (*include as applicable*):

 - (b) publication
 - (c) abuse
 - (d) other: ... (*specify*)
- (ii) date of disclosure: ...
- (iii) title of disclosure (*if applicable*): ...
- (iv) place of disclosure (*if applicable*): ...
- (v) this declaration is made for the purposes of (*include as applicable*):
 - (a) all designations
 - (b) the following designations for national and/or regional patents: ...”

Either (a), (b), (c) or (d) of item (i) should always be included in the declaration. Item (ii) should also always be included in the declaration. Either (a) or (b) of item (v) should always be included in the declaration. Items (iii) and (iv) may be incorporated depending upon the circumstances.

BOX No. IX

Items Constituting the International Application: The number of sheets of the various parts of the international application must be given in the check list in Arabic numerals. Sheets containing any of Boxes Nos. VIII (i) to (v) must be counted as part of the request.

Where the application contains disclosure of one or more *nucleotide and/or amino acid sequences*, the applicant has the following three options.

First, the applicant may choose to file the sequence listings and/or tables related thereto *in paper form only* (“option (a)”), in which case the number of sheets of the listings and/or tables, respectively, must be indicated under item (a) in the left column of Box No. IX (and therefore included in the total number of sheets), noting that a copy of the sequence listings and/or a copy of the tables, in computer readable form, may accompany the international application but only for the purposes of international search under Rule 13*ter* and/or Section 802(b-*quater*); in such a case, check-boxes Nos. 9, 9(i) and/or 10(i) and, where applicable, 9(iii) and/or 10(iii) must be marked in the right column of Box No. IX.

Second, the applicant may choose to file the sequence listings and/or tables related thereto *in computer readable form only*, under Section 801(a)(i) (“option (b)”), in which case check-boxes b(i) and/or b(ii) must be marked but the spaces for the number of sheets of the sequence listings and/or tables, respectively, under item (a) must be left blank; the type and number of carriers must also be indicated on the dotted lines at the bottom of the left column; in addition, check-boxes Nos. 9, 9(ii) and/or 10(ii) and, where applicable, 9(iii) and/or 10(iii) must be marked if additional copies of the sequence listings and/or tables in computer readable form are furnished.

addition, check-boxes Nos. 9, 9(ii) and/or 10(ii) and, where applicable, 9(iii) and/or 10(iii) must be marked if additional copies of the sequence listings and/or tables in computer readable form are furnished.

Under all three options described above, the sequence listings must be presented as a separate part of the description (“sequence listing part of description”) in accordance with the standard contained in Annex C of the Administrative Instructions. Also, tables related to sequence listings must be presented in accordance with the standard contained in Annex C-*bis* of the Administrative Instructions.

Items Accompanying the International Application:

Where the international application is accompanied by certain items, the applicable check-boxes must be marked, any applicable indication must be made on the dotted line after the applicable item, and the number of such items should be indicated at the end of the relevant line; detailed explanations are provided below only in respect of those items which so require.

Check-box No. 4: Mark this checkbox where a copy of a general power of attorney is filed with the international application; where the general power of attorney has been deposited with the receiving Office, and that Office has accorded to it a reference number, that number may be indicated.

Check-box No. 5: Mark this check-box where a statement explaining the lack of signature of an inventor/applicant for the purposes of the United States of America is furnished together with the international application (see also Notes to Box No. X).

Check-box No. 7: Mark this check-box where a translation of the international application for the purposes of international search (Rule 12.3) is filed together with the international application and indicate the language of that translation.

Check-box No. 8: Mark this check-box where a filled-in Form PCT/RO/134 or any separate sheet containing indications concerning deposited microorganisms and/or other biological material is filed with the international application. If Form PCT/RO/134 or any sheet containing the said indications is included as one of the sheets of the description (as required by certain designated States (see the *PCT Applicant's Guide*, Volume I/B, Annex L)), do not mark this check-box (for further information, see Rule 13*bis* and Section 209).

Check-box No. 9: Where the international application contains sequence listings and a copy thereof in computer readable form is required by the ISA under Rule 13*ter*, the applicant may furnish the listings in computer readable form (together with the required statement) to the receiving Office with the international application, in which case check-boxes Nos. 9, 9(i) and, where applicable, 9(iii) must be marked. Where the applicant has chosen option (b) or option (c) mentioned above, and an additional copy or copies of the sequence listings in computer readable form are required under Section 804, the applicant may furnish such additional copies together with the international application, in which case check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked. L’une ou l’autre des variantes a) et b) du point ix) doit toujours être incluse dans la déclaration. On ne retiendra parmi les autres éléments que ceux qui sont nécessaires pour motiver le droit du déposant. ***Cette déclaration est exclusivement applicable à des faits qui se sont produits avant la date du dépôt international.*** En outre, cette déclaration n’est applicable que si la personne du déposant est différente de celle du déposant qui a déposé la demande antérieure dont la priorité est revendiquée, ou si le nom du déposant a changé. Si par exemple un seul déposant sur cinq est différent de ceux qui étaient indiqués pour une demande antérieure, cette déclaration pourra être applicable. Les types possibles de transferts de droits visés au point vii) comprennent la fusion, l’acquisition, l’héritage, la donation, etc. Lorsqu’il y a eu succession de transferts des droits du déposant sur la demande antérieure, l’ordre dans lequel les points sont énumérés doit suivre l’ordre effectif de ces transferts successifs et certains points peuvent être cités plus d’une fois si cela s’avère nécessaire pour motiver le droit du déposant.

CADRE N° VIII.iv)

Déclaration relative à la qualité d’inventeur (règle 4.17.iv) et instruction 214) : le libellé standard pour la déclaration est pré-imprimé au cadre n° VIII.iv).

Tous les inventeurs doivent être mentionnés dans la déclaration même s’ils ne signent pas tous la même (copie de la) déclaration (instruction 214.b)). Les données bibliographiques, telles que l’adresse du domicile et la nationalité, doivent être fournies pour chaque inventeur. Dans le cas d’une déclaration incluse dans la requête, il n’est pas nécessaire que le ou les inventeurs signent ou datent la déclaration s’ils ont signé eux-mêmes dans le cadre n° X de la requête. S’il y a plusieurs inventeurs, les autres inventeurs doivent être indiqués sur la “feuille annexe de déclaration”. Dans ce cas, on écrira “suite du cadre n° VIII.iv)” et on fournira uniquement les données bibliographiques concernant chaque inventeur. Le texte de la déclaration ne doit pas être répété sur cette feuille annexe. Le ou les inventeurs indiqués sur la feuille annexe doivent signer et dater cette feuille, à moins que la déclaration, y compris la feuille annexe, soit incluse dans la requête et que le ou les inventeurs aient signé dans le cadre n° X de la requête.

CADRE N° VIII.v)

Déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté (règle 4.17.v) et instruction 215) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à iv), qui s’avérerait nécessaire :

CADRE N° IX

Éléments constituant la demande internationale : Il faut indiquer en chiffres arabes, dans le bordereau, le nombre de feuilles des différentes parties de la demande internationale. Toute feuille sur laquelle figure l’un quelconque des cadres n°s VIII.i) à v) doit être comptée comme faisant partie de la requête.

Lorsque la demande internationale contient la divulgation d’une ou de plusieurs *séquences de nucléotides ou d’acides aminés*, le déposant dispose des trois options suivantes.

Premièrement, le déposant peut choisir de déposer les listages des séquences ou les tableaux y relatifs *sous forme papier seulement* (“option a”), auquel cas le nombre de feuilles des listages ou des tableaux, respectivement, doit être indiqué au point a) de la colonne de gauche du cadre n° IX (et par conséquent compris dans le nombre total de feuilles); on notera dans ce cas qu’une copie des listages des séquences ou une copie des tableaux, sous forme déchiffrable par ordinateur, peuvent être remises avec la demande internationale mais seulement aux fins de la recherche internationale en vertu de la règle 13*ter* ou de l’instruction 802.b-*quater*); dans ce cas, les cases n°s 9, 9.i) ou 10.i) et, le cas échéant, 9.iii) ou 10.iii), doivent être cochées dans la colonne de droite du cadre n° IX.

Deuxièmement, le déposant peut choisir de déposer les listages des séquences ou les tableaux y relatifs *sous forme déchiffrable par ordinateur seulement*, en vertu de l’instruction 801.a)i) (“option b”), auquel cas la case b)i) ou b)ii) doit être cochée mais l’endroit réservé au nombre de feuilles des listages des séquences ou des tableaux, respectivement, sous le point a) doit être laissé en blanc; le type et le nombre de supports doivent également être indiqués sur les lignes pointillées en bas de la colonne de gauche. De plus, les cases n°s 9, 9.ii) ou 10.ii) et, le cas échéant, 9.iii) ou 10.iii), doivent être cochées si on joint des exemplaires supplémentaires des listages des séquences ou des tableaux sous forme déchiffrable par ordinateur.

Troisièmement, le déposant peut choisir de déposer les listages des séquences ou les tableaux y relatifs *à la fois sous forme déchiffrable par ordinateur et sous forme papier*, en vertu de l’instruction 801.a)ii) (“option c”), auquel cas le nombre de feuilles (sous forme papier) des listages ou des tableaux, respectivement, doit être indiqué sous le point a) dans la colonne de gauche du cadre n° IX (bien que ces nombres de feuilles ne soient pas utilisés aux fins du calcul de la taxe de base) et la case c)i) ou c)ii), respectivement, doit être cochée; le type et le nombre de supports doivent également être indiqués sur les lignes pointillées en bas de la colonne de gauche. De plus, les cases n°s 9, 9.ii) ou 10.ii) et, le cas échéant, 9.iii) ou 10.iii), doivent être cochées si on joint des exemplaires supplémentaires des listages des séquences ou des tableaux sous forme déchiffrable par ordinateur.

Dans le cadre des trois options décrites ci-dessus, les listages des séquences doivent être présentés dans une partie distincte de la description (“partie de la description réservée au listage

Language of Filing of the International Application (Rules 12.1(a) and 20.4(c) and (d)): With regard to the language in which the international application is filed, for the purposes of according an international filing date, it is, subject to the following sentence, sufficient that the description and the claims are in the language, or one of the languages, accepted by the receiving Office for the filing of international applications; that language should be indicated in that check-box (as regards the language of the abstract and any text matter in the drawings, see Rule 26.3ter(a) and (b); as regards the language of the request, see Rules 12.1(c) and 26.3ter(c) and (d)). Note that where the international application is filed with the United States Patent and Trademark Office as receiving Office, all elements of the international application (request, description, claims, abstract, text matter of drawings) must, for the purposes of according an international filing date, be in English except that the free text in any sequence listing part of the description, complying with the standard set out in Annex C of the Administrative Instructions, may be in a language other than English.

BOX No. X

Signature (Rules 4.1(d), 4.15 and 90): The signature must be that of the applicant (if there are several applicants, all must sign); however, the signature may be that of the agent, or the common representative, where a separate power of attorney appointing the agent or the common representative, respectively, or a copy of a general power of attorney already in the possession of the receiving Office, is furnished. If the power is not filed with the request, the receiving Office will invite the applicant to furnish it.

If the United States of America is designated and an inventor/applicant for that State refused to sign the request or could not be found or reached after diligent effort, a statement explaining the lack of signature may be furnished. It should be noted that this applies only where there are two or more applicants and the international application has been signed by at least one other applicant. The statement must satisfy the receiving Office. If such a statement is furnished with the international application, check-box No. 5 in Box No. IX should be marked.

SUPPLEMENTAL BOX

The cases in which the Supplemental Box may be used and the manner of making indications in it are explained in the left column of that Box.

GENERAL REMARKS

Language of Correspondence (Rule 92.2 and Section 104): Any letter from the applicant to the receiving Office must be in the language of filing of the international application provided that, where the international application is to be published in the language of a translation required under Rule 12.3, such letter should be in the language of that translation; however, the receiving Office may authorize the use of another language.

Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Any letter from the applicant to the ISA must be in the same language as the international application, provided that, where a translation of the international application for the purposes of international search has been transmitted under Rule 23.1(b), such letter is in the language of that translation. However, the ISA may authorize the use of another language.

Arrangement of Elements and Numbering of Sheets of the International Application (Rule 11.7 and Section 207): The elements of the international application must be placed in the following order: the request, the description (excluding the sequence listing part, if any), the claim(s), the abstract, the drawings (if any), the sequence listing part of the description (if any).

All sheets of the description (excluding the sequence listing part), claims and abstract must be numbered in consecutive Arabic numerals, which must be placed at the top or bottom of the sheet, in the middle, but not in the margin which must remain blank. The number of each sheet of the drawings must consist of two Arabic numerals separated by an oblique stroke, the first being the sheet number and the second being the total number of sheets of drawings (for example, 1/3, 2/3, 3/3). For numbering of the sheets of the sequence listing part of the description, see Section 207.

Indication of the Applicant's or Agent's File Reference on the sheets of the description (excluding the sequence listing part, if any), claim(s), abstract, drawings and sequence listing part of the description (Rule 11.6(f)): The file reference indicated on the request may also be indicated in the left-hand corner of the top margin, within 1.5 cm from the top of any sheet of the international application.

Éléments joints à la demande internationale : lorsque des éléments sont joints à la demande internationale, les cases appropriées doivent être cochées et toute indication pertinente doit être portée sur la ligne pointillée correspondante, le nombre de chacun de ces éléments devant être indiqué dans la colonne, en fin de ligne; on trouvera ci-après des explications détaillées concernant uniquement les éléments qui le nécessitent.

Case n° 4 : cocher cette case si la copie d’un pouvoir général est déposée avec la demande internationale; lorsque le pouvoir général a été déposé auprès de l’office récepteur, et que celui-ci lui a attribué un numéro de référence, ce dernier peut être indiqué.

Case n° 5 : cocher cette case si une explication de l’absence de signature d’un inventeur/déposant pour les États-Unis d’Amérique est fournie conjointement avec la demande internationale (voir aussi les notes du cadre n° X).

Case n° 7 : cocher cette case si une traduction de la demande internationale aux fins de la recherche internationale (règle 12.3) est fournie conjointement avec cette demande et indiquer la langue de la traduction.

Case n° 8 : cocher cette case si, avec la demande internationale, est déposé un formulaire PCT/RO/134 rempli ou une ou plusieurs feuilles séparées comportant des indications relatives à des micro-organismes ou autre matériel biologique déposés. Si le formulaire PCT/RO/134 ou toute autre feuille comportant les indications en question figurent en tant que feuilles de la description (comme le prescrivent certains États désignés (voir le *Guide du déposant du PCT*, volume I/B, annexe L), ne pas cocher cette case (pour de plus amples renseignements, voir la règle 13bis et l’instruction 209).

Case n° 9 : lorsque la demande internationale contient des listages des séquences et qu’une copie de ces derniers, sous forme déchiffrable par ordinateur, est requise par l’administration chargée de la recherche internationale en vertu de la règle 13ter, le déposant peut fournir, conjointement avec la demande internationale, les listages en question sous forme déchiffrable par ordinateur (ainsi que la déclaration requise) à l’office récepteur. Si tel est le cas, les cases n° 9, 9.i) et, le cas échéant, 9.iii) doivent être cochées. Lorsque le déposant a choisi l’option b) ou l’option c) mentionnée ci-dessus, et qu’un ou plusieurs exemplaires supplémentaires des listages des séquences sont requis en vertu de l’instruction 804, le déposant peut remettre de tels exemplaires supplémentaires, conjointement avec la demande internationale, auquel cas les cases n° 9, 9.ii) et, le cas échéant, 9.iii) doivent être cochées. Dans tous les cas mentionnés ci-dessus, le déposant doit indiquer à la fin de chaque rubrique applicable le type et le nombre de disquettes, CD-ROM, CD-R ou autres supports de données qu’il a remis.

Case n° 10 : lorsque la demande internationale contient des tableaux relatifs aux listages des séquences et qu’une copie de ces derniers, sous forme déchiffrable par ordinateur, est requise par l’administration chargée de la recherche internationale en vertu de l’instruction 802.b-*quater*), le déposant peut fournir, conjointement avec la demande internationale, les tableaux en question sous forme déchiffrable par ordinateur (ainsi que la déclaration requise) à l’office récepteur. Si tel est le cas, les cases n° 10, 10.i) et, le cas échéant, 10.iii) doivent être cochées. Lorsque le déposant a choisi l’option b) ou l’option c) mentionnée ci-dessus, et qu’un ou plusieurs exemplaires supplémentaires des tableaux sous forme déchiffrable par ordinateur sont requis en vertu de l’instruction 804, le déposant peut remettre de tels exemplaires supplémentaires, conjointement avec la demande internationale, auquel cas les cases n° 10, 10.ii) et, le cas échéant, 10.iii) doivent être cochées. Dans tous les cas

mentionnés ci-dessus, le déposant doit indiquer à la fin de chaque rubrique applicable le type et le nombre de disquettes, CD-ROM, CD-R ou autres supports de données qu’il a remis.

Langue de dépôt de la demande internationale (règles 12.1.a) et 20.4.c) et d)) : en ce qui concerne la langue dans laquelle la demande internationale est déposée, il suffit, aux fins de l’attribution d’une date de dépôt international, et sous réserve de la phrase suivante, que la description et les revendications soient rédigées dans la langue ou l’une des langues acceptées par l’office récepteur pour le dépôt de demandes internationales; cette langue doit être indiquée dans cette case (en ce qui concerne la langue de l’abrégé et de tout texte des dessins, voir la règle 26.3ter.a) et b); en ce qui concerne la langue de la requête, voir les règles 12.1.c) et 26.3ter.c) et d)). On notera que, lorsque la demande internationale est déposée auprès de l’Office des brevets et des marques des États-Unis d’Amérique en sa qualité d’office récepteur, tous les éléments de la demande internationale (requête, description, revendications, abrégé, texte des dessins) doivent, aux fins de l’attribution d’une date de dépôt international, être rédigés en anglais, hormis tout texte libre contenu dans la partie de la description réservée au listage des séquences conforme à la norme figurant dans l’annexe C des instructions administratives, qui peut être rédigé dans une langue autre que l’anglais.

CADRE N° X

Signature (règles 4.1.d), 4.15 et 90) : la signature doit être celle du déposant (s’il y a plusieurs déposants, tous doivent signer); il peut toutefois s’agir de la signature du mandataire ou du représentant commun, si un pouvoir distinct désignant le mandataire ou le représentant commun, respectivement, ou une copie du pouvoir général déjà détenu par l’office récepteur est fourni. Si la requête n’est pas déposée avec le pouvoir, l’office récepteur invitera le déposant à le remettre.

Si les États-Unis d’Amérique sont désignés et qu’un déposant pour cet État qui a la qualité d’inventeur a refusé de signer la requête ou que des efforts diligents n’ont pas permis de le trouver ou d’entrer en rapport avec lui, il est possible de fournir une explication de l’absence de signature. Cela vaut uniquement lorsqu’il y a plusieurs déposants et que la demande internationale a été signée par au moins un autre déposant. L’explication doit être jugée satisfaisante par l’office récepteur. Si cette explication est remise conjointement avec la demande internationale, il y a lieu de cocher la case n° 5 du cadre n° IX.

CADRE SUPPLÉMENTAIRE

Les cas dans lesquels le cadre supplémentaire peut être utilisé et la manière de fournir les indications prévues dans ce cadre sont expliqués dans la colonne de gauche de celui-ci.

NOTES TO THE FEE CALCULATION SHEET (ANNEX TO FORM PCT/RO/101)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete the sheet by entering the appropriate amounts in the boxes provided and submit the fee calculation sheet at the time of filing the international application. This will help the receiving Office to verify the calculations and to identify any error in them.

Information about the applicable fees payable can be obtained from the receiving Office. The amounts of the international and search fees may change due to currency fluctuations. Applicants are advised to check what are the latest applicable amounts. All fees, except in some cases the designation fee, must be paid within one month from the date of receipt of the international application. See below for further details concerning the possibility of later payment of the designation fee.

CALCULATION OF PRESCRIBED FEES

Box T: Transmittal Fee for the benefit of the receiving Office (Rule 14.1): The amount of the transmittal fee, if any, is fixed by the receiving Office. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box S: Search Fee for the benefit of the International Searching Authority (ISA) (Rule 16.1): The amount of the search fee is fixed by the ISA. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex D.

Where two or more ISAs are competent, the applicant must indicate his choice in the space provided for this purpose and pay the amount of the international search fee fixed by the ISA chosen. Information on the competent ISA and whether the applicant has a choice between two or more ISAs is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box I: International Fee for the benefit of the International Bureau (Rule 15): The international fee consists of a basic fee and as many designation fees as there are specific designations under Rule 4.9(a) in Box No. V of the request. The amounts of the basic fee and of the designation fee are as set out in Swiss francs in the Schedule of Fees and the applicable amounts of those fees in other currencies are as published in the *PCT Gazette* (Rule 15.2). Information about those fees is also contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Reduction of the International Fee Where PCT-EASY Software Is Used: A fee reduction of 200 Swiss francs (or the equivalent in the currency in which the international fee is paid to the receiving Office) is available in certain cases where the PCT-EASY software is used to prepare the request, provided that the necessary conditions are met. For further details, see the *PCT Applicant's Guide*, Volume I/A, General Part, and Volume I/B, Annex C, as well as information published in the *PCT Gazette* and the *PCT Newsletter*. Since applicants using the PCT-EASY software will file the Request Form and Fee Calculation Sheet in the form of a printout prepared using that software, no provision is made for this fee reduction in the Fee Calculation Sheet annexed to Form PCT/RO/101.

Reduction of the International Fee Where the International Application Is Filed in Electronic Form: A fee reduction of 200 Swiss francs (or the equivalent in the currency in which the international fee is paid to the receiving Office) is available in certain cases where the international application is filed in electronic form, in accordance with and to the extent provided for in Part 7 and Annex F of the Administrative Instructions. For further details, see the *PCT Applicant's Guide*, Volume I/A, General Part, and Volume I/B, Annex C, as well as information published in the *PCT Gazette* and the *PCT Newsletter*. Since international applications filed in electronic form will contain the Request Form and Fee Calculation Sheet in such electronic form, no provision is

made for this fee reduction in the Fee Calculation Sheet annexed to Form PCT/RO/101.

Reduction of the International Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the international fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the international fee (basic fee and designation fees) is automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Boxes Nos. II and III of the request.

The fee reduction is available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic, CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CO Colombia, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EC Ecuador, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GQ Equatorial Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, NI Nicaragua, PG Papua New Guinea, PH Philippines, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SY Syrian Arab Republic, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TN Tunisia, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VC Saint Vincent and the Grenadines, VN Viet Nam, YU Serbia and Montenegro, ZA South Africa, ZM Zambia and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the International Fee (Basic Fee and Designation Fees) in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the international fee, the total to be entered at box I is 25% of the sum of the amounts entered at boxes B and D (see below).

NOTES RELATIVES A LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/RO/101)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre au moment du dépôt de la demande internationale, ce qui permettra à l'office récepteur de vérifier les calculs et d'y déceler d'éventuelles erreurs.

Des renseignements sur le montant en vigueur des taxes à payer peuvent être obtenus auprès de l'office récepteur. Les montants de la taxe internationale et de la taxe de recherche peuvent varier en raison de fluctuations monétaires. Il est recommandé aux déposants de vérifier quels sont les tout derniers montants en vigueur. Toutes les taxes sauf, dans certains cas, la taxe de désignation doivent être payées dans un délai d'un mois à compter de la date de réception de la demande internationale. On trouvera ci-après quelques précisions supplémentaires relatives à un éventuel paiement différé de la taxe de désignation.

CALCUL DES TAXES PRESCRITES

Cadre T : Taxe de transmission au profit de l'office récepteur (règle 14.1) : l'office récepteur fixe le montant de la taxe de transmission, s'il y en a une. Celui-ci doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT*, volume I/B, annexe C.

Cadre S : Taxe de recherche au profit de l'administration chargée de la recherche internationale (règle 16.1) : le montant de la taxe de recherche est fixé par l'administration chargée de la recherche internationale. Il doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT*, volume I/B, annexe D.

Lorsque plusieurs administrations chargées de la recherche internationale sont compétentes, le déposant doit indiquer son choix à l'emplacement prévu à cet effet et payer le montant de la taxe de recherche internationale fixé par l'administration qu'il a choisie. Le *Guide du déposant du PCT*, volume I/B, annexe C, donne des renseignements sur l'administration chargée de la recherche internationale qui est compétente et sur la question de savoir si le déposant a le choix entre plusieurs administrations chargées de la recherche internationale.

Cadre I : Taxe internationale au profit du Bureau international (règle 15) : la taxe internationale comprend une taxe de base et autant de taxes de désignation qu'il y a de désignations faites expressément selon la règle 4.9.a) dans le cadre n° V de la requête. Les montants de la taxe de base et de la taxe de désignation sont fixés en francs suisses dans le barème des taxes et les montants correspondants de ces taxes dans d'autres monnaies sont publiés dans la *Gazette du PCT* (règle 15.2). On peut trouver des renseignements sur ces taxes dans le *Guide du déposant du PCT*, volume I/B, annexe C.

Réduction de la taxe internationale dans le cas de l'utilisation du logiciel PCT-EASY : une réduction de 200 francs suisses (ou l'équivalent dans la monnaie dans laquelle la taxe internationale est payée à l'office récepteur) peut être obtenue dans certains cas où le logiciel PCT-EASY est utilisé pour la préparation de la requête, à condition que les conditions nécessaires soient remplies. On peut trouver des précisions sur cette réduction dans le *Guide du déposant du PCT*, volume I/A, partie générale, et volume I/B, annexe C, ainsi que dans les informations publiées dans la *Gazette du PCT* et le bulletin *PCT Newsletter*. Étant donné que les déposants qui utilisent le logiciel PCT-EASY déposeront le formulaire de requête et la feuille de calcul des taxes sous la forme d'un imprimé produit par ordinateur à l'aide de ce logiciel, la feuille de calcul des taxes annexée au formulaire PCT/RO/101 ne prévoit pas cette réduction de taxe.

Réduction de la taxe internationale dans le cas où la demande internationale est déposée sous forme électronique : une réduction de 200 francs suisses (ou l'équivalent dans la monnaie dans laquelle la taxe internationale est payée à l'office récepteur) peut être obtenue dans certains cas où la demande internationale est, conformément à la septième partie et à l'annexe F des instructions administratives et dans la mesure prévue par celles-ci, déposée sous forme électronique. On peut trouver des précisions sur cette réduction dans le *Guide du déposant du PCT*, volume I/A, partie générale, et volume I/B, annexe C, ainsi que dans les informations publiées dans la *Gazette du PCT* et dans le bulletin *PCT Newsletter*. Étant donné que les demandes internationales déposées sous forme électronique contiendront le formulaire de requête et la feuille de calcul des taxes sous forme électronique, la feuille de calcul des taxes annexée au formulaire PCT/RO/101 ne prévoit pas cette réduction de taxe.

Réduction de la taxe internationale pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75 % de certaines taxes du PCT, dont la taxe internationale. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe internationale (taxe de base et taxe de désignation) s'applique automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans les cadres n°s II et III de la requête.

La réduction de la taxe s'applique même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus, BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CO Colombie, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EC Équateur, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GQ Guinée équatoriale, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie,

Box B: Basic Fee. The amount of the basic fee depends on the number of sheets of the international application indicated under item (a) of Box No. IX of the request as explained below.

That number is the **Total number of sheets** where items (b) and (c) of Box No. IX of the request do not apply (that is, where the international application either does not contain sequence listings and/or tables related thereto or where it contains such listings and/or tables but not filed in computer readable form under Section 801(a)(i) or (ii)); in such a case, item "b3" must not be filled in.

Otherwise, where items (b) and/or (c) of Box No. IX of the request apply (that is, where the international application contains sequence listings and/or tables related thereto which are filed in computer readable form only, under Section 801(a)(i), or both in that form and in paper form under Section 801(a)(ii)), the number of sheets to be used for the purpose of calculating the amount of the basic fee is the **Sub-total number of sheets**. In such a case, item "b3" must be filled in on the basis that the sequence listings and/or tables related thereto in computer readable form are considered to be equal to 400 sheets (see Section 803).

The basic fee must be paid within one month from the date of receipt of the international application by the receiving Office.

Box D: Designation Fees. Subject to what is said below, the number of designation fees due corresponds to the number of check-boxes marked in Box No. V of the request.

The number of designation fees which are due is the same as the number of national patents and regional patents in respect of which specific designations under Rule 4.9(a) are made. Only one designation fee is due for the designation AP, the designation EA, the designation EP or the designation OA, irrespective of the number of States for which an ARIPO patent, a Eurasian patent, a European patent or an OAPI patent, respectively, is sought.

Where any States are designated twice (once for the purposes of an ARIPO patent, a Eurasian patent or a European patent and once for the purposes of national protection), the applicant must pay one designation fee in respect of the ARIPO patent, the Eurasian patent or the European patent and a further designation fee in respect of each national patent or other kind of protection sought (Rule 15.1(ii) and Section 210).

Any designation, in excess of five designations for which the fee is due, is free of charge. Therefore, the

maximum amount to be indicated in box D is five times the amount of the designation fee. If, for example, 15 national patents and four regional patents (an ARIPO patent, a Eurasian patent, a European patent and an OAPI patent) are sought (totalling 19 designations), the figure to be indicated in box D is five times the amount of the designation fee.

The designation fees must be paid within one month from the date of receipt of the international application by the receiving Office or one year from the priority date, whichever time limit expires later.

Box P: Fee for Priority Document (Rule 17.1(b)): Where the applicant has requested, by marking the applicable check-box in Box No. VI of the request, that the receiving Office prepare and transmit to the International Bureau a certified copy of the earlier application the priority of which is claimed, the amount of the fee prescribed by the receiving Office for such service may be entered (for information, see the *PCT Applicant's Guide*, Volume I/B, Annex C).

If that fee is not paid at the latest before the expiration of 16 months from the priority date, the receiving Office may consider the request under Rule 17.1(b) as not having been made.

Total Box: The total of the amounts entered in boxes T, S, I and P should be entered in this box. If the applicant so wishes, the currency in which the fees are paid may be indicated next to or in the total box.

Later Payment of Designation Fees: Where the time limit of one year from the priority date expires later than one month from the date of receipt of the international application by the receiving Office, and the applicant wishes to delay the payment of the designation fees, it is recommended that the corresponding check-box be marked.

MODE OF PAYMENT

In order to help the receiving Office identify the mode of payment of the prescribed fees, it is recommended that the applicable check-box(es) be marked.

AUTHORIZATION TO CHARGE (OR CREDIT) DEPOSIT ACCOUNT

The receiving Office will not charge (or credit) fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, NI Nicaragua, PG Papouasie-Nouvelle-Guinée, PH Philippines, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SY République arabe syrienne, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TN Tunisie, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VC Saint-Vincent-et-les-Grenadines, VN Viet Nam, YU Serbie-et-Monténégro, ZA Afrique du Sud, ZM Zambie et ZW Zimbabwe. En ce qui concerne d'autres États, il convient de s'adresser au Bureau international.

Calcul de la taxe internationale (taxe de base et taxes de désignation) en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe internationale, la somme devant figurer sous I est égale à 25 % de la somme des montants figurant sous B et D (voir ci-dessous).

Cadre B : Taxe de base. Le montant de la taxe de base est fonction du nombre de feuilles de la demande internationale indiqué au point a) du cadre n° IX de la requête comme expliqué ci-dessous.

Ce nombre est le **nombre total de feuilles** lorsque les points b) et c) du cadre n° IX de la requête ne s'appliquent pas (c'est-à-dire, si la demande internationale ne contient pas de listages des séquences ou de tableaux y relatifs ou qu'elle en contient mais que ces derniers ne sont pas déposés sous forme déchiffrable par ordinateur en vertu de l'instruction 801.a)ii) ou ii)); dans ce cas, le point "b3" ne doit pas être rempli.

Sinon, lorsque les points b) ou c) du cadre n° IX de la requête s'appliquent (c'est-à-dire, si la demande internationale contient des listages des séquences ou des tableaux y relatifs qui sont déposés sous forme déchiffrable par ordinateur seulement, en vertu de l'instruction 801.a)i), ou à la fois sous cette forme et sous forme papier en vertu de l'instruction 801.a)ii)), le nombre de feuilles à utiliser pour le calcul du montant de la taxe de base est le **sous-total des feuilles**. Dans un tel cas, le point "b3" doit être rempli étant entendu que les listages des séquences ou les tableaux y relatifs sous forme déchiffrable par ordinateur sont considérés comporter 400 pages (voir l'instruction 803).

La taxe de base doit être payée dans un délai d'un mois à compter de la date de réception de la demande internationale par l'office récepteur.

Cadre D : Taxes de désignation. Sous réserve de ce qui suit, le nombre de taxes de désignation dues correspond au nombre de cases cochées dans le cadre n° V de la requête.

Sont dues autant de taxes de désignation qu'il y a de brevets nationaux et de brevets régionaux pour lesquels une désignation expresse a été faite en vertu de la règle 4.9.a). Une seule taxe de désignation est due pour la désignation AP, la désignation EA, la désignation EP ou la désignation OA, quel que soit le nombre d'États pour lesquels un brevet ARIPO, un brevet eurasiatique, un brevet européen ou un brevet OAPI, respectivement, est demandé.

Si un ou plusieurs États sont désignés deux fois (une fois aux fins d'un brevet ARIPO, d'un brevet eurasiatique ou d'un brevet européen et une fois aux fins d'une protection nationale), le déposant doit payer une taxe de désignation pour le brevet ARIPO, le brevet eurasiatique ou le brevet européen et une autre taxe de désignation pour chaque brevet ou autre forme de protection nationale demandé (règle 15.1.ii) et instruction 210).

Toute désignation faite au-delà de cinq désignations soumises à la taxe est gratuite. Le montant maximum à indiquer dans le cadre D est donc de cinq fois le montant de la taxe de désignation. Si, par exemple, 15 brevets nationaux et quatre brevets régionaux (un brevet ARIPO, un brevet eurasiatique, un brevet européen et un brevet OAPI) sont demandés (soit un total de 19 désignations), la somme à indiquer dans le cadre D est de cinq fois le montant de la taxe de désignation.

Les taxes de désignation doivent être payées dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale ou d'un an à compter de la date de priorité, le délai applicable étant celui des deux qui arrive à expiration le plus tard.

Cadre P : Taxe afférente au document de priorité (règle 17.1.b)) : si, en cochant la case appropriée dans le cadre n° VI de la requête, le déposant a demandé que l'office récepteur prépare et transmette au Bureau international une copie certifiée conforme de la demande antérieure dont la priorité est revendiquée, il peut indiquer le montant de la taxe prescrite par l'office récepteur pour ce service (pour plus de renseignements, voir le *Guide du déposant du PCT*, volume I/B, annexe C).

Si cette taxe n'est pas payée au plus tard avant l'expiration d'un délai de 16 mois à compter de la date de priorité, l'office récepteur peut considérer la requête selon la règle 17.1.b) comme n'ayant pas été présentée.

Total : le total des montants inscrits dans les cadres T, S, I et P doit être porté dans ce cadre. Le déposant peut, s'il le souhaite, indiquer à proximité ou à l'intérieur du cadre "Total" la monnaie dans laquelle il paie les taxes.

Paiement différé des taxes de désignation : si le délai d'un an à compter de la date de priorité arrive à expiration plus d'un mois après la date à laquelle l'office récepteur reçoit la demande internationale, et que le déposant souhaite différer le paiement des taxes de désignation, il est recommandé de cocher la case appropriée.

MODE DE PAIEMENT

Pour aider l'office récepteur à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

L'office récepteur ne débitera (ou ne créditera) un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.

The demand must be filed directly with the competent International Preliminary Examining Authority or, if two or more Authorities are competent, with the one chosen by the applicant. The full name or two-letter code of that Authority may be indicated by the applicant on the line below:

NOTES TO THE DEMAND FORM (PCT/IPEA/401)

These Notes are intended to facilitate the filling in of the demand form and to give some information concerning international preliminary examination under Chapter II of the Patent Cooperation Treaty (PCT). For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the PCT, the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the demand form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with dark ink (Rules 11.9(a) and (b) and 11.14).

The demand form and these Notes may be downloaded from WIPO's Website at the address given above.

IMPORTANT GENERAL INFORMATION

Who May File a Demand? (Article 31(2)(a) and Rule 54): A demand (for international preliminary examination) may only be filed by an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II of the PCT; furthermore, the international application must have been filed with a receiving Office of, or acting for, a State bound by Chapter II. Where there are two or more applicants (for the same or different elected States) at least one of them must qualify.

Where Must the Demand Be Filed? (Article 31(6)(a)): The demand must be filed with a competent International Preliminary Examining Authority (IPEA). The receiving Office with which the international application was filed will, upon request, give information about the competent IPEA (or see the *PCT Applicant's Guide*, Volume I/B, Annex C). If several IPEAs are competent, the applicant has the choice and the demand must be filed with (and the fees must be paid to) the IPEA chosen by the applicant. The IPEA chosen by the applicant may be identified, preferably by an indication of the name or two-letter code of the IPEA, at the top of the first sheet of the demand in the space provided for that purpose.

When Must the Demand Be Filed? (Article 39(1)): The demand must be filed within 19 months from the priority date, but **only in respect of some designated Offices**, if the applicant wishes to postpone the entry into the national phase until 30 months from the priority date (in some Offices even later); otherwise, the applicant must, within 20 months from the priority date, perform the prescribed acts for entry into the national phase before those designated Offices. **In respect of other designated Offices, the time limit of 30 months (in some Offices even later) will apply** even if no demand is filed within 19 months. See the Annex to Form PCT/IB/301 and, for details about the applicable time limits, Office by Office, see the *PCT Applicant's Guide*, Volume II, National Chapters.

In Which Language Must the Demand Be Filed? (Rule 55.1): The demand must be filed in the language in which international preliminary examination will be carried out (see Notes to Box No. IV).

What is the Language of Correspondence? (Rules 66.9 and 92.2 and Section 104): Any letter from the applicant to the IPEA must be in the same language as the international application to which it relates. However, where the international preliminary examination will be carried out on the basis of a translation (see Notes to Box No. IV), any letter from the applicant to the IPEA must be in the language of the translation. The IPEA may authorize the use of other languages for letters which do not contain or relate to amendments of the international application. Any letter from the applicant to the International Bureau must be in English or French, at the choice of the applicant. However, if the language of the international

application is English, the letter must be in English; if the language of the international application is French, the letter must be in French.

Which Fees Must Be Paid and When? (Rules 57 and 58): Two fees are due in respect of the international preliminary examination: the preliminary examination fee and the handling fee. Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The Fee Calculation Sheet should be used for that purpose. For details concerning the payment of the fees, see the Notes to that Sheet.

BOX No. I

Applicant's or Agent's File Reference: A file reference may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded (Section 109).

Identification of the International Application (Rule 53.6): The international application number must be indicated in Box No. I. Where the demand is filed at a time when the international application number has not yet been notified by the receiving Office, the name of that Office must be indicated instead of the international application number.

International Filing Date and (Earliest) Priority Date (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for each of the number of the day, the number of the month and the last two digits of the year, in that order, and separated by periods, slants or hyphens, for example, "20 March 2001 (20.03.01)", "20 March 2001 (20/03/01)" or "20 March 2001 (20-03-01)". Where the international application claims the priority of several earlier applications, the filing date of the earliest application whose priority is claimed must be indicated as the priority date.

Title of the Invention: If a new title has been established by the International Searching Authority, that title must be indicated in Box No. I.

BOX No. II

Applicant(s) (Rule 53.4): All the applicants for the elected States must be indicated in the demand; an applicant named in the request (Form PCT/RO/101) for a State which is not elected need not be named in the demand. It should be noted that the persons named as "inventor only" in the request need not be named in the demand.

RENSEIGNEMENTS IMPORTANTS D'ORDRE GÉNÉRAL

Qui peut présenter une demande d'examen préliminaire international ? (article 31.2a) et règle 54) : une demande d'examen préliminaire international ne peut être présentée que par un déposant qui est ressortissant d'un État contractant lié par le chapitre II du PCT ou qui a son domicile dans un tel État; en outre, la demande internationale doit avoir été déposée auprès de l'office récepteur d'un État lié par le chapitre II, ou agissant pour un tel État. S'il y a plusieurs déposants (pour les mêmes États élus ou pour des États élus différents), au moins l'un d'entre eux doit remplir les conditions requises.

Où la demande d'examen préliminaire international doit-elle être présentée ? (article 31.6a)) : la demande d'examen préliminaire international doit être présentée à une administration chargée de l'examen préliminaire international (IPEA) compétente. L'office récepteur auprès duquel la demande internationale a été déposée donnera, sur demande, des renseignements au sujet de l'administration chargée de l'examen préliminaire international qui est compétente (voir aussi le *Guide du déposant du PCT*, volume I/B, annexe C). Si plusieurs administrations chargées de l'examen préliminaire international sont compétentes, le déposant doit présenter la demande d'examen préliminaire international à l'administration de son choix (et lui payer les taxes). Cette administration peut être indiquée, de préférence au moyen de son nom ou de son code à deux lettres, en haut de la première feuille de la demande d'examen préliminaire international, dans l'espace prévu à cet effet.

Quand la demande d'examen préliminaire international doit-elle être présentée ? (article 39.1)) : la demande d'examen préliminaire international doit être présentée avant l'expiration d'un délai de 19 mois à compter de la date de priorité, **mais seulement en ce qui concerne certains offices désignés**, si le déposant souhaite le report de la phase nationale jusqu'à 30 mois à compter de la date de priorité (ou plus dans certains offices); sinon, le déposant doit, dans le délai de 20 mois à compter de la date de priorité, accomplir les actes requis pour l'ouverture de la phase nationale auprès de ces offices. **En ce qui concerne d'autres offices désignés, le délai de 30 mois (dans certains offices, même plus tard) s'appliquera** même si aucune demande d'examen préliminaire international n'est présentée dans les 19 mois. Voir l'annexe du formulaire PCT/IB/301 et les chapitres nationaux du volume II du *Guide du déposant du PCT*.

En quelle langue la demande d'examen préliminaire international doit-elle être présentée ? (règle 55.1) : la

demande d'examen doit être présentée dans la langue dans laquelle l'examen préliminaire international sera effectué (voir les notes relatives au cadre n° IV).

Quelle est la langue à utiliser dans la correspondance ? (règles 66.9 et 92.2 et instruction 104) : toute lettre adressée par le déposant à l'administration chargée de l'examen préliminaire international doit être rédigée dans la même langue que la demande internationale qu'elle concerne. Cependant, lorsque l'examen préliminaire international doit être effectué sur la base d'une traduction (voir les notes relatives au cadre n° IV), toute lettre adressée par le déposant à l'administration chargée de cet examen doit être rédigée dans la langue de la traduction. L'administration chargée de l'examen peut autoriser l'utilisation d'autres langues pour des lettres qui ne contiennent pas de modifications de la demande internationale ou qui ne se rapportent pas à des modifications. Toute lettre adressée par le déposant au Bureau international doit être rédigée en anglais ou en français, au choix du déposant. Toutefois, si la langue de la demande internationale est l'anglais, la lettre doit être rédigée en anglais; si la langue de la demande internationale est le français, la lettre doit être rédigée en français.

Quelles taxes doivent être payées et quand ? (règles 57 et 58) : l'examen préliminaire international donne lieu au paiement de deux taxes : la taxe d'examen préliminaire et la taxe de traitement. Ces deux taxes doivent être acquittées auprès de l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date de présentation de la demande d'examen. La feuille de calcul des taxes devrait être utilisée à cette fin. Pour de plus amples renseignements concernant le paiement des taxes, voir les notes relatives à cette feuille.

CADRE N° I

Référence du dossier du déposant ou du mandataire : il est possible d'indiquer, à titre facultatif, une telle référence de dossier. Celle-ci ne devrait pas dépasser 12 caractères. L'administration chargée de l'examen préliminaire international peut ne pas tenir compte des caractères en sus du douzième (instruction 109).

Identification de la demande internationale (règle 53.6) : le numéro de la demande internationale doit être indiqué dans le cadre n° I. Si la demande d'examen préliminaire international est présentée alors même que le numéro de la demande

to the request apply *mutatis mutandis*. If there are two or more applicants for the States elected in the demand, give the required indications for each of them; if there are more than three applicants, make the required indications on the "Continuation Sheet".

If different applicants are indicated in the request for different designated States, indicate in Box No. II of the demand only the applicants for the States elected in Box No. V (no indication of the States for which a person is applicant need be made, because those indications have been made in the request).

Applicant's registration number with the Office (Rule 53.4): Where the applicant is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the applicant is so registered.

BOX No. III

Agent or Common Representative (Rules 53.5, 90.1 and 90.2): Mark the applicable check-boxes to indicate *first* whether the person named in this Box is agent or common representative, *then* whether that person *has been appointed earlier* (i.e., during the procedure under Chapter I), or *is appointed in the demand* and any earlier appointment of another person is revoked, or *is appointed specifically for the procedure before the IPEA* (without revocation of any earlier appointment), in addition to the person(s) appointed earlier.

Where an additional person is appointed specifically for the procedure before the IPEA, all notifications issued by the IPEA will be addressed only to that additional person.

A separate power of attorney must be filed with the IPEA, the International Bureau or the receiving Office, if the person appointed at the time the demand is filed (i.e., was not appointed earlier) signs the demand on behalf of the applicant (Rule 90.4).

Agent's registration number with the Office (Rule 53.5): Where the agent is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. III will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address may be indicated in Box No. III instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. III must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" in Box No. III has been marked).

BOX No. IV

Statement Concerning Amendments (Rules 53.2(a)(v), 53.9, 62, 66.1 and 69.1): The international preliminary examination will start on the basis of the international application as filed or, if amendments have been filed, as amended. Mark the appropriate check-box(es) to enable the IPEA to determine when and on what basis it can start international preliminary examination.

Mark the corresponding check-box(es) under No. 1 where the international preliminary examination should start on the basis of the international application as originally filed or where amendments are to be taken into account, as the case may be. Where amendments are to be taken into account, the applicant must submit *with the demand* a copy of amendments to the claims under Article 19 (Rule 53.9(a)(i)) and/or the amendments of the international application under Article 34 (Rule 53.9(c)), as the case may be. If a check-box is marked but the demand is not accompanied by the documents referred to, the start of international preliminary examination will be delayed until the IPEA receives them.

Mark check-box No. 2 if amendments of the claims under Article 19 have been filed with the International Bureau during the Chapter I procedure, but the applicant does not want these amendments to be taken into account for the purpose of international preliminary examination when the latter starts (Rule 53.9(a)(ii)).

Mark check-box No. 3 where the time limit for filing amendments of the claims under Article 19 has not expired at the time the demand is filed and the applicant wants to keep the option for the filing of such amendments open; the IPEA is thus requested to postpone the start of international preliminary examination (Rules 53.9(b) and 69.1(d)). It should be noted that the examination will start in any event after the expiration of 20 months from the priority date even where the time limit for filing amendments has not yet expired or no amendments have been received by the IPEA.

If no check-box is marked, refer to the footnote at the bottom of the Box.

Language for the Purposes of International Preliminary Examination (Rule 55.2): Where neither the language in which the international application is filed nor the language in which the international application is published is accepted by the IPEA that is to carry out the international preliminary examination, the applicant must furnish with the demand a translation of the international application into a language which is both a language accepted by that Authority and a language of publication.

Where such translation has already been furnished to the International Searching Authority for the purposes of carrying out international search and the IPEA is part of the same Office or intergovernmental organization as the International Searching Authority, the applicant need not furnish another translation. In such a case the international preliminary examination is carried out on the basis of the translation furnished for the purposes of international search.

The language for the purposes of international preliminary examination should be indicated in Box No. IV, on the dotted line, and the corresponding check-box should be marked.

internationale n'a pas encore été notifié par l'office récepteur, le nom de cet office doit être indiqué en lieu et place du numéro de la demande internationale.

Date du dépôt international et date de priorité (la plus ancienne) (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples "20 mars 2001 (20.03.01)", "20 mars 2001 (20/03/01)" ou "20 mars 2001 (20-03-01)". Lorsque la demande internationale revendique la priorité de plusieurs demandes antérieures, la date de dépôt de la plus ancienne demande dont la priorité est revendiquée doit être indiquée en tant que date de priorité.

Titre de l'invention : si l'administration chargée de la recherche internationale a établi un nouveau titre, celui-ci doit être indiqué dans le cadre n° I.

CADRE N° II

Déposant(s) (règle 53.4) : tous les déposants qui ont cette qualité pour les États élus doivent être mentionnés dans la demande d'examen préliminaire international; un déposant mentionné dans la requête (formulaire PCT/RO/101) pour un État qui n'est pas élu n'a pas à être mentionné dans la demande d'examen préliminaire international. Il est à noter que les personnes mentionnées dans la requête comme "inventeur seulement" n'ont pas non plus à être mentionnées dans la demande d'examen préliminaire international.

Reprendre dans le cadre n° II de la demande d'examen préliminaire international les indications requises figurant dans les cadres n°s II et III de la requête. Les notes relatives à la requête s'appliquent *mutatis mutandis*. S'il y a pluralité de déposants pour les États élus dans la demande d'examen préliminaire international, fournir les indications requises sur chacun d'eux; si ces déposants sont plus de trois, porter les indications en question sur une "feuille annexe".

Si, dans la requête, des déposants différents sont indiqués pour différents États désignés, n'indiquer dans le cadre n° II de la demande d'examen préliminaire international que les déposants ayant cette qualité pour les États élus dans le cadre n° V (il n'y a pas lieu d'indiquer les États pour lesquels une personne est mentionnée comme déposant, car ces indications ont été fournies dans la requête).

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 53.4) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

CADRE N° III

Mandataire ou représentant commun (règles 53.5, 90.1 et 90.2) : cocher les cases appropriées afin d'indiquer, *premièrement*, si la personne indiquée dans le cadre n° III est mandataire ou représentant commun, *deuxièmement*, si cette personne a été désignée à une date antérieure (c'est-à-dire au cours de la procédure prévue au chapitre I), *est désignée dans la demande d'examen préliminaire international* (toute désignation antérieure d'une autre personne étant révoquée) ou *est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire*

international (sans qu'il y ait révocation d'une désignation antérieure) en sus de la ou des personnes désignées antérieurement.

Lorsqu'une personne supplémentaire est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international, toute la correspondance émanant de cette administration sera adressée seulement à cette personne supplémentaire.

Un pouvoir distinct doit être déposé auprès de l'administration chargée de l'examen préliminaire international, du Bureau international ou de l'office récepteur si la personne qui est désignée au moment de la présentation de la demande d'examen préliminaire international (et qui n'a donc pas été désignée antérieurement) signe cette demande d'examen au nom du déposant (règle 90.4).

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 53.5) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° III sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, il est possible d'indiquer cette adresse dans le cadre n° III, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas et seulement dans ce cas qu'il y a lieu de cocher la dernière case du cadre n° III (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° IV

Déclaration concernant les modifications (règles 53.2.a)v), 53.9, 62, 66.1 et 69.1) : l'examen préliminaire international commencera sur la base de la demande internationale telle qu'elle a été déposée ou, si des modifications ont été déposées, telle qu'elle a été modifiée. Cocher la ou les cases appropriées pour permettre à l'administration chargée de l'examen préliminaire international de déterminer si elle peut commencer l'examen préliminaire international et sur quelle base.

Cocher la ou les cases appropriées de la rubrique n° 1 pour indiquer si l'examen préliminaire international doit commencer sur la base de la demande internationale telle qu'elle a été déposée ou s'il doit être tenu compte de modifications, selon le cas. S'il y a des modifications à prendre en compte, le déposant doit présenter *avec la demande d'examen* une copie des modifications apportées aux revendications en vertu de l'article 19 (règle 53.9.a)i) ou des modifications apportées à la demande internationale en vertu de l'article 34 (règle 53.9.c)), ou une copie des deux types de

Language of Amendments (Rules 55.3 and 66.9): Amendments and letters relating thereto must be in the same language as that in which the international preliminary examination is carried out, as explained in the preceding paragraphs.

Time Limit for Furnishing Translation of the International Application (Rule 55.2): Any required translation of the international application should be furnished (by the applicant) together with the demand. If it is not so furnished, the IPEA will invite the applicant to furnish it within a time limit which shall not be less than one month from the date of the invitation. That time limit may be extended by the IPEA.

BOX No. V

Election of States (Rule 53.7): Only States which are bound by Chapter II of the PCT *and* which have been designated in the international application (that is, States whose designations have been made under Rule 4.9(a), confirmed under Rule 4.9(c) or considered as having been made under Rule 32.2(a)(i)) can be elected. They are the “eligible States”.

For the convenience and protection of applicants, Box No. V contains a statement to the effect that all eligible States are elected. It is only where the applicant does not wish to elect certain eligible States that the name(s) or two-letter code(s) of those States must be indicated after the words “wishes not to elect:”.

The indication in the demand of the kind of protection or treatment desired for any elected State is not required since it follows the indication made when designating that State in the international application.

BOX No. VI

Check List: It is recommended that this Box be filled in carefully in order for the IPEA to determine as soon as possible whether it is in possession of the documents on the basis of which the applicant wishes international preliminary examination to start.

Where the international application contains disclosure of one or more nucleotide and/or amino acid sequences, and a copy of the sequence listings in computer readable form complying with the standard provided for in the Administrative Instructions is required by the IPEA, the applicant may furnish the listings in computer readable form to the IPEA with the demand. If this is the case, check-box No. 6 must be marked.

Similarly, where such an application contains tables related to the sequence listings, and a copy of the tables in computer readable form complying with the standard provided for in the Administrative Instructions is required by the IPEA, the applicant may furnish the tables in computer readable form to the IPEA with the demand. If this is the case, check-box No. 7 must be marked.

BOX No. VII

Signature (Rules 53.8, 90.3(a) and 90.4(a)): The demand must be signed by the applicant or by his agent; if there are two or more applicants, the common representative may sign the demand. If the demand is not signed by (all) the persons who are applicants for the elected States (a person who is applicant only for a State which is not elected need not sign the demand), a power of attorney signed by that (all those) applicant(s) must be filed with the IPEA, with the International Bureau or with the receiving Office unless the agent has previously been appointed.

modifications, selon le cas. Si une case est cochée et que les documents correspondants ne sont pas joints à la demande d'examen préliminaire international, le commencement de cet examen sera différé jusqu'à ce que l'administration qui en est chargée les reçoive.

Cocher la case n° 2 si des modifications apportées aux revendications en vertu de l'article 19 ont été déposées auprès du Bureau international lors de la procédure prévue au chapitre I, et que le déposant ne veut pas qu'il en soit tenu compte aux fins de l'examen préliminaire international lorsque celui-ci commencera (règle 53.9.a)ii).

Cocher la case n° 3 si le délai fixé pour le dépôt de modifications des revendications en vertu de l'article 19 n'a pas expiré au moment où la demande d'examen préliminaire international est présentée et que le déposant veut conserver la possibilité de déposer de telles modifications; il est ainsi demandé à l'administration chargée de l'examen préliminaire international de différer le commencement de cet examen (règles 53.9.b) et 69.1.d)). Il est à noter que l'examen commencera, en tout état de cause, après l'expiration d'un délai de 20 mois à compter de la date de priorité, même si le délai pour déposer des modifications n'a pas expiré ou que l'administration chargée de l'examen préliminaire international n'a reçu aucune modification.

Si aucune case n'est cochée, la procédure décrite dans la note figurant au bas du cadre sera suivie.

Langue aux fins de l'examen préliminaire international (règle 55.2) : lorsque ni la langue dans laquelle la demande internationale est déposée ni la langue dans laquelle elle est publiée n'est acceptée par l'administration chargée de l'examen préliminaire international qui effectuera cet examen, le déposant doit remettre avec la demande d'examen préliminaire international une traduction de la demande internationale dans une langue qui est à la fois une langue acceptée par cette administration et une langue de publication.

Lorsqu'une traduction répondant à ces critères a déjà été remise à l'administration chargée de la recherche internationale pour les besoins de cette recherche et que l'administration chargée de l'examen préliminaire international fait partie du même office ou de la même organisation intergouvernementale que l'administration chargée de la recherche internationale, il n'est pas nécessaire pour le déposant de remettre une autre traduction. Dans ce cas, l'examen préliminaire international est effectué sur la base de la traduction remise aux fins de la recherche internationale.

La langue dans laquelle sera effectué l'examen préliminaire international doit être indiquée dans le cadre n° IV sur la ligne pointillée, et la case appropriée la concernant doit être cochée.

Langue des modifications (règles 55.3 et 66.9) : les modifications et les lettres qui s'y rapportent doivent être rédigées dans la langue dans laquelle l'examen préliminaire international sera effectué, comme il est expliqué aux paragraphes précédents.

Délai imparti pour remettre une traduction de la demande internationale (règle 55.2) : toute traduction de la demande internationale qui est exigée doit être remise (par le déposant) en même temps que la demande d'examen préliminaire international. Si la traduction n'est pas remise en même temps, l'administration chargée de l'examen préliminaire international invitera le déposant à remettre cette traduction dans un délai qui sera d'au moins un mois à compter de la date de l'invitation. Ce délai peut être prorogé par l'administration chargée de l'examen préliminaire international.

CADRE N° V

Élection d'États (règle 53.7) : seuls peuvent être élus les États qui sont liés par le chapitre II du PCT *et* qui ont été désignés dans la demande internationale (c'est-à-dire qui ont fait l'objet de désignations faites en vertu de la règle 4.9.a), confirmées en vertu de la règle 4.9.c) ou considérées comme ayant été faites, en vertu de la règle 32.2.a)ii)). Ces États sont les "États éligibles".

Pour faciliter la tâche des déposants et les protéger, le cadre n° V contient une déclaration selon laquelle tous les États éligibles sont élus. Ce n'est que si le déposant ne souhaite pas élire certains États éligibles qu'il doit indiquer le nom ou le code à deux lettres de ces États après les mots "souhaite ne pas élire :".

Il n'est pas nécessaire d'indiquer dans la demande d'examen préliminaire international quelle forme de protection ou de traitement est souhaitée pour tel ou tel État élu puisque les indications portées dans la demande internationale lors de la désignation de cet État restent valables.

CADRE N° VI

Bordereau : il est recommandé de remplir soigneusement ce cadre pour que l'administration chargée de l'examen préliminaire international puisse déterminer le plus rapidement possible si elle est en possession de la ou des modifications ou de la ou des lettres sur la base desquelles le déposant souhaite que l'examen préliminaire international commence.

Lorsque la demande internationale contient la divulgation d'une ou plusieurs séquences de nucléotides ou d'acides aminés, et qu'une copie des listages des séquences sous forme déchiffable par ordinateur, conforme à la norme figurant dans les instructions administratives, est requise par l'administration chargée de l'examen préliminaire international, le déposant peut fournir à cette administration, conjointement avec la demande d'examen préliminaire international, les listages en question sous une forme déchiffable par ordinateur. S'il le fait, la case n° 6 doit être cochée.

De la même manière, lorsque la demande internationale contient des tableaux relatifs aux listages des séquences et qu'une copie des tableaux sous forme déchiffable par ordinateur, conforme à la norme figurant dans les instructions administratives, est requise par l'administration chargée de l'examen préliminaire international, le déposant peut fournir à cette administration, conjointement avec la demande d'examen préliminaire international, les tableaux en question sous une forme déchiffable par ordinateur. S'il le fait, la case n° 7 doit être cochée.

CADRE N° VII

Signature (règles 53.8, 90.3.a) et 90.4.a) : la demande d'examen préliminaire international doit être signée par le déposant ou par son mandataire; s'il y a plusieurs déposants, elle peut l'être par le représentant commun. Si elle n'est pas signée par une ou plusieurs personnes qui ont la qualité de déposant pour les États élus (une personne qui est déposant seulement pour un État non élu n'a pas besoin de signer la demande d'examen préliminaire international), un pouvoir signé par ces personnes doit être déposé auprès du Bureau international, de l'office récepteur ou de l'administration chargée de l'examen préliminaire international, sauf si le mandataire a été désigné à une date antérieure.

**NOTES TO THE FEE CALCULATION SHEET
(ANNEX TO FORM PCT/IPEA/401)**

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete, by entering the appropriate amounts in the boxes provided, and submit the fee calculation sheet at the time of filing of the demand. This will help the International Preliminary Examining Authority (IPEA) to verify the calculations and to identify any error in them.

CALCULATION OF PRESCRIBED FEES

Two fees must be paid for international preliminary examination:

- (i) the preliminary examination fee for the benefit of the IPEA (Rule 58.1);
- (ii) the handling fee for the benefit of the International Bureau (Rule 57).

Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The amount payable is the amount applicable on the date of submittal (Rules 57.3 and 58.1(b)). The fees must be paid in a currency acceptable to the IPEA.

Information about the amount of those fees or about equivalent amounts in other currencies can be obtained from the IPEA or the receiving Office. This information is also published in the *PCT Applicant's Guide*, Volume I/B, Annex E, and from time to time in Section IV of the *PCT Gazette*.

Box P: The amount of the preliminary examination fee must be entered in Box P.

Box H: The amount of the handling fee must be entered in Box H.

Reduction of the Handling Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the handling fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the handling fee will be automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Box No. II of the demand.

The fee reduction will be available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic, CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China,

CO Colombia, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EC Ecuador, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GQ Equatorial Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, NI Nicaragua, PG Papua New Guinea, PH Philippines, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SY Syrian Arab Republic, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TN Tunisia, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VC Saint Vincent and the Grenadines, VN Viet Nam, YU Serbia and Montenegro, ZA South Africa, ZM Zambia and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the Handling Fee in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the handling fee, the total to be entered at Box H is 25% of the handling fee.

Total Box: The total of the amounts inserted in Boxes P and H is the amount which must be paid to the IPEA.

MODE OF PAYMENT

In order to help the IPEA identify the mode of payment of the prescribed fees, it is recommended to mark the applicable check-box(es).

**AUTHORIZATION TO CHARGE
(OR CREDIT) DEPOSIT ACCOUNT**

The applicant should check whether the IPEA allows the use of deposit accounts for payment of PCT fees. In addition, it is recommended that the applicant check what are the specific conditions applicable to the use of deposit accounts with the IPEA since not all IPEAs provide the same services.

Finally, if the IPEA is not the same national Office or intergovernmental organization as that with which the international application was filed, the deposit account with the receiving Office cannot be charged for the purpose of paying the preliminary examination and handling fees due to the IPEA.

The IPEA will not charge fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

NOTES RELATIVES À LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/IPEA/401)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre à la demande d'examen préliminaire international. Cela aidera l'administration chargée de l'examen préliminaire international (IPEA) à vérifier les calculs et à y déceler d'éventuelles erreurs.

CALCUL DES TAXES PRESCRITES

L'examen préliminaire international donne lieu au paiement de deux taxes :

- i) la taxe d'examen préliminaire, au profit de l'administration chargée de l'examen préliminaire international (règle 58.1);
- ii) la taxe de traitement, au profit du Bureau international (règle 57).

Ces deux taxes doivent être payées à l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date à laquelle la demande d'examen préliminaire international est présentée. Le montant dû est le montant applicable à la date de présentation de cette demande d'examen (règles 57.3 et 58.1.b)). Les taxes doivent être payées dans une monnaie que l'administration chargée de l'examen préliminaire international accepte.

Des renseignements au sujet du montant de ces taxes ou de leur contre-valeur en d'autres monnaies peuvent être obtenus auprès de l'administration chargée de l'examen préliminaire international ou de l'office récepteur. Ces renseignements figurent également dans le *Guide du déposant du PCT*, volume I/B, annexe E, et sont aussi publiés périodiquement dans la section IV de la *Gazette du PCT*.

Cadre P : le montant de la taxe d'examen préliminaire doit être inscrit dans le cadre P.

Cadre H : le montant de la taxe de traitement doit être inscrit dans le cadre H.

Réduction de la taxe de traitement pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75% de certaines taxes du PCT, dont la taxe de traitement. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe de traitement s'appliquera automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans le cadre n° II de la demande d'examen préliminaire international.

La réduction de la taxe s'appliquera même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus, BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CO Colombie, CR Costa

Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EC Équateur, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GQ Guinée équatoriale, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, NI Nicaragua, PG Papouasie-Nouvelle-Guinée, PH Philippines, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SY République arabe syrienne, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TN Tunisie, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VC Saint-Vincent-et-les-Grenadines, VN Viet Nam, YU Serbie-et-Monténégro, ZA Afrique du Sud, ZM Zambie et ZW Zimbabwe. En ce qui concerne d'autres États, il conviendra de s'adresser au Bureau international.

Calcul de la taxe de traitement en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe de traitement, le montant devant figurer dans le cadre H est égal à 25% de la taxe de traitement.

Total : le total des montants inscrits dans les cadres P et H représente la somme à verser à l'administration chargée de l'examen préliminaire international.

MODE DE PAIEMENT

Pour aider l'administration chargée de l'examen préliminaire international à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

Le déposant devrait s'assurer que l'administration chargée de l'examen préliminaire international permet l'utilisation de comptes de dépôt pour le paiement des taxes du PCT. En outre, il est recommandé qu'il prenne connaissance des modalités particulières d'utilisation des comptes de dépôt auprès de cette administration étant donné que toutes les administrations chargées de l'examen préliminaire international n'offrent pas les mêmes services.

Enfin, si l'administration chargée de l'examen préliminaire international n'est pas l'office national auprès duquel, ou l'organisation intergouvernementale auprès de laquelle, la demande internationale a été déposée, le déposant ne peut pas utiliser le compte de dépôt auprès de l'office récepteur pour payer les taxes d'examen préliminaire et de traitement dues à l'administration chargée de l'examen préliminaire international.

L'administration chargée de l'examen préliminaire international ne débitera un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.

If the description part of an international application is encoded in XML format, the paragraphs of that description part shall be numbered by a four-digit Arabic number, with leading zeros where required, for example, [0099], enclosed in square brackets and placed to the right of the left margin of the document.

If the number of paragraphs exceeds four digits, then the numbering of paragraphs should increase by one digit, and so forth, according to need. For example, paragraph [10000] follows paragraph [9999] and paragraph [100000] follows paragraph [99999].

Si la partie de la demande internationale correspondant à la description codée est en format XML, les paragraphes de cette partie sont numérotés par un numéro à quatre chiffres arabes commençant par des zéros si nécessaire, par exemple [0099], inscrit entre crochets et disposé à droite de la marge de gauche du document.

Si le nombre de paragraphes dépasse quatre chiffres, leur numérotage doit alors augmenter d'un chiffre, et ainsi de suite selon les besoins. Par exemple, le paragraphe [10000] suit le paragraphe [9999], et le paragraphe [100000] suit le paragraphe [99999].

4.2.1 *Wrapped and signed package (WASP)*

When a person who signs the WASP is the applicant (or his representative), the signature of the WASP may also serve as an enhanced electronic signature of the application (see section 3.3) if technical systems in place provide that the application is automatically signed thereby.

A low-level or high-level digital certificate (see definitions in section 9) accompanies the digital signature.

Figure 3 is a simplified anatomy of the WASP. The diagram has been intentionally simplified to obscure technical detail that may distract the reader from the key issues of the package design. For example, the PKZIP wrapping has been left out of the diagram.

In case of a notification sent by the Office to the applicant, the Office prepares, signs and sends the WASP which contains such notification.

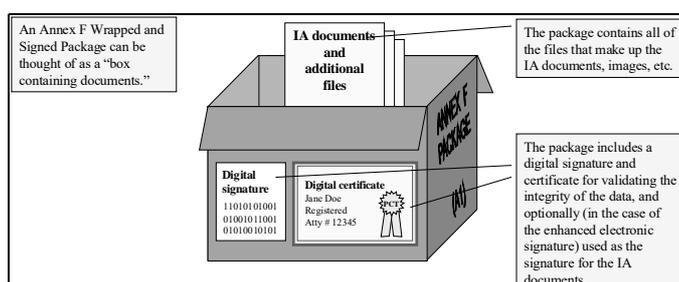

Figure 3 – Wrapped and signed package (WASP)

See Appendix II for additional detail on the WASP technical specification.

4.2.2 [No change]

4.2.3 *Compound WASP (C-WASP)* [New]

The one or more WASPs sent to the applicant from the Office are wrapped using the ZIP as shown in the section 4.1.1 and treated as one data block. This data block is called "Compound WASP" (C-WASP).

INSTRUCTIONS ADMINISTRATIVES DU PCT – MODIFICATIONS DE L'ANNEXE F (suite)

4.2.1 Paquet compacté et signé (WASP)

Lorsqu'une personne qui signe le WASP est le déposant (ou son représentant), la signature du WASP peut aussi être utilisée en tant que signature électronique renforcée de la demande (voir la section 3.3) si les systèmes techniques en place permettent que la demande soit ainsi signée de façon automatique.

Un certificat numérique simplifié ou qualifié (voir les définitions correspondantes dans la section 9) accompagne la signature numérique.

La figure 3 donne une représentation simplifiée du paquet compacté et signé. Le schéma a été délibérément simplifié pour exclure les détails techniques qui ne se rapportent pas directement aux éléments essentiels de la structure du paquet. Par exemple, l'emballage PKZIP n'a pas été représenté.

Dans le cas d'une notification envoyée au déposant, l'office prépare, signe et envoie le WASP qui contient ladite notification.

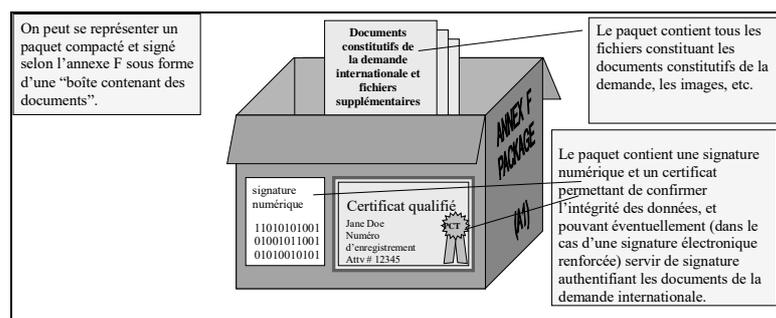

Figure 3 - Paquet compacté et signé (WASP)

Voir l'appendice II pour de plus amples précisions sur la spécification technique du WASP.

4.2.2 [Sans changement]

4.2.3 WASP combiné (C-WASP) [Nouvelle]

Le ou les WASPs envoyés au déposant par l'office sont compactés en utilisant le standard de compression ZIP tel que cela est décrit dans la section 4.1.1 et ils sont traités comme un seul bloc de données. Ce bloc de données est appelé le WASP combiné (C-WASP).

4.3 Convention recommandée de nommage des dossiers [Nouvelle]

Un dépôt électronique d'une demande de brevet comporte un certain nombre de dossiers associés. L'établissement de conventions de nommage des dossiers permet de renforcer l'automatisation des serveurs, de faciliter le travail produit au niveau du logiciel client et d'établir une bonne pratique de travail aux fins d'une meilleure compréhension par les utilisateurs du système. La série de tableaux qui suit constitue la convention recommandée de nommage des dossiers et les logiciels clients devraient produire de manière automatique les suffixes et les extensions des dossiers en conséquence. Chacun de ces tableaux représente un niveau de la convention, le dernier tableau présentant des exemples.

ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT – MODIFICATIONS TO ANNEX F (Cont'd)

4.3 Recommended file naming convention [New]

An electronic filing of a patent application will have multiple files associated with it. Filing name conventions need to be established in order to enhance server automation, as well as to establish a client side software workflow and a good work practice for user understanding. The following set of tables constitutes the recommended file naming convention and the client side software should automatically produce the suffixes and extensions accordingly. Each of these tables addresses a level of the standard with a final table of examples to follow.

4.3.2 Applicant's identifier

The applicant's identifier is determined by the applicant with or without the help of the filing tool. The name of every file that is part of a submission will begin with the same applicant's identifier. Applicant's identifier might be a name or a docket number or some other string that has significance to the applicant. An applicant's identifier is not necessarily unique to each submission, that is, it might be used for another submission associated with prosecution of the same application; it could even be used by the applicant for all submissions for all his applications. The applicant's identifier is placed first so that in a directory listing, all the files for a particular submission or application or applicant will sort together.

4.3.2 Identifiant du déposant

L'identifiant du déposant est choisi par le déposant avec ou sans l'aide du logiciel de dépôt. Le nom des dossiers contenus dans le paquet électronique de la demande internationale commence par le même identifiant. L'identifiant peut être un nom, un numéro d'enregistrement ou une autre chaîne de caractères signifiant quelque chose pour le déposant. L'identifiant peut être utilisé dans d'autres circonstances que pour le seul dépôt de la demande internationale comme par exemple pour nommer les dossiers électroniques présentés à l'office dans le cadre du traitement de la même demande internationale; il pourrait même être utilisé par le déposant dans le cadre de toutes ses demandes internationales. L'identifiant est placé en premier de telle sorte que tous les dossiers relatifs à un dépôt, à une demande internationale ou à un déposant apparaissent ensemble dans le répertoire.

The content of this receipt (XML data plus an optional human readable certificate in PDF or TIFF), which is signed by the receiving Office, is defined in Annex F Appendix I. The date of receipt will be determined according to the usual principles applicable to the filing of applications on paper, including filing by electronic means (such as by facsimile transmission), that is, based on the date prevailing at the location of the Office at the time when the complete transmission of the application has been received.

MODIFICATIONS TO ANNEX F (Cont'd)***5.1.2.1 Use of the SSL tunnel for application*

These events are all performed within an SSL tunnel that is established before issuing the Begin Transaction event. The SSL tunnel is built using both client and server authentication. The SSL tunnel may be stopped at the end of the transaction or, if a batch of transmissions is foreseen, the SSL tunnel can be left open and only stopped when all transmissions are complete. The SSL tunnel uses the SSL protocol version 3.0.

*5.1.2.2 Application level events for application***Start SSL session (See Figure 5)****Step 0: Begin Transaction***Client action:*

Get transaction Information.

Server response:

Return values in the *transaction_id* and *max_division_size* transaction management header elements.

transaction_id is a unique identifier assigned by the server associating all transactions involved in the submission of an application.

max_division_size is the maximum number of bytes permitted by the server for the size of a division.

Step 1: Send Package Header*Client action:*

Send package header

Server response:

- a) OK
- b) Error (Abort, go back to step 0)
- c) Package already received; go to step 3 to get the receipt.

After receiving the last division of the WASP containing the package header, the server must verify the signature of the WASP. If the signature is invalid (for instance expired), the Application Response Code (ARC) will remain OK, but the server will capture the error and provide a message on the receipt.

Step 2: Send Package Data*Client action:*

Send package data

Server response:

- a) OK
- b) Error (Abort, go back to step 0)

**INSTRUCTIONS ADMINISTRATIVES DU PCT –
MODIFICATIONS DE L'ANNEXE F (suite)***5.1.2 Protocole sur les couches du système applicatif pour la demande*

Au plus haut niveau applicatif, le protocole prévoit que le logiciel client et le serveur suivent les cinq actions suivantes:

- a) Début de la transaction
- b) Envoi de l'en-tête du paquet
- c) Envoi du paquet de données
- d) Demande d'un accusé de réception
- e) Fin de la transaction

Entre le début et la fin de l'échange, trois types de WASPs sont échangés entre le logiciel client et le serveur, à savoir

- i) L'en-tête du paquet contient les informations essentielles pour le traitement initial relatif à l'identification de la demande envoyée. Il s'agit d'un Wasp qui contient l'en-tête du paquet en format XML.
- ii) Le paquet de données contient les informations pour envoyer une demande. C'est un Wasp qui comprend plusieurs types de fichiers.
- iii) L'accusé de réception est une acceptation de la demande envoyée. Le contenu de cet accusé de réception (données en format XML avec un certificat optionnel en format PDF ou TIFF lisible par un être humain), qui est signé par l'office récepteur, est défini dans l'appendice I de l'annexe F. La date de réception est déterminée conformément aux principes habituellement appliqués au dépôt des demandes sur papier, y compris le dépôt par des moyens électroniques (comme la télécopie), c'est-à-dire qu'elle est fondée sur la date en cours au siège de l'office au moment où la transmission complète de la demande est finalisée.

5.1.2.1 Utilisation du tunnel SSL pour la demande

Ces actions sont toutes mises en oeuvre à travers le tunnel SSL établi avant d'entamer l'action "Début de la transaction". Le tunnel SSL, construit en utilisant à la fois l'authentification du client et celle du serveur, peut être fermé à la fin de l'échange. Si une série de transmissions est prévue, le tunnel SSL peut aussi être laissé ouvert et n'être fermé qu'à la fin des échanges. Le tunnel SSL utilise la version 3 de la norme standard.

*5.1.2.2 Actions prévues par le système applicatif pour la demande***Commencer la session SSL (voir Figure 5)**

Étape 0: Début de la transaction

Action du client:

Obtenir des informations sur l'échange

Réponse du serveur:

Renvoyer les valeurs dans les éléments de l'en-tête de gestion de la transaction (transaction_id, max_division_size)

**ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT –
MODIFICATIONS TO ANNEX F (Cont'd)**

After receiving the last division of the WASP containing the package data, the server must verify the signature of the WASP and compare the message digest of the unsigned package against the message digest provided in the Package Header in Step 1 of the transaction before returning the ARC to the client. If both conditions are met, the server should return an ARC indicating OK. If the hash values in package header and the WAD of the package data do not match, the ARC value should be set to FFF7. If the signature is invalid (for instance expired), the ARC will remain OK, but the server will capture the error and provide a message on the receipt.

Step 3: Request Receipt*Client action:*

Send request

Server response:

- a) OK (Receipt object included in response)
- b) Error (Abort, go back to step 0)

Step 4: End Transaction.*Client action:*

Send acknowledgment of completion including information about any client problem to the server.

Server response:

- a) OK
- b) Error (Client can ignore this response)

Close SSL session

In all cases of SSL Tunnel, the current protocol requires each individual transaction to be acknowledged by an individual receipt.

**INSTRUCTIONS ADMINISTRATIVES DU PCT –
MODIFICATIONS DE L'ANNEXE F (suite)**

transaction_id est un identifiant unique attribué par le serveur et qui associe toutes les transactions liées au dépôt de la demande

max_division_size est le nombre maximum d'octets permis par le serveur pour la taille de chaque division

Étape 1: Envoi de l'en-tête du paquet

Action du client:

Envoi de l'en-tête du paquet

Réponse du serveur:

- a) OK
- b) Erreur (opération annulée, retourner à l'étape 0)
- c) Paquet déjà reçu; aller à l'étape 3 afin de demander un accusé de réception.

Après avoir reçu la dernière division du WASP contenant l'en-tête du paquet, le serveur doit vérifier la signature du WASP. Si la signature n'est pas admissible (ce qui est le cas, par exemple, lorsque sa date d'expiration est dépassée), le code de réponse de la demande (ou ARC) demeure valable mais le serveur saisit automatiquement l'erreur et appose un message y relatif sur l'accusé de réception.

Étape 2: Envoi du paquet de données

Action du client:

Envoi du paquet de données

Réponse du serveur:

- a) OK
- b) Erreur (opération annulée, retourner à l'étape 0)

Après avoir reçu la dernière division du WASP contenant le paquet de données, le serveur doit vérifier la signature du WASP et comparer le message condensé du paquet non-signé au condensé du message prévu dans l'en-tête du paquet tel qu'à l'étape 1 de la transaction, avant de renvoyer l'ARC au client. Si les deux conditions sont réunies, le serveur doit renvoyer un ARC indiquant OK. Si les données hachées dans l'en-tête du paquet et le WAD du paquet de données ne correspondent pas, l'ARC doit être FFF7. Si la signature n'est pas admissible (lorsque sa date d'expiration est dépassée par exemple), l'ARC demeure valable mais le serveur saisit automatiquement l'erreur et appose un message y relatif sur l'accusé de réception.

Étape 3: Demande d'un accusé de réception

Action du client:

Envoi de la demande

Réponse du serveur:

- a) OK (l'objet de l'accusé de réception est inclus dans la réponse)
- b) Erreur (opération annulée, retourner à l'étape 0)

Étape 4: Fin de la transaction.

Action du client:

Fermer la session SSL

Dans tous les cas prévus dans le tunnel SSL, le présent protocole prévoit que chaque échange individuel soit accepté par un accusé de réception individuel.

**ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT –
MODIFICATIONS TO ANNEX F (Cont'd)***5.1.3 Application layer protocol for notification [New]*

At the highest level for notification, there are five events that the protocol requires a client and server to support¹⁰. These events are:¹¹

- (a) Begin Transaction
- (b) Get Package Header (for notification, or dispatch list, or application receipt list)¹²
- (c) Get Package Data (for notification, or dispatch list, or application receipt list)¹²
- (d) Send Receipt Check Notice (for notification, or dispatch list, or application receipt list)¹²
- (e) End Transaction

In between the Begin and End Transactions, there are two types of WASP and one type of C-WASP sent between the client and the server:

- (i) The client action package header contains essential information for initial processing to identify the request for notification. It is a WASP containing the package header in XML format. (This is applied to request to a server from a client.)
- (ii) The server response package header contains summary information (such as a dispatch-number and the number of notifications to be sent) on the notification to be notified. It is a WASP containing the package header in XML format. (This is applied to response to a client from server.)
- (iii) The package data contains the dispatched notification information. It is a C-WASP that consists of one or more WASP(s).

5.1.3.1 Use of the SSL tunnel for notification

Refer to Section 5.1.2.1, "Use of the SSL tunnel for application."

¹⁰ The Office may inform the applicant of the existence of notifications before these five events, by other means of communication, such as e-mail.

¹¹ This protocol may be used to transmit the dispatch list, the application receipt list, and the notification. Transmission of the dispatch list, the application receipt list, and the notification is supported at the discretion of the Office. The dispatch list contains dispatch numbers corresponding to notifications that the Office has sent to the applicant. The application receipt list contains application numbers corresponding to application documents that the Office has received from the applicant.

¹² The server uses the value of the "transaction-type" attribute (see section 5.1.4) to identify the type of document requested, e.g. notification, dispatch list, application receipt list.

Step 1: Get Package Header*Client action:*

Send request for package header (The WASP of package header for request of notification is contained.)

Server response:

- a) OK (The response contains the WASP of package header containing summary information (such as dispatch-number, number-of-notification) of notifications.)¹³
- b) Error (Abort, go back to step 0)

After receiving the last division of the WASP containing the package header, the server must verify the signature of the WASP. If the signature is invalid (for instance, due to a signature verification error or validation data expiration), the application response code (ARC) value is set to FFF6.

If the number of sendable notifications in package header of Server response is “0(zero)” (there is no sendable notifications), then go to Step 4.

Step 2: Get Package Data*Client action:*

Send request for Package data

Server response:

- a) OK (The response contains the C-WASP consisted of one or more WASP(s))
- b) Error (Abort, go back to step 0)

¹³ If the C-WASP contains multiple WASP, the notice-info of each notification is set in the package header.

MODIFICATIONS DE L'ANNEXE F (suite)***5.1.3 Protocole sur les couches du système applicatif en matière de notification [Nouveau]*

Au plus haut niveau du système applicatif en matière de notification, le protocole prévoit que le logiciel client et le serveur suivent les cinq actions¹⁰ suivantes:¹¹

- a) Début de la transaction
- b) Envoi de l'en-tête du paquet (pour le notification, il s'agit de la liste de distribution ou de la liste de réception de la demande)¹²
- c) Envoi du paquet de données (pour le notification, il s'agit de la liste de distribution ou de la liste de réception de la demande)¹²
- d) Demande d'un accusé de réception (pour le notification, il s'agit de la liste de distribution ou de la liste de réception de la demande)¹²
- e) Fin de la transaction

Entre le début et la fin de l'échange, deux types de WASPs et un type de C-WASP sont envoyés entre le logiciel client et le serveur, à savoir:

- i) L'en-tête du paquet envoyé par le logiciel client contient les informations essentielles pour le traitement initial relatif à l'identification de la demande pour une notification. Il s'agit d'un Wasp qui contient l'en-tête du paquet en format XML. Cela s'applique à la requête du logiciel client au serveur.
- ii) L'en-tête du paquet envoyé par le serveur contient des informations sommaires concernant la notification (telles que le numéro d'envoi et le nombre de notifications à envoyer) pour le traitement initial relatif à l'identification de la demande pour une notification. Il s'agit d'un Wasp qui contient l'en-tête du paquet en format XML. Cela s'applique à la réponse du serveur au logiciel client.
- iii) Le paquet de données contient les informations contenues dans la notification qui est envoyée. Il s'agit d'un Wasp qui comprend un ou plusieurs WASPs.

5.1.3.1 Utilisation du tunnel SSL pour la notification

Cf. section 5.1.2.1, "Utilisation du tunnel SSL pour la demande".

¹⁰ L'office peut informer le déposant de l'existence de notifications avant ces cinq actions par le biais d'autres moyens de communication tels que le courrier électronique.

¹¹ Le présent protocole peut être utilisé pour transmettre le répertoire d'envoi, le répertoire de réception de la demande et la notification. La transmission du répertoire d'envoi, du répertoire de réception de la demande et de la notification est laissée à l'appréciation de l'office. Le répertoire d'envoi contient des numéros d'envoi correspondant aux notifications envoyées par l'office au déposant. Le répertoire de réception de la demande contient des numéros de demandes correspondant aux documents de demandes reçus par l'office en provenance du déposant.

¹² Le serveur utilise la valeur de l'attribut "transaction-type" (voir la section 5.1.4) afin d'identifier le type de document demandé, par ex. notification, répertoire d'envoi, répertoire de réception de la demande.

MODIFICATIONS TO ANNEX F (Cont'd)***5.1.8 Division mechanism*

When sending data between the client and server, this data is divided into manageable chunks which, together with a transaction management header, are called divisions. Under the control of the client, the size of these divisions can vary during the life of the transactions. This provides a pacing mechanism that can be used to overcome Internet transmission problems.

The initial size of the division data message is set to the smallest of either:

- (a) max_division_size returned by the server as a response to the Begin Transaction Request
- (b) client_preferred_division_size set in the startup parameters of the client

The client builds one or more divisions made up of the transmission management header and a data message. As each division is sent in the divided order to the server, the server checks for completeness of the transmission by calculating the hash value of the division.

5.1.8.1 Calculating the division hash value

The hash is calculated on the basis of all fields in the header as well as any data message. The hash, which is calculated using the SHA-1 algorithm, is placed as the first element of each division.

Before the server rejects a package as invalid, it should check the version of the protocol before checking the hash value in case a future version of the protocol should adopt a different hash algorithm.

The following fields of the HTTP Post or response message are therefore included in the hash calculation:

Name	Protocol Version	Transaction type	transaction id	Reserved use	total bytes	division size	division offset	division RC	application rc	Encoding method	error message	data message
Length	4	4	36	32	16	16	16	4	4	4	256	???

MODIFICATIONS TO ANNEX F (Cont'd)***5.1.9.1 Begin transaction*

The Begin Transaction post message submitted by the client contains the highest protocol version supported by the client. If the server supports the version provided by the client, it should communicate with the client in accordance with the rules for that version of the protocol and use that version number in all response messages. If the server cannot support the protocol version specified by the client, the application response code should indicate protocol version error, and the version number specified in the response message should be the highest protocol version supported by the server. The client should support earlier versions.

5.1.8 Mécanisme de division

Les données qui transitent entre le client et le serveur sont divisées en paquets de données gérables qui, avec l'en-tête de gestion des échanges, forment ce que l'on appelle des divisions. Sous le contrôle du client, la taille de ces divisions peut varier au fur et à mesure des échanges. Ceci permet la mise en oeuvre d'un mécanisme de contrôle des communications qui peut être utilisé pour surmonter les difficultés de transmission via l'Internet.

La taille initiale du message contenant une division de données est établie par rapport au plus petit des messages suivants:

- a) max_division_size renvoyé par le serveur en tant que réponse à la demande d'ouverture de l'échange
- b) client_preferred_division_size placé dans les paramètres d'initialisation du client

Le logiciel client crée une ou plusieurs divisions à partir de l'en-tête de gestion de la transmission et d'un message de données. Comme chaque division est envoyée dans un ordre différent au serveur, celui-ci vérifie si la transmission est complète en calculant la valeur de hachage de la division.

INSTRUCTIONS ADMINISTRATIVES DU PCT – MODIFICATIONS DE L'ANNEXE F (suite)

5.1.8.1 Calculer la valeur du hachage de la division

Le hachage est calculé sur la base de tous les champs de l'en-tête ainsi que de tous les messages de données. Le hachage, qui est calculé en utilisant l'algorithme SHA-1, représente le premier élément de chaque division.

Le serveur doit vérifier la version du protocole avant d'examiner la valeur de hachage afin d'éviter de rejeter un paquet du fait qu'il n'est pas valide, au cas où une nouvelle version du protocole adopterait un algorithme de hachage différent.

Les champs suivants de la requête "POST" ou de la réponse HTTP sont ainsi inclus dans le calcul du hachage:

Nom	Version du protocole	Type de transaction	Transaction id	Utilisation réservée	Nombre total de octets	Longueur de la division	Début de la division	division RC	Demande RC	Méthode de codage	Message d'erreur	Message de données
Longueur	4	4	36	32	16	16	16	4	4	4	256	???

5.1.9 Protocole sur les niveaux du processus

Les transactions décrites dans cette section sont illustrées plus loin dans les figures 7 à 12.

5.1.9.1 Début de la transaction

La requête POST envoyée par le client pour commencer la transaction contient la dernière version du protocole acceptable par le client. Si le serveur peut utiliser la version fournie par le client, il communique avec le client conformément aux règles de cette version du protocole et utilise le numéro d'identification de cette version pour tous les messages de réponse. Si le serveur ne peut pas utiliser la version du protocole spécifiée par le client, le code de réponse de la demande doit indiquer que la version du protocole n'est pas la bonne et le numéro d'identification de la version envoyée dans le message de réponse doit être la dernière version du protocole acceptable par le serveur. Le client doit pouvoir s'appuyer sur des versions antérieures.

5.2 *Package/transmission combinations*

[No change to the introductory text]

5.2.1 *Applicant-Office (international phase) sector*

IA documents may be filed by on-line means (using PKI) over the public Internet, over a private network, or transmitted off-line (using PKI or non-PKI) on physical media. The option of on-line filing of an IA utilizing a non-PKI method is not presently permitted, except under possible transitional reservations permitted by AIs Section 703(f) (see section 7.1.1 as to the consequences of non-PKI filing under such a transitional reservation).

Figure 13 shows a matrix of the various submission mechanism/packaging combinations that are permissible in the Applicant-Office (international phase) sector as specified under this standard. In summary, for each submission mechanism:

- (a) On-line/Internet: The SEP must be used. TCP/IP used to exchange data, in realtime, over the Internet
- (b) On-line/secure: The SEP, WASP or C-WASP must be used. This is defined as a telecommunication connection established to exchange data, over a network which includes: 1) a private network; 2) the Internet using channel level encryption (e.g. SSL); 3) a Virtual Private Network (VPN) connection over the Internet.
- (c) Off-line/physical media: either the SEP, WASP, C-WASP or WAD package must be used. Physical media (e.g., diskette, CD-ROM, DVD, etc.) is used to store IA data with no real-time data exchange.

5.2.2 Office-Office sector

All Office-Office sector data exchange must be conducted utilizing PKI-based data exchange. IA documents may be exchanged by on-line means over the public Internet or over a private network (such as Tri-Net or WIPONET), or transported on physical media.

Figure 14 shows a matrix of the various submission mechanism/packaging combinations that are permissible as specified under this standard. In summary, for each data exchange mechanism:

- (a) On-line/Internet: The SEP must be used. TCP/IP used to exchange data, in realtime, over the Internet
- (b) On-line/secure: The SEP or WASP must be used. This is defined as a telecommunication connection established to exchange data, over a network which includes: 1) a private network (e.g. WIPONET, Tri-Net); 2) the Internet using channel level encryption (e.g. SSL); 3) a Virtual Private Network (VPN) connection over the Internet.
- (c) Off-line/physical media: The SEP or WASP must be used. Physical media (e.g. diskette, CD-ROM, DVD, etc.) is used to store IA data with no real-time data exchange.

5.2.3 Designated Office sector

The SEP, WASP, or WAD package may be used when exchanging IA documents under the designated Office sector. Figure 15 shows a matrix of the various submission mechanism/packaging combinations that are permissible. In summary, for each data exchange mechanism:

- (a) On-line/Internet: the SEP must be used. TCP/IP used to exchange data, in realtime, over the Internet
- (b) On-line/secure: the SEP, WASP, or WAD must be used. This is defined as a telecommunication connection established to exchange data, over a network which includes: 1) a private network (e.g. WIPONET, Tri-Net); 2) the Internet using channel level encryption (e.g., SSL); 3) a Virtual Private Network (VPN) connection over the Internet.

5.2 *Combinaisons paquet/transmission*

[Sans changement au texte introductif]

5.2.1 *Secteur de communication entre le déposant et l'office (phase internationale)*

Les documents constitutifs de la demande internationale peuvent être déposés en ligne (dans un environnement ICP) par l'intermédiaire de l'Internet ou d'un réseau privé, ou transmis hors-ligne (dans un environnement ICP ou non ICP) sur support matériel. Le dépôt en ligne d'une demande internationale à l'aide d'une méthode non basée ICP n'est pas autorisé à l'heure actuelle, sauf dans le cadre des réserves provisoires permises en vertu de l'instruction administrative 703.f) (voir la section 7.1.1 quant aux conséquences d'un dépôt non fondé sur une technologie ICP effectué en vertu d'une réserve provisoire de ce type).

La figure 13 présente une grille des différentes combinaisons mécanismes de transmission/paquet autorisées dans le secteur de communication entre le déposant et l'office (phase internationale) en vertu de la présente norme. En résumé, pour chaque mécanisme transmission :

- a) En ligne/Internet : il faut utiliser le paquet signé et chiffré (SEP), ainsi qu'un TCP/IP pour l'échange de données, en temps réel, à travers l'Internet.
- b) En ligne/environnement sécurisé: il convient d'utiliser un SEP, un WASP ou un C-WASP. INTERNATIONAL PUBLICATION NUMBERS OF INTERNATIONAL APPLICATIONS**Indication of certain “WO” numbers in Section II of the PCT Gazette—Corrigendum**

It is recalled that the system of numbering of international publications of PCT applications was modified with effect from 1 July 2002 to allow for a six-digit number, instead of a five-digit number (see PCT Gazette No. 47/2001, page 21584).

However, the necessary modifications in the indication of international publication numbers (“WO” numbers) were inadvertently not made as from that date in one particular table published in Section II of the PCT Gazette, namely, the table containing the list of international applications in respect of which a demand for international preliminary examination was filed prior to the expiration of 19 months from the priority date, and which contains the WO number under which each application was published. In other words, in the above-mentioned tables contained in PCT Gazette Nos. 27/2002 dated 4 July 2002 to 36/2003 dated 4 September 2003, the WO numbers were made up of only five digits.

Whereas this should not affect WO numbers with a serial number of 99999 and less, which only have five digits anyway (and so, under a six-digit system, would simply have had an extra zero in front of the number), all numbers of 100000 or more have lost the first digit, and could therefore correspond to an already-existing WO number (for example, WO 02/123456 appeared as WO 02/23456). The tables which contain such erroneously shortened numbers were published in PCT Gazette Nos. 02/2003 dated 9 January 2003 to 36/2003 dated 4 September 2003.

A corrected version of all the relevant entries from these tables is being published in the form of a consolidated table, appearing on pages 21189 to 21212 of this Gazette.

NUMÉRO DE PUBLICATION INTERNATIONALE DES DEMANDES INTERNATIONALES**Indication de certains numéros “WO” dans la Section II de la Gazette du PCT – rectificatif**

Il est rappelé que le système de numérotation des publications internationales des demandes PCT a été modifié à compter du 1^{er} juillet 2002 pour permettre l'adoption d'une configuration à six chiffres, au lieu d'une configuration à cinq chiffres (voir la Gazette du PCT n° 47/2001, page 21585).

Toutefois, les modifications nécessaires relatives à la présentation des numéros de publication internationale (numéros “WO”) n'ont, par inadvertance, pas été faits, à compter de cette date, dans un tableau en particulier, publié dans la Section II de la Gazette du PCT, à savoir le tableau contenant la liste des demandes internationales pour lesquelles une demande d'examen préliminaire international a été présentée avant l'expiration du délai de 19 mois à compter de la date de priorité, et contenant le numéro WO sous lequel chaque demande internationale a été publiée. En d'autres termes, dans les tableaux mentionnés ci-dessus figurant dans la Gazette du PCT n^{os} 27/2002 du 4 juillet 2002 à 36/2003 du 4 septembre 2003, les numéros WO étaient constitués de cinq chiffres seulement.

Alors que ceci ne devrait pas toucher les numéros WO ayant un numéro d'ordre de 99999 et moins, qui de toute manière ne comportent que cinq chiffres (et qui, dans un système à six chiffres, auraient simplement eu un zéro de plus devant le numéro), tous les numéros de 100000 et plus ont perdu le premier chiffre et, en conséquence, pourraient correspondre à un numéro WO déjà existant (par exemple, WO 02/123456 a figuré en tant que WO 02/23456). Les tableaux contenant de tels numéros raccourcis par erreur ont été publiés dans la Gazette du PCT n^{os} 02/2003 du 9 janvier 2003 à 36/2003 du 4 septembre 2003.

Une version corrigée de toutes les rubriques pertinentes est publiée sous forme de tableau récapitulatif figurant aux pages 21189 à 21212 de la présente gazette.

**MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION—ASSEMBLY
(THIRTY-SECOND (14TH ORDINARY) SESSION)****NOTE PREPARED BY THE INTERNATIONAL BUREAU**

A number of changes to the PCT Regulations and other changes affecting the PCT system were approved by the Assembly of the PCT Union during its thirty-second (14th ordinary) session which was held in Geneva from 22 September to 1 October 2003, as part of the meetings of the Assemblies of the Member States of WIPO. Documents which were prepared for the PCT Assembly, and which give detailed background information relating to the decisions that were taken, are available, and the report of the session will be available shortly on the PCT website, at:

www.wipo.int/pct/en/meetings/assemblies/index.htm

Some of the changes that were approved by the Assembly and other matters that were discussed during the meeting are outlined below:

Amendments to the PCT Regulations and the Schedule of Fees

The Assembly approved the proposed amendments to the Schedule of Fees (annexed to the PCT Regulations). Those amendments, which will enter into force on 1 January 2004, fixed the amount of the new flat-rate “international filing fee” (the introduction of which had been approved by the Assembly in October 2002), reduced the amount of the handling fee, made the 75% fee reduction more widely available to all applicants from least developed countries, and fixed a new scale of fee reductions for international applications filed in electronic form.

The amendments, which are outlined below, will generally apply to any international application, the international filing date of which is on or after 1 January 2004. Note, however, that the Schedule of Fees as worded before its amendment will continue to apply to any international application which is received by a receiving Office before 1 January 2004, but is accorded an international filing date that is on or after 1 January 2004, and that there is an exception to the above-mentioned applicability as far as the handling fee is concerned (see (b), below).

(a) New “international filing fee”

The international filing fee, which the Assembly agreed to fix at 1,400 Swiss francs, will replace the current basic and designation fees to give a more simplified fee structure. For information on the new designation system that will operate as from 1 January 2004, see PCT Gazette No. 49/2002, page 2492 *et seq.* Note that the fee for each sheet of the international application in excess of 30 will form part of the international filing fee and will remain at the same level (15 Swiss francs). For information on the applicability of the 75% fee reduction, see (c), below.

(b) New amount of the handling fee

The amount of the handling fee has been reduced from 233 Swiss francs to 200 Swiss francs. The new amount (which may, for certain applicants, be subject to the 75% reduction referred to in (c), below) is payable in respect of any international application for which a demand for international preliminary examination is filed on or after 1 January 2004, regardless of whether the international filing date of the international application is before, on or after 1 January 2004.

**RÉUNIONS DE L'UNION INTERNATIONALE DE COOPÉRATION EN MATIÈRE DE BREVETS –
ASSEMBLÉE (TRENTE-DEUXIÈME SESSION (14^e SESSION ORDINAIRE))****NOTE DU BUREAU INTERNATIONAL**

Un certain nombre de modifications du règlement d'exécution du PCT ainsi que d'autres changements concernant le système du PCT ont été approuvés par l'Assemblée de l'Union internationale de coopération en matière de brevets (Union du PCT) durant sa trente-deuxième session (14^e session ordinaire) qui s'est tenue à Genève, du 22 septembre au 1^{er} octobre 2003, dans le cadre des réunions des Assemblées des États membres de l'OMPI. Les documents qui ont été établis pour l'Assemblée du PCT et qui donnent l'historique des décisions qui ont été prises sont disponibles; le rapport de la session sera disponible prochainement sur le site Web du PCT à l'adresse suivante :

www.wipo.int/pct/fr/meetings/assemblies/index.htm

Certains des changements qui ont été approuvés par l'assemblée et d'autres questions qui ont fait l'objet de discussions durant la réunion sont présentés ci-dessous.

Modifications du règlement d'exécution du PCT et du barème de taxes

L'assemblée a approuvé les propositions de modification du barème de taxes (annexé au règlement d'exécution du PCT). Ces modifications, qui entreront en vigueur le 1^{er} janvier 2004, fixent le montant de la nouvelle taxe forfaitaire "taxe internationale de dépôt" (dont l'introduction avait été approuvée par l'assemblée en octobre 2002), réduisent le montant de la taxe de traitement, rendent les réductions de taxes plus accessibles à tous les déposants ressortissants de pays appartenant à la catégorie des pays les moins avancés, et fixent une nouvelle échelle de réductions de taxe pour les demandes internationales déposées sous forme électronique.

Les modifications, qui sont exposées ci-dessous, s'appliqueront en règle générale à toute demande internationale dont la date de dépôt international sera le 1^{er} janvier 2004 ou une date postérieure. Il convient de noter, toutefois, que le barème de taxes tel qu'il était libellé avant d'être modifié continuera de s'appliquer à toute demande internationale qui parviendra à l'office récepteur avant le 1^{er} janvier 2004, et dont la date de dépôt international sera le 1^{er} janvier 2004 ou une date postérieure, et qu'il y a une exception à l'applicabilité mentionnée ci-dessus en ce qui concerne la taxe de traitement (voir le point b) ci-dessous).

a) Nouvelle "taxe internationale de dépôt"

La taxe internationale de dépôt, que l'assemblée a décidé de fixer à 1 400 francs suisses, remplacera les taxes actuelles de base et de désignation pour permettre la simplification de la structure des taxes. Pour obtenir des précisions sur le nouveau système de désignation qui sera mis en place à compter du 1^{er} janvier 2004, voir la Gazette du PCT n° 49/2002, page 24993 et suiv. Il convient de noter que la taxe payable pour chaque feuille de la demande internationale à compter de la 31^e fera partie de la taxe internationale de dépôt et restera au même niveau (15 francs suisses). Pour obtenir plus de précisions sur l'applicabilité de la réduction de taxe de 75%, voir le point c), ci-dessous.

b) Nouveau montant de la taxe de traitement

Le montant de la taxe de traitement a été ramené de 233 à 200 francs suisses. Le nouveau montant (qui peut, pour certains déposants, faire l'objet de la réduction de 75% visée au point c), ci-dessous) s'applique à toute demande internationale à l'égard de laquelle une demande d'examen préliminaire international sera présentée le 1^{er} janvier 2004 ou après cette date, que la date de dépôt international de la demande internationale soit le 1^{er} janvier 2004, une date antérieure ou une date postérieure.

(THIRTY-SECOND (14TH ORDINARY) SESSION) (Cont'd)****NOTE PREPARED BY THE INTERNATIONAL BUREAU (Cont'd)**

(c) Wider applicability of the 75% fee reduction

The 75% fee reduction which is currently available to an applicant who is a natural person and who is a national of and resides in a State the per capita national income of which is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997), will, as from 1 January 2004, be applicable to the new international filing fee and, as is currently the case, the handling fee. It will also be available, as from that date, to any applicant, whether a natural person or not, who is a national of and resides in a State that is classed as a least developed country by the United Nations. This means that the 75% fee reduction will also be available in respect of international applications filed by universities, research institutions or companies from least developed countries, provided that, if there is more than one applicant, each applicant must either be a national of and reside in a least developed country or must be a natural person who fulfills the requirements outlined at the beginning of this paragraph (that is, must be a national of and reside in a State whose per capita national income is below 3,000 US dollars).

(d) Fee reductions for international applications filed in electronic form

The Assembly approved the establishment, as from 1 January 2004, of three levels of reduction in the amount of the new international filing fee for international applications filed in electronic form, as follows:

— where the request is created using the PCT-EASY features that will be incorporated into the PCT-SAFE software (which is expected to be available as from 1 January 2004) and is presented as a computer print-out together with a diskette prepared using that software containing a copy of the data contained in the request and a copy of the abstract): 100 Swiss francs (instead of the current reduction of 200 Swiss francs);

— where the international application is filed in electronic form but the text of the description, claims and abstract is not in character coded format—for example, an international application filed in fully electronic form using the PCT-SAFE software and the description, claims and abstract are in PDF (portable document format): 200 Swiss francs;

— where the international application is filed in electronic form and the text of the description, claims and abstract is in character coded format—for example, an international application filed in fully electronic form using the PCT-SAFE software and the description, claims and abstract in the prescribed text based format—XML (extensible markup language) format: 300 Swiss francs.

The text of the amended Schedule of Fees, as in force from 1 January 2004, is reproduced on page 24736.

(e) Amendments to the PCT Regulations

The Assembly also made a number of amendments to the PCT Regulations that will enter into force on 1 January 2004, following previously adopted major changes designed to streamline and rationalize the PCT system.

The text of the amended Rules, as in force from 1 January 2004, is set out on pages 24738, 24740, 24742, 24744, 24746 and 24748.

For the amendments that were adopted in October 2002 that will also enter into force on 1 January 2004, see PCT Gazette No. 49/2002, page 25004 *et seq.*

c) Élargissement de l'applicabilité de la réduction de 75%

La réduction de taxe de 75% qui est actuellement accordée à un déposant qui est une personne physique et qui est ressortissant d'un État, et est domicilié dans un État, où le revenu national par habitant est inférieur à 3 000 dollars des États-Unis (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997), s'appliquera, à compter du 1^{er} janvier 2004, à la nouvelle taxe internationale de dépôt et, comme c'est le cas actuellement, à la taxe de traitement. Cette réduction sera aussi applicable, à compter de cette date, à un déposant, qu'il soit ou non une personne physique, qui est ressortissant d'un État, et est domicilié dans un État classé par l'Organisation des Nations Unies dans la catégorie des pays les moins avancés. Ceci signifie que la réduction de taxe de 75% sera également disponible en ce qui concerne les demandes internationales déposées par des universités, des instituts de recherche ou des sociétés de pays les moins avancés étant entendu que, s'il y a plusieurs déposants, chacun d'eux doit être soit ressortissant d'un des pays les moins avancés et être domicilié dans un de ces pays, soit une personne physique qui remplisse les exigences exposées au début de cet alinéa (à savoir, qu'il soit ressortissant d'un État, et domicilié dans un État, où le revenu national par habitant est inférieur à 3 000 dollars des États-Unis).

d) Réductions de taxe pour les demandes internationales déposées sous forme électronique

L'assemblée a approuvé l'établissement, à compter du 1^{er} janvier 2004, de trois niveaux de réduction du montant de la nouvelle taxe internationale de dépôt pour les demandes internationales déposées sous forme électronique, comme suit :

– lorsque la requête est établie à l'aide des fonctions de PCT-EASY qui seront intégrées dans le logiciel PCT-SAFE (qui devrait être disponible à compter du 1^{er} janvier 2004) et qu'elle est présentée sous forme d'imprimé d'ordinateur avec une disquette établie à l'aide de ce logiciel contenant une copie des données figurant dans la requête et une copie de l'abrégé) : 100 francs suisses (au lieu de la réduction actuelle de 200 francs suisses);

– lorsque la demande internationale est déposée sous forme électronique mais que le texte de la description, des revendications et de l'abrégé n'est pas en format à codage de caractères – par exemple, une demande internationale déposée entièrement sous forme électronique à l'aide du logiciel PCT-SAFE et la description, les revendications et l'abrégé sont en format PDF (*Portable Document Format*) : 200 francs suisses;

– lorsque la demande internationale est déposée sous forme électronique et que le texte de la description, des revendications et de l'abrégé est en format à codage de caractères – par exemple, une demande internationale déposée entièrement sous forme électronique à l'aide du logiciel PCT-SAFE et la description, les revendications et l'abrégé sont dans le format de texte prescrit – XML (*eXtensible Markup Language*) : 300 francs suisses.

Le texte du barème de taxes modifié, en vigueur à compter du 1^{er} janvier 2004, est reproduit à la page 24737.

(e) Modifications du règlement d'exécution du PCT

L'assemblée a également procédé à un certain nombre de modifications du règlement d'exécution du PCT qui entreront en vigueur le 1^{er} janvier 2004, suite à d'importants changements précédemment adoptés, destinés à simplifier et à rationaliser le système du PCT.

Le texte des règles modifiées, telles qu'elles entreront en vigueur le 1^{er} janvier 2004, figure sur les pages 24739, 24741, 24743, 24745, 24747 et 24749.

Pour les modifications qui ont été adoptées en octobre 2002 et qui entreront également en vigueur le 1^{er} janvier 2004, voir la Gazette du PCT n^o 49/2002, page 25005 et suiv.

INTERNATIONAL APPLICATIONS CONTAINING SEQUENCE LISTINGS AND/OR TABLES RELATED THERETO: NOTIFICATION BY RECEIVING OFFICES OF APPLICABLE TECHNICAL REQUIREMENTS**IL Israel**

Further to its notification that it accepts the filing of international applications containing a sequence listing part filed on an electronic medium under Section 801(a)(i) or (ii) of the Administrative Instructions (see PCT Gazette No. 06/2001, page 2432), the **Israel Patent Office**, in its capacity as receiving Office, has notified the International Bureau that, as of 10 October 2003, it is also prepared to accept the filing with it of tables related to sequence listings. The Office has also specified the number of copies of electronic carriers required by it. As a consequence, the text of the current item “number of copies required” has been modified to read “number of copies on paper” since it now refers only to the rest of the international application.

DEMANDES INTERNATIONALES CONTENANT DES LISTAGES DES SÉQUENCES OU DES TABLEAUX Y RELATIFS : NOTIFICATION PAR LES OFFICES RÉCEPTEURS DES EXIGENCES TECHNIQUES APPLICABLES

IL Israël

Suite à sa notification selon laquelle il accepte le dépôt de demandes internationales contenant un listage des séquences déposé sur un support électronique selon l'instruction administrative 801.a)i) ou ii) (voir Gazette du PCT n° 06/2001, page 2433), l'**Office des brevets d'Israël**, en sa qualité d'office récepteur, a notifié au Bureau international qu'à compter du 10 octobre 2003, il est également disposé à accepter le dépôt de tableaux relatifs aux listages des séquences. L'Office a également spécifié le nombre de copies de support électronique qu'il requiert. Par conséquent, le texte de la rubrique actuelle "nombre d'exemplaires requis" est maintenant libellé "nombre d'exemplaires requis sur papier" puisque ce libellé se réfère désormais uniquement au reste de la demande internationale.

Nombre d'exemplaires requis sur papier par l'office récepteur : 3 (voir ci-dessous, toutefois, pour le nombre de copies des listages des séquences ou des tableaux y relatifs déposés sous forme électronique)

L'office récepteur accepte-t-il le dépôt sous forme déchiffrable par ordinateur des listages des séquences ou des tableaux y relatifs¹ ? Oui

Types de support électronique accepté par l'office récepteur ? CD-ROM

Nombre de copies de support électronique requis par l'office récepteur ? 3

¹ Si la partie de la description réservée au listage des séquences d'une demande internationale ou tout tableau relatif à un tel listage des séquences ont été déposés sur un support électronique seulement (instruction administrative 801.a)ii)) ou à la fois sur un support électronique et sur papier (instruction administrative 801.a)ii)), une composante supplémentaire de la taxe de base, égale à 400 fois la taxe par feuille à compter de la 31^e – quelle que soit la longueur proprement dite des listages des séquences ou des tableaux et sans tenir compte du fait que les listages des séquences ou les tableaux y relatifs aient pu être déposés à la fois sous forme écrite et sous forme déchiffrable par ordinateur – devra être acquittée en ce qui concerne les listages des séquences ou les tableaux (au lieu de la taxe par feuille qui aurait dû sinon être payée pour les feuilles concernées) (voir la *Gazette du PCT* n° 02/2001, page 819 et suiv., et n° 36/2002, page 17633 et suiv.). Lorsque les listages des séquences ou les tableaux y relatifs ne sont pas remis sur un support électronique en vertu de l'instruction administrative 801 mais seulement en vertu de la règle 13^{ter} ou de l'instruction 802.b-*quater*), respectivement, ce qui précède ne s'applique pas.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES****EP Agreement between the European Patent Organisation and the International Bureau of the World Intellectual Property Organization – Notification under Article 3(4)(a)(ii) of the Agreement**

During its thirtieth (13th ordinary) session, the Assembly of the International Patent Cooperation Union (PCT Union) approved an amendment to the Agreement between the European Patent Organisation and the International Bureau of WIPO in relation to the functioning of the European Patent Office as an International Searching and Preliminary Examining Authority under the PCT (see PCT Gazette No. 44/2001, page 19928). Under Article 3(4)(a)(ii) of the Agreement the President of the EPO then notified that the EPO would restrict its competence as an International Searching and Preliminary Examining Authority (see PCT Gazette No. 52/2001, page 24248). On 3 November 2003 the International Bureau received a new notification under Article 3(4)(a)(ii) from the President of the EPO. In the new notification the EPO informs the International Bureau of the removal of some of the restrictions on its competence that it had previously imposed. The EPO will resume its competence as International Searching Authority and International Preliminary Examining Authority for international applications filed as from 1 January 2004 by nationals or residents of the United States of America under the conditions outlined below. In compliance with the last sentence of Article 3(4)(b), the text of the notification is reproduced hereafter (references made in the text below are to the “Notice from the President of the European Patent Office dated 26 November 2001” (OJ EPO 1/2002, 52)):

“The reference to the field of biotechnology is deleted from paragraphs 1(a) and (b) with effect for all international applications filed from 1 January 2004 and the reference to the field of telecommunication is deleted from paragraph 1(b) with effect for all demands filed as from 1 July 2004.

The effect of these changes is that the EPO will resume its competence as International Searching Authority and International Preliminary Examining Authority for international applications filed as from **1 January 2004** by nationals or residents of the United States of America where such applications contain one or more claims relating to the field of biotechnology as defined by the International Patent Classification Unit indicated in paragraphs 3 and 4 of the notice.

The EPO will also resume its competence as International Preliminary Examining Authority in respect of international applications filed by nationals or residents of the United States of America containing one or more claims relating to the field of telecommunications as defined by the International Patent Classification Unit indicated in paragraph 5 of the notice where the corresponding demand is filed on or after **1 July 2004**.

The reference to the field of business methods in both paragraphs 1(a) and (b) remains intact and the EPO is not competent to act as International Searching Authority or International Preliminary Examining Authority in respect of such applications for the remainder of the term specified in paragraph 2 of the notice. In all other respects the notice remains in full force and effect.”

EP Accord entre l'Organisation européenne des brevets et le Bureau international de l'Organisation Mondiale de la Propriété Intellectuelle – notification selon l'article 3.4)a)ii) de l'accord

Durant sa trentième session (13^e session ordinaire), l'Assemblée de l'Union internationale de coopération en matière de brevets (Union du PCT), a approuvé une modification apportée à l'accord conclu entre l'Organisation européenne des brevets et le Bureau international de l'OMPI concernant les fonctions de l'Office européen des brevets en qualité d'administration chargée de la recherche internationale et de l'examen préliminaire international au titre du PCT (voir la Gazette du PCT n° 44/2001, page 19929). En vertu de l'article 3.4)a)ii) de l'accord, le Président de l'OEB a alors notifié que l'OEB allait restreindre sa compétence en tant qu'administration chargée de la recherche internationale et de l'examen préliminaire international (voir la Gazette du PCT n° 52/2001, page 24249). Le 3 novembre 2003, le Bureau international a reçu une nouvelle notification en vertu de l'article 3.4)a)ii) du Président de l'OEB. Dans la nouvelle notification, l'OEB informe le Bureau international de la suppression de certaines des restrictions relatives à sa compétence qu'elle avait imposées précédemment. L'OEB sera à nouveau compétente en qualité d'administration chargée de la recherche internationale et de l'examen préliminaire international pour les demandes internationales déposées à compter du 1^{er} janvier 2004 par les nationaux ou les résidents des États-Unis d'Amérique dans les conditions précisées ci-dessous. Conformément à la dernière phrase de l'article 3.4)b), le texte de la notification (en traduction française établie par le Bureau international) est reproduit ci-après (les références indiquées dans le texte reproduit ci-après se rapportent au "Communiqué du Président de l'Office européen des brevets en date du 26 novembre 2001 (JO OEB, 1/2002, 52)) :

"La référence au domaine de la biotechnologie est supprimée des alinéas 1.a) et b) avec effet pour toutes les demandes internationales déposées à compter du 1^{er} janvier 2004 et la référence au domaine de la télécommunication est supprimée de l'alinéa 1.b) avec effet pour toutes les demandes d'examen préliminaire international présentées à compter du 1^{er} juillet 2004.

La conséquence de ces changements est que l'OEB sera à nouveau compétente en tant qu'administration chargée de la recherche internationale et de l'examen préliminaire international pour les demandes internationales déposées à compter du **1^{er} janvier 2004** par les nationaux ou les résidents des États-Unis d'Amérique lorsque de telles demandes contiennent une ou plusieurs revendications relatives au domaine de la biotechnologie telle qu'il est défini par la rubrique de la Classification internationale des brevets indiquée aux alinéas 3 et 4 de la notification.

L'OEB sera à nouveau compétente en tant qu'administration chargée de l'examen préliminaire international en ce qui concerne les demandes internationales déposées par les nationaux ou les résidents des États-Unis d'Amérique contenant une ou plusieurs revendications relatives au domaine de la télécommunication tel qu'il est défini par la rubrique de la Classification internationale des brevets indiquée à l'alinéa 5 de la notification lorsque la demande d'examen préliminaire international correspondante est présentée le **1^{er} juillet 2004** ou ultérieurement.

La référence au domaine des méthodes commerciales figurant aux alinéas 1.a) et b) reste inchangée et l'OEB n'est pas compétente pour agir en tant qu'administration chargée de la recherche internationale ou en tant qu'administration chargée de l'examen préliminaire international en ce qui concerne de telles demandes pour le reste de la période précisée à l'alinéa 2 de la notification. À tous les autres égards, la notification reste en vigueur et continue à avoir effet."

Suite aux modifications du règlement d'exécution du PCT et du barème de taxes annexé au règlement d'exécution du PCT qui entreront en vigueur le 1^{er} janvier 2004, le formulaire de requête et les notes relatives au formulaire de requête, la feuille de calcul des taxes (annexe de la requête) et les notes relatives à la feuille de calcul des taxes ont été modifiés avec effet au 1^{er} janvier 2004.

The Fee Calculation Sheet and the Notes thereto have been modified as follows:

References to the “basic fee” and the “designation fee” have been replaced by references to the new “international filing fee,” and amendments have been made to take into account the different amounts and categories of reductions of the international filing fee (that is, the reductions that are applicable where the request is filed using the PCT-EASY features of the PCT-SAFE software or where the international application is filed in electronic form, as well as the reduction available to applicants from least developed countries, whether natural persons or not, in addition to the case presently covered).

All the sheets of the Request Form, including the Notes to the Request form, the Fee Calculation Sheet and the Notes to the Fee Calculation Sheet, are dated January 2004 and are reproduced on the following pages (without pagination so as to enable convenient reproduction). NOTES TO THE REQUEST FORM (PCT/RO/101)

These Notes are intended to facilitate the filling in of the request form. For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the Patent Cooperation Treaty (PCT), the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the request form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the PCT Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with black ink (Rule 11.9(a) and (b)).

The request form and these Notes may be downloaded from WIPO's Website at the address given above.

WHERE TO FILE THE INTERNATIONAL APPLICATION

The international application (request, description, claims, abstract and drawings, if any) must be filed with a competent receiving Office (Article 11(1)(i))—that is, subject to any applicable prescriptions concerning national security, at the choice of the applicant, either:

(i) the receiving Office of, or acting for, a PCT Contracting State of which the applicant or, if there are two or more applicants, at least one of them, is a resident or national (Rule 19.1(a)(i) or (ii) or (b)), or

(ii) the International Bureau of WIPO in Geneva, Switzerland, if the applicant or, if there are two or more applicants, at least one of the applicants is a resident or national of any PCT Contracting State (Rule 19.1(a)(iii)).

APPLICANT'S OR AGENT'S FILE REFERENCE

A **file reference** may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded by the receiving Office or any International Authority (Rule 11.6(f) and Section 109).

BOX No. I

Title of Invention (Rules 4.3 and 5.1(a)): The title must be short (preferably two to seven words when in English or translated into English) and precise. It must be identical with the title heading the description.

BOXES Nos. II AND III

General: At least one of the applicants named must be a resident or national of a PCT Contracting State for which the receiving Office acts (Articles 9 and 11(1)(i) and Rules 18 and 19). If the international application is filed with the International Bureau under Rule 19.1(a)(iii), at least one of the applicants must be a resident or national of any PCT Contracting State.

Indication Whether a Person is Applicant and/or Inventor (Rules 4.5(a) and 4.6(a) and (b)):

All of the inventors must be named also as applicants for the purposes of the designation of the United States of America (see "Different Applicants for Different Designated States", below).

Check-box "This person is also inventor" (Box No. II): Mark this check-box if the applicant named is also the inventor or one of the inventors; do not mark this check-box if the applicant is a legal entity.

Check-box "applicant and inventor" (Box No. III): Mark this check-box if the person named is both applicant and inventor; do not mark this check-box if the person is a legal entity.

Check-box "applicant only" (Box No. III): Mark this check-box if the person named is a legal entity or if the person named is not also inventor.

Check-box "inventor only" (Box No. III): Mark this check-box if the person named is inventor but not also applicant. This would be the case in particular where the inventor is deceased or the particular inventor is not an inventor for the purposes of the designation of the United States of America. Do not mark this check-box if the person is a legal entity.

In Box No. III, one of the three check-boxes must always be marked for each person named.

A person must not be named more than once in Boxes Nos. II and III, even where that person is both applicant and inventor.

Different Applicants for Different Designated States (Rules 4.5(d), 18.3 and 19.2): It is possible to indicate different applicants for the purposes of different designated States. At least one of all the applicants named must be a national or resident of a PCT Contracting State for which the receiving Office acts, irrespective of the designated State(s) for the purposes of which that applicant is named. *All of the inventors must be named also as applicants for the United States of America (except as indicated above) and the check-boxes "This person is also inventor" (in Box No. II) and/or "applicant and inventor" (in Box No. III) must be marked.*

For the indication of the designated States for which a person is applicant, mark the applicable check-box (only one for each person). The check-box "the States indicated in the Supplemental Box" must be marked where none of the other three check-boxes fits the circumstances; in such a case, the name of the person must be repeated in the Supplemental Box with an indication of the States for which that person is applicant (see item 1(ii) in that Box).

Naming of Inventor (Rule 4.1(a)(v) and (c)(i)): The inventor's name and address must be indicated since the national law of the United States of America requires that the name of the inventor be furnished at the time of filing. It is strongly recommended to always name the inventor. For details, see the *PCT Applicant's Guide*, Volume I/A, Annexes B1 and B2.

Different Inventors for Different Designated States (Rule 4.6(c)): Different persons may be indicated as inventors for different designated States (for example, where, in this respect, the requirements of the national laws of the designated States are not the same); in such a case, the Supplemental Box must be used (see item 1(iii) in that Box). In the absence of any indication, it will be assumed that the inventor(s) named is (are) inventor(s) for all designated States.

Names and Addresses (Rule 4.4): The family name (preferably in capital letters) must be indicated before the given name(s). Titles and academic degrees must be omitted. Names of legal entities must be indicated by their full official designations.

NOTES RELATIVES AU FORMULAIRE DE REQUÊTE (PCT/RO/101)

Ces notes sont destinées à faciliter l'utilisation du formulaire de requête. On peut aussi trouver de plus amples renseignements dans le *Guide du déposant du PCT*, publié par l'OMPI, qui est disponible, de même que d'autres documents relatifs au PCT, sur le site Internet de l'OMPI à l'adresse suivante : www.OMPI.int/pct/fr/index.html. Les notes sont fondées sur les exigences du Traité de coopération en matière de brevets (PCT), du règlement d'exécution et des Instructions administratives du PCT. En cas de divergence entre les présentes notes et ces exigences, ce sont ces dernières qui priment.

Dans le formulaire de requête et dans les présentes notes, les termes "article", "règle" et "instruction" renvoient aux dispositions du traité, de son règlement d'exécution et des Instructions administratives du PCT, respectivement.

Prière de remplir le formulaire à la machine à écrire; les cases appropriées peuvent être cochées à la main, à l'encre noire (règle 11.9.a) et b)).

Le formulaire de requête et les présentes notes peuvent être téléchargés depuis le site Internet de l'OMPI à l'adresse donnée ci-dessus.

OÙ DÉPOSER LA DEMANDE INTERNATIONALE

Il faut que la demande internationale (requête, description, revendications, abrégé et, le cas échéant, dessins) soit déposée auprès d'un office récepteur compétent (article 11.1.i)), c'est-à-dire sous réserve des dispositions applicables en matière de défense nationale et au choix du déposant,

i) l'office récepteur d'un État contractant du PCT ou l'office agissant pour un tel État, dans lequel le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié ou dont il a la nationalité (règle 19.1.a)i) ou ii) ou b)), ou

ii) le Bureau international de l'OMPI à Genève (Suisse) si le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié dans l'un quelconque des États contractants du PCT ou a la nationalité d'un tel État (règle 19.1.a)iii)).

RÉFÉRENCE DU DOSSIER DU DÉPOSANT OU DU MANDATAIRE

Il est possible d'indiquer, à titre facultatif, une telle **référence de dossier**. Celle-ci ne devrait pas dépasser 12 caractères. L'office récepteur ou toute autorité internationale peut ne pas tenir compte des caractères en sus du douzième (règle 11.6.f) et instruction 109).

CADRE N° I

Titre de l'invention (règles 4.3 et 5.1.a)) : le titre doit être bref (de préférence de deux à sept mots lorsqu'il est établi ou traduit en anglais) et précis. Il doit être identique à celui qui figure en tête de la description.

CADRES N°S II ET III

Remarques générales : l'un au moins des déposants mentionnés doit être domicilié dans un État contractant du PCT pour lequel l'office récepteur agit, ou avoir la nationalité d'un tel État (articles 9 et 11.1)i) et règles 18 et 19). Si la demande internationale est déposée auprès du Bureau international en vertu de la règle 19.1.a)iii), l'un au moins des déposants doit être domicilié dans un État contractant du PCT ou avoir la nationalité d'un tel État.

Indication visant à établir si une personne est déposant ou inventeur, ou les deux à la fois (règles 4.5.a) et 4.6.a) et b)) :

Tous les inventeurs doivent être mentionnés également comme déposants pour la désignation des États-Unis d'Amérique (voir, ci-après, "Déposants différents pour différents États désignés").

Case "Cette personne est aussi inventeur" (cadre n° II) : cocher cette case si la personne mentionnée est aussi l'inventeur ou l'un des inventeurs; ne pas la cocher si le déposant est une personne morale.

Case "déposant et inventeur" (cadre n° III) : cocher cette case si la personne mentionnée a les deux qualités, celle de déposant et celle d'inventeur; ne pas la cocher si cette personne est une personne morale.

Case "déposant seulement" (cadre n° III) : cocher cette case si la personne mentionnée est une personne morale ou si elle n'a pas aussi la qualité d'inventeur.

Case "inventeur seulement" (cadre n° III) : cocher cette case si la personne mentionnée a la qualité d'inventeur mais pas celle de déposant. Cela sera le cas notamment lorsque l'inventeur est décédé ou lorsque l'inventeur en question n'est pas inventeur en ce qui concerne les États-Unis d'Amérique, lorsque ceux-ci sont désignés. Ne pas la cocher si cette personne est une personne morale.

Dans le cadre n° III, il faut que l'une des trois cases soit cochée pour chaque personne mentionnée.

Une personne ne doit être mentionnée qu'une seule fois dans les cadres n°s II et III, même si elle est à la fois déposant et inventeur.

Déposants différents pour différents États désignés (règles 4.5.d), 18.3 et 19.2) : il est possible d'indiquer des déposants différents pour différents États désignés. L'un au moins des déposants indiqués – quels que soient l'État ou les États désignés pour lesquels il est indiqué – doit être ressortissant d'un État contractant du PCT pour lequel l'office récepteur agit ou avoir son domicile dans un tel État. *Tous les inventeurs doivent être indiqués aussi comme déposants pour les États-Unis d'Amérique (sauf dans le cas visé ci-dessus) et les cases "Cette personne est aussi inventeur" (dans le cadre n° II) ou "déposant et inventeur" (dans le cadre n° III) doivent être cochées.*

Afin d'indiquer les États désignés pour lesquels une personne est déposant, il y a lieu de cocher la case appropriée (une seule case par personne). La case "les États indiqués dans le cadre supplémentaire" doit être cochée lorsque aucune des trois autres cases ne convient; en pareil cas, le nom de la personne doit être repris dans le cadre supplémentaire et assorti de l'indication des États pour lesquels cette personne est déposant (voir le point 1.ii) de ce cadre).

Mention de l'inventeur (règle 4.1.a)v) et c)i)) : le nom et l'adresse de l'inventeur doivent être indiqués lorsque la législation nationale des États-Unis d'Amérique exige la communication du nom de celui-ci lors du dépôt. Il est vivement recommandé de toujours indiquer le nom de l'inventeur. Pour plus de précisions, voir le *Guide du déposant du PCT*, volume I/A, annexes B1 et B2.

The address must be indicated in such a way that it allows prompt postal delivery; it must consist of all the relevant administrative units (up to and including the indication of the house number, if any), the postal code (if any), and the name of the country.

Only one address may be indicated per person. For the indication of a special "address for correspondence", see the notes to Box No. IV.

Telephone, Facsimile and/or Teleprinter Numbers should be indicated for the person named in Box No. II in order to allow rapid communication with the applicant. Any such number should include the applicable country and area codes.

Applicant's Registration Number with the Office (Rule 4.5(e)): Where the applicant is registered with the national or regional Office acting as receiving Office, the request may indicate the number or other indication under which the applicant is so registered.

Nationality (Rules 4.5(a) and (b) and 18.1): For each applicant, the nationality must be indicated by the name or two-letter code of the State (that is, country) of which the person is a national. A legal entity constituted according to the national law of a State is considered a national of that State. The indication of the nationality is not required where a person is inventor only.

Residence (Rules 4.5(a) and (c) and 18.1): For each applicant, the residence must be indicated by the name or two-letter code of the State (that is, country) of which the person is a resident. If the State of residence is not indicated, it will be assumed to be the same as the State indicated in the address. Possession of a real and effective industrial or commercial establishment in a State is considered residence in that State. The indication of the residence is not required where a person is inventor only.

Names of States (Section 115): For the indication of names of States, the two-letter codes appearing in WIPO Standard ST.3 and in the *PCT Applicant's Guide*, Volume I/B, Annex K, may be used.

BOX No. IV

Who Can Act as Agent (Article 49 and Rule 83.1*bis*): For each of the receiving Offices, information as to who can act as agent is given in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Agent or Common Representative (Rules 4.7, 4.8, 90.1 and 90.2 and Section 108): Mark the applicable check-box in order to indicate whether the person named is (or has been) appointed as "agent" or "common representative" (the "common representative" must be one of the applicants). For the manner in which name(s) and address(es) (including names of States) must be indicated, see the notes to Boxes Nos. II and III. Where several agents are listed, the agent to whom correspondence should be addressed is to be listed first. If there are two or more applicants but no common agent is appointed to represent all of them, one of the applicants who is a national or resident of a PCT Contracting State may be appointed by the other applicants as their common representative. If this is not done, the applicant first named in the request who is entitled to file an international application with the receiving Office concerned will be considered to be the common representative.

Manner of Appointment of Agent or Common Representative (Rules 90.4 and 90.5 and Section 106): The appointment of an agent or a common representative may be effected by designating the agent or common representative in Box No. IV and by the applicant signing the request or a separate power of attorney. Where there are two or more applicants, the appointment of a common agent or common representative must be effected by each applicant signing, at his choice, the request or a separate power of attorney. If the

separate power of attorney is not signed, or if the required separate power of attorney is missing, or if the indication of the name or address of the appointed person does not comply with Rule 4.4, the power of attorney will be considered non-existent unless the defect is corrected. However, the receiving Office may waive the requirement that a separate power of attorney be submitted to it (for details about each receiving Office, see the *PCT Applicant's Guide*, Volume I/B, Annex C).

Where a general power of attorney has been filed and is referred to in the request, a copy thereof must be attached to the request. Any applicant who did not sign the general power of attorney must sign either the request or a separate power of attorney, unless the receiving Office has waived the requirement that a separate power of attorney be submitted to it (for details, see the *PCT Applicant's Guide*, Volume I/B, Annex C).

Agent's Registration Number with the Office (Rule 4.7(b)): Where the agent is registered with the national or regional Office that is acting as receiving Office, the request may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. IV will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II or III, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address must be indicated in Box No. IV instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. IV must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" has been marked).

BOX No. V

Designations (Regional and national patents) (Rule 4.9): Upon filing of the request, the applicant will obtain an automatic and all-inclusive coverage of all designations available under the PCT on the international filing date, in respect of every kind of protection available and, where applicable, in respect of both regional and national patents. If the applicant wishes the international application to be treated, in a certain designated or elected State, as an application not for a patent but for another kind of protection available under the national law of the designated or elected State concerned, the applicant will have to indicate his choice directly to the designated or elected Office when performing the acts, referred to in Articles 22 or 39(1), for entry into the national phase. For details about various kinds of protection available in designated or elected States, see the *PCT Applicant's Guide*, Volume I/A, Annexes B1 and B2.

However, for the reasons explained below, it is possible to indicate, by marking the applicable check-box(es), that DE Germany, KR Republic of Korea and/or RU Russian Federation are not designated for any kind of national protection. Each of those States has notified the International Bureau that Rule 4.9(b) applies to it since its national law provides that the filing of an international application which contains the designation of that State and claims the priority of an earlier national application (for DE: for the same kind of protection) having effect in that State shall have the result that the earlier national application ceases, where applicable, after the expiration of certain time limits, to have effect with the same consequences as the withdrawal of the earlier national application. The designation of DE Germany for the purposes of a EP European patent and of

Inventeurs différents pour différents États désignés (règle 4.6.c) : des personnes différentes peuvent être indiquées en tant qu'inventeurs pour différents États désignés (par exemple, lorsque, en la matière, les exigences des législations nationales des États désignés diffèrent); en pareil cas, il y a lieu d'utiliser le cadre supplémentaire (voir le point 1.iii) de ce cadre). En l'absence d'indication, l'inventeur ou les inventeurs mentionnés sont présumés avoir la qualité d'inventeur pour tous les États désignés.

Noms et adresses (règle 4.4) : le nom de famille (de préférence en lettres majuscules) doit précéder le ou les prénoms. Les titres et les diplômes universitaires ne doivent pas être mentionnés. Les personnes morales doivent être nommées par leurs désignations officielles complètes.

L'adresse doit être indiquée de manière à permettre une distribution postale rapide; elle doit comprendre toutes les unités administratives pertinentes (jusques et y compris le numéro de la maison, s'il y en a un), le code postal, s'il y en a un, et le nom du pays.

Il ne peut être indiqué qu'une seule adresse par personne. En ce qui concerne l'indication d'une adresse spéciale pour la correspondance, voir les notes relatives au cadre n° IV.

Pour permettre une communication rapide avec le déposant, il y a lieu d'indiquer les **numéros de téléphone, de télécopieur ou de téléimprimeur** de la personne mentionnée dans le cadre n° II. Tout numéro de ce type doit comporter les indicatifs de pays et de zone en vigueur.

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 4.5.e) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Nationalité (règles 4.5.a) et b) et 18.1) : la nationalité de chaque déposant doit être indiquée au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) dont l'intéressé est ressortissant. Une personne morale constituée conformément à la législation d'un État contractant est considérée comme ayant la nationalité de cet État. L'indication de la nationalité n'est pas exigée lorsqu'une personne est inventeur seulement.

Domicile (règles 4.5.a) et c) et 18.1) : le domicile de chaque déposant doit être indiqué au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) où l'intéressé a son domicile. Si, cependant, le domicile n'est pas indiqué, l'État du domicile sera présumé être le même que celui qui est indiqué dans l'adresse. La possession d'un établissement industriel ou commercial effectif et sérieux dans un État est considérée comme constituant domicile dans cet État. L'indication du domicile n'est pas exigée lorsqu'une personne est inventeur seulement.

Nom des États (instruction 115) : pour indiquer le nom des États, on peut utiliser le code à deux lettres qui figure dans la norme ST.3 de l'OMPI et dans le *Guide du déposant du PCT*, volume I/B, annexe K.

CADRE N° IV

Qui peut agir en qualité de mandataire ? (article 49 et règle 83.1bis) : pour chacun des office récepteurs, on trouvera, dans le *Guide du déposant du PCT*, volume I/B, annexe C, des informations sur le point de savoir qui peut agir en qualité de mandataire.

Mandataire ou représentant commun (règles 4.7, 4.8, 90.1 et 90.2 et instruction 108) : cocher la case appropriée pour indiquer si la personne mentionnée est (ou a été) désignée comme "mandataire" ou "représentant commun" (le "représentant commun" doit être l'un des déposants). Pour

ce qui est de la façon d'indiquer les noms et adresses (y compris le nom des États), il convient de se reporter aux notes relatives aux cadres n° II et III. Lorsque plusieurs mandataires sont indiqués, il faut mentionner en premier lieu celui à qui la correspondance doit être adressée. S'il y a plusieurs déposants mais aucun mandataire commun désigné pour les représenter tous, l'un des déposants qui est ressortissant d'un État contractant du PCT ou qui a son domicile dans un tel État peut être désigné par les autres comme leur représentant commun. À défaut, le déposant nommé en premier lieu dans la requête qui est autorisé à déposer une demande internationale auprès de l'office récepteur en question sera considéré comme le représentant commun.

Mode de désignation d'un mandataire ou d'un représentant commun (règles 90.4 et 90.5 et instruction 106) : la désignation du mandataire ou du représentant commun peut être effectuée au moyen d'une indication portée dans le cadre n° IV et de la signature par le déposant de ladite requête ou d'un pouvoir distinct. Lorsqu'il y a plusieurs déposants, la désignation d'un mandataire commun ou d'un représentant commun doit être effectuée par chaque déposant signant, au choix, la requête ou un pouvoir distinct. Si le pouvoir distinct n'est pas signé, ou s'il manque, ou encore si l'indication du nom et de l'adresse de la personne désignée ne répond pas aux exigences de la règle 4.4, le pouvoir est réputé non-existant jusqu'à ce que l'irrégularité soit corrigée. Cependant, l'office récepteur peut renoncer à l'exigence selon laquelle un pouvoir distinct doit lui être remis (pour plus de détails en ce qui concerne chaque office récepteur, voir le *Guide du déposant du PCT*, volume I/B, annexe C).

Si un pouvoir général a été déposé et qu'il y est fait référence dans la requête, une copie de celui-ci doit être jointe à la requête. Tout déposant n'ayant pas signé le pouvoir général doit signer soit la requête soit un pouvoir distinct sauf si l'office récepteur a renoncé à l'exigence selon laquelle un pouvoir distinct doit lui être remis (pour plus de détails en ce qui concerne chaque office récepteur, voir le *Guide du déposant du PCT*, volume I/B, annexe C).

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 4.7.b) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° IV sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II ou III – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le déposant souhaite dans ce cas que la correspondance soit envoyée à une adresse différente, cette adresse doit être indiquée dans le cadre n° IV, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas, et seulement dans ce cas, qu'il y a lieu de cocher la dernière case du cadre n° IV (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° V

Désignation (brevets régionaux et nationaux) (règle 4.9) : En déposant la requête, le déposant obtiendra une couverture automatique et générale de toutes les désignations possibles à

RU Russian Federation for the purposes of a EA Eurasian patent are not affected by what is said above. For details see the *PCT Applicant's Guide*, Volume I/A, in the relevant Annex B1.

Even though no other State has notified the International Bureau that Rule 4.9(b) applies to it, note that the consequences described above with respect to the earlier national application whose priority is claimed may also apply to other States, for example, JP Japan. For details, see the *PCT Applicant's Guide*, Volume I/A, in the relevant Annex B1. Therefore, the applicant may wish to consider submitting, separately from the request, a separate notice of withdrawal of the designation concerned. **Important: Should a notice of withdrawal be filed, that notice will have to be signed by the applicant or, if there are two or more applicants, by all of them (Rule 90bis.5(a)), or by an agent or a common representative whose appointment has been effected by each applicant signing, at his choice, the request, the demand or a separate power of attorney (Rule 90.4(a)).**

BOX No. VI

Priority Claim(s) (Rule 4.10): If the priority of an earlier application is claimed, the declaration containing the priority claim must be made in the request.

The request must indicate the *date* on which the earlier application from which priority is claimed was filed and the *number* it was assigned. Note that that date must fall within the period of 12 months preceding the international filing date.

Where the earlier application is a national application, the *country* party to the Paris Convention for the Protection of Industrial Property, or the *Member* of the World Trade Organization that is not a party to that Convention, in which that earlier application was filed must be indicated. Where the earlier application is a regional application, the *regional Office* concerned must be indicated. Where the earlier application is an international application, the *receiving Office* with which that earlier application was filed must be indicated.

Where the earlier application is a regional application (other than an ARIPO application), or an international application, the priority claim may also, if the applicant so wishes, indicate one or more countries party to the Paris Convention for which that earlier application was filed (Rule 4.10(b)(i)); such an indication is not, however, mandatory. Where the earlier application is an ARIPO application, at least one country party to the Paris Convention or one Member of the World Trade Organization for which that earlier application was filed must be indicated (Rule 4.10(b)(ii)).

As to the possibility of correcting or adding a priority claim, see Rule 26bis and the *PCT Applicant's Guide*, Volume I/A, General Part.

Certified Copy of Earlier Application (Rule 17.1): A certified copy of each earlier application the priority of which is claimed (priority document) must be submitted by the applicant, irrespective of whether that earlier application is a national, regional or international application. The priority document must be submitted to the receiving Office or to the International Bureau before the expiration of 16 months from the (earliest) priority date or, where an early start of the national phase is requested, not later than at the time such request is made. Any priority document received by the International Bureau after the expiration of the 16-month time limit but before the date of international publication shall be considered to have been received on the last day of that time limit (Rule 17.1(a)).

Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office (not later than 16 months after the priority date) to prepare and transmit the priority document to the International Bureau (Rule 4.1(c)(ii)). Such request may be made by marking the applicable check-boxes which identify the respective documents. *Attention:* where

such a request is made, the applicant must, where applicable, pay to the receiving Office the *fee for priority document*, otherwise, the request will be considered not to have been made (see Rule 17.1(b)).

Dates (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals each for the number of the day and for the number of the month followed by the number of the year in four digits, in that order and separated by periods, slants or hyphens, for example, “20 March 2004 (20.03.2004)”, “20 March 2004 (20/03/2004)” or “20 March 2004 (20-03-2004)”.

BOX No. VII

Choice of International Searching Authority (ISA) (Rules 4.1(b)(iv) and 4.14bis): If two or more International Searching Authorities are competent for carrying out the international search in relation to the international application—depending on the language in which that application is filed and the receiving Office with which it is filed—the name of the competent Authority chosen by the applicant must be indicated in the space provided, either by its full name or two-letter code.

Request to Use Results of Earlier Search; Reference to that Search (Rules 4.11(a)(i) and (ii) and 4.1): The earlier search, if any, must be identified in such a manner that the ISA can retrieve the results easily. Where those results can be used, the ISA may refund the international search fee or a portion thereof.

BOX No. VIII

Declarations Containing Standardized Wording (Rules 4.1(c)(iii) and 4.17): At the option of the applicant, the request may, for the purposes of the national law applicable in one or more designated States, contain one or more of the following declarations:

- (i) declaration as to the identity of the inventor;
- (ii) declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent;
- (iii) declaration as to the applicant's entitlement, as at the international filing date, to claim the priority of the earlier application;
- (iv) declaration of inventorship (only for the purposes of the designation of the United States of America);
- (v) declaration as to non-prejudicial disclosures or exceptions to lack of novelty;

which must conform to the standardized wording provided for in Sections 211 to 215, respectively, and which must be set forth in Boxes Nos. VIII (i) to (v), as detailed below. Where any such declarations are included, the appropriate check-boxes in Box No. VIII should be marked and the number of each type of declaration should be indicated in the right-hand column. As to the possibility of correcting or adding a declaration, see Rule 26ter, Section 216 and the *PCT Applicant's Guide*, Volume I/A, General Part.

If the circumstances of a particular case are such that the standardized wordings are not applicable, the applicant should not attempt to make use of the declarations provided for in Rule 4.17 but rather will have to comply with the national requirements concerned upon entry into the national phase.

The fact that a declaration is made under Rule 4.17 does not of itself establish the matters declared; the effect of those matters in the designated States concerned will be determined by the designated Offices in accordance with the applicable national law.

la date du dépôt international, en ce qui concerne chaque type de protection disponible et, le cas échéant, à la fois aux fins d'un brevet régional et aux fins d'un brevet national. Si le déposant souhaite que la demande internationale soit traitée, dans un État désigné ou élu donné, non pas comme une demande pour un brevet mais pour un autre type de protection disponible en vertu de la législation nationale de l'État désigné ou élu considéré, il devra indiquer son choix, directement auprès de l'office désigné ou élu, lors de l'accomplissement des actes visés à l'article 22 ou 39.1) aux fins de l'ouverture de la phase nationale. Pour plus de détails concernant les différents types de protection disponibles dans les États désignés ou élus, voir le *Guide du déposant du PCT*, volume I/A, annexes B1 et B2.

Cependant, pour les raisons exposées ci-après, il est possible d'indiquer, en cochant la ou les cases correspondantes, que DE Allemagne, KR République de Corée ou RU Fédération de Russie ne sont désignées pour aucun type de protection nationale. Chacun de ces États a notifié au Bureau international que la règle 4.9.b) s'applique en ce qui le concerne puisque sa législation nationale prévoit que le dépôt d'une demande internationale qui contient la désignation de cet État et revendique la priorité d'une demande nationale antérieure (pour DE Allemagne, pour le même type de protection) produisant ses effets dans cet État a pour résultat que la demande nationale antérieure cesse de produire ses effets, le cas échéant, après l'expiration de certains délais, avec les mêmes conséquences que le retrait de ladite demande nationale antérieure. Ce qui précède n'affecte ni la désignation de DE Allemagne aux fins d'un brevet EP européen, ni la désignation de RU Fédération de Russie aux fins d'un brevet EA eurasiatique. Pour plus de détails, voir le *Guide du déposant du PCT*, volume I/A, l'annexe B1 pertinente.

Bien que aucun autre État contractant n'ait notifié au Bureau international que la règle 4.9.b) s'applique en ce qui le concerne, il convient de noter que les conséquences décrites ci-dessus en ce qui concerne une demande nationale antérieure dont la priorité est revendiquée peuvent aussi s'appliquer à d'autres États, par exemple JP Japon. Pour plus de détails, voir le *Guide du déposant du PCT*, volume I/A, l'annexe B1 pertinente. En conséquence, le déposant peut souhaiter soumettre, séparément de la requête, une déclaration distincte de retrait de la désignation concernée.

Important : Toute déclaration de retrait qui serait déposée, doit être signée par le déposant, ou s'il y a plusieurs déposants, par chacun d'eux (règle 90bis.5.a)), ou par le mandataire ou le représentant commun qui a été désigné par chaque déposant qui a signé, à son choix, la requête, la demande d'examen préliminaire international ou un pouvoir distinct (règle 90.4.a)).

CADRE N° VI

Revendication(s) de priorité (règle 4.10) : si la priorité d'une demande antérieure est revendiquée, la déclaration contenant la revendication de priorité doit figurer dans la requête.

La requête doit indiquer la *date* du dépôt de la demande antérieure dont la priorité est revendiquée et son *numéro*. Cette date doit tomber dans la période de 12 mois précédant la date du dépôt international.

Lorsque la demande antérieure est une demande nationale, il faut indiquer le *pays* partie à la Convention de Paris pour la protection de la propriété industrielle, ou le *membre* de l'Organisation mondiale du commerce qui n'est pas partie à ladite convention, où elle a été déposée; lorsque la demande antérieure est une demande régionale, l'*office régional* concerné; et lorsque la demande antérieure est une demande internationale, l'*office récepteur* auprès duquel elle a été déposée.

Lorsque la demande antérieure est une demande régionale (autre qu'une demande ARIPO) ou une demande internationale, la revendication de priorité peut aussi, si le déposant le souhaite, indiquer un ou plusieurs pays parties à la Convention de Paris pour lesquels cette demande a été déposée (règle 4.10.b)ii); cette indication n'est cependant pas obligatoire. Lorsque la demande antérieure est une demande ARIPO, il faut indiquer au moins un pays partie à la Convention de Paris ou un membre de l'Organisation mondiale du commerce pour lequel cette demande a été déposée (règle 4.10.b)ii)).

En ce qui concerne les possibilités de correction ou d'adjonction d'une revendication de priorité, voir la règle 26bis et le *Guide du déposant du PCT*, volume I/A, partie générale.

Copie certifiée conforme de la demande antérieure (règle 17.1) : le déposant doit présenter une copie certifiée conforme de chaque demande antérieure dont la priorité est revendiquée (document de priorité), que la demande antérieure soit une demande nationale, régionale ou internationale. Le document de priorité doit être présenté à l'office récepteur ou au Bureau international avant l'expiration d'un délai de 16 mois à compter de la date de priorité (la plus ancienne) ou, lorsque l'ouverture anticipée de la phase nationale est demandée, au plus tard à la date à laquelle est faite cette demande. Tout document de priorité qui parvient au Bureau international après l'expiration du délai de 16 mois mais avant la date de publication internationale est réputé avoir été reçu le dernier jour de ce délai (règle 17.1.a)).

Lorsque le document de priorité est délivré par l'office récepteur, le déposant peut, au lieu de présenter ce document, demander à l'office récepteur (au plus tard dans le délai de 16 mois à compter de la date de priorité) de l'établir et de le transmettre au Bureau international (règle 4.1.c)ii)). Pour effectuer une requête à cet effet, il faut cocher la case appropriée comportant les indications qui permettent d'identifier le document. *Important :* lorsqu'une telle requête est présentée, le déposant doit, le cas échéant, verser à l'office récepteur la *taxe afférente au document de priorité*; à défaut, cette requête sera considérée comme n'ayant pas été présentée (voir la règle 17.1.b)).

Dates (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, comme suit : quantième et mois en numéros à deux chiffres arabes, puis l'année en quatre chiffres, le quantième et le mois étant suivis d'un point, d'une barre oblique ou d'un tiret (par exemple : "20 mars 2004 (20.03.2004)", "20 mars 2004 (20/03/2004)" ou "20 mars 2004 (20-03-2004)").

CADRE N° VII

Choix de l'administration chargée de la recherche internationale (ISA) (règles 4.1.b)iv) et 4.14bis) : si plusieurs administrations chargées de la recherche internationale sont compétentes pour procéder à la recherche internationale concernant la demande internationale – en fonction de la langue dans laquelle cette demande est déposée et de l'office récepteur auprès duquel elle est déposée – le nom de l'administration compétente choisie par le déposant doit être indiqué dans l'espace prévu à cet effet, soit au moyen de son nom complet soit au moyen du code à deux lettres correspondant.

Demande d'utilisation des résultats d'une recherche antérieure; mention de cette recherche (règles 4.11.a)i) et ii) et 41.1) : la mention de la recherche antérieure éventuelle doit comporter des indications qui permettent à l'administration chargée de la recherche internationale d'en retrouver aisément les résultats. Si ces résultats sont utilisables, l'administration en question pourra rembourser la taxe de recherche internationale ou une fraction de celle-ci.

Even if the wording of a declaration does not conform to the standardized wording provided for in the Administrative Instructions pursuant to Rule 4.17, any designated Office may accept that declaration for the purposes of the applicable national law, but is not required to do so.

Details as to National Law Requirements: For information on the declarations required by each designated Office, see the *PCT Applicant's Guide*, Volume II, in the relevant National Chapter.

Effect in Designated Offices (Rule 51*bis*.2): Where the applicant submits any of the declarations provided for in Rule 4.17(i) to (iv) containing the required standardized wording (either with the international application, or to the International Bureau within the relevant time limit under Rule 26*ter*, or directly to the designated Office during the national phase), the designated Office may not, in the national phase, require further documents or evidence on the matter to which the declaration relates, unless that designated Office may reasonably doubt the veracity of the declaration concerned.

Incompatibility of Certain Items of Rule 51*bis*.2(a) with National Laws (Rule 51*bis*.2(c)): Certain designated Offices listed below have informed the International Bureau that the applicable national law is not compatible in respect of certain declarations provided in Rule 4.17(i), (ii) and (iii). Those designated Offices are therefore entitled to require further documents or evidence on the matters to which those declarations relate. For regularly updated information on such Offices, see the WIPO Website:
http://www.wipo.int/pct/en/texts/reservations/res_incomp.pdf.

BOXES Nos. VIII (i) to (v) (IN GENERAL)

Different Declaration Boxes: There are six different declaration boxes in the pre-printed request form—one box for each of the five different types of declarations provided for in Rule 4.17 (Box No. VIII (i) to Box No. VIII (v)) and a continuation sheet (Continuation of Box No. VIII (i) to (v)) to be used in case any single declaration does not fit in the corresponding box. The title of each type of declaration which is found in the standardized wording provided for in the Administrative Instructions is pre-printed on the appropriate sheet of the request.

Separate Sheet for Each Declaration: Each declaration must start on a separate sheet of the request form in the appropriate Declaration Box.

Titles, Items, Item Numbers, Dotted Lines, Words in Parentheses and Words in Brackets: The prescribed standardized wording of the declarations includes titles, various items, item numbers, dotted lines, words in parentheses and words in brackets. Except for Box No. VIII (iv) which contains the pre-printed standardized wording, only those items which are applicable should be included in a declaration where necessary to support the statements in that declaration (that is, omit those items which do not apply) and item numbers need not be included. Dotted lines indicate where information is required to be inserted. Words in parentheses are instructions to applicants as to the information which may be included in the declaration depending upon the factual circumstances. Words in brackets are optional and should appear in the declaration without the brackets if they apply; if they do not apply, they should be omitted together with the corresponding brackets.

Naming of Several Persons: More than one person may be named in a single declaration. In the alternative, with one exception, a separate declaration may be made for each person. With respect to the declaration of inventorship set forth in Box No. VIII (iv), which is applicable only for the purposes of the

designation of the United States of America, all inventors must be indicated in a single declaration (see Notes to Box No. VIII (iv), below). The wording of declarations to be set forth in Boxes Nos. VIII (i), (ii), (iii) and (v) may be adapted from the singular to the plural as necessary.

Designated States to Which the Declarations Apply: Each declaration must indicate the designated States to which it applies. In this regard, the standardized wording of the declaration of inventorship (Box No. VIII (iv); see also Rule 4.17(iv) and Section 214) indicates in the title that it is for the purposes of the designation of the United States of America. The other declarations include prescribed wording to indicate whether the declaration is made for all designations or specific designations; one of these choices should always be included in the declaration. Where the declaration is for more than one person, the declaration may include separate statements indicating whether the declaration is made for all designations or specific designations with respect to each separate applicant. For example, this may be expected to occur where the request indicates different applicants for different States in accordance with Rule 4.5(d). However, in such a case, it is advisable to include a separate declaration for each person.

BOX No. VIII (i)

Declaration as to the Identity of the Inventor (Rule 4.17(i) and Section 211): The declaration must be worded as follows:

“Declaration as to the identity of the inventor (Rules 4.17(i) and 51*bis*.1(a)(i)):

in relation to [this] international application [No. PCT/...],

- (i) ... (*name*) of ... (*address*) is the inventor of the subject matter for which protection is sought by way of [the] [this] international application
- (ii) this declaration is made for the purposes of (*include as applicable*):
 - (a) all designations [except the designation of the United States of America]
 - (b) the following designations for national and/or regional patents: ...”

Such a declaration is not necessary in respect of any inventor who is indicated as such (either as inventor only or applicant and inventor) in Box No. II or No. III in accordance with Rule 4.5 or 4.6. However, where the inventor is indicated as applicant in Box No. II or No. III in accordance with Rule 4.5, a declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)) may be appropriate for the purposes of all designated States except the United States of America. Where indications regarding the inventor in accordance with Rule 4.5 or 4.6 are not included in Box No. II or No. III, this declaration may be combined with the prescribed wording of the declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)). For details on such a combined declaration, see Notes to Box No. VIII (ii), below. For details as to the declaration of inventorship for the purposes of the designation of the United States of America, see Notes to Box No. VIII (iv), below.

BOX No. VIII (ii)

Declaration as to the Applicant's Entitlement to Apply for and Be Granted a Patent (Rule 4.17(ii) and Section 212): The declaration must be worded as follows, with such inclusion, omission, repetition and re-ordering of the matters listed as items (i) to (viii) as is necessary to explain the applicant's entitlement:

“Declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51*bis*.1(a)(ii)), in a case where the declaration under Rule 4.17(iv) is not appropriate:

CADRE N° VIII

Déclarations comportant un libellé standard (règles 4.1.c)iii) et 4.17) : au choix du déposant, la requête peut, aux fins de la législation nationale applicable dans un ou plusieurs États désignés, contenir une ou plusieurs des déclarations suivantes :

- i) une déclaration relative à l'identité de l'inventeur;
- ii) une déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet;
- iii) une déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure;
- iv) une déclaration relative à la qualité d'inventeur (seulement aux fins de la désignation des États-Unis d'Amérique);
- v) une déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté;

qui doivent être conformes au libellé standard fixé dans les instructions 211 à 215, respectivement, et qui doivent être présentées dans les cadres n°s VIII.i) à v), comme précisé ci-après. Lorsque de telles déclarations sont incluses, il convient de cocher les cases appropriées dans le cadre n° VIII et d'indiquer dans la colonne de droite le nombre de déclarations de chaque type. En ce qui concerne les possibilités de correction ou d'adjonction d'une déclaration, voir la règle 26ter, l'instruction 216 et le *Guide du déposant du PCT*, volume I/A, partie générale.

Si les circonstances d'un cas particulier sont telles que les libellés standard ne sont pas applicables, le déposant s'abstiendra de faire les déclarations prévues à la règle 4.17, mais il devra satisfaire aux exigences de la législation nationale concernée lors de l'ouverture de la phase nationale.

Le fait qu'une déclaration soit faite en vertu de la règle 4.17 ne suffit pas à prouver les points sur lesquels elle porte; il appartient aux offices désignés de statuer sur l'effet de ces points dans les États désignés en fonction de la législation nationale applicable.

Même si le texte d'une déclaration ne respecte pas le libellé standard fixé dans les instructions administratives en vertu de la règle 4.17, tout office désigné est libre d'accepter ou non cette déclaration aux fins de la législation nationale applicable.

Précisions quant aux exigences des législations nationales : pour des précisions concernant les déclarations qui sont exigées par chaque office désigné, voir les chapitres nationaux pertinents dans le volume II du *Guide du déposant du PCT*.

Effets dans les offices désignés (règle 51bis.2) : lorsqu'un déposant remet l'une des déclarations visées à la règle 4.17.i) à iv) comportant le libellé standard exigé (soit avec la demande internationale, soit au Bureau international dans le délai applicable en vertu de la règle 26ter, ou directement à l'office désigné durant la phase nationale), l'office désigné ne peut, pendant la phase nationale, exiger d'autres documents ou preuves relatifs à l'objet auquel se rapporte la déclaration, à moins qu'il puisse raisonnablement douter de la véracité de la déclaration en question.

Incompatibilité de certains points de la règle 51bis.2.a) avec les législations nationales (règle 51bis.2.c) : certains offices désignés ont informé le Bureau international que la législation nationale qui leur est applicable n'est pas compatible en ce qui concerne certaines déclarations visées à la règle 4.17.i), ii) et iii). Ces offices désignés pourront donc exiger des documents ou des preuves supplémentaires relatifs aux objets auxquels se rapportent ces déclarations. Pour des

renseignements régulièrement mis à jour en ce qui concerne ces offices, voir le site Internet de l'OMPI à l'adresse suivante : http://www.wipo.int/pct/fr/texts/reservations/res_incomp.pdf.

CADRES N°s VIII i) à v) (GÉNÉRALITÉS)

Différents cadres pour déclarations : le formulaire pré-imprimé contient six cadres différents pour les déclarations, un pour chacun des cinq types de déclarations prévues selon la règle 4.17 (du cadre n° VIII.i) au cadre n° VIII.v)) et une feuille annexe (Suite du cadre n° VIII.i) à v)) à utiliser dans le cas où une des déclarations ne tient pas dans le cadre approprié. Le titre de chaque déclaration qui figure dans le libellé standard prévu dans les instructions administratives est pré-imprimé sur la feuille correspondante de la requête.

Feuille distincte pour chaque déclaration : chaque déclaration doit commencer sur une feuille distincte de la requête et dans le cadre pour déclaration approprié.

Titres, éléments, numéros d'éléments, lignes pointillées, mots entre parenthèses et mots entre crochets : le libellé standard fixé pour les déclarations comporte un titre, différents éléments, des numéros d'éléments, des lignes pointillées, des mots entre parenthèses et des mots entre crochets. Sauf en ce qui concerne le cadre n° VIII.iv) dans lequel le libellé standard est pré-imprimé, seuls les éléments pertinents doivent figurer dans une déclaration lorsque cela est nécessaire à l'énoncé des faits invoqués dans cette déclaration (en d'autres termes, il y a lieu d'omettre les éléments non pertinents) et il n'est pas nécessaire d'inclure les numéros d'éléments. Les lignes pointillées signalent les endroits où il y a lieu d'indiquer les renseignements demandés. Les mots entre parenthèses indiquent au déposant quels renseignements peuvent être inclus dans la déclaration selon la situation de fait. Les mots entre crochets sont facultatifs; s'ils sont applicables, ils doivent figurer dans la déclaration sans les crochets; s'ils ne sont pas applicables, il convient de les omettre ainsi que les crochets.

Mention de plusieurs personnes : plusieurs personnes peuvent être mentionnées dans une même déclaration. Il est aussi possible, sauf dans un cas, de faire une déclaration distincte par personne. Pour la déclaration relative à la qualité d'inventeur, figurant dans le cadre n° VIII.iv), qui est applicable seulement aux fins de la désignation des États-Unis d'Amérique, tous les inventeurs doivent être indiqués dans une même déclaration (voir les notes du cadre n° VIII.iv), ci-après). Dans les déclarations devant figurer dans les cadres n°s VIII.i), ii), iii) et v), le libellé au singulier peut être mis au pluriel si cela s'avère nécessaire.

États désignés auxquels les déclarations s'appliquent : chaque déclaration doit comporter l'indication des États désignés auxquels elle s'applique. À cet égard, le libellé standard pour la déclaration relative à la qualité d'inventeur (cadre n° VIII.iv); voir également la règle 4.17.iv) et l'instruction 214) indique dans le titre que la déclaration est faite aux fins de la désignation des États-Unis d'Amérique. Les autres déclarations comportent des libellés prescrits pour indiquer si la déclaration est faite aux fins de toutes les désignations ou aux fins de désignations particulières. Une de ces options doit toujours figurer dans la déclaration. Lorsque la déclaration est faite en ce qui concerne plusieurs personnes, elle peut comporter des mentions distinctes indiquant si elle est faite aux fins de toutes les désignations ou aux fins de désignations particulières en ce qui concerne chacun des déposants. Le cas peut par exemple se présenter si la requête indique des déposants différents pour différents États, conformément à la règle 4.5.d). Dans une telle situation, toutefois, il est conseillé d'inclure une déclaration distincte par personne.

The remainder of the items may be incorporated as is necessary to explain the applicant's entitlement. ***This declaration is only applicable to those events which have occurred prior to the international filing date.*** In addition, this declaration is only applicable where the person or name of the applicant is different from that of the applicant who filed the earlier application from which priority is claimed. For example, this declaration may be applicable where only one applicant out of five is different from the applicants indicated in respect of an earlier application. The possible kinds of transfer of entitlement in item (vii) include merger, acquisition, inheritance, donation, etc. Where there has been a succession of transfers from the applicant in respect of the earlier application, the order in which transfers are listed should follow the actual succession of transfers, and items may be included more than once, as necessary to explain the applicant's entitlement.

BOX No. VIII (iv)

Declaration of Inventorship (Rule 4.17(iv) and Section 214): The standardized wording for the declaration is pre-printed in Box No. VIII (iv).

All inventors must be named in the declaration, even if they do not all sign the same (copy of) the declaration (Section 214(b)). Bibliographic data, such as address of residence and citizenship, must be included for each inventor. Where the declaration is included in the request, the inventor(s) need not sign and date the declaration if they have signed in Box No. X of the request. If there are more than two inventors, those other inventors must be indicated on the "continuation sheet for declaration." In such a case, write "Continuation of Box No. VIII (iv)," and indicate only the bibliographical data in respect of each inventor. The text of the declaration itself should not be repeated on that continuation sheet. The inventor(s) identified on the continuation sheet must sign and date such sheet, unless the declaration, including the continuation sheet, is included with the request and the inventor(s) has (have) signed in Box No. X of the request.

CADRE N° VIII.i)

Déclaration relative à l'identité de l'inventeur (règle 4.17.i) et instruction 211) : la déclaration doit être libellée comme suit :

“Déclaration relative à l'identité de l'inventeur (règles 4.17.i) et 51bis.1.a)i) :

concernant la [présente] demande internationale [n° PCT/...],

- i) ... (nom), ... (adresse), est l'inventeur de ce pour quoi une protection est demandée dans [la] [ladite] demande internationale
- ii) la présente déclaration est faite aux fins (*préciser selon le cas*)
 - a) de toutes les désignations [sauf la désignation des États-Unis d'Amérique]
 - b) des désignations suivantes pour des brevets nationaux ou régionaux : ...”

Une déclaration de cette nature n'est pas nécessaire en ce qui concerne tout inventeur qui est indiqué comme tel (que ce soit comme inventeur seulement ou en qualité à la fois de déposant et d'inventeur) dans le cadre n° II ou le cadre n° III en application de la règle 4.5 ou 4.6. Toutefois, lorsque l'inventeur est indiqué comme étant le déposant dans le cadre n° II ou n° III en application de la règle 4.5, une déclaration relative au droit du déposant de demander et d'obtenir un brevet (règle 4.17.ii) peut être appropriée aux fins de tous les États désignés sauf les États-Unis d'Amérique. Lorsque les indications concernant l'inventeur qui sont à fournir en application de la règle 4.5 ou 4.6 ne sont pas portées dans le cadre n° II ou n° III, cette déclaration peut être combinée avec le libellé standard pour la déclaration relative au droit du déposant de demander et d'obtenir un brevet (règle 4.17.ii)). Pour des précisions concernant cette déclaration combinée, voir les notes du cadre n° VIII.ii), ci-après. Pour des précisions quant à la déclaration relative à la qualité d'inventeur aux fins de la désignation des États-Unis d'Amérique, voir les notes du cadre n° VIII.iv), ci-après.

CADRE N° VIII.ii)

Déclaration relative au droit du déposant de demander et d'obtenir un brevet (règle 4.17.ii) et instruction 212) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à viii) nécessaires aux fins de motiver le droit du déposant :

“Déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet (règles 4.17.ii) et 51bis.1.a)ii)), dans le cas où la déclaration selon la règle 4.17.iv) n'est pas appropriée :

concernant la [présente] demande internationale [n° PCT/...],

... (nom) a le droit de demander et d'obtenir un brevet en vertu :

- i) du fait que ... (nom), ... (adresse), est l'inventeur de ce pour quoi une protection est demandée dans [la] [ladite] demande internationale
- ii) du fait que... (nom) [possède] [possédait] ce droit en qualité d'employeur de l'inventeur, ... (nom de l'inventeur)
- iii) d'un contrat conclu entre ... (nom) et ... (nom), daté du ...
- iv) d'une cession de ... (nom) à ... (nom), datée du ...
- v) d'une autorisation consentie par ... (nom) à ... (nom), datée du ...

- vi) d'une décision de justice rendue par ... (nom du tribunal), ordonnant un transfert de ... (nom) à ... (nom), datée du ...
- vii) d'un transfert de droits de ... (nom) à ... (nom), sous la forme de ... (*préciser le type de transfert*), daté du ...
- viii) du changement de nom du déposant de ... (nom) en ... (nom), le ... (date)
- ix) la présente déclaration est faite aux fins (*préciser selon le cas*)
 - a) de toutes les désignations [sauf la désignation des États-Unis d'Amérique]
 - b) des désignations suivantes pour des brevets nationaux ou régionaux : ...”

L'une ou l'autre des variantes a) et b) du point ix) doit toujours être incluse dans la déclaration. On ne retiendra parmi les autres éléments que ceux qui sont nécessaires pour motiver le droit du déposant. **Cette déclaration est exclusivement applicable à des faits qui se sont produits avant la date du dépôt international.** Les types possibles de transfert de droits visés au point vii) comprennent la fusion, l'acquisition, l'héritage, la donation, etc. Lorsqu'il y a eu succession de transferts des droits de l'inventeur, l'ordre dans lequel les transferts sont énumérés doit suivre l'ordre effectif de ces transferts successifs et certains points peuvent être cités plus d'une fois si cela s'avère nécessaire pour motiver le droit du déposant. Lorsque l'inventeur n'est pas indiqué dans le cadre n° II ou le cadre n° III, cette déclaration peut être présentée sous la forme d'une déclaration combinée motivant le droit du déposant de demander et d'obtenir un brevet et permettant d'identifier l'inventeur. Dans un tel cas, la phrase introductive de la déclaration est libellée comme suit :

“Déclaration combinée relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet (règles 4.17.ii) et 51bis.1.a)ii)) et relative à l'identité de l'inventeur (règles 4.17.i) et 51bis.1.a)i)), dans le cas où la déclaration selon la règle 4.17.iv) n'est pas appropriée :”

Le reste de la déclaration combinée est libellé comme indiqué aux paragraphes précédents.

Pour des précisions concernant la déclaration permettant d'identifier l'inventeur, voir les notes relatives au cadre n° VIII.i), ci-dessus.

CADRE N° VIII.iii)

Déclaration relative au droit du déposant de revendiquer la priorité de la demande antérieure (règle 4.17.iii) et instruction 213) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à viii) nécessaire aux fins de motiver le droit du déposant :

“Déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande indiquée ci-dessous si le déposant n'est pas celui qui a déposé la demande antérieure ou si son nom a changé depuis le dépôt de la demande antérieure (règles 4.17.iii) et 51bis.1.a)iii)) :

concernant la [présente] demande internationale [n° PCT/...],

... (nom) a le droit de revendiquer la priorité de la demande antérieure n° ... en vertu :

- i) du fait que le déposant est l'inventeur de ce pour quoi une protection a été demandée dans la demande antérieure

BOX No. VIII (v)

Either (a), (b), (c) or (d) of item (i) should always be included in the declaration. Item (ii) should also always be included in the declaration. Either (a) or (b) of item (v) should always be included in the declaration. Items (iii) and (iv) may be incorporated depending upon the circumstances.

BOX No. IX

Items Constituting the International Application: The number of sheets of the various parts of the international application must be given in the check list in Arabic numerals. Sheets containing any of Boxes Nos. VIII (i) to (v) must be counted as part of the request.

Where the application contains disclosure of one or more *nucleotide and/or amino acid sequences*, the applicant has the following three options.

First, the applicant may choose to file the sequence listing and/or tables related thereto *in paper form only* (“option (a)”), in which case the number of sheets of the listing and/or tables, respectively, must be indicated under item (a) in the left column of Box No. IX (and therefore included in the total number of sheets), noting that a copy of the sequence listing and/or a copy of the tables, in computer readable form, may accompany the international application but only for the purposes of international search under Rule 13*ter* and/or Section 802(b-*quater*); in such a case, check-boxes Nos. 9, 9(i) and/or 10(i) and, where applicable, 9(iii) and/or 10(iii) must be marked in the right column of Box No. IX.

Second, the applicant may choose to file the sequence listing and/or tables related thereto *in computer readable form only*, under Section 801(a)(i) (“option (b)”), in which case check-boxes b(i) and/or b(ii) must be marked but the spaces for the number of sheets of the sequence listing and/or tables, respectively, under item (a) must be left blank; the type and number of carriers must also be indicated on the dotted lines at the bottom of the left column; in addition, check-boxes Nos. 9, 9(ii) and/or 10(ii) and, where applicable, 9(iii) and/or 10(iii) must be marked if additional copies of the sequence listing and/or tables in computer readable form are furnished.

Third, the applicant may choose to file the sequence listing and/or tables related thereto *both in computer readable form*

and *in paper form*, under Section 801(a)(ii) (“option (c)”), in which case the number of sheets (in paper form) of the sequence listing and/or tables, respectively, must be indicated under item (a) in the left column of Box No. IX (although those numbers of sheets will not be taken into account for calculation of the international filing fee) and check-boxes c(i) and/or c(ii), respectively, must be marked; the type and number of carriers must also be indicated on the dotted lines at the bottom of the left column; in addition, check-boxes Nos. 9, 9(ii) and/or 10(ii) and, where applicable, 9(iii) and/or 10(iii) must be marked if additional copies of the sequence listing and/or tables in computer readable form are furnished.

Under all three options described above, the sequence listing must be presented as a separate part of the description (“sequence listing part of description”) in accordance with the standard contained in Annex C of the Administrative Instructions. Also, tables related to sequence listing must be presented in accordance with the standard contained in Annex C-*bis* of the Administrative Instructions.

Items Accompanying the International Application:

Where the international application is accompanied by certain items, the applicable check-boxes must be marked, any applicable indication must be made on the dotted line after the applicable item, and the number of such items should be indicated at the end of the relevant line; detailed explanations are provided below only in respect of those items which so require.

Check-box No. 4: Mark this checkbox where a copy of a general power of attorney is filed with the international application; where the general power of attorney has been deposited with the receiving Office, and that Office has accorded to it a reference number, that number may be indicated.

Check-box No. 5: Mark this check-box where a statement explaining the lack of signature of an inventor/applicant for the purposes of the United States of America is furnished together with the international application (see also Notes to Box No. X).

Check-box No. 7: Mark this check-box where a translation of the international application for the purposes of international search (Rule 12.3) is filed together with the international application and indicate the language of that translation.

Check-box No. 8: Mark this check-box where a filled-in Form PCT/RO/134 or any separate sheet containing indications concerning deposited microorganisms and/or other biological material is filed with the international application. If Form PCT/RO/134 or any sheet containing the said indications is included as one of the sheets of the description (as required by certain designated States (see the *PCT Applicant's Guide*, Volume I/B, Annex L)), do not mark this check-box (for further information, see Rule 13*bis* and Section 209).

Check-box No. 9: Where the international application contains a sequence listing and a copy thereof in computer readable form is required by the ISA under Rule 13*ter*, the applicant may furnish the listing in computer readable form (together with the required statement) to the receiving Office with the international application, in which case check-boxes Nos. 9, 9(i) and, where applicable, 9(iii) must be marked. Where the applicant has chosen option (b) or option (c) mentioned above, and an additional copy or copies of the sequence listing in computer readable form are required under Section 804, the applicant may furnish such additional copies together with the international application, in which case check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked. In all cases mentioned above, the applicant should indicate at the end of each applicable entry the type and number of diskettes, CD-ROMs, CD-Rs, or other data carriers furnished.

Check-box No. 10: Where the international application contains tables related to a sequence listing and a copy thereof in computer readable form is required by the ISA under Section 802(b-*quater*), the applicant may furnish the tables in

L'une ou l'autre des variantes a) et b) du point ix) doit toujours être incluse dans la déclaration. On ne retiendra parmi les autres éléments que ceux qui sont nécessaires pour motiver le droit du déposant. **Cette déclaration est exclusivement applicable à des faits qui se sont produits avant la date du dépôt international.** En outre, cette déclaration n'est applicable que si la personne du déposant est différente de celle du déposant qui a déposé la demande antérieure dont la priorité est revendiquée, ou si le nom du déposant a changé. Si par exemple un seul déposant sur cinq est différent de ceux qui étaient indiqués pour une demande antérieure, cette déclaration pourra être applicable. Les types possibles de transferts de droits visés au point vii) comprennent la fusion, l'acquisition, l'héritage, la donation, etc. Lorsqu'il y a eu succession de transferts des droits du déposant sur la demande antérieure, l'ordre dans lequel les points sont énumérés doit suivre l'ordre effectif de ces transferts successifs et certains points peuvent être cités plus d'une fois si cela s'avère nécessaire pour motiver le droit du déposant.

CADRE N° VIII.iv)

Déclaration relative à la qualité d'inventeur (règle 4.17.iv) et instruction 214) : le libellé standard pour la déclaration est pré-imprimé au cadre n° VIII.iv).

Tous les inventeurs doivent être mentionnés dans la déclaration même s'ils ne signent pas tous la même (copie de la) déclaration (instruction 214.b)). Les données bibliographiques, telles que l'adresse du domicile et la nationalité, doivent être fournies pour chaque inventeur. Dans le cas d'une déclaration incluse dans la requête, il n'est pas nécessaire que le ou les inventeurs signent ou datent la déclaration s'ils ont signé eux-mêmes dans le cadre n° X de la requête. S'il y a plusieurs inventeurs, les autres inventeurs doivent être indiqués sur la "feuille annexe de déclaration". Dans ce cas, on écrira "suite du cadre n° VIII.iv)" et on fournira uniquement les données bibliographiques concernant chaque inventeur. Le texte de la déclaration ne doit pas être répété sur cette feuille annexe. Le ou les inventeurs indiqués sur la feuille annexe doivent signer et dater cette feuille, à moins que la déclaration, y compris la feuille annexe, soit incluse dans la requête et que le ou les inventeurs aient signé dans le cadre n° X de la requête.

CADRE N° IX

Éléments constituant la demande internationale : Il faut indiquer en chiffres arabes, dans le bordereau, le nombre de feuilles des différentes parties de la demande internationale. Toute feuille sur laquelle figure l'un quelconque des cadres n°s VIII.i) à v) doit être comptée comme faisant partie de la requête.

Lorsque la demande internationale contient la divulgation d'une ou de plusieurs *séquences de nucléotides ou d'acides aminés*, le déposant dispose des trois options suivantes.

Premièrement, le déposant peut choisir de déposer le listage des séquences ou les tableaux y relatifs *sous forme papier seulement* (“option a”), auquel cas le nombre de feuilles du listage ou des tableaux, respectivement, doit être indiqué au point a) de la colonne de gauche du cadre n° IX (et par conséquent compris dans le nombre total de feuilles); on notera dans ce cas qu'une copie du listage des séquences ou une copie des tableaux, sous forme déchiffrable par ordinateur, peuvent être remises avec la demande internationale mais seulement aux fins de la recherche internationale en vertu de la règle 13ter ou de l'instruction 802.b-quater); dans ce cas, les cases n°s 9, 9.i) ou 10.i) et, le cas échéant, 9.iii) ou 10.iii), doivent être cochées dans la colonne de droite du cadre n° IX.

Deuxièmement, le déposant peut choisir de déposer le listage des séquences ou les tableaux y relatifs *sous forme déchiffrable par ordinateur seulement*, en vertu de l'instruction 801.a)i) (“option b”), auquel cas la case b)i) ou b)ii) doit être cochée mais l'endroit réservé au nombre de feuilles du listage des séquences ou des tableaux, respectivement, sous le point a) doit être laissé en blanc; le type et le nombre de supports doivent également être indiqués sur les lignes pointillées en bas de la colonne de gauche. De plus, les cases n°s 9, 9.ii) ou 10.ii) et, le cas échéant, 9.iii) ou 10.iii), doivent être cochées si on joint des exemplaires supplémentaires du listage des séquences ou des tableaux sous forme déchiffrable par ordinateur.

computer readable form (together with the required statement) to the receiving Office with the international application, in which case check-boxes Nos. 10, 10(i) and, where applicable, 10(iii) must be marked. Where the applicant has chosen option (b) or option (c) mentioned above, and an additional copy or copies of the tables in computer readable form are required under Section 804, the applicant may furnish such additional copies together with the international application, in which case check-boxes Nos. 10, 10(ii) and, where applicable, 10(iii) must be marked. In all cases mentioned above, the applicant should indicate at the end of each applicable entry the type and number of diskettes, CD-ROMs, CD-Rs, or other data carriers furnished.

Language of Filing of the International Application (Rules 12.1(a) and 20.4(c) and (d)): With regard to the language in which the international application is filed, for the purposes of according an international filing date, it is, subject to the following sentence, sufficient that the description and the claims are in the language, or one of the languages, accepted by the receiving Office for the filing of international applications; that language should be indicated in that check-box (as regards the language of the abstract and any text matter in the drawings, see Rule 26.3ter(a) and (b); as regards the language of the request, see Rules 12.1(c) and 26.3ter(c) and (d)). Note that where the international application is filed with the United States Patent and Trademark Office as receiving Office, all elements of the international application (request, description, claims, abstract, text matter of drawings) must, for the purposes of according an international filing date, be in English except that the free text in any sequence listing part of the description, complying with the standard set out in Annex C of the Administrative Instructions, may be in a language other than English.

However, if the signature of one or more of the applicants is missing, the receiving Office will not invite the applicant to furnish the missing signature(s) provided that at least one of the applicants signed the request.

Important: Should a notice of withdrawal be filed at any time during the international phase, that notice will have to be signed by the applicant or, if there are two or more applicant's by all of them (Rule 90bis.5(a)), or by an agent or a common representative whose appointment has been effected by each applicant signing, at his choice, the request, the demand or a separate power of attorney (Rule 90.4(a)).

Furthermore, for the purposes of the national phase processing, each designated Office will be entitled to require the applicant to furnish the confirmation of the international application by the signature of any applicant for the designated State concerned, who has not signed the request.

Where the signature on the request is not that of the applicant but that of the agent, or the common representative, a separate power of attorney appointing the agent or the common representative, respectively, or a copy of a general power of attorney already in the possession of the receiving Office, must be furnished. If the power is not filed with the request, the receiving Office will invite the applicant to furnish it, unless it has waived the requirement for a separate power of attorney (for details about each receiving Office, see the *PCT Applicant's Guide*, Volume I/B, Annex C).

If an inventor/applicant for the designation of the United States of America refused to sign the request or could not be found or reached after diligent effort, a statement explaining the

lack of signature may be furnished. It should be noted that this applies only where there are two or more applicants and the international application has been signed by at least one other applicant. The statement must satisfy the receiving Office. If such a statement is furnished with the international application, check-box No. 5 in Box No. IX should be marked.

SUPPLEMENTAL BOX

The cases in which the Supplemental Box may be used and the manner of making indications in it are explained in the left column of that Box.

Items 2 and 3: Even if an indication is made in respect of items 2 and 3 under Rule 49bis.1(a), (b) or (d), the applicant will be required to make an indication to this effect upon entry into the national phase before the designated offices concerned.

If the applicant wishes to specify that the international application be treated in any designated State as an application for a utility model, see Notes to Box No. V.

GENERAL REMARKS

Language of Correspondence (Rule 92.2 and Section 104): Any letter from the applicant to the receiving Office must be in the language of filing of the international application provided that, where the international application is to be published in the language of a translation required under Rule 12.3, such letter should be in the language of that translation; however, the receiving Office may authorize the use of another language.

Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Any letter from the applicant to the ISA must be in the same language as the international application, provided that, where a translation of the international application for the purposes of international search has been transmitted under Rule 23.1(b), such letter is in the language of that translation. However, the ISA may authorize the use of another language.

Arrangement of Elements and Numbering of Sheets of the International Application (Rule 11.7 and Section 207): The elements of the international application must be placed in the following order: the request, the description (excluding the sequence listing part, if any), the claim(s), the abstract, the drawings (if any), the sequence listing part of the description (if any).

All sheets of the description (excluding the sequence listing part), claims and abstract must be numbered in consecutive Arabic numerals, which must be placed at the top or bottom of the sheet, in the middle, but not in the margin which must remain blank. The number of each sheet of the drawings must consist of two Arabic numerals separated by an oblique stroke, the first being the sheet number and the second being the total number of sheets of drawings (for example, 1/3, 2/3, 3/3). For numbering of the sheets of the sequence listing part of the description, see Section 207.

Indication of the Applicant's or Agent's File Reference on the sheets of the description (excluding the sequence listing part, if any), claim(s), abstract, drawings and sequence listing part of the description (Rule 11.6(f)): The file reference indicated on the request may also be indicated in the left-hand corner of the top margin, within 1.5 cm from the top of any sheet of the international application.

Troisièmement, le déposant peut choisir de déposer le listage des séquences ou les tableaux y relatifs *à la fois sous forme déchiffrable par ordinateur et sous forme papier*, en vertu de l'instruction 801.a)ii) ("option c"), auquel cas le nombre de feuilles (sous forme papier) du listage ou des tableaux, respectivement, doit être indiqué sous le point a) dans la colonne de gauche du cadre n° IX (bien que ce nombre de feuilles ne soient pas utilisés aux fins du calcul de la taxe internationale de dépôt) et la case c)i) ou c)ii), respectivement, doit être cochée; le type et le nombre de supports doivent également être indiqués sur les lignes pointillées en bas de la colonne de gauche. De plus, les cases n°s 9, 9.ii) ou 10.ii) et, le cas échéant, 9.iii) ou 10.iii), doivent être cochées si on joint des exemplaires supplémentaires du listage des séquences ou des tableaux sous forme déchiffrable par ordinateur.

Dans le cadre des trois options décrites ci-dessus, le listage des séquences doit être présenté dans une partie distincte de la description ("partie de la description réservée au listage des séquences") conformément à la norme figurant dans l'annexe C des instructions administratives. De même, les tableaux relatifs au listage des séquences doivent être présentés conformément à la norme figurant dans l'annexe C-*bis* des instructions administratives.

Éléments joints à la demande internationale : lorsque des éléments sont joints à la demande internationale, les cases appropriées doivent être cochées et toute indication pertinente doit être portée sur la ligne pointillée correspondante, le nombre de chacun de ces éléments devant être indiqué dans la colonne, en fin de ligne; on trouvera ci-après des explications détaillées concernant uniquement les éléments qui le nécessitent.

Case n° 4 : cocher cette case si la copie d'un pouvoir général est déposée avec la demande internationale; lorsque le pouvoir général a été déposé auprès de l'office récepteur, et que celui-ci lui a attribué un numéro de référence, ce dernier peut être indiqué.

Case n° 5 : cocher cette case si une explication de l'absence de signature d'un inventeur/déposant pour les États-Unis d'Amérique est fournie conjointement avec la demande internationale (voir aussi les notes du cadre n° X).

Case n° 7 : cocher cette case si une traduction de la demande internationale aux fins de la recherche internationale (règle 12.3) est fournie conjointement avec cette demande et indiquer la langue de la traduction.

Case n° 8 : cocher cette case si, avec la demande internationale, est déposé un formulaire PCT/RO/134 rempli ou une ou plusieurs feuilles séparées comportant des indications relatives à des micro-organismes ou autre matériel biologique déposés. Si le formulaire PCT/RO/134 ou toute autre feuille comportant les indications en question figurent en tant que feuilles de la description (comme le prescrivent certains États désignés (voir le *Guide du déposant du PCT*, volume I/B, annexe L), ne pas cocher cette case (pour de plus amples renseignements, voir la règle 13*bis* et l'instruction 209).

Case n° 9 : lorsque la demande internationale contient un listage des séquences et qu'une copie de ces derniers, sous forme déchiffrable par ordinateur, est requise par l'administration chargée de la recherche internationale en vertu de la règle 13*ter*, le déposant peut fournir, conjointement avec la demande internationale, le listage en question sous forme déchiffrable par ordinateur (ainsi que la déclaration requise) à l'office récepteur. Si tel est le cas, les cases n°s 9, 9.i) et, le cas échéant, 9.iii) doivent être cochées. Lorsque le déposant a choisi l'option b) ou l'option c) mentionnée ci-dessus, et qu'un ou plusieurs exemplaires supplémentaires du listage des séquences sont requis en vertu de l'instruction 804, le déposant peut remettre de tels exemplaires supplémentaires, conjointement avec la demande internationale, auquel cas les cases n°s 9, 9.ii) et, le cas échéant, 9.iii) doivent être cochées.

Dans tous les cas mentionnés ci-dessus, le déposant doit indiquer à la fin de chaque rubrique applicable le type et le nombre de disquettes, CD-ROM, CD-R ou autres supports de données qu'il a remis.

Case n° 10 : lorsque la demande internationale contient des tableaux relatifs au listage des séquences et qu'une copie de ces derniers, sous forme déchiffrable par ordinateur, est requise par l'administration chargée de la recherche internationale en vertu de l'instruction 802.b-*quater*), le déposant peut fournir, conjointement avec la demande internationale, les tableaux en question sous forme déchiffrable par ordinateur (ainsi que la déclaration requise) à l'office récepteur. Si tel est le cas, les cases n°s 10, 10.i) et, le cas échéant, 10.iii) doivent être cochées. Lorsque le déposant a choisi l'option b) ou l'option c) mentionnée ci-dessus, et qu'un ou plusieurs exemplaires supplémentaires des tableaux sous forme déchiffrable par ordinateur sont requis en vertu de l'instruction 804, le déposant peut remettre de tels exemplaires supplémentaires, conjointement avec la demande internationale, auquel cas les cases n°s 10, 10.ii) et, le cas échéant, 10.iii) doivent être cochées. Dans tous les cas mentionnés ci-dessus, le déposant doit indiquer à la fin de chaque rubrique applicable le type et le nombre de disquettes, CD-ROM, CD-R ou autres supports de données qu'il a remis.

Langue de dépôt de la demande internationale (règles 12.1.a) et 20.4.c) et d)) : en ce qui concerne la langue dans laquelle la demande internationale est déposée, il suffit, aux fins de l'attribution d'une date de dépôt international, et sous réserve de la phrase suivante, que la description et les revendications soient rédigées dans la langue ou l'une des langues acceptées par l'office récepteur pour le dépôt de demandes internationales; cette langue doit être indiquée dans cette case (en ce qui concerne la langue de l'abrégé et de tout texte des dessins, voir la règle 26.3*ter*.a) et b); en ce qui concerne la langue de la requête, voir les règles 12.1.c) et 26.3*ter*.c) et d)). On notera que, lorsque la demande internationale est déposée auprès de l'Office des brevets et des marques des États-Unis d'Amérique en sa qualité d'office récepteur, tous les éléments de la demande internationale (requête, description, revendications, abrégé, texte des dessins) doivent, aux fins de l'attribution d'une date de dépôt international, être rédigés en anglais, hormis tout texte libre contenu dans la partie de la description réservée au listage des séquences conforme à la norme figurant dans l'annexe C des instructions administratives, qui peut être rédigé dans une langue autre que l'anglais.

CADRE N° X

Signature (règles 4.1.d), 4.15, 26.2*bis*.a), 51*bis*.1.a)vi), 90 et 90*bis*.5) : la signature doit être celle du déposant; s'il y a plusieurs déposants, chacun d'eux doit signer. Cependant, si la signature de l'un ou de plusieurs des déposants manque, l'office récepteur n'invitera pas le déposant à remettre la ou les signatures manquantes, à condition qu'au moins un des déposants ait signé la requête.

Important : Toute déclaration de retrait déposée à un moment quelconque pendant la phase internationale doit être signée par le déposant, ou s'il y a plusieurs déposants par chacun d'eux (règle 90*bis*.5.a)), ou par le mandataire ou le représentant commun qui a été désigné par chaque déposant qui a signé, à son choix, la requête, la demande d'examen préliminaire international ou un pouvoir distinct (règle 90.4.a)).

De plus, aux fins du traitement pendant la phase nationale, chaque office désigné aura le droit d'exiger du déposant la confirmation de la demande internationale au moyen de la signature de tout déposant pour l'État désigné en question, qui n'a pas signé la requête.

*[There is no page 8 of the Notes
to the Request Form in English]*

Lorsque la signature figurant sur la requête n'est pas celle du déposant mais celle du mandataire ou du représentant commun, il faut fournir un pouvoir distinct désignant le mandataire ou le représentant commun, respectivement, ou une copie d'un pouvoir général déjà en possession de l'office récepteur. Si le pouvoir n'est pas fourni avec la requête, l'office récepteur invitera le déposant à le fournir à moins qu'il renonce à l'exigence selon laquelle un pouvoir distinct doit être remis (pour plus de détails en ce qui concerne chaque office récepteur, voir le *Guide du déposant du PCT*, volume I/B, annexe C).

Si les États-Unis d'Amérique sont désignés et qu'un déposant pour cet État qui a la qualité d'inventeur a refusé de signer la requête ou que des efforts diligents n'ont pas permis de le trouver ou d'entrer en rapport avec lui, il est possible de fournir une explication de l'absence de signature. Cela vaut uniquement lorsqu'il y a plusieurs déposants et que la demande internationale a été signée par au moins un autre déposant. L'explication doit être jugée satisfaisante par l'office récepteur. Si cette explication est remise conjointement avec la demande internationale, il y a lieu de cocher la case n° 5 du cadre n° IX.

CADRE SUPPLÉMENTAIRE

Les cas dans lesquels le cadre supplémentaire peut être utilisé et la manière de fournir les indications prévues dans ce cadre sont expliqués dans la colonne de gauche de celui-ci.

Points 2 et 3 : Même lorsqu'une indication est fournie en ce qui concerne les points 2 et 3 en vertu de la règle 49*bis*.1.a), b) ou d), il sera exigé du déposant qu'il fournisse toute indication à cet effet lors de l'ouverture de la phase nationale auprès des offices désignés considérés.

Si le déposant souhaite préciser que la demande internationale soit traitée dans tout État désigné comme une demande aux fins de l'obtention d'un modèle d'utilité, voir les notes relatives au cadre n° V.

REMARQUES GÉNÉRALES

Toute lettre du déposant à l'administration chargée de la recherche internationale doit être rédigée dans la même langue que la demande internationale étant entendu que, lorsqu'une traduction de la demande internationale aux fins de la recherche internationale a été transmise en vertu de la règle 23.1.b), cette lettre doit être rédigée dans la langue de cette traduction. Cependant, l'administration chargée de la recherche internationale peut autoriser l'emploi d'une autre langue.

Toutes les feuilles de la description (sauf la partie réservée au listage des séquences), les revendications et l'abrégé doivent être numérotés consécutivement, en chiffres arabes qui doivent être inscrits, en milieu de ligne, en haut ou en bas de la feuille mais non dans la marge, qui doit rester vierge. Le numéro de chaque feuille des dessins doit consister en deux nombres en chiffres arabes séparés par une barre oblique, le premier indiquant le numéro de la feuille et le second le nombre total des feuilles de dessins (par exemple : 1/3, 2/3, 3/3). Pour la numérotation des feuilles de la partie de la description réservée au listage des séquences, se référer à l'instruction 207.

Indication de la référence du dossier du déposant ou du mandataire sur les feuilles de la description (sauf la partie de la description réservée au listage des séquences, le cas échéant), de la ou des revendications, de l'abrégé, des dessins et de la partie de la description réservée au listage des séquences (règle 11.6.f) : la référence de dossier indiquée sur la requête peut l'être également sur chaque feuille de la demande internationale, dans le coin gauche de la marge du haut, sans toutefois apparaître au-delà de 1,5 cm à partir du haut.

NOTES TO THE FEE CALCULATION SHEET (ANNEX TO FORM PCT/RO/101)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete the sheet by entering the appropriate amounts in the boxes provided and submit the fee calculation sheet at the time of filing the international application. This will help the receiving Office to verify the calculations and to identify any error in them.

Information about the applicable fees payable can be obtained from the receiving Office. The amounts of the international filing and search fees may change due to currency fluctuations. Applicants are advised to check what are the latest applicable amounts. All fees, must be paid within one month from the date of receipt of the international application.

CALCULATION OF PRESCRIBED FEES

Box T: Transmittal Fee for the benefit of the receiving Office (Rule 14.1): The amount of the transmittal fee, if any, is fixed by the receiving Office. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box S: Search Fee for the benefit of the International Searching Authority (ISA) (Rule 16.1): The amount of the search fee is fixed by the ISA. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex D.

Where two or more ISAs are competent, the applicant must indicate his choice in the space provided for this purpose and pay the amount of the international search fee fixed by the ISA chosen. Information on the competent ISA and whether the applicant has a choice between two or more ISAs is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box I: International Filing Fee for the benefit of the International Bureau (Rule 15): The amount of the international filing fee is as set out in Swiss francs in the Schedule of Fees and the applicable amount of this fee in other currencies is as published in the *PCT Gazette* (Rule 15.2). Information about this fee is also contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Reduction of the International Filing Fee Where PCT-EASY Software Is Used: A fee reduction of 100 Swiss francs (or the equivalent in the currency in which the international filing fee is paid to the receiving Office) is available in certain cases where the PCT-EASY software is used to prepare the request, provided that the necessary conditions are met. For further details, see the *PCT Applicant's Guide*, Volume I/A, General Part, and Volume I/B, Annex C, as well as information published in the *PCT Gazette* and the *PCT Newsletter*. Since applicants using the PCT-EASY software will file the Request Form and Fee Calculation Sheet in the form of a printout prepared using that software, no provision is made for this fee reduction in the Fee Calculation Sheet annexed to Form PCT/RO/101.

Reduction of the International Filing Fee Where the International Application Is Filed in Electronic Form: The international filing fee is reduced by 200 Swiss francs (or the equivalent in the currency in which the international filing fee is paid to the receiving Office) if the international application is, in accordance with and to the extent provided for in Part 7 and Annex F of the Administrative Instructions, filed in electronic form where the text of the description, claims and abstract **is not** in character coded format, or by 300 Swiss francs (or the equivalent in the currency in which the international filing fee is paid to the receiving Office) where the international application is filed in electronic form where the text of the description, claims and abstract **is** in character coded format. For further details, see the *PCT Applicant's*

Guide, Volume I/A, General Part, and Volume I/B, Annex C, as well as information published in the *PCT Gazette* and the *PCT Newsletter*. Since international applications filed in electronic form will contain the Request Form and Fee Calculation Sheet in such electronic form, no provision is made for this fee reduction in the Fee Calculation Sheet annexed to Form PCT/RO/101.

Reduction of the International Filing Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) or an applicant, whether a natural person or not, who is a national of and resides in a State that is classed as a least developed country by the United Nations, is entitled, to a reduction of 75% of certain PCT fees including the international filing fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the international filing fee is automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Boxes Nos. II and III of the request.

The fee reduction is available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Information about PCT Contracting States whose nationals and residents are entitled to a reduction of 75% of certain PCT fees, including the international filing fee, is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C and on the WIPO Website (see <http://www.wipo.int/pct/en/index.html>), and is also published and regularly updated in the *PCT Gazette* and the *PCT Newsletter*.

Calculation of the International Filing Fee in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the international filing fee, the total to be entered in box I is 25% of the international filing fee (see below).

Box I: International Filing Fee: The amount of the international filing fee depends on the number of sheets of the international application indicated under item (a) of Box No. IX of the request as explained below.

That number is the **Total number of sheets** where items (b) and (c) of Box No. IX of the request do not apply (that is, where the international application either does not contain a sequence listing and/or tables related thereto or where it contains such listing and/or tables but not filed in computer readable form under Section 801(a)(i) or (ii)); in such a case, item "i3" must not be filled in.

NOTES RELATIVES A LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/RO/101)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre au moment du dépôt de la demande internationale, ce qui permettra à l'office récepteur de vérifier les calculs et d'y déceler d'éventuelles erreurs.

Des renseignements sur le montant en vigueur des taxes à payer peuvent être obtenus auprès de l'office récepteur. Les montants de la taxe internationale de dépôt et de la taxe de recherche peuvent varier en raison de fluctuations monétaires. Il est recommandé aux déposants de vérifier quels sont les tout derniers montants en vigueur. Toutes les taxes doivent être payées dans un délai d'un mois à compter de la date de réception de la demande internationale.

CALCUL DES TAXES PRESCRITES

Cadre T : Taxe de transmission au profit de l'office récepteur (règle 14.1) : l'office récepteur fixe le montant de la taxe de transmission, s'il y en a une. Celui-ci doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT*, volume I/B, annexe C.

Cadre S : Taxe de recherche au profit de l'administration chargée de la recherche internationale (règle 16.1) : le montant de la taxe de recherche est fixé par l'administration chargée de la recherche internationale. Il doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT*, volume I/B, annexe D.

Lorsque plusieurs administrations chargées de la recherche internationale sont compétentes, le déposant doit indiquer son choix à l'emplacement prévu à cet effet et payer le montant de la taxe de recherche internationale fixé par l'administration qu'il a choisie. Le *Guide du déposant du PCT*, volume I/B, annexe C, donne des renseignements sur l'administration chargée de la recherche internationale qui est compétente et sur la question de savoir si le déposant a le choix entre plusieurs administrations chargées de la recherche internationale.

Cadre I : Taxe internationale de dépôt au profit du Bureau international (règle 15) : Le montant de la taxe internationale de dépôt est fixé en francs suisses dans le barème de taxes et les montants correspondants de cette taxe dans d'autres monnaies sont publiés dans la *Gazette du PCT* (règle 15.2). On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT*, volume I/B, annexe C.

Réduction de la taxe internationale de dépôt dans le cas de l'utilisation du logiciel PCT-EASY : une réduction de 100 francs suisses (ou l'équivalent dans la monnaie dans laquelle la taxe internationale de dépôt est payée à l'office récepteur) peut être obtenue dans certains cas où le logiciel PCT-EASY est utilisé pour la préparation de la requête, à condition que les conditions nécessaires soient remplies. On peut trouver des précisions sur cette réduction dans le *Guide du déposant du PCT*, volume I/A, partie générale, et dans le volume I/B, annexe C, ainsi que dans les informations publiées dans la *Gazette du PCT* et le bulletin *PCT Newsletter*. Étant donné que les déposants qui utilisent le logiciel PCT-EASY déposeront le formulaire de requête et la feuille de calcul des taxes sous la forme d'un imprimé produit par ordinateur à l'aide de ce logiciel, la feuille de calcul des taxes annexée au formulaire PCT/RO/101 ne prévoit pas cette réduction de taxe.

Réduction de la taxe internationale de dépôt dans le cas où la demande internationale est déposée sous forme électronique : une réduction de 200 francs suisses (ou l'équivalent dans la monnaie dans laquelle la taxe internationale de dépôt est payée à l'office récepteur) peut être obtenue dans le cas où la demande internationale est, conformément à la septième partie et à l'annexe F des instructions administratives et dans la mesure prévue par celles-ci, déposée sous forme électronique lorsque le texte de la description, des revendications et de l'abrégé **n'est pas** en format à codage de caractères; ou une réduction de 300 francs suisses (ou l'équivalent dans la monnaie dans laquelle la taxe internationale de dépôt est payée à l'office récepteur) lorsque la demande internationale est déposée sous forme électronique dans le cas où le texte de la description, des revendications et de l'abrégé **est** en format à codage de caractères. On peut trouver des précisions sur cette réduction dans le *Guide du déposant du PCT*, volume I/A, partie générale, et volume I/B, annexe C, ainsi que dans les informations publiées dans la *Gazette du PCT* et dans le bulletin *PCT Newsletter*. Étant donné que les demandes internationales déposées sous forme électronique contiendront le formulaire de requête et la feuille de calcul des taxes sous forme électronique, la feuille de calcul des taxes annexée au formulaire PCT/RO/101 ne prévoit pas cette réduction de taxe.

Réduction de la taxe internationale de dépôt pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis, ou un déposant, qu'il soit ou non une personne physique qui est ressortissante d'un État, et est domiciliée dans un État qui est classé par l'Organisation des Nations Unies parmi les pays les moins avancés a droit à une réduction de 75 % de certaines taxes du PCT, dont la taxe internationale de dépôt. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe internationale de dépôt s'applique automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans les cadres n^{os} II et III de la requête.

La réduction de la taxe s'applique même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Otherwise, where items (b) and/or (c) of Box No. IX of the request apply (that is, where the international application contains a sequence listing and/or tables related thereto which are filed in computer readable form only, under Section 801(a)(i), or both in that form and in paper form under Section 801(a)(ii)), the number of sheets to be used for the purpose of calculating the amount of the international filing fee is the **Sub-total number of sheets**. In such a case, item "i3" must be filled in on the basis that the sequence listing and/or tables related thereto in computer readable form are considered to be equal to 400 sheets (see Section 803).

The international filing fee must be paid within one month from the date of receipt of the international application by the receiving Office.

Box P: Fee for Priority Document (Rule 17.1(b)): Where the applicant has requested, by marking the applicable check-box in Box No. VI of the request, that the receiving Office prepare and transmit to the International Bureau a certified copy of the earlier application the priority of which is claimed, the amount of the fee prescribed by the receiving Office for such service may be entered (for information, see the *PCT Applicant's Guide*, Volume I/B, Annex C).

If that fee is not paid at the latest before the expiration of 16 months from the priority date, the receiving Office may consider the request under Rule 17.1(b) as not having been made.

Total Box: The total of the amounts entered in boxes T, S, I and P should be entered in this box. If the applicant so wishes, the currency in which the fees are paid may be indicated next to or in the total box.

MODE OF PAYMENT

In order to help the receiving Office identify the mode of payment of the prescribed fees, it is recommended that the applicable check-box(es) be marked.

AUTHORIZATION TO CHARGE (OR CREDIT) DEPOSIT ACCOUNT

The receiving Office will not charge (or credit) fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

Des renseignements concernant les États contractants du PCT dont les ressortissants et les résidents ont droit à une réduction de 75% de certaines taxes du PCT, dont la taxe internationale de dépôt, figurent dans le *Guide du déposant du PCT*, volume I/B, annexe C, ainsi que sur le site Internet de l'OMPI à l'adresse suivante : <http://www.wipo.int/pct/fr/index.html>; ils sont également publiés et régulièrement mis à jour dans la *Gazette du PCT* et le bulletin *PCT Newsletter*.

Calcul de la taxe internationale de dépôt en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe internationale de dépôt, la somme devant figurer sous I représente 25 % de la taxe internationale de dépôt (voir ci-après).

Cadre I : Taxe internationale de dépôt. Le montant de la taxe internationale de dépôt est fonction du nombre de feuilles de la demande internationale indiqué au point a) du cadre n° IX de la requête, comme expliqué ci-dessous.

Ce nombre est le **nombre total de feuilles** lorsque les points b) et c) du cadre n° IX de la requête ne s'appliquent pas (c'est-à-dire, si la demande internationale ne contient pas de listage des séquences ou de tableaux y relatifs ou qu'elle en contient mais que ces derniers ne sont pas déposés sous forme déchiffrable par ordinateur en vertu de l'instruction 801.a)i) ou ii)); dans ce cas, le point "i3" ne doit pas être rempli.

Sinon, lorsque les points b) ou c) du cadre n° IX de la requête s'appliquent (c'est-à-dire, si la demande internationale contient un listage des séquences ou des tableaux y relatifs qui sont déposés sous forme déchiffrable par ordinateur seulement, en vertu de l'instruction 801.a)i), ou à la fois sous cette forme et sous forme papier en vertu de l'instruction 801.a)ii)), le nombre de feuilles à utiliser pour le calcul du montant de la taxe internationale de dépôt est le **sous-total des feuilles**. Dans un tel cas, le point "i3" doit être rempli étant entendu que le listage des séquences ou les tableaux y relatifs sous forme déchiffrable par ordinateur sont considérés comporter 400 pages (voir l'instruction 803).

La taxe internationale de dépôt doit être payée dans un délai d'un mois à compter de la date de réception de la demande internationale par l'office récepteur.

Cadre P : Taxe afférente au document de priorité (règle 17.1.b)) : si, en cochant la case appropriée dans le cadre n° VI de la requête, le déposant a demandé que l'office récepteur prépare et transmette au Bureau international une copie certifiée conforme de la demande antérieure dont la priorité est revendiquée, il peut indiquer le montant de la taxe prescrite par l'office récepteur pour ce service (pour plus de renseignements, voir le *Guide du déposant du PCT*, volume I/B, annexe C).

Si cette taxe n'est pas payée au plus tard avant l'expiration d'un délai de 16 mois à compter de la date de priorité, l'office récepteur peut considérer la requête selon la règle 17.1.b) comme n'ayant pas été présentée.

Cadre "Total" : le total des montants inscrits dans les cadres T, S, I et P doit être porté dans ce cadre. Le déposant peut, s'il le souhaite, indiquer à proximité ou à l'intérieur du cadre "Total" la monnaie dans laquelle il paie les taxes.

MODE DE PAIEMENT

Pour aider l'office récepteur à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

L'office récepteur ne débitera (ou ne créditera) un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.

NOTES TO THE DEMAND FORM (PCT/IPEA/401)

These Notes are intended to facilitate the filling in of the demand form and to give some information concerning international preliminary examination under Chapter II of the Patent Cooperation Treaty (PCT). For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the PCT, the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the demand form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with dark ink (Rules 11.9(a) and (b) and 11.14).

The demand form and these Notes may be downloaded from WIPO's Website at the address given above.

IMPORTANT GENERAL INFORMATION

Who May File a Demand? (Article 31(2)(a) and Rule 54): A demand (for international preliminary examination) may only be filed by an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II of the PCT; furthermore, the international application must have been filed with a receiving Office of, or acting for, a State bound by Chapter II. Where there are two or more applicants (for the same or different elected States) at least one of them must qualify.

Where Must the Demand Be Filed? (Article 31(6)(a)): The demand must be filed with a competent International Preliminary Examining Authority (IPEA). The receiving Office with which the international application was filed will, upon request, give information about the competent IPEA (or see the *PCT Applicant's Guide*, Volume I/B, Annex C). If several IPEAs are competent, the applicant has the choice and the demand must be filed with (and the fees must be paid to) the IPEA chosen by the applicant. The IPEA chosen by the applicant may be identified, preferably by an indication of the name or two-letter code of the IPEA, at the top of the first sheet of the demand in the space provided for that purpose.

When Must the Demand Be Filed? (Article 39(1) and Rule 54*bis*.1): As long as certain designated Offices are still not bound by the 30-month time limit under Article 22 for entry into the national phase, the demand—because it contains the required election of designated States—must be filed within 19 months from the priority date if the applicant wishes to postpone entry into the national phase from 20 to 30 months from the priority date in respect of those designated Offices. For updated information about those Offices, see the *PCT Applicant's Guide*, Volume II, National Chapters, Summaries, available on the WIPO Website at the address indicated above. It is recalled that the time limit of 30 months from the priority date applies to all other designated Offices regardless of whether or not a demand is filed.

If the applicant wishes to file a demand, but not because of the reason explained above, the applicable time limit for filing such demand is three months from the date of transmittal of the international search report or of the declaration referred to in Article 17(2)(a), and the written opinion established by the International Searching Authority or 22 months from the priority date, whichever expires later (see Rule 54*bis*.1(a)).

Any demand made after the expiration of the applicable time limit will be considered as if it had not been submitted and the IPEA shall so declare.

In Which Language Must the Demand Be Filed? (Rule 55.1): The demand must be filed in the language in which international preliminary examination will be carried out (see Notes to Box No. IV).

What is the Language of Correspondence? (Rules 66.9 and 92.2 and Section 104): Any letter from the applicant to the IPEA must be in the same language as the international application to which it relates. However, where the international preliminary examination will be carried out on the basis of a translation (see Notes to Box No. IV), any letter from the applicant to the IPEA must be in the language of the translation. The IPEA may authorize the use of other languages for letters which do not contain or relate to amendments of the international application. Any letter from the applicant to the International Bureau must be in English or French, at the choice of the applicant. However, if the language of the international application is English, the letter must be in English; if the language of the international application is French, the letter must be in French.

BOX No. I

Applicant's or Agent's File Reference: A file reference may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded (Section 109).

Identification of the International Application (Rule 53.6): The international application number must be indicated in Box No. I. Where the demand is filed at a time when the international application number has not yet been notified by the receiving Office, the name of that Office must be indicated instead of the international application number.

International Filing Date and (Earliest) Priority Date (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals each for the number of the day and for the number of the month followed by the number of the year, in that order, and separated by periods, slants or hyphens, for example, "20 March 2004 (20.03.2004)", "20 March 2004 (20/03/2004)" or "20 March 2004 (20-03-2004)". Where the international application claims the priority of several earlier applications, the filing date of the earliest application whose priority is claimed must be indicated as the priority date.

RENSEIGNEMENTS IMPORTANTS D'ORDRE GÉNÉRAL

Qui peut présenter une demande d'examen préliminaire international ? (article 31.2)a) et règle 54) : une demande d'examen préliminaire international ne peut être présentée que par un déposant qui est ressortissant d'un État contractant lié par le chapitre II du PCT ou qui a son domicile dans un tel État; en outre, la demande internationale doit avoir été déposée auprès de l'office récepteur d'un État lié par le chapitre II, ou agissant pour un tel État. S'il y a plusieurs déposants (pour les mêmes États élus ou pour des États élus différents), au moins l'un d'entre eux doit remplir les conditions requises.

Où la demande d'examen préliminaire international doit-elle être présentée ? (article 31.6)a) : la demande d'examen préliminaire international doit être présentée à une administration chargée de l'examen préliminaire international (IPEA) compétente. L'office récepteur auprès duquel la demande internationale a été déposée donnera, sur demande, des renseignements au sujet de l'administration chargée de l'examen préliminaire international qui est compétente (voir aussi le *Guide du déposant du PCT*, volume I/B, annexe C). Si plusieurs administrations chargées de l'examen préliminaire international sont compétentes, le déposant doit présenter la demande d'examen préliminaire international à l'administration de son choix (et lui payer les taxes). Cette administration peut être indiquée, de préférence au moyen de son nom ou de son code à deux lettres, en haut de la première feuille de la demande d'examen préliminaire international, dans l'espace prévu à cet effet.

Quand la demande d'examen préliminaire international doit-elle être présentée ? (article 39.1) et règle 54bis.1) : tant que certains offices désignés ne sont toujours pas liés par le délai de 30 mois en vertu de l'article 22 relatif à l'ouverture de la phase nationale, la demande d'examen préliminaire international – parce qu'elle contient l'élection requise d'États désignés – doit être présentée dans un délai de 19 mois à compter de la date de priorité si le déposant souhaite reporter l'ouverture de la phase nationale de 20 à 30 mois à compter de la date de priorité auprès de ces offices désignés. Pour avoir plus de renseignements sur ces offices, voir le *Guide du déposant du PCT*, volume II, chapitres nationaux, résumés, disponibles sur le site Internet de l'OMPI à l'adresse indiquée plus haut. Il est rappelé que le délai de 30 mois à compter de la date de priorité s'applique à tous les autres offices désignés qu'une demande d'examen préliminaire international soit présentée ou non.

Si le déposant souhaite présenter une demande d'examen préliminaire international, mais pas pour la raison exposée ci-

dessus, le délai applicable pour la présentation d'une telle demande d'examen est de trois mois à compter de la date de la transmission du rapport de recherche internationale ou de la déclaration visée à l'article 17.2)a), et de l'opinion écrite établie par l'administration chargée de la recherche internationale, ou de 22 mois à compter de la date de priorité, le délai expirant en dernier étant applicable (voir la règle 54bis.1.a)).

Toute demande d'examen préliminaire international présentée après l'expiration du délai applicable sera considérée comme n'ayant pas été présentée et l'administration chargée de l'examen préliminaire international le déclarera.

En quelle langue la demande d'examen préliminaire international doit-elle être présentée ? (règle 55.1) : la demande d'examen doit être présentée dans la langue dans laquelle l'examen préliminaire international sera effectué (voir les notes relatives au cadre n° IV).

Quelle est la langue à utiliser dans la correspondance ? (règles 66.9 et 92.2 et instruction 104) : toute lettre adressée par le déposant à l'administration chargée de l'examen préliminaire international doit être rédigée dans la même langue que la demande internationale qu'elle concerne. Cependant, lorsque l'examen préliminaire international doit être effectué sur la base d'une traduction (voir les notes relatives au cadre n° IV), toute lettre adressée par le déposant à l'administration chargée de cet examen doit être rédigée dans la langue de la traduction. L'administration chargée de l'examen peut autoriser l'utilisation d'autres langues pour des lettres qui ne contiennent pas de modifications de la demande internationale ou qui ne se rapportent pas à des modifications. Toute lettre adressée par le déposant au Bureau international doit être rédigée en anglais ou en français, au choix du déposant. Toutefois, si la langue de la demande internationale est l'anglais, la lettre doit être rédigée en anglais; si la langue de la demande internationale est le français, la lettre doit être rédigée en français.

CADRE N° I

Référence du dossier du déposant ou du mandataire : il est possible d'indiquer, à titre facultatif, une telle référence de dossier. Celle-ci ne devrait pas dépasser 12 caractères. L'administration chargée de l'examen préliminaire international peut ne pas tenir compte des caractères en sus du douzième (instruction 109).

Identification de la demande internationale (règle 53.6) : le numéro de la demande internationale doit être indiqué dans le cadre n° I. Si la demande d'examen préliminaire international

Title of the Invention: If a new title has been established by the International Searching Authority, that title must be indicated in Box No. I.

BOX No. II

Applicant(s) (Rule 53.4): All the applicants for the elected States must be indicated in the demand. It should be noted that the persons named as “inventor only” in the request need not be named in the demand.

Make in Box No. II of the demand the required indications as appearing in Boxes Nos. II and III of the request. The Notes to the request apply *mutatis mutandis*. If there are two or more applicants for the States elected in the demand, give the required indications for each of them; if there are more than three applicants, make the required indications on the “Continuation Sheet”.

If different applicants were indicated in the request for different designated States, there is no need to again indicate in the demand the States for which a person is applicant, because those indications have been made in the request.

Applicant’s registration number with the Office (Rule 53.4): Where the applicant is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the applicant is so registered.

BOX No. III

Agent or Common Representative (Rules 53.5, 90.1 and 90.2): Mark the applicable check-boxes to indicate *first* whether the person named in this Box is agent or common representative, *then* whether that person *has been appointed earlier* (i.e., during the procedure under Chapter I), or *is appointed in the demand* and any earlier appointment of another person is revoked, or *is appointed specifically for the procedure before the IPEA* (without revocation of any earlier appointment), in addition to the person(s) appointed earlier.

Where an additional person is appointed specifically for the procedure before the IPEA, all notifications issued by the IPEA will be addressed only to that additional person.

A separate power of attorney must be filed with the IPEA, the International Bureau or the receiving Office, if the person appointed at the time the demand is filed (i.e., was not appointed earlier) signs the demand on behalf of the applicant (Rule 90.4). However, the receiving Office, the International Bureau or the IPEA may waive the requirement that a separate power of attorney be filed. For details, see the *PCT Applicant’s Guide*, Volume I/A, Annex B2(IB), and Volume I/B, Annexes C and E.

Agent’s registration number with the Office (Rule 53.5): Where the agent is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. III will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address may be indicated in Box No. III instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. III must be marked (that is, the last check-box must not be marked if either of the check-boxes “agent” or “common representative” in Box No. III has been marked).

BOX No. IV

Statement Concerning Amendments (Rules 53.2(a)(v), 53.9, 62, 66.1 and 69.1): The international preliminary examination will start on the basis of the international application as filed or, if amendments have been filed, as amended. Mark the appropriate check-box(es) to enable the IPEA to determine when and on what basis it can start international preliminary examination.

Mark the corresponding check-box(es) under No. 1 where the international preliminary examination should start on the basis of the international application as originally filed or where amendments are to be taken into account, as the case may be. Where amendments are to be taken into account, the applicant must submit *with the demand* a copy of amendments to the claims under Article 19 (Rule 53.9(a)(i)) and/or the amendments of the international application under Article 34 (Rule 53.9(c)), as the case may be. If a check-box is marked but the demand is not accompanied by the documents referred to, the start of international preliminary examination will be delayed until the IPEA receives them.

Mark check-box No. 2 if amendments of the claims under Article 19 have been filed with the International Bureau during the Chapter I procedure, but the applicant wishes those amendments to be considered reversed by an amendment under Article 34 (Rule 53.9(a)(ii)).

Mark check-box No. 3 where the time limit for filing amendments of the claims under Article 19 has not expired at the time the demand is filed and the applicant wants to keep the option for the filing of such amendments open; the IPEA is thus requested to postpone the start of international preliminary examination (Rules 53.9(b) and 69.1(d)). It should be noted that the examination will start in any event after the expiration of the applicable time limit under Rule 54bis.1(a) even where the time limit for filing amendments has not yet expired or no amendments have been received by the IPEA.

Mark check-box No. 4 if the applicant wishes that the international preliminary examination start earlier than at the expiration of the applicable time limit under Rule 54bis.1(a).

Where the ISA and IPEA are not the same Authority, examination will not commence until the IPEA is in possession of the international search report, or a notice of the declaration under Article 17(2)(a) and the written opinion established by the ISA.

The applicable time limit under Rule 54bis.1(a) is three months from the date of transmittal of the international search report or of the declaration referred to in Article 17(2)(a), and the written opinion established by the International Searching Authority, or 22 months from the priority date, whichever expires later.

est présentée alors même que le numéro de la demande internationale n'a pas encore été notifié par l'office récepteur, le nom de cet office doit être indiqué en lieu et place du numéro de la demande internationale.

Date du dépôt international et date de priorité (la plus ancienne) (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, comme suit : quantième et mois en numéros à deux chiffres arabes, puis l'année en quatre chiffres, le quantième et le mois étant suivis d'un point, d'une barre oblique ou d'un tiret (par exemple : "20 mars 2004 (20.03.2004)", "20 mars 2004 (20/03/2004)" ou "20 mars 2004 (20-03-2004)"). Lorsque la demande internationale revendique la priorité de plusieurs demandes antérieures, la date de dépôt de la plus ancienne demande dont la priorité est revendiquée doit être indiquée en tant que date de priorité.

Titre de l'invention : si l'administration chargée de la recherche internationale a établi un nouveau titre, celui-ci doit être indiqué dans le cadre n° I.

CADRE N° II

Déposant(s) (règle 53.4) : tous les déposants qui ont cette qualité pour les États élus doivent être mentionnés dans la demande d'examen préliminaire international. Il est à noter que les personnes mentionnées dans la requête comme "inventeur seulement" n'ont pas à être mentionnées dans la demande d'examen préliminaire international.

Reprendre dans le cadre n° II de la demande d'examen préliminaire international les indications requises figurant dans les cadres n°s II et III de la requête. Les notes relatives à la requête s'appliquent *mutatis mutandis*. S'il y a pluralité de déposants pour les États élus dans la demande d'examen préliminaire international, fournir les indications requises sur chacun d'eux; si ces déposants sont plus de trois, porter les indications en question sur une "feuille annexe".

Si, dans la requête, des déposants différents ont été indiqués pour différents États désignés, il n'y a pas lieu d'indiquer à nouveau dans la demande d'examen les États pour lesquels une personne est mentionnée comme déposant, car ces indications ont été fournies dans la requête.

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 53.4) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

CADRE N° III

Mandataire ou représentant commun (règles 53.5, 90.1 et 90.2) : cocher les cases appropriées afin d'indiquer, *premièrement*, si la personne indiquée dans le cadre n° III est mandataire ou représentant commun, *deuxièmement*, si cette personne a été désignée à une date antérieure (c'est-à-dire au cours de la procédure prévue au chapitre I), est désignée dans la demande d'examen préliminaire international (toute désignation antérieure d'une autre personne étant révoquée) ou est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international (sans qu'il y ait révocation d'une désignation antérieure) en sus de la ou des personnes désignées antérieurement.

Lorsqu'une personne supplémentaire est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international, toute la correspondance

émanant de cette administration sera adressée seulement à cette personne supplémentaire.

Un pouvoir distinct doit être déposé auprès de l'administration chargée de l'examen préliminaire international, du Bureau international ou de l'office récepteur si la personne qui est désignée au moment de la présentation de la demande d'examen préliminaire international (et qui n'a donc pas été désignée antérieurement) signe cette demande d'examen au nom du déposant (règle 90.4). Toutefois, l'office récepteur, le Bureau international ou l'administration chargée de l'examen préliminaire international peut renoncer à exiger qu'un pouvoir distinct soit remis. Pour plus de renseignements, voir le *Guide du déposant du PCT*, volume I/A, annexe B2(1B), et volume I/B, annexes C et E.

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 53.5) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° III sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, il est possible d'indiquer cette adresse dans le cadre n° III, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas et seulement dans ce cas qu'il y a lieu de cocher la dernière case du cadre n° III (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° IV

Déclaration concernant les modifications (règles 53.2.a)v, 53.9, 62, 66.1 et 69.1) : l'examen préliminaire international commencera sur la base de la demande internationale telle qu'elle a été déposée ou, si des modifications ont été déposées, telle qu'elle a été modifiée. Cocher la ou les cases appropriées pour permettre à l'administration chargée de l'examen préliminaire international de déterminer si elle peut commencer l'examen préliminaire international et sur quelle base.

Cocher la ou les cases appropriées de la rubrique n° 1 pour indiquer si l'examen préliminaire international doit commencer sur la base de la demande internationale telle qu'elle a été déposée ou s'il doit être tenu compte de modifications, selon le cas. S'il y a des modifications à prendre en compte, le déposant doit présenter avec la demande d'examen préliminaire internationale une copie des modifications apportées aux revendications en vertu de l'article 19 (règle 53.9.a)i) ou des modifications apportées à la demande internationale en vertu de l'article 34 (règle 53.9.c)), ou une copie des deux types de modifications, selon le cas. Si une case est cochée et que les documents correspondants ne sont pas joints à la demande d'examen préliminaire international, le commencement de cet examen sera différé jusqu'à ce que l'administration qui en est chargée les reçoive.

If no check-box is marked, refer to the footnote at the bottom of the Box.

Language for the Purposes of International Preliminary Examination (Rule 55.2): Where neither the language in which the international application is filed nor the language in which the international application is published is accepted by the IPEA that is to carry out the international preliminary examination, the applicant must furnish with the demand a translation of the international application into a language which is both a language accepted by that Authority and a language of publication.

Where such translation has already been furnished to the International Searching Authority for the purposes of carrying out international search and the IPEA is part of the same Office or intergovernmental organization as the International Searching Authority, the applicant need not furnish another translation. In such a case the international preliminary examination is carried out on the basis of the translation furnished for the purposes of international search.

The language for the purposes of international preliminary examination should be indicated in Box No. IV, on the dotted line, and the corresponding check-box should be marked.

Language of Amendments (Rules 55.3 and 66.9): Amendments and letters relating thereto must be in the same language as that in which the international preliminary examination is carried out, as explained in the preceding paragraphs.

Time Limit for Furnishing Translation of the International Application (Rule 55.2): Any required translation of the international application should be furnished (by the applicant) together with the demand. If it is not so furnished, the IPEA will invite the applicant to furnish it within a time limit which shall not be less than one month from the date of the invitation. That time limit may be extended by the IPEA.

BOX No. V

Election of States (Rule 53.7): The making of a demand shall constitute the election of all States which have been designated and which are bound by Chapter II of the PCT.

BOX No. VI

Check List: It is recommended that this Box be filled in carefully in order for the IPEA to determine as soon as possible whether it is in possession of the documents on the basis of which the applicant wishes international preliminary examination to start.

Where the international application contains disclosure of one or more nucleotide and/or amino acid sequences, and a copy of the sequence listing in computer readable form complying with the standard provided for in the Administrative Instructions is required by the IPEA, the applicant may furnish the listing in computer readable form to the IPEA with the demand. If this is the case, check-box No. 6 must be marked.

Similarly, where such an application contains tables related to the sequence listing, and a copy of the tables in computer readable form complying with the standard provided for in the Administrative Instructions is required by the IPEA, the applicant may furnish the tables in computer readable form to the IPEA with the demand. If this is the case, check-box No. 7 must be marked.

BOX No. VII

Signature (Rules 53.8, 60.1(a-ter), 90.3(a) and 90.4(a) and (d)): The demand must be signed by the applicant or by his agent; if there are several applicants, the demand must be signed by all of them, or by the common agent or the common representative of all of them. However, if the signature(s) of one or more applicants is missing, the IPEA will not invite the applicants to furnish the missing signature(s) provided that at least one of the applicants has signed the demand.

Important: Should a notice of withdrawal be filed at any time during the international phase, that notice will have to be signed by the applicant or, if there are two or more applicant's by all of them (Rule 90bis.5(a)), or by an agent or a common representative whose appointment has been effected by each applicant signing, at his choice, the request, the demand or a separate power of attorney (Rule 90.4(a)).

Cocher la case n° 2 si des modifications apportées aux revendications en vertu de l'article 19 ont été déposées auprès du Bureau international lors de la procédure prévue au chapitre I, mais que le déposant souhaite que les modifications soient considérées comme écartées par une modification selon l'article 34.

Cocher la case n° 3 si le délai fixé pour le dépôt de modifications des revendications en vertu de l'article 19 n'a pas expiré au moment où la demande d'examen préliminaire international est présentée et que le déposant veut conserver la possibilité de déposer de telles modifications; il est ainsi demandé à l'administration chargée de l'examen préliminaire international de différer le commencement de cet examen (règles 53.9.b) et 69.1.d)). Il convient de noter que l'examen commencera, en tout état de cause, après l'expiration du délai applicable en vertu de la règle 54bis.1.a), même si le délai pour déposer des modifications n'a pas encore expiré ou que l'administration chargée de l'examen préliminaire international n'a reçu aucune modification.

Cocher la case n° 4 si le déposant souhaite que l'examen préliminaire international soit entrepris avant l'expiration du délai applicable en vertu de la règle 54bis.1.a).

Lorsque l'administration chargée de l'examen préliminaire international est différente de l'administration chargée de la recherche internationale, l'examen préliminaire international ne commencera pas avant que l'administration qui en est chargée ne reçoive le rapport de recherche internationale ou la déclaration en vertu de l'article 17.2.a), et l'opinion écrite établie par l'administration chargée de la recherche internationale.

Le délai applicable en vertu de la règle 54bis.1.a) est de trois mois à compter de la date de la transmission du rapport de recherche internationale, ou de la déclaration visée à l'article 17.2)a), et de l'opinion écrite établie par l'administration chargée de la recherche internationale, ou de 22 mois à compter de la date de priorité, le délai expirant en dernier étant applicable.

Si aucune case n'est cochée, la procédure décrite dans la note figurant au bas du cadre sera suivie.

Langue aux fins de l'examen préliminaire international (règle 55.2) : lorsque ni la langue dans laquelle la demande internationale est déposée ni la langue dans laquelle elle est publiée n'est acceptée par l'administration chargée de l'examen préliminaire international qui est chargée d'effectuer cet examen, le déposant doit remettre avec la demande d'examen préliminaire international une traduction de la demande internationale dans une langue qui est à la fois une langue acceptée par cette administration et une langue de publication.

Lorsqu'une traduction répondant à ces critères a déjà été remise à l'administration chargée de la recherche internationale pour les besoins de cette recherche et que l'administration chargée de l'examen préliminaire international fait partie du même office ou de la même organisation intergouvernementale que l'administration chargée de la recherche internationale, il n'est pas nécessaire pour le déposant de remettre une autre traduction. Dans ce cas, l'examen préliminaire international est effectué sur la base de la traduction remise aux fins de la recherche internationale.

La langue dans laquelle sera effectué l'examen préliminaire international doit être indiquée dans le cadre n° IV sur la ligne pointillée, et la case appropriée la concernant doit être cochée.

Langue des modifications (règles 55.3 et 66.9) : les modifications et les lettres qui s'y rapportent doivent être rédigées dans la langue dans laquelle l'examen préliminaire international sera effectué, comme il est expliqué aux paragraphes précédents.

Délai imparti pour remettre une traduction de la demande internationale (règle 55.2) : toute traduction de la demande internationale qui est exigée doit être remise (par le déposant) en même temps que la demande d'examen préliminaire international. Si la traduction n'est pas remise en même temps, l'administration chargée de l'examen préliminaire international invitera le déposant à remettre cette traduction dans un délai qui sera d'au moins un mois à compter de la date de l'invitation. Ce délai peut être prorogé par l'administration chargée de l'examen préliminaire international.

CADRE N° V

Élection d'États (règle 53.7) : la présentation d'une demande d'examen préliminaire international vaut élection de tous les États contractants désignés qui sont liés par le chapitre II du PCT.

CADRE N° VI

Bordereau : il est recommandé de remplir soigneusement ce cadre pour que l'administration chargée de l'examen préliminaire international puisse déterminer le plus rapidement possible si elle est en possession de la ou des modifications ou de la ou des lettres sur la base desquelles le déposant souhaite que l'examen préliminaire international commence.

Lorsque la demande internationale contient la divulgation d'une ou plusieurs séquences de nucléotides ou d'acides aminés, et qu'une copie du listage des séquences sous forme déchiffrable par ordinateur, conforme à la norme figurant dans les instructions administratives, est requise par l'administration chargée de l'examen préliminaire international, le déposant peut fournir à cette administration, conjointement avec la demande d'examen préliminaire international, le listage en question sous une forme déchiffrable par ordinateur. S'il le fait, la case n° 6 doit être cochée.

De la même manière, lorsque la demande internationale contient des tableaux relatifs au listage des séquences et qu'une copie des tableaux sous forme déchiffrable par ordinateur, conforme à la norme figurant dans les instructions administratives, est requise par l'administration chargée de l'examen préliminaire international, le déposant peut fournir à cette administration, conjointement avec la demande d'examen préliminaire international, les tableaux en question sous une forme déchiffrable par ordinateur. S'il le fait, la case n° 7 doit être cochée.

CADRE N° VII

Signature (règles 53.8, 60.1.a-ter), 90.3.a) et 90.4.a) et d)) : la demande d'examen préliminaire international doit être signée par le déposant ou par son mandataire; s'il y a plusieurs déposants, la demande d'examen préliminaire international doit être signée par chacun d'eux ou par leur mandataire commun ou leur représentant commun. Toutefois, si la signature de l'un ou de plusieurs des déposants fait défaut, l'administration chargée de l'examen préliminaire n'invitera pas les déposants à lui fournir la ou les signatures manquantes, sous réserve qu'au moins l'un d'entre eux ait signée la demande d'examen.

Important : Toute déclaration de retrait présentée à n'importe quel moment pendant la phase internationale doit être signée par le déposant, ou s'il y a plusieurs déposants, par chacun d'eux (règle 90bis.5.a)) ou par le mandataire ou le représentant commun qui a été désigné par chaque déposant qui a signé, à son choix, la requête, la demande d'examen préliminaire international ou un pouvoir distinct (règle 90.4.a)).

NOTES TO THE FEE CALCULATION SHEET (ANNEX TO FORM PCT/IPEA/401)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete, by entering the appropriate amounts in the boxes provided, and submit the fee calculation sheet at the time of filing of the demand. This will help the International Preliminary Examining Authority (IPEA) to verify the calculations and to identify any error in them.

CALCULATION OF PRESCRIBED FEES

Two fees must be paid for international preliminary examination:

- (i) the preliminary examination fee for the benefit of the IPEA (Rule 58.1);
- (ii) the handling fee for the benefit of the International Bureau (Rule 57).

Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The amount payable is the amount applicable on the date of submittal (Rules 57.3 and 58.1(b)). The fees must be paid in a currency acceptable to the IPEA.

Information about the amount of those fees or about equivalent amounts in other currencies can be obtained from the IPEA or the receiving Office. This information is also published in the *PCT Applicant's Guide*, Volume I/B, Annex E, and from time to time in Section IV of the *PCT Gazette*.

Box P: The amount of the preliminary examination fee must be entered in Box P.

Box H: The amount of the handling fee must be entered in Box H.

Reduction of the Handling Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) or an applicant, whether a natural person or not, who is a national of and resides in a State that is classed as a least developed country by the United Nations, is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the handling fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the handling fee will be automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Box No. II of the demand.

The fee reduction will be available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Information about PCT Contracting States whose nationals and residents are entitled to a reduction of 75% of certain PCT fees, including the handling fee, is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C and on the WIPO Website (see <http://www.wipo.int/pct/en/index.html>), and is also published and regularly updated in the *PCT Gazette* and the *PCT Newsletter*.

Calculation of the Handling Fee in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the handling fee, the total to be entered at Box H is 25% of the handling fee.

Total Box: The total of the amounts inserted in Boxes P and H is the amount which must be paid to the IPEA.

MODE OF PAYMENT

In order to help the IPEA identify the mode of payment of the prescribed fees, it is recommended to mark the applicable check-box(es).

AUTHORIZATION TO CHARGE (OR CREDIT) DEPOSIT ACCOUNT

The applicant should check whether the IPEA allows the use of deposit accounts for payment of PCT fees. In addition, it is recommended that the applicant check what are the specific conditions applicable to the use of deposit accounts with the IPEA since not all IPEAs provide the same services.

Finally, if the IPEA is not the same national Office or intergovernmental organization as that with which the international application was filed, the deposit account with the receiving Office cannot be charged for the purpose of paying the preliminary examination and handling fees due to the IPEA.

The IPEA will not charge fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

NOTES RELATIVES À LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/IPEA/401)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre à la demande d'examen préliminaire international. Cela aidera l'administration chargée de l'examen préliminaire international (IPEA) à vérifier les calculs et à y déceler d'éventuelles erreurs.

CALCUL DES TAXES PRESCRITES

L'examen préliminaire international donne lieu au paiement de deux taxes :

- i) la taxe d'examen préliminaire, au profit de l'administration chargée de l'examen préliminaire international (règle 58.1);
- ii) la taxe de traitement, au profit du Bureau international (règle 57).

Ces deux taxes doivent être payées à l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date à laquelle la demande d'examen préliminaire international est présentée. Le montant dû est le montant applicable à la date de présentation de cette demande d'examen (règles 57.3 et 58.1.b)). Les taxes doivent être payées dans une monnaie que l'administration chargée de l'examen préliminaire international accepte.

Des renseignements au sujet du montant de ces taxes ou de leur contre-valeur en d'autres monnaies peuvent être obtenus auprès de l'administration chargée de l'examen préliminaire international ou de l'office récepteur. Ces renseignements figurent également dans le *Guide du déposant du PCT*, volume I/B, annexe E, et sont aussi publiés périodiquement dans la section IV de la *Gazette du PCT*.

Cadre P : le montant de la taxe d'examen préliminaire doit être inscrit dans le cadre P.

Cadre H : le montant de la taxe de traitement doit être inscrit dans le cadre H.

Réduction de la taxe de traitement pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis, ou un déposant, qu'il soit ou non une personne physique qui est ressortissante d'un État, et est domiciliée dans un État qui est classé par l'Organisation des Nations Unies parmi les pays les moins avancés a droit, conformément au barème de taxes, à une réduction de 75% de certaines taxes du PCT, dont la taxe de traitement. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe de traitement s'appliquera automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans le cadre n° II de la demande d'examen préliminaire international.

La réduction de la taxe s'appliquera même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du

PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Des renseignements concernant les États contractants du PCT dont les ressortissants et les résidents ont droit à une réduction de 75% de certaines taxes du PCT, dont la taxe de traitement, figurent dans le *Guide du déposant du PCT*, volume I/B, annexe C, ainsi que sur le site Internet de l'OMPI à l'adresse suivante : <http://www.wipo.int/pct/fr/index.html>; ils sont également publiés et régulièrement mis à jour dans la *Gazette du PCT* et le bulletin *PCT Newsletter*.

Calcul de la taxe de traitement en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe de traitement, le montant devant figurer dans le cadre H est égal à 25% de la taxe de traitement.

Cadre "Total" : le total des montants inscrits dans les cadres P et H représente la somme à verser à l'administration chargée de l'examen préliminaire international.

MODE DE PAIEMENT

Pour aider l'administration chargée de l'examen préliminaire international à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

Le déposant devrait s'assurer que l'administration chargée de l'examen préliminaire international permet l'utilisation de comptes de dépôt pour le paiement des taxes du PCT. En outre, il est recommandé qu'il prenne connaissance des modalités particulières d'utilisation des comptes de dépôt auprès de cette administration étant donné que toutes les administrations chargées de l'examen préliminaire international n'offrent pas les mêmes services.

Enfin, si l'administration chargée de l'examen préliminaire international n'est pas l'office national auprès duquel, ou l'organisation intergouvernementale auprès de laquelle, la demande internationale a été déposée, le déposant ne peut pas utiliser le compte de dépôt auprès de l'office récepteur pour payer les taxes d'examen préliminaire et de traitement dues à l'administration chargée de l'examen préliminaire international.

L'administration chargée de l'examen préliminaire international ne débitera un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.

INFORMATION ON CONTRACTING STATES**DE Germany**

Pursuant to its notification under PCT Rule 4.9(b), the **German Patent and Trade Mark Office** has specified to the International Bureau special provisions concerning earlier national applications from which priority is claimed, and the effects of such provisions, as follows:

Are there special provisions concerning earlier national applications from which priority is claimed and what are the effects of these provisions?

Article III Section 4(3) of the Law on International Patent Treaties (IntPatÜG) provides that the filing of an international application designating Germany and claiming the priority of an earlier national patent application or utility model application filed with the German Patent and Trade Mark Office shall have the result that the earlier national application is deemed withdrawn upon entry into the national phase of the international application. However, this will only take effect if the national application whose priority is claimed relates to the same kind of protection as the international application (patent/patent or utility model/utility model). Where both applications relate to the same kind of protection, pursuant to Article III Section 4(2) IntPatÜG, the international application enters into the national phase without further action by the applicant, provided the German Patent and Trade Mark Office is both receiving Office and designated Office, and the international application has been filed in the German language. In this case, the filing fee is deemed paid by payment of the transmittal fee (Article III Section 4(2), last sentence IntPatÜG). Consequently, if the applicant wants to avoid the withdrawal of the earlier national application, pursuant to PCT Rule 4.9(b), the applicant may exclude Germany from the automatic designation or may consider withdrawing the designation of Germany subsequent to the filing of the international application but before entry into the national phase.

INFORMATIONS SUR LES ÉTATS CONTRACTANTS**DE Allemagne**

Suite à sa notification selon la règle 4.9.b) du PCT, l'**Office allemand des brevets et des marques** a spécifié au Bureau international des dispositions particulières relatives à des demandes nationales antérieures dont la priorité est revendiquée, ainsi que les conséquences de ces dispositions, comme suit :

Existe-t-il des dispositions particulières relatives à des demandes nationales antérieures dont la priorité est revendiquée et quelles sont les conséquences de ces dispositions ?

Le paragraphe 4(3) de l'article III de la loi sur les traités internationaux en matière de brevets (IntPatÜG) stipule que le dépôt d'une demande internationale désignant l'Allemagne et revendiquant la priorité d'une demande de brevet nationale antérieure ou d'une demande de modèle d'utilité déposée auprès de l'Office allemand des brevets et des marques aura pour effet que la demande nationale antérieure sera réputée retirée lors de l'ouverture de la phase nationale de la demande internationale. Toutefois, ce retrait ne prendra effet que si la demande nationale dont la priorité est revendiquée se rapporte au même type de protection que la demande internationale (brevet/brevet ou modèle d'utilité/modèle d'utilité). Lorsque les deux demandes se rapportent au même type de protection, conformément au paragraphe 4(2) de l'article III IntPatÜG, le déposant pourra aborder la phase nationale sans avoir d'autres mesures à prendre, à condition que l'Office allemand des brevets et des marques soit à la fois office récepteur et office désigné, et que la demande internationale ait été déposée en allemand. Dans ce cas, la taxe de dépôt est réputée avoir été acquittée par le paiement de la taxe de transmission (paragraphe 4(2) de l'article III, dernière phrase IntPatÜG). En conséquence, si le déposant souhaite éviter le retrait de la demande nationale antérieure, conformément à la règle 4.9.b) du PCT, il peut exclure l'Allemagne de la désignation automatique ou peut envisager de retirer la désignation de l'Allemagne après le dépôt de la demande internationale mais avant l'ouverture de la phase nationale.

The **Japan Patent Office** has specified to the International Bureau special provisions concerning earlier national applications from which priority is claimed, and the effects of such provisions, as follows:

Are there special provisions concerning earlier national applications from which priority is claimed and what are the effects of these provisions?

If the applicant of an international application which claims the priority of an earlier national application wants to avoid this effect, the designation Japan will have to be withdrawn before the expiration of 15 months from the priority date, in order to avoid automatic withdrawal of the earlier-filed national application.

Si le déposant d'une demande internationale qui revendique la priorité d'une demande nationale antérieure souhaite empêcher ce retrait, la désignation du Japon devra être retirée avant l'expiration d'un délai de 15 mois à compter de la date de priorité, afin d'éviter le retrait automatique de la demande nationale déposée antérieurement.

Article 56 of the Korean Patent Law provides that the filing of an international application which contains the designation of the Republic of Korea and claims the priority of an earlier national application for the grant of a utility model having effect in the Republic of Korea shall have the result that the earlier national application will be considered withdrawn. Where the earlier national application is for the grant of a patent, it will be considered withdrawn 15 months after the filing date of the earlier national patent application, unless (i) the earlier application has been abandoned, invalidated, withdrawn or rejected when the patent application is filed; (ii) if an examiner's decision of patentability or a trial decision rejecting the application has become final; (iii) if priority claims based on the earlier application concerned have been withdrawn, or (iv) if the earlier application has been registered under Article 35(2) of the Utility Model Act. **THE PATENT COOPERATION TREATY (PCT)
IN 2001***

The World Intellectual Property Organization (WIPO), Geneva, announces the main events which occurred in 2001 in relation to the Patent Cooperation Treaty (PCT) and the results of operations under the PCT for that year.

— * —

1. The PCT system offers inventors and industry an advantageous route for obtaining patent protection internationally. By filing one “international” patent application under the PCT, protection for an invention can be sought simultaneously in each of a large number of countries. Both applicants and patent Offices of PCT member States benefit from the uniform formality requirements, the international search and preliminary examination reports, and the centralized international publication provided by the PCT system.

Developments in 2001

2. During 2001, the International Bureau of WIPO received a total of 103,947 applications filed worldwide,¹ which not only represented a 14.3% increase over the number of applications filed in 2000, but also made it the first time ever that the milestone of 100,000 international applications had been reached in one year. If applicants had filed separate applications nationally or regionally, this would have involved the filing of millions of applications worldwide to achieve the same level of protection as is afforded by those 103,947 applications.

3. During 2001, seven new Contracting States became bound by the PCT (on the dates shown in parentheses):

Colombia (February 28, 2001);

Ecuador (May 7, 2001);

Equatorial Guinea (July 17, 2001);

Philippines (August 17, 2001);

Oman (October 26, 2001);

Zambia (November 15, 2001);

Tunisia (December 10, 2001).

*

Was published in the Information Note “The Patent Cooperation Treaty (PCT) in 2001” dated 19 February 2002.

¹

Figures in this information note for international applications filed in 2001 are based on the number of record copies of international applications received, under PCT Article 12, by the International Bureau in 2001 from PCT receiving Offices (including the Receiving Office Section of the International Bureau).

**LE TRAITÉ DE COOPÉRATION EN MATIÈRE DE BREVETS (PCT)
EN 2001***

L'Organisation Mondiale de la Propriété Intellectuelle (OMPI), à Genève, communique les principaux faits survenus en 2001 en rapport avec le Traité de coopération en matière de brevets (PCT) ainsi que les résultats des opérations effectuées au titre de ce traité pendant l'année considérée.

— * —

1. Le PCT constitue pour les inventeurs et les industriels une voie intéressante d'obtention de la protection par brevet à l'échelon international. En effet, en déposant une seule demande "internationale" de brevet dans le cadre du PCT, il est possible d'obtenir simultanément la protection d'une invention dans un grand nombre de pays. Le système est avantageux tant pour les déposants que pour les offices de brevets des États contractants, puisqu'il prévoit des formalités uniformes, un rapport de recherche internationale et un rapport d'examen préliminaire international ainsi qu'une publication internationale centralisée.

Faits nouveaux survenus en 2001

2. En 2001, le Bureau international de l'OMPI a reçu en tout 103 947 demandes provenant du monde entier¹, ce qui non seulement représente une augmentation de 14,3% par rapport au nombre de demandes reçues en 2000, mais aussi constitue pour la première fois le dépassement du cap des 100 000 demandes internationales en l'espace d'une année. S'il s'était agi de demandes nationales ou régionales, il aurait fallu que des millions de demandes soient déposées dans le monde entier pour atteindre le même niveau de protection que celui qui est offert par ces 103 947 demandes.

3. Au cours de l'année 2001, sept nouveaux États sont devenus liés par le PCT (aux dates indiquées entre parenthèses) :

Colombie (28 février 2001);

Équateur (7 mai 2001);

Guinée équatoriale (17 juillet 2001);

Philippines (17 août 2001);

Oman (26 octobre 2001);

Zambie (15 novembre 2001);

Tunisie (10 décembre 2001).

*

A été publié dans la Note d'information "le Traité de coopération en matière de brevets (PCT) en 2001" du 19 février 2002.

¹

Les chiffres relatifs aux demandes internationales déposées en 2001 ont été calculés à partir du nombre d'exemplaires originaux de demandes internationales transmis, en vertu de l'article 12 du PCT, au Bureau international en 2001 par les offices récepteurs du PCT (y compris par la Section "Office récepteur du PCT" du Bureau international).

4. By December 31, 2001, the following 115 Contracting States were bound by the PCT:

Albania	Democratic People's	Liberia	South Africa
Algeria	Republic of Korea	Liechtenstein	Spain
Antigua and Barbuda	Denmark	Lithuania	Sri Lanka
Armenia	Dominica	Luxembourg	Sudan

Cyprus	Kenya	Sierra Leone	Zimbabwe
Czech Republic	Kyrgyzstan	Singapore	Zambia
	Latvia	Slovakia	
	Lesotho	Slovenia	

5. On July 17, 2001, Equatorial Guinea became bound by the PCT. Since Equatorial Guinea is a member State of the African Intellectual Property Organization (OAPI), the designation (or election) of that State has the effect of a designation (or election) of that State for the purposes of a regional patent issued by OAPI; it is not possible to designate Equatorial Guinea for a national patent. On November 15, 2001, Zambia became bound by the PCT. Since Zambia is also party to the Harare Protocol on Patents and Industrial Designs within the framework of the African Regional Industrial Property Organization (ARIPO), PCT applicants may designate Zambia for an ARIPO patent, as well as for a national patent.

Summary of the procedure under the PCT

6. The system of patent cooperation established by the PCT means that, by filing only one international application with one Office, an applicant can obtain the effect of regular national filings in any of the designated PCT Contracting States without initially having to furnish a translation of the application or pay national fees. The national patent granting procedure and the related high expenses are postponed, in the majority of cases, by up to 18 months (or even longer in the case of some Offices), as compared with the traditional patent system.

4. À la date du 31 décembre 2001, les 115 États ci-après avaient adhéré au PCT :

Afrique du Sud	Équateur	Lettonie	République
Albanie	Espagne	Libéria	tchèque
Algérie	Estonie	Liechtenstein	République-Unie
Allemagne	États-Unis	Lituanie	de Tanzanie
Antigua-et- Barbuda	d'Amérique	Luxembourg	Roumanie

Danemark	Japon	République de	Zimbabwe
Dominique	Kazakhstan	Moldova	
Émirats arabes unis	Kenya	République populaire	
	Kirghizistan	démocratique	
	Lesotho	de Corée	

5. Le 17 juillet 2001, la Guinée équatoriale est devenue liée par le PCT. Étant donné que cet État est membre de l'Organisation africaine de la propriété intellectuelle (OAPI), le fait de la désigner (ou de l'élire) produit les effets d'une désignation (ou d'une élection) de cet État aux fins d'un brevet régional délivré par l'OAPI; il n'est pas possible de désigner la Guinée équatoriale aux fins d'un brevet national. Le 15 novembre 2001, la Zambie est devenue liée par le PCT. Étant donné que cet État est aussi lié par le Protocole de Harare sur les brevets et les dessins et modèles industriels dans le cadre de l'Organisation régionale africaine de la propriété industrielle (ARIPO), les déposants utilisant le système du PCT peuvent désigner la Zambie pour un brevet ARIPO de même que pour un brevet national.

Résumé de la procédure selon le PCT

6. Grâce au système de coopération en matière de brevets instauré par le PCT, le déposant a la possibilité, en déposant une seule demande internationale auprès d'un seul office, d'obtenir l'effet de dépôts nationaux réguliers dans plusieurs ou la totalité des États contractants du traité qu'il a désignés sans devoir initialement remettre de traduction de la demande ni payer de taxes nationales. La procédure nationale de délivrance et le paiement des frais élevés qui s'y rapportent sont, dans la plupart des cas, différés d'une durée pouvant aller jusqu'à 18 mois (voire plus dans le cas de certains offices), si l'on compare avec le système traditionnel de brevets.

7. In addition to designations of PCT Contracting States for the purpose of obtaining national patents, an international application may include designations for regional patents: ARIPO (African Regional Industrial Property Organization) patents have effect in those States party to the Harare Protocol on Patents and Industrial Designs within the framework of ARIPO which are also Contracting States of the PCT; Eurasian patents have effect in States party to the Eurasian Patent Convention; European patents have effect in States party to the European Patent Convention; and OAPI (African Intellectual Property Organization) patents have effect in States party to the revised Bangui Agreement Relating to the Creation of an African Intellectual Property Organization.

8. Each international application is subjected to an international search carried out by one of the major patent Offices, acting as an International Searching Authority under the PCT, which establishes a report setting out the relevant prior art. That report is received by the applicant about 16 months after the priority date. Eighteen months after the priority date, the international application is published by the International Bureau, together with the international search report and any amendments of claims which may be made by the applicant, and is then transmitted to the applicant and the designated Offices.

9. If the applicant so requests (by filing a “demand” for international preliminary examination), and most do so (see paragraph 30), the international application is then subjected to international preliminary examination under PCT Chapter II by one of the Offices that act as International Preliminary Examining Authority. Provided such demand is submitted before the expiration of 19 months, the entry into the national phase of the procedure is also postponed from 20 months after the priority date² until 30 months after that date (later time limits apply in some cases) and the applicant is given an additional opportunity to amend the application. The examination results in a report that includes an opinion as to whether the claimed invention fulfills the criteria of novelty, inventive step and industrial applicability. The international preliminary examination report is usually received by the applicant about 28 months after the priority date, and is also sent to the designated Offices which were elected under Chapter II.

10. With the international search report and the international preliminary examination report, the applicant is in a much better position to decide whether to proceed with the national patent granting procedure before the various designated patent Offices. If the applicant considers, in the light of those reports, that it is worthwhile to continue seeking patent protection in several countries, he may then decide to pay the national fees and professional fees for patent agents abroad, and to incur the cost of preparing translations. This need not be done until 20 months or more after the priority date² (that is, eight months later than under the traditional system), or, if the applicant has filed a demand for international preliminary examination in time, until 30 months or more after the priority date (that is, 18 months later than under the traditional patent system). At that later time the applicant is also in a much better position to decide about the need for patent protection having regard to increased knowledge of the technical value and commercial prospects of the invention.

Rule and procedure changes

11. On January 11, 2001, following the promulgation of new Administrative Instructions under the PCT, it became possible for applicants filing international applications with certain receiving Offices to file, for the purposes of all steps of the international phase, the nucleotide and/or amino acid sequence listing part of the description of such applications either only on an electronic medium in computer readable form or both on an electronic medium and on paper in written form. This change is of considerable benefit, both practically and financially, to applicants who file international applications containing very lengthy sequence listings, as well as being of practical benefit to patent Offices and Authorities. Since the beginning of August 2001, such sequence listing parts which are furnished on an electronic medium are no longer published on paper with the rest of the pamphlet, but are published on the Internet, with the possibility of ordering CD-ROMs containing electronic copies of those sequence listings. For further information, see the following page on the WIPO Internet site:

<http://www.wipo.int/pct/en/sequences/index.htm>

² See paragraph 14 for information concerning the modification, with effect from April 1, 2002, of that time limit for entry into the national phase under PCT Article 22(1), from 20 to 30 months.

7. Outre les désignations d'États contractants du PCT en vue de l'obtention de brevets nationaux, une demande internationale peut comporter des désignations pour des brevets régionaux : les brevets ARIPO (Organisation régionale africaine de la propriété industrielle) produisent leurs effets dans les États parties au Protocole de Harare relatif aux brevets et aux dessins et modèles industriels dans le cadre de l'ARIPO qui sont également des États contractants du PCT; les brevets eurasiens produisent leurs effets dans les États parties à la Convention sur le brevet eurasien; les brevets européens produisent leurs effets dans les États parties à la Convention sur le brevet européen; et les brevets OAPI (Organisation africaine de la propriété intellectuelle) produisent leurs effets dans les États parties à l'Accord portant révision de l'Accord de Bangui instituant une Organisation africaine de la propriété intellectuelle.

8. Chaque demande internationale fait l'objet d'une recherche internationale effectuée par l'un des grands offices de brevets, agissant en qualité d'administration chargée de la recherche internationale selon le PCT. Cet office établit un rapport de recherche internationale indiquant l'état de la technique pertinent. Le déposant reçoit ce rapport environ 16 mois à compter de la date de priorité. Dix-huit mois après la date de priorité, le Bureau international publie la demande internationale avec le rapport de recherche internationale et avec les éventuelles modifications que le déposant a pu apporter aux revendications. Il la transmet ensuite aux offices désignés et au déposant.

9. Si le déposant le demande (en présentant une demande d'examen préliminaire international), comme il le fait d'ailleurs dans la plupart des cas (voir le paragraphe 30), la demande internationale fait alors l'objet d'un examen préliminaire international conformément au chapitre II du PCT, effectué par l'un des offices agissant en qualité d'administrations chargées de l'examen préliminaire international. Sous réserve que cette demande soit soumise avant l'expiration d'un délai de 19 mois, l'ouverture de la phase nationale est retardée de 20 à 30 mois à compter de la date de priorité² (les délais étant même plus longs dans certains cas), ce qui donne au déposant une occasion supplémentaire de modifier la demande. Cet examen aboutit à l'établissement d'un rapport dans lequel est formulée une opinion sur le point de savoir si l'invention revendiquée satisfait aux critères de nouveauté, d'activité inventive et de possibilité d'application industrielle. Le déposant reçoit le rapport d'examen préliminaire international environ 28 mois après la date de priorité et ce rapport est aussi adressé aux offices désignés qui ont été élus selon le chapitre II.

10. Une fois en possession du rapport de recherche internationale et du rapport d'examen préliminaire international, le déposant est bien mieux placé pour déterminer s'il convient d'entamer la procédure nationale de délivrance auprès des différents offices de brevets désignés. S'il estime, au vu de ces rapports, qu'il a intérêt à obtenir une protection par brevet dans différents pays, il peut décider d'acquitter les taxes nationales et les honoraires des mandataires étrangers et d'engager les frais afférents à l'établissement des traductions. Pour prendre cette décision, il dispose d'un délai de 20 mois au moins à compter de la date de priorité² (soit huit mois de plus que dans le système traditionnel), ou même de 30 mois au moins à compter de la date de priorité (soit 18 mois de plus que dans le système traditionnel) s'il a déposé une demande d'examen préliminaire international en temps utile. À ce moment-là, le déposant sera également bien mieux à même de se prononcer sur la nécessité d'une protection par brevet, car il aura une meilleure connaissance des perspectives offertes par l'invention sur les plans technique et commercial.

Modifications apportées aux règles et à la procédure

11. Depuis le 11 janvier 2001, à la suite de la promulgation de nouvelles instructions administratives du PCT, les personnes qui déposent des demandes internationales auprès de certains offices récepteurs peuvent déposer, pour toutes les étapes de la phase internationale, la partie de la description réservée au listage des séquences de nucléotides ou d'acides aminés de telles demandes, soit seulement sur un support électronique sous forme déchiffrable par ordinateur, soit à la fois sur un support électronique et sur papier sous forme écrite. Cette modification est très utile, d'un point de vue pratique et financier, aux personnes qui déposent des demandes internationales contenant de longs listages de séquences; elle présente aussi un intérêt pratique pour les offices de brevets et les administrations. Depuis le début du mois d'août 2001, les parties réservées au listage des séquences déposées sur un support électronique sont publiées non plus sur papier avec le restant de la brochure mais sur l'Internet, étant entendu qu'il est possible d'obtenir des CD-ROM contenant des copies électroniques de ces listages de séquences. On obtiendra de plus amples renseignements à l'adresse suivante sur le site Internet de l'OMPI :

<http://www.OMPI.int/pct/fr/sequences/index.htm>

² Voir le paragraphe 14 pour de plus amples renseignements sur cette modification qui, avec effet au 1^{er} avril 2002, fait passer de 20 à 30 mois le délai pour l'ouverture de la phase nationale en vertu de l'article 22.1) du PCT.

12. Amended Regulations which had been adopted by the PCT Assembly in March 2000 entered into force on March 1, 2001, including, in particular, amendments to PCT Rule 4.17, which simplify the national phase both for applicants and for national and regional patent Offices (in their capacity as designated/elected Offices) by allowing applicants to complete, when filing their international applications, declarations—containing standardized wording—relating to the identity of the inventor, the right to apply for a patent, the right to claim priority, inventorship and non-prejudicial disclosures. By submitting such declarations with their international application, applicants may avoid having to submit, upon entry into the national phase, documents or evidence required for the purposes of the national law of the designated/elected States concerned.

Meetings

13. Reform of the PCT

– The **Committee on Reform of the Patent Cooperation Treaty**, which was convened pursuant to a decision of the PCT Assembly in October 2000, held its first session in Geneva from May 21 to 25, 2001. The Committee agreed on the objectives on which the reform of the PCT system should be based, the recommendation to the PCT Assembly that a working group be established, and the matters that should be referred to that working group for its consideration and advice.

– Following the approval by the PCT Assembly (see below) of the above-mentioned recommendations, the first session of the **Working Group on Reform of the PCT** was held in Geneva from November 12 to 16, 2001. The topics of discussion included:

(a) A proposal to change the current PCT system so that, for all international applications, an expanded international search (EIS) procedure would be followed, under which, in addition to the international search report, the International Searching Authority (ISA) would issue an opinion of the examiner as to whether the claims of the application appear to satisfy the criteria of novelty, inventive step and industrial applicability, similar to the written opinion which the applicant currently receives sometimes after he files a demand for international preliminary examination.

(b) A proposal for reform of the designation system, so that the filing of an international application would automatically have the effect of making all possible designations under the PCT, deferring to the national phase all decisions and choices by the applicant as to the countries in which protection is sought and as to the kinds of protection which are sought. Furthermore, a single “flat” international filing fee would be introduced, replacing the current separate basic fee and designation fee(s).

(c) Changes relating to the Patent Law Treaty (PLT): it was agreed that certain of the principles of the PLT should so far as possible be taken up in the PCT in order to achieve the same benefits for applicants and Offices in the filing and processing of international applications as would be available for national applications.

After further meetings of the Working Group and of the Committee on Reform of the PCT to be held during the course of 2002, the first proposals for reform-related amendments to the PCT Regulations are expected to be submitted to the PCT Assembly in September 2002. Further information relating to the proceedings, as well as background information relating to the proposals submitted to the Working Group, is available on WIPO’s Internet site at:

<http://www.wipo.int/pct/en/meetings/meetings.htm>

12. Les modifications du règlement d'exécution du PCT qui ont été adoptées par l'Assemblée du PCT en mars 2000 sont entrées en vigueur le 1^{er} mars 2001; elles concernent notamment la règle 4.17 et visent à cet égard à simplifier la phase nationale à la fois pour les déposants et pour les offices nationaux ou régionaux de brevets (en leur qualité d'offices désignés ou élus) en permettant aux déposants, lorsqu'ils déposent leur demande internationale, de remplir des déclarations – à l'aide du libellé standard – relatives à l'identité de l'inventeur, au droit de demander un brevet, au droit de revendiquer la priorité, à la qualité d'inventeur et à des divulgations non opposables. En incluant de telles déclarations dans leur demande internationale, les déposants peuvent éviter d'avoir à soumettre, lors de l'ouverture de la phase nationale, des documents ou des preuves exigés aux fins de la législation nationale des États désignés ou élus concernés.

Réunions

13. Réforme du PCT

– Le **Comité sur la réforme du Traité de coopération en matière de brevets (PCT)**, qui s'est réuni à la suite d'une décision de l'Assemblée du PCT prise en octobre 2000, a tenu sa première session à Genève du 21 au 25 mai 2001. Il a approuvé les objectifs sur lesquels la réforme du système du PCT doit s'appuyer, la recommandation à l'Assemblée du PCT tendant à créer un groupe de travail et les questions à soumettre à ce groupe de travail pour examen et avis.

– À la suite de l'approbation par l'Assemblée du PCT (voir ci-dessous) des recommandations susmentionnées, le **Groupe de travail sur la réforme du Traité de coopération en matière de brevets (PCT)** a tenu sa première session à Genève, du 12 au 16 novembre 2001. Les points faisant l'objet de discussions comprenaient :

- a) une proposition de modification du système actuel du PCT afin que toutes les demandes internationales soient soumises à un système approfondi de recherche internationale dans le cadre duquel l'administration chargée de la recherche internationale délivre, outre un rapport de recherche internationale, une opinion de l'examineur permettant de savoir si l'invention semble répondre aux critères de nouveauté, d'activité inventive et de possibilité d'application industrielle, qui serait similaire à l'opinion écrite que le déposant reçoit actuellement quelque temps après avoir déposé une demande d'examen préliminaire international;
- b) une proposition de réforme du système des désignations afin que le dépôt d'une demande internationale ait automatiquement pour effet de permettre au déposant d'indiquer toutes les désignations possibles dans le cadre du PCT, ce qui renverrait à la phase nationale toutes les décisions et tous les choix du déposant quant aux pays dans lesquels la protection est demandée et quant au type de protection souhaité. En outre, une taxe internationale de dépôt forfaitaire serait introduite, qui remplacerait les actuelles taxe de base et taxe de désignation;
- c) des changements en rapport avec le Traité sur le droit des brevets (PLT) : il a été convenu que certains aspects du PLT devraient dans la mesure du possible être repris dans le PCT afin que, lors du dépôt et du traitement des demandes internationales, les déposants et les offices bénéficient des mêmes avantages que lors du dépôt et du traitement des demandes nationales.

Le groupe de travail et le comité sur la réforme du PCT tiendront d'autres réunions durant 2002; les premières propositions de modification du règlement d'exécution du PCT devraient être soumises à l'Assemblée du PCT en septembre 2002. On trouvera de plus amples renseignements sur la procédure ainsi que des informations générales sur les propositions soumises au groupe de travail sur le site Internet de l'OMPI à l'adresse suivante :

<http://www.OMPI.int/pct/fr/meetings/meetings.htm>

14. The **Assembly of the PCT Union** held its thirtieth (13th ordinary) session in Geneva from September 24 to October 3, 2001, the results of which are as follows:

- it was decided, with effect from April 1, 2002, to modify the time limit under PCT Article 22(1) for performing the acts necessary to enter the national phase from 20 to 30 months from the priority date. As a result, the time limit for national phase entry under PCT Article 22(1) will be the same as that which applies under PCT Article 39(1)(a) (that is, the time limit which applies where the applicant files a demand for international preliminary examination within 19 months from the priority date). Since a number of countries will have to change their national laws in order to implement the modification, transitional arrangements will enable postponement of the entry into force of the modification in respect of the designated Offices concerned. As a consequence of the modification of the time limit under PCT Article 22(1), PCT Rules 90*bis*.1, 90*bis*.2 and 90*bis*.3, which deal with the withdrawal of the international application, any designation, and any priority claim, respectively, will, with effect from April 1, 2002, refer only to the time limit of 30 months from the priority date;
- it was decided to amend the Schedule of Fees with effect from January 1, 2002, to further decrease the maximum number of designation fees payable, from six to five, making it the fifth consecutive year in which the fee payable for designating States has been reduced;
- the Spanish Patent and Trademark Office, which has been an International Searching Authority since 1993, was appointed as an International Preliminary Examining Authority (IPEA); that Office will thus become the 10th Office to function as an IPEA under the PCT. The appointment is expected to have effect later in 2002;
- approval was given of an amendment, with effect from November 1, 2001, of the text of the Agreement between the European Patent Organisation and the International Bureau of WIPO relating to the functioning of the European Patent Office (EPO) as an International Searching Authority (ISA) and International Preliminary Examining Authority (IPEA) under the PCT. The amended Agreement enables the EPO to determine, in a more flexible way, which international applications it is competent to act for as ISA and IPEA;
- the PCT Assembly noted the report of the Committee on Reform of the PCT (see paragraph 13, above) and approved the Committee's recommendation concerning the establishment of a working group, the matters to be referred to the working group and the work program of both the Committee and the working group between the September 2001 and September 2002 sessions of the Assembly. It also took note of progress in the PCT automation project (IMPACT) and in the PCT Electronic Filing Project (see paragraphs 16 to 18, below).

Seminars

15. In 2001, officials of the International Bureau participated in 114 seminars and presentations that dealt with the use and advantages of the PCT and the promotion of accession to it. Those seminars and presentations were held in Algeria, Antigua and Barbuda, Argentina, Barbados, Belgium, Brazil, Cambodia, China, Colombia, Cuba, Denmark, Djibouti, Dominica, Ecuador, Egypt, El Salvador, Equatorial Guinea, Finland, France, Germany, Guatemala, India, Indonesia, Ireland, Italy, Japan, Kenya, Mali, Mexico, Mozambique, Norway, Paraguay, the Philippines, Portugal, the Republic of Korea, Saint Lucia, South Africa, Spain, Sri Lanka, Sweden, Switzerland, Trinidad and Tobago, the United Kingdom, the United States of America and Viet Nam. They were given to about 7,650 users and potential users of the PCT system in the following languages: Arabic, Chinese, English, Finnish, French, German, Japanese, Portuguese, Spanish and Swedish. They included 10 specialized presentations that were given to some 530 people on the use of the PCT-EASY software.

14. L'Assemblée de l'Union du PCT a tenu sa trentième session (13^e session ordinaire) à Genève, du 24 septembre au 3 octobre 2001; le bilan est le suivant :

- il a été décidé, avec effet au 1^{er} avril 2002, de modifier le délai fixé à l'article 22.1) pour l'accomplissement des actes nécessaires à l'ouverture de la phase nationale, en portant le délai de 20 mois à 30 mois à compter de la date de priorité. Par conséquent, le délai d'ouverture de la phase nationale selon l'article 22.1) du PCT sera le même que celui qui s'applique selon l'article 39.1)a) (c'est-à-dire le délai qui s'applique lorsque le déposant présente une demande d'examen préliminaire international dans un délai de 19 mois à compter de la date de priorité). Étant entendu qu'un certain nombre de pays devront modifier leur législation nationale pour pouvoir mettre en œuvre la modification, des mesures transitoires permettront le report de l'entrée en vigueur de la modification pour les offices désignés concernés. La modification du délai visé à l'article 22.1) du PCT a pour conséquence que les règles 90bis.1, 90bis.2 et 90bis.3 du PCT, qui traitent du retrait de la demande internationale, de désignations et de revendications de priorité, respectivement, se référeront seulement, avec effet au 1^{er} avril 2002, au délai de 30 mois à compter de la date de priorité;
- il a été décidé de modifier le barème de taxes, avec effet au 1^{er} janvier 2002, afin de réduire encore le nombre maximum des taxes de désignation à payer en le ramenant de 6 à 5; c'est la cinquième année consécutive que les taxes payables au titre de la désignation d'États sont réduites;
- l'Office espagnol des brevets et des marques, qui a la qualité d'administration chargée de la recherche internationale depuis 1993, a été nommé administration chargée de l'examen préliminaire international; il devient ainsi le 10^e office à fonctionner en qualité d'administration chargée de l'examen préliminaire international au titre du PCT; la nomination prendra effet ultérieurement en 2002;
- l'assemblée a approuvé, avec effet au 1^{er} novembre 2001, une modification de l'accord entre l'Organisation européenne des brevets et le Bureau international de l'OMPI concernant les fonctions de l'Office européen des brevets en qualité d'administration chargée de la recherche internationale et de l'examen préliminaire international au titre du PCT; l'accord ainsi modifié permet à l'OEB de déterminer avec davantage de souplesse quelles sont les demandes internationales pour lesquelles il est habilité à agir en qualité d'administration chargée de la recherche internationale ou d'administration chargée de l'examen préliminaire international;
- l'assemblée a pris note du rapport du comité sur la réforme du PCT (voir le paragraphe 13 ci-dessus) et a approuvé les recommandations du comité concernant la création d'un groupe de travail, les questions à soumettre à ce groupe de travail et le programme de travail du comité et du groupe de travail entre les sessions de septembre 2001 et de septembre 2002 de l'assemblée; il a aussi pris note des rapports de situation sur le projet d'automatisation du PCT (projet IMPACT) et sur le projet relatif au dépôt électronique selon le PCT (voir les paragraphes 16 à 18 ci-dessous).

On trouvera des informations générales détaillées sous la rubrique "Réunions du PCT" sur le site Web du PCT, à l'adresse suivante :

Séminaires

15. En 2001, des fonctionnaires du Bureau international ont participé à 114 séminaires et conférences sur l'utilisation et les avantages du PCT ainsi que sur la promotion de l'adhésion à celui-ci. Ces séminaires et conférences ont eu lieu dans les pays suivants : Afrique du Sud, Algérie, Allemagne, Antigua-et-Barbuda, Argentine, Barbade, Belgique, Brésil, Cambodge, Chine, Colombie, Cuba, Danemark, Djibouti, Dominique, Égypte, El Salvador, Équateur, Espagne, États-Unis d'Amérique, Finlande, France, Guatemala, Guinée équatoriale, Inde, Indonésie, Irlande, Italie, Japon, Kenya, Mali, Mexique, Mozambique, Norvège, Paraguay, Philippines, Portugal, République de Corée, Royaume-Uni, Sainte-Lucie, Sri Lanka, Suède, Suisse, Trinité-et-Tobago, Viet Nam. Environ 7650 utilisateurs effectifs ou potentiels du système du PCT ont ainsi pu suivre des exposés dans les langues suivantes : français, allemand, anglais, arabe, chinois, espagnol, finnois, japonais, portugais et suédois. Parmi ceux-ci, il faut citer 10 exposés consacrés à l'utilisation du logiciel PCT-EASY, auxquels ont assisté environ 530 personnes.

Developments in PCT Automation

16. **PCT IMPACT** (Information Management for the Patent Cooperation Treaty): work on the Project continued in 2001. To ensure an early completion for the Project, all three phases (the IMPACT Communication System phase, the IMPACT/IB (International Bureau) phase and the IMPACT/RO/IB (receiving Office of the International Bureau) phase) began running in parallel. The objective of the IMPACT/IB and the IMPACT/RO/IB phases is to establish a new system for processing of international applications within the International Bureau (including the automated publication of international applications) and within the International Bureau as receiving Office, respectively.

17. The IMPACT Communication System phase of the Project, the objective of which is to establish a new system for the communication of certain PCT-related documents, entered its deployment phase with the setting up of the IMPACT Scanning Office where, since September 2001, priority documents have been scanned and sent to selected designated/elected Offices in electronic form on DVD. As the Project progresses, more and more documents will be scanned and furnished to Offices and PCT Authorities in this way. Early in 2001, an IMPACT External User Focus Group, composed of a cross-section of designated/elected Offices, was established, and now serves as a forum for future users to test and give feedback on online functionality.

18. **PCT electronic filing project:** The project, now known under the new acronym “PCT-SAFE” (Secure Applications Filed Electronically), has two distinct objectives, namely, the adoption of a standard for the electronic filing and processing of international applications and the development of a system for the electronic filing of international applications. The first of these objectives was met in December 2001 when the legal framework and technical standard necessary to enable the implementation of electronic filing and processing of international applications were published as modifications of the *Administrative Instructions under the PCT*. A succession of five rounds of consultation and revision were required to achieve this milestone. Progress towards the development of a system for the electronic filing of international applications, which is expected to be fully operational in December 2003, has been steady. At the end of 2001, the project had completed its prototyping activities and was starting the analysis and design of first release (‘beta’) software.

19. **PCT-EASY**, which is a software designed to facilitate the preparation of the request part of international applications in electronic form is an established product that is the stepping stone to the PCT electronic filing system. In June 2001, a new version of the software was released, incorporating new PCT Contracting States, updated fee schedules, accommodating new Administrative Instructions relating to the filing of a sequence listing part of the international application in computer readable form and, as a result of changes in PCT Regulations, incorporating the declarations functionality. (See paragraph 12) In December 2001, another new version was released, incorporating new PCT Contracting States, updated fee schedules, as well as the implementation of the ‘Abstract Editor’ for the Chinese, Japanese and Russian language versions. During the course of 2001, seven receiving Offices notified the International Bureau that they were prepared to accept the filing of international applications containing requests prepared using PCT-EASY together with PCT-EASY diskettes, bringing the number of receiving Offices which have made such notifications to 65 (out of the 86 PCT receiving Offices), and over 2,500 new users were registered, bringing the total number of registered users to over 7,500. The software, which is available, together with supporting documentation, in Chinese, English, French, German, Japanese, Russian and Spanish, was distributed via more than 18,000 downloads from the PCT-EASY website, and the distribution of approximately 3,000 CD-Rs. It can be downloaded from the Internet from the PCT-EASY home page (<http://pcteasy.wipo.int>), and may also be obtained from the PCT-EASY Help Desk:

Faits nouveaux relatifs à l'automatisation du PCT

16. **PCT IMPACT** (Information Management for the Patent Cooperation Treaty – Gestion de l'information concernant le Traité de coopération en matière de brevets) : les travaux relatifs au projet se sont poursuivis en 2001. Pour permettre de terminer le projet à bref délai, les trois phases (IMPACT – système de communication, IMPACT/IB (Bureau international) et IMPACT/RO/IB (Office récepteur du Bureau international)) ont été lancées en même temps. L'objectif des deuxième et troisième phases (IMPACT/IB et IMPACT/RO/IB) est d'établir un nouveau système de traitement des demandes internationales (y compris la publication automatisée) au sein du Bureau international et de son office récepteur.

17. La première phase du projet (IMPACT - système de communication), qui vise à mettre en place un nouveau système de communication de certains documents liés au PCT, est entrée dans sa phase de déploiement avec la création du "bureau de numérisation IMPACT", qui, depuis septembre 2001, numérise des documents de priorité et les envoie à des offices désignés ou élus sous forme électronique sur DVD. Au fur et à mesure que le projet progressera, de plus en plus de documents seront numérisés et remis aux offices et aux administrations du PCT de cette manière. Au début de 2001, un groupe d'expression des intérêts des utilisateurs extérieurs d'IMPACT, composé d'un échantillon représentatif d'offices désignés ou élus, a été créé et constitue aujourd'hui un forum d'échanges où les futurs utilisateurs peuvent tester les fonctions en ligne envisagées.

18. **Projet de dépôt électronique dans le cadre du PCT** : ce projet, aujourd'hui connu sous le nouvel acronyme "PCT-SAFE" (Secure Applications Filed Electronically – demandes sécurisées déposées par la voie électronique), a deux objectifs distincts, à savoir l'adoption d'une norme relative au dépôt et au traitement électroniques des demandes internationales et la mise en œuvre d'un système de dépôt électronique des demandes internationales. Le premier objectif a été atteint en décembre 2001 lorsque le cadre juridique et la norme technique nécessaires au dépôt et au traitement électroniques des demandes internationales ont été publiés sous la forme de modifications des *Instructions administratives du PCT*. Il a fallu cinq séries de consultations et de révisions pour atteindre ce jalon. Des efforts constants sont déployés en vue de la mise au point d'un système de dépôt électronique des demandes internationales, qui devrait fonctionner effectivement en décembre 2003. À la fin de 2001, les activités d'expérimentation de prototypes étaient terminées, et l'analyse et la conception de la première version du logiciel ('beta') commençaient.

19. Le logiciel **PCT-EASY**, qui est conçu pour faciliter l'établissement, sous forme électronique, de la partie "requête" de la demande internationale, est un produit connu qui constitue un jalon du système de dépôt électronique dans le cadre du PCT. En juin 2001, une nouvelle version du logiciel a été diffusée, qui comprend les nouveaux États contractants du PCT et des barèmes de taxes mis à jour. Cette version prend en compte les nouvelles instructions administratives sur le dépôt de la partie de la demande internationale réservée au listage de séquences sous forme déchiffrable par ordinateur et, compte tenu des modifications apportées au règlement d'exécution du PCT, intègre une fonction relative aux déclarations (voir le paragraphe 12). En décembre 2001, une autre version a été diffusée, qui comporte les nouveaux États contractants du PCT, des barèmes de taxes modifiés ainsi que le "correcteur des abrégés" pour les versions en chinois, en japonais et en russe. En 2001, sept offices récepteurs ont notifié au Bureau international qu'ils étaient disposés à accepter le dépôt de demandes internationales contenant des requêtes établies à l'aide du logiciel PCT-EASY avec des disquettes PCT-EASY, faisant donc passer le nombre d'offices récepteurs ayant effectué une telle notification à 65 (sur les 86 offices récepteurs du PCT), et plus de 2500 nouveaux utilisateurs ont été enregistrés, ce qui porte le nombre total d'utilisateurs enregistrés à plus de 7500. Le logiciel et sa documentation sont disponibles en français, en allemand, en anglais, en chinois, en espagnol, en japonais et en russe; le logiciel a donné lieu à 18 000 téléchargements depuis le site Web du PCT-EASY et a fait l'objet d'environ 3000 CD-R. Il peut être téléchargé sur l'Internet à partir de la page d'accueil PCT-EASY (<http://pcteasy.wipo.int>) ou être obtenu auprès du groupe d'assistance PCT-EASY :

⁴ Figures relate to receiving Offices with which international applications were filed, except that applications filed with regional Offices or with the International Bureau as receiving Offices are included under the applicant's country of residence. Of the total, 14,492 (= 13.9%) were filed with the European Patent Office (EPO) as receiving Office and 2,665 (= 2.6%) were filed with the International Bureau as receiving Office.

⁵ The national Office of Switzerland also acts as receiving Office for nationals and residents of Liechtenstein.

22. Applicants from the United States of America filed the largest number of PCT applications in 2001, having filed 38.5% of all applications, followed by Germany (13.1%), Japan (11.4%), the United Kingdom (6.0%) and France (4.4%), thus repeating the trend of recent years. The filing of PCT applications in developing countries that are members of the PCT increased overall by 70.6% over 2000, with a particularly high increase in applications filed by applicants from China (188.4%), India (102.6%), the Republic of Korea (53.1%) and Mexico (50.7%). A total of 5,379 international applications originated from developing countries, the highest number originating from the Republic of Korea (2,318), China (1,670), South Africa (418), India (316) and Singapore (271).

23. An increasing number of applicants are taking advantage of the benefits of filing international applications containing requests prepared using the PCT-EASY software. Of the 103,947 international applications filed in 2001, 36,428 (35.0%) were prepared using the PCT-EASY software (2000: 27.4%).

24. In 2001, the average number of States designated per international application was 107 (2000: 93). This figure is much higher than the number of States for which patent protection will eventually be sought, because the applicants in respect of 77.0% of international applications filed in 2001 (2000: 68.4%) used the possibility of paying the maximum of six designation fees⁸ while making as many as all possible designations. Such applicants extend the effects of their international applications to as many States as might later be of interest to them, deferring the decision as to which States they wish to proceed in. Most applicants make designations for regional patents, which designations themselves have effect in a number of States. For example, in 2001, a European patent was sought in 97.5% of all international applications.

⁷ Figures relate to receiving Offices with which international applications were filed, except that applications filed with regional Offices or with the International Bureau as receiving Offices are included under the applicant's country of residence. Of the total, 14,492 (= 13.9%) were filed with the European Patent Office (EPO) as receiving Office and 2,665 (= 2.6%) were filed with the International Bureau as receiving Office.

⁸ With effect from January 1, 2002, the maximum number of designation fees payable is five.

22. En 2001, ce sont les déposants des États-Unis d'Amérique qui ont le plus recouru au système du PCT (38,5% de toutes les demandes déposées), suivis des déposants de l'Allemagne (13,1%), du Japon (11,4%), du Royaume-Uni (6%) et de la France (4,4%), confirmant ainsi la tendance des dernières années. Le nombre de demandes émanant de déposants de pays en développement ayant adhéré au PCT a augmenté globalement de 70,6% par rapport à 2000, cette augmentation étant particulièrement élevée pour la Chine (188,4%), l'Inde (102,6%), la République de Corée (53,1%) et le Mexique (50,7%). Cinq mille trois cent soixante-dix-neuf (5379) demandes internationales émanaient de déposants de pays en développement, les chiffres les plus élevés concernant la République de Corée (2318), la Chine (1670), l'Afrique du Sud (418), l'Inde (316) et Singapour (271).

23. Un nombre croissant de déposants profite des avantages qu'offre le dépôt des demandes internationales contenant les requêtes établies à l'aide du logiciel PCT-EASY. Sur les 103 947 demandes internationales déposées en 2001, 36 428 (35%) ont été établies à l'aide du logiciel PCT-EASY (contre 27,4% en 2000).

24. En 2001, le nombre moyen d'États désignés par demande internationale a été de 107 (contre 93 en 2000). Ce chiffre est beaucoup plus élevé que le nombre d'États dans lesquels les déposants chercheront en fin de compte à obtenir une protection par brevet; en effet, pour 77% des demandes internationales déposées en 2001 (contre 68,4% en 2000), les déposants ont opté pour le paiement du maximum de six taxes de désignation⁸, ce qui leur permet de désigner autant d'États contractants du PCT qu'ils le souhaitent. Les déposants étendent ainsi les effets de la demande internationale à tous les États qui peuvent présenter un intérêt pour eux, tout en gardant la possibilité de ne décider qu'à un stade ultérieur dans quels États ils vont poursuivre la procédure. La plupart des déposants font des désignations en vue de l'obtention de brevets régionaux, qui produisent leurs effets dans plusieurs États; ainsi, en 2001, un brevet européen a été demandé dans 97,5% des demandes internationales.

⁷ Chiffres calculés sur la base des offices récepteurs auprès desquels les demandes internationales ont été déposées, excepté pour les demandes déposées auprès d'offices régionaux ou auprès du Bureau international agissant en qualité d'offices récepteurs, qui sont comptabilisées dans les chiffres relatifs au pays où le déposant est domicilié. Sur le nombre total de demandes, 14 492 (= 13,9%) ont été déposées auprès de l'Office européen des brevets (OEB) et 2665 (= 2,6%) auprès du Bureau international, tous deux agissant en qualité d'offices récepteurs.

⁸ À compter du 1^{er} janvier 2002, le nombre maximum de taxes de désignation à payer est de cinq.

26. In 2001,¹⁰ the International Bureau as receiving Office received nearly 2,900 international applications (that is about 40% more than in 2000) from applicants from 56 countries. About 30% of those applications benefited from the safeguard procedure under which international applications are transmitted from another receiving Office to the International Bureau in its capacity as receiving Office while retaining their initial filing date (for example, where they have been filed with a “non-competent” receiving Office, for reasons of nationality or residence of the applicant or where the application was not filed in the prescribed language).

27. A copy of the international application is sent to the International Searching Authority competent for carrying out the international search. Where more than one Authority is competent, the applicant chooses the one he would like to carry out the search. The number of international applications that were sent to each International Searching Authority in 2001 is indicated below:

⁹ An international application filed in a language other than one of the languages of publication under the PCT is published as a translation into a language of publication; see paragraph 35.

¹⁰ The figures for December 2001 have not yet been confirmed; the final figures may vary slightly from the figures indicated above.

26. En 2001¹⁰, le Bureau international agissant en qualité d'office récepteur a reçu près de 2900 demandes internationales (soit environ 40% de plus qu'en 2000), qui provenaient de déposants de 56 pays. Parmi ces demandes, environ 30% ont bénéficié de la procédure de sauvegarde en vertu de laquelle une demande internationale déposée auprès d'un autre office récepteur est transmise au Bureau international agissant en qualité d'office récepteur tout en conservant sa date de dépôt initiale (par exemple, lorsqu'elle a été déposée auprès d'un office récepteur "non compétent", en raison de la nationalité ou du domicile du déposant, ou lorsqu'elle n'a pas été déposée dans la langue prescrite).

27. Une copie de chaque demande internationale est envoyée à l'administration chargée de la recherche internationale qui est compétente pour procéder à cette recherche. Lorsque plusieurs administrations sont compétentes, le déposant choisit celle à laquelle il préfère confier cette recherche. Le nombre de demandes internationales envoyées aux différentes administrations en question en 2001 s'établit comme suit :

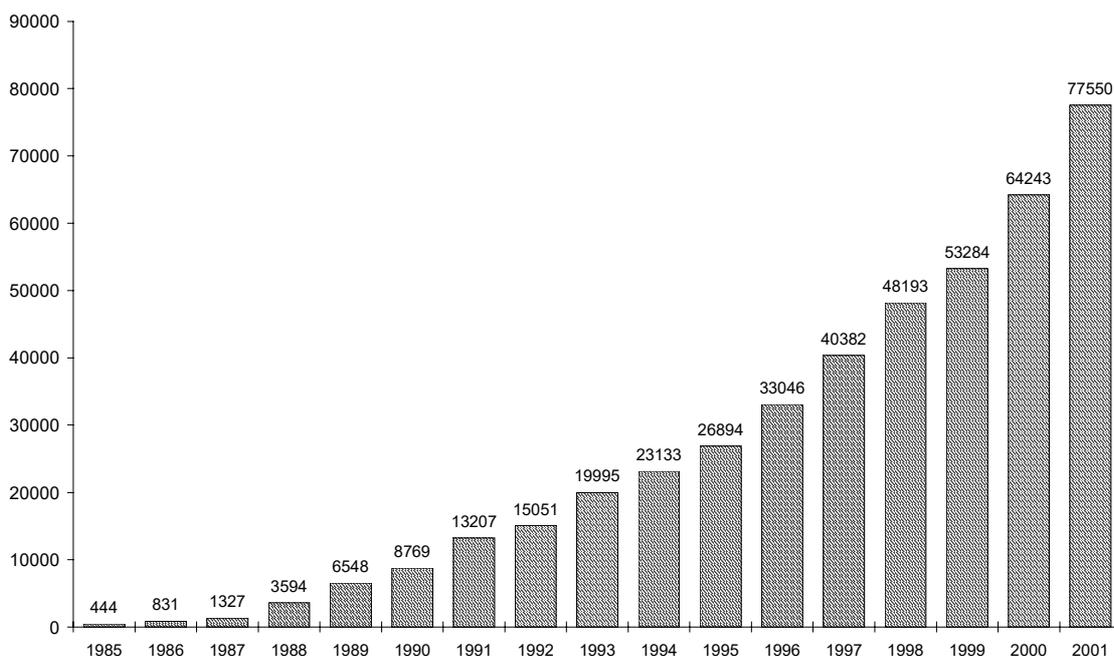

⁹ Les demandes internationales déposées dans une langue ne faisant pas partie des langues de publication prévues par le PCT sont publiées et traduites dans une des langues de publication; voir le paragraphe 35.

¹⁰ Les chiffres de décembre 2001 n'ont pas encore été confirmés; les chiffres finals peuvent être légèrement différents des chiffres indiqués ci-dessus.

Le *Guide du déposant du PCT*, qui contient des informations sur le dépôt des demandes internationales et la procédure de la phase internationale ainsi que des informations sur la phase nationale et la procédure auprès des offices désignés (ou élus), a été mis à jour en 2001 afin d’y consigner les nombreux changements intervenus durant la première partie de l’année. Une autre mise à jour est en cours d’élaboration. Environ 400 feuilles de mise à jour, établies dans chacune des langues, ont été envoyées à chaque abonné en 2001 (voir le paragraphe 45 de l’information sur la version Internet du *Guide*).

38. Douze numéros du bulletin *PCT Newsletter* ont été diffusés en 2001. Cette publication mensuelle contient, à l’intention des utilisateurs du PCT, des informations récentes sur les sujets essentiels traités dans la section IV de la *Gazette du PCT* et complète le *Guide du déposant du PCT* par des conseils pratiques aux déposants et aux mandataires, une liste des séminaires prévus sur le PCT, des tableaux récapitulatifs des taxes du PCT en diverses monnaies, ainsi que d’autres informations générales. Ce bulletin comprend aussi des feuilles provisoires détachables qu’il est possible d’insérer aisément dans le *Guide du déposant du PCT* pour tenir compte de certains changements importants avant la diffusion des mises à jour.

39. Depuis janvier 2001, l’information se trouvant auparavant sur les CD-ROM ESPACE WORLD figure désormais aussi dans des DVD-ROM. Les DVD-ROM ESPACE WORLD, qui sont mis au point chaque semaine par le Bureau international en coopération avec l’Office européen des brevets, contiennent chacun, en fac-similé, le texte complet et les dessins de toutes les demandes internationales et de tous les rapports de recherche internationale publiés chaque semaine ainsi que, sous une forme codée se prêtant à la recherche, les données bibliographiques correspondantes. Chaque DVD-ROM contient toutes les publications publiées la semaine concernée. Toutes les demandes internationales publiées depuis 1978 sont disponibles sur CD-ROM ou sur DVD-ROM.

Internet

45. New and improved resources on the PCT website contributed to an overall increase in traffic on the WIPO web server, which registered more than 100 million hits in 2001. The single most popular item downloaded from the WIPO site was the PCT request form in editable PDF format, in relation to which nearly 200,000 downloads were recorded. This new resource only became available in May 2001 and will, following its success, be supplemented with other editable PCT forms in 2002. Regular (three or four times a month) online updating of the electronic version of the *PCT Applicant's Guide* contributed to its growing number of regular users in 2001 when visitors peaked at over 6,000 per month in December. The popularity of the PCT Newsletter was boosted by the new searchable database of all "Practical Advice" sections published since 1997—over 4,500 visitors were recorded for the PCT Newsletter in December. The most popular resource on the PCT website remains the electronic version of the *PCT Gazette* which regularly receives more than 25,000 visitors per month. At the end of 2001, an e-mail updating service was introduced on the PCT website. Within less than a month, nearly 800 subscriptions had been received to the regular updating service. Other new materials included the contents of PCT seminar documents in four languages and a search facility for the text of the Patent Cooperation Treaty.

Internet

45. Les nouvelles ressources et l'amélioration des ressources placées sur le site Web du PCT ont contribué à intensifier l'utilisation générale du serveur Web de l'OMPI puisque plus de 100 millions de demandes d'accès ont été enregistrées en 2001. Le produit le plus populaire du site de l'OMPI est le formulaire de requête en version PDF prête à être remplie, qui a été téléchargé près de 200 000 fois. À ce nouveau produit, disponible depuis seulement mai 2001, s'ajouteront, compte tenu du succès qu'il remporte, d'autres formulaires PCT en version PDF prêts à être remplis. Le nombre croissant d'utilisateurs réguliers de la version électronique du *Guide du déposant du PCT* (ce nombre a atteint son maximum au mois de décembre 2001 puisqu'ils ont été plus de 6000) s'explique en partie par sa mise à jour en ligne régulière (trois ou quatre fois par mois). Le succès du bulletin *PCT Newsletter* a été renforcé par la mise à disposition d'une nouvelle base de données se prêtant à la recherche pour tous les conseils pratiques publiés depuis 1997 : plus de 4500 personnes ont consulté ce bulletin en décembre. Le produit le plus apprécié du site Web du PCT demeure la version électronique de la *Gazette du PCT*, qui est consultée par plus de 25 000 personnes chaque mois. À la fin de 2001, un service de mise à jour par courrier électronique a été placé sur le site Web du PCT. En l'espace de moins d'un mois, près de 800 personnes se sont inscrites. Parmi les autres nouveaux produits, on peut citer des documents pour les séminaires du PCT en quatre langues et une fonction de recherche dans le texte du Traité de coopération en matière de brevets.

NOTES TO THE REQUEST FORM (PCT/RO/101)

These Notes are intended to facilitate the filling in of the request form. For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the Patent Cooperation Treaty (PCT), the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the request form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the PCT Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with black ink (Rule 11.9(a) and (b)).

The request form and these Notes may be downloaded from WIPO's Website at the address given above.

WHERE TO FILE THE INTERNATIONAL APPLICATION

The international application (request, description, claims, abstract and drawings, if any) must be filed with a competent receiving Office (Article 11(1)(i))—that is, subject to any applicable prescriptions concerning national security, at the choice of the applicant, either:

(i) the receiving Office of, or acting for, a PCT Contracting State of which the applicant or, if there are two or more applicants, at least one of them, is a resident or national (Rule 19.1(a)(i) or (ii) or (b)), or

(ii) the International Bureau of WIPO in Geneva, Switzerland, if the applicant or, if there are two or more applicants, at least one of the applicants is a resident or national of any PCT Contracting State (Rule 19.1(a)(iii)).

APPLICANT'S OR AGENT'S FILE REFERENCE

A **file reference** may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded by the receiving Office or any International Authority (Rule 11.6(f) and Section 109).

BOX No. I

Title of Invention (Rules 4.3 and 5.1(a)): The title must be short (preferably two to seven words when in English or translated into English) and precise. It must be identical with the title heading the description.

BOXES Nos. II AND III

General: At least one of the applicants named must be a resident or national of a PCT Contracting State for which the receiving Office acts (Articles 9 and 11(1)(i) and Rules 18 and 19). If the international application is filed with the International Bureau under Rule 19.1(a)(iii), at least one of the applicants must be a resident or national of any PCT Contracting State.

If the United States of America is designated, all of the inventors must be named also as applicants for the purposes of that designation (see "Different Applicants for Different Designated States", below).

Indication Whether a Person is Applicant and/or Inventor (Rules 4.5(a) and 4.6(a) and (b)):

Check-box "This person is also inventor" (Box No. II): Mark this check-box if the applicant named is also the inventor or one of the inventors; do not mark this check-box if the applicant is a legal entity.

Check-box "applicant and inventor" (Box No. III): Mark this check-box if the person named is both applicant and inventor; do not mark this check-box if the person is a legal entity.

Check-box "applicant only" (Box No. III): Mark this check-box if the person named is a legal entity or if the person named is not also inventor.

Check-box "inventor only" (Box No. III): Mark this check-box if the person named is inventor but not also applicant; do not mark this check-box if the person is a legal entity.

In Box No. III, one of the three check-boxes must always be marked for each person named.

A person must not be named more than once in Boxes Nos. II and III, even where that person is both applicant and inventor.

Names and Addresses (Rule 4.4): The family name (preferably in capital letters) must be indicated before the given name(s). Titles and academic degrees must be omitted. Names of legal entities must be indicated by their full official designations.

The address must be indicated in such a way that it allows prompt postal delivery; it must consist of all the relevant administrative units (up to and including the indication of the house number, if any), the postal code (if any), and the name of the country.

Only one address may be indicated per person. For the indication of a special "address for correspondence", see the notes to Box No. IV.

Telephone, Facsimile and/or Teleprinter Numbers should be indicated for the person named in Box No. II in order to allow rapid communication with the applicant. Any such number should include the applicable country and area codes.

Applicant's registration number with the Office (Rule 4.5(e)): Where the applicant is registered with the national or regional Office acting as receiving Office, the request may indicate the number or other indication under which the applicant is so registered.

Nationality (Rules 4.5(a) and (b) and 18.1): For each applicant, the nationality must be indicated by the name or two-letter code of the State (that is, country) of which the person is a national. A legal entity constituted according to the national law of a State is considered a national of that State. The indication of the nationality is not required where a person is inventor only.

Residence (Rules 4.5(a) and (c) and 18.1): For each applicant, the residence must be indicated by the name or two-letter code of the State (that is, country) of which the person is a resident. If the State of residence is not indicated, it will be assumed to be the same as the State indicated in the address. Possession of a real and effective industrial or commercial establishment in a State is considered residence in that State. The indication of the residence is not required where a person is inventor only.

OÙ DÉPOSER LA DEMANDE INTERNATIONALE

Il faut que la demande internationale (requête, description, revendications, abrégé et, le cas échéant, dessins) soit déposée auprès d'un office récepteur compétent (article 11.1)i)), c'est-à-dire sous réserve des dispositions applicables en matière de défense nationale et au choix du déposant,

i) l'office récepteur d'un État contractant du PCT ou l'office agissant pour un tel État, dans lequel le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié ou dont il a la nationalité (règle 19.1.a)i) ou ii) ou b)), ou

RÉFÉRENCE DU DOSSIER DU DÉPOSANT OU DU MANDATAIRE

Il est possible d'indiquer, à titre facultatif, une telle **référence de dossier**. Celle-ci ne devrait pas dépasser 12 caractères. L'office récepteur ou toute administration internationale peut ne pas tenir compte des caractères en sus du douzième (règle 11.6.f) et instruction 109).

CADRE N° I

Si la demande internationale est déposée auprès du Bureau international en vertu de la règle 19.1.a)iii)), l'un au moins des déposants doit être domicilié dans un État contractant du PCT ou avoir la nationalité d'un tel État.

Si les États-Unis d'Amérique sont désignés, tous les inventeurs doivent être mentionnés également comme déposants pour cette désignation (voir, ci-après, "Déposants différents pour différents États désignés").

Indication visant à établir si une personne est déposant ou inventeur, ou les deux à la fois (règles 4.5.a) et 4.6.a) et b)) :

Case "Cette personne est aussi inventeur" (cadre n° II) : cocher cette case si la personne mentionnée est aussi l'inventeur ou l'un des inventeurs; ne pas la cocher si le déposant est une personne morale.

Case "déposant et inventeur" (cadre n° III) : cocher cette case si la personne mentionnée a les deux qualités, celle de déposant et celle d'inventeur; ne pas la cocher si cette personne est une personne morale.

Case "déposant seulement" (cadre n° III) : cocher cette case si la personne mentionnée est une personne morale ou si elle n'a pas aussi la qualité d'inventeur.

Case "inventeur seulement" (cadre n° III) : cocher cette case si la personne mentionnée a la qualité d'inventeur mais pas celle de déposant; ne pas la cocher si cette personne est une personne morale.

Dans le cadre n° III, il faut que l'une des trois cases soit cochée pour chaque personne mentionnée.

Une personne ne doit être mentionnée qu'une seule fois dans les cadres n° II et III, même si elle est à la fois déposant et inventeur.

L'adresse doit être indiquée de manière à permettre une distribution postale rapide; elle doit comprendre toutes les unités administratives pertinentes (jusques et y compris le numéro de la maison, s'il y en a un), le code postal, s'il y en a un, et le nom du pays.

Il ne peut être indiqué qu'une seule adresse par personne. En ce qui concerne l'indication d'une adresse spéciale pour la correspondance, voir les notes relatives au cadre n° IV.

Pour permettre une communication rapide avec le déposant, il y a lieu d'indiquer les **numéros de téléphone, de télécopieur ou de téléimprimeur** de la personne mentionnée dans le cadre n° II. Tout numéro de ce type doit comporter les indicatifs de pays et de zone en vigueur.

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 4.5.e)) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Nationalité (règles 4.5.a) et b) et 18.1) : la nationalité de chaque déposant doit être indiquée au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) dont l'intéressé

Different Applicants for Different Designated States (Rules 4.5(d), 18.3 and 19.2): It is possible to indicate different applicants for the purposes of different designated States. At least one of all the applicants named must be a national or resident of a PCT Contracting State for which the receiving Office acts, irrespective of the designated State(s) for the purposes of which that applicant is named. *Where the United States of America is one of the designated States, all of the inventors must be named also as applicants for the United States of America and the check-boxes "This person is also inventor" (in Box No. II) and/or "applicant and inventor" (in Box No. III) must be marked.*

For the indication of the designated States for which a person is applicant, mark the applicable check-box (only one for each person). The check-box "the States indicated in the Supplemental Box" must be marked where none of the other three check-boxes fits the circumstances; in such a case, the name of the person must be repeated in the Supplemental Box with an indication of the States for which that person is applicant (see item 1(ii) in that Box).

Naming of Inventor (Rule 4.1(a)(v) and (c)(i)): The inventor's name and address must be indicated where the national law of at least one of the designated States requires that the name of the inventor be furnished at the time of filing; for details, see the *PCT Applicant's Guide*, Volume I/A, Annexes B1 and B2. It is strongly recommended to always name the inventor.

Different Inventors for Different Designated States (Rule 4.6(c)): Different persons may be indicated as inventors for different designated States (for example, where, in this respect, the requirements of the national laws of the designated States are not the same); in such a case, the Supplemental Box must be used (see item 1(iii) in that Box). In the absence of any indication, it will be assumed that the inventor(s) named is (are) inventor(s) for all designated States.

BOX No. IV

Who Can Act as Agent (Article 49 and Rule 83.1bis): For each of the receiving Offices, information as to who can act as agent is given in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Agent or Common Representative (Rules 4.7, 4.8, 90.1 and 90.2 and Section 108): Mark the applicable check-box in order to indicate whether the person named is (or has been) appointed as "agent" or "common representative" (the "common representative" must be one of the applicants). For the manner in which name(s) and address(es) (including names of States) must be indicated, see the notes to Boxes Nos. II and III. Where several agents are listed, the agent to whom correspondence should be addressed is to be listed first. If there are two or more applicants but no common agent is appointed to represent all of them, one of the applicants who is a national or resident of a PCT Contracting State may be appointed by the other applicants as their common representative. If this is not done, the applicant first named in the request who is entitled to file an international application with the receiving Office concerned will automatically be considered to be the common representative.

Manner of Appointment of Agent or Common Representative (Rules 90.4 and 90.5 and Section 106): Any such appointment may be made by designating the agent(s) or the common representative in the request or in one or more separate powers of attorney. Each applicant must sign either the request or a separate power of attorney. Where the

international application is filed with reference to a general power of attorney, a copy thereof must be attached to the request. Any applicant who did not sign the general power of attorney must sign either the request or a separate power of attorney.

Agent's registration number with the Office (Rule 4.7(b)): Where the agent is registered with the national or regional Office that is acting as receiving Office, the request may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. IV will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II or III, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address must be indicated in Box No. IV instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. IV must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" has been marked).

BOX No. V

Designation of States (Rules 4.1(a)(iv) and 4.9(a)): The Contracting States in which protection is desired must be designated under Rule 4.9(a) in the request by marking the applicable check-boxes. At least one check-box effecting a specific designation must be marked. *While the general rule is that designations cannot be added after the filing of the international application, it is possible to make a precautionary designation under Rule 4.9(b) covering all other designations which would, as at the international filing date, be permitted under the PCT (see "Precautionary Designation of States Subject to Confirmation", below).*

Where regional (ARIPO, Eurasian, European and/or OAPI) patents are desired, only one PCT designation fee must be paid for each regional designation made, independently of how many States are covered by each such designation.

AP ARIPO Patent: Note that **SZ Swaziland** can only be designated for the purposes of an ARIPO patent and not for the purposes of a national patent. All other PCT Contracting States which are also party to the Harare Protocol can be designated either for a national or an ARIPO patent, or both a national and an ARIPO patent.

EA Eurasian Patent: All PCT Contracting States which are also party to the Eurasian Patent Convention can be designated either for a national or a Eurasian patent, or both a national and a Eurasian patent. Note, however, that it is not possible to designate only some of these States for a Eurasian patent and that any designation of one or more States for a Eurasian patent will be treated as a designation of all the States which are party to both the Convention and the PCT for a Eurasian patent.

EP European Patent: Note that **BE Belgium, CY Cyprus, FR France, GR Greece, IE Ireland, IT Italy, MC Monaco and NL Netherlands** can only be designated for the purposes of a European patent and not for the purposes of a national patent. All other PCT Contracting States which are also party

est ressortissant. Une personne morale constituée conformément à la législation d'un État contractant est considérée comme ayant la nationalité de cet État. L'indication de la nationalité n'est pas exigée lorsqu'une personne est inventeur seulement.

Domicile (règles 4.5.a) et c) et 18.1) : le domicile de chaque déposant doit être indiqué au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) où l'intéressé a son domicile. Si, cependant, le domicile n'est pas indiqué, l'État du domicile sera présumé être le même que celui qui est indiqué dans l'adresse. La possession d'un établissement industriel ou commercial effectif et sérieux dans un État est considérée comme constituant domicile dans cet État. L'indication du domicile n'est pas exigée lorsqu'une personne est inventeur seulement.

Nom des États (instruction 115) : pour indiquer le nom des États, on peut utiliser le code à deux lettres qui figure dans la norme ST.3 de l'OMPI et dans le *Guide du déposant du PCT*, volume I/B, annexe K.

Dépôts différents pour différents États désignés (règles 4.5.d), 18.3 et 19.2) : il est possible d'indiquer des dépôts différents pour différents États désignés. L'un au moins des déposants indiqués – quels que soient l'État ou les États désignés pour lesquels il est indiqué – doit être ressortissant d'un État contractant du PCT pour lequel l'office récepteur agit ou avoir son domicile dans un tel État. *Lorsque les États-Unis d'Amérique sont l'un des États désignés, tous les inventeurs doivent être indiqués comme déposants pour les États-Unis d'Amérique et les cases "Cette personne est aussi inventeur" (dans le cadre n° II) ou "déposant et inventeur" (dans le cadre n° III) doivent être cochées.*

Afin d'indiquer les États désignés pour lesquels une personne est déposant, il y a lieu de cocher la case appropriée (une seule case par personne). La case "les États indiqués dans le cadre supplémentaire" doit être cochée lorsque aucune des trois autres cases ne convient; en pareil cas, le nom de la personne doit être repris dans le cadre supplémentaire et assorti de l'indication des États pour lesquels cette personne est déposant (voir le point 1.ii) de ce cadre).

Mention de l'inventeur (règle 4.1.a)v) et c)i)) : le nom et l'adresse de l'inventeur doivent être indiqués lorsque la législation nationale d'un État désigné au moins exige la communication du nom de celui-ci lors du dépôt; pour plus de précisions, voir le *Guide du déposant du PCT*, volume I/A, annexes B1 et B2. Il est vivement recommandé de toujours indiquer le nom de l'inventeur.

Inventeurs différents pour différents États désignés (règle 4.6.c)) : des personnes différentes peuvent être indiquées en tant qu'inventeurs pour différents États désignés (par exemple, lorsque, en la matière, les exigences des législations nationales des États désignés diffèrent); en pareil cas, il y a lieu d'utiliser le cadre supplémentaire (voir le point 1.iii) de ce cadre). En l'absence d'indication, il sera supposé que l'inventeur ou les inventeurs mentionnés ont la qualité d'inventeur pour tous les États désignés.

CADRE N° IV

Qui peut agir en qualité de mandataire ? (article 49 et règle 83.1bis) : pour chacun des office récepteurs, on trouvera, dans le *Guide du déposant du PCT*, volume I/B, annexe C, des informations sur le point de savoir qui peut agir en qualité de mandataire.

Mandataire ou représentant commun (règles 4.7, 4.8, 90.1 et 90.2 et instruction 108) : cocher la case appropriée pour indiquer si la personne mentionnée est (ou a été) désignée comme "mandataire" ou "représentant commun" (le

"représentant commun" doit être l'un des déposants). Pour ce qui est de la façon d'indiquer les noms et adresses (y compris le nom des États), il convient de se reporter aux notes relatives aux cadres n°s II et III. Lorsque plusieurs mandataires sont indiqués, il faut mentionner en premier lieu celui à qui la correspondance doit être adressée. S'il y a plusieurs déposants mais aucun mandataire commun désigné pour les représenter tous, l'un des déposants qui est ressortissant d'un État contractant du PCT ou qui a son domicile dans un tel État peut être désigné par les autres comme leur représentant commun. A défaut, le déposant nommé en premier lieu dans la requête qui est autorisé à déposer une demande internationale auprès de l'office récepteur en question sera automatiquement considéré comme le représentant commun.

Mode de désignation d'un mandataire ou d'un représentant commun (règles 90.4 et 90.5 et instruction 106) : la désignation du ou des mandataires ou du représentant commun peut être effectuée dans la requête ou dans un ou plusieurs pouvoirs distincts. Chaque déposant doit signer la requête ou un pouvoir distinct. Si la demande internationale déposée fait état d'un pouvoir général, une copie de celui-ci doit être jointe à la requête. Tout déposant n'ayant pas signé le pouvoir général doit signer soit la requête soit un pouvoir distinct.

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 4.7.b)) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° IV sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II ou III – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, cette adresse doit être indiquée dans le cadre n° IV, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas, et seulement dans ce cas, qu'il y a lieu de cocher la dernière case du cadre n° IV (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° V

Désignation d'États (règles 4.1.a)iv) et 4.9.a)) : pour désigner conformément à la règle 4.9.a), dans la requête, les États contractants où la protection est demandée, il faut cocher les cases appropriées. Il faut qu'au moins une case, correspondant à une désignation expresse, soit cochée. *Bien que la règle générale soit qu'aucune désignation ne peut être ajoutée après le dépôt de la demande internationale, il est possible d'effectuer une désignation de précaution conformément à la règle 4.9.b) pour couvrir toutes les autres désignations qui, à la date du dépôt international, seraient autorisées selon le PCT (voir ci-après la rubrique "Désignation d'États à titre de précaution sous réserve de confirmation").*

Lorsque des brevets régionaux (ARIPO, eurasiatique, européen ou OAPI) sont demandés, une seule taxe de désignation du PCT est due pour chaque désignation régionale effectuée, quel que soit le nombre d'États couverts par celle-ci.

to the European Patent Convention can be designated either for a national or a European patent, or both a national and a European patent.

If an ARIPO or a European patent is desired for only some of the Contracting States of the Harare Protocol or the European Patent Convention, respectively, the names of those States for which a regional patent is not desired may be deleted by striking them out. However, it is recommended that the applicant always designate for the purposes of a regional patent all PCT Contracting States which are also Contracting States of the Protocol or the Convention, respectively. A decision to proceed with only some of those designations need not be made until entry into the regional phase, at which stage the corresponding regional designation fees must be paid.

Where any of the Contracting States of the Harare Protocol, the Eurasian Patent Convention or the European Patent Convention and the PCT is designated twice, namely *both* for the purposes of an ARIPO, a Eurasian or a European patent *and* for the purposes of national protection, the applicant must pay one designation fee in respect of the regional patent and as many designation fees as there are national patents or other titles of protection sought (Rule 15.1(ii) and Section 210).

Extension of EP European Patent to Certain States: If it is intended, at the time of entry into the European regional phase, to request the extension of the subsequently granted European patent to AL Albania, LT Lithuania, LV Latvia, MK The former Yugoslav Republic of Macedonia, RO Romania and/or SI Slovenia (and/or to any other PCT Contracting State for which, on the date of filing of the international application, an extension agreement with the European Patent Organisation is in force), Box No. V must contain *both* a designation of the State concerned for the purposes of a national patent and *also* a designation, for the purposes of obtaining a European patent, of at least one PCT Contracting State party to the European Patent Convention.

SI Slovenia: The designation of Slovenia for a national patent has the effect, within the framework of the extension agreement between Slovenia and the European Patent Organisation (see preceding paragraph), of a designation for a European patent. The designation SI Slovenia without the designation EP European Patent will have no effect.

OA OAPI Patent: The designation of States members of OAPI and party to the PCT can only be made for the purposes of an OAPI patent (no national protection is available); furthermore, it is not possible to designate only some of them.

Choice of Certain Kinds of Protection or Treatment (Rules 4.12 to 4.14 and Section 202): Where, in any country where it is possible, a kind of protection other than a patent is desired, write the name or two-letter code of that country followed by the name of the title; that is, “petty patent” (available in YU Yugoslavia), “provisional patent” (available in AM Armenia, KG Kyrgyzstan, KZ Kazakhstan, TM Turkmenistan, UZ Uzbekistan), “utility model” (available in AE United Arab Emirates, AL Albania, AM Armenia, AP ARIPO, AT Austria, AZ Azerbaijan, BG Bulgaria, BR Brazil, BY Belarus, BZ Belize, CN China, CR Costa Rica, CZ Czech Republic, DE Germany, DK Denmark, EC Ecuador, EE Estonia, ES Spain, FI Finland, GE Georgia, HU Hungary, JP Japan, KE Kenya, KG Kyrgyzstan, KR Republic of Korea, KZ Kazakhstan, LS Lesotho, MD Republic of Moldova, MX Mexico, MZ Mozambique, PH Philippines, PL Poland, PT Portugal, RU Russian Federation, SK Slovakia, SL Sierra Leone, TJ Tajikistan, TR Turkey, UA Ukraine, UZ Uzbekistan, VN Viet Nam, OA OAPI), “consensual patent” (available in HR Croatia), “utility certificate” (available in GH Ghana, TT Trinidad and Tobago, UG Uganda) or “inventor’s certificate” (available in CU Cuba and KP Democratic People’s Republic of Korea). Where, in AP ARIPO, AT Austria, CZ Czech Republic, DE Germany, DK Denmark, EE Estonia, FI Finland or SK Slovakia (the only countries in which this possibility exists), in addition to a patent, a utility

model is also desired, write after the name of that country “and utility model”.

Where, in respect of any country where it is possible, it is desired that the international application be treated as an application for a certain title “of addition” or as an application for a “continuation” or a “continuation-in-part”, write after the name of that country the appropriate words; that is, “patent of addition” (available in AE United Arab Emirates, AT Austria, AU Australia, BA Bosnia and Herzegovina, CU Cuba, DE Germany, ES Spain, IL Israel, IN India, MK The former Yugoslav Republic of Macedonia, MW Malawi, NZ New Zealand, PL Poland, SI Slovenia, TR Turkey, YU Yugoslavia, ZA South Africa, ZW Zimbabwe), “certificate of addition” (available in BR Brazil, DZ Algeria, MA Morocco, MG Madagascar, OA OAPI), “inventor’s certificate of addition” (available in CU Cuba), “continuation” or “continuation-in-part” (both available in US United States of America). If any of these indications is used, also indicate in the Supplemental Box the State for which such treatment is desired, the number of the parent title or parent application, and the date of the grant of the parent title or the date of filing of the parent application, as the case may be (see item 1(v) in that Box).

If, in Box No. V, the check-boxes for making designations are marked with consecutive Arabic numerals, those indications will be taken to express the applicant’s *choice of the order of the designations*; if another form of marking is used, the order will be taken as that in which the marked check-boxes appear on the form. This order will only have any significance if the amount received for the designation fees is insufficient to cover all the designations and remains insufficient after the applicant has been invited to pay the balance due; in that case, the amount received will be applied in payment of the fees for the designations following the said order (Rule 16bis.1(c) and Section 321).

The check-boxes located towards the bottom of Box No. V are reserved for designating, for the purposes of a national patent, States which have become party to the PCT after the date appearing at the bottom of the second sheet of the request form; in such a case, the name of the State, preferably preceded by the two-letter code, must be indicated on the dotted line and the corresponding check-box must be marked (together with an indication, where applicable, whether a special kind of protection or treatment is desired).

Precautionary Designation of States Subject to Confirmation (Rules 4.9(b) and (c) and 15.5): For the applicant’s safeguard, the lower part of Box No. V contains a statement (“Precautionary Designation Statement”) indicating the applicant’s wish to make, as a matter of precaution, in addition to the specific designations made by marking the check-boxes in the upper part of Box No. V (at least one such designation must be made), a precautionary designation of all other PCT Contracting States which are not specifically designated.

If the applicant does not wish to avail himself of this safeguard and does not want to make any such precautionary designations, the statement must be crossed out.

If the applicant wishes to expressly exclude a certain State from such precautionary designation so that the international application does not have any effect in that State, the name or two-letter code of that State should be indicated in the Supplemental Box. In no other case is it necessary to make use of this possibility.

If, after filing the international application, the applicant notices that there are any omissions and/or mistakes in respect of the specific designations made, it will be possible to rectify the situation by confirming the precautionary designations concerned. The confirmation of any precautionary designation is possible before the expiration of 15 months from the (earliest) priority date indicated in Box No. VI or, where no

AP brevet ARIPO : il est à noter que **SZ Swaziland** ne peut être désigné que pour un brevet ARIPO et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties au Protocole de Harare peuvent être désignés soit aux fins d'un brevet national ou d'un brevet ARIPO, soit à la fois aux fins d'un brevet national et d'un brevet ARIPO.

EA brevet eurasien : tous les États contractants du PCT qui sont aussi parties à la Convention sur le brevet eurasien peuvent être désignés soit aux fins d'un brevet national ou d'un brevet eurasien, soit à la fois aux fins d'un brevet national et d'un brevet eurasien. Cependant, il est à noter qu'il n'est pas possible de désigner seulement certains de ces États aux fins d'un brevet eurasien et que toute désignation d'un ou de plusieurs États aux fins d'un brevet eurasien sera traitée comme une désignation aux fins d'un brevet eurasien de tous les États qui sont parties à la fois à la Convention et au PCT.

EP brevet européen : il est à noter que **BE Belgique, CY Chypre, FR France, GR Grèce, IE Irlande, IT Italie, MC Monaco et NL Pays-Bas** ne peuvent être désignés que pour un brevet européen et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties à la Convention sur le brevet européen peuvent être désignés soit aux fins d'un brevet national ou d'un brevet européen, soit à la fois aux fins d'un brevet national et d'un brevet européen.

Si un brevet ARIPO ou un brevet européen est demandé pour certains seulement des États contractants du Protocole de Harare ou de la Convention sur le brevet européen, respectivement, le nom des États pour lesquels un brevet régional n'est pas demandé peut être biffé. Il est cependant recommandé de toujours désigner aux fins d'un brevet régional tous les États contractants du Protocole ou de la Convention, respectivement. Ce n'est que lorsqu'il s'agira d'aborder la phase régionale et de payer les taxes de désignation régionales que la décision de ne poursuivre la procédure d'obtention de brevet que pour certaines des désignations devra être prise.

Lorsqu'un ou plusieurs États parties au Protocole de Harare, à la Convention sur le brevet eurasien ou à la Convention sur le brevet européen et au PCT sont désignés deux fois, une fois aux fins d'un brevet ARIPO, d'un brevet eurasien ou d'un brevet européen et une autre fois aux fins d'une protection nationale, le déposant doit acquitter une taxe de désignation pour le brevet régional et autant de taxes de désignation qu'il y a de brevets ou autres titres de protection nationaux demandés (règle 15.1.ii) et instruction 210).

Extension du brevet européen (EP) à certains États : s'il est envisagé de demander, au moment de l'ouverture de la phase régionale européenne, l'extension du brevet européen qui sera obtenu ultérieurement à AL Albanie, LT Lituanie, LV Lettonie, MK Ex-République yougoslave de Macédoine, RO Roumanie, ou SI Slovénie (ou à tout autre État contractant du PCT pour lequel, à la date du dépôt de la demande internationale, un accord d'extension conclu avec l'Organisation européenne des brevets est en vigueur), le cadre n° V doit contenir **à la fois** la désignation de l'État concerné en vue de l'obtention d'un brevet national **et** la désignation, en vue de l'obtention d'un brevet européen, d'au moins un État contractant du PCT partie à la Convention sur le brevet européen.

SI Slovénie : la désignation de la Slovénie aux fins d'un brevet national a, dans le cadre de l'accord d'extension conclu entre la Slovénie et l'Organisation européenne des brevets (voir le paragraphe précédent), les effets d'une désignation aux fins d'un brevet européen. La désignation SI Slovénie sans la désignation EP brevet européen n'aura aucun effet.

OA brevet OAPI : la désignation des États membres de l'OAPI qui sont parties au PCT ne peut être effectuée qu'aux fins d'un brevet OAPI (aucune protection nationale n'est

offerte); de plus, il n'est pas possible de ne désigner que certains de ces États.

Choix de certaines formes de protection ou de traitement (règles 4.12 à 4.14 et instruction 202) : si, dans un pays, il est possible de demander une forme de protection autre qu'un brevet, écrire le nom de ce pays, ou le code à deux lettres, suivi du nom du titre en question, c'est-à-dire "petty patent" (pour YU Yougoslavie), "brevet provisoire" (pour AM Arménie, KG Kirghizistan, KZ Kazakhstan, TM Turkménistan, UZ Ouzbékistan), "modèle d'utilité" (pour AE Émirats arabes unis, AL Albanie, AM Arménie, AP ARIPO, AT Autriche, AZ Azerbaïdjan, BG Bulgarie, BR Brésil, BY Bélarus, BZ Belize, CN Chine, CR Costa Rica, CZ République tchèque, DE Allemagne, DK Danemark, EC Équateur, EE Estonie, ES Espagne, FI Finlande, GE Géorgie, HU Hongrie, JP Japon, KE Kenya, KG Kirghizistan, KR République de Corée, KZ Kazakhstan, LS Lesotho, MD République de Moldova, MX Mexique, MZ Mozambique, PH Philippines, PL Pologne, PT Portugal, RU Fédération de Russie, SK Slovaquie, SL Sierra Leone, TJ Tadjikistan, TR Turquie, UA Ukraine, UZ Ouzbékistan, VN Viet Nam, OA OAPI), "brevet consensuel" (pour HR Croatie), "certificat d'utilité" (pour GH Ghana, TT Trinité-et-Tobago, UG Ouganda), ou "certificat d'auteur d'invention" (pour CU Cuba et KP République populaire démocratique de Corée). Si, pour AP ARIPO, AT Autriche, CZ République tchèque, DE Allemagne, DK Danemark, EE Estonie, FI Finlande ou SK Slovaquie (seuls pays où cela est possible), un modèle d'utilité est demandé en plus d'un brevet, écrire après le nom de ce pays "et modèle d'utilité".

Si, pour un pays où cela est possible, il est souhaité que la demande internationale soit traitée comme une demande d'obtention d'un certain titre "d'addition" ou comme une demande de "continuation" ou de "continuation-in-part", écrire après le nom de ce pays la mention appropriée, c'est-à-dire "brevet d'addition" (pour AE Émirats arabes unis, AT Autriche, AU Australie, BA Bosnie-Herzégovine, CU Cuba, DE Allemagne, ES Espagne, IL Israël, IN Inde, MK Ex-République yougoslave de Macédoine, MW Malawi, NZ Nouvelle-Zélande, PL Pologne, SI Slovénie, TR Turquie, YU Yougoslavie, ZA Afrique du Sud, ZW Zimbabwe), "certificat d'addition" (pour BR Brésil, DZ Algérie, MA Maroc, MG Madagascar, OA OAPI), "certificat d'auteur d'invention additionnel" (pour CU Cuba), "continuation" ou "continuation-in-part" (pour US États-Unis d'Amérique). Si l'une de ces mentions est utilisée, indiquer également dans le cadre supplémentaire l'État pour lequel ce traitement est demandé, le numéro du titre principal ou de la demande principale et la date de délivrance du titre principal ou du dépôt de la demande principale, selon le cas (voir le point 1.v) de ce cadre).

L'indication, dans les cases du cadre n° V correspondant aux désignations, de numéros d'ordre en chiffres arabes sera considérée comme reflétant l'ordre des désignations choisi par le déposant; si les cases sont cochées d'une autre manière, l'ordre considéré sera celui dans lequel les cases cochées apparaissent sur le formulaire. Cet ordre n'aura de signification que si le montant reçu pour les taxes de désignation n'est pas suffisant pour couvrir l'ensemble des désignations et reste insuffisant après que le déposant a été invité à acquitter le solde débiteur; dans ce cas, le montant reçu sera affecté au paiement des taxes pour les désignations dans l'ordre en question (règle 16bis.1.c) et instruction 321).

Les cases situées en bas des colonnes sont réservées à la désignation, aux fins d'un brevet national, d'États qui sont devenus partie au PCT après la date qui figure au bas de la deuxième feuille du formulaire de requête; dans ce cas, il faut mentionner sur la ligne pointillée le nom de l'État, précédé de préférence du code à deux lettres, et cocher la case correspondante (en indiquant, le cas échéant, si une forme particulière de protection ou de traitement est souhaitée).

priority is claimed, the international filing date. To effect such confirmation, the applicant must file with the receiving Office a written notice specifying the name of each State the designation of which is confirmed (with, where applicable, an indication of the kind of treatment or protection desired) and pay to the receiving Office, for each such designation, a designation fee (even where five designation fees have already been paid) together with a confirmation fee corresponding to 50% of the designation fee.

The receiving Office will not send to the applicant any reminder or invitation to confirm precautionary designations.

If no precautionary designation is to be confirmed, no action is required by the applicant, and the precautionary designations will then be automatically regarded as withdrawn by the applicant at the expiration of 15 months from the priority date.

BOX No. VI

Priority Claim(s) (Rule 4.10): If the priority of an earlier application is claimed, the declaration containing the priority claim must be made in the request.

The request must indicate the *date* on which the earlier application from which priority is claimed was filed and the *number* it was assigned. Note that that date must fall within the period of 12 months preceding the international filing date.

Where the earlier application is a national application, the *country* party to the Paris Convention for the Protection of Industrial Property, or the *Member* of the World Trade Organization that is not a party to that Convention, in which that earlier application was filed must be indicated. Where the earlier application is a regional application, the *regional Office* concerned must be indicated. Where the earlier application is an international application, the *receiving Office* with which that earlier application was filed must be indicated.

Where the earlier application is a regional application (other than an ARIPO application), or an international application, the priority claim may also, if the applicant so wishes, indicate one or more countries party to the Paris Convention for which that earlier application was filed (Rule 4.10(b)(i)); such an indication is not, however, mandatory. Where the earlier application is an ARIPO application, at least one country party to the Paris Convention or one Member of the World Trade Organization for which that earlier application was filed must be indicated (Rule 4.10(b)(ii)).

As to the possibility of correcting or adding a priority claim, see Rule 26*bis* and the *PCT Applicant's Guide*, Volume I/A, General Part.

Certified Copy of Earlier Application (Rule 17.1): A certified copy of each earlier application the priority of which is claimed (priority document) must be submitted by the applicant, irrespective of whether that earlier application is a national, regional or international application. The priority document must be submitted to the receiving Office or to the International Bureau before the expiration of 16 months from the (earliest) priority date or, where an early start of the national phase is requested, not later than at the time such request is made. Any priority document received by the International Bureau after the expiration of the 16-month time limit but before the date of international publication shall be considered to have been received on the last day of that time limit (Rule 17.1(a)).

Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office (not later than 16 months after the priority date) to prepare and transmit the priority document to the International Bureau (Rule 4.1(c)(ii)). Such request may be made by marking the applicable check-boxes

which identify the respective documents. *Attention:* where such a request is made, the applicant must, where applicable, pay to the receiving Office the *fee for priority document*, otherwise, the request will be considered not to have been made (see Rule 17.1(b)).

Dates (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for the number of the day, the number of the month and the last two digits of the year, in that order and separated by periods, slants or hyphens, for example, “20 March 2001 (20.03.01)”, “20 March 2001 (20/03/01)” or “20 March 2001 (20-03-01)”.

BOX No. VII

Choice of International Searching Authority (ISA) (Rules 4.1(b)(vi) and 4.14*bis*): If two or more International Searching Authorities are competent for carrying out the international search in relation to the international application—depending on the language in which that application is filed and the receiving Office with which it is filed—the name of the competent Authority chosen by the applicant must be indicated in the space provided, either by its full name or two-letter code.

Request to Use Results of Earlier Search; Reference to that Search (Rules 4.11 and 4.1): The earlier search, if any, must be identified in such a manner that the ISA can retrieve the results easily. Where those results can be used, the ISA may refund the international search fee or a portion thereof.

BOX No. VIII

Declarations Containing Standardized Wording (Rules 4.1(c)(iii) and 4.17): At the option of the applicant, the request may, for the purposes of the national law applicable in one or more designated States, contain one or more of the following declarations:

- (i) declaration as to the identity of the inventor;
- (ii) declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent;
- (iii) declaration as to the applicant's entitlement, as at the international filing date, to claim the priority of the earlier application;
- (iv) declaration of inventorship (only for the purposes of the designation of the United States of America);
- (v) declaration as to non-prejudicial disclosures or exceptions to lack of novelty;

which must conform to the standardized wording provided for in Sections 211 to 215, respectively, and which must be set forth in Boxes Nos. VIII (i) to (v), as detailed below. Where any such declarations are included, the appropriate check-boxes in Box No. VIII should be marked and the number of each type of declaration should be indicated in the right-hand column. As to the possibility of correcting or adding a declaration, see Rule 26*ter*, Section 216 and the *PCT Applicant's Guide*, Volume I/A, General Part.

If the circumstances of a particular case are such that the standardized wordings are not applicable, the applicant should not attempt to make use of the declarations provided for in Rule 4.17 but rather will have to comply with the national requirements concerned upon entry into the national phase.

The fact that a declaration is made under Rule 4.17 does not of itself establish the matters declared; the effect of those matters in the designated States concerned will be determined by the designated Offices in accordance with the applicable national law.

Désignation d'États à titre de précaution sous réserve de confirmation (règles 4.9.b) et c) et 15.5) : dans l'intérêt du déposant, le cadre n° V comporte, en bas, une déclaration ("Déclaration concernant les désignations de précaution") indiquant que le déposant souhaite, en sus des désignations expresses effectuées en cochant les cases de la première partie de ce cadre (il doit y avoir au moins une désignation de ce type), désigner à titre de précaution tous les autres États contractants du PCT qui n'ont pas été désignés expressément.

Si le déposant ne souhaite pas faire usage de cette mesure de sécurité ni ne veut faire de désignations de précaution, la déclaration doit être biffée.

Si le déposant souhaite expressément exclure tel ou tel État d'une telle désignation faite à titre de précaution afin que la demande internationale ne produise aucun effet dans cet État, il y aura lieu d'indiquer le nom ou le code à deux lettres de cet État dans le cadre supplémentaire. Cette mention n'est nécessaire dans aucun autre cas.

Si le déposant constate, après le dépôt de la demande internationale, qu'il y a des erreurs ou des omissions en ce qui concerne les désignations faites expressément, il pourra rectifier les erreurs ou corriger les omissions en confirmant les désignations de précaution en question. Il est possible de confirmer une désignation de précaution jusqu'à l'expiration d'un délai de 15 mois à compter de la date de priorité (la plus ancienne) indiquée dans le cadre n° VI ou, si aucune priorité n'est revendiquée, de la date du dépôt international. Pour confirmer une telle désignation, il faut déposer auprès de l'office récepteur une déclaration écrite contenant l'indication du nom de chaque État dont la désignation est confirmée (avec, le cas échéant, une indication de la forme de traitement ou de protection souhaitée) et payer à l'office récepteur, pour chaque désignation ainsi confirmée, une taxe de désignation (même lorsque cinq taxes de désignation ont déjà été payées) ainsi qu'une taxe de confirmation correspondant à 50 % de la taxe de désignation.

L'office récepteur n'enverra au déposant aucun rappel ni invitation à confirmer des désignations de précaution.

Le déposant ne doit rien faire s'il ne veut confirmer aucune désignation de précaution; les désignations de précaution seront alors automatiquement considérées comme retirées par le déposant à l'expiration d'un délai de 15 mois à compter de la date de priorité.

CADRE N° VI

Revendication(s) de priorité (règle 4.10) : si la priorité d'une demande antérieure est revendiquée, la déclaration contenant la revendication de priorité doit figurer dans la requête.

La requête doit indiquer la *date* du dépôt de la demande antérieure dont la priorité est revendiquée et son *numéro*. Cette date doit tomber dans la période de 12 mois précédant la date du dépôt international.

Lorsque la demande antérieure est une demande nationale, il faut indiquer le *pays* partie à la Convention de Paris pour la protection de la propriété industrielle, ou le *membre* de l'Organisation mondiale du commerce qui n'est pas partie à ladite convention, où elle a été déposée; lorsque la demande antérieure est une demande régionale, l'*office régional* concerné; et lorsque la demande antérieure est une demande internationale, l'*office récepteur* auprès duquel elle a été déposée.

Lorsque la demande antérieure est une demande régionale (autre qu'une demande ARIPO) ou une demande internationale, la revendication de priorité peut aussi, si le déposant le souhaite, indiquer un ou plusieurs pays parties à la Convention de Paris pour lesquels cette demande a été déposée (règle 4.10.b)i); cette indication n'est cependant pas obligatoire. Lorsque la

demande antérieure est une demande ARIPO, il faut indiquer au moins un pays partie à la Convention de Paris ou un membre de l'Organisation mondiale du commerce pour lequel cette demande a été déposée (règle 4.10.b)ii)).

En ce qui concerne les possibilités de correction ou d'adjonction d'une revendication de priorité, voir la règle 26*bis* et le *Guide du déposant du PCT*, volume I/A, partie générale.

Copie certifiée conforme de la demande antérieure (règle 17.1) : le déposant doit présenter une copie certifiée conforme de chaque demande antérieure dont la priorité est revendiquée (document de priorité), que la demande antérieure soit une demande nationale, régionale ou internationale. Le document de priorité doit être présenté à l'office récepteur ou au Bureau international avant l'expiration d'un délai de 16 mois à compter de la date de priorité (la plus ancienne) ou, lorsque l'ouverture anticipée de la phase nationale est demandée, au plus tard à la date à laquelle est faite cette demande. Tout document de priorité qui parvient au Bureau international après l'expiration du délai de 16 mois mais avant la date de publication internationale est réputé avoir été reçu le dernier jour de ce délai (règle 17.1.a)).

Lorsque le document de priorité est délivré par l'office récepteur, le déposant peut, au lieu de présenter ce document, demander à l'office récepteur (au plus tard dans le délai de 16 mois à compter de la date de priorité) de l'établir et de le transmettre au Bureau international (règle 4.1.c)ii)). Pour effectuer une requête à cet effet, il faut cocher la case appropriée comportant les indications qui permettent d'identifier le document. *Important* : lorsqu'une telle requête est présentée, le déposant doit, le cas échéant, verser à l'office récepteur la *taxe afférente au document de priorité*; à défaut, cette requête sera considérée comme n'ayant pas été présentée (voir la règle 17.1.b)).

Dates (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples : "20 mars 2001 (20.03.01)", "20 mars 2001 (20/03/01)" ou "20 mars 2001 (20-03-01)".

CADRE N° VII

Choix de l'administration chargée de la recherche internationale (ISA) (règles 4.1.b)vi) et 4.14*bis*) : si plusieurs administrations chargées de la recherche internationale sont compétentes pour procéder à la recherche internationale concernant la demande internationale – en fonction de la langue dans laquelle cette demande est déposée et de l'office récepteur auprès duquel elle est déposée – le nom de l'administration compétente choisie par le déposant doit être indiqué dans l'espace prévu, soit en clair soit au moyen du code à deux lettres correspondant.

Demande d'utilisation des résultats d'une recherche antérieure; mention de cette recherche (règles 4.11 et 4.1) : la mention de la recherche antérieure éventuelle doit comporter des indications qui permettent à l'administration chargée de la recherche internationale d'en retrouver aisément les résultats. Si ces résultats sont utilisables, l'administration en question pourra rembourser la taxe de recherche internationale ou une fraction de celle-ci.

CADRE N° VIII

Déclarations comportant un libellé standard (règles 4.1.c)iii) et 4.17) : au choix du déposant, la requête peut, aux fins de la législation nationale applicable dans un ou plusieurs États désignés, contenir une ou plusieurs des déclarations suivantes :

Even if the wording of a declaration does not conform to the standardized wording provided for in the Administrative Instructions pursuant to Rule 4.17, any designated Office may accept that declaration for the purposes of the applicable national law, but is not required to do so.

Details as to National Law Requirements: For information on the declarations required by each designated Office, see the *PCT Applicant's Guide*, Volume II, in the relevant National Chapter.

Effect in Designated Offices (Rule 51bis.2): Where the applicant submits any of the declarations provided for in Rule 4.17(i) to (iv) containing the required standardized wording (either with the international application, or to the International Bureau within the relevant time limit under Rule 26ter, or directly to the designated Office during the national phase), the designated Office may not, in the national phase, require further documents or evidence on the matter to which the declaration relates, unless that designated Office may reasonably doubt the veracity of the declaration concerned.

Incompatibility of Certain Items of Rule 51bis.2(a) with National Laws (Rule 51bis.2(c)): The designated Offices listed below have informed the International Bureau that the applicable national law is not compatible in respect of the following declarations provided in Rule 4.17(i), (ii) and (iii). Those designated Offices are therefore entitled to require further documents or evidence on the matters to which those declarations relate.

Declaration as to the identity of the inventor (Rules 4.17(i) and 51bis.1(a)(i)): The respective national laws of CH Switzerland, DK Denmark and SE Sweden are not compatible with Rule 51bis.2(a)(i).

Declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51bis.1(a)(ii)): The respective national laws of CA Canada, CH Switzerland, DK Denmark, HU Hungary and SE Sweden are not compatible with Rule 51bis.2(a)(ii).

Declaration as to the applicant's entitlement as at the international filing date, to claim the priority of the earlier application (Rules 4.17(iii) and 51bis.1(a)(iii)): The respective national laws of CH Switzerland and DK Denmark are not compatible with Rule 51bis.2(a)(iii).

BOXES Nos. VIII (i) to (v) (IN GENERAL)

Different Declaration Boxes: There are six different declaration boxes in the pre-printed request form—one box for each of the five different types of declarations provided for in Rule 4.17 (Box No. VIII (i) to Box No. VIII (v)) and a continuation sheet (Continuation of Box No. VIII (i) to (v)) to be used in case any single declaration does not fit in the corresponding box. The title of each type of declaration which is found in the standardized wording provided for in the Administrative Instructions is pre-printed on the appropriate sheet of the request.

Separate Sheet for Each Declaration: Each declaration must start on a separate sheet of the request form in the appropriate Declaration Box.

Titles, Items, Item Numbers, Dotted Lines, Words in Parentheses and Words in Brackets: The prescribed standardized wording of the declarations includes titles, various items, item numbers, dotted lines, words in parentheses and words in brackets. Except for Box No. VIII (iv) which contains the pre-printed standardized wording, only those items which are applicable should be included in a declaration where necessary to support the statements in that declaration (that

is, omit those items which do not apply) and item numbers need not be included. Dotted lines indicate where information is required to be inserted. Words in parentheses are instructions to applicants as to the information which may be included in the declaration depending upon the factual circumstances. Words in brackets are optional and should appear in the declaration without the brackets if they apply; if they do not apply, they should be omitted together with the corresponding brackets.

Naming of Several Persons: More than one person may be named in a single declaration. In the alternative, with one exception, a separate declaration may be made for each person. With respect to the declaration of inventorship set forth in Box No. VIII (iv), which is applicable only for the purposes of the designation of the United States of America, all inventors must be indicated in a single declaration (see Notes to Box No. VIII (iv), below). The wording of declarations to be set forth in Boxes Nos. VIII (i), (ii), (iii) and (v) may be adapted from the singular to the plural as necessary.

Designated States to Which the Declarations Apply: Each declaration must indicate the designated States to which it applies. In this regard, the standardized wording of the declaration of inventorship (Box No. VIII (iv); see also Rule 4.17(iv) and Section 214) indicates in the title that it is for the purposes of the designation of the United States of America. The other declarations include prescribed wording to indicate whether the declaration is made for all designations or specific designations; one of these choices should always be included in the declaration. Where the declaration is for more than one person, the declaration may include separate statements indicating whether the declaration is made for all designations or specific designations with respect to each separate applicant. For example, this may be expected to occur where the request indicates different applicants for different States in accordance with Rule 4.5(d). However, in such a case, it is advisable to include a separate declaration for each person.

BOX No. VIII (i)

Declaration as to the Identity of the Inventor (Rule 4.17(i) and Section 211): The declaration must be worded as follows:

“Declaration as to the identity of the inventor (Rules 4.17(i) and 51bis.1(a)(i)):

in relation to [this] international application [No. PCT/...],

- (i) ... (*name*) of ... (*address*) is the inventor of the subject matter for which protection is sought by way of [the] [this] international application
- (ii) this declaration is made for the purposes of (*include as applicable*):
 - (a) all designations [except the designation of the United States of America]
 - (b) the following designations for national and/or regional patents: ...”

Such a declaration is not necessary in respect of any inventor who is indicated as such (either as inventor only or applicant and inventor) in Box No. II or No. III in accordance with Rule 4.5 or 4.6. However, where the inventor is indicated as applicant in Box No. II or No. III in accordance with Rule 4.5, a declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)) may be appropriate for the purposes of all designated States except the United States of America. Where indications regarding the inventor in accordance with Rule 4.5 or 4.6 are not included in Box No. II or No. III, this declaration may be combined with the prescribed wording of the declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)). For details on such a combined declaration, see Notes to Box No. VIII (ii), below. For details as to the declaration of inventorship for the purposes of the designation of the United States of America, see Notes to Box No. VIII (iv), below.

- i) une déclaration relative à l'identité de l'inventeur;
- ii) une déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet;
- iii) une déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure;
- iv) une déclaration relative à la qualité d'inventeur (seulement aux fins de la désignation des États-Unis d'Amérique);
- v) une déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté;

qui doivent être conformes au libellé standard fixé dans les instructions 211 à 215, respectivement, et qui doivent être présentées dans les cadres n^{os} VIII.i) à v), comme précisé ci-après. Lorsque de telles déclarations sont incluses, il convient de cocher les cases appropriées dans le cadre n^o VIII et d'indiquer dans la colonne de droite le nombre de déclarations de chaque type. En ce qui concerne les possibilités de correction ou d'adjonction d'une déclaration, voir la règle 26ter, l'instruction 216 et le *Guide du déposant du PCT*, volume I/A, partie générale.

Si les circonstances d'un cas particulier sont telles que les libellés standard ne sont pas applicables, le déposant s'abstiendra de faire les déclarations prévues à la règle 4.17, mais il devra satisfaire aux exigences de la législation nationale concernée lors de l'entrée dans la phase nationale.

Le fait qu'une déclaration soit faite en vertu de la règle 4.17 ne suffit pas à prouver les points sur lesquels elle porte; il appartient aux offices désignés de statuer sur l'effet de ces points dans les États désignés en fonction de la législation nationale applicable.

Même si le texte d'une déclaration ne respecte pas le libellé standard fixé dans les instructions administratives en vertu de la règle 4.17, tout office désigné est libre d'accepter ou non cette déclaration aux fins de la législation nationale applicable.

Précisions quant aux exigences des législations nationales : pour des précisions concernant les déclarations qui sont exigées par chaque office désigné, voir les chapitres nationaux pertinents dans le volume II du *Guide du déposant du PCT*.

Effets dans les offices désignés (règle 51bis.2) : lorsqu'un déposant remet l'une des déclarations visées à la règle 4.17.i) à iv) comportant le libellé standard exigé (soit avec la demande internationale, soit au Bureau international dans le délai applicable en vertu de la règle 26ter, ou directement à l'office désigné durant la phase nationale), l'office désigné ne peut, pendant la phase nationale, exiger d'autres documents ou preuves relatifs à l'objet auquel se rapporte la déclaration, à moins qu'il puisse raisonnablement douter de la véracité de la déclaration en question.

Incompatibilité de certains points de la règle 51bis.2.a) avec les législations nationales (règle 51bis.2.c) : les offices désignés dont la liste figure ci-après ont informé le Bureau international que la législation nationale qui leur est applicable n'est pas compatible en ce qui concerne les déclarations suivantes visées à la règle 4.17.i), ii) et iii). Ces offices désignés pourront donc exiger des documents ou des preuves supplémentaires relatifs aux objets auxquels se rapportent ces déclarations.

Déclaration relative à l'identité de l'inventeur (règles 4.17.i) et 51bis.1.a)ii) : les législations nationales respectives de CH Suisse, DK Danemark et SE Suède ne sont pas compatibles avec la règle 51bis.2.a)i).

Déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet (règles 4.17.ii) et 51bis.1.a)iii) : les législations nationales

respectives de CA Canada, CH Suisse, DK Danemark, HU Hongrie et SE Suède ne sont pas compatibles avec la règle 51bis.2.a)ii).

Déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure (règles 4.17.iii) et 51bis.1.a)iii) : les législations nationales respectives de CH Suisse et DK Danemark ne sont pas compatibles avec la règle 51bis.2.a)iii).

CADRES N^{os} VIII i) à v) (GÉNÉRALITÉS)

Différents cadres pour déclarations : le formulaire pré-imprimé contient six cadres différents pour déclarations, un pour chacun des cinq types de déclarations prévues selon la règle 4.17 (du cadre n^o VIII.i) au cadre n^o VIII.v)) et une feuille annexe (Suite du cadre n^o VIII.i) à v)) à utiliser dans le cas où une des déclarations ne tient pas dans le cadre approprié. Le titre de chaque déclaration qui figure dans le libellé standard prévu dans les instructions administratives est pré-imprimé sur la feuille correspondante de la requête.

Feuille distincte pour chaque déclaration : chaque déclaration doit commencer sur une feuille distincte de la requête et dans le cadre pour déclaration approprié.

Titres, éléments, numéros d'éléments, lignes pointillées, mots entre parenthèses et mots entre crochets : le libellé standard fixé pour les déclarations comporte un titre, différents éléments, des numéros d'éléments, des lignes pointillées, des mots entre parenthèses et des mots entre crochets. Sauf en ce qui concerne le cadre n^o VIII.iv) dans lequel le libellé standard est pré-imprimé, seuls les éléments pertinents doivent figurer dans une déclaration lorsque cela est nécessaire à l'énoncé des faits invoqués dans cette déclaration (en d'autres termes, il y a lieu d'omettre les éléments non pertinents) et il n'est pas nécessaire d'inclure les numéros d'éléments. Les lignes pointillées signalent les endroits où il y a lieu d'indiquer les renseignements demandés. Les mots entre parenthèses indiquent au déposant quels renseignements peuvent être inclus dans la déclaration selon la situation de fait. Les mots entre crochets sont facultatifs; s'ils sont applicables, ils doivent figurer dans la déclaration sans les crochets; s'ils ne sont pas applicables, il convient de les omettre ainsi que les crochets.

Mention de plusieurs personnes : plusieurs personnes peuvent être mentionnées dans une même déclaration. Il est aussi possible, sauf dans un cas, de faire une déclaration distincte par personne. Pour la déclaration relative à la qualité d'inventeur, figurant dans le cadre n^o VIII.iv), qui est applicable seulement aux fins de la désignation des États-Unis d'Amérique, tous les inventeurs doivent être indiqués dans une même déclaration (voir les notes du cadre n^o VIII.iv), ci-après). Dans les déclarations devant figurer dans les cadres n^{os} VIII.i), ii), iii) et v), le libellé au singulier peut être mis au pluriel si cela s'avère nécessaire.

États désignés auxquels les déclarations s'appliquent : chaque déclaration doit comporter l'indication des États désignés auxquels elle s'applique. À cet égard, le libellé standard pour la déclaration relative à la qualité d'inventeur (cadre n^o VIII.iv); voir également la règle 4.17.iv) et l'instruction 214) indique dans le titre que la déclaration est faite aux fins de la désignation des États-Unis d'Amérique. Les autres déclarations comportent des libellés prescrits pour indiquer si la déclaration est faite aux fins de toutes les désignations ou aux fins de désignations particulières. Une de ces options doit toujours figurer dans la déclaration. Lorsque la déclaration est faite en ce qui concerne plusieurs personnes, elle peut comporter des mentions distinctes indiquant si elle est faite aux fins de toutes les désignations ou aux fins de désignations particulières en ce qui concerne chacun des déposants. Le cas peut par exemple se présenter si la requête indique des déposants différents pour différents États, conformément à la règle 4.5.d). Dans une telle situation,

Either (a) or (b) of item (ix) should always be included in the declaration. The remainder of the items may be incorporated as is necessary to explain the applicant's entitlement. ***This declaration is only applicable to those events which have occurred prior to the international filing date.*** The possible kinds of transfer of entitlement in item (vii) include merger, acquisition, inheritance, donation, etc. Where there has been a succession of transfers from the inventor, the order in which transfers are listed should follow the actual succession of transfers, and items may be included more than once, as necessary to explain the applicant's entitlement. Where the inventor is not indicated in Box No. II or No. III, this declaration may be presented as a combined declaration explaining the applicant's entitlement to apply for and be granted a patent and identifying the inventor. In such a case, the introductory phrase of the declaration must be as follows:

"Combined declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51*bis*.1(a)(ii)) and as to the identity of the inventor (Rules 4.17(i) and 51*bis*.1(a)(i)), in a case where the declaration under Rule 4.17(iv) is not appropriate:"

The remainder of the combined declaration must be worded as indicated in the preceding paragraphs.

For details as to the declaration as to the identity of the inventor, see the Notes to Box No. VIII (i), above.

BOX No. VIII (iii)

Declaration as to the Applicant's Entitlement to Claim Priority of the Earlier Application (Rule 4.17(iii) and Section 213): The declaration must be worded as follows, with such inclusion, omission, repetition and re-ordering of the matters listed as items (i) to (viii) as is necessary to explain the applicant's entitlement:

"Declaration as to the applicant's entitlement, as at the international filing date, to claim the priority of the earlier application specified below, where the applicant is not the applicant who filed the earlier application or where the applicant's name has changed since the filing of the earlier application (Rules 4.17(iii) and 51*bis*.1(a)(iii)):

in relation to [this] international application [No. PCT/...],

... (*name*) is entitled to claim priority of earlier application No. ... by virtue of the following:

- (i) the applicant is the inventor of the subject matter for which protection was sought by way of the earlier application

- (vii) transfer of entitlement from ... (*name*) to ... (*name*) by way of ... (*specify kind of transfer*), dated ...
- (viii) the applicant's name changed from ... (*name*) to ... (*name*) on ... (*date*)
- (ix) this declaration is made for the purposes of (*include as applicable*):
 - (a) all designations
 - (b) the following designations for national and/or regional patents: ..."

Either (a) or (b) of item (ix) should always be included in the declaration. The remainder of the items may be incorporated as is necessary to explain the applicant's entitlement. ***This declaration is only applicable to those events which have occurred prior to the international filing date.*** In addition, this declaration is only applicable where the person or name of the applicant is different from that of the applicant who filed the earlier application from which priority is claimed. For example, this declaration may be applicable where only one applicant out of five is different from the applicants indicated in respect of an earlier application. The possible kinds of transfer of entitlement in item (vii) include merger, acquisition, inheritance, donation, etc. Where there has been a succession of transfers from the applicant in respect of the earlier application, the order in which transfers are listed should follow the actual succession of transfers, and items may be included more than once, as necessary to explain the applicant's entitlement.

BOX No. VIII (iv)

Declaration of Inventorship (Rule 4.17(iv) and Section 214): The standardized wording for the declaration is pre-printed in Box No. VIII (iv).

All inventors must be named in the declaration, even if they do not all sign the same (copy of) the declaration (Section 214(b)). Bibliographic data, such as address of

toutefois, il est conseillé d'inclure une déclaration distincte par personne.

CADRE N° VIII.i)

Déclaration relative à l'identité de l'inventeur (règle 4.17.i) et instruction 211) : la déclaration doit être libellée comme suit :

“Déclaration relative à l'identité de l'inventeur (règles 4.17.i) et 51*bis*.1.a)i) :

concernant la [présente] demande internationale [n° PCT/...],

- i) ... (*nom*), ... (*adresse*), est l'inventeur de ce pour quoi une protection est demandée dans [la] [ladite] demande internationale
- ii) la présente déclaration est faite aux fins (*préciser selon le cas*)
 - a) de toutes les désignations [sauf la désignation des États-Unis d'Amérique]
 - b) des désignations suivantes pour des brevets nationaux ou régionaux : ...”

Une déclaration de cette nature n'est pas nécessaire en ce qui concerne tout inventeur qui est indiqué comme tel (que ce soit comme inventeur seulement ou en qualité à la fois de déposant et d'inventeur) dans le cadre n° II ou le cadre n° III en application de la règle 4.5 ou 4.6. Toutefois, lorsque l'inventeur est indiqué comme étant le déposant dans le cadre n° II ou n° III en application de la règle 4.5, une déclaration relative au droit du déposant de demander et d'obtenir un brevet (règle 4.17.ii) peut être appropriée aux fins de tous les États désignés sauf des États-Unis d'Amérique. Lorsque les indications concernant l'inventeur qui sont à fournir en application de la règle 4.5 ou 4.6 ne sont pas portées dans le cadre n° II ou n° III, cette déclaration peut être combinée avec le libellé standard pour la déclaration relative au droit du déposant de demander et d'obtenir un brevet (règle 4.17.ii). Pour des précisions concernant cette déclaration combinée, voir les notes du cadre n° VIII.ii), ci-après. Pour des précisions quant à la déclaration relative à la qualité d'inventeur aux fins de la désignation des États-Unis d'Amérique, voir les notes du cadre n° VIII.iv), ci-après.

CADRE N° VIII.ii)

Déclaration relative au droit du déposant de demander et d'obtenir un brevet (règle 4.17.ii) et instruction 212) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à viii) nécessaires aux fins de motiver le droit du déposant :

“Déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet (règles 4.17.ii) et 51*bis*.1.a)ii)), dans le cas où la déclaration selon la règle 4.17.iv) n'est pas appropriée :

concernant la [présente] demande internationale [n° PCT/...],

... (*nom*) a le droit de demander et d'obtenir un brevet en vertu :

- i) du fait que ... (*nom*), ... (*adresse*), est l'inventeur de ce pour quoi une protection est demandée dans [la] [ladite] demande internationale
- ii) du fait que... (*nom*) [possède] [possédait] ce droit en qualité d'employeur de l'inventeur, ... (*nom de l'inventeur*)
- iii) d'un contrat conclu entre ... (*nom*) et ... (*nom*), daté du ...
- iv) d'une cession de ... (*nom*) à ... (*nom*), datée du ...
- v) d'une autorisation consentie par ... (*nom*) à ... (*nom*), datée du ...

- vi) d'une décision de justice rendue par ... (*nom du tribunal*), ordonnant un transfert de ... (*nom*) à ... (*nom*), datée du ...
- vii) d'un transfert de droits de ... (*nom*) à ... (*nom*), sous la forme de ... (*préciser le type de transfert*), daté du ...
- viii) du changement de nom du déposant de ... (*nom*) en ... (*nom*), le ... (*date*)
- ix) la présente déclaration est faite aux fins (*préciser selon le cas*)
 - a) de toutes les désignations [sauf la désignation des États-Unis d'Amérique]
 - b) des désignations suivantes pour des brevets nationaux ou régionaux : ...”

L'une ou l'autre des variantes a) et b) du point ix) doit toujours être incluse dans la déclaration. On ne retiendra parmi les autres éléments que ceux qui sont nécessaires pour motiver le droit du déposant. **Cette déclaration est exclusivement applicable à des faits qui se sont produits avant la date du dépôt international.** Les types possibles de transfert de droits visés au point vii) comprennent la fusion, l'acquisition, l'héritage, la donation, etc. Lorsqu'il y a eu succession de transferts des droits de l'inventeur, l'ordre dans lequel les transferts sont énumérés doit suivre l'ordre effectif de ces transferts successifs et certains points peuvent être cités plus d'une fois si cela s'avère nécessaire pour motiver le droit du déposant. Lorsque l'inventeur n'est pas indiqué dans le cadre n° II ou le cadre n° III, cette déclaration peut être présentée sous la forme d'une déclaration combinée motivant le droit du déposant de demander et d'obtenir un brevet et permettant d'identifier l'inventeur. Dans un tel cas, la phrase introductive de la déclaration est libellée comme suit :

BOX No. IX

Items Constituting the International Application: The number of sheets of the various parts of the international application must be given in the check list in Arabic numerals. Sheets containing any of Boxes Nos. VIII (i) to (v) must be counted as part of the request.

Where the application contains disclosure of one or more *nucleotide and/or amino acid sequences*, the applicant has the following three options.

First, the applicant may choose to file the sequence listing part *in paper form only*, in which case the number of sheets must be indicated under item (a) in the left column of Box No. IX (and therefore included in the total number of sheets), noting that, a copy of that sequence listing part, in computer readable form, may accompany the international application but only for the purposes of international search under Rule 13*ter*; in such a case, check-boxes Nos. 9 and 9(i) and, where applicable, 9(iii) must be marked in the right column of Box No. IX.

Second, the applicant may choose to file the sequence listing part *in computer readable form only*, under Section 801(a)(i), in which case check-box b(i) must be marked but the space for the number of sheets of the sequence listing part under item (a) must be left blank; the type and number of carriers must also be indicated on the dotted line under item (b); in addition, check-boxes Nos. 9, 9(ii) and, where applicable,

9(iii) must be marked if additional copies of the sequence listing in computer readable form are furnished.

Third, the applicant may choose to file the sequence listing part *both in computer readable form and in paper form* under Section 801(a)(ii), in which case check-box b(ii) must be marked and the number of sheets of that part in paper form must be indicated under item (a) (although that number of sheets will not be taken into account for calculation of the basic fee); the type and number of carriers must also be indicated on the dotted line under item (b); in addition, check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked if additional copies of the sequence listing in computer readable form are furnished.

Under all three options described above, the sequence listings must be presented as a separate part of the description (“sequence listing part of description”) in accordance with the standard contained in Annex C of the Administrative Instructions.

Items Accompanying the International Application:

Where the international application is accompanied by certain items, the applicable check-boxes must be marked, any applicable indication must be made on the dotted line after the applicable item, and the number of such items should be indicated at the end of the relevant line; detailed explanations are provided below only in respect of those items which so require.

Check-box No. 4: Mark this check-box where a copy of a general power of attorney is filed with the international application; where the general power of attorney has been deposited with the receiving Office, and that Office has accorded to it a reference number, that number may be indicated.

Check-box No. 5: Mark this check-box where a statement explaining the lack of signature of an inventor/applicant for the purposes of the United States of America is furnished together with the international application (see also Notes to Box No. X).

Check-box No. 7: Mark this check-box where a translation of the international application for the purposes of international search (Rule 12.3) is filed together with the international application and indicate the language of that translation.

Check-box No. 8: Mark this check-box where a filled-in Form PCT/RO/134 or any separate sheet containing indications concerning deposited microorganisms and/or other biological material is filed with the international application. If Form PCT/RO/134 or any sheet containing the said indications is included as one of the sheets of the description (as required by certain designated States (see the *PCT Applicant's Guide*, Volume I/B, Annex L)), do not mark this check-box (for further information, see Rule 13*bis* and Section 209).

Check-box No. 9: Where the international application contains a sequence listing part and a copy thereof in computer readable form is required by the ISA, the applicant may furnish the listing in computer readable form (together with the required statement) to the receiving Office with the international application, in which case check-boxes Nos. 9, 9(i) and, where applicable, 9(iii) must be marked. Where the applicant has chosen the second or third option mentioned above, and an additional copy or copies of the sequence listing part in computer readable form are required under Section 804, the applicant may furnish such additional copies together with the international application, in which case check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked. In all cases mentioned above, the applicant should indicate in the left column the type and number of diskettes, CD-ROMs, CD-Rs, or other data carriers furnished.

CADRE N° IX

Éléments constituant la demande internationale : Il faut indiquer en chiffres arabes, dans le bordereau, le nombre de feuilles des différentes parties de la demande internationale. Toute feuille sur laquelle figure l'un quelconque des cadres n°s VIII.i) à v) doit être comptée comme faisant partie de la requête.

Lorsque la demande internationale contient la divulgation d'une ou de plusieurs *séquences de nucléotides ou d'acides aminés*, le déposant dispose des trois options suivantes.

Premièrement, le déposant peut choisir de déposer la partie réservée au listage des séquences *sous forme papier seulement*, auquel cas le nombre de feuilles doit être indiqué au point a) de la colonne de gauche du cadre n° IX (et par conséquent compris dans le nombre total de feuilles); on notera dans ce cas qu'une copie de la partie réservée au listage des séquences, sous forme déchiffrable par ordinateur, peut être remise avec la demande internationale mais seulement aux fins de la recherche internationale en vertu de la règle 13ter; dans ce cas, les cases n°s 9, 9.i) et, le cas échéant, 9.iii), doivent être cochées dans la colonne de droite du cadre n° IX.

Deuxièmement, le déposant peut choisir de déposer la partie réservée au listage des séquences *sous forme déchiffrable par ordinateur seulement*, en vertu de l'instruction 801.a)i), auquel cas la case b)i) doit être cochée mais l'endroit réservé au nombre de feuilles de ladite partie sous le point a) doit être laissé en blanc; le type et le nombre de supports doivent également être indiqués sur la ligne pointillée sous le point b). De plus, les cases n°s 9, 9.ii) et, le cas échéant, 9.iii), doivent être cochées si on joint des exemplaires supplémentaires du listage des séquences sous forme déchiffrable par ordinateur.

Troisièmement, le déposant peut choisir de déposer la partie réservée au listage des séquences *à la fois sous forme déchiffrable par ordinateur et sous forme papier*, en vertu de l'instruction 801.a)ii), auquel cas la case b)ii) doit être cochée et le nombre de feuilles de ladite partie, sous forme papier, doit être indiqué sous le point a) (bien que ce nombre de feuilles ne soit pas utilisé aux fins du calcul de la taxe de base); le type et le nombre de supports doivent également être indiqués sur la ligne pointillée sous le point b). De plus, les cases n°s 9, 9.ii) et, le cas échéant, 9.iii), doivent être cochées si on joint des exemplaires supplémentaires du listage des séquences sous forme déchiffrable par ordinateur.

Dans le cadre des trois options décrites ci-dessus, les listages des séquences doivent être présentés dans une partie distincte de la description (“partie de la description réservée au listage des séquences”) conformément à la norme figurant dans l'annexe C des instructions administratives.

Éléments joints à la demande internationale : lorsque des éléments sont joints à la demande internationale, les cases

CADRE N° VIII.iv)

Déclaration relative à la qualité d'inventeur (règle 4.17.iv) et instruction 214) : le libellé standard pour la déclaration est pré-imprimé au cadre n° VIII.iv).

Tous les inventeurs doivent être mentionnés dans la déclaration même s'ils ne signent pas tous la même (copie de la) déclaration (instruction 214.b)). Les données bibliographiques, telles que l'adresse du domicile et la nationalité, doivent être fournies pour chaque inventeur. Dans le cas d'une déclaration incluse dans la requête, il n'est pas nécessaire que le ou les inventeurs signent ou datent la déclaration s'ils ont signé eux-mêmes dans le cadre n° X de la requête.

CADRE N° VIII.v)

Déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté (règle 4.17.v) et instruction 215) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à iv), qui s'avérerait nécessaire :

“Déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté (règles 4.17.v) et 51bis.1.a)v) :

... (*nom*) déclare que l'objet revendiqué dans [la] [ladite] demande internationale a été divulgué comme suit :

- i) nature de la divulgation (*préciser selon le cas*) :
 - a) exposition internationale
 - b) publication

Language of Filing of the International Application (Rules 12.1(a) and 20.4(c) and (d)): With regard to the language in which the international application is filed, for the purposes of according an international filing date, it is, subject to the following sentence, sufficient that the description and the claims are in the language, or one of the languages, accepted by the receiving Office for the filing of international applications; that language should be indicated in that check-box (as regards the language of the abstract and any text matter in the drawings, see Rules 26.3ter(a) and (b); as regards the language of the request, see Rules 12.3(c) and 26.3ter(c) and (d)). Note that where the international application is filed with the United States Patent and Trademark Office as receiving Office, all elements of the international application (request, description, claims, abstract, text matter of drawings) must, for the purposes of according an international filing date, be in English except that the free text in any sequence listing part of the description, complying with the standard set out in Annex C of the Administrative Instructions, may be in a language other than English.

BOX No. X

Signature (Rules 4.1(d), 4.15 and 90): The signature must be that of the applicant (if there are several applicants, all must sign); however, the signature may be that of the agent, or the common representative, where a separate power of attorney appointing the agent or the common representative, respectively, or a copy of a general power of attorney already in the possession of the receiving Office, is furnished. If the power is not filed with the request, the receiving Office will invite the applicant to furnish it.

If the United States of America is designated and an inventor/applicant for that State refused to sign the request or could not be found or reached after diligent effort, a statement explaining the lack of signature may be furnished. It should be noted that this applies only where there are two or more applicants and the international application has been signed by at least one other applicant. The statement must satisfy the receiving Office. If such a statement is furnished with the international application, check-box No. 5 in Box No. IX should be marked.

SUPPLEMENTAL BOX

The cases in which the Supplemental Box may be used and the manner of making indications in it are explained in the left column of that Box.

GENERAL REMARKS

Language of Correspondence (Rule 92.2 and Section 104): Any letter from the applicant to the receiving Office must be in the language of filing of the international application provided that, where the international application is to be published in the language of a translation required under Rule 12.3, such letter should be in the language of that translation; however, the receiving Office may authorize the use of another language.

Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Any letter from the applicant to the ISA must be in the same language as the international application, provided that, where a translation of the international application for the purposes of international search has been transmitted under Rule 23.1(b), such letter is in the language of that translation. However, the ISA may authorize the use of another language.

Arrangement of Elements and Numbering of Sheets of the International Application (Rule 11.7 and Section 207): The elements of the international application must be placed in the following order: the request, the description (excluding the sequence listing part, if any), the claim(s), the abstract, the drawings (if any), the sequence listing part of the description (if any).

All sheets of the description (excluding the sequence listing part), claims and abstract must be numbered in consecutive Arabic numerals, which must be placed at the top or bottom of the sheet, in the middle, but not in the margin which must remain blank. The number of each sheet of the drawings must consist of two Arabic numerals separated by an oblique stroke, the first being the sheet number and the second being the total number of sheets of drawings (for example, 1/3, 2/3, 3/3). For numbering of the sheets of the sequence listing part of the description, see Section 207.

Indication of the Applicant's or Agent's File Reference on the sheets of the description (excluding the sequence listing part, if any), claim(s), abstract, drawings and sequence listing part of the description (Rule 11.6(f)): The file reference indicated on the request may also be indicated in the left-hand corner of the top margin, within 1.5 cm from the top of any sheet of the international application.

appropriées doivent être cochées et toute indication pertinente doit être portée sur la ligne pointillée correspondante, le nombre de chacun de ces éléments devant être indiqué dans la colonne, en fin de ligne; on trouvera ci-après des explications détaillées concernant uniquement les éléments qui le nécessitent.

Case n° 4 : cocher cette case si la copie d'un pouvoir général est déposée avec la demande internationale; lorsque le pouvoir général a été déposé auprès de l'office récepteur, et que celui-ci lui a attribué un numéro de référence, ce dernier peut être indiqué.

Case n° 5 : cocher cette case si une explication de l'absence de signature d'un inventeur/déposant pour les États-Unis d'Amérique est fournie conjointement avec la demande internationale (voir aussi les notes du cadre n° X).

Case n° 7 : cocher cette case si une traduction de la demande internationale aux fins de la recherche internationale (règle 12.3) est fournie conjointement avec cette demande et indiquer la langue de la traduction.

Case n° 8 : cocher cette case si, avec la demande internationale, est déposé un formulaire PCT/RO/134 rempli ou une ou plusieurs feuilles séparées comportant des indications relatives à des micro-organismes ou autre matériel biologique déposés. Si le formulaire PCT/RO/134 ou toute autre feuille comportant les indications en question figurent en tant que feuilles de la description (comme le prescrivent certains États désignés (voir le *Guide du déposant du PCT*, volume I/B, annexe L), ne pas cocher cette case (pour de plus amples renseignements, voir la règle 13*bis* et l'instruction 209).

Case n° 9 : lorsque la demande internationale contient une partie réservée au listage des séquences et qu'une copie de cette dernière, sous forme déchiffrable par ordinateur, est requise par l'administration chargée de la recherche internationale, le déposant peut fournir, conjointement avec la demande internationale, le listage en question sous forme déchiffrable par ordinateur (ainsi que la déclaration requise) à l'office récepteur. Si tel est le cas, les cases n° 9, 9.i) et, le cas échéant, 9.iii) doivent être cochées. Lorsque le déposant a choisi la deuxième ou la troisième option mentionnée ci-dessus, et qu'un ou plusieurs exemplaires supplémentaires de la partie réservée au listage des séquences sont requis en vertu de l'instruction 804, le déposant peut remettre de tels exemplaires supplémentaires, conjointement avec la demande internationale, auquel cas les cases n° 9, 9.ii) et, le cas échéant, 9.iii) doivent être cochées. Dans tous les cas mentionnés ci-dessus, le déposant doit indiquer le type et le nombre de disquettes, CD-ROM, CD-R ou autres supports de données qu'il a remis.

Langue de dépôt de la demande internationale (règles 12.1.a) et 20.4.c) et d)) : en ce qui concerne la langue dans laquelle la demande internationale est déposée, il suffit, aux fins de l'attribution d'une date de dépôt international, et sous réserve de la phrase suivante, que la description et les revendications soient rédigées dans la langue ou l'une des langues acceptées par l'office récepteur pour le dépôt de demandes internationales; cette langue doit être indiquée dans cette case (en ce qui concerne la langue de l'abrégé et de tout texte des dessins, voir la règle 26.3*ter*.a) et b); en ce qui concerne la langue de la requête, voir les règles 12.3.c) et 26.3*ter*.c) et d)). On notera que, lorsque la demande internationale est déposée auprès de l'Office des brevets et des marques des États-Unis d'Amérique en sa qualité d'office récepteur, tous les éléments de la demande internationale (requête, description, revendications, abrégé, texte des dessins) doivent, aux fins de l'attribution d'une date de dépôt international, être rédigés en anglais, hormis tout texte libre contenu dans la partie de la description réservée au listage des séquences conforme à la norme figurant dans l'annexe C des instructions administratives, qui peut être rédigé dans une langue autre que l'anglais.

CADRE N° X

Signature (règles 4.1.d), 4.15 et 90) : la signature doit être celle du déposant (s'il y a plusieurs déposants, tous doivent

signer); il peut toutefois s'agir de la signature du mandataire ou du représentant commun, si un pouvoir distinct désignant le mandataire ou le représentant commun, respectivement, ou une copie du pouvoir général déjà détenu par l'office récepteur est fourni. Si la requête n'est pas déposée avec le pouvoir, l'office récepteur invitera le déposant à le remettre.

Si les États-Unis d'Amérique sont désignés et qu'un déposant pour cet État qui a la qualité d'inventeur a refusé de signer la requête ou que des efforts diligents n'ont pas permis de le trouver ou d'entrer en rapport avec lui, il est possible de fournir une explication de l'absence de signature. Cela vaut uniquement lorsqu'il y a plusieurs déposants et que la demande internationale a été signée par au moins un autre déposant. L'explication doit être jugée satisfaisante par l'office récepteur. Si cette explication est remise conjointement avec la demande internationale, il y a lieu de cocher la case n° 5 du cadre n° IX.

CADRE SUPPLÉMENTAIRE

Les cas dans lesquels le cadre supplémentaire peut être utilisé et la manière de fournir les indications prévues dans ce cadre sont expliqués dans la colonne de gauche de celui-ci.

REMARQUES GÉNÉRALES

Toute lettre du déposant au Bureau international doit être rédigée dans la même langue que la demande internationale si celle-ci est établie en français ou en anglais; sinon, elle doit être rédigée en français ou en anglais, au choix du déposant.

Toute lettre du déposant à l'administration chargée de la recherche internationale doit être rédigée dans la même langue que la demande internationale étant entendu que, lorsqu'une traduction de la demande internationale aux fins de la recherche internationale a été transmise en vertu de la règle 23.1.b), cette lettre doit être rédigée dans la langue de cette traduction. Cependant, l'administration chargée de la recherche internationale peut autoriser l'emploi d'une autre langue.

Disposition des éléments et numérotation des feuilles de la demande internationale (règle 11.7 et instruction 207) : les éléments de la demande internationale doivent être présentés dans l'ordre suivant : requête, description (sauf la partie de la description réservée au listage des séquences, le cas échéant), revendication(s), abrégé, dessins (le cas échéant), partie de la description réservée au listage des séquences, le cas échéant.

Toutes les feuilles de la description (sauf la partie réservée au listage des séquences), les revendications et l'abrégé doivent être numérotés consécutivement, en chiffres arabes qui doivent être inscrits, en milieu de ligne, en haut ou en bas de la feuille mais non dans la marge, qui doit rester vierge. Le numéro de chaque feuille des dessins doit consister en deux nombres en chiffres arabes séparés par une barre oblique, le premier indiquant le numéro de la feuille et le second le nombre total des feuilles de dessins (par exemple : 1/3, 2/3, 3/3). Pour la numérotation des feuilles de la partie de la description réservée au listage des séquences, se référer à l'instruction 207.

Indication de la référence du dossier du déposant ou du mandataire sur les feuilles de la description (sauf la partie de la description réservée au listage des séquences, le cas échéant), de la ou des revendications, de l'abrégé, des dessins et de la partie de la description réservée au listage des séquences (règle 11.6.f)) : la référence de dossier indiquée sur la requête peut l'être également sur chaque feuille de la demande internationale, dans le coin gauche de la marge du haut, sans toutefois apparaître au-delà de 1,5 cm à partir du haut.

This sheet is not part of and does not count as a sheet of the international application.

NOTES TO THE FEE CALCULATION SHEET (ANNEX TO FORM PCT/RO/101)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete the sheet by entering the appropriate amounts in the boxes provided and submit the fee calculation sheet at the time of filing the international application. This will help the receiving Office to verify the calculations and to identify any error in them.

Information about the applicable fees payable can be obtained from the receiving Office. The amounts of the international and search fees may change due to currency fluctuations. Applicants are advised to check what are the latest applicable amounts. All fees, except in some cases the designation fee, must be paid within one month from the date of receipt of the international application. See below for further details concerning the possibility of later payment of the designation fee.

CALCULATION OF PRESCRIBED FEES

Box T: Transmittal Fee for the benefit of the receiving Office (Rule 14.1): The amount of the transmittal fee, if any, is fixed by the receiving Office. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box S: Search Fee for the benefit of the International Searching Authority (ISA) (Rule 16.1): The amount of the search fee is fixed by the ISA. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex D.

Where two or more ISAs are competent, the applicant must indicate his choice in the space provided for this purpose and pay the amount of the international search fee fixed by the ISA chosen. Information on the competent ISA and whether the applicant has a choice between two or more ISAs is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box I: International Fee for the benefit of the International Bureau (Rule 15): The international fee consists of a basic fee and as many designation fees as there are specific designations under Rule 4.9(a) in Box No. V of the request. The amounts of the basic fee and of the designation fee are as set out in Swiss francs in the Schedule of Fees and the applicable amounts of those fees in other currencies are as published in the *PCT Gazette* (Rule 15.2). Information about those fees is also contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Reduction of the International Fee Where PCT-EASY Software Is Used: A fee reduction of 200 Swiss francs (or the equivalent in the currency in which the international fee is paid to the receiving Office) is available in certain cases where the PCT-EASY software is used to prepare the request, provided that the necessary conditions are met. For further details, see the *PCT Applicant's Guide*, Volume I/A, General Part, and Volume I/B, Annex C, as well as information published in the *PCT Gazette* and the *PCT Newsletter*. Since applicants using the PCT-EASY software will file the Request Form and Fee Calculation Sheet in the form of a printout prepared using that software, no provision is made for this fee reduction in the Fee Calculation Sheet annexed to Form PCT/RO/101.

Reduction of the International Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the international fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the international fee (basic fee and designation fees) is automatically available to any applicant

(or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Boxes Nos. II and III of the request.

The fee reduction is available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic, CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CO Colombia, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EC Ecuador, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GQ Equatorial Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PH Philippines, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TN Tunisia, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VN Viet Nam, YU Yugoslavia, ZA South Africa, ZM Zambia and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the International Fee (Basic Fee and Designation Fees) in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the international fee, the total to be entered at box I is 25% of the sum of the amounts entered at boxes B and D (see below).

Box B: Basic Fee. The amount of the basic fee depends on the number of sheets of the international application indicated under item (a) of Box No. IX of the request as explained below.

That number is the **Total number of sheets** where item (b) of Box No. IX of the request does not apply (that is, where the international application either does not contain a sequence listing part or where it contains such a part but not filed in computer readable form under Section 801(a)(i) or (ii)), in such a case, item "b3" must not be filled in.

Otherwise, where item (b) of Box No. IX of the request applies (that is, where the international application contains a sequence listing part which is filed in computer readable form

NOTES RELATIVES A LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/RO/101)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre au moment du dépôt de la demande internationale, ce qui permettra à l'office récepteur de vérifier les calculs et d'y déceler d'éventuelles erreurs.

Des renseignements sur le montant en vigueur des taxes à payer peuvent être obtenus auprès de l'office récepteur. Les montants de la taxe internationale et de la taxe de recherche peuvent varier en raison de fluctuations monétaires. Il est recommandé aux déposants de vérifier quels sont les tout derniers montants en vigueur. Toutes les taxes sauf, dans certains cas, la taxe de désignation doivent être payées dans un délai d'un mois à compter de la date de réception de la demande internationale. On trouvera ci-après quelques précisions supplémentaires relatives à un éventuel paiement différé de la taxe de désignation.

CALCUL DES TAXES PRESCRITES

Cadre T : Taxe de transmission au profit de l'office récepteur (règle 14.1) : l'office récepteur fixe le montant de la taxe de transmission, s'il y en a une. Celui-ci doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT*, volume I/B, annexe C.

Cadre S : Taxe de recherche au profit de l'administration chargée de la recherche internationale (règle 16.1) : le montant de la taxe de recherche est fixé par l'administration chargée de la recherche internationale. Il doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT*, volume I/B, annexe D.

Lorsque plusieurs administrations chargées de la recherche internationale sont compétentes, le déposant doit indiquer son choix à l'emplacement prévu à cet effet et payer le montant de la taxe de recherche internationale fixé par l'administration qu'il a choisie. Le *Guide du déposant du PCT*, volume I/B, annexe C, donne des renseignements sur l'administration chargée de la recherche internationale qui est compétente et sur la question de savoir si le déposant a le choix entre plusieurs administrations chargées de la recherche internationale.

Cadre I : Taxe internationale au profit du Bureau international (règle 15) : la taxe internationale comprend une taxe de base et autant de taxes de désignation qu'il y a de désignations faites expressément selon la règle 4.9.a) dans le cadre n° V de la requête. Les montants de la taxe de base et de la taxe de désignation sont fixés en francs suisses dans le barème des taxes et les montants correspondants de ces taxes dans d'autres monnaies sont publiés dans la *Gazette du PCT* (règle 15.2). On peut trouver des renseignements sur ces taxes dans le *Guide du déposant du PCT*, volume I/B, annexe C.

Réduction de la taxe internationale dans le cas de l'utilisation du logiciel PCT-EASY : une réduction de 200 francs suisses (ou l'équivalent dans la monnaie dans laquelle la taxe internationale est payée à l'office récepteur) peut être obtenue dans certains cas où le logiciel PCT-EASY est utilisé pour la préparation de la requête, à condition que les conditions nécessaires soient remplies. On peut trouver des précisions sur cette réduction dans le *Guide du déposant du PCT*, volume I/A, partie générale, et volume I/B, annexe C, ainsi que dans les informations publiées dans la *Gazette du PCT* et le bulletin *PCT Newsletter*. Étant donné que les déposants qui utilisent le logiciel PCT-EASY déposeront le formulaire de requête et la feuille de calcul des taxes sous la forme d'un imprimé produit par ordinateur à l'aide de ce logiciel, la feuille de calcul des taxes annexée au formulaire PCT/RO/101 ne prévoit pas cette réduction de taxe.

Réduction de la taxe internationale pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75 % de certaines taxes du PCT, dont la taxe internationale. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe internationale (taxe de base et taxe de désignation) s'applique automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans les cadres n°s II et III de la requête.

La réduction de la taxe s'applique même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus, BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CO Colombie, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EC Équateur, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GQ Guinée équatoriale, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, PH Philippines, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TN Tunisie, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud, ZM Zambie et ZW Zimbabwe. En ce qui concerne d'autres États, il convient de s'adresser au Bureau international.

Calcul de la taxe internationale (taxe de base et taxes de désignation) en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe

only, under Section 801(a)(i), or both in that form and in paper form under Section 801(a)(ii)), the number of sheets to be used for the purpose of calculating the amount of the basic fee is the **Sub-total number of sheets**. In such a case, item "b3" must be filled in on the basis that the sequence listing part in computer readable form is considered to be equal to 400 sheets (see Section 803).

The basic fee must be paid within one month from the date of receipt of the international application by the receiving Office.

Box D: Designation Fees. Subject to what is said below, the number of designation fees due corresponds to the number of check-boxes marked in Box No. V of the request.

The number of designation fees which are due is the same as the number of national patents and regional patents in respect of which specific designations under Rule 4.9(a) are made. Only one designation fee is due for the designation AP, the designation EA, the designation EP or the designation OA, irrespective of the number of States for which an ARIPO patent, a Eurasian patent, a European patent or an OAPI patent, respectively, is sought.

Where any States are designated twice (once for the purposes of an ARIPO patent, a Eurasian patent or a European patent and once for the purposes of national protection), the applicant must pay one designation fee in respect of the ARIPO patent, the Eurasian patent or the European patent and a further designation fee in respect of each national patent or other kind of protection sought (Rule 15.1(ii) and Section 210).

Any designation, in excess of five designations for which the fee is due, is free of charge. Therefore, the maximum amount to be indicated in box D is five times the amount of the designation fee. If, for example, 15 national patents and four regional patents (an ARIPO patent, a Eurasian patent, a European patent and an OAPI patent) are sought (totalling 19 designations), the figure to be indicated in box D is five times the amount of the designation fee.

The designation fees must be paid within one month from

the date of receipt of the international application by the receiving Office or one year from the priority date, whichever time limit expires later.

Box P: Fee for Priority Document (Rule 17.1(b)): Where the applicant has requested, by marking the applicable check-box in Box No. VI of the request, that the receiving Office prepare and transmit to the International Bureau a certified copy of the earlier application the priority of which is claimed, the amount of the fee prescribed by the receiving Office for such service may be entered (for information, see the *PCT Applicant's Guide*, Volume I/B, Annex C).

If that fee is not paid at the latest before the expiration of 16 months from the priority date, the receiving Office may consider the request under Rule 17.1(b) as not having been made.

Total Box: The total of the amounts entered in boxes T, S, I and P should be entered in this box. If the applicant so wishes, the currency in which the fees are paid may be indicated next to or in the total box.

Later Payment of Designation Fees: Where the time limit of one year from the priority date expires later than one month from the date of receipt of the international application by the receiving Office, and the applicant wishes to delay the payment of the designation fees, it is recommended that the corresponding check-box be marked.

MODE OF PAYMENT

In order to help the receiving Office identify the mode of payment of the prescribed fees, it is recommended that the applicable check-box(es) be marked.

AUTHORIZATION TO CHARGE (OR CREDIT) DEPOSIT ACCOUNT

The receiving Office will not charge (or credit) fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

internationale, la somme devant figurer sous I est égale à 25 % de la somme des montants figurant sous B et D (voir ci-dessous).

Cadre B : Taxe de base. Le montant de la taxe de base est fonction du nombre de feuilles de la demande internationale indiqué au point a) du cadre n° IX de la requête comme expliqué ci-dessous.

Ce nombre est le **nombre total de feuilles** lorsque le point b) du cadre n° IX de la requête ne s'applique pas (c'est-à-dire, si la demande internationale ne contient pas une partie réservée au listage des séquences ou qu'elle contient une telle partie mais que cette dernière n'est pas déposée sous forme déchiffrable par ordinateur en vertu de l'instruction 801.a)i) ou ii)), dans ce cas, le point "b3" ne doit pas être rempli.

Si non, lorsque le point b) du cadre n° IX de la requête s'applique (c'est-à-dire, si la demande internationale contient une partie réservée au listage des séquences qui est déposée sous forme déchiffrable par ordinateur seulement, en vertu de l'instruction 801.a)i), ou à la fois sous cette forme et sous forme papier en vertu de l'instruction 801.a)ii), le nombre de feuilles à utiliser pour le calcul du montant de la taxe de base est le **sous-total des feuilles**. Dans un tel cas, le point "b3" doit être rempli étant entendu que la partie réservée au listage des séquences sous forme déchiffrable par ordinateur est considérée comporter 400 pages (voir l'instruction 803).

La taxe de base doit être payée dans un délai d'un mois à compter de la date de réception de la demande internationale par l'office récepteur.

Cadre D : Taxes de désignation. Sous réserve de ce qui suit, le nombre de taxes de désignation dues correspond au nombre de cases cochées dans le cadre n° V de la requête.

Sont dues autant de taxes de désignation qu'il y a de brevets nationaux et de brevets régionaux pour lesquels une désignation expresse a été faite en vertu de la règle 4.9.a). Une seule taxe de désignation est due pour la désignation AP, la désignation EA, la désignation EP ou la désignation OA, quel que soit le nombre d'États pour lesquels un brevet ARIPO, un brevet eurasiatique, un brevet européen ou un brevet OAPI, respectivement, est demandé.

Si un ou plusieurs États sont désignés deux fois (une fois aux fins d'un brevet ARIPO, d'un brevet eurasiatique ou d'un brevet européen et une fois aux fins d'une protection nationale), le déposant doit payer une taxe de désignation pour le brevet ARIPO, le brevet eurasiatique ou le brevet européen et une autre taxe de désignation pour chaque brevet ou autre forme de protection nationale demandé (règle 15.1.ii) et instruction 210).

Toute désignation faite au-delà de cinq désignations soumises à la taxe est gratuite. Le montant maximum à

indiquer dans le cadre D est donc de cinq fois le montant de la taxe de désignation. Si, par exemple, 15 brevets nationaux et quatre brevets régionaux (un brevet ARIPO, un brevet eurasiatique, un brevet européen et un brevet OAPI) sont demandés (soit un total de 19 désignations), la somme à indiquer dans le cadre D est de cinq fois le montant de la taxe de désignation.

Les taxes de désignation doivent être payées dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale ou d'un an à compter de la date de priorité, le délai applicable étant celui des deux qui arrive à expiration le plus tard.

Cadre P : Taxe afférente au document de priorité (règle 17.1.b)) : si, en cochant la case appropriée dans le cadre n° VI de la requête, le déposant a demandé que l'office récepteur prépare et transmette au Bureau international une copie certifiée conforme de la demande antérieure dont la priorité est revendiquée, il peut indiquer le montant de la taxe prescrite par l'office récepteur pour ce service (pour plus de renseignements, voir le *Guide du déposant du PCT*, volume I/B, annexe C).

Si cette taxe n'est pas payée au plus tard avant l'expiration d'un délai de 16 mois à compter de la date de priorité, l'office récepteur peut considérer la requête selon la règle 17.1.b) comme n'ayant pas été présentée.

Total : le total des montants inscrits dans les cadres T, S, I et P doit être porté dans ce cadre. Le déposant peut, s'il le souhaite, indiquer à proximité ou à l'intérieur du cadre "Total" la monnaie dans laquelle il paie les taxes.

Paiement différé des taxes de désignation : si le délai d'un an à compter de la date de priorité arrive à expiration plus d'un mois après la date à laquelle l'office récepteur reçoit la demande internationale, et que le déposant souhaite différer le paiement des taxes de désignation, il est recommandé de cocher la case appropriée.

MODE DE PAIEMENT

Pour aider l'office récepteur à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

L'office récepteur ne débitera (ou ne créditera) un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.

The demand must be filed directly with the competent International Preliminary Examining Authority or, if two or more Authorities are competent, with the one chosen by the applicant. The full name or two-letter code of that Authority may be indicated by the applicant on the line below:

NOTES TO THE DEMAND FORM (PCT/IPEA/401)

These Notes are intended to facilitate the filling in of the demand form and to give some information concerning international preliminary examination under Chapter II of the Patent Cooperation Treaty (PCT). For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the PCT, the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the demand form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with dark ink (Rules 11.9(a) and (b) and 11.14).

The demand form and these Notes may be downloaded from WIPO's Website at the address given above.

IMPORTANT GENERAL INFORMATION

Who May File a Demand? (Article 31(2)(a) and Rule 54): A demand (for international preliminary examination) may only be filed by an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II of the PCT; furthermore, the international application must have been filed with a receiving Office of, or acting for, a State bound by Chapter II. Where there are two or more applicants (for the same or different elected States) at least one of them must qualify.

Where Must the Demand Be Filed? (Article 31(6)(a)): The demand must be filed with a competent International Preliminary Examining Authority (IPEA). The receiving Office with which the international application was filed will, upon request, give information about the competent IPEA (or see the *PCT Applicant's Guide*, Volume I/B, Annex C). If several IPEAs are competent, the applicant has the choice and the demand must be filed with (and the fees must be paid to) the IPEA chosen by the applicant. The IPEA chosen by the applicant may be identified, preferably by an indication of the name or two-letter code of the IPEA, at the top of the first sheet of the demand in the space provided for that purpose.

When Must the Demand Be Filed? (Article 39(1)): The demand must be filed within 19 months from the priority date, but **only in respect of some designated Offices**, if the applicant wishes to postpone the entry into the national phase until 30 months from the priority date (in some Offices even later); otherwise, the applicant must, within 20 months from the priority date, perform the prescribed acts for entry into the national phase before those designated Offices. **In respect of other designated Offices, the time limit of 30 months (in some Offices even later) will apply** even if no demand is filed within 19 months. See the Annex to Form PCT/IB/301 and, for details about the applicable time limits, Office by Office, see the *PCT Applicant's Guide*, Volume II, National Chapters.

In Which Language Must the Demand Be Filed? (Rule 55.1): The demand must be filed in the language in which international preliminary examination will be carried out (see Notes to Box No. IV).

What is the Language of Correspondence? (Rules 66.9 and 92.2 and Section 104): Any letter from the applicant to the IPEA must be in the same language as the international application to which it relates. However, where the international preliminary examination will be carried out on the basis of a translation (see Notes to Box No. IV), any letter from the applicant to the IPEA must be in the language of the translation. The IPEA may authorize the use of other languages for letters which do not contain or relate to amendments of the international application. Any letter from the applicant to the International Bureau must be in English or French, at the choice of the applicant. However, if the language of the international

application is English, the letter must be in English; if the language of the international application is French, the letter must be in French.

Which Fees Must Be Paid and When? (Rules 57 and 58): Two fees are due in respect of the international preliminary examination: the preliminary examination fee and the handling fee. Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The Fee Calculation Sheet should be used for that purpose. For details concerning the payment of the fees, see the Notes to that Sheet.

BOX No. I

Applicant's or Agent's File Reference: A file reference may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded (Section 109).

Identification of the International Application (Rule 53.6): The international application number must be indicated in Box No. I. Where the demand is filed at a time when the international application number has not yet been notified by the receiving Office, the name of that Office must be indicated instead of the international application number.

International Filing Date and (Earliest) Priority Date (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for each of the number of the day, the number of the month and the last two digits of the year, in that order, and separated by periods, slants or hyphens, for example, "20 March 2001 (20.03.01)", "20 March 2001 (20/03/01)" or "20 March 2001 (20-03-01)". Where the international application claims the priority of several earlier applications, the filing date of the earliest application whose priority is claimed must be indicated as the priority date.

Title of the Invention: If a new title has been established by the International Searching Authority, that title must be indicated in Box No. I.

BOX No. II

Applicant(s) (Rule 53.4): All the applicants for the elected States must be indicated in the demand; an applicant named in the request (Form PCT/RO/101) for a State which is not elected need not be named in the demand. It should be noted that the persons named as "inventor only" in the request need not be named in the demand.

Prière de remplir le formulaire à la machine à écrire. Les cases appropriées peuvent être cochées à la main, à l'encre foncée (règles 11.9.a) et b) et 11.14).

RENSEIGNEMENTS IMPORTANTS D'ORDRE GÉNÉRAL

Qui peut présenter une demande d'examen préliminaire international ? (article 31.2a) et règle 54) : une demande d'examen préliminaire international ne peut être présentée que par un déposant qui est ressortissant d'un État contractant lié par le chapitre II du PCT ou qui a son domicile dans un tel État; en outre, la demande internationale doit avoir été déposée auprès de l'office récepteur d'un État lié par le chapitre II, ou agissant pour un tel État. S'il y a plusieurs déposants (pour les mêmes États élus ou pour des États élus différents), au moins l'un d'entre eux doit remplir les conditions requises.

Où la demande d'examen préliminaire international doit-elle être présentée ? (article 31.6a)) : la demande d'examen préliminaire international doit être présentée à une administration chargée de l'examen préliminaire international (IPEA) compétente. L'office récepteur auprès duquel la demande internationale a été déposée donnera, sur demande, des renseignements au sujet de l'administration chargée de l'examen préliminaire international qui est compétente (voir aussi le *Guide du déposant du PCT*, volume I/B, annexe C). Si plusieurs administrations chargées de l'examen préliminaire international sont compétentes, le déposant doit présenter la demande d'examen préliminaire international à l'administration de son choix (et lui payer les taxes). Cette administration peut être indiquée, de préférence au moyen de son nom ou de son code à deux lettres, en haut de la première feuille de la demande d'examen préliminaire international, dans l'espace prévu à cet effet.

Quand la demande d'examen préliminaire international doit-elle être présentée ? (article 39.1)) : la demande d'examen préliminaire international doit être présentée avant l'expiration d'un délai de 19 mois à compter de la date de priorité, **mais seulement en ce qui concerne certains offices désignés**, si le déposant souhaite le report de la phase nationale jusqu'à 30 mois à compter de la date de priorité (ou plus dans certains offices); sinon, le déposant doit, dans le délai de 20 mois à compter de la date de priorité, accomplir les actes requis pour l'ouverture de la phase nationale auprès de ces offices. **En ce qui concerne d'autres offices désignés, le délai de 30 mois (dans certains offices, même plus tard) s'appliquera** même si aucune demande d'examen préliminaire international n'est présentée dans les 19 mois. Voir l'annexe du formulaire PCT/IB/301 et les chapitres nationaux du volume II du *Guide du déposant du PCT*.

En quelle langue la demande d'examen préliminaire international doit-elle être présentée ? (règle 55.1) : la

demande d'examen doit être présentée dans la langue dans laquelle l'examen préliminaire international sera effectué (voir les notes relatives au cadre n° IV).

Quelle est la langue à utiliser dans la correspondance ? (règles 66.9 et 92.2 et instruction 104) : toute lettre adressée par le déposant à l'administration chargée de l'examen préliminaire international doit être rédigée dans la même langue que la demande internationale qu'elle concerne. Cependant, lorsque l'examen préliminaire international doit être effectué sur la base d'une traduction (voir les notes relatives au cadre n° IV), toute lettre adressée par le déposant à l'administration chargée de cet examen doit être rédigée dans la langue de la traduction. L'administration chargée de l'examen peut autoriser l'utilisation d'autres langues pour des lettres qui ne contiennent pas de modifications de la demande internationale ou qui ne se rapportent pas à des modifications. Toute lettre adressée par le déposant au Bureau international doit être rédigée en anglais ou en français, au choix du déposant. Toutefois, si la langue de la demande internationale est l'anglais, la lettre doit être rédigée en anglais; si la langue de la demande internationale est le français, la lettre doit être rédigée en français.

Quelles taxes doivent être payées et quand ? (règles 57 et 58) : l'examen préliminaire international donne lieu au paiement de deux taxes : la taxe d'examen préliminaire et la taxe de traitement. Ces deux taxes doivent être acquittées auprès de l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date de présentation de la demande d'examen. La feuille de calcul des taxes devrait être utilisée à cette fin. Pour de plus amples renseignements concernant le paiement des taxes, voir les notes relatives à cette feuille.

CADRE N° I

Référence du dossier du déposant ou du mandataire : il est possible d'indiquer, à titre facultatif, une telle référence de dossier. Celle-ci ne devrait pas dépasser 12 caractères. L'administration chargée de l'examen préliminaire international peut ne pas tenir compte des caractères en sus du douzième (instruction 109).

Identification de la demande internationale (règle 53.6) : le numéro de la demande internationale doit être indiqué dans le cadre n° I. Si la demande d'examen préliminaire international est présentée alors même que le numéro de la demande

to the request apply *mutatis mutandis*. If there are two or more applicants for the States elected in the demand, give the required indications for each of them; if there are more than three applicants, make the required indications on the "Continuation Sheet".

If different applicants are indicated in the request for different designated States, indicate in Box No. II of the demand only the applicants for the States elected in Box No. V (no indication of the States for which a person is applicant need be made, because those indications have been made in the request).

Applicant's registration number with the Office (Rule 53.4): Where the applicant is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the applicant is so registered.

BOX No. III

Agent or Common Representative (Rules 53.5, 90.1 and 90.2): Mark the applicable check-boxes to indicate *first* whether the person named in this Box is agent or common representative, *then* whether that person *has been appointed earlier* (i.e., during the procedure under Chapter I), or *is appointed in the demand* and any earlier appointment of another person is revoked, or *is appointed specifically for the procedure before the IPEA* (without revocation of any earlier appointment), in addition to the person(s) appointed earlier.

Where an additional person is appointed specifically for the procedure before the IPEA, all notifications issued by the IPEA will be addressed only to that additional person.

A separate power of attorney must be filed with the IPEA, the International Bureau or the receiving Office, if the person appointed at the time the demand is filed (i.e., was not appointed earlier) signs the demand on behalf of the applicant (Rule 90.4).

Agent's registration number with the Office (Rule 53.5): Where the agent is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. III will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address may be indicated in Box No. III instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. III must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" in Box No. III has been marked).

BOX No. IV

Statement Concerning Amendments (Rules 53.2(a)(v), 53.9, 62, 66.1 and 69.1): The international preliminary examination will start on the basis of the international application as filed or, if amendments have been filed, as amended. Mark the appropriate check-box(es) to enable the IPEA to determine when and on what basis it can start international preliminary examination.

Mark the corresponding check-box(es) under No. 1 where the international preliminary examination should start on the basis of the international application as originally filed or where amendments are to be taken into account, as the case may be. Where amendments are to be taken into account, the applicant must submit *with the demand* a copy of amendments to the claims under Article 19 (Rule 53.9(a)(i)) and/or the amendments of the international application under Article 34 (Rule 53.9(c)), as the case may be. If a check-box is marked but the demand is not accompanied by the documents referred to, the start of international preliminary examination will be delayed until the IPEA receives them.

Mark check-box No. 2 if amendments of the claims under Article 19 have been filed with the International Bureau during the Chapter I procedure, but the applicant does not want these amendments to be taken into account for the purpose of international preliminary examination when the latter starts (Rule 53.9(a)(ii)).

Mark check-box No. 3 where the time limit for filing amendments of the claims under Article 19 has not expired at the time the demand is filed and the applicant wants to keep the option for the filing of such amendments open; the IPEA is thus requested to postpone the start of international preliminary examination (Rules 53.9(b) and 69.1(d)). It should be noted that the examination will start in any event after the expiration of 20 months from the priority date even where the time limit for filing amendments has not yet expired or no amendments have been received by the IPEA.

If no check-box is marked, refer to the footnote at the bottom of the Box.

Language for the Purposes of International Preliminary Examination (Rule 55.2): Where neither the language in which the international application is filed nor the language in which the international application is published is accepted by the IPEA that is to carry out the international preliminary examination, the applicant must furnish with the demand a translation of the international application into a language which is both a language accepted by that Authority and a language of publication.

Where such translation has already been furnished to the International Searching Authority for the purposes of carrying out international search and the IPEA is part of the same Office or intergovernmental organization as the International Searching Authority, the applicant need not furnish another translation. In such a case the international preliminary examination is carried out on the basis of the translation furnished for the purposes of international search.

The language for the purposes of international preliminary examination should be indicated in Box No. IV, on the dotted line, and the corresponding check-box should be marked.

internationale n'a pas encore été notifié par l'office récepteur, le nom de cet office doit être indiqué en lieu et place du numéro de la demande internationale.

Date du dépôt international et date de priorité (la plus ancienne) (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples "20 mars 2001 (20.03.01)", "20 mars 2001 (20/03/01)" ou "20 mars 2001 (20-03-01)". Lorsque la demande internationale revendique la priorité de plusieurs demandes antérieures, la date de dépôt de la plus ancienne demande dont la priorité est revendiquée doit être indiquée en tant que date de priorité.

Titre de l'invention : si l'administration chargée de la recherche internationale a établi un nouveau titre, celui-ci doit être indiqué dans le cadre n° I.

CADRE N° II

Déposant(s) (règle 53.4) : tous les déposants qui ont cette qualité pour les États élus doivent être mentionnés dans la demande d'examen préliminaire international; un déposant mentionné dans la requête (formulaire PCT/RO/101) pour un État qui n'est pas élu n'a pas à être mentionné dans la demande d'examen préliminaire international. Il est à noter que les personnes mentionnées dans la requête comme "inventeur seulement" n'ont pas non plus à être mentionnées dans la demande d'examen préliminaire international.

Reprendre dans le cadre n° II de la demande d'examen préliminaire international les indications requises figurant dans les cadres n°s II et III de la requête. Les notes relatives à la requête s'appliquent *mutatis mutandis*. S'il y a pluralité de déposants pour les États élus dans la demande d'examen préliminaire international, fournir les indications requises sur chacun d'eux; si ces déposants sont plus de trois, porter les indications en question sur une "feuille annexe".

Si, dans la requête, des déposants différents sont indiqués pour différents États désignés, n'indiquer dans le cadre n° II de la demande d'examen préliminaire international que les déposants ayant cette qualité pour les États élus dans le cadre n° V (il n'y a pas lieu d'indiquer les États pour lesquels une personne est mentionnée comme déposant, car ces indications ont été fournies dans la requête).

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 53.4) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

CADRE N° III

Mandataire ou représentant commun (règles 53.5, 90.1 et 90.2) : cocher les cases appropriées afin d'indiquer, *premièrement*, si la personne indiquée dans le cadre n° III est mandataire ou représentant commun, *deuxièmement*, si cette personne a été désignée à une date antérieure (c'est-à-dire au cours de la procédure prévue au chapitre I), *est désignée dans la demande d'examen préliminaire international* (toute désignation antérieure d'une autre personne étant révoquée) ou *est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire*

international (sans qu'il y ait révocation d'une désignation antérieure) en sus de la ou des personnes désignées antérieurement.

Lorsqu'une personne supplémentaire est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international, toute la correspondance émanant de cette administration sera adressée seulement à cette personne supplémentaire.

Un pouvoir distinct doit être déposé auprès de l'administration chargée de l'examen préliminaire international, du Bureau international ou de l'office récepteur si la personne qui est désignée au moment de la présentation de la demande d'examen préliminaire international (et qui n'a donc pas été désignée antérieurement) signe cette demande d'examen au nom du déposant (règle 90.4).

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 53.5) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° III sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, il est possible d'indiquer cette adresse dans le cadre n° III, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas et seulement dans ce cas qu'il y a lieu de cocher la dernière case du cadre n° III (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° IV

Déclaration concernant les modifications (règles 53.2.a)v), 53.9, 62, 66.1 et 69.1) : l'examen préliminaire international commencera sur la base de la demande internationale telle qu'elle a été déposée ou, si des modifications ont été déposées, telle qu'elle a été modifiée. Cocher la ou les cases appropriées pour permettre à l'administration chargée de l'examen préliminaire international de déterminer si elle peut commencer l'examen préliminaire international et sur quelle base.

Cocher la ou les cases appropriées de la rubrique n° 1 pour indiquer si l'examen préliminaire international doit commencer sur la base de la demande internationale telle qu'elle a été déposée ou s'il doit être tenu compte de modifications, selon le cas. S'il y a des modifications à prendre en compte, le déposant doit présenter *avec la demande d'examen* une copie des modifications apportées aux revendications en vertu de l'article 19 (règle 53.9.a)i) ou des modifications apportées à la demande internationale en vertu de l'article 34 (règle 53.9.c)), ou une copie des deux types de

Language of Amendments (Rules 55.3 and 66.9): Amendments and letters relating thereto must be in the same language as that in which the international preliminary examination is carried out, as explained in the preceding paragraphs.

Time Limit for Furnishing Translation of the International Application (Rule 55.2): Any required translation of the international application should be furnished (by the applicant) together with the demand. If it is not so furnished, the IPEA will invite the applicant to furnish it within a time limit which shall not be less than one month from the date of the invitation. That time limit may be extended by the IPEA.

BOX No. V

Election of States (Rule 53.7): Only States which are bound by Chapter II of the PCT *and* which have been designated in the international application (that is, States whose designations have been made under Rule 4.9(a), confirmed under Rule 4.9(c) or considered as having been made under Rule 32.2(a)(i)) can be elected. They are the “eligible States”.

For the convenience and protection of applicants, Box No. V contains a statement to the effect that all eligible States are elected. It is only where the applicant does not wish to elect certain eligible States that the name(s) or two-letter code(s) of those States must be indicated after the words “wishes not to elect:”.

The indication in the demand of the kind of protection or treatment desired for any elected State is not required since

it follows the indication made when designating that State in the international application.

BOX No. VI

Check List: It is recommended that this Box be filled in carefully in order for the IPEA to determine as soon as possible whether it is in possession of the documents on the basis of which the applicant wishes international preliminary examination to start.

Where the international application contains disclosure of one or more nucleotide and/or amino acid sequences, and a copy of the sequence listing in computer readable form complying with the standard provided for in the Administrative Instructions is required by the IPEA, the applicant may furnish the listing in computer readable form to the IPEA with the demand. If this is the case, check-box No. 5 must be marked.

BOX No. VII

Signature (Rules 53.8, 90.3(a) and 90.4(a)): The demand must be signed by the applicant or by his agent; if there are two or more applicants, the common representative may sign the demand. If the demand is not signed by (all) the persons who are applicants for the elected States (a person who is applicant only for a State which is not elected need not sign the demand), a power of attorney signed by that (all those) applicant(s) must be filed with the IPEA, with the International Bureau or with the receiving Office unless the agent has previously been appointed.

modifications, selon le cas. Si une case est cochée et que les documents correspondants ne sont pas joints à la demande d'examen préliminaire international, le commencement de cet examen sera différé jusqu'à ce que l'administration qui en est chargée les reçoive.

Cocher la case n° 2 si des modifications apportées aux revendications en vertu de l'article 19 ont été déposées auprès du Bureau international lors de la procédure prévue au chapitre I, et que le déposant ne veut pas qu'il en soit tenu compte aux fins de l'examen préliminaire international lorsque celui-ci commencera (règle 53.9.a)ii).

Cocher la case n° 3 si le délai fixé pour le dépôt de modifications des revendications en vertu de l'article 19 n'a pas expiré au moment où la demande d'examen préliminaire international est présentée et que le déposant veut conserver la possibilité de déposer de telles modifications; il est ainsi demandé à l'administration chargée de l'examen préliminaire international de différer le commencement de cet examen (règles 53.9.b) et 69.1.d)). Il est à noter que l'examen commencera, en tout état de cause, après l'expiration d'un délai de 20 mois à compter de la date de priorité, même si le délai pour déposer des modifications n'a pas expiré ou que l'administration chargée de l'examen préliminaire international n'a reçu aucune modification.

Si aucune case n'est cochée, la procédure décrite dans la note figurant au bas du cadre sera suivie.

Langue aux fins de l'examen préliminaire international (règle 55.2) : lorsque ni la langue dans laquelle la demande internationale est déposée ni la langue dans laquelle elle est publiée n'est acceptée par l'administration chargée de l'examen préliminaire international qui effectuera cet examen, le déposant doit remettre avec la demande d'examen préliminaire international une traduction de la demande internationale dans une langue qui est à la fois une langue acceptée par cette administration et une langue de publication.

Lorsqu'une traduction répondant à ces critères a déjà été remise à l'administration chargée de la recherche internationale pour les besoins de cette recherche et que l'administration chargée de l'examen préliminaire international fait partie du même office ou de la même organisation intergouvernementale que l'administration chargée de la recherche internationale, il n'est pas nécessaire pour le déposant de remettre une autre traduction. Dans ce cas, l'examen préliminaire international est effectué sur la base de la traduction remise aux fins de la recherche internationale.

La langue dans laquelle sera effectué l'examen préliminaire international doit être indiquée dans le cadre n° IV sur la ligne pointillée, et la case appropriée la concernant doit être cochée.

Langue des modifications (règles 55.3 et 66.9) : les modifications et les lettres qui s'y rapportent doivent être rédigées dans la langue dans laquelle l'examen préliminaire international sera effectué, comme il est expliqué aux paragraphes précédents.

Délai imparti pour remettre une traduction de la demande internationale (règle 55.2) : toute traduction de la demande internationale qui est exigée doit être remise (par le déposant) en même temps que la demande d'examen

préliminaire international. Si la traduction n'est pas remise en même temps, l'administration chargée de l'examen préliminaire international invitera le déposant à remettre cette traduction dans un délai qui sera d'au moins un mois à compter de la date de l'invitation. Ce délai peut être prorogé par l'administration chargée de l'examen préliminaire international.

CADRE N° V

Élection d'États (règle 53.7) : seuls peuvent être élus les États qui sont liés par le chapitre II du PCT *et* qui ont été désignés dans la demande internationale (c'est-à-dire qui ont fait l'objet de désignations faites en vertu de la règle 4.9.a), confirmées en vertu de la règle 4.9.c) ou considérées comme ayant été faites, en vertu de la règle 32.2.a)ii)). Ces États sont les "États éligibles".

Pour faciliter la tâche des déposants et les protéger, le cadre n° V contient une déclaration selon laquelle tous les États éligibles sont élus. Ce n'est que si le déposant ne souhaite pas élire certains États éligibles qu'il doit indiquer le nom ou le code à deux lettres de ces États après les mots "souhaite ne pas élire : ".

Il n'est pas nécessaire d'indiquer dans la demande d'examen préliminaire international quelle forme de protection ou de traitement est souhaitée pour tel ou tel État élu puisque les indications portées dans la demande internationale lors de la désignation de cet État restent valables.

CADRE N° VI

Bordereau : il est recommandé de remplir soigneusement ce cadre pour que l'administration chargée de l'examen préliminaire international puisse déterminer le plus rapidement possible si elle est en possession de la ou des modifications ou de la ou des lettres sur la base desquelles le déposant souhaite que l'examen préliminaire international commence.

Lorsque la demande internationale contient la divulgation d'une ou plusieurs séquences de nucléotides ou d'acides aminés, et qu'une copie du listage des séquences sous forme déchiffrable par ordinateur, conforme à la norme figurant dans les instructions administratives, est requise par l'administration chargée de l'examen préliminaire international, le déposant peut fournir à cette administration, conjointement avec la demande d'examen préliminaire international, le listage en question sous une forme déchiffrable par ordinateur. S'il le fait, la case n° 5 doit être cochée.

CADRE N° VII

Signature (règles 53.8, 90.3.a) et 90.4.a) : la demande d'examen préliminaire international doit être signée par le déposant ou par son mandataire; s'il y a plusieurs déposants, elle peut l'être par le représentant commun. Si elle n'est pas signée par une ou plusieurs personnes qui ont la qualité de déposant pour les États élus (une personne qui est déposant seulement pour un État non élu n'a pas besoin de signer la demande d'examen préliminaire international), un pouvoir signé par ces personnes doit être déposé auprès du Bureau international, de l'office récepteur ou de l'administration chargée de l'examen préliminaire international, sauf si le mandataire a été désigné à une date antérieure.

NOTES TO THE FEE CALCULATION SHEET (ANNEX TO FORM PCT/IPEA/401)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete, by entering the appropriate amounts in the boxes provided, and submit the fee calculation sheet at the time of filing of the demand. This will help the International Preliminary Examining Authority (IPEA) to verify the calculations and to identify any error in them.

CALCULATION OF PRESCRIBED FEES

Two fees must be paid for international preliminary examination:

- (i) the preliminary examination fee for the benefit of the IPEA (Rule 58.1);
- (ii) the handling fee for the benefit of the International Bureau (Rule 57).

Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The amount payable is the amount applicable on the date of submittal (Rules 57.3 and 58.1(b)). The fees must be paid in a currency acceptable to the IPEA.

Information about the amount of those fees or about equivalent amounts in other currencies can be obtained from the IPEA or the receiving Office. This information is also published in the *PCT Applicant's Guide*, Volume I/B, Annex E, and from time to time in Section IV of the *PCT Gazette*.

Box P: The amount of the preliminary examination fee must be entered in Box P.

Box H: The amount of the handling fee must be entered in Box H.

Reduction of the Handling Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the handling fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the handling fee will be automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Box No. II of the demand.

The fee reduction will be available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic,

CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CO Colombia, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EC Ecuador, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GQ Equatorial Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PH Philippines, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TN Tunisia, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VN Viet Nam, YU Yugoslavia, ZA South Africa, ZM Zambia and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the Handling Fee in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the handling fee, the total to be entered at Box H is 25% of the handling fee.

Total Box: The total of the amounts inserted in Boxes P and H is the amount which must be paid to the IPEA.

MODE OF PAYMENT

In order to help the IPEA identify the mode of payment of the prescribed fees, it is recommended to mark the applicable check-box(es).

AUTHORIZATION TO CHARGE (OR CREDIT) DEPOSIT ACCOUNT

The applicant should check whether the IPEA allows the use of deposit accounts for payment of PCT fees. In addition, it is recommended that the applicant check what are the specific conditions applicable to the use of deposit accounts with the IPEA since not all IPEAs provide the same services.

Finally, if the IPEA is not the same national Office or intergovernmental organization as that with which the international application was filed, the deposit account with the receiving Office cannot be charged for the purpose of paying the preliminary examination and handling fees due to the IPEA.

The IPEA will not charge fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

NOTES RELATIVES À LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/IPEA/401)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre à la demande d'examen préliminaire international. Cela aidera l'administration chargée de l'examen préliminaire international (IPEA) à vérifier les calculs et à y déceler d'éventuelles erreurs.

CALCUL DES TAXES PRESCRITES

L'examen préliminaire international donne lieu au paiement de deux taxes :

- i) la taxe d'examen préliminaire, au profit de l'administration chargée de l'examen préliminaire international (règle 58.1);
- ii) la taxe de traitement, au profit du Bureau international (règle 57).

Ces deux taxes doivent être payées à l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date à laquelle la demande d'examen préliminaire international est présentée. Le montant dû est le montant applicable à la date de présentation de cette demande d'examen (règles 57.3 et 58.1.b)). Les taxes doivent être payées dans une monnaie que l'administration chargée de l'examen préliminaire international accepte.

Des renseignements au sujet du montant de ces taxes ou de leur contre-valeur en d'autres monnaies peuvent être obtenus auprès de l'administration chargée de l'examen préliminaire international ou de l'office récepteur. Ces renseignements figurent également dans le *Guide du déposant du PCT*, volume I/B, annexe E, et sont aussi publiés périodiquement dans la section IV de la *Gazette du PCT*.

Cadre P : le montant de la taxe d'examen préliminaire doit être inscrit dans le cadre P.

Cadre H : le montant de la taxe de traitement doit être inscrit dans le cadre H.

Réduction de la taxe de traitement pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75% de certaines taxes du PCT, dont la taxe de traitement. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe de traitement s'appliquera automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans le cadre n° II de la demande d'examen préliminaire international.

La réduction de la taxe s'appliquera même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus,

BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CO Colombie, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EC Équateur, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GQ Guinée équatoriale, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, PH Philippines, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TN Tunisie, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud, ZM Zambie et ZW Zimbabwe. En ce qui concerne d'autres États, il conviendra de s'adresser au Bureau international.

Calcul de la taxe de traitement en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe de traitement, le montant devant figurer dans le cadre H est égal à 25% de la taxe de traitement.

Total : le total des montants inscrits dans les cadres P et H représente la somme à verser à l'administration chargée de l'examen préliminaire international.

MODE DE PAIEMENT

Pour aider l'administration chargée de l'examen préliminaire international à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

Le déposant devrait s'assurer que l'administration chargée de l'examen préliminaire international permet l'utilisation de comptes de dépôt pour le paiement des taxes du PCT. En outre, il est recommandé qu'il prenne connaissance des modalités particulières d'utilisation des comptes de dépôt auprès de cette administration étant donné que toutes les administrations chargées de l'examen préliminaire international n'offrent pas les mêmes services.

Enfin, si l'administration chargée de l'examen préliminaire international n'est pas l'office national auprès duquel, ou l'organisation intergouvernementale auprès de laquelle, la demande internationale a été déposée, le déposant ne peut pas utiliser le compte de dépôt auprès de l'office récepteur pour payer les taxes d'examen préliminaire et de traitement dues à l'administration chargée de l'examen préliminaire international.

L'administration chargée de l'examen préliminaire international ne débitera un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.
